- Contracting with the current external auditor will help ensure the timely and successful completion of the annual audit.
- Pursuing an RFP process may yield a more competitive fee; however, initial year costs may be higher to compensate the firm for the additional time it will take to acquire knowledge about the City's finances.

Cons:

- Contracting with Dixon Hughes delays a competitive process for selecting an independent audit firm for an additional year.
- Contracting with a new independent audit firm will require more time and resources to complete the audit by October 31, 2012.

The contract amendment with Dixon Hughes for FY 2010-2011 entails compensation in the amount of $10,000 to cover additional required work not included in the original contract. This additional amount will be paid for with currently budgeted funds.

A fee of $95,000 has been proposed for the FY 2011-2012 audit and is included in the Finance Department's portion of the annual operating budget. The total cost is less than FY 2011 by $24,000.

City staff recommends adoption of the resolutions: (1) Authorizing the Mayor to amend the contract to audit accounts for fiscal year 2010-2011 in the amount of $10,000 with Dixon Hughes, and; (2) Authorizing Mayor to execute a contract with Dixon Hughes Goodman LLP in the amount of $95,000 for auditing services for fiscal year 2011-2012.

Councilman Hunt recommended we proceed with an RFP for the auditing services every five years and that the process be delayed until FY 12-13. In addition with receiving proposals, he suggested an internal review of our current auditors and their quality of service.

Mayor Bellamy asked for an amendment to the resolutions to reflect that the City Manager be authorized to sign the contracts.

When Mayor Bellamy asked for public comment, no one spoke.

Mayor Bellamy said that members of Council have been previously furnished with copies of the resolutions and they would not be read.

Vice-Mayor Manheimer moved for the adoption of Resolution No. 12-11, as amended. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 237**

Vice-Mayor Manheimer moved for the adoption of Resolution No. 12-12, as amended. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 238**

**C. BOARDS & COMMISSIONS**

Regarding the ABC Board, Vice-Mayor Manheimer, Chair to the Boards & Commissions Committee, said that she has received a letter from the Chairman Ellis of the ABC Board requesting further advertisement. The current applicants (Genny Beville and Tim Flora) will be considered for interviews. It was the consensus of the Committee, and of City Council, to re-advertise for the vacancy of Charles Worley.

Regarding the Affordable Housing Advisory Committee, Vice-Mayor Manheimer noted that City Council has earlier agreed to an interview of Jayden Gurney (representative of the Housing Authority) on January 24, 2012.

Regarding the Airport Authority, former Vice-Mayor Brownie Newman is currently serving until June 30, 2012, and would be willing to remain until his term ends. Mayor Bellamy said that several years ago it was the consensus of Council to have a seated member of City Council on all our authorities to make sure that Council's voice is heard. With our Airport and our water being discussed with our legislators to take them away from the City, she felt it was important that City Council is informed as possible. She felt it was important for a Council member to be at the table while those issues are being discussed. Councilman Smith felt Mr. Newman would convey that information thoroughly in a timely fashion to Council. Councilman Davis supported Mr. Newman remaining on the Authority due to his knowledge of the discussions of the joint fire station at the Airport; however, Mr. Newman did state to him that he would understand if Council preferred to have a seated member of Council on the Authority. Councilman Davis said that Vice-Mayor Manheimer might be interested in the position and he would support that as well. Vice-Mayor Manheimer asked that this item be revisited in one month.

Regarding the Asheville-Buncombe Community Relations Council, Vice-Mayor Manheimer said that the Boards & Commissions Committee recommended (and Council agreed) these vacancies be reviewed in one month since the City has not heard about the reorganization of the Community Relations Council. Mayor Bellamy said that the Community Relations Council Board is currently in the process of hiring an Executive Director and should be functioning shortly after the new Executive Director is hired.

Regarding the Asheville-Buncombe Fair Housing Commission, Vice-Mayor Manheimer said that the Boards & Commissions Committee recommended (and Council agreed) these seats be postponed for six months.

Regarding the Homeless Initiative Advisory Committee (HIAC), Vice-Mayor Manheimer said that the Boards & Commissions Committee recommended, at the request of the HIAC, (and Council agreed) that these positions be re-advertised. During this re-advertisement time period, the HIAC will interview the applicants and per their charge, make a recommendation to City Council. Said charge reads "all members of the HIAC shall be recommended for appointment by the HIAC on the basis of their focus area or organization ..."

Regarding the HUB Community Economic Development Alliance, since no candidates applied, it was the recommendation of the Boards & Commissions Committee (and Council agreed) to re-advertise.

Due to a conflict with another board by Councilman Hunt, Vice-Mayor Manheimer was pleased to take over the liaison seat on the Asheville-Buncombe Historic Resources Commission. The Council concurred in this replacement.

For future consideration by the Boards & Commissions Committee, Councilman Hunt wondered if there was a need for all boards and commissions to play some kind of advocacy role in recruiting and promoting candidates for vacancies. Mayor Bellamy felt that as many people as possible should part of the process and encouraged the public to apply, even if there is not an existing vacancy on a board that they may be interested in.

**RESOLUTION NO. 12-13 - RESOLUTION APPOINTING MEMBERS TO THE BOARD OF ADJUSTMENT**

Vice-Mayor Manheimer said that the terms of Nelda Holder (Alternate), James Sheeler (Alternate), Robert Middlemas (Regular) and Janet Whitworth (Regular) as members on the Board of Adjustment expire on January 21, 2012. In addition, there currently exists a vacancy, left by Kristy Carter (Regular), whose term will expire January 21, 2014.

The following individuals applied for vacancies on the Board of Adjustment: David Nutter and Dima Kulakov. In addition, the following Alternates are interested in a Regular seat: Richard Fort, Phillip Hardin, Douglas Hattaway, Nelda Holder and James Sheeler.

Vice-Mayor Manheimer said that the Boards & Commissions Committee recommended (1) reappointing Janet Whitworth (Regular) and Nelda Holder (Alternate); (2) appointing Douglas Hattaway (Regular) and Richard Fort (Regular); and (3) re-advertise for the two remaining alternate seats.

There was a brief discussion on filling the remaining two regular vacancies; therefore, each Council member voted their two choices, resulting in David Nutter receiving 2 votes, Dima Kulakov received no votes; James Sheeler receiving 4 votes; Nelda Holder receiving 2 votes, Philip Hardin receiving no votes, Richard Fort receiving 2 votes, and Douglas Hattaway receiving 4 votes. Therefore, James Sheeler was appointed as a regular to serve a three-year term, term to expire January 21, 2015, and Douglas Hattaway was appointed a regular member to serve the unexpired term of Ms. Carter, term to expire January 21, 2014.

Councilman Bothwell moved to reappoint Nelda Holder (Alternate) to serve an additional three-year term, term to expire January 21, 2015. This motion was seconded by Mayor Bellamy and carried unanimously.

Councilman Davis moved to reappoint Janet Whitworth (Regular) to serve an additional three-year term, term to expire January 21, 2015. This motion was seconded by Councilman Bothwell and carried unanimously.

When Councilman Hunt asked if there was a policy that no person can serve on more than one board or commission, Vice-Mayor Manheimer said that it is possible and the Committee did take that into consideration with Mr. Nutter, who currently serves on the Historic Resources Commission. She said that serving on one board does not prohibit someone from serving on another board. City Attorney Oast said that depending on the nature of the appointment, there may be limitations prescribed by the dual office holding provisions. The Historic Resources Commission and the Board of Adjustment are two positions which he thinks that law applies. He would research that if applicable at this meeting.

Mayor Bellamy moved to appoint David Nutter to the vacant Alternate seat left by Mr. Hattaway, term to expire January 21, 2014, subject to the City Attorney's review of the dual office holding provision. This motion was seconded by Councilman Bothwell and carried unanimously.

52

It was also the consensus of Council to re-advertise for the alternate vacant seat left by Mr. Sheeler.

Following the vote, Mr. Nutter advised the City Clerk, who in turn advised Council, that he was not interested in the Board of Adjustment Alternate seat, but he was interested in a seat on the Downtown Commission. Mr. Nutter said that he would resign from the Historic Resources Commission if appointed to the Downtown Commission. Therefore, Council instructed the Clerk to advertise for two alternate seats.

**RESOLUTION BOOK NO. 34 – PAGE 239**

**RESOLUTION NO. 12-14 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE DOWNTOWN COMMISSION**

Vice-Mayor Manheimer said that the terms of Kitty Love, Michael McDonough and Jimi Rentz, as members on the Asheville Downtown Commission, expired on December 31, 2011.

The following individuals have applied for a vacancy on the Downtown Commission: David Nutter, Edward Loewe and Patric Mullen.

Vice-Mayor Manheimer said that the Boards & Commissions Committee recommended (1) reappointing Michael McDonough and Jimi Rentz; and (2) re-advertising for the remaining vacancy.

Councilman Davis to (1) reappoint Michael McDonough and Jimi Rentz to each serve a three-year term respectfully, terms to expire December 31, 2014, or until their successors have been appointed. This motion was seconded by Councilman Smith and carried unanimously.

Regarding the remaining vacancy left by Ms. Love, it was the consensus of Council to re-advertise for the remaining vacancy on the Downtown Commission.

**RESOLUTION BOOK NO. 34 – PAGE 240**

**RESOLUTION NO. 12-15 - RESOLUTION APPOINTING MEMBERS TO THE SUSTAINABLE ADVISORY COMMITTEE ON ENERGY & THE ENVIRONMENT**

Vice-Mayor Manheimer said that the terms of Ryan Blau, Ashley Featherstone and Matthew Raker, as members on the Sustainable Advisory Committee on Energy & the Environment expired on December 31, 2011.

The following individuals have applied for a vacancy on the Sustainable Advisory Committee on Energy & the Environment: Jeremiah Smith, Hobie Orton IV, Michael Leahey, William Hutchings, Timothy Ballard, Charles Rosenblum and Lael Gray.

Vice-Mayor Manheimer said that the Boards & Commissions Committee recommended reappointing Ryan Blau and Matthew Raker and appointing Lael Gray (as also recommended by the Sustainable Advisory Committee on Energy & the Environment).

Councilman Bothwell moved to reappoint Ryan Blau and Matthew Raker to each serve a three-year term respectfully, terms to expire December 31, 2014, or until their successors have been appointed. This motion was seconded by Councilman Hunt and carried unanimously.

Mayor Bellamy moved to appoint Lael Gray to serve a three-year term, term to expire December 31, 2014, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 241**

**RESOLUTION NO. 12-16 - RESOLUTION APPOINTING A MEMBER TO THE FIREMEN'S RELIEF FUND**

Vice-Mayor Manheimer said that the term of Pat Leckey, as a member on the Firemen's Relief Fund, expired on January 1, 2012.

No individuals have applied for a vacancy on the Firemen's Relief Fund.

Vice-Mayor Manheimer said that the Boards & Commissions Committee recommended reappointing Pat Leckey.

Councilman Hunt moved to reappoint Pat Leckey to serve an additional two-year term, term to expire January 1, 2014, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 242**

**RESOLUTION NO. 12-17 - RESOLUTION APPOINTING MEMBERS TO THE GREENWAY COMMISSION**

Vice-Mayor Manheimer, Chairman of the Boards & Commissions Committee, said that the terms of Marc Hunt, Susan Barlow and Stephanie Pankiewicz, as members on the Greenway Commission expired on December 31, 2011.

The following individuals have applied for a vacancy on the Greenway Commission: Ally Donlan, Mary Weber, Charles Rosenblum and Tony Hauser.

Vice-Mayor Manheimer said that the Boards & Commissions Committee recommended (1) reappointing Susan Barlow; (2) appointing Ally Donlan; and (3) interviewing Mary Weber and Tony Hauser.

Councilman Smith moved to reappoint Susan Barlow to serve an additional three-year term, term to expire December 31, 2014, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

Councilman Bothwell moved to appoint Ally Donlan to serve a three-year term, term to expire December 31, 2014, or until her successors has been appointed. This motion was seconded by Councilman Hunt and carried unanimously.

It was the consensus of Council to interview Mary Weber and Tony Hauser.

**RESOLUTION BOOK NO. 34 – PAGE 243**

**RESOLUTION NO. 12-18- RESOLUTION APPOINTING A MEMBERS TO THE METROPOLITAN SEWERAGE DISTRICT BOARD**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that the term of Bill Russell, as a member on the Metropolitan Sewerage District Board, expires on January 19, 2012.

No individuals have applied for a vacancy on the Metropolitan Sewerage District Board.

The Boards & Commission Committee recommended reappointing Bill Russell.

Councilman Smith moved to reappoint Bill Russell to serve an additional three-year term, term to expire January 19, 2015, or until his successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 244**

**RESOLUTION NO. 12-19- RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE TREE COMMISSION**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that the terms of Brandee Boggs, Amy Kemp and Bob Gale, as members on the Tree Commission, expired on December 31, 2011.

No individuals have applied for a vacancy on the Tree Commission.

The Boards & Commission Committee recommended reappointing Mr. Gale, Ms. Boggs and Ms. Kemp, as did the Tree Commission.

Councilman Bothwell moved to reappoint Bob Gale, Brandee Boggs and Amy Kemp to each serve a three-year term respectively, terms to expire December 31, 2014, or until their successors have been appoint. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 245**

**MOTION AMENDING THE CITY OF ASHEVILLE RULES ON BOARDS & COMMISSIONS REGARDING THE INCLEMENT WEATHER POLICY**

Vice-Mayor Manheimer said that Boards & Commissions Committee reviewed the Inclement Weather Policy for Boards & Commissions. It was the recommendation of the Boards & Commissions Committee that for City Council Committees (H&CD Committee; Planning & Economic Development Committee; Public Safety Committee; Finance Committee; and Boards & Commissions Committee), in the event of inclement weather, it shall be at the Chair's discretion whether or not the meeting is held that day.

Mayor Bellamy asked that the Chairs contact the City Clerk as soon as possible so she can post that information on the City's website and have a press release sent out.

Regarding the Inclement Weather Policy, Mayor Bellamy moved to amend the City of Asheville Rules on Boards and Commissions to include that for City Council Committees (H&CD Committee; Planning & Economic Development Committee; Public Safety Committee; Finance Committee; and Boards & Commissions Committee), in the event of inclement weather, it shall be at the Chair's discretion whether or not the meeting is held that day. This motion was seconded by Councilman Davis and carried unanimously.

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Ms. Kitty Katherine Richards and Ms. Rachael Bliss encouraged Asheville to adopt a resolution to bring our war dollars home.

Brother Christopher Chiaronmonte urged Council to repeal the panhandling ordinance.

Mr. Alan Ditmore asked for some accounting of how Asheville is helping the homeless on a net basis.

Mr. Timothy Sadler spoke about a program in Chicago that is a mobile truck that goes into underserved communities that have difficulty in accessing local fresh food. On another matter, he urged Council to not privatize our water.

Mr. Matthew Byrd asked for clarification on which Council members were serving on the Metropolitan Sewerage Board.

Mr. Kayvon Kazemini felt that corporations have more rights than people as Occupy Asheville was told they were impeding traffic into the Merrill Lynch building; however, he showed pictures of where other cars and trucks were blocking traffic into that same building. He felt that showed selective policing. In addition, he showed Council a copy of the Occupy Asheville community meeting board. He felt that the space outside the City Hall Building is not large enough for Occupy Asheville.

A resident of Asheville felt there are gaps in the service continuum for programs that address the needs of the most vulnerable populations, such as in the areas of severe persistent mental illness as well as substance abuse challenges. There is a recovery model relatively embraced by the State of North Carolina and programs that can be financed through networks drawing on state funds to effectively meet the needs of vulnerable populations using evidence based practice. Mayor Bellamy suggested that she talk to the County Commissioners as health and human services is a function of County government. She did note that when Asheville saw the greatest need, the City contributed money to the County to fund beds.

Vice-Mayor Manheimer said that the Study Committee chaired by Rep. Moffitt will have its first of four meetings on January 23, 2012, at 2:00 in Raleigh. At that time, Rep. Moffitt has asked that the City, MSD and others make presentations to that Study Committee. City Council will be represented. The second meeting will take place in Buncombe County in February. The Study Committee meeting on January 23 will take place in a room in the legislature that you can listen to on your computer. If you to go to the legislative website at ncleg.net you will be able to listen to the live feed. Mayor Bellamy asked the City Manager to see if that link can be placed on the City's website, if possible.

Councilman Bothwell reminded the public that this weekend is the celebration of the Dr. Martin Luther King Jr. On Monday, January 16, there will be conversations across the country sponsored by the American Dream Coalition to discuss rebuilding the American dream. He invited the public to attend that discussion at 271 Tunnel Road at 6:00 p.m.

**Lawsuits**

The following civil action has been commenced in Superior Court on December 7, 2011, and the City was served via certified mail on December 9, 2011, generally described as follows: Charles Long and Nancy Long vs. City of Asheville. The nature of the proceeding is a complaint for negligence, trespass, nuisance and breach of contract – Waterline break at 147 White Pine Drive, property of Charles and Nancy Long. This will be handled by an attorney outside of the City Attorney's Office.

The following civil action has been commenced in Superior Court on December 18, 2011, and is generally described as follows: Jay Fiano and wife, Stacy Fiano vs. City of Asheville. This is a notice of appeal and petition for writ of certiorari as an appeal of the Council's decision to close Moody Alley. This matter will be handled in-house.

**Closed Session**

At 7:28 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation

involving the following parties: Jensen, and others (Biltmore Lake Annexation), City of Asheville, Holly P. Oxner, Jr., Forrest Eugene Weaver, and similarly affected retired and/or active police officers of the City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:50 p.m., Councilman Smith moved to come out of closed session. This motion was seconded by Councilman Hunt and carried unanimously.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 7:50 p.m.

Magdalen Burleson
CITY CLERK

Jan McBellamy
MAYOR

Tuesday – January 24, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Assistant City Manager Jeffery B. Richardson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Vice-Mayor Manheimer gave the invocation.

**I. PROCLAMATIONS:**

**A. PROCLAMATION PROCLAIMING FEBRUARY 2012 AS "BLACK HISTORY MONTH"**

Mayor Bellamy read the proclamation proclaiming February, 2012, as "Black History Month" in the City of Asheville. She presented the proclamation to Mr. Al Whitesides, who briefed City Council on some activities taking place during the month.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 10, 2012**

**B. RESOLUTION NO. 12-20 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL SERVICE AGREEMENT WITH BROWN AND CALDWELL FOR THE WATER RESOURCES MAIN TRANSMISSION LINE EVALUATION PROJECT**

**ORDINANCE NO. 4044 - BUDGET AMENDMENT FOR WATER RESOURCES MAIN TRANSMISSION LINE EVALUATION PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to enter into a professional service agreement for the Main Water Transmission Line Evaluation with Brown and Caldwell in the not-to-exceed amount of $319,018.00; and a budget amendment in the amount of $219,018 from savings in the Viewmont Acres Waterline Project that was completed under budget.

The City of Asheville Water Resources Department is seeking the services of a qualified engineering firm to work with staff to develop an assessment of some of the City's main water transmission lines with an overall goal to develop long term planning solutions for the replacement of its most critical water infrastructure. This contract represents part one of a two part project. The successful completion of this first project will result in the delivery of an inventory and condition evaluation of the selected transmission lines and system appurtenances; specifically 61,000 linear feet of 50 year-old 36-inch steel transmission main and 35,000 linear feet of 85 year-old 24-inch cast iron transmission main.

The Water Resources Department issued a Request for Qualifications (RFQ) for Engineering Services related to the project. In response to that RFQ, the department received eight (8) proposals. Companies responding were:

1. Arcadis G&M of North Carolina, INC. – Greensboro, NC
2. Brown and Caldwell – Charlotte, NC
3. Hazen and Sawyer, P.C. – Charlotte, NC
4. Michael Baker Engineering, Inc. – Asheville, NC
5. Stantec – Charlotte, NC
6. The Wooton Company – Raleigh, NC
7. Vaughn & Melton Consulting Engineers – Asheville, NC
8. Willis Engineers – Charlotte, NC

A review team, comprised of staff from the City of Asheville Water Resources Department reviewed these proposals and selected the firm Brown and Caldwell. Subsequent to this selection, Water Resources met with Brown and Caldwell and negotiated an Engineering Services Contract in the amount of $319,018.

This project is part of City Council's strategic plan to maintain city infrastructure and to operate the City of Asheville to the highest levels of fiscal responsibility.

Pros:

- Brown and Caldwell has provided Engineering Services on numerous water system projects for the City of Asheville. Their experience and knowledge of our water system will minimize staff support and input during the process.
- This project will provide the City of Asheville with the first set tools necessary to complete the entire proposed project and ultimately make sound decisions for planning and replacement of its most critical water infrastructure.

Con:

- Failure to award an engineering services contract would prevent the Water Resources Department from completing the necessary planning and replacement of critical water infrastructure in a timely manner.

The Water Resources Department currently has $100,000.00 budgeted for this project. The remaining funds of $219,018 needed for the contract with Brown and Caldwell will be transferred from the Viewmont Acres Waterline Project that was completed under budget.

| | |
|---|---|
| Amount in Viewmont Acres Construction | $269,140.72 |
| Amount Needed for Asset Mgt Plan Update | $219,018.00 |
| Amount Remaining in Viewmont Acres Construction Project | $ 50,122.72 |

The amount remaining in the completed Viewmont Acres Project will be reallocated to other capital projects as the need arises. Staff will seek Council approval on any future reallocation of these funds.

City staff recommends City Council approval of the City Manager to enter into a professional service agreement for the Main Water Transmission Line Evaluation with Brown and Caldwell in the not-to-exceed amount of $319,018; and a budget amendment in the amount of $219,018.00 from savings in the Viewmont Acres Waterline Project that was completed under budget.

**RESOLUTION BOOK NO. 34 – PAGE 246**
**ORDINANCE BOOK NO. 27 - PAGE 255**

**C. RESOLUTION NO. 12-21- - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH T & K UTILITIES INC. FOR THE WATER RESOURCES WATER SERVICE RENEWALS PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with T & K Utilities, Inc., in an amount not to exceed $236,805, for the Water Resources Water Service Renewals Project.

On December 14, 2011, the Water Resources Department issued a Request for Bids for the Water Service Renewals Project. The scope of the project is to renew existing water services that have been identified as sub-standard as part of the department's ongoing Automated Meter Reading (AMR) project. There will be 100 water services renewed as part of this project, including new meter boxes, new meter setters, new connections to the existing house lines, and approximately 2,100 Linear Feet of copper line.

On January 4, 2012, Water Resources received four (4) bids for the project. Companies responding were:

1. T & K Utilities, Inc. – Asheville, NC; $236,805.00 total bid
2. Patton Construction Group, Inc. – Asheville, NC; $273,820.00
3. Huntley Construction Co. – Asheville, NC; $287,331.00
4. Payne, McGinn & Cummins, Inc. – Travelers Rest, SC; $293,093.66

A review team comprised of City staff reviewed these bids and selected T & K Utilities, Inc., as the lowest responsible bidder in the amount of $236,805.00.

This project is part of City Council's strategic plan to maintain and improve city infrastructure and provide local companies with labor opportunities.

Pros:

- Approval of the project will allow Water Resources to renew existing, sub-standard water services to residential houses.
- The project will provide a local company with work for several months.

Con:

- None.

As part of the Automated Meter Reading (AMR) Project, the Water Resources Department has allocated the funds needed for this construction project in the Capital Projects Fund. The AMR Project will reduce meter reading time by 85%, which will reduce meter reading costs in time and allow most Meter Readers to transition to other priority positions within the department. Remote meter reading is already improving customer service by reducing meter reading errors that lead to duplicate field visits and reducing the unit cost of meter reading devices by purchasing them in bulk.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into an agreement with T & K Utilities in an amount not to exceed $236,805.00 for the Water Resources Water Service Renewals Project.

**RESOLUTION BOOK NO. 34 – PAGE 247**

**D. RESOLUTION NO. 12-22 - RESOLUTION AUTHORIZING THE CITY MANAGER AND/OR MAYOR TO APPLY FOR AND, IF AWARDED, ENTER INTO A GRANT AGREEMENT WITH THE STATE OF NORTH CAROLINA FOR**

**FUNDING OF LAND ACQUISITION FOR REED CREEK GREENWAY, PHASE IV**

Summary: The consideration of a resolution authorizing the City Manager and/or Mayor to apply for and, if awarded, enter into a grant agreement with the State of North Carolina for funding of land acquisition for Reed Creek Greenway Phase IV.

Funds are available through the State of North Carolina, Department of Environment and Natural Resources, Division of Parks and Recreation in the Recreation Trails Program (RTP) to fund trails and trail-related recreational needs. The City of Asheville wishes to submit a grant application for $75,000 for land acquisition of the easements necessary for completion of Phase IV of Reed Creek Greenway.

The RTP grant is a reimbursement grant program which requires a minimum local match of 25%. In order to strengthen the chance of receiving the grant, the City will match the state funding dollar for dollar in the amount of $75,000 which is budgeted in the City's capital improvement budget for greenway development in land acquisition. The City will also provide in-kind services (legal, surveying) in the amount of $5,000 for a total match of $80,000.

The Reed Creek Greenway is an urban greenway that links downtown Asheville, the University of North Carolina-Asheville campus, and adjacent Montford and Five Points neighborhoods. Construction is funded by a grant from the State of North Carolina, Department of Transportation and the City of Asheville capital improvement budget.

The Reed Creek Greenway construction is being implemented in four phases. Phase I is complete and Phase II will be finished in early 2012. The City is partnering with UNC-Asheville to complete Phase III with agreement pending. The grant will substantially assist in acquiring the necessary easements to complete land acquisition for Phase IV and other strategic adjacent parcels along the Reed Creek Greenway. Preliminary design drawings are complete for Phase IV, and construction drawings and construction will follow land acquisition. Staff anticipates budgeting for greenway construction in the FY 2015-2016 capital improvement budget.

This action complies with the City Council Strategic Operating Plan Focus Area- Multimodal Transportation in that it will integrate and implement a multi-modal transportation plan including sidewalks, bike paths, signal preemption, transit, greenways, streets, rivers and access to the river, and other system improvements resulting in a funding priority list. This action also complies with the Parks, Recreation, Cultural Arts, and Greenways Master Plan-Increase the Level of Service and Access for Parks, Facilities and Greenways in that it will develop connected greenway corridors and destinations, prioritize a list of needed easements to connect greenways and parks, and complete projects funded from other sources.

Pro:

- If awarded, the grant will provide additional funding for land acquisition which is required to complete Phase IV of Reed Creek Greenway.

Con:

- The grant application process is competitive and a grant award is not guaranteed.

Award of the grant will reimburse the City of Asheville $75,000. As noted above, the match of $80,000 will come from the approved capital improvement budget for land acquisition.

City staff recommends City Council to adopt a resolution authorizing the City Manager and/or Mayor to apply for and enter into an agreement for grant funds with the State of North Carolina, Department of Environment and Natural Resources, Division of Parks and Recreation in the Recreation Trails Program for $75,000 for reimbursement of land acquisition costs for the Reed Creek Greenway Phase IV.

**RESOLUTION BOOK NO. 34 – PAGE 249**

**E. RESOLUTION NO. 12-23 - RESOLUTION TO CONSIDER THE PERMANENT CLOSING OF A PORTION OF SOUTH PACK SQUARE AND SETTING A PUBLIC HEARING FOR FEBRUARY 28, 2012**

Summary: The consideration of a resolution of intent to permanently close a portion of S. Pack Square, and setting a public hearing on February 28, 2012.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjacent property owner The City of Asheville has requested the City of Asheville to permanently close a portion of S. Pack Square.

The proposed permanent closure of a portion of S. Pack Square has been placed on the Greenway Commission's agenda at their regular meeting on January 12, 2012, and approved the closure unanimously.

This closure allows maximum land use potential for further development complying with the Asheville City Development Plan, Land Use.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close a portion of S. Pack Square, and setting a public hearing on February 28, 2012.

**RESOLUTION BOOK NO. 34 – PAGE 250**

**F. RESOLUTION NO. 12-24 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE CONTRACT WITH AMEC (PREVIOUSLY MACTEC) TO INCREASE SPECIAL INSPECTIONS AND TESTING SERVICES FOR THE PARKING GARAGE LOCATED AT 51 BILTMORE AVENUE**

Summary: The consideration of a resolution authorizing the City Manager to execute an amended contract with AMEC (MACTEC) in the amount of $9,400 to provide additional special inspection and construction materials testing for the parking garage at 51 Biltmore Avenue.

The City of Asheville contracted with AMEC (formally MACTEC) in the amount of $46,000 to perform special geotechnical and material inspections as well as testing. The contract was amended in August 2011 in the amount of $27,500 due to the fact that we encountered some issues on the site that increased the need for additional geotechnical testing and inspections. These issues include additional fill material on the site that required additional excavation. Additional testing had to be performed to make sure the sub-surface was compacted. In the same vein, the soil wall had to be extended. This required additional soil nail installation and inspection. Finally, due to the compressed schedule of the project, more overtime hours are required to perform these inspections. Some of these overtime cost will be reimbursed by the contractor in a change order deduct.

Since the first amendment in August 2011, the consultant has been asked to increase the hours of inspection due to the expedited schedule of the project. The increase in cost is $9,400 for a total contract amount of $82,900. We do not expect any additional changes to this contract.

This project complies with the City's Parking Action Plan. Additionally, the action complies with Job Growth and Community Development by supporting a dynamic and robust local economy with balanced and sustainable growth.

Pros:

- Insures that proper oversight, inspection and testing are performed by qualified professionals and in the best interest of the City.
- Reduces liability in releasing the retainage on the project.

Con:

- Additional cost of $9,400.

The parking garage portion of the project is approximately 73% complete. We have paid $5.5 million of the $7.5 million contract amount. To date we have approved $35,000 in change orders (less than 0.5%). The budget includes a 10% contingency as part of the project cost. The increase in the Kimley-Horn amendment will reduce the amount of contingency to $563,000. This amendment will decrease the contingency to $526,100. We do not anticipate any significant change orders on this project. This amendment will not increase the budget for the entire project.

Staff is recommending City Council authorize the City Manager to execute an amended contract with AMEC (MACTEC) in the amount of $9,400 to provide additional special inspection and construction materials testing for the parking garage at 51 Biltmore Avenue.

**RESOLUTION BOOK NO. 34 – PAGE 252**

**G. RESOLUTION NO. 12-25 - RESOLUTION AMENDING THE CITY COUNCIL 2012 MEETING SCHEDULE TO ADD A CITY COUNCIL RETREAT ON FRIDAY, FEBRUARY 3, 2012, AT UNC-ASHEVILLE IN THE WILMA M. SHERRILL CENTER**

**RESOLUTION BOOK NO. 34 – PAGE 253**

**H. RESOLUTION NO. 12-26 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A LEASE AGREEMENT WITH THE HOUSING AUTHORITY FOR A PORTION OF REAL PROPERTY KNOWN AS THE W.C. REID CENTER LOCATED AT 144 LIVINGSTON STREET**

Summary: The consideration of a resolution authorizing the City Manager to enter into a Lease Agreement with the Housing Authority of the City of Asheville for a portion of real property known as the W.C. Reid Center, located at 133 Livingston Street.

On January 25, 2011, the Asheville City Council authorized the Mayor to enter into an agreement for the disposition of City-owned property at 133 Livingston Street to the Housing Authority for the purpose of using the property as a community-based education and training center. As a condition of sale, the City required a lease-back of the W.C. Reid Center gymnasium and gym storage, one office, and a shared conference room, so that the Parks Department may continue to provide recreation programming in the gymnasium. The City will pay one-half of the cost of electricity, heat, water and other utility charges for the property during the three year lease period.

At this point, the Housing Authority has completed all necessary due diligence and a closing date is anticipated for January 26th 2012. Pending Council approval, the lease-back to the City of Asheville will commence on the day of closing.

This action complies with the City Council Strategic Operating Plan as follows: (1) *Job Growth & Community Development:* A lease of property allows the City to provide continued gymnasium access to the community, while future phases of the Grant Center are implemented.

Pro:

- Continued recreation programming for the community.

Con:

- None.

The annual cost for one-half of the utilities at the W.C. Reid Center is estimated at $31,000. This utility expense is already included in the Park, Recreation and Cultural Arts Budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute the lease agreement with the Housing Authority of the City of Asheville, for a portion of the WC Reid Center property at 133 Livingston Street.

**RESOLUTION BOOK NO. 34- PAGE 254**

**I. RESOLUTION NO. 12-27 - RESOLUTION AUTHORIZING EXECUTION OF A UTILITY EASEMENT ACROSS CITY PROPERTY AT THE WILLIAM DEBRUHL WATER TREATMENT PLANT AT 1370 BEE TREE ROAD IN SWANNANOA NC TO RELOCATE A POWER LINE**

Summary: The consideration of a resolution granting Progress Energy a utility easement over city property at the William DeBruhl Water Treatment Plant.

The City of Asheville owns the property at the William DeBruhl Water Treatment Plant at 1370 Bee Tree Rd in Swannanoa, NC. As part of Progress Energy's utility maintenance, they need to relocate the power line that runs to the water plant. Progress Energy needs an easement to run the power line from the spillway bridge along the creek to where the existing line is now.

The easement that is being requested would be 30 feet in width and approximately 1,150 feet in length. In addition, Progress Energy would be permitted to construct and maintain its line (including poles, cables, wires, guys, anchors, underground conduits, and other pertinent facilities) and to keep the area cleared of trees, undergrowth, or any other obstructions that may endanger or hinder their operation and maintenance.

This project is part of City Council's strategic plan to leverage external partnerships for pursuing infrastructure improvements.

Pro:

- The new utility pole will update aging infrastructure that supplies power to the water plant.

Cons:

- May require periodic trimming / removal of vegetation within the easement area.
- The City cannot use the area in a manner that interferes with the easement.
- The City will have to ensure that future uses of the property are compatible with the easement.

There is no fiscal impact.

Water Resources staff recommends adoption of the resolution authorizing the Mayor to execute the easement, subject to approval by the City Attorney.

**RESOLUTION BOOK NO. 34 – PAGE 255**

**J. RESOLUTION NO. 12-28 - RESOLUTION AMENDING RESOLUTION NO. 12-11 AUTHORIZING THE MAYOR TO AMEND THE CONTRACT WITH DIXON HUGHES GOODMAN LLP FOR AUDITING SERVICES FOR FISCAL YEAR 2010-2011**

**RESOLUTION NO. 12-29 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONTRACT WITH DIXON HUGHES GOODMAN LLP FOR AUDITING SERVICES FOR FISCAL YEAR 2011-2012**

Summary: On January 10, 2012, City Council authorized the City Manager to sign an amended contract with Dixon Hughes Goodman LLP for auditing services for Fiscal Year 2010-11. In addition, on January 10, 2012, City Council authorized the City Manager to execute a contract with Dixon Hughes Goodman LLP for auditing services for Fiscal Year 2011-12.

Pursuant to Local Government Commission requirements, the Mayor must execute these agreements on behalf of City Council.

**RESOLUTION NO. 12-28 - RESOLUTION BOOK NO. 34 – PAGE 257**
**RESOLUTION NO. 12-29 - RESOLUTION BOOK NO. 34 – PAGE 258**

**K. ORDINANCE NO. 4045 - ORDINANCE CHANGING THE SPEED LIMIT TO 25 MPH ON SOUTH FRENCH BROAD, SOCO STREET, SHADY OAK DRIVE, BELMONT AVENUE, BROWNWOOD AVENUE, HANOVER STREET, MANILA STREET, STONEBRIDGE DRIVE AND VANDERBILT PARK DRIVE**

Summary: The consideration of an ordinance to enact and/or change a speed limit on South French Broad, Soco Street, Shady Oak Drive, Belmont Avenue, Brownwood Avenue, Hanover Street, Manila Street, Stonebridge Drive, and Vanderbilt Park Drive.

According to state law (NCGS # 20-141), the statutory speed limit in North Carolina is 35 mph inside municipal corporate limits for all vehicles and 55 mph outside municipal corporate limits for all vehicles except for school buses and school activity buses.

Furthermore, local authorities may authorize by ordinance higher speeds or lower speeds than the statutory 35 mph speed limit on locally-maintained streets provided that the higher speed limit cannot exceed 55 mph. Speed limits authorized by local authorities are effective when the appropriate signs are erected.

City staff recently completed traffic engineering investigations and determined that a 25 mph speed limit would be reasonable and safe on the following streets. The subject streets primarily serve residential areas and established neighborhoods. They are South French Broad Avenue from Choctaw Street to the End of City Maintenance, Soco Street from Cumberland Avenue to Montford Avenue, Shady Oak Drive from London Road to the Dead End, Belmont Avenue from Haywood Road to Sulphur Springs Road, Brownwood Avenue from Waynesville Avenue to Beverly Road, Hanover Street from Haywood Road to Cordova Street, Manila Street from Springside Drive to Sand Hill Road, and Stonebridge Drive in its entirety.

Additionally, City Staff recently completed traffic engineering investigations and determined that a 25 mph speed limit would be reasonable and safe on Vanderbilt Park Drive from Hendersonville Road to End of City Maintenance. This road primarily serves office buildings

and has numerous driveways and entrances. There is also a potential for a large amount of pedestrians due to existing and proposed sidewalks and proposed developments.

This action complies with the City Council Strategic Operating Plan in the Safety focus area by improving the "street experience" for all users including pedestrians, bicycles, and motorists in a primarily residential corridor.

Pros:

- City staff has been able to respond favorably to citizen's requests.
- The new speed limit will be consistent with roads of like character and design.
- Based on the 85th percentile speeds, most drivers would adhere to a 25 mph posted speed limits on these roads.

Cons:

- The initial cost to install the appropriate speed limit signs is about $4,000.00.
- Typically, speed limit signs have a serviceable life of five to seven years.

The initial cost to install the appropriate speed limit signs is about $4,000.00 and is included in the current operating budget for the Transportation Department.

City staff recommends that City Council approve an ordinance enacting and/or changing a 25 mph speed limit on South French Broad Avenue from Choctaw Street to the End of City Maintenance, Soco Street from Cumberland Avenue to Montford Avenue, Shady Oak Drive from London Road to the Dead End, Belmont Avenue from Haywood Road to Sulphur Springs Road, Brownwood Avenue from Waynesville Avenue to Beverly Road, Hanover Street from Haywood Road to Cordova Street, Manila Street from Springside Drive to Sand Hill Road, Shady Oak Drive from London Road to Dead End, Stonebridge Drive in its entirety, and Vanderbilt Park Drive from Hendersonville Road to End of City Maintenance.

**ORDINANCE BOOK NO. 27 – PAGE 257**

**L. ORDINANCE NO. 4046 - ORDINANCE CHANGING THE SPEED LIMIT TO 20 MILES PER HOUR ON SCHENCK PARKWAY, COLUMBINE ROAD, DEARBORN STREET, EAST SCHENCK CRESCENT, STAMFORD STREET, THETFORD STREET, TOWN SQUARE BOULEVARD, AND WALTERSTONE ROAD IN BILTMORE PARK IN SOUTH ASHEVILLE; CROWNINGWAY DRIVE AND CUMMINS ROAD IN EAST ASHEVILLE; AND UNIVERSITY HEIGHTS IN NORTH ASHEVILLE**

Summary: The consideration of an ordinance to enact and/or change a speed limit on Schenck Parkway, Columbine Road, Dearborn Street, East Schenck Crescent, Stamford Street, Thetford Street, Town Square Boulevard, and Walterstone Road in Biltmore Park, South Asheville. Additionally, the ordinance will enact a speed limit on Crowningway Drive and Cummins Road in East Asheville and University Heights in North Asheville.

According to state law (NCGS # 20-141), the statutory speed limit in North Carolina is 35 mph inside municipal corporate limits for all vehicles and 55 mph outside municipal corporate limits for all vehicles except for school buses and school activity buses.

Furthermore, local authorities may authorize by ordinance higher speeds or lower speeds than the statutory 35 mph speed limit on locally-maintained streets provided that the higher speed limit cannot exceed 55 mph. Speed limits authorized by local authorities are effective when the appropriate signs are erected.

City staff recently completed an engineering and traffic investigation and determined that a 20 mph speed limit would be reasonable and safe on East Schenck Crescent from Thetford

66

Street to Schenck Parkway, Stamford Street from Thetford Street to Schenck Parkway, Thetford Street from Stamford Street to Schenck Parkway, Town Square Boulevard from Thetford Street to its northern intersection with Schenck Parkway, Walterstone Road from Thetford Street to Stamford Street, Schenck Parkway from Thetford Street to its northern intersection with East Schenck Crescent, Columbine Road from Town Square Boulevard to East Schenck Crescent, and Dearborn Street from Town Square Boulevard to East Schenck Crescent. In addition, since this area of Biltmore Park has the same characteristics of a central business district, it is reasonable to enact a 20 mph speed limit. The subject streets have on street parking and a large amount of pedestrian and bicycle activity.

City staff recently completed an engineering and traffic investigation and determined that a 20 mph speed limit would be reasonable and safe on University Heights from the northern intersection with Edgewood Road to the southern intersection with Edgewood Road. The subject street primarily serves the University of North Carolina at Asheville and is subject to high levels of pedestrian traffic with numerous crosswalks. Because of this characteristic of the road, City Staff feels that the lower speed limit is warranted and will be effective.

City staff recently completed an engineering and traffic investigation and determined that a 20 mph speed limit would be reasonable and safe on Crowningway Drive from Sunset Summit to Patton Mountain Road (SR 2049). This lower speed limit will be effective due to the topography of the roadway and is consistent with surrounding roads.

This action complies with the City Council Strategic Operating Plan in the Safety focus area by improving the "street experience" for all users including pedestrians, bicycles, and motorists in a primarily residential corridor.

Pros:

- City staff has been able to respond favorably to neighborhood requests.
- City staff has been able to respond favorably to a request from the University of Asheville.
- The 20 mph speed limits are consistent with roads of similar design and character.

Cons:

- The initial cost to install the appropriate speed limit signs is about $2,000.
- Typically, speed limit signs have a serviceable life of five to seven years.

The initial cost to install the appropriate speed limit signs is about $2,000 and is included in the current operating budget for the Transportation Department.

City staff recommends that City Council approve an ordinance enacting and/or changing a 20 mph speed limit on East Schenck Crescent from Thetford Street to Schenck Parkway, Stamford Street from Thetford Street to Schenck Parkway, Thetford Street from Stamford Street to Schenck Parkway, Town Square Boulevard from Thetford Street to its northern intersection with Schenck Parkway, Walterstone Road from Thetford Street to Stamford Street, Schenck Parkway from Thetford Street to its northern intersection with East Schenck Crescent, Columbine Road from Town Square Boulevard to East Schenck Crescent, and Dearborn Street from Town Square Boulevard to East Schenck Crescent in the Biltmore Park neighborhood in South Asheville. Additionally, City Staff recommends that City Council approve an ordinance enacting and/or changing a 20 mph speed limit on University Heights from the northern intersection with Edgewood Road to the southern intersection with Edgewood Road and Crowningway Drive from Sunset Summit to Patton Mountain Road (SR 2049).

Director of Transportation Ken Putnam was pleased to recognize Mr. Jeff Moore, the City's new Traffic Engineer.

**M. RESOLUTION NO. 12-30 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AMENDMENT TO THE PROFESSIONAL SERVICES CONTRACT WITH BETSCH ASSOCIATES/PBC+L FOR ADDITIONAL DESIGN SERVICES RELATED TO THE CIVIC CENTER RENOVATION PROJECT**

Summary: The consideration of a resolution to authorize the City Manager to execute an amendment to the professional services contract with Betsch Associates/PBC+L for additional design services related to the Civic Center renovations in the amount of $22,295 for a total contract amount not to exceed $848,000 for Phase II of the project.

Betsch Associates/PBC+L has provided design services for project components that were anticipated in the preliminary design as well as design for some components arising from issues not anticipated during the initial design phases and issues detected after the preliminary demolition phases were completed. This amendment covers items including design of replacement office space that was eliminated as a result of elevator placement and other issues as the project has moved to completion of the current phase of construction.

This action complies with the City Council Strategic Operating Plan's Fiscal Responsibility goal of developing strategic partnerships to leverage resources for infrastructure and CIP projects. This action also complies with the Civic Center Commission Master Plan that encourages continuing renovations for the facility, and supports the goal of developing new partnerships. It has been reviewed and recommended by the Civic Center Commission.

Pros:

- Action updates the professional services contract to meet the obligations for the required design necessitated by unforeseen conditions at the beginning of the design.
- Action meets the requirements to facilitate the Southern Conference, and the resulting economic impact.
- Action will support improved facilities in the renovated facility.
- Action leverages significant partnership funding to allow for greater levels of renovation.

Con:

- None. Funding for this has previously been approved in the project budget.

Funding for this professional services contract amendment is already budgeted and approved in the current Capital Budget for the Project, so no additional funding is required. The amount of the amendment will come from the approved project contingency.

Staff recommends approval of a resolution to authorize the City Manager to execute an amendment to the professional services contract with Betsch Associates/PBC+L for additional scope of design services for the Asheville Civic Center Renovations in the amount of $22,295.

**RESOLUTION BOOK NO. 34 – PAGE 259**

**N. ORDINANCE NO.4047 - BUDGET AMENDMENT IN THE HOUSING TRUST FUND FROM SALE OF LAND AND HOUSING TRUST FUND RESERVES TO FULLY BUDGET PLANNED EXPENDITURES FOR FISCAL YEAR 2011-12**

Summary: The consideration of a budget amendment in the Housing Trust Fund, in the amount of $412,672, from sale of land and Housing Trust Fund reserves to fully budget planned expenditures for Fiscal Year 2011-12.

In FY 2000-01, the City established the Housing Trust Fund to provide financing for affordable housing initiatives in the City. Each year since FY 2000-01 City Council, as a part of

the budget process, has approved an annual transfer from the General Fund to the Housing Trust Fund. This transfer, combined with program income, provides ongoing funding for affordable housing initiatives. The adopted FY 2011-12 budget for the Housing Trust Fund, which totaled $450,000, was funded by a $300,000 General Fund transfer as well as $150,000 in anticipated program income.

The adopted FY 2011-12 expenditure budget included $62,672 in administrative expenses, which left $387,328 in budget authorization available for disbursements of loan proceeds. However, based on loan disbursements already approved by Council, the budget for FY 2011-12 needs to be increased by $412,672. The table below outlines the total expected loan expenditures for FY 2011-12 as well as administrative expenses.

| | |
|---|---|
| Administrative Expenses | $62,672 |
| K Booth – Shiloh Road (Loan approved March 2011) | $80,000 |
| MHO - Eagle Market Place (Loan approved March 2011) | $300,000 |
| Beaucatcher Properties - (loan approved February 2012) | $200,000 |
| MHO – Glen Rock Hotel (loan approved February 2012) | $220,000 |
| | |
| Total | $862,672 |

As noted above, in order to provide budget authorization for these expenditures of $862,672, the Housing Trust Fund budget needs to be increased by $412,672. The City expects to receive $300,000 in unbudgeted revenue from the sale of land to Asheville Area Habitat for Humanity in the current fiscal year, which will provide a portion of the funding for the budget amendment. The remaining $112,672 in budget authorization will come from available Housing Trust Fund reserves.

The Housing & Community Development Committee has been informed of the budget and fiscal impact.

This action complies with the City Council Strategic Operating Plan goal of "Operate the City of Asheville to the highest levels of fiscal responsibility."

Pro:

- Provides the required budget authorization for expenditures that are expected to occur in the Housing Trust Fund in FY 2011-12.

Con:

- None.

All of the disbursements that have occurred or are planned prior to June 30, 2012 have already been approved by City Council. This budget amendment will simply provide the required budget authorization to execute the disbursements. Upon the sale of land as described above and the receipt of regular loan repayments, the Housing Trust Fund will have sufficient cash to make the authorized disbursements. Our procedure is to disburse funds only when there is a sufficient cash balance, on a first come, first serve basis. Once these disbursements are made, however, available cash for Housing Trust Fund loans will have been fully spent for FY 2011-12.

City staff recommends City Council adopt a budget amendment in the Housing Trust Fund, in the amount of $412,672, from sale of land and Housing Trust Fund reserves to fully budget planned expenditures for Fiscal Year 2011-12.

**ORDINANCE BOOK NO. 27 – PAGE 259**

**O. ORDINANCE NO. 4048 - BUDGET AMENDMENT AUTHORIZING THE DISPOSTION OF REAL PROPERTY KNOWN AS THE W.C. REID CENTER LOCATED AT 133 LIVINGSTON STREET**

Summary: The consideration of a budget amendment, in the amount of $254,500, authorizing the disposition of real property located at 133 Livingston Street, known as the W.C. Reid Center.

This budget amendment establishes a project budget within the General Capital Projects Fund related to the disposition of the W.C. Reid Center to the Housing Authority of the City of Asheville. The sale of this property was approved by City Council on January 24, 2011 with the sales price of the property based on appraisal at $254,500. The proceeds from the sale will fund the next phase of development for the Dr. Wesley Grant Senior Southside Center.

This action complies with the City Council Strategic Operating Plan as follows: (1) *Fiscal Responsibility*: The proceeds from the sale would yield funds to support the City in pursuing development of Phase II of the Dr. Wesley Grant Senior Southside Center which would be for the development of the splash ground and/or construction documents for the development of the gymnasium.

Pros:

- Sales price based on fair market value
- Housing Authority plans to preserve and rehabilitate the Reid Center as a community education and training center
- Provides funding for the next phase of development for the Dr. Wesley Grant Senior Southside Center.

Con:

- None

As noted above, the proceeds of the sale are estimated at $254,500. The funds will be used to increase the project budget in the General Capital Projects Fund for the next phase of development for the Dr. Wesley Grant Senior Southside Center.

City staff requests City Council to adopt a budget amendment of $254,500 authorizing the disposition of 133 Livingston Street, known as the W.C. Reid Center, to the Housing Authority of the City of Asheville.

**ORDINANCE BOOK NO. 27 – PAGE 261**

**P. ORDINANCE NO. 4049 - BUDGET AMENDMENT FROM LETTER OF CREDIT FROM MOUNTAIN 1ST BANK & TRUST TO COMPLETE THE CONSTRUCTION OF THE MILL CREEK CONDOMINIUM PROJECT**

Summary: The consideration of a budget amendment, in the amount of $38,207, to appropriate funds from a letter of credit from Mountain 1st Bank & Trust to complete the construction of the Mill Creek Condominium project.

On March 25, 2011, a letter to Carolina 1st Bank and Trust was issued from the City's Planning & Development Department requesting that the Letter of Credit that was initially issued on March 26, 2010 be drawn. This was required due to the project being left incomplete, based on financial difficulty from the developer Mill Creek Developers, LLC.

The City received the check for $38,206.65 on June 30, 2011. This was the requested amount in the aforementioned letter. These funds will be used to hire a consultant to administer

the construction contract, and a construction contract to install sidewalk and landscaping. This work will complete the project.

The project complies with Council's Strategic plan in the Focus Area of Green & Sustainability, as it will include the planting of approximately 87 trees, which will provide shade, natural habitat and aesthetic improvements to the area. The project also addresses the Focus area of Multimodal Transportation, due to the new sidewalk to be installed.

Pros:

- Approval of this action will allow for the completion of the Mill Creek Condominium project, providing a completed residential community within the ETJ.
- Utilize developer funds, thus not requiring any additional funds from the General Fund.
- While the project isn't located within the existing City Limits, it does lie within our ETJ. This action would insure that if the area was to be in the City Limits in the future, it would be compliant with the UDO.

Con:

- The project will require staff time to oversee a project outside of the current City Limits.

As noted above, the funding for these infrastructure improvements will come solely from money received via the letter of credit, thus there is no impact to the City's budget.

City staff recommends City Council adopt a budget amendment in the amount of $38,207 to complete the Mill Creek Condominium project.

**ORDINANCE BOOK NO. 27 - PAGE 263**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Davis moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Bothwell and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. ETHNIC MINORITY BUSINESS CAPITAL ALLIANCE REPORT

Community Development Director Jeff Staudinger said that as a result of a four month deliberative process, the Ethnic Minority Business Capital Alliance offers a final report, including its findings and recommendations.

The concept of the "Ethnic Minority Business Capital Alliance" arose from an analysis presented to the City by the Asheville SCORE chapter late in 2010 that examined the status of business ownership by ethnic minorities in Asheville. Drawn from 2000 and 2007 U.S. Census reports, the data indicated that ethnic minorities participation in business ownership lagged far behind what might be expected from the percentage of population these minorities comprised. That report also reflected upon most recent available city contracting information, which indicated a similar disparity.

Community members including Dee Williams and Al Whitesides proposed to city staff and elected officials that a diverse group of community leaders be assembled to examine the causes and possible strategic responses to this issue. The request was presented to the Housing and

Community Development Committee. In response they endorsed the establishment of the Ethnic Minority Business Capital Alliance in June of 2011, and supported a $10,000 expenditure from the Office of Economic Development for contracted staff to support this effort. With the endorsement of the HCD Committee, an invitation was issued from the Mayor's office to a diverse group of community members to join in this investigation. The group agreed upon a four month process with a well-defined scope of work that would lead to a set of recommendations for action.

Over 40 persons participated in this process. Participants included African-American entrepreneurs and business people, representatives of business service providers such as the Small Business Technical Development Center and AB Tech, community-based lenders and Community Financial Development Institutions including self-Help and Mountain BizWorks, representatives from grass roots community organizations including Just Folks and Green Opportunities, the Asheville Housing Authority and others. City staff from the Community Development Division and Office of Economic Development also provided support for the process.

The report has been reviewed by the Housing and Community Development Committee, which recommends its presentation to Council. Staff anticipates that applications for Community Development Block Grant funding or Outside Agency funding will be submitted by parties interested in implementing these recommendations.

Mr. Al Whitesides, Chairman of the Alliance, reviewed with Council the report outlining their process, findings and recommendations. Said findings and recommendations are below:

**"Alliance Findings and Recommendations**

The following specific findings and recommendations were approved by the Alliance members present at the December 14, 2011, meeting.

1. **Technical Assistance – Need for improved outreach and coordination of technical assistance services**

**Solution:** The City should work with service providers to help ensure effective outreach to ethnic minorities seeking to start businesses. Service locations should be easily accessible to ethnic minority persons. Organizations and businesses dedicated to serving ethnic minorities should be consulted and employed in outreach.

**Solution:** Technical assistance for small businesses needs to be complemented by one-on-one case management, collaboration, and coordination with other service providers. Case management can facilitate both in-house and external services.

Client case management functions may include management and technical assistance, financial planning, loan packaging, procurement and contracting assistance, networking and marketing, advocacy, and facilitating mentoring services.

2. **Capital Gap – Lack of Collateral and Credit**

**Solution:** Capital funds need to be targeted to assisting ethnic minority businesses, and be available to assist these businesses at varying stages of business development, from start-up to emerging or expanding. The capital should be available both as direct loans and as funds to guarantee or otherwise collateralize loan funds from other sources.

**Solution:** Local and state MBE officials need to be engaged in developing concrete and effective strategies to increase ethnic minority contracting with public entities.

**Solution:** A joint payables program should be established for lenders and vendors to assist ethnic MBE firms and other small businesses in contracts/procurement.

**Solution:** Public entities should facilitate accounts receivable financing available to assist all businesses, as needed. Local and state governments should provide ten (10) day payments of invoices and electronic payments via credit card and check. "Section 3" provisions of HUD contracts should be used to promote hiring/contracting of individuals and firms who meet Section 3 qualifications.

**Solution:** Establish a local chapter of the Carolinas Minority Supplier Development Council, giving MBE Members access to the Business Consortium Fund.

3. **Organizational Support – Need for dedicated leadership and structure to focus on delivery of capital and technical assistance**

**Solution:** Community Development Financial Institutions (CDFIs), either new or existing, that directly address the needs of underserved ethnic minority businesses in Asheville and Buncombe County should be supported. Supported organizations should provide leadership in developing a synergistic infrastructure of funding, excellent technical assistance, meaningful networking and marketing opportunities. Organizations should provide case management for ethnic minority business clients while collaborating and coordinating with outside service providers as necessary.

Any supported entity must be performance-driven and must function with transparency, accountability to the community, and provide customer service which is surveyed on a regular basis.

**Solution:** Existing service providers should be utilized to the maximum extent possible.

**Solution:** Establish a Council-appointed Committee to continue to focus on the issues of ethnic-minority business formation and support. The Alliance suggests that the Committee membership be comprised of representatives from each of the following:

(1) Just Folks
(2) Green Opportunities
(3) SCORE
(4) SBTDC
(5) AB Technical College
(6) Mountain Bizworks
(7) Eagle-Market Streets Development Corp.
(8) Urban-News
(9) Mount Zion Development Corp.
(10) at-large member from low-income community
(11) Council Liaison

4. **Need for greater understanding of challenges faced by ethnic minority entrepreneurs**

**Solution:** The City and its economic development partners should survey existing ethnic minority business owners to understand their needs and engage them as models for new entrepreneurs."

Mr. Whitesides continued to review the Alliance final report. He said the next step is to place an Ethnic Minority Business Resource Center at the YMI Cultural Center. The YMI's mission is to enhance the economic, social and cultural lives of African Americans in Western North Carolina. He provided the Council with a proposal request for interim funding from the City

to the YMI Cultural Center for a period of February 10, 2012 – September 30, 2012, in the amount of $79,136, along with a line item budget. The funds would be used for operating funds to support an intensive fund-raising plan for the YMI to set up this Minority Business Resource Center, so that the business plan for the Resource Center, and the job training component can be completed, along with the applications to establish loan pool funds and operating funds from the federal government and private foundations.

Councilman Hunt supported the focus of the local Community Development Financial Institutions (CDFI) and other non-profit entities working together in a work group.

Upon inquiry of Mayor Bellamy, City Attorney Oast said that staff's recommendation is that Council receive the report. There are a number of recommendations, many which would require fleshing out the details, including legal details. And, some recommendations may be pursued immediately. He suggested Council receive the report and perhaps refer it to the Housing & Community Development (HCD) Committee for further direction on which of the recommendations can be implemented or which may require further investigation.

Councilman Davis, Chair of the HCD Committee, and Vice-Mayor Manheimer said that the Committee heard the report but did not recall any mention of a funding request.

Mr. Staudinger said that the Alliance report was presented to the HCD Committee, upon their recommendation for the Committee to receive the report. The funding request was not part of the Alliance recommendation. He believed it was a response to the Alliance's recommendations by a group of citizens. It was not received by staff until this meeting. He reiterated that this is an independent request and was not part of the Alliance report.

Assistant City Attorney Martha McGlohon felt it would be appropriate for Council to direct staff which recommendations they would like for staff to further research. She noted there are some legal concerns related to some of the recommendations.

After a brief discussion, it was the consensus of Council to receive the report and to direct Ms. McGlohon meet with Mr. Staudinger and review all four recommendations to see which are legally permissible. Those results will be presented to the HCD Committee. At such time as the report is presented to Council, City Attorney Oast said that a staff report will contain pros and cons, along with a fiscal impact statement regarding the funding request.

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING FOR WHITE OAK GROVE APARTMENTS LOCATED AT 275 AND 281 HAZEL MILL ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY DENSITY DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF 92 APARTMENT UNITS HOUSED IN THREE BUILDINGS

Urban Planner Julia Fields said that this is the consideration of an ordinance to conditionally zone White Oak Grove Apartments located at 275 and 281 Hazel Mill Road from RM-8 Residential Multi-Family Medium Density District to RM-16 Residential Multi-Family High Density District/Conditional Zoning for the development of 92 apartment units housed in three buildings. This public hearing was advertised on January 13 and 20, 2012.

Ms. Fields said that the applicant is requesting conditional zoning for two parcels located off Hazel Mill Road from RM-8 (Residential Multi-Family Medium Density District) to RM-16 (Residential Multi-Family High Density District) in accordance with Section 7-7-8 of the UDO to accommodate the development of a multi-family residential proposal (92 units).

The project site consists of two parcels located off of Hazel Mill Road, just north of Patton Avenue, with frontage along Clayton Avenue, Hazel Mill Road and Nancy Street. The project proposes a recombination which would result in an overall project area of 6.501 acres (according to site plans). The subject parcels and adjacent lots are zoned RM-8 with HB, Institutional, Office, Resort and RS-8 zoning in the general vicinity. The immediate surrounding neighborhood is a mix of single-family homes as well as multiple residences on larger parcels.

There are two dwellings and several associated structures existing on the parcels, which will be removed for this project.

The applicant is proposing to construct a multi-family complex that will consist of three (3) buildings. Building A is proposed to contain 28 dwelling units in a 3/4 split configuration. Buildings B and C are proposed to contain 32 units in each building with a 4/5 and 3/4 split configuration with a maximum height of 40 feet per building code (the tallest feature on the larger buildings is 61' 4 9/16" to the top of the roof peak on the five-story side and 51' 8 5/16" on the four-story side). A mix of two and three-bedroom units is proposed for the 92 units. The buildings will meet the North Carolina Healthy Built Homes program and Energy Star certifications. Additionally, 10% of the units (9) will be available as affordable housing.

Access to the site is proposed in three locations – two driveways off of Clayton Avenue and a single access point from Hazel Mill Road at the southeastern corner of the site, near Nancy Street. Following a traffic impact study done for the proposed development, the access point off of Hazel Mill Road will be right in, right out only. A total of 184 parking spaces are provided to serve the residential units and are located around the 2-way looped interior drive (which is essentially a circular parking area). A five to six-foot sidewalk is proposed around the interior of the looped-drives facing the buildings as well as along the driveway providing access to Hazel Mill Road. Sidewalk is also proposed along Clayton Street; however a fee-in-lieu is requested along Hazel Mill Road due to topographic challenges as well as a desire to preserve existing vegetation. The developer is proposing the construction of a bus shelter at the corner of Hazel Mill and Clayton.

Street trees will be required along all street frontages. The project will also include building impact and parking lot landscaping, a required street buffer and the preservation of some existing vegetation along Hazel Mill Road. The applicant is proposing 2.15 acres (33%) of the site as tree save area and 1.24 acres as designated open space (more than the required 500 square feet per unit).

Under the current RM-8 zoning, the combined site would be permitted a total of approximately 56.6 units. The development proposes 92 units, under the 113 units allowable under RM-16 zoning.

The Technical Review Committee (TRC) evaluated this request on August 1, 2011, and it was approved with conditions. At initial review the project was proposed for 108 units.

At their meeting on September 7th, the Planning & Zoning Commission reviewed the initial proposal (108 units) and due to substantial public comment regarding potential negative traffic impact, requested that the applicant provide a traffic impact study for the development. Additionally, comments were received regarding the project being out of scale with the surrounding neighborhood and concerns that the applicant does not necessarily intend to be the developer.

While the project did not trigger the City's thresholds to require a Traffic Impact Study, the Commission recommended (by a 3-0 vote) that the project be continued to the November 2nd meeting so that a Traffic Impact Study (TIS) could be undertaken by the applicant. The project was continued again to the meeting on December 7th so that the TIS could be completed and reviewed by the City's Transportation Department.

At the meeting on December 7th, the Commission heard reports from the City's Traffic Engineer and the traffic engineer for the project. These reports indicated that even considering the "worst case" scenarios for traffic that might be generated from this project, it was felt that it the project would not cause undue traffic congestion along the existing street infrastructure. The right in, right out only configuration for the access point on Hazel Mill Road was accepted.

At this same meeting, the Commission continued to express concerns over the scale of the buildings and the density. The developer agreed to a continuance to look at reducing the size of the project.

The project was reviewed for a third time by the Planning and Zoning Commission on January 4, 2012. At this meeting the developer presented the current project proposal. The dwelling unit count was reduced from 108 to 92 (with the requisite parking reductions) and one floor from each of the ends of Buildings B and C has been removed creating a 3/4 split on the ends of the buildings. Following deliberation, the Planning and Zoning Commission voted 6-0 to recommend this development to the City Council.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. That the proposed use or development of the land will not materially endanger the public health or safety.
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.
   The proposed use and development of the land is compatible with the natural features and topography of the site as well as the surrounding area. Appropriate landscaping and open space will be provided to that is fitting and compatible with the residential neighborhoods surrounding this location, with special attention given to screening this use from the adjacent neighbors. The physical development is focused towards the interior of the site. Additionally, the northern portion of the lot, where the site slopes, is proposed to remain largely undeveloped as tree save and open space area.

3. That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.
   The development is not expected to injure the value of adjoining or abutting properties. The use proposed is similar to adjacent parcels (residential) although at a higher density. Given the proximity to the commercial / mixed-use Patton Avenue corridor, higher-density residential uses can be considered to be appropriate in this location. Additional (supplementary) landscaping proposed around the perimeter of the site will provide a visual buffer to mitigate impact to abutting lower-density uses.

4. That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.
   The proposed use as multi-family is in harmony with the area in which it is located. This site is along a transit route and within less than half a mile from the Patton Avenue

commercial corridor, making it an appropriate location for higher-density residential development. Additionally, there are a number of other parcels in the vicinity with multiple residential units, including condo units on adjacent Nancy Street and Townview Drive. None of these other developments include buildings as large as the three apartment structures proposed in this development; however, the buildings are sited in the center of a 6.5 acre parcel and supplementary landscaping has been integrated into the design as a perimeter buffer and should mitigate any potential visual disharmony. The number of units proposed exceeds the underlying (existing) density; however, staff feels that the site layout and proximity to Patton Avenue and transit (as mentioned above) makes this an appropriate location for this proposal.

5. That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.
The *Asheville City Development Plan 2025* encourages a Smart Growth development pattern by recognizing the need for higher density residential infill projects (pg. 31) located along transit lines (Asheville Transit Route 16). With 92 units, this project is not only meeting that goal but also seeks to assist with what the *Plan* calls "the number one economic development problem for this community" (pg. 45): lack of affordable housing. The project includes 10% of the units as affordable.

   City Council's goal of *sustainability* is supported by these projects that encourage high-density growth in an area with existing infrastructure as well as ideally located along a transit route. The development proposes for 10% of the units as affordable and for all 92 rental units to meet the North Carolina Healthy Built Homes program and Energy Star rated, aligning with Council's priority areas on providing *affordable* and *sustainable* housing opportunities for citizens.

6. That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.
This proposed development is located near major road facilities (Patton Avenue and major highways) and along a City bus route (#16). In addition, basic infrastructure appears adequate and preliminary review by other service providers has not revealed any problems for future service to the development.

7. That the proposed use will not cause undue traffic congestion or create a traffic hazard.
The proposed project has been reviewed by the City Traffic Engineer and it should not cause undue traffic congestion along the existing street infrastructure. The anticipated traffic at full build-out conditions is expected to be less than one hundred (100) vehicles per hour during the morning and afternoon peak hours during a typical weekday.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:
- The project offers 10% affordable housing units, aligning with City Council's goals.
- Higher density development furthers the goals and objectives of the comprehensive plan.
- The proposed development provides housing in a transit-served area.
- Supplementary landscaping provides a visual buffer from adjacent uses.
- The project will be designed to qualify for Healthy Built Homes and Energy Star certification.

Cons:
- The project exceeds the density allowance under the current RM-8 zoning district unless the Conditional Zoning is approved.
- Opposition has been stated from surrounding neighbors regarding increased traffic and scale.

Staff recommended approval of this project to the Asheville Planning and Zoning Commission. At their meeting on January 4, 2012, the Commission voted 6-0 to recommend the revised (reduction in units and scale) development proposal to the Asheville City Council.

Mayor Bellamy opened the public hearing at 5:48 p.m.

Mr. Bob Grasso, one of the partners in the development, said that he originally received approval for a duplex development (42 2-story duplex townhouses) but because of the economy conditions he met with staff requesting in their request for a conditional zoning for an apartment complex. After trying to address concerns by the Planning & Zoning Commission and adjacent property owners, they have reduced the scale and size of the project to be more in keeping with the surrounding neighborhood and conducted a Traffic Impact Analysis (TIA). He showed how the buildings are set into the interior of the property. The closest point is 45 feet from the property line. He said the distance from the Building B to the townhouse is 142 feet. The distance from the townhouse to the dumpster area is 118 feet. They tried to meet or exceed all the Unified Development Ordinance standards and all of the goals of the 2025 Plan by infill development, close to downtown core, on a transit corridor, etc.

The following individuals spoke in opposition to the conditional use rezoning for various reasons, some being, but are not limited to: 24 adjoining property owners signed a petition opposed to the rezoning; existing area roads are not equipped to handle increased traffic; bottleneck traffic light at intersection of N. Louisiana Avenue and Hazel Mill Road; project is not in scale with the rest of the neighborhood; no other buildings in the area exceed 2 stories; property owners of other vacant parcels in the area will request conditional use rezoning for higher density; developer bought the property as RM-8 and should build the number of units allowed under that zoning designation; rezoning is not what is best for the community; the development is out of character with the rest of the neighborhood; the development will decrease property values; can the petition submitted be considered a valid protest petition; the width of Hazel Mill Road is too small and can't handle two buses passing; have requested traffic calming on Hazel Mill Road in the past; provided petition with 38 names of area residents opposed to the project to the Planning & Zoning Commission; and concern that the property owner does not plan to build on the property, but to sell the property with pre-approval:

Mr. Jay Marlow, realtor and appraiser
Mr. Mike Newman, adjoining property owner on Nancy Street (submitted copy of a petition from 24 adjoining property owners opposing rezoning)
Brother Christopher Chiaronmonte
Mr. Steve Rasmussen
Mr. Nathan Merchant, resident on Hazel Mill Road
Ms. Valerie Martin, resident on Townview Drive

Mr. Mark Teague, Traffic Engineer with TM Teague Engineering, spoke about the Traffic Impact Analysis, noting that they did a worse-case scenario study, which noted that the road could handle the traffic, even if the dealership closes their access on Hawkins Lane. In addition, the study did not take into account any bus riders from the bus stop the developer is installing. Regarding the increased traffic from the development onto Hazel Mill Road, Mr. Teague said that the video shown by Mr. Marlow at the Planning & Zoning Commission meeting showed most of the afternoon congestion in the westbound direction at the intersection of Hazel Mill Road and N. Louisiana Avenue. He felt that most likely, the people coming home to the complex will be going in the opposite way of the video, and will not contribute to the westbound movement. Others would be turning into the development before they reach the intersection of Hazel Mill Road and North Louisiana Avenue. He also noted that revised site plan actually decreased the impervious surface.

Mayor Bellamy closed the public hearing at 6:10 p.m.

78

In response to questions raised, City Attorney Oast said that (1) the petition submitted by Mr. Newman did not qualify as a valid protest petition; and (2) even if the project is sold, the property can only be developed in accordance with the approved site plan and that approval follows the land.

In response to Councilman Bothwell, Ms. Fields said that the development does not qualify for development incentives as the entire site must be within 1/8 mile of a transit line.

In response to Councilman Smith, Ms. Fields, after consulting with the City's Traffic Engineer, said that there are no plans for widening Hazel Mill Road.

In response to Councilman Hunt, Mr. Jeff Moore, the City's Traffic Engineer, said that he reviewed the Traffic Impact Study and also did his own traffic generation study, which is a nationally recognized methodology. For the AM peak hour (7-9 am), the site should generate 49 trips. For the PM peak hour (4-6 pm), the site should generate 68 trips. He looked at the TIA for the efficiency of the signal at Hazel Mill Road and N. Louisiana Avenue because that is really where the traffic crunch will be. According to that TIA, the level of service will still be a Level B, which is acceptable. Level E is the capacity of the signal. The signal should be operating below capacity. It is projected that the number of cars waiting to go through that intersection signal should not exceed approximately 11 vehicles during the PM peak. He agreed with Mr. Teague in that most traffic will be coming in the eastbound direction from Patton Avenue. Other traffic going westbound will go into the development before they reach the intersection.

In response to Councilman Pelly, Mr. Grasso said that he and his partners are the owners of the property. The current RM-8 zoning would allow 56.6 units on the site, however, the duplex market is gone and there is a need for apartments in the City. If the conditional rezoning is not approved by Council, he has no back-up plan. Regarding rental rates, Mr. Grasso said that they are having a pro forma done now and was unable to state possible rental rates, however, they would be in line with the current rental rates.

Councilman Bothwell and Councilman Pelly both agreed that this project has many good qualities; however, they were uncomfortable in changing the zoning when the surrounding property owners bought their homes with the existing zoning.

Councilman Hunt said due to the severe lack of rental and affordable housing, the project being close (but not close enough) for a density bonus, the project meeting smart growth principles, and the wish not to push development out to rural areas, he made a motion to approve the conditional zoning request for the property to be rezoned from RM-8 to RM-16/Conditional Zoning. This motion was seconded by Councilman Smith.

Councilman Smith understood the neighbors concerns; however, Council has made a commitment to smart growth principles and this project meets those principles.

Councilman Davis felt Mr. Grasso is a good developer and conscious of his surroundings; however, he felt the traffic on Hazel Mill Road is a concern along with the project being out of scale with the surrounding neighborhood. He could not support the motion.

City Attorney Oast reminded the Council not to make any decisions on the basis of who you think may develop the property because the property could be sold tomorrow or next year.

When Mayor Bellamy questioned if the motion included the additional landscape buffering, City Attorney Oast said that when he prepares the ordinance, he includes a list of written conditions and among those conditions is that the project be developed in accordance with the approved site plan.

Mayor Bellamy said that she travels Hazel Mill Road and the right-in and right-out from the project may help with traffic, but the project does not fit in with the surrounding neighborhood which are mainly single-family homes. She agreed we need more affordable housing, but we also need neighbors who want it, and in this case, there is no neighborhood support.

Mr. Grasso withdrew his application and said that he would see if they can reduce the number of units even more. He did note that they are trying to keep the units as affordable as possible but reducing the number of units may require rents to go up.

Vice-Mayor Manheimer was conflicted about this project as it does meet our strategic goals and recalled that we compromised with our density credit and reduced it from ¼ of a mile to 1/8 of a mile from a major corridor. Had the policy been ¼ mile from the City, this project would have fallen into that area. She understands not wanting to change the zoning for the neighbors, but was disappointed to see the effect of the limits of our policy. She felt we may need to revisit our density policy.

Upon inquiry of Councilman Hunt, City Attorney Oast said that initial rental rates can be included as a condition on the conditional zoning.

Councilman Hunt said that if the project comes back, he would be interested in understanding more about the rental rates. Vice-Mayor Manheimer responded that in some cases when the developer is trying to put together a financing package, their financing package is contingent upon rezoning.

Mayor Bellamy said that when we rezoned Appledoorn and Shiloh the City committed to traffic calming, and we did have some neighborhood buy-in. She felt the City needs to come up to the table with some of the things that make these projects work. If we are going to look at our policies, then we need to look at some case studies and see what worked and why. She felt it would be good for us to review our parking requirements, since we are pushing other forms of transportation, such as bicycles and transit.

It was the consensus of Council to hold a worksession to look at issues related to density bonuses, parking requirements, etc.

~~ORDINANCE BOOK NO. 27 – PAGE~~

**B. PUBLIC HEARING TO CONSIDER REZONING 12 SCHENCK PARKWAY FROM CENTRAL BUSINESS DISTRICT TO HIGHWAY BUSINESS DISTRICT**

**ORDINANCE NO. 4050 - ORDINANCE REZONING 12 SCHENCK PARKWAY FROM CENTRAL BUSINESS DISTRICT TO HIGHWAY BUSINESS DISTRICT**

Urban Planner Blake Esselstyn said that this is the consideration of an ordinance to rezone 12 Schenck Parkway from Central Business District to Highway Business District. This public hearing was advertised on January 13 and 20, 2012.

Mr. Esselstyn said that the subject properties are prominently located at the first part of Schenck Parkway (the entrance to Biltmore Park Town Square), and they flank the first developed site one encounters on the north side of Long Shoals Road when heading east from the I-26 interchange. The relevant history of construction and zoning around the site goes back more than ten years.

The flanked area was developed with a gas station, convenience store, and restaurant in 2000. At that time, the operator of these businesses owned a leasehold for the site of this development, but the land was owned by Biltmore Commercial Properties, LLC. None of the site

80

was then in the City of Asheville's zoning jurisdiction; a portion was in the Buncombe County Limestone Township zoning area—zoned Commercial Services, and a part was not zoned.

In 2001, the City of Asheville expanded its ETJ, and the unzoned portion of the land came into the City's zoning jurisdiction. CBD zoning was applied to the area west of Schenck Parkway as this classification most closely fit the urban design of the Biltmore Park Town Center area already in progress under the County's jurisdiction. (The City's Urban Village zoning district did not yet exist.)

In February 2006, the Master Plan and related zoning change (to Urban Village) for the Biltmore Park Town Square west of Schenck Parkway was approved. The subject properties were not included, as the plans did not effect any changes thereon.

In 2007, the subject properties were part of an annexation by the City of Asheville. The annexation became effective in late 2007, and discussions ensued about assigning a zoning district for the portion of the site which had been in the Buncombe County zoning area. City staff proposed zoning the entire 10+ acre area, including all of the subject site, to Highway Business, to be consistent with the other three corners at the intersection. The landowner (Biltmore Commercial Properties, LLC), however, preferred to maintain the pre-existing CBD zoning, as it provided more options (e.g. building height, residential density) for a future extension of higher impact uses consistent with the nearby urban village, without having to submit a master plan. The CBD zoning became effective for the bulk of the site in early 2009. A "clean-up" annexation and zoning subsequently applied the CBD zoning to a sliver that had been outside the city's jurisdiction.

In late 2010, the adjacent site developed with the gas station, convenience store and restaurant was sold to another party. In spring of 2011, the new owner requested rezoning to Highway Business, so that his businesses and site design would no longer be non-conforming with the zoning district. (CBD zoning not only doesn't ordinarily allow retail gasoline sales, but has building design and setback requirements not met by the existing development.)

As is mentioned above, staff feels that Highway Business would be the most appropriate zoning for the subject area, now mostly wrapped around the back of other properties zoned Highway Business. The current placement of a district promoting urban, multi-story, high-density, pedestrian friendly design tucked behind an area (at the corner of a major intersection) with a suburban corridor zoning district and developed with suburban, single-story automobile-oriented businesses presents a problematic situation in need of a remedy.

The stream area at the rear of the site serves as a pre-existing and protected buffer between the area proposed for rezoning to Highway Business and the Urban Village to the north. The heavily vegetated stream area is under a conservation easement, so future development would be limited to the "pads" at the same horizontal level as the development on the corner.

The zoning of the 0.03-acre parcel (reserved for signage) is in fact fairly inconsequential, since the standards for that signage are dictated by the larger Biltmore Park sign package approved by City Council. However, it is good practice to make the zoning of such a parcel consistent with abutting zoning, and to eliminate the existing tiny zoning district.

When the gas station parcels were being considered for rezoning earlier this year, staff's only significant reservation was that these two parcels would remain zoned, awkwardly, CBD. This petition has the potential to resolve that concern, and create a more orderly situation in the area.

At their January 4 meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the rezoning.

Prior to the Planning and Zoning Commission meeting, staff received communication from Biltmore Park property owners expressing concern about traffic issues near the entrance to the site off Schenck Parkway. Planning staff has relayed this concern to the transportation department, while noting that the proposed zoning would be a shift from one high-impact commercial zoning district to another (a multi-story hotel could be built on the site under the current zoning, for example), and should not be viewed as necessarily increasing traffic potential over the existing situation. Staff has received no other communication from the public regarding this petition.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- HB zoning is highly compatible with the surrounding development and road system.
- Would supplant zoning which is both less appropriate for the site and awkwardly configured.

Con: None noted.

Staff feels that the proposed rezoning would unquestionably be an improvement over the existing situation for the subject properties, and recommends approval of the request.

Mayor Bellamy opened the public hearing at 6:45 p.m. and when no one wished to speak, she closed it at 6:45 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved for the adoption of Ordinance No. 4050. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 265**

**C. PUBLIC HEARING TO CONSIDER REZONING 2 GERBER ROAD FROM URBAN VILLAGE DISTRICT TO COMMUNITY BUSINESS II DISTRICT**

**ORDINANCE NO. 4051 - ORDINANCE REZONING 2 GERBER ROAD FROM URBAN VILLAGE DISTRICT TO COMMUNITY BUSINESS II DISTRICT**

Urban Planner Alan Glines said that this is the consideration of an ordinance to rezone 2 Gerber Road from Urban Village District to Community II Business District. This public hearing was advertised on January 13 and 20, 2012.

Mr. Glines said that in 2000 and 2001 a new zoning district called Urban Village was created in response to broad community interest in allowing more sustainable mixed-use developments that provided a sense of place similar to successful areas in the city such as downtown and Biltmore Village. In response to this interest, the Urban Village District was adopted by City Council in 2001 and the former Gerber Plant site was one of the first to use it. The property was rezoned and a schematic master plan was approved. This was generally accepted to be an improvement over an earlier failed Walmart that had been proposed at the same site.

Despite the initial enthusiasm for the zoning option, only the front portion of the urban village (which had been portrayed as *'phase one'* of the entire development) was completed and the remainder of the site across Gerber Road (totaling about two acres) and the large area east

of the internal road known as Fall Pippin Lane remained vacant. Later when the economy began to slow down and economic growth faltered, the developers fell behind with the mortgage and the entire site was foreclosed on by JP Morgan Chase Bank. Recently that bank sold the front commercial area of the site (*phase one*) to private owners who do not own or intend to develop the rear portion of the urban village area.

Over the past few years as the situation with the foreclosure process became clearer, staff has spoken with a number of potential developers who were interested in the undeveloped portion of the site. Through these informal conversations it has become apparent that the preferred form of development for the remaining undeveloped area will likely not be in accord with the original master plan or Urban Village standards and the staff anticipates that eventually a rezoning request will be presented for this property for a more traditional multi-family residential project.

Rezoning to Community Business II (CB II) is only proposed for the 7 acre portion of the existing Urban Village site that contains a shopping center, office space and some upper floor residences. The shopping center has a number of retail and restaurant uses with well articulated buildings and a series of parking areas along the internal street with smaller parking areas surrounded by buildings. At least one of eight residential units is occupied. The new owners of the site have requested this zoning change to be better aligned with their long term management plans, the actual use and activity on the site and for rebalancing parking needs. As a stand-alone site the development meets the letter but does not fully meet the intent of the Urban Village ordinance because it is almost exclusively commercial in nature and contains minimal residential units. The goal of the Urban Village District is to encourage a true mix of uses throughout a single site. The 'phase-one' site has a good network of sidewalks and ample landscaping for streets and parking areas that meet and in places exceed UDO standards but are in keeping with the original direction of the development. Street access to the site is from both Hendersonville Road and Gerber Road. One of these locations is expected to provide future access to the vacant upper area when it is developed.

The upper site (which totals about 17 acres including 2 acres that are across Gerber Road from the primary parcel) remains under separate ownership and is not proposed for a zoning change at this time. It will remain under the Urban Village zoning designation and under separate ownership. The schematic master plan for this portion included locations for buildings and streets and was approved with a mix of residential units and limited commercial development. It takes access from Gerber Road and can stand alone without the section fronting on Hendersonville Road.

The proposed CB II zone is intended to provide areas for medium to high density commercial uses serving several residential neighborhoods. The district requires parking to be placed to the side or rear of the building which is a pedestrian oriented building standard in place to encourage pedestrian access and movement through the district. The location for CB II zoned areas is appropriately located on major thoroughfare streets to ensure adequate access. The list of allowed uses is quite extensive since a district goal is to encourage intensive commercial uses meeting the needs of the wider community. Individual buildings cannot exceed 45,000 square feet.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable because the proposed zoning is compatible with the surrounding area and with the development already on the site.

Pros:

- The proposed rezoning is responsive to changing market conditions and economic realities
- The proposed zoning will be compatible with the surrounding area and the existing development on the parcel

- The site can be maintained and improved to preserve its economic viability

Con:

- Reduces the likelihood for high density mixed-use development (Urban Village-style development) on this or adjacent properties.

The Planning and Zoning Commission at their meeting on January 4, 2012, voted 7-0 to recommend approval of the zoning change. Their discussion focused on the intent of the Urban Village District zoning, the applicability of the CB II proposal and the portion of Gerber Village to remain Urban Village zone. Staff supports the request to rezone the property to CB II because the surrounding area and the existing development on the site supports this zoning pattern.

Mayor Bellamy opened the public hearing at 6:53 p.m.

Mr. Matt Sprouse, representing the owners, said that this zoning change will give the owners of the property greater flexibility. They will not change the buildings, but there are some site issues when it comes to parking and leasing spaces. They are focused in getting businesses back in the shopping center.

Mayor Bellamy closed the public hearing at 6:55 p.m.

Mayor Bellamy noted that the City doesn't maintain the streets inside the Urban Village.

City Attorney Oast cautioned the Council that if the property is rezoned, it can be used for any use allowed in that district.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Davis moved for the adoption of Ordinance No. 4051. This motion was seconded by Councilman Hunt and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 267**

**Closed Session**

At 6:57 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: J. Jerome Jensen, et al (Biltmore Lake Annexation); Holly P. Oxner, Jr., et al. vs. City of Asheville et al. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11 (a) (3); (2) To discuss matters relating to the location or expansion of industries or other businesses in the area served by the City Council, including agreement on a tentative list of economic development incentives that may be offered in negotiations, provided that any action authorizing the payment of economic development incentives will occur in open session. The statutory authorization is contained in N.C.G.S. 143-318.11 (a) (4); and (3); and To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11 (a) (1). This motion was seconded by Councilman Bothwell and carried unanimously.

At 7:20 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Davis and carried unanimously.

## V. UNFINISHED BUSINESS:

### A. REGULATING THE USE OF CITY PROPERTY

**ORDINANCE REGULATING CERTAIN USES ON CITY PROPERTY**

**RESOLUTION DESIGNATING PACK SQUARE AND CITY-COUNTY PLAZA AS CITY PARKS, AND DESIGNATING CERTAIN AREAS FOR CAMPING AND PUBLIC FORUM PURPOSES**

**ORDINANCE AMENDING THE FEES & CHARGES MANUAL CREATING A PERMIT FEE FOR CAMPING ASSOCIATED WITH FREE SPEECH**

Building Safety Director Robert Griffin said that the purpose of this report is to consider 1) a camping process in the area adjacent to City Hall that is not within the Pack Square Park boundaries; and 2) associated ordinances necessary to establish the process.

City Council has reviewed the free speech activity associated with Occupy Asheville and referred three ordinances proposed by staff addressing the activity to the Public Safety Committee. The Public Safety Committee did not recommend the proposed ordinances. However, the Public Safety Committee did recommended establishing a permitting process for camping associated with free speech activities in an area adjacent to the City Building and the necessary ordinances to achieve the permitting process.

The Public Safety Committee recommendations and staff response were:

Achieve/sustain a few goals:
- Zero violence
- Protection of free speech and civil liberties
- Minimize risk of legal liability
- Ensure that public space is available to all
- Minimize cost to taxpayers
- Maintain strategic priorities in regards to 10 Year Plan to End Chronic Homelessness & Public Safety

| Can this type of use be permitted? | Yes, at the Development Service Center |
|---|---|
| Permitted activity is for purposes of "speech"; Register individual campers | DSC staff can perform this function. This will require an Ordinance. |
| Maintain cleanliness standards (garbage removal, store items in tents) | Public Works will pick up closed trash bags if placed on Marjorie Street by 3:00 AM. This will require an Ordinance for the storage of personal belongings. |
| Move tents with regularity (every 48 hours?) to maintain grounds | Currently, no open space exists. Parks believes the area will need to be reseeded or new turf installed when no longer in use. |
| True cost pricing for camping permits – by the person, not the tent. | The estimate for taking the application, generating the permit, generating the tag to be attached to the tent, keeping a spreadsheet of names, direct and indirect costs is $18.00 for 30 minutes using clerical staff and not a permit facilitator. This will require an Ordinance change to the Fees and Charges. |
| One tent or less per person, with storage allowed only inside tents. | More than one person can be associated with one tent, but one person may not be associated with more than one tent. |

| No open fires/flame | Yes, written on permit |
|---|---|
| Reapply every 7 days | Staff recommends every 14 days. Federal forest uses a maximum of 14 days for "camping". The Building Code requires a 40-foot buffer around the City Building. |
| Port-a-johns permitted using standards for other outdoor event permits. Port-a-johns available to the public. Port-a-johns not subsidized by city taxpayers | Staff has indentified 6 locations where port-a-johns are utilized by other events, where the surface slope is low to allow use, where the provider can maintain without driving on Park property, and where placement would cause minimal disruption to scheduled events. Note that if one of the locations where tents are now located are selected this will impact tents currently in this location. |
| Permitted only in specific area(s)<br>- utilize current property only<br>- add other properties as appropriate<br>- does not include parks pending further review by Parks Board & Parks, Rec, Cultural Arts Dept. | Only area that is not part of the Park or restricted by the Building Code for life safety and egress is the slope below the metal steps where one tent is currently located. |
| Consequences of violation could be:<br>- - rescinding permit for individuals in violation<br>- - fines (up to $25) for safety violations (fire, sanitation, other)<br>- - fines (up to $100 or eviction and referral to Homeless Service Provider) for camping without permit | - Rescinding permits is possible;<br>- Current Council approved fine structure within the Fire Code currently begin at $50.00 with opportunity for warnings. Recommend keeping existing fine structure. |
| Notify homeless service providers if violator requests it | To ensure a timely and accurate response, any city staff who encounters an Occupy Asheville camper requesting information on homeless resources should directly contact homeless outreach workers at the A-Hope Day Center (828.252.8883). The referring staff member should then e-mail the City of Asheville coordinator, Amy Sawyer, alerting her that a referral has been made (asawyer@ashevillenc.gov). |

Due to the 40-foot setback from the City Hall building, the area will be sectioned into eighteen 10-foot-by-10-foot spaces to determine the maximum number of permits that can be issued. If Council directs the area to expand into the area below the steps, that will add an additional four spaces. Each 14-day renewal period the number of spaces will be allocated to the first applicants in-line at the DSC. If Council direction includes the cost of port-a-johns in the cost of the permit, staff will add $3.30 per port-a-john to each permit, making the total cost for the permit with two port-a-johns $24.60 every fourteen days. An ordinance amending the Fees & Charges Manual is available for Council consideration.

Pros:

- The City develops a process for permitting camping associated with free speech.
- Creates a process for any person or group wanting to establish camping associated with free speech.

Cons:

- Establishes a camping area adjacent to Pack Square Park that is used for events, festivals, weddings, splash-Asheville, and others.
- May impact events and festivals that historically have used this area as part of their function.
- Creates a process for any person or group wanting to establish camping associated with free speech.

The fees for permitting are set to recover 100% of actual cost. If not all the allocated spaces are permitted and the cost of the port-a-johns are included a portion of the monthly port-a-john cost will be absorbed by the City.

City Attorney Oast said that this will supplement information provided to Council by Mr. Griffin and in other staff reports and memoranda previously provided to Council.

Pursuant to Council direction at the January 10 Council meeting, on recommendation of the Public Safety Committee from its special meeting on January 3, an ordinance and resolution have been prepared to effectuate the following:

1. Provide for designated areas on City property within or near public forum areas, where overnight camping may occur, subject to certain regulations.

2. Clarify that camping is not otherwise permitted on City property.

3. Clarify that tents or shelters are not permitted on City property, except when used for camping.

4. Provide that equipment or personal belongings may not be left unattended or stored on City property.

5. Designate Pack Square and City-County Plaza as park property, and designate certain areas within the park as public forums.

The three ordinances presented to Council on December 13, 2011, have been collapsed into one, and rearranged so as to be more internally integrated, and are presented as a new and separate article within Chapter 12 of the City Code. Chapter 12 is entitled, "Parks, Recreation, and Public Places," so this is an appropriate placement.

The ordinance provisions contain general prohibitions on certain activities on City property, primarily camping and related activities. These activities have historically not been permitted on City property, but there was no ordinance that clearly addressed them.

Sec. 12-50 of the draft ordinance now contains some definitions of terms used throughout the article.

- The definition of "camping" has been revised to bring it closer to the regulations that were upheld by the U.S. Supreme Court in its 1984 opinion in the Clark v. Community for Creative Nonviolence case, and the more recent U.S. District Court decision involving "Occupy Columbia," and its activities on the South Carolina State House grounds.

- The definitions of "tent" or "shelter" have been revised to incorporate language from the North Carolina State Building Code.

Section 12-51 sets out the general prohibition of camping on City property, but notes that camping is allowed pursuant to another section of the article.

Section 12-52 sets out the general prohibition of tents or other shelters on City property, but contains certain limited exceptions for activities that commonly occur in parks (pop-up tents and umbrellas), as well as permitted camping.

Section 12-53 sets out the general prohibition of storage of gear or equipment on City property, with an exception for bicycles and other forms of personal transportation.

Section 12-54 contains the regulations for permitted camping, and is based on regulations suggested by the Building Safety Department, in response to direction from the Public Safety Committee. Camping is permitted in designated campsites whether or not in connection with First Amendment activities. The regulations have been drafted so as to ensure regular turnover of space within the campsite, and to limit use of the campsite by any one permittee.

The ordinance recognizes that the campsites may not be available if other activities are programmed for the area, or because of demonstrable sanitary or public safety concerns.

Violations of the ordinances are punishable as civil or criminal offenses, and the ordinance contains a provision for revocation of camping permits in appropriate situations.

The resolution designates all of the reconfigured Pack Square and City-County Plaza area as a City park. He used a map to illustrate the areas. The resolution also designates two areas within the park - - the western extremity of the Vance Monument oval and the area in front of the City Building - - as public forums. This designation recognizes custom and practice that have developed over time.

The resolution also designates an area to be set aside for camping. Neither the designated public forum nor the designated campsite are subject to the closing time otherwise applicable to City parks.

This ordinance and resolution in combination allow for First Amendment activity to occur within designated public forum areas on a round-the-clock basis, and allow for camping to occur on round-the-clock basis, but pursuant to certain regulations. As indicated in the Staff Report, City staff are prepared to administer the camping regulations through the Development Services Center. Staff will monitor the administration of these ordinances, and suggest revisions as the need arises.

The proposed ordinance and resolution are intended to facilitate the use of public forum space on round-the-clock basis, and to allow for overnight camping in connection with that use. The regulations are content-neutral in that they do not require or permit City officials to evaluate the legitimacy of any claim that overnight camping is an essential element of a particular First Amendment activity. The regulations support the governmental interest of maintaining parks and City property on an equal basis for use by all citizens, and are drafted so as to be the least intrusive means of supporting that interest. The regulations do not provide for unlimited use of City property, but they leave open ample alternative means of expression, excluding expressive conduct such as overnight camping.

The proposed ordinance and resolution have been drafted to address concerns raised by Council and the public over the last several weeks, but may be further adjusted prior to adoption. As with any ordinance of this nature, it may be fairly anticipated that questions as to interpretation and field application will arise. Litigation over these issues including, enforcement, is a possibility. Council may wish to consider a delay in the effective date to enable the permitting system to be set-up, and to allow campers and users of the public forum areas to make appropriate arrangements for their activities.

Pros:

- Implements Council direction based on recommendation from Public Safety Committee.
- Formal clarification of park boundary, and public forum areas.

Cons:

- Requires additional staff time/resources to monitor activity.
- Potential for damage to property from overuse.

If Council wishes to allow permitted camping in the designated areas, adoption of the ordinance is recommended. Regardless of any action on the ordinance, it is recommended that the resolution designating park property, and designating public forum areas within it, be adopted.

Councilman Bothwell said that Sec. 12-52 regarding no storage on City property is prohibiting City employees leaving their personal belongings in their offices in City Hall over the weekend. City Attorney Oast responded that there is a significant difference between someone's office and park property. He would be happy to clarify that section to apply to City property exclusive of interior buildings; however, the definition of "City property" in the ordinance does not refer to the interior of buildings.

In response to Councilman Bothwell, City Attorney Oast said that the definition of "City property" is internal to this ordinance.

Regarding Councilman Hunt's question regarding the number of port-a-johns, Mr. Griffin said that under the Building Code, under which we use to determine the number of port-a-johns that may be necessary at festivals and events, would only require one unisex port-a-john.

In response to Councilman Bothwell, Mr. Griffin explained that if two people were in one tent, only one would need to pay the port-a-john fee.

Councilman Hunt said this has been an interesting and challenging issue for him. At the end of the day the right to public speech is important to preserve and protect. The unique thing about the Occupy movement is the 24/7 presence with the existence of tents being part of the speech. Therefore, he moved to adopt the ordinance regulating certain uses of City property. It is his own personal view, as someone who believes in the principles that Occupy stands for, he is concerned that this particular encampment and the way it has evolved with the focus on tension with the City over whether or not to camp may not be as advanced as well as the movement might hope. If this ordinance is adopted and there is a way the encampment can continue in an orderly way, it is his hope that the people who participate are truly about speech and expression.

Councilman Smith asked for a friendly amendment to Section 12-54 (e) regarding no person may be issued more than four permits in any one year period. He felt that rather than limit the permits to four, it seems the intent is to make sure the people who are using the space are doing so for purposes of speech. So, in order to prevent abuse of the intent, while not prohibiting the activity, he asked for a friendly amendment for a two-on and one-off permit process. Rather than limiting the permits to four a year, one could renew the permit, but then you would have to take one 14 day period off before applying for another one. This could serve the purpose of not limiting the associated activity of the speech, but at the same time no one is abusing the intent of the ordinance.

Councilman Hunt accepted Councilman Smith's friendly amendment, with staff's input on how that might fit into the ordinance before a final vote. As a result, Councilman Smith seconded the amended motion.

Mayor Bellamy opened up public comment and advised the public that comments would be taken on all three actions before Council (1) Ordinance regulating certain uses of City

property; (2) Resolution designating Pack Square and City-County Plaza as City Parks, and designating areas for camping and public forum purposes; and (3) Ordinance amending the Fees & Charges Manual creating a permit fee for camping associated with free speech.

Twenty individuals spoke in opposition of the three actions before Council.

Mr. Fred English supported adoption of the three actions before Council and felt it was time for Occupy Asheville to leave from their campsite in front of City Hall.

In response to questions raised:

- Regarding potable water, Mr. Griffin said that staff did not use the standards for campgrounds since this is not a campground where motor vehicles and other types of appliances are met. Once the pavilion out front is completed in approximately two month, there will be potable water.

- Regarding the expansion of the Park property, City Attorney Oast said that the area beside City Hall has been traditionally a part of the City Park. It is not programmed as a park because of various building safety concerns.

- Regarding the definition of "camping", City Attorney Oast said the definition was drawn from the ordinances and regulations upheld in the Clark vs. Community for Creative Nonviolence case in 1984. That definition was pretty much the same definition that was in the case involving the South Carolina State House grounds in Columbia, South Carolina. He did do some modification to try to address Asheville's particular situation.

- Mayor Bellamy said she supported the concept of looking at how more people in our community can have more wealth.

- Mayor Bellamy did not support Citizens United.

- Regarding tents, City Attorney Oast said that the most difficulty he had in crafting the ordinance was trying to define camping and distinguishing that from sleeping. Among the things our proposed ordinance provides is that except as permitted in Sec. 12-54, or other City ordinance (which he believes includes Sec. 11-16 which prohibits sleeping on public property in such a manner as to interfere with pedestrian and vehicular traffic or permitted activities), this would not prohibit sleeping on the sidewalk. To illustrate, you could sleep on the sidewalk as long as you did not block pedestrian passage, but to the extent, it would prohibit the erection of tents or other shelters on the sidewalks.

When Vice-Mayor Manheimer asked if there are any other North Carolina cities that have designated campsite areas, Assistant City Manager Richardson said that there are none in North Carolina; however, there are several cities across the United States that have tied the protest movement to a 24/7 presence with camping.

Vice-Mayor Manheimer clarified that the three proposals before Council now would allow a campsite in front of City Hall where you can get a two week long permit to camp. City Attorney Oast agreed and said that if we clarify that the Park boundaries to include the area in front of City Hall, that entire area is subject to the 10:00 p.m. closing time. He felt that area in front of City Hall is part of the property that was deeded to the City by Mr. Pack years ago.

Mayor Bellamy could not support the three actions before Council. She does not support camping nor does she support charging people to camp. She doesn't object to picketing 24/7, but doesn't think the tents should be there. She felt we are sending a dual message – Occupy can have tents/camp and homeless people cannot. We have allowed no camping in the City of Asheville for years for the homeless. In fact, we have removed homeless camps from other parts

of the City. She also did not support designating free speech zones, as all of Asheville is a free speech zone. She felt we need to deal with the real issue of tents/camping.

Councilman Davis could not support the motion. He read the following e-mail from Mr. Tom Israel which he felt a lot of people in Asheville feel right now: "I was prepared to speak at the City Council meeting two weeks ago to address the proposed ordinances addressing camping on city property. Unfortunately I will be out of town and won't be able to attend this evenings City Council meeting. I would be grateful for your time to review my comments. My family has a significant interest in this issue as owners of Pack's Tavern, contributors to the Park, and as third and fourth generation natives of Asheville. In my opinion this isn't an issue about first amendment rights and it's not about the homeless, it's about camping. It's about camping on city property in or adjacent to a public park. And not any public park, a beautiful new park that took years and millions of dollars from private contributions to create. Allowing camping in or adjacent to probably the most important section of the park with Splashville and the amphitheater is unacceptable for several reasons. This would be a campsite without the facilities required by a campsite, potable water and restroom facilities. Please do not put port-a-johns in our park just outside our City Building and right next to Pack's Tavern's outside seating. It has already become a public safety issue demanding the time and effort of our police force. It is already a sanitary issue. It is already an eyesore, resembling a shanty town in our park and adjacent to the City building. Quiet enjoyment is no longer available in this section of our new park. Campsites require potable water and restroom facilities, so where will they get them? The campers have already come into the alley of Pack's Tavern at night and taken water from the outside faucets. Strangers in that alley at night are not what the staff needs to be subject to. They have come in through an exit and used the restrooms at Pack's quickly leaving before they are noticed. They have constructed a compost on Pack's property for Pack's guests to admire. But soon we will have our new pavilion that will provide restroom facilities for park visitors. Or will it become the facilities for the campers? How will the children and the parents of children feel about campers, and the campers going back and forth to the pavilion? Will the parents bring their children to play Frisbee and will they let their children play In Splashville with campers coming and going in and out of their tents? You want to make it a permitted use, who will not be given a permit? How will we know that the campers and the campsite are safe? It already makes city employees, park users, and Pack's Tavern guests uncomfortable. The general public does not feel safe with campers here. For very significant reasons camping is not allowed on city property, or ordinances tell us this. We can protest all we want to, no one is stopping that, but we cannot camp here. Because then anyone can camp here and then it becomes a public safety issue, a sanitary issue, and a quite enjoyment issue. I respectfully request that you approve the three ordinances confirming that these uses are not allowed on city property." He agreed with Mr. Israel. The reality is that the area is a beautiful park that should be respected. There was consideration about camping in the City before the Occupy movement began.

Vice-Mayor Manheimer's main concern is that we are designating a campsite next to City Hall.

Councilman Smith, member of the Public Safety Committee, said that this has been an emerging situation. First Occupy was under the Lexington Avenue Bridge, then in the middle of the Park by Vance Monument, then staff identified the area in front of City Hall as an undesignated place that falls in a gray area that until Council provides further direction, they can camp there. It was embraced by the Occupy movement. An alternative presented at the Public Safety Committee meeting was to move it to other parks; however, this siting was an acknowledgement of where this protest was taking place. He is well aware of a lot of the difficulties experienced in the campsite – a number of Occupiers saying they need to discontinue the camp, violence, complaints about people who are there only to take advantage of a camp, and other issues. He explained that a lot of the permitting process was intended to respond to the needs of Occupy campers as they were stated to him and others. The idea that any of Council is against free speech is absurd. This is seven people trying to respond to an emerging situation and be sensitive not only to what he has heard and seen from Occupy, but also

recognizing some of the other issues that other members of the City bring to this as well. He believed there is a lot of good faith effort being made by Council. This is not about the Occupy movement, but about an enduring public policy piece that we have to wrestle with. He felt this was the compromise position that was landed on in the effort to err on the side of constitutional and protected free speech while recognizing that camping costs money.

Councilman Bothwell said that he has been outspoken in support of the goals of Occupy. They reflect many basic tenants that he has held for a long time in terms of holding Wall Street accountable, ending corporate personhood, not equating money with speech, etc.. It's sad that Council, staff and those associated with the Occupy movement have spent hours on this dance around whether there should be tents on a spot of land. Those are not the real problems we are trying to address. We could have been spending the same amount of Council time talking about how to extend the living wage to more of our employees and contracts, or move moving more of the City's money into local banks instead of fretting about an issue that comes down to a question of sanitation. What we have out front can be described as a "Motley Crew" and he described the history of that term. He feels the tent have been that association. He hoped that Occupy would move on to something besides the question of can we place ourselves in a place where it's hard to live because it's taking away the energy from the things we really need to change. The work needs to be done to change this country and simply confronting City Council with hard decisions isn't moving anything anywhere. He was uncomfortable with the cost of the permit, but agreed with Councilman Smith that the permitting process was discussed to help weed out the people who weren't there for the Occupy purpose. And once a permitting process is set up, there has to be a cost because it does cost the City money. We don't always have 100% consensus on everything, and yet we do have people like the owner of Pack's Tavern whose business his family has put money into is being affected. There are effects beyond making a presence known. He felt it would be stronger as a movement to move on from that. He could not support the motion because of the cost associated with the free speech nor designating a permanent camping space in front of City Hall.

Councilman Hunt withdrew his motion.

Vice-Mayor Manheimer agreed with Councilman Bothwell that we do have some very pressing issues the City is trying to grapple with, i.e., water system, entering the budget cycle. She felt this has been on Council's agenda a number of times and felt we need to re-group as there are many struggles ahead of Council in other arenas as well.

Vice-Mayor Manheimer moved to recognize the Park as outlined in red on Exhibit "A" which is attached to the resolution before Council (which includes the area in front of City Hall being subject to the 10:00 p.m. closing time). This motion was seconded by Councilman Davis.

Ten individuals spoke against the motion recognizing the area in front of City Hall as a Park suggesting postponing the issue until a different compromise can be reached; but asked if the motion passes to allow Occupy Asheville time to disassemble.

Vice-Mayor Manheimer amended her motion to put an effective date of February 2, 2012. Councilman Davis moved to accept the amendment.

Councilman Hunt said a lot has been said about the engagement with the City of Asheville and Occupy and how that has become some of the focus of the Occupy effort here. He could not support the motion and felt that postponing this issue to the next Council meeting would ensure more thorough thought about this particular motion. He encouraged Occupy Asheville consider where their focus should be.

Councilman Smith appreciated suddenly people were interested about compromise once the compromise was off the table. He explained that the motion under consideration would ban

the campsite. He could not support the motion and felt there should be a third way to address the situation.

The amended motion made by Vice-Mayor Manheimer and seconded by Councilman Davis failed on a 3-4 vote, with Councilman Bothwell, Councilman Hunt, Councilman Pelly and Councilman Smith voting "no".

Councilman Hunt acknowledged there seems to be a limited number of options and felt the Occupy moving has an opportunity to help resolve this. He was not eager for staff to research another set of options, but suggested extending this item to the next Council meeting and all Council time to think through the motion made by Vice-Mayor Manheimer. What is important to him is the space and opportunity to protest. After hearing this discussion, he has become uncomfortable with the notion of a policy that simply allows camping. At that point we are inviting all kinds of people to camp, without it being qualified as speech. It is clear that our ability to come up with creative options is limited.

Mayor Bellamy noted that since there is no direction to staff, they will not have prepared anything for Council for their next meeting, which will be February 14 (3 weeks from now). Staff needs policy direction from Council. Staff needs the leadership from Council on this issue.

In trying to find another compromise, Councilman Smith said that a motion could be to allow free camping in front of City Hall for anyone. Vice-Mayor Manheimer noted that what is happening now. Councilman Pelly said that motion could be permitted for a limited amount of time.

Councilman Hunt suggested between now and the next Council meeting he would like to think hard about the motion made by Vice-Mayor Manheimer.

Vice-Mayor Manheimer said that Council hasn't discussed the designation of public forum areas. She understands that there are legal reasons why some areas are designated and some are not. City Attorney Oast responded that he included the areas in front of the City building and the western extremity of Vance Monument as public forums because he thinks that's how they have traditionally been used and he felt that was what the courts might recognize. Other cities have designated public forums in that way.

Vice-Mayor Manheimer clarified that the western extremity of the Vance Monument would be included in the Park and be subject to the 10:00 p.m. curfew hours; however, the space directly in front of City Hall is not included in the Park and not subject to the curfew hours. Those two areas could be designated as public forum areas and you could stay there 24/7. She felt that would be a compromise.

In response to Mayor Bellamy, City Attorney Oast said that it is possible to adjust the park closing hours and make that adjustment specific to this park.

Councilman Bothwell was going to bring this up at Council's retreat, but wondered if the majority of Council would be supportive to amend the US Constitution to decide that corporations are not people – that only natural people are people. If Council supported that, he wondered if Occupy Asheville might deem that a victory in achieving one of the things they are trying to bring to the attention of the City and de-camp. He felt that would be compromise.

Councilman Smith was going to submit that request to be brought before the full Council.

Councilman Hunt clarified that Councilman Bothwell's compromise would be the expansion of the Park to include the area by City Hall, including the designation of public forum areas by Vance Monument and directly in front of City Hall, along with the resolution abolishing corporate personhood.

Councilman Bothwell hoped Occupy Asheville would discuss his compromise and feel that they had started to advance the cause. The truth of the matter is the City of Asheville can do nothing to end corporate personhood outside of endorsing the idea. We can't do anything to change the money structure in this country. We are doing our best by having a living wage for our employees. We can't change the federal system or the influence of corporations on politics. The best we can do is when we individually run for office is not take corporate donations. It's possible for us to change our own behavior but as a City we don't have control over the major issues Occupy Asheville is seeking to address. The problem is not Asheville but Wall Street.

Councilman Pelly suggested a three-week permit to allow the installation of a port-a-john for that period of time.

Vice-Mayor Manheimer felt the compromise by Councilman Bothwell was excellent and the only thing that would be contingent upon is the wording of the resolution to abolish corporate personhood. She supported taking action at this meeting.

Councilman Bothwell moved to join the many other cities across this country who have endorsed the move to amend the US Constitution to exclude corporations from personhood and to create a condition where only natural human beings are considered people under our laws. This motion was seconded by Councilman Smith.

Councilman Smith said that there is a group called "Move to Amend" that came to him with a proposed resolution to eliminate corporate personhood. Councilman Hunt provided Council and the public with a copy of the proposed resolution entitled "Resolution to Support the Abolition of Corporate Personhood." Councilman Smith said that the resolution language is off the Move to Amend website and word-smithed by the Move to Amend group in Asheville.

Five individuals spoke as follows: one felt this was not a compromise, two felt the issue should be postponed with continued discussion, one felt the compromise was good, and one asked for time to allow the Occupy Asheville Coordinating Council discuss the compromise at their Monday meeting.

Councilman Smith withdrew his second as he just contacted the "Move to Amend" group and they wanted to have public notice of their resolution request to Council and have the opportunity to speak to Council on that issue.

Councilman Bothwell agreed that having the resolution go through the normal process is better and withdrew his motion. He suggested Occupy Asheville take this discussion back to the Coordinating Council and determine how they want to take their movement forward.

Councilman Pelly felt that in three weeks Council could revisit Vice-Mayor Manheimer's motion to add the existing campsite into the Park, but Occupy's fear is they would be subject to removal unless we voted on this tonight and effective in 3-weeks.

Vice-Mayor Manheimer moved to (1) recognize as a Park the area outlined in red on Exhibit "A" on the map entitled Pack Square Park (which includes the area by City Hall which is being used as a campsite); and (2) identify the area on the western extremity of Vance Monument and directly in front of City Hall outlined in green on Exhibit "A" on the map entitled Pack Square Park as the public forum areas effective February 14, 2012. This motion was seconded by Councilman Pelly.

Five individuals spoke against the motion asking for Council to give the Occupy Asheville Coordinating Council an opportunity to discuss the motion and work through their process, but in the meantime allow the placement of a port-a-john.

When Councilman Hunt questioned the effective date of February 14, Councilman Pelly said that if adopted, the motion would go into effect on the same night as the resolution to eliminate corporate personhood would be considered by Council.

Councilman Hunt supported the motion, along with the resolution to eliminate corporate personhood.

Councilman Davis read the resolution regarding corporate personhood and could support it.

Councilman Bothwell said that the motion does not allow time for a response from Occupy Asheville. He would support revisiting the motion on February 14. Councilman Hunt agreed with Councilman Bothwell and noted he was fundamentally supportive of the motion.

Councilman Pelly felt that as long as the resolution to eliminate corporate personhood is on the agenda on February 14, and it appears the resolution will pass, this is one way to break out of the impasse we seem to be in.

Brother Christopher Chiaronmonte raised a point of order that he was denied access to speak because public comment was limited to five people. Mayor Bellamy said that Section 7.5 of the Rules of Procedure for City Council states "The time limit applicable to public hearings or public comment periods on any agenda item shall be one hour. This time limit may be exclusive of staff presentations and any structured Council debate. This time limit may be shortened or extended by the Mayor with the concurrence of Council."

Prior to voting on the motion, Councilman Pelly withdrew his second. He would be willing to wait until February 14 to consider the motion, noting that he would be very much inclined to support the motion made by Vice-Mayor Manheimer.

Councilman Bothwell moved to permit Occupy Asheville to avail themselves of the port-a-john offered to them by the Western Labor Council and locate it on one of the locations identified by Robert Griffin, until Council's decision on February 14, 2012. This motion was seconded by Councilman Pelly.

Five individuals spoke thanked Council for the time extension until their Coordinating Council has an opportunity to meet on this issue.

When Councilman Smith suggested the port-a-john location be between the City Hall and County Courthouse, Mayor Bellamy said that staff has identified some locations.

Assistant City Manager Richardson said that staff has identified several locations for a port-a-john. The Parks & Recreation Director will work with the Building Safety Director on the appropriate location. If Council adopts the motion on the floor, from an operational standpoint, he that Council ask Occupy Asheville to make arrangements to meet with City staff tomorrow. In addition, if arrangements are not made, because the existing campsite is clearly saturated, he asked that the meeting be a condition of their continuing to remain on that site for the next three weeks.

When Mayor Bellamy asked for a spokesperson to meet with Mr. Griffin about a port-a-john, Kayvon Kazemini was chosen by those representing Occupy Asheville in the Council Chamber to be their spokesperson.

Mayor Bellamy said that after Occupy Asheville's meeting on Monday, she would expect Mr. Kazemini to deliver a report in writing to her office regarding the outcome/decision of Occupy Asheville's Coordinating Council meeting. City Clerk Burleson was directed to make copies available of the report to Council at their annual retreat on February 3.

The motion made by Councilman Bothwell and seconded by Councilman Pelly carried on a 5-2 vote, with Vice-Mayor Manheimer and Councilman Smith voting "no."

It was the consensus of Council to bring back Vice-Mayor Manheimer's motion on February 14, 2012, along with the resolution to eliminate corporate personhood.

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 12-31 - RESOLUTION OF CONSIDERATION IDENTIFYING AREAS WITH POTENTIAL FOR FUTURE ANNEXATION AND REDUCING CURRENT MAP OF CONSIDERATION**

Urban Planner Blake Esselstyn started out by stating this Resolution of Consideration does not indicate the beginning of an annexation process and it does not identify areas that the City of Asheville intends to annex. The resolution that does those things is called a Resolution of Intent and no Resolutions of Intent have been prepared or scheduled for 2012. He said that this is the consideration of a Resolution of Consideration identifying areas with potential for future annexation and reducing current map of consideration. Resolutions of Consideration expire after two years and the City has renewed them every two years for the last 10 years.

State statutes now require that a Resolution of Consideration, formerly an optional action, must be adopted by cities as a preliminary step for any city-initiated annexation process. The Resolution of Consideration serves the purpose of providing citizens with advance notice that certain areas in proximity to the City may, in the future, be subject to annexation. Each Resolution of Consideration is effective for two (2) years. The initial City of Asheville Resolution of Consideration was adopted on April 9, 2002 and revised maps were adopted by Council on March 9, 2004, March 7, 2006, February 26, 2008, and February 23, 2010. Since the time of adoption of the last resolution/map in 2010, North Carolina law has changed significantly regarding city-initiated annexations, adding a petition requirement before such annexations can take effect. As a result, the map staff has prepared to accompany this resolution has changed significantly compared to previous versions.

The accompanying map drastically reduces the area compared to what was previously included. The total area of consideration has been reduced from 33.1 square miles to less than one square mile. The areas that remain are predominantly road rights-of-way, government property, and a few privately owned properties in donut holes or other gaps identified by staff for future "clean-up" and for improving the provision of city services. This map does not preclude incorporation of municipalities in these areas nor does it preclude annexation by another municipality. All of the areas still would require more staff analysis before any annexation could be undertaken.

The revised North Carolina statutes now also require that property owners in the identified areas be notified by mail, and that the adoption of the resolution be recognized in two published newspaper advertisements. The twelve non-right-of-way properties included in the mapped area are owned by a total of seven property owners, two of which are government entities. The description of the area in the legal advertisement will be substantially shorter than would have been required for previously adopted areas.

Pros:

- Required by state law before any city-initiated annexation other than voluntary requests.
- Gives residents and property owners within the area advance notice of possible annexation.

Con:

- Newly required small cost of advertising and notification.

The cost of ads and mailings, which will be minimal, will be paid from the Planning Department's current operating budget.

City staff recommends that the Resolution of Consideration be adopted.

At the request of Vice-Mayor Manheimer, Mr. Esselstyn said the concept of annexing the I-26 corridor in Asheville was included in early versions of proposed annexations going back to 2004. There was some discussion done about whether this should be done at the legislative level in Raleigh from a petition from the N.C. Dept. of Transportation. In conversations with the Asheville Police Department they feel that the State Highway Patrol would welcome the annexation of this area into the City's jurisdiction. This would also fit into the category of closing gaps. In the case of I-40, the City limit line is drawn down the middle of the right-of-way. The Asheville Police Department has agreements with the other responding agencies that they will respond in this area, but the current alignment of the City limit does not correspond exactly with how people are actually providing services in those areas. That would also be a clean-up to include the entire right-of-way from the Blue Ridge Parkway basically west until the area where the entirety of the I-40 right-of-way is included.

In response to Councilman Hunt, Mr. Esselstyn briefly explained his discussions with the non-profits and individual property owners.

When Mayor Bellamy asked for public comments, no one spoke.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 12-31. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 260**

**B. ORDINANCE NO. 4052 - ORDINANCE AMENDING CHAPTER 16 OF THE CODE OF ORDINANCES CONCERNING CHANGES TO THE STANDARDS REGULATILNG PUSHCARTS AND ENCROACHMENTS ON PUBLIC SIDEWALKS**

Urban Planner Alan Glines said that this is the consideration of amending Chapter 16 of the Code of Ordinances concerning changes to the standards regulating push carts and encroachments on public sidewalks.

Over the past few years there has been growing interest in uses in the public right of way in the downtown area. This seems to be a product of greater pedestrian activity on the sidewalks and growth in the number of visitors in the downtown area. Applications for permits for outside merchandise and dining areas and pushcarts are a way to expand private enterprise with minimal upfront costs. Staff has responded to the growth in interest in pushcarts by adding several additional push cart sites in the downtown area where there is pedestrian activity and space along the sidewalk for placement. In 2011, nine additional spaces were added around the perimeter of Pack Square Park and other central locations. As staff has worked with the ordinance and responded to questions from the public, several opportunities have been identified to facilitate the push cart program and to clarify the regulations for other encroachments:

Section 16-143 Exceptions:

- Currently the ordinance states that community events (which may interfere with the regular operation of the pushcart) be posted in the Rankin Street Arcade. When the City Development office operated at 29 Haywood Street special events were posted in a display case inside the Rankin Street Arcade but, with the closure of that office, posting there is no longer practical. The proposal is to remove 'Rankin Street Arcade' posting requirement but to still post the community events on the City's website.

Section 16-144 Pushcarts:

- Currently pushcarts must stop work and remove their cart from the sidewalk at 10:00 PM each day. The proposal is to allow pushcarts operators to remain open until 11:00 PM each day if desired. Pushcart operators have requested this to expand their hours since downtown streets often have active pedestrian traffic after 10 PM.
- An additional proposal for this section is to add a new number 17 to state that applications for a pushcart are required to comply with Section 16-156(b)-*Encroachments*. This will clarify the requirement that pushcarts must apply for a sidewalk encroachment.

Section 16-146/147 Outdoor dining & Outdoor merchandise areas:

- Currently dining or merchandise areas less than 30 square feet are not required to have an encroachment agreement. The proposal is to change this so that all outdoor dining or merchandise areas are required to have an encroachment agreement. The encroachment agreement is a contract with the business owner and the City over the use of public right of way and protects the City from liability.

Section 16-158 Term; fees; transferability; display:

- Item (a) currently states that permits expire on June 30 of each year. The proposal is to allow permits to expire on a day determined by the Planning and Development Department Director after consulting with the Downtown Commission and other applicable boards. This change would allow the pushcart permits to follow more closely the actual operating season which begins in April instead of following the fiscal year date of July 1, which is 'halfway' through the season.
- Item (e) currently states that permits will be approved on a first come first served basis and application to be accepted at the start of business on the first Monday in June. The proposal would alter the wording to approve permits by a process determined by the Planning and Development Department Director after consulting with the Downtown Commission and other applicable stakeholders. Staff has received complaints about the current approval process because operators feel that premium sites never become available to new operators. Staff does not expect any changes to the approval process at this time but may look at other options for approving permits with the assistance of the Downtown Commission and pushcart operators in the future.

Section 16-160 Revocation:

- Item (6): During the months of active operation, the pushcart permit may be revoked if the operator fails to operate for a period of ***15*** consecutive days. The proposed change would require the pushcart to be in operation at least once in ***7*** days. The existing wording permits a pushcart operator to be at the location essentially 2 times per month and maintain their permit. The permits for specific locations are in high demand so it will be better to keep the pushcart locations more active. Staff expects to enforce this portion of the ordinance in a reasonable and practical way so that during times of inclement weather or other excused absences (vacations, illness, etc.), the seven day requirement can be waived or negotiated with the operator.
- Item (6) Currently pushcarts must operate starting in April through September or their permits can be terminated. The proposed change is to require the period of operation to extend until the end of October since the weather is still good and October is a popular tourist time for Asheville.

The Downtown Commission reviewed this ordinance changes at their December 13, 2011, meeting and voted unanimously 9-0 to support the amendments. Comments provided by the Commission were incorporated into the proposed amendment and centered around including the Downtown Commission and other applicable stakeholders along with the Planning Department in future changes to the way permits are issued.

This proposal does not directly relate to the goals outlined in the Strategic Operating Plan but is most closely aligned with the goal for "job growth and community development" by providing opportunities for business expansion in an area that can support the growth.

Pros:

- Provides consistent treatment of encroachments in the public right-of-way and protects the City from liability
- Improves permitting policies to adapt to downtown needs
- Expands the time and duration of the operation of pushcarts consistent with the increased popularity of downtown Asheville

Con:

- Requires operators to expand the operation of pushcart sites (a potential plus)

The changes are not expected to have a fiscal impact over what is already expended under the existing review process. In addition, costs associated with enforcement are expected to neither increase nor decrease.

City staff recommends approval of this wording amendment.

When Mayor Bellamy asked for public comment, no one spoke.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Davis moved for the adoption of Ordinance No. 4052. This motion was seconded by Councilman Bothwell and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 269**

**C. RESOLUTION NO. 12-32 - RESOLUTION APPOINTING A MEMBER TO THE AFFORDABLE HOUSING ADVISORY COMMITTEE**

Vice-Mayor Manheimer said that Mr. Anthony Goodson, representing the Housing Authority, has resigned as a member of the Affordable Housing Advisory Committee, thus leaving an unexpired term until September 1, 2014.

On November 22, 2012, it was the consensus of Council to interview Jayden Gurney, as the representative from the Housing Authority.

Councilman Smith moved appoint Jayden Gurney to fill the unexpired term of Mr. Goodson, term to expire September 1, 2014, or until his successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 263**

**D. RESOLUTION NO. 12-33 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE GREENWAY COMMISSION**

Vice-Mayor Manheimer said that the term of Stephanie Pankiewicz, as a member on the Greenway Commission expired on December 31, 2011.

On January 10, 2012, it was the consensus of Council to interview Mary Weber and Tony Hauser.

After Council spoke highly of both candidates, Mary Weber received 6 votes and Tony Hauser received 1 vote. Therefore, Mary Weber was appointed as a member to the Greenway Commission to serve a three-year term, term to expire December 31, 2014, or until her success has been appointed.

**RESOLUTION BOOK NO. 34 – PAGE 264**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Mr. Alan Ditmore talked about smart growth.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 11:07 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – January 31, 2012 – 6:30 p.m.
Haw Creek Elementary School

Community Meeting - East Asheville

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Councilman Gordon D. Smith

Mayor Bellamy opened the meeting, welcomed the audience and introduced City Council members.

City Manager Jackson provided the audience with an overview of the City Council Strategic Goals.

Director of Transportation Ken Putnam provided the audience with an overview of the sidewalk program. He said recently completed projects consist of (1) Tunnel Road, from Asheville Mall to New Haw Creek Road; (2) Tunnel Road, from New Haw Creek Road to Avon Road; (3) Patton Avenue, from New Leicester Highway to Regent Park Boulevard; (4) Short Coxe Avenue, from Biltmore Avenue to Southside Avenue; and (4) Future Drive, from Wood Avenue to Ledgewood Village Apartments. The recently completed projects consist of 1.93 miles, at a cost of $641,090, and $63 per linear foot. Projects under construction include (1) Kenilworth Knoll/Tunnel Road, from Kenilworth Knolls to Chunns Cove Road; and (2) Lakeshore Drive, from Merrimon Avenue to Mt. Vernon Circle. The projects under construction consist of 0.42 miles, at a cost of $167,300, and $75 per linear foot +/-. Projects in the design stage are (1) Tunnel Road, from Governor's View Road to Maple Springs Road; (2) Tunnel Road, from Maple Springs Road to Craig Circle; (3) Tunnel Road, from Pleasant Ridge Drive to Veteran's Quarters' (4) Lakeshore Drive, from Osborne Street to Shorewood Drive; (5) Overlook Road, from Springside Road to Long Shoals Road; (6) Patton Avenue, from Regent Park Boulevard to Westgate Shopping Center; and (7) Patton Avenue, from New Leicester Highway to Parkwood Road. Projects in design state consist of 2.56 miles, at a cost of $1,886,000; and $140 per linear foot +/-. Potential projects for Fiscal Year 2012-13 in the north consist of (1) Lakeshore Drive, from Mt. Vernon Place to Osborne Road; (2) Lakeshore Drive, from Sherwood Drive (north) to Pine Tree Circle; and (3) Long Street, from Asheville Pizza Brewery to East Larchmont Road. Potential projects for Fiscal Year 2012-13 in the east consist of Riceville Road, from Tunnel Road northward for 600 feet +/-. Potential projects for Fiscal Year 2012-13 in the south consist of (1) Shiloh Road, from Hendersonville Road to the community center; and (2) Overlook Road, from Springside Road to Briarcliff Drive. Potential Fiscal Year 2012-12 projects in the west include (1) Brevard Road, from Fairfax Avenue to I-240; (2) Michigan Avenue, from Haywood Avenue to Waynesville Avenue; and (3) Sand Hill School Road, from Acton Circle to Sand Hill Road. Potential Fiscal Year 2012-13 projects consist of 1.35 miles; at a cost of $821,337; and $115 per linear foot +/-.

Director of Public Works Cathy Ball reviewed with the audience the Azalea Flood Control and Road Improvement Project. She explained how the projects element include (1) new entrance road; (2) repave Azalea Road; (3) relocate Swannanoa River Road; (4) stabilize Azalea Road embankment; (5) waterline extension to soccer complex; and (6) dam rehabilitation for flood mitigation.

Ms. Kim Engel, representing the East Asheville Sidewalk Initiative, thanked City Council for the sidewalks in east Asheville. Their focus now is on the future development along the Tunnel Road corridor from I-240 to Exit 55. Their goal is to create a more shopper friendly, attractive and safer environment for this part of Tunnel Road. Some of the ways this could be done are evaluating the number and configuration of traffic lanes, consideration of adding a median, evaluating speed restrictions and parking. They asked that City Council instruct staff to conduct a "Tunnel Road Corridor Study." They have contracted with a local artist who designed a mural that they will have installed on the retaining wall at the corner of Beverly Road and Tunnel Road to help create their identity.

Mayor Bellamy then opened up the meeting for questions. Questions/comments responded to consisted of: need for City's assistance with the parking lot and entrance road to Masters Park; request for portion of sidewalk on New Haw Creek Road; East Asheville library is in the need of a new roof; awareness of what is happening at the Nature Center; small old building on Masters Park property is a safety hazard and needs to be demolished; Municipal Golf Course could be an asset for the City with simple changes; request for more police patrols at Azalea Road soccer field during high use days; need for strong unified stand on why Asheville should keep our water system; urging that Asheville citizens become educated on the issue of the issue of losing our water system and get involved by calling, e-mailing or attending meetings with our legislators on this matter; and request for 62-slide presentation made by the City to the legislators regarding our water system be placed on the City's website.

Economic Development/Civic Center Director Sam Powers invited the public to attend the upcoming Southern Conference Men's & Women's Basketball Tournament at the Kimmel Center and the newly renovated Asheville US Cellular Center on March 2-5, 2012.

Mayor Bellamy and Council members expressed their appreciation for the community involvement.

At 8:00 p.m., Mayor Bellamy adjourned the meeting.

Magdalen Burleson
CITY CLERK

MAYOR

Friday – February 3, 2012 - 9:00 a.m.
UNC-Asheville, Wilma M. Sherrill Center

City Council Annual Retreat

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Mayor Bellamy convened the meeting and welcomed everyone to the annual City Council retreat.

Mayor Bellamy thanked UNC-Asheville for hosting City Council's retreat and introduced Ms. Anne Ponder, Chancellor, who thanked City Council for coming to the new Wilma M. Sherrill Center, home of the North Carolina Center for Health & Wellness. She briefed Council on things going on at their campus, along with student initiatives and community partnerships.

Mayor Bellamy thanked Vice-Mayor Manheimer and Councilman Pelly for their assistance on the retreat agenda. She then introduced Dr. John B. Stephens, Associate Professor of Public Administration and Government, who explained that the purpose of the retreat is (1) prioritize goals for 2012; (2) set clear direction for senior staff in supporting Council's priorities; (3) continue to build strong working relationships among Council members and with senior staff; and (4) understand and apply information on economic and financial projections.

The agenda was approved and expectations/guidelines for the retreat were agreed upon.

City Council went through an ice-breaker exercise. Using the Six Thinking Hats exercise, Dr. Stephens worked with Council on the different ways of thinking/engaging in a group.

Dr. Stephens then provided Council with the summary results of his pre-retreat interviews.

Dr. Stephens said that in preparation for the February 3, 2012, City Council retreat, he conducted individual, confidential telephone interviews with the Mayor and Council Members; however, he was not able to interview Councilman Bothwell. Because the following summary did not include Councilman Bothwell's points, his are highlighted in **bold**. In addition, other items mentioned by Council at the retreat are also highlighted in **bold** and are not necessarily common areas.

Some interviewees based their comments on the Strategic Operation Plan for 2011-12 and others did not. One interviewee requested that he read the January 4, 2010, report from City Manager Gary Jackson, "Asheville, NC 2010: A Financial Crossroads."

Dr. Stephens noted that while some Council had common areas of interest, Section 2 below are areas with distinct interest or goals.

There was considerable general discussion throughout the day on the common priorities outlined below, with each member voicing their opinion on the different objectives.

**Section 1. Areas of common or overlap of priorities**

General categories were addressed by several interviewees; the subpoints varied by interviewee

City financial resources

a) Stretch dollars, plumb all sources for support
b) Maintain 15% fund balance

c) Seek firm/dedicated revenue sources for particular needs or goals
d) Support city employees: include raises in next budget

Economic Development and Jobs

**a)** Riverfront Redevelopment Commission – great opportunities – **How can we help rejuvenate the River District; Possible County help for office staff**
b) Implement Downtown Business Improvement District (BID)
c) Clearer focus for community development funds; re-energize + Need to be careful on how we allocate these funds – monies will need to be stretched. Likely to have to say "No" for the first time to some recipient agencies
d) Entrepreneurship – lower barriers for new businesses and expand current businesses
e) Support green, local employers; targeted development efforts
f) More funding for Economic Development Commission
g) Other possible job impacts: outside agency funding; contracts with local vendors and minority-owned businesses
h) Support Chamber of Commerce via "5 by 5" plan for economic development
**i) Moving City money into local banks**
**j) Finish the Eagle-Market Street Redevelopment Project**

Affordable-Green-Sustainable

a) Extend PACE to commercial property owners
b) Sustainability/Safety – pedestrian and bicycle – continue infrastructure work
**c) Look for partnerships for Community Energy Audit**
**d) Funding for Tree Commission for education**
**e) Revisit water fluoridation**
**f) Consider a bond referendum to support goals**
**g) Maintain 80% carbon reduction goal**
**h) Direction on funding outside agencies**
**i) Partnership with the Asheville Sports Commission**
**j) Need to revisit density bonuses for other areas of smart growth**
**k) Extend transit service to holidays and on Sundays that has service on the main routes.**

Various Master Plans: coordination – resources – concrete progress

a) Examine how various master plans overlap, focus on how to move forward effectively and demonstrate pay-off to residents
b) Progress on specific corridors
**c)** Wilma Dykeman Riverway: Work with other stakeholders in river district to identify funding – is a big project, need to seek monies, but do not forfeit smaller projects; **request to define and focus on one area of the River to work on regarding implementation the Riveway Plan; apply density bonuses to entire River District; why is $50 Million Riverside Drive Project on the DOT Transportation Improvement Plan if it is a City-maintained street**
d) Example - plans on transportation, and arts and culture: see some results by June 30, 2012.
e) Longer-term work: overhaul the Unified Development Ordinance

Neighborhood Advisory Committee

a) Council and staff time to complete development
b) Questions: What are the goals and powers? How to assure a representative make up?
c) **Discussion and consensus to have draft ordinance be taken to the Housing & Community Development Committee prior to the full Council.**

Partnerships and key external relationships

a) Work to strengthen for better service coordination
b) Align daytime working population with financial support for city services

c) Improve relationships and be more current with other local governments and the state legislature, including a more direct role in Raleigh
d) **Seek resolution of the agreement with Henderson County for the Bent Creek property**
e) **Develop response on how to deal with the NC Dept. of Agriculture wanting the City to deed over the WNC Ag Center.**
f) **Develop consensus on how to approach the Airport Authority legislation**
g) **Develop consensus on the Metropolitan Sewer District Board make-up regarding Henderson County**
h) **Take a position as City Council regarding potential litigation affecting our water system**
i) **Need for a full-time liaison to the General Assembly; Councilwoman Manheimer and Councilman Davis to investigate cost, role, etc. and bring forward a recommendation to Council at March 27 meeting**
j) **Suggestion for annual meeting of City Council and the Buncombe County Commissioners**
k) **Partnership with Land-of-Sky to apply for regional dollars**
l) **Work with the Pack Square Conservancy in developing a plan to repay the City**
m) **Raise parking rates again and give City residents a discount on deck parking**

SOP 2011-12 language on Safety

a) Clarity in the goal for this area – Major heading reads "Asheville will be one of the safest ..." and Goal I reads "Make Asheville the safest City in America ..."
b) Concerns about
    1) Level of resources it would take to be "THE best" compared to a "very good level of safety"
    2) Potential imbalance of investment in Safety compared to other needs and goals

**Section 2: Areas with distinct interests or goals**

a) What is realistic for staff work? They do excellent work, but I do not want to overload them

b) Civic Center renovations – well along on this, but need to see this to completion. As part of this endeavor, seek partners to work on the next phases. **Possibility of working with Moogfest on a museum in the Civic Center.**

c) Funding for Business Improvement District: self-funded via Tax-Increment Financing

d) Public celebrations are important: work to assure them through private, public or mixed funding (i.e., 4th of July fireworks and New Year's Eve celebration)

e) Energy efficiency – extend current efforts via a low-interest loan pilot program in FY12-13 to help individual homeowners (home weatherization, etc.)

f) Expand our Memorandum of Understandings with UNC-Asheville and Warren Wilson to A-B Tech, Phoenix University**, and Lenoir-Rhyne**: help our staff (e.g., classes) and community (e.g. best practices, student internships)

g) Public Safety - new police chief will mean some new directions: Council to listen, learn, advise

h) Council rules of procedure
- Very concerned about breaking the confidentiality of closed sessions. All council members need to maintain confidentiality.

- Seek new rule: every resolution should be a single item/subject. Purpose: avoid having many things in a proposal that makes it complex or confusing. Desired result: clearer and more transparent local government. Mayor will work with Rules Committee on single-issue resolutions and other possible rule amendments proposed by City Attorney Oast.

i) Other areas of Affordability

Housing

- Restore Affordable Housing Trust Fund– to as high as $600,000 for upcoming fiscal year
- Consider a new formula: "Housing + Transportation" – for prioritizing location of affordable housing
- Commitment to mixed income neighborhoods: "lifecycle housing" – keep/create greater variety within each neighborhood. Goal: diversity within each neighborhood; end concentration of low income families in certain neighborhoods, and distribute infill development,

Transit

- Get more "choice riders" and greater convenience and reliability; thus re-commit to fully funding the transit system. Need a marketing budget to reach success for choice riders.
- Better service to the airport
- Any further steps toward Master Plan for Transit need additional funding

Food - Food Policy Council in development

- Food access – Housing and Community Development Department is seeking USDA loans for "food deserts" – be sure we are keeping an eye on opportunities to increase access. Keep looking
- Identify arable land parcels owned by city. Explore RFP process to lease to area farmers and gardeners
- Embrace Cooperative Extension10% goal: **encourage** government and other institutions to spend 10% of food budgets on local food sources.

Living Wage policy - expand threshold to cover larger contracts (above the current cap of "up to $90,000 contracts"); **extend our living wage policy to where the City only patronizes restaurant that are living wage employers; update on living wage policy coming back to Council in March, 2012**

Green and Sustainable

- City's Sustainability Department is trying to come up with community-wide CO2 reduction target. Would like some "rudimentary metric/s" for council to consider late in 2012 or early 2013 "whatever you can come up with."
- Management of resources: protect watershed – maintain our abundance of water – protect the public interest via maintaining public ownership.

Council previewed the 2nd trailer of the movie "The Hunger Games" which was filmed entirely in North Carolina and a good portion of City-owned property at the North Fork Reservoir.

Discussion surrounded Finance and Management Services Director Lauren Bradley report on economic and financial trends/projections. Responses Ms. Bradley did not have readily available would be provided to Council at a later date. Council agreed to (1) March 27 worksession on General Fund briefing; (2) April 10 worksession on Enterprise Funds and the Capital Improvement Plan; (3) April 24 Fiscal Year 2012-13 budget presentation; (4) May 22 budget public hearing; and (5) June 12 budget adoption.

At the suggestion of Councilman Hunt, it was the consensus of Council to have Council and possibly other government leaders and community partners attend the Budgetopolis exercise at the School of Government session in the fall.

It was the consensus of Council to have staff begin the process of narrowing down the objectives and at the March 27 worksession Council will then determine which objectives receive majority vote for next year's Strategic Operating Plan. In addition at the March 27 worksession, Council will also hold a worksession for General Fund Fiscal Year 2012-13 budget planning purposes.

**Wrap Up**

Each Council member voiced one thing they liked with the retreat and one thing they wished would have been different. However, all were pleased with Dr. Stephens as the facilitator.

**Adjournment**

The retreat adjourned at 3:41 p.m.

Magdalen Burleson
City Clerk

Mayor

Tuesday – February 14, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding (excused from meeting at 8:05 p.m.); Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Bothwell gave the invocation.

**I. PROCLAMATIONS:**

**A. PROCLAMATION PROCLAIMING FEBRUARY 14, 2012, AS THE "FIFTH ANNUAL UNITED SERVICES CREDIT UNION SCHOLARSHIP DAY"**

Mayor Bellamy read the proclamation proclaiming February 14, 2012, as the "Fifth Annual United Services Credit Union Scholarship Day" in the City of Asheville. She presented the proclamation to Esteve Coll, Business Development/Marketing Manager; Bill Carrington, Chief Executive Officer; and Tom Muncy, Chairman of the Board, who briefed City Council on some activities taking place during the day.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 24, 2012; THE CITY COUNCIL COMMUNITY MEETING HELD ON JANUARY 31, 2012; AND THE CITY COUNCIL RETREAT HELD ON FEBRUARY 3, 2012**

**B. RESOLUTION NO. 12-34 - RESOLUTION DECLARING IT A PUBLIC PURPOSE FOR THE CITY TO PARTNER WITH AND PROVIDE FOR THE PROCUREMENT, STORAGE, AND ALLOCATION OF SNOW FIGHTING MATERIALS TO EMERGENCY FACILITIES**

Summary: The consideration of a resolution finding the procurement of snow fighting materials for emergency facilities to constitute a public purpose and authorizing the City Manager to develop a policy for such procurement.

The City of Asheville has over the years partnered with public and private entities to procure snow fighting materials to include the Town of Black Mountain, UNC-Asheville, AB-Tech and Mission Hospital. The partnering with these entities benefits the City, primarily from a health and safety perspective, but also financially as the cost to the City is less. In order to more efficiently and effectively provide this service so as to minimize concerns of favoritism and unfair competition, staff will develop a policy consistent with Council's directions. Potential partners may include other nearby municipalities and towns, schools, hospitals and other similar type of emergency entities.

This action complies with the City Council Strategic Operating Plan in creating more collaborative and effective working partnerships between the City of Asheville and other key organizations.

Pros:

- Create common goal partnerships with other key organizations.
- Increase in bid quantities could potentially leverage overall reduced costs of materials.
- More boots on the ground in spreading materials along public thoroughfares leading into key facilities.

Con:

- Mid-storm deliveries would necessitate sensitive communications to sort out needed logistics.

There would be an additional cost in procuring the additional material(s); however, agreements would be structured to be cost neutral, and any expense would be offset by corresponding revenue in materials reimbursements.

City staff recommends City Council declare the procurement of snow fighting materials to be a public purpose and authorize the City Manager to develop and administer a policy to regulate its procurement.

**RESOLUTION BOOK NO. 34 – PAGE 265**

**C. RESOLUTION NO. 12-35 - RESOLUTION AUTHORIZING THE CITY OF ASHEVILLE TO BE THE LOCAL GOVERNMENT PARTNER FOR THE ASHEVILLE ART MUSEUM GRANT APPLICATION TO THE NATIONAL ENDOWMENT FRO THE ARTS 2012 OUR TOWN GRANT**

Summary: The consideration of a resolution authorizing the City of Asheville to be the local government partner for the Asheville Art Museum grant application to the National Endowment for the Arts 2012 *Our Town* grant.

The National Endowment for the Arts (NEA) offers numerous grants in a variety of art and design categories. For the second year, the NEA has offered the *Our Town* grant for creative placemaking projects that contribute toward the livability of communities and help transform them into lively, beautiful, and sustainable places with the arts at their core.

*Our Town* grants will invest in creative and innovative projects in which communities, together with their arts and design organizations and artists, seek to improve their quality of life, encourage creative activity, create community identity and a sense of place, and revitalize local economies.

Through *Our Town* projects, the NEA intends to achieve the outcome of *Livability: American communities are strengthened through the arts.* The anticipated long-term results for livability projects are measurable community benefits, such as growth in overall levels of social and civic engagement; arts- or design-focused changes in policies, laws, and/or regulations; job and/or revenue growth for the community; and changes in in-and-out migration patterns.

The NEA anticipates awarding grants in the amount of $25,000, $50,000, $75,000, $100,000, or $150,000 which also requires a nonfederal dollar for dollar match. The grant applicant, not the local government partner, is responsible to provide the match. The grant deadline is March 1, 2012.

According to the NEA, the key to the success of creative placemaking involves the arts in partnership with a committed governmental leadership and the philanthropic sector. These

partnerships must involve two primary partners: a nonprofit organization and a local government entity.

This year the City of Asheville in the Parks, Recreation and Cultural Arts Department accepted proposals from eligible non-profit cultural (arts or design) organizations in Asheville who need a local government partner as part of the NEA *Our Town* Grant application. The following five organizations submitted proposals:

Asheville Art Museum: $150,000

To support the next phase of the project development for the Museum's much needed renovation and expansion plans: the design development phase. The Museum will meet the required 1:1 match out of existing funds. The expansion and renovation project aligns with four vision principles as outlined in the Downtown Master Plan and is listed explicitly as a priority of the Downtown Master Plan in Strategy 1.

Asheville Design Center: $25,000

To support a community-driven process to develop a series of prototype bus shelters that meet the Transit Department's design standards and train community members in the design-process and construction methods. The ADC will meet the required 1:1 match through in-kind professional design services. The project addresses four sections of the Transit Master Plan.

Center for Craft, Creativity & Design: $25,000

To engage the community in a series of lectures, charrettes and discussions that will foster interaction among community members, arts organizations, artists and the different sectors (public, private, non-profit). The CCCD will match $15,000 and partners will be asked to provide the remaining $10,000 funds in cash and in-kind contributions. The project supports the Parks, Recreation, Cultural Arts and Greenways Master Plan and the Downtown Master Plan.

Montford Park Players: $75,000

To support design cost for improvements at the Hazel Robinson Amphitheatre which includes a guest services facility, accessible paths, upper stage house, and improvements to audience seating area. The Montford Park Players will meet the required 1:1 match out of existing funds. The project supports the Parks, Recreation, Cultural Arts and Greenways Master Plan.

YMI Cultural Center: $25,000

To support Asheville Wordfest and to help make the festival a nationally and globally recognized and attended poetry festival. The YMI will raise money to meet the required 1:1 match.

The proposals were reviewed by the Public Art and Cultural Commission at its meeting on January 26, 2012. The Commission was asked to recommend one proposal to City Council. Three Commission members recused themselves from the process due to conflict of interest. Representatives from each applying organization were invited to speak about their proposals. The Commission motioned to recommend the Asheville Art Museum proposal which passed with a 3-2 vote. A second motion was made to support the Asheville Design Center proposal which failed 2-3.

Pros:

- The grant provides support for a variety of projects and activities;

- The arts are an integral part of Asheville;
- Provides additional funding for a project or activity.

Con:

- None

There is no direct financial impact but staff time and resources will be required.

The Public Art and Cultural Commission recommends City Council to approve the City of Asheville to be the local government partner for the Asheville Art Museum's NEA's 2012 Our Town grant application.

**RESOLUTION BOOK NO. 34 – PAGE 266**

**D. ORDINANCE NO. 4053 - ORDINANCE REDUCING THE SPEED ON MEADOW ROAD FROM AMBOY ROAD TO VICTORIA ROAD TO 35 MILES PER HOUR**

Summary: The consideration of an ordinance concurring in a speed limit change on SR 3556 (Meadow Road) from SR 3556 (Amboy Road) to Victoria Road.

According to state law (NCGS # 20-141), the statutory speed limit in North Carolina is 35 mph inside municipal corporate limits for all vehicles and 55 mph outside municipal corporate limits for all vehicles except for school buses and school activity buses.

Furthermore, when an engineering and traffic investigation determines that a speed limit other than the statutory 35 mph speed limit would be reasonable and safe along a state-maintained street that is inside municipal corporate limits, a concurring ordinance from the municipality is needed. Typically, these investigations are done by municipal staff but it is not unusual for the N.C. Dept. of Transportation (NCDOT) to do the investigations along their streets.

The Division 13 Traffic Engineer for NCDOT recently completed an engineering and traffic investigation and determined that the existing 45 mph speed limit on SR 3556 (Meadow Road) from SR 3556 (Amboy Road) to Victoria Road should be changed to 35 mph. It has been concluded that a 35 mph speed limit would be reasonable and safe for the current traffic conditions. City traffic-engineering staff agrees with the recommended action.

This action complies with the City Council Strategic Operating Plan in the Safety focus area by improving the "street experience" for all users including pedestrians, bicycles, and motorists in a medium commercial corridor.

Pros:

- The North Carolina Department of Transportation did the engineering and traffic investigation to determine the reasonable and safe speed limit.
- Since the subject street is a state-maintained street, the North Carolina Department of Transportation will install and maintain the appropriate signs.

Con:

- There are no known cons with the subject action.

There is no fiscal impact with the subject action. The NCDOT will be installing and maintaining the appropriate signs.

City staff recommends that City Council approve an ordinance concurring in a speed limit change on SR 3556 (Meadow Road) from SR 3556 (Amboy Road) to Victoria Road from 45 mph to 35 mph.

**E. MOTION APPROVING ANCILLARY PERMITS AND PERMISSIONS ASSOCIATED WITH THE SOUTHERN CONFERENCE BASKETBALL CHAMPIONSHIPS**

Summary: The consideration by Council to approve ancillary permits and permissions associated with the Southern Conference Basketball Championships as is consistent with City policy to ensure a safe and successful tournament experience.

The Southern Conference Basketball Championships will be held in Asheville March 2-5, 2012. Various permits and permissions as is consistent with City policy will be necessary to ensure a safe and successful event. These include permits and permissions for the following:

- Street banners: approximately 70 street banners paid for and provided by the Asheville Buncombe Regional Sports Commission (ABRSC) placed in strategic locations in the central business district and other major corridors; the application fee has been processed, so no fee waiver is requested.
- A fan village in the empty lot across from the Civic Center, to include two City-approved food trucks; no fees will apply to city services and permits.
- Miscellaneous non-advertising wayfinding to direct both vehicular and pedestrian traffic for which there is no associated fee, so no fee waiver is requested.
- Miscellaneous non-commercial tournament welcoming banners placed at the Asheville U.S. Cellular Center for which there is no associated fee, so no fee waiver is requested.
- Use of designated City parking lots and portions of City parking garages for parking for officials and staffing for the tournament: parking services will receive a lump sum in the amount of $6000 from the ABRSC to offset costs associated with reserving designated public parking for tournament use.
- The City Transportation Department, in conjunction with APD and the Public Works Department, intends to close several streets adjacent to the Asheville U.S. Cellular Center in a pattern developed to address public safety concerns at high attendance events held at the Center. No fees will apply.

This action supports the City's Strategic Plan to make Asheville a safe city and expand partnerships to achieve common economic development goals.

Pro:

- Public safety component of holding a high attendance event in downtown Asheville.

Con:

- Street closures on Friday and Saturday may affect access to the rear parking lot of the Basilica.

There is a substantial positive net economic impact for the City associated with hosting the championships. Highlights include:

- Number of Visitors: 8,000
- Number of Room Nights: 4,000
- Economic Impact: $4,000,000
- Largest Sporting Event in Asheville's History
- National Television Exposure

Staff recommends Council approve the ancillary permits and permissions associated with the Southern Conference Basketball Championships as is consistent with City policy to ensure a safe and successful tournament experience.

**F. ORDINANCE NO. 4054 - BUDGET AMENDMENT FROM THE FRIENDS OF THE NATURE CENTER FOR CAPITAL PROJECTS AT THE WNC NATURE CENTER; AND TECHNCIAL BUDGET AMENDMENT MOVING PREVIOUSLY BUDGETED CONTRIBUTIONS FROM THE FRIENDS OF THE NATURE CENTER**

Summary: The consideration of 1) a budget amendment in the amount of $66,036, from contribution provided by the Friends of the WNC Nature Center to support the design and installation of a playground and other visitor enhancements at the WNC Nature Center, and 2) a technical budget amendment in the amount of $75,000 to move previously budgeted contributions from the Friends of the WNC Nature Center from the City's Capital Projects Fund to the Special Revenue Fund.

The City of Asheville in the Parks, Recreation & Cultural Arts Department has received a contribution from the Friends of the WNC Nature Center to support the design and installation of a playground and other visitor enhancements at the WNC Nature Center.

The Friends of the WNC Nature Center, a 501c3 non-profit charity, is a community group of individuals, businesses and grantors who together support the WNC Nature Center with funding to provide an enriching and educational experience for the Center's visitors.

The action complies with the City Council 2011-2012 Strategic Plan Goal of fiscal responsibility of exploring alternative for enhancing the city's long-term financial commitment to master plan implementation, infrastructure maintenance, capital improvements, and public facilities. The action also complies with the Parks, Recreation, Cultural Arts & Greenways Master Plan in that it increases department funding with alternative funding and ensuring a high level of service in parks and facilities by addressing capital maintenance of existing parks and facilities to meet community standards.

Pro:

- Provides additional funds to support capital improvements and the strategic plan at the Nature Center

Con:

- None

These expenditures will be fully funded with a donation from the Friends of the Nature Center in the amount of $66,036 that has been received; thus, there is no net fiscal impact to the City's operating budget. In addition, to more accurately reflect the nature of the contributions received from the Friends of the WNC Nature Center, accounting staff is requesting to move previously budgeted contributions from the City's Capital Projects Fund to the Special Revenue Fund. There is no fiscal impact to this technical change.

City staff recommends City Council to approve 1) the budget amendment authorizing the City Manager to accept the donation from the Friends of the WNC Nature Center in the amount of $66,036.00; and 2) the technical budget amendment in the amount of $75,000 to move previously budgeted contributions from the Friends of the WNC Nature Center from the City's Capital Projects Fund to the Special Revenue Fund.

**ORDINANCE BOOK NO. 27 – PAGE 273**

**G. ORDINANCE NO. 4055 - BUDGET AMENDMENT TO FUND CITY'S CONTRIBUTION FOR N.C. STATE TREASURER'S OTHER POST EMPLOYEMENT BENEFIT FUND**

Summary: The consideration of a technical budget amendment in the amount of $3,025,866 from General Insurance Service Fund Reserves and Enterprise Funds' reserves to fully fund the City's initial contribution to the North Carolina State Treasurer's OPEB Fund.

On December 13, 2011, City Council approved a resolution authorizing the City's participation in the State Treasurer's investment trust for local government OPEB funds and related Trust Agreement beginning with an initial FY 2011-12 contribution of $3,025,866. In order to make that contribution, however, Council must approve a budget amendment to provide authorization for the appropriation of the cash and the subsequent payment to the North Carolina State Treasurer's OPEB Fund. The $3,025,866 contribution is being funded as follows: $2,565,529 for the governmental fund liabilities is being appropriated from unassigned internal service fund reserves and $460,337 for the proprietary fund liabilities is being appropriated from each respective enterprise fund (e.g. water, stormwater, parking, etc.).

Pros:

- Provides budget authorization for the December 13, 2011 Council-approved resolution authorizing the City's participation in the State Treasurer's investment trust for local government OPEB funds and related Trust Agreement beginning with a contribution of $3,025,866.

Cons:

- None.

After funding the net OPEB liability, as of June 30, 2011, the Health Care Internal Services Fund will have $1,393,802 in unrestricted net assets. Staff recommends that this amount remain in the Internal Services Fund to fund unplanned expenses in the City's self-insurance programs. The reserves that are being appropriated from the City's Enterprise Funds will not significantly impact the fund balance levels in any of those funds.

City staff recommends City Council approve the technical budget amendment in the amount of $3,025,866 from General Insurance Service Fund Reserves and Enterprise Funds' reserves to fully fund the City's initial contribution to the North Carolina State Treasurer's OPEB Fund.

**ORDINANCE BOOK NO. 27 – PAGE 275**

**H. ORDINANCE NO. 4056 - TECHNICAL BUDGET AMENDMENT FOR ACCOUNTING CHANGES FROM EXTERNAL AGENCIES FOR FUEL AND FLEET REPAIRS PROVIDED BY THE CITY**

Summary: The consideration by City Council of a technical budget amendment to reduce the General Fund budget by $1,221,594 to reflect accounting changes related to the recording of revenue received from external agencies for fuel and fleet repairs provided by the City.

The City's Fleet Maintenance Division provides fuel and limited repair services to certain governmental units and non-profit agencies, including Mission/St. Joseph's Hospital and the Metropolitan Sewerage District. The City charges these agencies for the cost of the fuel and repair parts along with a 5% markup for fuel, sublet repairs, and, non-stock parts; and a 30% markup for stock parts.

In previous years, the purchase of fuel (approximately $1 million annually) for external agencies was reflected as a general government expense; thereby over inflating the City's cost of general government activities. The funds received from these charges were recorded in the General Fund as revenue. At the end of FY 2010-11, the City changed its method of accounting for these funds such that these monies are now being recorded as an offset against the expense

of providing the service so that these external agency activities are not reflected in City government expenses.

This change was finalized after adoption of the current budget, therefore the FY 2011-12 General Fund budget needs to be revised downward. The technical impact of this change is a reduction in the FY 2011-12 General Fund revenue and expense budget of $1,221,594.

This action complies with the City Council Strategic Operating Plan goal of "Operate the City of Asheville to the highest levels of fiscal responsibility."

Pros:

- Aligns the budget with current accounting procedures.
- Provides an apples-to-apples comparison with FY 2010-11 financial results and the upcoming FY 2012-13 proposed budget.

Con:

- None.

As noted above, the FY 2011-12 General Fund budget will show a reduction of $1,221,594

City staff recommends City Council approve the technical budget amendment in the amount of $1,221,594 to reflect accounting changes related to the recording of revenue received from external agencies for fuel and fleet repairs provided by the City.

**ORDINANCE BOOK NO. 27 – PAGE 279**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Pelly and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. ASHEVILLE-BUNCOMBE REGIONAL SPORTS COMMISSION

Mr. Ben VanCamp, Executive Director of the Asheville-Buncombe Regional Sports Commission, explained their mission, vision, history and funding.

They (1) work with existing events on growth, i.e., Carolina Day Holiday Basketball Classic; (2) incubate new events from within our community, i.e., Gala Gymnastics Event; and (3) recruit new events to our community, i.e., Friends of Mission Charity Classic Symetra Tour.

Their impact for previous events from November 2011 to January 2012 include: 5 events, 2,500 room nights, 3,000 out of town visitors, and an estimated economic impact of $1,500,000. Upcoming planned events from February 2012 to June 2013 include: 9 events, 14,300 room nights, 20,000 out of town visitors, and an estimated economic impact of $14,930,000.

He provided statistics on the Southern Conference in which the City will be host in June 2010 for the 2012 – 2014 Championships, and recognized the SoCon local organizing committee.

They receive community-wide support from community partnerships, financial support, volunteer support and educational partnerships. The SoCon Basketball Championships estimated impact consists of 8,000 visitors, 4,000 room nights, and an estimated economic impact of $4,000,000. It is the largest sporting event in Asheville's history and will have national television exposure on ESPN on Monday, March 5. The Big South Basketball Championships estimated impact consists of 1,500 visitors, 1,311 room nights, and an estimated economic impact of $1,100,000. It will also have national television exposure on ESPNU on March 1, and ESPN on March 3.

Mr. VanCamp responded to Councilman Bothwell when he asked how the numbers of the economic impact were reached.

On behalf of City Council, Mayor Bellamy thanked the Sports Commission for their hard work, and City staff Sam Powers and Janet Dack who have done a wonderful job in this on-going effort.

Councilman Davis urged the public to attend the Southern Basketball Championships and the Big South Basketball Championships for an exciting time in March.

**B. UPDATE ON LAKE CRAIG/AZALEA ROAD PROJECT**

Stormwater Services Manager McCray Coates said that this is an update on the Lake Craig/Azalea Road Project.

One of the largest projects the Public Works Department has currently underway is the Lake Craig/Azalea Road project. Through this project, the City of Asheville has the opportunity to provide improved access to city facilities along Azalea Road, provide a much needed water connection to the John B. Lewis Soccer Complex and to provide additional flood protection to Biltmore Village. McGill Associates, a local engineering firm, is the lead consultant for this project.

Azalea Park is a large attraction that hosts a regional soccer complex along with the Nature Center. This complex draws visitors from throughout the region which increases the traffic along Azalea Road. The City is proposing to widen and improve the roadway in this section. The City proposes to combine flood control recommendations and utilize material from floodplain fill removal for the roadway improvements. The plan also includes a bike and pedestrian facility.

The City also plans to provide a much needed water supply connection to the soccer complex. Currently, the pavilion does not have a potable water source.

The Hurricane Recovery Act of 2005 (Senate Bill 7) allocated funds for planning and implementation of projects to aid in flood damage reduction for North Carolina communities hardest hit by the 2004 hurricane season. Through a previous study performed by Brown and Caldwell, the Lake Craig Project has shown potential to provide significant flood reduction benefits. The flood control features of phase I of this project include stream relocation and restoration, removal of floodplain fill and flood bench restoration. Phase II would include the rehabilitation or replacement of an existing dam. Phase II is currently not funded, the City will look for future funding through the Corps of Engineers and NC Division of Water Resources for Phase II of this project.

On May 26, 2009, by Resolution No. 09-108, the City Manager was authorized to enter into a Feasibility Cost Share Agreement for the Swannanoa Flood Risk Management Project with the Army Corps of Engineers to provide professional services for a feasibility study for reducing flood damage in the Swannanoa River Watershed. That resolution allows the City Manager to modify the existing agreement with the US Army Corps of Engineers allowing engineering services performed by McGill Associates to be utilized as matching work in kind funds for the Corps Feasibility Cost Sharing Agreement.

The Corps of Engineers has been very involved with the flood reduction component of this project. Federal funding delays has caused a loss of time on the review efforts of the Corps. City staff along with McGill Associates have worked diligently with the Corps to insure that all possible matching work in kind funds can be granted to this project.

City staff has been involved with discussions with the Corps of Engineers to try to identify ways to utilize any excess work in kind credits for current and past city flood reduction efforts that may be remaining from the Feasibility study. In order for this to take place, congressional language will need to be drafted and approved. The work in kind matching funds will be important to maximize local and state funds necessary for Phase II of this project.

This action complies with the City's plans and commitments to administer the remaining $2.1M of Senate Bill 7 funding consistent with a contract executed with the North Carolina Division of Water Resources on April 1, 2007. In addition, this project has complied with the Council's Strategic Plan to provide a safe community for our citizens.

Pros:

- Implements the priority objective of the Swannanoa Flood Risk Management Project
- Provides safe access for the local residents along with the citizens that visit these important city facilities
- Provides water to the soccer complex
- Provide bike and pedestrian linkages that connect the soccer complex with the Nature Center
- Priorities are set for expending the remainder of state flood mitigation funding and for pursuing future state and federal grant funding for this project.

Con:

- The City of Asheville currently does not have the funding to complete the construction and final design of Phase II of project. Construction/rehabilitation of the dam will require the involvement and funding of the US Army Corps of Engineers or the North Carolina Division of Water Resources.

Staff has budgeted $1,263,206 for the engineering services necessary to complete Phase I of the Lake Craig Project. The total estimated cost for Phase I of this project, which includes the engineering services as well as the roadway, utilities, and river relocation construction, is $4.15 million. Phase I is currently fully funded. City staff is working with the Army Corps of Engineers as well as the North Carolina Division of Water Resources to identify future funding for the completion of the Dam construction which will be associated with Phase II of this project. These sources would require matching contributions from the City in order to secure these funds.

No action is requested at this time.

Mr. Coates responded to questions raised by Councilman Hunt, stating that this will not prevent flooding, but will mitigate flooding; and the City is trying to build in different elements in this project, i.e., bike lanes and greenways.

**C. RESOLUTION NO. 12-36 – RESOLUTION SUPPORTING ASHEVILLE'S RETENTION OF ITS WATER SYSTEM**

Vice-Mayor Manheimer provided Council with an overview of the process to date (1) Study Bill introduced in the 2011 legislative session to study the history and current operational aspects of the Water System. There are three possible outcomes: (a) City of Asheville continues to operate the System (i.e. no change); (b) Water System is transferred to the Metropolitan Sewerage District; or (c) An independent authority is created to manage the system; (2) January

23, 2012: First Study Committee meeting; (3) Late February: Public meeting in Asheville; and (4) April: Possible decision made.

She provided Council with some general information of the current system as follows: (1) The Water System, currently operated by the City of Asheville, covers the entire City; ~27% of Buncombe County outside the City; and ~2% of Henderson County; (2) Water System Bond Rating: Aa3, AA; (3) 20,000 acres of protected watershed in Buncombe County; (4) Two reservoirs holding roughly 7 billion gallons of stored water; (5) Two water treatment facilities treating water from those reservoirs; (6) One "run of river" water treatment facility located along the Mills River in Henderson County; (7) Permitted treatment capacity of 43.7 million gallons per day; (8) Average daily demand of about 21 million gallons per day; (9) System Service Area – 183 square miles; and (10) 1661 miles of water lines.

Using a graph, she showed the City's population from 1940 to 2010. Some statistics include (1) Asheville supports a larger population than its residential population suggests; (2) Asheville has the highest daytime to nighttime population ratio in NC; (3) Asheville takes more calls for fire and emergency services per capita than 17 other major NC cities; (4) Asheville would need to add 51,000 more people to its population to bring its call volume more in line with the state average; and (5) From 1950-2000, Asheville captured 10.75% of the population growth in the county; state average of 53.33% for the nine largest cities in NC. Over the last 50 years, Asheville has been the most inelastic city of all major cities in NC. During that time, Asheville captured just 10.75% of population growth in the county. The state-wide average was 53.33%. This means that the burden to pay for usage and the demands and the vision for Asheville that's shared by 150,000 people is being shouldered by the 79,000 who actually live within our jurisdictional lines.

Using a graph, she showed the City's fiscal responsibility (tax rate), compared to the tax rates in North Carolina.

She also used graphs of other cities to show the (1) Fiscal Year 2010-11 Monthly-Equivalent Residential Water Bills (5,000 gallons consumption); (2) Fiscal Year 2010-11 Monthly-Equivalent Commercial Water Bills (25,000 gallons per month); and (3) Fiscal Year 2010-11 Monthly-Equivalent Commercial Water Bills (500,000 gallons per month).

Regarding the City's management of the system, (1) Enterprise Fund for Water Operations Department of the City of Asheville; (a) Utility Fund Forecast (Rate Model) For 5 Years; (b) Utility Fund capital plans based on: required NCDOT Projects, City Council; (c) Initiatives, Brown and Caldwell's 2006 Capital Improvement Plan, JJ&G's 2009; and (d) Water Master Plan, and needs prioritized by the Computerized Maintenance Management System; and (2) City Operations Consistently Recognized for Excellence; (a) Water Resources ISO 14001 Environmental Management System; (b) Accredited Fire, Police and Parks & Recreation Departments; (c) Outstanding Planning Award for Open Space and Historic Resources; and (d) GFOA National Recognition for Budget and Comprehensive Financial Reporting.

She shared with Council some third party assessments, as follows: (1) "The staff of Asheville's Water Resources Department has been proactive in planning for their future financial needs to pay for capital investment in their system as well as to operate and maintain those assets that are currently in place in order to continue to provide high quality service. Equitable recovery of costs has been a key objective in their proactive financial planning." *Raftelis Financial Consultants*; (2) "They stand out for their excellent stewardship of the water resources of the Asheville, Buncombe and Henderson County region. Their industry leading practices include a fully developed asset management program that has resulted in a stable rate structure and high reliability—two factors that are key to economic development of the area." *Rick Carrier, Vice President, Brown and Caldwell*; (3) "As I worked with the City of Asheville on a Water System Master Plan, the City's goal was apparent -- provide a high level of service to customers, while keeping rates affordable for all. Asheville staff strived with enthusiasm to meet that goal."

*Jacobs Engineering (formerly Jordan, Jones & Goulding), Eric Nease, P.E.*; (4) "The Asheville Water Resources Department continues to maintain a highly effective environmental management system under the ISO 14001 International Standard. The recent audit of the system confirms a high level of competence and commitment to environmental excellence throughout the department." *Charles Lee, NSF Lead Auditor, following our 2011 ISO 14001 annual audit*; and (5) "Employees possess high levels of certification and have been recognized for excellence." "Confidence in the Utility's ability to use resources wisely, to cut costs and provide quality service has gained support within the business and commercial community for funding infrastructure replacement." *QualServe Peer Review Team.*

In closing, she said that (1) we have an appropriate and experienced management team in place; (2) consistent Moderate Growth of Water System Demand; (3) excellent financial condition; (4) consistent investment in water system infrastructure; and (5) manageable capital needs with a comprehensive Capital Improvement Plan.

Next steps include (1) Consideration of the resolution below; (2) Continue to provide input to the Study Committee; (3) Educate citizens on the process; and (4) Continue cooperation with the Metropolitan Sewerage District.

The resolution before Council reads: "WHEREAS, the City of Asheville has operated a public water system in the City of Asheville since as early as 1900; and WHEREAS, water provided by the system remains plentiful, safe, and among the cleanest and purest available anywhere; and WHEREAS, said water system currently serves all of the City of Asheville, approximately 60 percent of Buncombe County, and a portion of Henderson County; and WHEREAS, the water system includes a pristine 20,000 acre watershed which Asheville has diligently protected for decades and will continue to do so, two reservoirs and three treatment plants with a capacity of over 40 million gallons per day, over 1,600 miles of transmission and service lines, 24 pump stations, 21 storage reservoirs, and associated equipment; and WHEREAS, through operation of the water system Asheville has supported and will continue to support growth and economic development for the region; and WHEREAS, since 1991, the City has issued over $100 million in revenue bonds and other financing for the repair, maintenance, and improvement of the water system, including $39 million in 2007; and WHEREAS, the water system and the City's Water Resources Department are recognized by State and national organizations as being well run and financially sound; and WHEREAS, the development and operation of the water system in Asheville and Buncombe County is similar to other systems across the State; and WHEREAS, there is no compelling reason to transfer responsibility for the operation or control of the water system from Asheville to another entity. NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE AS FOLLOWS: (1) Through leadership and sound governmental practice, the City of Asheville has developed a water system that is well run, financially sound, and able to meet water demand in the area for the foreseeable future; (2) The City is committed to continuing to maintain and improve the water system, and to provide water to its customers at fair and reasonable rates and in accordance with recognized best practices for the industry; and (3) The water system is a public asset held by the City of Asheville for the benefit of its citizens and regional customers. The City operates the water system as a public enterprise pursuant to North Carolina law. Ownership and operational control of the water system should remain with the City of Asheville."

In closing, the City doesn't have an opportunity of financial gain because we are running this water system. The reason that it's important that a city, like Asheville, run this water system is because these are valuable assets from an environmental and resource prospective and we need to protect them. She felt the citizens of Asheville trust City Council do to just that. We all have grave concern about another entity owning these assets and running this system without the input from the elected officials of the City of Asheville.

Councilman Hunt said that Senator Nesbitt highlighted how since 1930 when the financial crash hit Asheville especially hard disrupting the financing of our water system, we have had

fights about our water system. He felt one interest of Rep. Moffitt in moving this forward is to try to get the fighting over the water system behind us. He hoped that what comes of this is that Asheville retains its system and we all move forward. A very important part of all this is we have been unable to charge differential rates, thus prohibiting us to incentivize outlying areas to come into the City. Asheville is a relatively small city with a lot of development outside our boundaries. Our taxpayers are unduly burdened to provide services and infrastructure for people who come in by day and to visit. In addition to not having the advantage of annexation which would help us afford to provide these necessary services in infrastructure, the fighting has made it so that our other local government partners and state legislators have found it difficult to support Asheville's fiscal life. He hoped that we can get fighting over water behind us, and ask Rep. Moffitt, others in the state legislature, and partners in other local governments to help us look also at the fiscal plight Asheville faces so we can be a better regional capital in western North Carolina.

Councilman Pelly was pleased to support the resolution. In addition to consideration of the resolution before Council, he hoped Council will, in two weeks, support a second water system related resolution. Given that (1) proposed state legislation opens the very real possibility of seizure of this irreplaceable asset, owned by the City of Asheville for the benefit of customers in Buncombe and Asheville; (2) three of the four state-sponsored public hearings regarding this legislation will take place 250 miles away from Asheville (in Raleigh), limiting the possibility of local participation; (3) the only local hearing will be held 15 miles away from our City center at the WNC Agricultural Center; (4) two of Asheville's three representatives in the General Assembly (representing 69% of the affected water customers) have not been invited to serve on the committee considering this issue; and (5) the fundamental importance safe, clean and affordable water plays in the lives of each of us, it is imperative the City of Asheville conduct an independent public hearing, designed to let all customers of the water system, Buncombe and Asheville alike, express their opinion on this matter of vital public importance. In two weeks he will present a resolution calling for a public hearing designed for this purpose and am hopeful that his fellow council members will support this measure.

Mayor Bellamy said that in order to make sure that she was well informed on the original Bill that was proposed (House Bill 925), she found another bill (House Bill 708 – A Bill to be Entitled An Act to Direct the Environmental Review Commission to Study the Reduction and Consolidation of the Statutory Models for Establishing, Operating, and Financing Certain Organizations that provide Water and Sewer Services in the State) is still active. The places impacted are Asheville and Wilmington. She contacted the Mayor of Wilmington to make sure that he was aware that a Bill had been entered to study their water system. She stressed the importance of City Council staying abreast of these issues. House Bill 708 has not been assigned to a study committee, and her concern is what else is out there. We must educate the public on these bills that are being created without letting the affected local governments know. She was also concerned that we are not at the table on the bills that affect our system and systems like ours. It is imperative that we stay informed.

Councilman Smith said that when the Study Committee decided to convene, he started doing homework around the water system as well, and was reintroduced to the excellence that the City of Asheville has been practicing with regard to its water resource since taking full management of that since the dissolution of the water agreement in 2005. This Study Committee has introduced an ambiguity about the future of the water system. The present state of the system is excellent. We know we have an aging system that we have to invest in and City Council has chosen to do that in 2007 with the $40 Million investment. We know it won't be our last investment. When we have 1,661 miles of pipes in the mountains, we will be fixing them on-going for as long as they are in the ground. Should something change, he didn't feel guaranteed that we will have that same state of excellence that we have found with our current management system. This water system was the first in the state to get an ISO 14001 Certification for its environmental management practices. This water system has been running lean and mean and efficiently. We have some of the best water in the country and we are richly blessed with an abundance that is the envy of most other communities in the nation. That is where we are at now

and if there is a call to change that, then he can understand why our customers, whether they live in or outside of the City, are nervous.

Councilman Davis felt that it was the intent of Council in 2005 that we retain the water system and we have consistently invested in our system. He was pleased to support this resolution.

Mr. Alan Ditmore spoke to the issue of using water to incentivize people to be annexed.

Mayor Bellamy hoped that Council will also be open to a resolution supporting Asheville's retention of our Airport as there is also a Bill to take Asheville's Airport away and make it into an independent authority.

Councilman Davis moved for the adoption of Resolution No. 12-36. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 267**

**IV. PUBLIC HEARINGS: None.**

**V. UNFINISHED BUSINESS:**

Councilman Hunt moved to consider the discussion regarding a charitable contribution combined campaign prior to the discussion on regulating the use of City property. This motion was seconded by Councilman Davis and carried unanimously.

**A. CONSIDERATION OF A CHARITABLE CONTRIBUTION COMBINED CAMPAIGN FOR CITY OF ASHEVILLE EMPLOYEES**

Vice-Mayor Manheimer moved to recuse Mayor Bellamy from participating in this matter due to a conflict of interest. This motion was seconded by Councilman Davis and carried unanimously. At this time, Mayor Bellamy handed the gavel over to Vice-Mayor Manheimer to preside over the meeting and left the Council Chamber.

Director of Finance and Management Services Lauren Bradley said that this is the consideration of a motion to accept the combined campaign proposal and approve the standard operating procedure for a combined campaign for City of Asheville employees.

At the September 13, 2011, Finance Committee meeting, a representative from EarthShare North Carolina requested that the City consider expanding its campaign to be a "combined campaign," or one that includes additional federations, which are "umbrella" organizations that have multiple independent, charitable agencies who all work on a specific area of focus as members.

The Finance Committee directed staff to gather further background information about a combined campaign, which was shared with City Council at its October 25, 2011, meeting. At that meeting, City Council directed staff to work with representatives from the United Way of Asheville & Buncombe County and EarthShare North Carolina to develop a mutually acceptable proposal for a combined campaign at the City of Asheville.

Representatives from the United Way of Asheville & Buncombe County and EarthShare North Carolina presented a combined campaign proposal to the City Council Finance Committee at its January 24, 2012, meeting. While these agencies worked together to develop the proposal, it was presented to the Finance Committee with reservations expressed by the United Way of Asheville & Buncombe County.

The Finance Committee directed staff to bring the proposal and a revised Standard Operating Procedure forward for full City Council consideration. Staff has drafted a standard procedure that is consistent with the proposal that was submitted.

The biggest change in the criteria from our current policy to what is proposed is that all of the agencies participating in Federation must have offices in Asheville and Buncombe County and provide services that benefit the people of Asheville and Buncombe County. What is being proposed is that the criteria be changed so that half of the agencies in the Federation have an office in the local area and that they all provide services that benefit the local area or have some tangible impact on the quality of life in Asheville and Buncombe County.

In 2010 City employees gave about $75,000 through the charitable campaign through the United Way.

If City Council is interested in implementing a combined campaign, staff is seeking a motion to accept the combined campaign proposal and approve the standard operating procedure. The proposal requests that the United Way of Asheville and Buncombe County be named as the campaign administrator. Applications to participate in the campaign would be taken in July, and the campaign would take place at the end of calendar year 2012 for payroll deductions in calendar year 2013.

The City of Asheville's charitable giving campaign supports its strategic goals to be an "employer of choice" that encourages a stronger, more prosperous community.

Pro:

- Expands charitable giving campaign to include additional federations, providing a formalized mechanism for City employees to consider giving to a wider range of charitable organizations.

Cons:

- Concerns have been expressed that a combined campaign may decrease overall giving to the United Way of Asheville and Buncombe County agencies.
- Proposal does not address how other Federations might be added in the future. Staff anticipates requests from additional Federations, which would require changing the proposed criteria.
- There is uncertainty about employee participation and giving results in a combined campaign. There is a 10% minimum participation requirement in the standard operating procedure.

Staff recommends City Council consider a motion to accept the combined campaign proposal and approve the standard operating procedure for a combined campaign. If approved, staff further recommends that results from the first year of the combined campaign be reviewed by City Council in early 2013.

Councilman Hunt, member of the Finance Committee, said that he voted to advance this to the full Council to be considered. He said there has been a tremendous amount of high quality input from both sides on this issue, and personally he has been involved with both environmental and United Way agencies. After hearing all the input, he did not feel there was enough support by Council to change the existing policy. One piece of information he received is that through the election by City employees, any individual employee can elect to have their payroll deduction donation made to any non-profit 501 (c) (3) charity. Therefore, the employees have the opportunity to support local environmental organizations. Staff at United Way has expressed their willingness to be open and allow for those contributions to flow through the existing mechanism.

Councilman Bothwell also reviewed all the input from both sides of the issue as well. Some say there is a limited pool of donations available from City employees and that if they are given other options, they will divert their money elsewhere and reduce giving to the United Way. He noted that employees don't have to participate in a planned giving payroll deduction program as there are many other opportunities to give directly to an organization. Therefore, he didn't see the inclusion of EarthShare doing any appreciable harm to United Way. He also felt offering more options to the employees would actually increase giving generally.

Councilman Bothwell moved to approve the standard operating procedure for a combined campaign and re-evaluate the policy after one year. This motion died for lack of a second.

At this time, Mayor Bellamy re-entered the meeting and continued to preside over the meeting.

**B. RESOLUTION NO. 12-37 - RESOLUTION TO ELIMINATE CORPORATE PERSONHOOD**

The resolution to eliminate corporate personhood reads as follows: "Whereas, natural human beings are entitled to citizenship and the rights, privileges, and benefits thereof; and Whereas, corporations, while generally constructive and providing important benefits, are not human beings, but "artificial immortal beings," as defined by Chief Justice John Marshall; and Whereas, the 2010 Supreme Court decision, Citizens United v. the Federal Election Commission, declared corporations to be persons and eliminated legal limits on corporate political spending; and Whereas, corporate money may be spent limitlessly to influence elections at the federal, congressional, state, county, and municipal levels thereby diluting the power of the people; and Whereas, the United States Constitution has been amended many times in response to a groundswell of public opinion, it is the responsibility of local representatives to give voice to the concerns of its citizenry and advise Congressional representatives of these concerns; and Whereas, a growing number of people and municipalities across the nation have joined together to call for an Amendment to the United States Constitution to abolish corporate personhood. NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: On behalf of the citizens of our municipality, calls on our elected representatives in the United States Congress to initiate the process to amend the Constitution of the United States to abolish corporate personhood; BE IT FURTHER RESOLVED THAT: The City of Asheville calls on other communities and jurisdictions to join with us in this action by passing similar Resolutions."

Councilman Smith said that the groups Move to Amend and Asheville Growing Business Alliance asked him to move forward the resolution to eliminate corporate personhood. He said that one of Council's responsibilities is to protect electoral integrity and to make sure that the electoral process and your vote counts. We have seen that there have been different legislative pieces that have sought to restrict voting rights and restrict voting choices. He was proud to say that here in Asheville we voted to retain early voting, which is one way to maximize access to the ballot. Currently there is a movement underway to amend the US Constitution, in the light of the Citizens United ruling which allows for unlimited corporate donations, that don't have to be disclosed, to campaigns. The effect is already being seen in some of the bigger races. It's his fear that eventually we will end up facing some of the same issues here at our local level. He felt it was important for City Council to take a stand as far as our values as a City regarding electoral integrity and maximum transparency in the electoral process.

The following individuals spoke in support of the resolution eliminating corporate personhood; rejecting the US Supreme Court's ruling in Citizens United that corporations are people; and move to amend our US Constitution to firmly establish that money is not speech and that human beings, not corporations, are persons entitled to constitutional rights:

Ms. Anne Craig, representing Move to Amend Buncombe County and the Meet, Talk, Act

Non-Violent Infinity Group of Occupy Asheville, presented Council with petitions containing approximately 233 signatures, a CD with the signatures, and a valentine
Mr. Curry First, member of the Meet, Talk, Act Non-Violent Infinity Group of Occupy Asheville
Mr. Alan Ditmore
Mr. Victor Ochoa, Occupy Asheville participant
An Occupy San Francisco and Occupy Oakland participant
Mr. John Penley, Occupy Wall Street participant
Ms. Kendall Hale, member of the Meet, Talk, Act Non-Violent Infinity Group of Occupy Asheville
Ms. Cathy Scott, member of the Meet, Talk, Act Non-Violent Infinity Group of Occupy Asheville

Mayor Bellamy said that she would send the petitions to Representative Donna Edwards who is leading the effort to draft the amendment to the US Constitution.

Mr. Rod Hudgins, President of the Council of Independent Business Owners, said that he did not oppose or endorse the resolution. However, "in this national occupy process, corporations, at time, have been villanized. I am here to speak on behalf of their positive contribution to our community. Since October 2010, corporations that are located here have added almost 1500 new jobs and they have invested almost 351 million dollars in the community. We find this good news astonishing especially during this time of economic stress. These corporations hire local citizens, pay excellent wages, provide great benefits, give financial contributions to support local charities, and they encourage their employees to volunteer in all kinds of community activities – even the pint of blood that one of us here may need someday could come from these companies' participation in a Red Cross blood drive. This valuable list could go on and on. For local businesses, these corporations mean the acquisition of homes, the building of facilities, the opportunity to provide services and products, the patronage of local restaurants, the addition of employees, the opportunity to expand, and a future. As you all know, you are not only Asheville City Council members, you are also sitting as the Board of Directors of one of the largest corporations in the region. We appreciate your corporation along with all the other corporations both large and small. Corporations are vital to our continued success and sustainability. We need them and we need to create a positive environment for their growth and prosperity."

Councilman Bothwell gave a brief history of the Citizens United decision, noting it is not something new in the larger sense. This is now the latest and most abusive use of the law in that regard.

Councilman Bothwell moved for the adoption of Resolution No. 12-37 to eliminate corporate personhood. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 269**

**RESOLUTION NO. 12-38 - RESOLUTION DESIGNATING PACK SQUARE AND CITY-COUNCIL PLAZA AS CITY PARKS, AND DESIGNATING CERTAIN AREAS AS PUBLIC FORUM PURPOSES**

**ORDINANCE NO. 4057 - ORDINANCE REGULATING CERTAIN USES OF CITY PROPERTY**

City Attorney Oast said that following up on Council's discussion at the January 24 City Council meeting, the resolution and ordinance are submitted for Council's consideration regarding Pack Square and City-County Plaza.

1. Resolution Designating Park Property. Pursuant to City Code Sec. 12-27, City parks are defined in the City Code to include areas designated by the City Council. The resolution designates substantially all of the area known as Pack Square and City-County Plaza as park property. The area's use as a park is long-standing and may predate Sec. 12-27, and no previous action by Council was found making this designation. The designation makes clear the areas that are considered park property, to which the City's park regulations and ordinances, including the closing time, would apply. With the recent completion of the renovations to the park, consideration of this designation is appropriate at this time.

The resolution also designates two areas - - the western extremity of the Vance Monument oval and the area immediately in front of the City Building - - as public forums. The effect of this is to recognize as public forums two areas that would likely be recognized by courts as having acquired that status through custom and usage. Parts of those public forum areas are encompassed within the designated park. These are areas to which the closing time applicable to parks would not apply. However, even though the public forum areas would be available for use on a 24 hour basis, if the ordinance prohibiting camping on City property is adopted, camping in those public forum areas would not be allowed.

2. Ordinance Regulating Camping and Other Uses of City Property. The ordinance prohibits camping on all City property, not just parks property. The ordinance contains relevant definitions, including "camping," "tent," and "City property." The definition of camping is drawn from federal regulations upheld by the U.S. Supreme Court and, more recently, state regulations upheld by the federal district court for South Carolina, and we have reviewed the ordinances of other cities around North Carolina, including the recently adopted Charlotte ordinances. Note that sleeping (not associated with camping) is regulated pursuant to another section of the City Code Sec. 11-16, adopted in 2002. This ordinance formalizes an existing Parks Department policy that permits will not be issued for camping in City Parks.

The resolution and ordinance are changed from the resolution ad ordinance presented on January 24 in the following significant ways:

(a) The part of the resolution establishing a location for camping has been removed, and the area of the public forum in front of the City Building has been reduced.

(b) The part of the ordinance establishing regulations for camping has been removed.

(c) The ordinance now makes a specific reference to the previously adopted ordinance regarding sleeping on public property (City Code Sec. 11-16).

(d) The ordinance provides it will not be enforced during emergency situations when facilities to house the public are not available.

(e) The ordinance prohibiting storage on City property does not apply to offices and other spaces assigned to employees.

(f) The effective date of both the resolution and ordinance is Friday, February 17, 2012, at noon.

Mayor Bellamy said that public comment will be combined for the purpose of both the resolution and the ordinance.

The following individuals spoke in opposition of the resolution designing certain areas as City parks and the ordinance regulating use of City property for various reasons, some being, but are not limited to: just because the City has the right to regulate Occupy Asheville participants doesn't mean it's the right thing to do; the people have a right to free speech, freedom of

assembly and their ability to redress the government with their grievances when something needs to be changed in their communities; need to give the homeless a safe haven; we should not criminalize poverty and people who have fallen below the standard of living that most of us enjoy; the homeless will be arrested just trying to survive; not all homeless programs are accessible to the homeless and there are many homeless needs that are not met; even if Asheville moves the Occupy movement from in front of City Hall, the movement wouldn't exist if there wasn't something wrong in our communities; the homeless, inequities and activities of our corporations will just be moved somewhere else; request council to offer Occupy Asheville another space where they can organize; and Occupy Asheville does not want to be a burden but wants critical issues addressed; and if Council closes the encampment many homeless will be without a place to live:

Ms. Naomi Archer
An Occupy Asheville participant
Mr. John Spitzberg, President for Veterans for Peace and the Secretary/Treasurer of the Asheville Homeless Network
A man who identified himself as Dan
Brother Christopher Chiaronmonte
Ms. Clara Harahan
An Asheville resident
Ms. Faith Ryan, Asheville resident
Mr. Steve Norris
Ms. Amber Williams
Mr. Victor Ochoa, Occupy Asheville participant
Mr. Don Lilenfeld

Mr. George Ingle felt it was time for the Occupy Asheville to move on. He was opposed with them telling the City what to do and asking the City to find them a place to live. His patience has run out, as well as other Asheville residents' patience. As a City resident for 83 years and a taxpayer, he felt City Council should be representing him and not those who come here from other states to participate in the Occupy Asheville movement.

When Mayor Bellamy asked if Council would like to extend the time period for additional comments, no motion was made.

Councilman Smith could not support the motion as he still had a lot of uncertainty about whether this is speech we are doing away with and he didn't know the answer. He did know that in regard to the homeless, we have reduced chronic homeless in Asheville by 75% over the last 5 years. As far as working together with Occupy Asheville, the City works with hundreds of organizations who deal with deep rooted problems in our community – we have a model for working together. The organization would create a viable model, gain broad-based support and then move it forward with that support.

Councilman Hunt urged members of the Occupy Asheville camp to help the homeless adjust before the Friday deadline. He also hoped that the camp would move without a confrontation.

Mayor Bellamy said that members of Council have been previously furnished with copies of the resolutions and ordinance and they would not be read.

Vice-Mayor Manheimer moved for the adoption of Resolution No. 12-38. This motion was seconded by Councilman Bothwell and carried on a 6-1 vote, with Councilman Smith voting "no."

**RESOLUTION BOOK NO. 34 – PAGE 270**

Councilman Bothwell was opposed to the ordinance regulating camping and other uses on City property because being able to camp around in the City in places is an essential "release valve" for the fact that we don't have sufficient facilities for everyone.

Vice-Mayor Manheimer moved for the adoption of Ordinance No. 4057. This motion was seconded by Councilman Davis and carried on a 5-2 vote, with Councilman Bothwell and Councilman Smith voting "no."

**ORDINANCE BOOK NO. 27 – PAGE 281**

**Closed Session**

At 7:20 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including possible litigation, and to consider and give instructions to the attorney concerning the handling or settlement of a claim involving the following parties: Estate of James David Stroupe and the City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); (2) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:57 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Hunt and carried unanimously.

**A. RESOLUTION NO. 12-39 - RESOLUTION DIRECTING STAFF TO PREPARE A REPORT ON A MUNICIPAL SERVICE DISTRICT FOR DOWNTOWN ASHEVILLE**

**MOTION SETTING A PUBLIC HEARING ON MAY 22, 2012, TO CONSIDER A MUNICIPAL SERVICE DISTRICT FOR DOWNTOWN ASHEVILLE**

Downtown Master Plan Project Manager Sasha Vrtunski said the Downtown Management Subcommittee and an Interim Board of Directors is planning to bring a proposal forward for a Municipal Service District (a Business Improvement District) for downtown Asheville in late spring, 2012. They are asking that City Council give the direction to staff to prepare a report that details the needs, services and boundaries of the district. This direction is required by state statute.

Ms. Susan Griffin, Chair of the Downtown Management Subcommittee and downtown resident, made the presentation. The Subcommittee was charged with implementing Strategy 7 of the Downtown Master Plan. They have been studying how the Municipal Service District would be a good management tool for downtown. To avoid confusion, she explained that a Business Improvement District in North Carolina is called a Municipal Service District (MSD).

For the past six months they have been sharing what they have learned about MSDs with downtown property owners and have been encouraged by the support they have been getting as well as receiving encouragement from the positive economic forecast study they had commissioned about the impact of a MSD. Over the past 6 weeks they have been working with the Interim Board who are actually working to finalize the details of what a MSD downtown would look like, e.g. what the actual district would be, the services to be offered, what the Board would look like and what the assessment would be. The interim Board is made up of 13 property owners who would also be paying the additional tax if a MSD is formed. They proportionately represent the different types of property owners within the Central Business District.

The Downtown Management Subcommittee and the interim Board asked for Council to adopt a resolution directing staff to prepare a report for an MSD for downtown Asheville and to also adopt a motion setting a public hearing on an MSD for downtown Asheville on March 22, 2012.

In response to Vice-Mayor Manheimer, City Attorney Oast believed there is no statutory requirement that the proposed ordinance go through any other body other than City Council.

Councilman Davis said that there is a feeling amongst many downtown businesses that there would need to be a significant buy-in from the business community. He suggested that once this takes real shape, it should be reviewed again by the Planning & Economic Development Committee and the Downtown Commission. He wondered if it would be something we should add to a ballot for a referendum.

Ms. Griffin said that once the details are finalized, which they expect will be completed in the next two weeks, they will go back to the property owners and whatever other bodies the Council would like them to receive further input.

Councilman Hunt agreed with Councilman Davis on the need to be assured that an MSD downtown is broadly supported. He felt the burden needs to be on the advocates making sure the MSD is defensible and well executed.

Councilman Davis said that this will be a considerable amount of money and a considerable change to an important district.

Mayor Bellamy said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 12-39, with the proposed ordinance being reviewed by the Planning & Economic Development Committee prior to review by the Downtown Commission before the May 22 public hearing. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 34– PAGE 272**

Vice-Mayor Manheimer moved to schedule a public hearing on May 22, 2012, to consider a Municipal Service District for downtown Asheville. This motion was seconded by Councilman Smith and carried unanimously.

At 8:05 p.m., Councilman Smith moved to excuse Mayor Bellamy from the remainder of the meeting. This motion was seconded by Councilman Davis and carried unanimously. At this time, Mayor Bellamy handed the gavel over to Vice-Mayor Manheimer to preside over the remainder of the meeting.

**B. ORDINANCE NO. 4058 - ORDINANCE ADOPTING THE 2012-13 FEES & CHARGES**

Budget Manager Tony McDowell said that this is the consideration of an ordinance adopting fee adjustments for the Fiscal Year 2012-2013.

The major types of revenue available to North Carolina counties and municipalities are local taxes (including property taxes); local fees, charges and assessments; and intergovernmental and miscellaneous revenue. Local governments have increasingly looked for appropriate opportunities to implement local fees and charges because they generally have the

advantage of aligning service provision directly with payment; therefore, the person or entity receiving the benefit of a service pays for the service.

In Asheville, these fees make up about 10% of the City's General Fund revenue and 36% of city-wide revenue. These fees generally fall into three major categories: general user fees and charges; regulatory fees, and; public enterprise fees and charges.

- **General User Fees & Charges:** User fees are available feasible for any service that directly benefits individual users and generally are placed in the General Fund to support any general fund activity or program. User fees typically only cover a portion of the cost of the services for which they are assessed. Charges for parks and recreation services would fall into this category.
- **Regulatory Fees:** Regulatory fees cover costs associated with certain regulatory activities such as issuing building permits, performing inspections, reviewing development plans, and enforcing local ordinances. Case law requires regulatory fees to be reasonable and prohibits them from exceeding the average costs of funding the regulatory service.
- **Public Enterprise Fees & Charges:** A public enterprise is an activity of a commercial nature that could be provided by the private sector (water, sewer, electric service, solid waste collection and disposal, stormwater, airports, off-street parking, public transportation, etc.). Many public enterprises are self-supporting, meaning revenue generated from fees and charges is sufficient to cover the cost of providing the service.

Staff recommendations for adjustments to fees and charges for FY 2012-13 consist of relatively minor increases to regulatory fees that either have not been adjusted in three or more years or have never been assessed for a specific service.

In the Public Enterprise category, staff is setting fees for the new Biltmore/Lexington Avenue Parking Garage that will be opening in the coming fiscal year. In addition, based on favorable financial performance in the Water Resources Fund last year, staff has concluded that a water rate increase will not be necessary for FY 2012-13.

The proposed FY 2012-13 fee adjustments were reviewed by the City Council Finance Committee on January 24, 2012. He provided Council with a full summary and analysis of the proposed fees and charges, which would take effect on July 1, 2012.

This action complies with the City Council Strategic Operating Plan goal of "Operate the City of Asheville to the highest levels of fiscal responsibility."

Pros:

- Provides additional revenue to help balance the FY 2012-13 General Fund budget.
- Provides staff will time to begin communicating fee changes to citizens, customers and stakeholders so they are aware of changes that will be implemented on July 1.

Con:

- None.

General Fund fee changes recommended by the Finance Committee would produce approximately $160,000 in additional revenue. These fees are designed to more fully recover the expenditures associated with providing specific services. Establishment of the Biltmore/Lexington Avenue Parking Garage fees will provide revenue to help offset the cost of operating the garage and paying the debt service on its construction.

Staff recommends that Council adopt the proposed FY 2012-13 fee proposals.

Councilman Smith understood that we are trying to keep up with the cost of doing business; however, he asked that the home occupation permit fee (current $50 fee; proposed $75 fee); and the A-Frame Sign fee (currently $25 fee; proposed $30 fee) not be increased. Both of these fees affect small and emerging businesses and asked that those fees not be increased.

Discussion occurred, upon inquiry of Councilman Davis, about studying parking garage rates in other comparable cities. Director of Transportation Ken Putnam said that they are trying to keep on-street metered parking higher than the rates in the parking garages to entice people to park in the garages. In summary, it was the consensus of Council to ask the City Manager to begin the study and report back to Council with staff's findings. Councilman Davis felt that the Downtown Commission and the Asheville Downtown Association will want to provide input into the study as well, due to their disadvantage of other areas of the City not having on-street parking meters, i.e., Biltmore Village, Biltmore Park, Haywood Road in west Asheville, etc. Vice-Mayor Manheimer also felt it might be worthwhile to look at placing on-street parking meters in the other areas of the City, which enforcement could be recoverable through the fees collected.

In response to Councilman Smith, Mr. Putnam said that in addition to the pay-by-space stations, staff is currently pursuing the idea of credit cards for on-street meters.

Vice-Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved for the adoption of Ordinance No. 4058 with the amendment that the home occupation permit fee remain $50 and the A-Frame Sign fee remain $25. This motion was seconded by Councilman Hunt and carried unanimously (Mayor Bellamy was excused).

**ORDINANCE BOOK NO. 27 – PAGE 284**

**C. BOARDS & COMMISSIONS**

Regarding the Alcoholic Beverage Control Board, the following individuals have applied for the vacancy: Genny Lynn Beville, Tim Flora, Mark W. Cates, Guadalupe Chavarria, Randall C. Hall, Judy Kuhne, Fred Cooke, Charles Larrick, Melissa English and John Menkes. It was the Boards & Commissions Committee recommendation and the consensus of Council to interview Guadalupe Chavarria, Randall C. Hall, Melissa English and John Menkes.

Regarding the Board of Adjustment, the following individual has applied for the vacancy: Dimi Kulakov. Because there are two alternate openings and one applicant, it was the consensus of Council to re-advertise.

Regarding the Community Relations Council, the following individuals have applied for a vacancy: Charles Rosenblum, Kathryn Liss, Itiyopiya Ewart, and Christopher Bradford. It was the recommendation of the Boards & Commissions Committee and the consensus of Council to (1) postpone any appointments until after the Community Relations Council has made a presentation to City Council in March; and (2) re-advertise.

Regarding the Historic Resources Commission, the following individuals have applied for a vacancy: Jay Lively, Jay Marino, Anne Harrell, Frank Hallstrom, Deanna Reeder, Michael Bragg and Tracey Rizzo. It was the recommendation of the Boards & Commissions Committee and consensus of Council to interview Jay Lively, Tracey Rizzo and Deanna Reeder.

**RESOLUTION NO. 12-40 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE REGIONAL AIRPORT AUTHORITY**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that former Vice-Mayor Brownie Newman currently serves as a member on the Airport Authority.

Vice-Mayor Manheimer said that it has been the practice of Council to appoint a seated member of Council to the Airport Authority.

The following individual has applied for a vacancy on the Airport Authority: Heather Hunter.

Councilman Hunt moved to appoint Vice-Mayor Esther Manheimer to fill the unexpired term of Brownie Newman, term to expire June 30, 2012, or until her successor has been appointed. This motion was seconded by Councilman Smith and carried unanimously (Mayor Bellamy excused from meeting).

**RESOLUTION BOOK NO. 34 – PAGE 273**

**RESOLUTION NO. 12-41 - RESOLUTION APPOINTING A CHAIR TO THE CIVIL SERVICE BOARD**

Vice-Mayor Manheimer said that Larry Harris currently serves as Chairman of the Civil Service Board. The Civil Service Law for the City of Asheville, Section 2, Chapter 303 of the 1999 Session Laws of the North Carolina General Assembly provides that the Chair of the Civil Service Board shall be appointed annually by the City Council.

Current members of the Civil Service Board include: Chairman Larry Harris, Jacquelyn Hallum, Alan Coxie, Virginia Robinson and Marvin Rosen.

Upon inquiry of Vice-Mayor Manheimer, City Attorney Oast said that Councilwoman Manheimer did not have a disqualifying conflict of interest just because Mr. Harris works at the same law firm.

Councilman Hunt moved to reappoint Larry C. Harris Jr. as Chair of the Civil Service Board for a one-year term or until his successor is duly and annually appointed by the City Council, as provided by law. This motion was seconded by Councilman Davis and carried unanimously (Mayor Bellamy excused from meeting).

**RESOLUTION BOOK NO. 32 – PAGE 274**

**RESOLUTION NO. 12-42 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE DOWNTOWN COMMISSION**

Vice-Mayor Manheimer said that the term of Kitty Love, as a member on the Asheville Downtown Commission, expired on December 31, 2011.

The following individuals have applied for a vacancy on the Downtown Commission: Edward Loewe, Patric Mullen, Karl Katterjohn, Dean Pistor, Andrew Montrie, Byron Greiner and Laurie Miller.

Vice-Mayor Manheimer said that the Boards & Commissions Committee recommended appointing Byron Greiner, but would be open to any interviews suggested by Council.

Councilman Davis moved to appoint Byron Greiner to serve a three-year term, term to expire December 31, 2014, or until his successor has been appointed. This motion was seconded by Councilman Pelly and carried unanimously (Mayor Bellamy excused from meeting).

Vice-Mayor Manheimer also noted that the Boards & Commissions Committee reviewed the recommendation of the Asheville Downtown Association (ADA). Said recommendation was to amend the Downtown Commission's ordinance to allow their seat be a seated Board member and not specifically the President of the ADA. The Asheville Downtown Commission supports this amendment as well. It was the consensus of Council to instruct the City Attorney to prepare an ordinance for the next meeting to make this change in membership.

**RESOLUTION BOOK NO. 34 – PAGE 275**

**RESOLUTION NO. 12-43 - RESOLUTION APPOINTING A MEMBER TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that the terms of Stephen Bolden and Wanda Lanier expired on November 1, 2011. There also exists a vacancy from the passing of Gerald Hixson, whose term will expire on November 1, 2013.

The following individuals have applied for the vacancies: Debbie Metcalf, Micheal Woods, Michael Akers, Marcie Walker, Timothy Sadler, John Spears and Charles Barber.

The Homeless Initiative Advisory Committee (HIAC) recommended appointing Tim Sadler to fill the unexpired term of Mr. Hixson and appointing Marcie Walker. They asked that the remaining seat be re-advertised. There was a brief discussion on whether City Council is required to appoint the HIAC's recommendations. Councilman Smith, liaison to the HIAC, will confer with the HIAC to see what their understanding is regarding recommendations for appointments; and if need be, the resolution establishing the HIAC will be amended to give Council the discretion on making appointments, with consideration of their recommendation. It was the consensus of Council to continue advertising.

Councilman Smith moved to appoint Marcie Walker to serve a three-year term, term to expire November 1, 2014, or until her successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously (Mayor Bellamy excused from meeting).

**RESOLUTION BOOK NO. 34 – PAGE 276**

**RESOLUTION NO. 12-44 - RESOLUTION APPOINTING A MEMBER TO THE HUB COMMUNITY ECONOMIC DEVELOPMENT ALLIANCE**

Vice-Mayor Manheimer, Chairman of the Boards & Commissions Committee, said that there currently exists a vacancy on the HUB Community Economic Development Alliance, left by Kim MacQueen. The term will expire August 22, 2012.

The following individual has applied for a vacancy on the HUB Community Economic Development Alliance: Edward Hay.

Vice-Mayor Manheimer said that the Boards & Commissions Committee recommended appointing Edward Hay..

Councilman Bothwell moved to appoint Edward Hay to serve the unexpired term of Ms. MacQueen, term to expire August 22, 2012, and then a full three-year term, term to expire August 22, 2015, or until his successor has been appointed. This motion was seconded by Councilman Hunt and carried unanimously (Mayor Bellamy excused from meeting).

**RESOLUTION BOOK NO. 34 – PAGE 277**

**RESOLUTION NO. 12-45 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE RIVERFRONT AREA REDEVELOPMENT COMMISSION**

Vice-Mayor Manheimer, Chairman of the Boards & Commissions Committee, said that there currently exists a vacancy on the Riverfront Area Redevelopment Commission, left by Mr. Robert Camille. The term will expire January 1, 2014.

The following individuals have applied for a vacancy on the Riverfront Area Redevelopment Commission: Phillip Ellis and Cindy Weeks.

Vice-Mayor Manheimer said that Riverfront Area Redevelopment Commission recommended appointing Ms. Cindy Weeks and the Boards & Commissions Committee agreed with their recommendation.

Councilman Hunt moved to appoint Cindy Weeks to serve the unexpired term of Mr. Camille, term to expire January 1, 2014, or until her successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously (Mayor Bellamy excused from meeting).

**RESOLUTION BOOK NO. 34 – PAGE 278**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Brother Christopher Chiaronmonte spoke about how Asheville treats the homeless.

Mr. Charles Rawls spoke about his disappointment in Asheville's decision to designate the area around Pack Square Park as a Park.

**VIII. ADJOURNMENT:**

Vice-Mayor Manheimer adjourned the meeting at 8:44 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – February 28, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Davis gave the invocation.

**I. PROCLAMATIONS:**

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 14, 2012**

**B. RESOLUTION NO. 12-46 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR THE FISCAL YEAR 2012-13 URBAN ADVANCTED TECHNOLOGY GRANT, AND IF APPROVED, TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT OF TRANSPORTATION FOR SAID GRANT**

Summary: The consideration of a resolution authorizing the City Manager to apply for the FY 2012-13 Urban Advanced Technology Grant, and if approved, to enter into an agreement with the N.C. Dept. of Transportation (NCDOT), Public Transportation Division and executing all the documents related to the subject grant.

The NCDOT released the FY 2012-13 Urban Advanced Technology Grant application package during December 2011 to all North Carolina Urban and Regional Transit Systems. The focus areas of the grant include vehicle safety and security, completion of existing projects, and integration of fixed route automatic vehicle location (AVL) data with the 511 traveler information system. The total current funds available for the grant are $1.7 million and funding for the approved projects would be available July 1, 2012.

Staff would like to pursue the subject grant to be able to procure an automated vehicle location (AVL) system that focuses on real time passenger information. The system would produce operational information in real time including vehicle location, speed, fuel usage, on-time performance, and historical records. This information would be a powerful tool to help staff manage the overall transit system and to identify areas needing improvement. It would also enhance the customer experience by providing next bus arrival information in real time, via personal cell phones, Smartphones, and through the system's website. This type of technology is identified in the Transit Master Plan capital investment scenario as a vital project to improve the system's operation in the short-term.

The total estimated cost for the subject project is about $450,000. The grant would provide 90% of the funds ($405,000) and the City would provide the remaining 10% ($45,000) as the local match. The local match is already programmed in the Transit Enterprise Fund Capital Improvement Program in a project identified as T1202. Staff has been pursuing Federal grants for the subject project and this grant opportunity enables staff to leverage other funding sources.

This action complies with the current City Council 2011-12 Strategic Operating Plan within the multi-modal transportation and fiscal responsibility areas by funding system improvements that are in the long-term Capital Improvement Program and exploring alternatives for enhancing the city's long-term financial commitment to master plan implementation.

The Transit Commission supports the subject action.

Pros:

- Satisfies one of the recommendations in the approved Transit Master Plan.
- The AVL system would improve the transit system's overall efficiency and it would enhance the customer experience.
- The grant would fund up to 90% of the total project cost.
- The City's local match is already budgeted.

Con:

- The 10% local match equates to $45,000.

The total estimated project cost is $450,000. The local match would be $45,000 and it is currently budgeted in the Transit Enterprise Fund Capital Improvement Program in a project identified as T1202.

City staff recommends that City Council adopt a resolution authorizing the City Manager to apply for the FY 2012-13 Urban Advanced Technology Grant, and if approved, to enter into an agreement with the N.C. Dept. of Transportation, Public Transportation Division and executing all the documents related to the subject grant.

Councilman Smith spoke in support of this grant for a more informed ridership.

**RESOLUTION BOOK NO. 34 – PAGE 279**

**C. RESOLUTION NO. 12-47 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH T & K UTILITIES INC. FOR THE PROJECT KNOWN AS SARDIS ROAD ANNEXATION AREA SEWER SYSTEM IMPROVEMENTS**

Summary: The consideration of a resolution authorizing the City Manager to execute a contract in the amount of $599,610 plus a contingency of 20% ($120,000) with T & K Utilities, Inc. for the project known as Sardis Road Annexation Area Sewer System Improvements, City of Asheville Project # SC-08-09-001.

City Council had approved the Annexation Services Plan for the Sardis Road area on May 22, 2007, which indicates that approximately 6,800 linear feet of 8 inch sewer line be installed to bring the service to substantially the same level as other parts of the City. The project was advertised and on February 15, 2012, bids were opened with T & K Utilities, Inc., a local company, being the lowest responsible bidder with a bid of $599,610. This was well below the Engineer's Estimate of $757,800 and below the $1,400,000 construction budget set aside for the project. A 20% contingency ($120,000) has been added to allow payment for any unforeseen costs that typically arise during construction. The work produced from contract would help to fulfill the City's obligation as outlined in the 2007 Annexation Services Plan for the Sardis Road area.

This action complies with the City Council Strategic Operating Plan in that it will enhance the infrastructure within our municipal limits, and fulfill the City's obligation outlined in the 2007 annexation of the Sardis Road area.

Pros:

- Will allow for the construction of approximately 6,800 linear feet of new sanitary sewer within the Asheville City limits.
- Will fulfill the City's obligation of the 2007 annexation of the Sardis Road area.
- Will be the first project to receive funds from MSD's new Revenue Sharing program.
- Once turned over to MSD, the City will not be responsible for future maintenance of the sanitary sewer system.

Con:

- The project will cost the City approximately $600,000.

This project will cost approximately $600,000. The budget for this project is already included in the City's adopted Capital Improvement Program. Once the sewer system improvements are completed, MSD's Revenue Sharing Program should provide the City with 50% of all collected fees from the use of this sewer system for the next ten years.

City staff recommends City Council adopt the attached resolution awarding the contract to T & K Utilities, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $599,610 plus a contingency of 20% ($120,000) with T & K Utilities, Inc. for the project known as Sardis Road Annexation Area Sewer System Improvements, City of Asheville Project # SC-08-09-001.

**RESOLUTION BOOK NO. 34 – PAGE 280**

**D. ORDINANCE NO. 4059 - ORDINANCE AMENDING THE MEMBERSHIP OF THE ASHEVILLE DOWNTOWN COMMISSON**

Summary: The consideration of an amendment to the City Code regarding membership on Downtown Commission.

City Code Sec. 2-76 establishes the Downtown Commission, and provides for the appointment of members and allocation of seats. One of the seats is allocated to "The president of the Asheville Downtown Association." Sec. 2-76(b)(4).

In response to a recent request, the attached amendment provides that the seat allocated to the Downtown Association may be filled by "a member of the Board of Directors" of the Association.

This action supports Downtown Commission, and relationship with external organizations.

Pros:

- Provides for greater flexibility in filling a seat on an important board.
- Facilitates functioning of Downtown Commission.

Con:

- None noted.

Adoption of the ordinance is recommended.

136

ORDINANCE BOOK NO. 27 - PAGE 307

**E. RESOLUTION NO. 12-48 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH BUNCOMBE COUNTY REGARDING RECOMBINATION OF COURTHOUSE PROPERTY**

Summary: The consideration of a resolution authorizing execution of an agreement with Buncombe County regarding the Courthouse property.

As Council knows, Buncombe County is undertaking a major renovation of the Buncombe County Courthouse. The project spans several separate parcels of land. Applicable codes (building safety and zoning) contemplate that buildings will occupy a single lot, and will not cross property lines. Usually, recombination of separate lots into one is the most efficient way to address this issue, and is little trouble for the owner/developer.

In this case, however, the parcels have historically been used for separate purposes, and the County has pledged them as security for different public financing issuances. For this reason, recombination in the usual sense would be difficult. We have worked out an agreement with the County wherein the County agrees not to transfer or sell any of the parcels for as long as the Courthouse remains on them. Out-conveyance of any of the parcels is a practical impossibility in any event. This has been reviewed by the Building Safety and Planning Departments, and they do not object.

This action supports City Council's Strategic Operating Plan in that it supports major improvements to Courthouse, already approved by Downtown Commission and Council.

Pros:

- Facilitates construction of Courthouse improvements.
- Accomplishes same purpose as complicated recombination.

Cons:

- None noted.

There is no fiscal impact.

Adoption of the resolution is recommended.

RESOLUTION BOOK NO. 34 – PAGE 281

**F. ORDINANCE NO. 4060 - BUDGET AMENDMENT FROM THE ASHEVILLE PARKS & GREENWAYS FOUNDATION TO SUPPORT THE HANGING FLOWER BASKET PROGRAM**

Summary: The consideration of a budget amendment, in the amount of $2,353, for support of the Hanging Basket program.

The City of Asheville in the Parks, Recreation and Cultural Arts Department has received a contribution from the Asheville Parks and Greenways Foundation to support the Hanging Basket program. Each year, hanging flower baskets are installed in the Downtown Business District which has been supported by the Asheville Parks and Greenways Foundation for several years. The contribution provides funding for approximately 39% of the program cost, and the City provides the remaining 61% in the Parks, Recreation and Cultural Arts Department operating budget.

The Asheville Parks and Greenways Foundation, a 501c3 non-profit charity, is a community group of individuals, businesses and grantors who together support the Asheville Parks, Recreation & Cultural Arts Department with funding to enhance selected programs and capital projects.

The action complies with the City Council 2011-2012 Strategic Plan Goal of fiscal responsibility of exploring alternative for enhancing the city's long-term financial commitment to master plan implementation, infrastructure maintenance, capital improvements, and public facilities. This action also complies with the Parks, Recreation, Cultural Arts and Greenways Master Plan in that it increases department funding with alternative funding and ensuring a high level of service in parks and facilities by addressing ongoing maintenance of parks to meet community expectations.

Pro:
- Provides additional funds to support the Hanging Baskets program.

Con:
- None

The total cost of the Hanging Basket program is $6,100, of which this donation of $2,353 will cover approximately 39% of that cost. The remaining $3,747 or approximately 61% of the cost will be funded by the Parks, Recreation and Cultural Arts Department General Fund budget.

City staff recommends City Council to approve the budget amendment authorizing the City Manager to accept the donation from the Asheville Parks and Greenways Foundation in the amount of $2,353 to support the Hanging Basket program.

Mayor Bellamy thanked the Asheville Parks and Greenways Foundation for funding this program.

**ORDINANCE BOOK NO. 27 – PAGE 308**

**G. ORDINANCE NO. 4061 - BUDGET AMENDMENT FOR CIVIC CENTER RENOVATIONS**

Summary: The consideration a budget amendment in the amount of $194,296 to increase the Civic Center renovations project budget with revenue coming from the civic center's fund balance

City Council previously approved various contracts to renovate the Civic Center for the Southern Conference Basketball Tournament. These contracts include a general contractor as well as specialized contractors for the sound system, seating risers, and scoreboard/electronics. The project is substantially on track for completion in accordance with the plans and specifications within the time specified in the contract. However, factors related to existing building conditions such as the height of corridor light fixtures, and the need to include non-structural renovations such as removal of walls for a media area on the exhibition level, have resulted in the need for an increase in some of the original contracts. These change directives and change orders are necessary to insure that the project is completed to the level expected by the SoCon and the funding partners. These changes require approval of a project budget amendment. There is available fund balance in the Civic Center enterprise fund. As noted in the November 2011 budget amendment approval, the Civic Center fund balance exceeded its 16% target amount by $194,296, which has been held in fund balance to meet cash requirements at the Civic Center box office. A review of monthly box office balances by finance department staff indicated that a sufficient cash flow balance has been maintained without the $194,296, thus staff is recommending the transfer to the Project Capital budget. This Civic Center fund balance transfer has no impact on General Fund balance.

This action complies with the City Council Strategic Operating Plan's Fiscal Responsibility goal of developing strategic partnerships to leverage resources for infrastructure and CIP projects. This action also complies with the Civic Center Commission Master Plan that encourages continuing renovations for the facility, and supports the goal of developing new partnerships. This request supports Council's strategic plan allowing for timely renovations to the Civic Center for the Southern Conference.

This action has been reviewed and recommended by the Civic Center Commission.

Pros:

- Allows for timely renovations to the Civic Center for the Southern Conference Basketball Tournament.

Con:

- None.

The budget amendment will increase the total Civic Center renovation project budget by $194,296, to a total of $7,526,296. As noted above, the Civic Center will maintain its target 16% fund balance, and this budget amendment has no impact on the General Fund balance. It also has a positive effect of allowing current equity to be utilized on the project.

Staff recommends City Council authorize a budget amendment in the amount of $194,296 to increase the Civic Center renovations project budget with revenue coming from Civic Center box office fund balance.

**ORDINANCE BOOK NO. 27 - PAGE 310**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Davis and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. UPDATE ON THE RECYCLING SERVICE UPGRADES

Energy Coordinator Maggie Ullman provided Council with the Recycling Program update. Council's objective is to implement ways to reduce city-wide solid waste. She explained the pilot program that ran through September-November 2010 of the big blue roll carts piloted in four neighborhoods: Burton Street, Park Avenue, Norwood and Parkway Forest. Out of the 721 households in the pilot, the average increase in diversion was 54%. Ninety-three percent of respondents surveyed "agreed or strongly agree the new recycling service with a roll cart is more convenient than the old program." In the spring of 2011, City Council decided to expand the pilot city-wide. Zero Waste AVL's goals are (1) to upgrade recycling service to make it easier to recycle more; (2) to increase community education to reduce, reuse and recycle; and (3) to lead by example through collecting brush and leaf collection for composting.

When staff begins the cart delivery on March 5 through March 30, there will be (1) no sorting required; (2) cleaner collection – no more overflowing materials; and (3) no heavy lifting, simply roll cart to curbside.

New materials collected will be all plastics #1 through #7; milks and OJ cartons; juice

The top ten items not accepted in Big Blue is plastic bags, paper towels, aluminum foil, black microwaveable trays, frying pans/pots, hard cover books, Styrofoam/packing peanuts, dishes, motor oil bottles, and metal items that are not cans.

She then outlined the next steps (1) March 5 – launch event in West Asheville Park at 10:00 a.m.; (2) March 5-30 – carts delivered city-wide; (3) research expansion options for downtown recycling, public housing and composting; and (4) early summer 2012 – program performance update.

In response to Mayor Bellamy, Ms. Ullman said that residents can either keep their old carts or put them into Big Blue to be recycled. Residents can begin to recycle the new materials on March 5.

In response to Councilman Pelly, Mayor Bellamy said that because the City does not want to complete with the private market, business owners and commercial properties have the option of contracting with private commercial haulers, as there are several companies that provide that service.

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING TO CONSIDER THE PERMANENT CLOSING OF A PORTION OF SOUTH PACK SQUARE

### RESOLUTION NO. 12-49 - RESOLUTION TO PERMANENTLY CLOSE A PORTION OF SOUTH PACK SQUARE

Director of Public Works Cathy Ball said that this is the consideration of a resolution to permanently close a portion of a right-of-way on College Street. This public hearing was advertised on January 27, February 3, 10 and 17, 2012.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, the City of Asheville, being the only abutting property owner desires to permanently close a portion of S. Pack Square. The portion used to serve as the right-of-way for College Street before the roads were re-aligned. Part of this portion of right-of-way is where the new pavilion is being built.

The Greenway Commission met on January 12, 2012, and approved the closure unanimously.

This closure allows maximum land use potential for further development complying with the Asheville City Development Plan, Land Use.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution to permanently close a portion of S. Pack Square.

Mayor Bellamy opened the public hearing at 5:22 p.m. and when no one spoke, she closed the public hearing at 5:22 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Hunt moved for the adoption of Resolution No. 12-49. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 34– PAGE 286**

**B. PUBLIC HEARING TO CONSIDER A PROPOSED AMENDMENT TO THE 2011-12 CONSOLIDATED ACTION PLAN FOR CDBG AND HOME PARTNERSHIP ACT FUNDS TO FUND PARTNERS UNLIMITED INC. FOR THEIR AT-RISK STUDENT PROGRAM**

**RESOLUTION NO. 12-50 - RESOLUTION AMNDING THE 2011-12 CONSOLIDATED ACTION PLAN FOR CDBG AND HOME PARTNERSHIP ACT FUNDS TO FUND PARTNERS UNLIMITED INC. FOR THEIR AT-RISK STUDENT PROGRAM**

Community Development Director Jeff Staudinger said that this is the consideration of a resolution authorizing a substantial amendment to the 2011-2012 Consolidated Annual Action Plan for CDBG and HOME to fund Partners Unlimited, Inc. for their At-Risk Student program in the amount of $11,000. This public hearing was advertised on February 17 and 24, 2012.

Partners Unlimited is a 501(c)(3) non-profit organization that provides academic enhancement services to help keep high school students in school and moving towards graduation. The organization receives about 100 referrals annually from Asheville City and Buncombe County schools. The organization serves suspended students seeking to keep up with school work while serving suspensions, and other students who need to recover lost credits and graduate on time. The organization is based at the Reid Center, and is part of the continuum of education and jobs training services there.

The specific request comes because of a cut in state funding for the Partners Unlimited program. This cut seriously affects the organization's ability to provide its basic service. If their request is granted, Partners Unlimited would use the funds to renew eight NOVA Net site licenses ($9,200), and have their financial records reviewed and 990 annual tax report filed ($1,800). The organization has no prior experience with CDBG funds, and a condition of the proposed funding was that a fiscal agent be identified to insure proper record-keeping and documentation. Green Opportunities has agreed to serve as fiscal agent.

Funding is available from the 2011-2012 CDBG pool. $11,000 was set aside for "fair housing" in the 2011 Action Plan, but no proposal was funded. The City has received fair housing funding from HUD, and can address fair housing needs from that pool. The proposed activity is a public service activity, as was the fair housing activity, so there would be no effect on the public service cap. The request is made out of the normal funding cycle, because of the immediate funding need.

This action complies with City Council's Strategic Goal of "Job Growth and Community Development."

Pro:

- The activity is an eligible activity under the CDBG program rules. This proposed amendment enables the continuation of a public service activity serving primarily low

income persons, and will assist in meeting overall program goals. The funds will also assist the sponsoring organization's viability and ability to meet community needs.

Con:

- There are none.

The proposed amendment uses funds already available through the CDBG and HOME programs. There is no increase in administrative responsibility for the City. No City General Funds are allocated for this program.

Staff agrees with the Housing and Community Development Committee in recommending that Council approve the proposed amendment to the 2011-2012 Consolidated Annual Action Plan.

Mayor Bellamy opened the public hearing at 5:25 p.m., and when no one spoke, she closed the public hearing at 5:25 p.m.

In response to Councilman Bothwell, Mr. Staudinger said that Partners Unlimited has provided a matrix on past performance, noting they do have a record of success.

Mayor Bellamy said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 12-50. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 34– PAGE 287**

**C. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED ON 36 MONTFORD AVENUE FROM COMMUNITY BUSINESS I DISTRICT TO INSTITUTIONAL DISTRICT/CONDITONAL ZONING TO ALLOW FOR A SATELLITE GRADUATE SCHOOL CAMPUS**

**ORDINANCE NO. 4062 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED ON 36 MONTFORD AVENUE FROM COMMUNITY BUSINESS I DISTRICT TO INSTITUTIONAL DISTRICT/CONDITONAL ZONING TO ALLOW FOR A SATELLITE GRADUATE SCHOOL CAMPUS**

Urban Planner Alan Glines said that this is the consideration of an ordinance to conditionally zone property located on 36 Montford Avenue from Community Business I District to Institutional District/Conditional Zoning to allow for a satellite graduate school campus. This public hearing was advertised on February 17 and 24, 2012.

In 2011, Lenoir-Rhyne University approached the Asheville Area Chamber of Commerce about using the third floor (comprising approximately 9,100 square feet) of the existing Chamber of Commerce Building to allow the University to offer graduate-level classes to the Asheville community. The Chamber is experiencing excess capacity in the building and agreed to sell the space. Lenoir-Rhyne University (LRU) plans to offer classes through a creative mix of on-site, distance/ on-line learning, operating in the evenings and on weekends. The operations plan includes:

- The University estimates that on most evenings up to about 25% of the enrolled students (about 50) are expected to be on campus with fewer students expected during summer sessions.

- Weekday evening classes begin at 5:30 p.m. and end around 8:30 or 9:30 p.m.

- A variety of weekend classes will be offered including Saturdays and Sundays as part of an accelerated course on weekends.

- Occasionally there may be a special seminar or lecture with attendance of 100 or so participants using existing space in the Chamber building.

- Two hundred is the projected student enrollment for at least the first three years of operation but that number could be larger or smaller depending on the interest and growth of the programs offered.

The Chamber of Commerce moved to its current location on Montford Avenue in 2000 after assembling properties on Montford Avenue, Hill Street, and Gudger Street and constructing a new office building and surface parking lot. The building totals about 33,000 square feet on three levels and is oriented to face Montford Avenue.

Because the building site is located within the boundary of the Montford Historic District, the building was reviewed and approved by the Historic Resources Commission when it was built. The all-brick building has a pedestrian orientation from Montford Avenue with windows and door facing the neighborhood.

The building is non-conforming in the CB I zone standards because of its size as buildings in the CB I zone are not allowed to exceed 12,000 square feet (or 6,000 square feet on two floors). This is because when the project was originally constructed, the Head of Montford Overlay applied to the site and this overlay allowed larger structures.

Parking and additional entrances are located at the rear of the building. The site has two access points, one directly from Montford Avenue and the other from Hill Street. There are 146 parking spaces as indicated on the site plans that have accompanied this conditional zoning proposal. According to submitted information the University use of these parking spaces will not overlap the primary daytime use and will not interfere with the recently authorized seasonal Wednesday Farm Market that serves the community in the lower area of this parking lot. The site is fully landscaped and meets the requirements for landscaping found in Article 11 of the UDO.

Existing Zoning: Community Business One (CB I) zone is intended to provide areas for medium density business and service uses serving several residential neighborhoods. The zoning area may serve as a workplace for nearby residents and be sensitive to significant pedestrian activity. Although the list of allowed uses in the CB I district is quite varied, institutional uses like universities are not permitted. Under the existing zoning the building is non-conforming based on scale of the structure which is not a particular concern but worthy of a mention.

Proposed Zoning: Institutional (Inst) zone is intended for the development of major educational, medical and complimentary uses such as support offices and related services. While there are not maximum building size limitations or design related requirements, new construction follows normal review procedures which are dependent on the scale of the project.

The existing site development and building would both be conforming to the proposed Institutional Zone. Changing the zoning to *Institutional Conditional Zone* using the existing site plan and described uses and operation of the site as conditions for approval can protect the character of the community and provide specified limits on the use of the site.

The site is built out and no further site changes are proposed. No changes are proposed to the 146 space parking area located at the rear of the site. The existing 3-story building was built to accommodate a mix of uses, so the addition of the university activities on the third floor will fit well into the existing layout and operation of the building.

The Chamber of Commerce will continue its normal business development and meeting functions and the activities of the Asheville Visitor Center. The Chamber currently has 45 employees staffing both the Chamber operations and the Visitor Center. The Chamber offices are open from 8:00 a.m. until 5:00 p.m. Monday through Friday and the Visitor Center operates from 8:30 a.m. until 5:30 p.m. Monday through Friday. On weekends the Visitor Center hours vary slightly opening at 9:00 a.m. and closing at 5:00 p.m. The Visitor Center has special hours on weekends in October and closes at 7:00 p.m. instead of the usual 5:00 p.m.

Weekend staff coverage at the Visitor Center includes five people (made up of staff and volunteers). Across the year the bulk of the visits to the Visitor Center occur between the hours of 10:00 am and 3:30 pm and the typical visitor stays for 15 minutes. In addition to the described Chamber uses, the seasonal Wednesday Farmer's Market which is popular with the neighborhood and visitors from other parts of the city also plans to stay and use the site. The market operates only on Wednesday afternoons and closes at 6:00 p.m. and generally operates between April and November.

The current uses of the site are most active during the middle parts of the day with visits to the Visitor Center tapering off after 3:30 p.m. which accounts for most of the visitor traffic to the property. There will be a brief time when there will be an overlap with Visitor Center patrons in the evenings after 5:00 p.m. as students arrive for the on-site classes which will start at 5:30 p.m. According to University officials, however, newer delivery methods for graduate-level classes require less 'face-to-face' time in the classroom and it is estimated that no more than 50 students or 25% of the enrolled student population (based on the LRU enrollment estimate of 200 students) are anticipated to be on campus on any given weekday evening.

As was noted before, the Visitor Center workers and visitors leave at 5:30 so there will be limited overlap with arrivals and departures and the existing 146 parking spaces on site will be enough to accommodate both user groups. Even if for example, there were 30 Visitor Center patrons parked in the parking lot and 20 Chamber staff still in the building at closing time at 5:30 p.m., there would be 96 available spaces for students arriving at the site for their classes.

On weekends the Visitor Center is also open with five staff and volunteers and LRU will offer weekend courses to students. Again if 50 students were on-site for weekend classes and if the Visitor Center with 5 staff and volunteers and an additional 65 parking spaces were in use all day long by visitors there would still be 26 available parking spaces. In summary, the existing parking will accommodate the daily Chamber of Commerce needs and Visitor Center activity even with the students coming for evening and weekend classes because of the large number of existing parking spaces.

To ensure that University related traffic does not exceed intended levels of service for this location, staff recommends that if the University wishes to have enrollment exceed 300 students (which would mean around 75 students at the campus on weekday evenings based on the estimate of 25% being present on-site) that the parking again be reviewed. We believe the university can expand to a certain extent without additional review as the parking analysis showed adequate parking for up to 300 students. If enrollment exceeds this amount, staff believes it important to set a threshold for review to ensure that the shared uses are successfully functioning together on the site. If that review warrants changes, staff will proceed accordingly which may include amending the conditional zoning permit to accommodate the additional impacts.

This proposal was recommended for approval with conditions by the Technical Review Committee on January 3, 2012. There were very few comments with the exception from the Transportation Department that a bus shelter be constructed along Montford Avenue adjacent to the property. The recommendation derives from the Transit Master Plan which recommends a

bus shelter at the upper end of Montford Avenue. Staff recommendations may be considered in approving the proposal because it is conditional rezoning.

At the Planning and Zoning meeting, the Chamber director stated a desire that they should not be required to add the bus shelter along Montford Avenue due to the estimated cost and because they feel that very few students will arrive at the site using the transit system. The director also commented that no staff or visitors arrive at the Visitor's Center by transit either.

Staff noted that when a use expands it adds neighborhood impacts and should comply with City adopted goals and plans. The bus shelter recommendation is a standard recommendation for such an expansion of uses. After resistance to this recommendation was registered, staff reviewed project files for a number of other proposals where a bus shelter was recommended during Conditional Zoning and Level III approvals. The staff believes that the request is reasonable as these recommendations were confirmed by the Council in all of these instances.

Public comment on the topic centered on potential traffic activity at Hill Street and Montford Avenue and the safety of that intersection. The Traffic Engineering Department has reviewed the existing roadway alignment and has not noted any needed changes to this intersection.

Members of the Montford Neighborhood Association have also expressed interest in having the entire property included in the Montford Historic District boundary. The association feels that any future development on the site should be coordinated with the design standards of the district. This request to study the site for potential district expansion was considered and approved by the Planning and Zoning Commission during their meeting as a separate action from the conditional zoning request. It will now be taken up with the Historic Resources Commission who will review the map amendment request and vote to recommend approval or disapproval of the expansion based on the merits of the site and application.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.** The proposed project has been reviewed by City staff and appears to meet all public health and safety related use and activity on the property.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.** The project is using an existing site and no physical changes are proposed for the project site.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.** The proposed uses and the site are positive additions to the Asheville community and the immediate surrounding neighborhood. No negative impacts from the expanded use are expected.

4. **That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.** The site is already developed and the current building is in-scale with the surrounding neighborhood and area. The building was originally reviewed by the Historic Resources Commission to ensure compatibility with the goals of the neighborhood.

**5. That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.** The site is already developed and the form of the building, which is multi-story with full access at street-level is designed to have a variety of possible uses ensuring its adaptability over time. The conditional zoning request is a successful example of a form-type of building adapting to a major change of use from its original purpose. By definition this is sustainable development.

**6. That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.** The site is located at the intersection of Montford Avenue and Hill Street is well positioned for convenient access to transportation options. I-240 is immediately adjacent to the property and both Montford Avenue and Hill Street are served by Asheville Transit System Route 11 and a bus shelter has been requested for Montford Avenue as a part of the Technical Review Committee review. All other aspects of site infrastructure are in place to handle the existing and proposed uses.

**7. That the proposed use will not cause undue traffic congestion or create a traffic hazard.** The subject project will not adversely impact the surrounding street network from a traffic engineering perspective. The proposed new use is primarily an evening and weekend use that is not expected to create undue traffic congestion for the surrounding area.

Based on the above findings and the analysis provided in the report, staff finds this request, with conditions noted, to be reasonable.

Pros:

- Allows a new educational partner to expand opportunities for the local work force.
- Permits an existing site to be more fully utilized without creating undue impacts on the surrounding community.
- Ensures the future relevance of an existing underutilized structure by permitting a new activity with minimal changes to the interior of the building.

Con:

- Brings more activity to the site and neighborhood than has been there especially during the evenings and on weekends (a potential pro).

The Planning and Zoning Commission reviewed the proposal at their meeting on February 1, 2012. The discussion focused on mitigating the impacts of the proposal by having a student enrollment cap. The Commission also discussed the recommended condition that a bus shelter be provided along Montford Avenue and a bus pad be added along Hill Street as noted in the TRC report. After consideration of the issues they agreed to keep this recommendation in the motion to approve. The Commission voted 7-0 to approve the described graduate program expansion with a student enrollment of up to 300 students (maximum on-site attendance of not more than 75 students at any given time), subject to the operation standards submitted by the applicant and the requirements of the TRC report. Staff also supports this recommendation as amended during the review process.

Mayor Bellamy opened the public hearing at 5:31 p.m.

Mr. Paul Knott, Director of the Center for Graduate Studies of Asheville at Lenoir-Rhyne University, was excited about their partnership with the Chamber of Commerce on this initiative. He explained how they are committed to be a part of the community and that they plan to open in August of 2012. He then spoke about the programs offered and urged Council for their support.

Mayor Bellamy closed the public hearing at 5:34 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved for the adoption of Ordinance No. 4062, to conditionally zone property located on 36 Montford Avenue from Community Business I District to Institutional District/Conditional Zoning to allow for a satellite graduate school campus, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) Changes to the site that expand the uses may require review by appropriate bodies; (3) Any alterations to the interior of the building and additional signage may require permits by separate application; and (4) If the University wishes to expand enrollment potential above 300 a traffic analysis will be required. This motion was seconded by Councilman Bothwell and carried unanimously.

**ORDINANCE BOOK NO. 27 - PAGE 312**

**D. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE CONDITIONAL ZONING FOR WEIRBRIDGE VILLAGE LOCATED AT 1709 HENDERSONVILLE ROAD FOR THE ADDITION OF A RIGHT-IN, RIGHT-OUT ENTRANCE DRIVE FOR A COMMERCIAL OUTPARCEL**

**ORDINANCE NO. 4063 - ORDINANCE TO AMEND THE CONDITIONAL ZONING FOR WEIRBRIDGE VILLAGE LOCATED AT 1709 HENDERSONVILLE ROAD FOR THE ADDITION OF A RIGHT-IN, RIGHT-OUT ENTRANCE DRIVE FOR A COMMERCIAL OUTPARCEL**

Urban Planner Julia Fields said that this is the consideration of an ordinance to amend the conditional zoning for Weirbridge Village located at 1709 Hendersonville Road, for the addition of a right-in, right-out entrance drive for a commercial outparcel. This public hearing was advertised on February 17 and 24, 2012.

In 2006, 20.66 acres of property located at the corner of Hendersonville Road and Racquet Club Road was conditionally zoned from RM-6 (Residential Multi-Family Low Density) District to HBCZ (Highway Business Conditional Zoning) District to allow for the development of a major multi-family housing development (originally proposed for 336 units) with commercial outparcels along Hendersonville Road. As proposed, the commercial portion of the development was shown as suburban commercial outparcels abutting Hendersonville Road. However, as opposed to traditional suburban commercial outparcels where there are separate curb cuts for each outparcel, the developer proposed to access all commercial parcels off of a single road (Weirbridge Drive) running parallel to Hendersonville Road.

The commercial development was restricted under this approval to no more than five commercial parcels with no commercial parcel being greater than 3 ½ acres in size. No big box stores, night clubs, bars, adult uses or dance clubs are allowed and commercial uses are limited to: financial institutions, pharmacies, restaurants, professional offices, retail sales, bakeries, barber shops and salons, bookstores, medical clinics, delicatessens, florist, gift shops, grocery stores, and health and fitness facilities. No 24-hour uses are permitted other than bank ATMs and pharmacies. Architectural standards were required to be placed on the commercial buildings so that they would complement the materials and design in the architecture of the residential buildings. No commercial building can be greater than 25,000 square feet GFA in size or greater than 30 feet in height. Outdoor storage is not permitted.

Since the initial conditional zoning approval, two amendments have been approved for the project. One reduced the number of dwelling units from the originally approved 336 to 280 and reconfigured the location and reduced the number of the buildings housing the dwelling units. A second amendment approved a comprehensive sign package for the development.

Subsequently, two outparcels (financial institutions) have been developed with access off of Weirbridge Drive.

The applicant is now proposing a third amendment to allow for a right-turn in/right turn-out access point to the 2.07 acre parcel just north of the parcel on which the Wells Fargo bank is located. This access point has been initially approved by NCDOT who controls Hendersonville Road but must be approved by the City Council as such an access amends the original conditional zoning approval for the property. The access point is between two intersections; approximately 140 feet from the intersection of Hendersonville Road and Racquet Club Road and approximately 280 feet from the intersection of Hendersonville Road and Weirbridge Drive. Both of these intersections have traffic lights.

The principal reason for the need for this access point (and this amendment) is due to the change (from what was originally proposed) in the design of the retaining wall on the northwestern side of the commercial portion of the project. As the project was being developed, several factors led to a change in the location and size of this retaining wall. As originally proposed, fill dirt for the commercial property was to come from the proposed residential portion of the property. In an effort to save as many trees as possible on that residential portion, the grading plan was revised to obtain the fill dirt on the commercial portion by lowering the northern corner of this property (adjacent to Racquet Club Road) to create a larger flat area. This necessitated extending the length of the proposed retaining wall. The increased length of the retaining wall eliminated two of the originally proposed driveway connections to Weirbridge Drive leaving only one.

There is no contract for a proposed development on this site. Potential uses could be anything allowed for the HBCZ zoning as originally approved by Council. One or two potential uses are possible on this remaining commercial portion.

Staff is concerned with this amendment, feeling that it takes away one of the more attractive aspects of the original proposal - that there would only be one roadway access point off of Hendersonville Road. Staff does recognize the limitations that resulted from the retaining wall change which was brought about in an effort to save as many of the existing large trees on the property as was possible. Staff is also concerned with the traffic impact on Hendersonville Road so close to the intersection of Hendersonville and Racquet Club Roads. It is felt that a right in/right out driveway entrance is the only suitable type access if one should be permitted. Any proposed development will be reviewed as a Level One by staff. That review would include a traffic impact analysis if one is warranted due to trip generation. While there is no contract on the site, a fast food chain, which is looking at the development potential on a portion of this property, would require a traffic impact analysis.

This proposed amendment was reviewed and approved with conditions by the City's Technical Review Committee on February 6, 2012. Conditional zoning amendments generally are not reviewed by the Planning and Zoning Commission.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   Any commercial development that is proposed for this site will be reviewed as a Level I project by staff and will have to comply with all applicable City regulations.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate**

**vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
There are no significant natural or topographic features impacted by the proposed amendment to the conditional zoning approval.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
The proposed amendment should not have an impact on the value of adjoining or abutting property. It should make the vacant commercial parcel more attractive for development.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
The proposed amendment will not affect the character of the area as Hendersonville Road in the vicinity is largely commercial strip development.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
The proposed amendment supports the goal/strategy of maximizing the efficiency of the existing transportation system by including access management strategies in alterations to roadways. However, these same access management strategies also seek to limit the number of driveway cuts.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
The proposed amendment does not address use which was addressed in the original conditional zoning ordinance.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
Any development proposal will be reviewed as a Level I project. Such a review will include a review of transportation issues and may call for a traffic impact study to be conducted. This review process will be limited to the basic standards and regulations.

Pros:

- The proposed amendment provides additional access to a property for which access is limited.
- Improved access should help with the marketing of the site.
- The amendment is for a right out/right in only access.

Cons:

- The amendment would allow for a curb cut on Hendersonville Road in close proximity to the intersections of Hendersonville and Racquet Club Roads and the intersection of Hendersonville Road and Weirbridge Drive.
- The amendment is somewhat inconsistent with the original commitment for controlled access and minimizing potential traffic issues.

Staff is concerned with an access point being located between these two signalized intersections without a traffic study being conducted based on a proposed use. As a traffic study would have to be reviewed by staff as part of a Level I review of any proposed development, however, staff recommends approval of this conditional zoning amendment subject to the conditions listed.

Mayor Bellamy opened the public hearing at 5:39 p.m.

Mr. Clay Mooney, landscape architect for the project, explained why this amendment is being requested. Due to the decision to minimize the impact for the residential portion and save trees, retaining walls had to be built. Because of those retaining walls there is now limited access and they have not been able to succeed in attracting someone to build on that property. He explained how traffic has been on their minds throughout this project, noting the new traffic improvements they have made. They have met with the N.C. Dept. of Transportation and they have initially given approval pending a formal receipt of a driveway permit application. The right-in and right-out seems the only reasonable course of action in order to have development flexibility. He hoped Council would support this amendment.

Mayor Bellamy closed the public hearing at 5:46 p.m.

Councilman Smith felt this is a good example of an urban density project.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved for the adoption of Ordinance No. 4063, to amend the conditional zoning for Weirbridge Village located at 1709 Hendersonville Road, for the addition of a right-in, right-out entrance drive for a commercial outparcel, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; and (3) The design, construction materials and orientation of development on the site must comply with the conceptual site plan presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards. This motion was seconded by Councilman Hunt and carried unanimously.

**ORDINANCE BOOK NO. 27 - PAGE 316**

**E. PUBLIC HEARING TO CONSIDER AMENDMENTS TO THE UNIFIED DEVELOPMENT ORDINANCE TO CLARIFY AND EXPAND SIGN CODE STANDARDS**

**ORDINANCE NO. 4064 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO CLARIFY AND EXPAND SIGN CODE STANDARDS**

Assistant Planning & Development Director Shannon Tuch said that this is the consideration of an ordinance amending the Unified Development Ordinance to clarify and expand sign code standards to better address existing needs and practices. This public hearing was advertised on February 17 and 24, 2012.

Over the last year, interest in a collection of sign code amendments has grown and been intermittently discussed amongst staff and the Planning & Economic Development Committee.

The City of Asheville has had sign regulations since 1977 and has gone through a variety of amendments over the years with perhaps the most significant amendment occurring in 1989 when the standards were overhauled and new allowances established with significant stakeholder input – this is what was commonly referred to as the "sign code". In 1997 the zoning code, sign code, and other separate codes were incorporated into the current ***Unified Development Ordinance (UDO)*** where the basic sign allowances were generally maintained. At this time, however, the sign standards were also expanded to include a number of new categories of signage not previously considered. This provided more flexibility and options for affected properties and for some unique signage needs.

During this same time period (late 80's and early 90's) there was much attention given to signs and sign standards with equally fervent opinions expressed from both business owners who wanted more and larger signs to provide better business identification, and from citizens who were fighting the proliferation of sign "clutter" that they believed was becoming increasingly common and objectionable from an aesthetic, wayfinding, and safety perspectives. In response, a large and diverse stakeholder group was formed and met regularly for approximately a year as standards were negotiated and revised. Every effort was made to be fair and reasonable, and to satisfy the number of divergent concerns. The critical work of this group continues to influence the city's application and development of sign standards with an emphasis on providing opportunity for legitimate business needs while controlling intrusions and unnecessary distractions that could cause safety hazards for drivers and pedestrians.

Our experience reflects that the sign code standards and their interpretation and application receive the greatest level of resistance from some sectors of the business community over any other section in the zoning code, despite the extent of the options and the moderate allowances offered. And enforcement of this code also receives a very strong scrutiny from the public and business competitors. In conversation with senior staffers, concern over sign standards goes back as far as we can recall and consistently gets raised periodically, year after year. And the pendulum seems to swing from year to year from concern that there is inadequate enforcement to concern that the standards are overly restrictive. Additionally, when speaking with other zoning enforcement personnel across the region, and seeing the content of sessions at national conferences, the tension with sign code standards appears to be a fairly universal phenomenon and is notorious for the challenges involved with enforcement.

Asheville has attempted to deal with some of this tension by convening stakeholder groups to identify the fair and reasonable "middle ground" and an informal benchmarking study conducted three years ago confirmed Asheville's position as neither the most restrictive nor the most lenient of cities in the southeast. Nevertheless, Asheville City staff continues to experience complaints on a regular basis (on both sides of the debate) for numerous reasons.

Eventually, a new Comprehensive Plan will be developed and the UDO will likely require some significant updating as part of implementing that new plan. There has been growing interest in simpler form-based codes for certain sections of the ordinance, and the sign code is one section that translates very well into a form-based version. Until that time however, there is a series of relatively minor amendments that can be considered.

As with all ordinances, it is challenging to anticipate all development possibilities and most standards are designed for the most common situations. For those that are atypical, a variance process is provided and relief from the sign standards can be considered when there exists a physical hardship to the site. The variance process has been an effective tool and is a relatively simple and expedient application process. This same variance process has also been very effective in revealing common scenarios where consideration of new standards to address recurring situations may be of benefit. This, combined with the identification of common permitting challenges, frequently applied interpretations, and news and information from the planning profession and sign industry, has helped establish a small list of sign code amendments that are designed to bring clarity to the existing standards, while also providing new opportunity for difficult but not entirely uncommon situations. A summary of those amendments is as follows:

**Article XIII Amendments**

**Campaign signs.** Clarify that the 30 days begins prior to the first day of polling, which will begin with early voting.

**LED signs.** Allow digital and LED changeable copy messages to change once every 4 hours.

**Second tier development signage.** Remove second tier allowances and replace with an option that would allow a land-locked property tenant signage on an adjacent free-standing, multi-tenant sign. Requires cooperation from adjacent property owner. Intent is to maintain sign allowances and not increase the number of structures, but allow existing sign structures to be shared.

**Signs on vehicles.** Clarify standards so that vehicles with signage parked on site must be parked in a proper, striped space and shall not be parked in aisles, or grassy medians, etc. and cannot block another businesses sign. Vehicles with signage stored off-site must be parked to minimize visibility. Add a second clarifier to prohibit mobile billboards.

**Temporary sign material.** Allow a temporary material to be used for a permanent sign for a period of 6 months to one year – after which its replacement with a permanent material would be treated as a face change.

**A-frame signs.** Clarify standards to permit one A-frame sign per public entrance when entrances are located on separate street frontages.

**Housekeeping.** 1) Add Urban Place and Airport to the table for commercial signage. 2) Fix allowance (60 s.f.) for NCD, CBI, NB, URD and UP.

**Signs in City rights-of-way.** Allow signs to be located within a city right-of-way when:

- The right-of-way is greater than 75 feet
- The City Traffic Engineer has determined that no traffic concern is created
- Sign location is a minimum of 25' from edge of pavement
- No variances to sign allowances are permitted

The Planning & Economic Development Committee reviewed an outline of the changes and supported its moving forward. The Planning & Zoning Commission reviewed the changes at their November 2, 2011, meeting and unanimously recommended approval. At this same meeting, the Commission also recommended that staff return with some amendments to the standards regulating digital billboards – this item is being reviewed separately and is scheduled for the City Council's March 27th meeting.

This proposal supports goals for job growth and community development by expanding options for businesses while also researching new formats for the UDO.

Pros:

- Provides greater flexibility for difficult but not uncommon signage situations.
- Provides improved clarity to existing sign standards.

Cons:

- Adding new standards may contribute to the overall complexity of the code.
- Increasing opportunities could increase the total number of signs in the environment.

There is no direct fiscal impact.

Ms. Tuch said that City staff recommends approval of this wording amendment, with a minor amendment to Section 7-13-5 (c) to read "Properties located one lot back from a thoroughfare with no direct street frontage and having shared access with adjacent or adjoining

parcels may share space on an adjacent property's free-standing sign in lieu of the second tier property's free –standing sign allowance."

Mayor Bellamy opened the public hearing at 5:56 p.m., and when no one spoke, she closed it at 5:56 p.m.

Councilman Smith said that he is looking forward to moving toward form-based codes.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Manheimer moved for the adoption of Ordinance No. 4064, with the minor amendment outlined above by Ms. Tuch. This motion was seconded by Councilman Bothwell and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 321**

**V. UNFINISHED BUSINESS:**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 12-51 - RESOLUTION PROMOTING PARTICIPATING IN THE 10% LOCAL FOOD CAMPAIGN**

Ms. Cathy Hohenstein of the NC Cooperative Extension gave several statistics of the NC 10% campaign, outlining that the levels of support, and resources that can help if the 10% commitment is fulfilled through the seasons. She also outlined the following three ways that organizations or businesses can fulfill their commitment (1) pledge of purchase: organization can make choices with the 10% campaign in mind, when having foods at meetings or events; (2) participate in an employee or member program: organization can encourage employees or participants of services to join the 10% campaign and sign up on the campaign website as individuals; and/or (3) promotion or outreach program: use organizations website, listserv, events and external publications or promote the 10% campaign.

Said resolution reads: "WHEREAS, North Carolina has the opportunity to harness consumer spending on food to bolster the sustainability of local farms and fisheries, support economic development, job creation and help address diet-related health concerns; and WHEREAS, consumers are demanding locally produced foods and food producers are responding positively to this increased consumer demand; and WHEREAS, the demand for locally produced foods has not been diminished by a weak economy; and WHEREAS, there is significant potential for local food and farming businesses to be an economic development engine in North Carolina, particularly in rural areas; and WHEREAS, in 2009, North Carolinians spend about $35 billion a year on food; and WHEREAS, if individuals spent 10 percent of their food dollars on local foods, approximately $3.5 billion would be available in the local economy; and WHEREAS, city governments have an important role to play in supporting their local food systems; and WHEREAS, city governments set policies to procure local foods; and WHEREAS, city governments may commit to purchasing local foods when hosting meetings, conferences and or workshops; and WHEREAS, the Center for Environmental Farming Systems'**10% Campaign** supports local and regional food economies that benefit local food producers, related businesses and communities; and WHEREAS, the North Carolina Cooperative Extension Service is working in support of the **10% Campaign** in all 100 counties, including Buncombe County; and WHEREAS, these on-the-ground experts are working with other community leaders, farmers, businesses, parents, teachers and students, many of whom are already working to build the state's sustainable local food economy, from farm to fork; and WHEREAS, the City is responsible for promoting economic development and job creation; and WHEREAS, the City is responsible for protecting and enhancing the health, welfare and safety of its resident in prudent and cost-

effective ways; and WHEREAS, the citizens of Asheville will benefit significantly through the success of the **10% Campaign** through a stronger economy and access to fresh, affordable meats, produce, fish and shellfish; NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: The Asheville City Council pledges to access its ability to source local foods and to promote participation in the **10% Campaign** to its employees and citizenship as appropriate to help build the local food economy."

When Mayor Bellamy asked for public comments, none were received.

Councilman Smith spoke in support of this resolution and hoped that the City would go well above the 10% in regard tour local food preference.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 12-51. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 288**

**B. RESOLUTION NO. 12-52 - RESOLUTION APPOINTING MEMBERS TO THE ALCOHOLIC BEVERAGE CONTROL BOARD**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that the term of Charles Worley, as a member on the Alcoholic Beverage Control (ABC) Board expired on November 13, 2010. On November 22, 2011, City Council appointed Mr. William Russell to replace Mr. Worley; however, Mr. Russell declined the appointment.

The following individuals have applied for the vacancies on the ABC Board: Genny Lynn Beville, Tim Flora, Mark W. Cates, Guadalupe Chavarria, Randall C. Hall, Judy Kuhne, Fred Cooke and Charles Larrick.

On February 14, 2012, City Council instructed the City Clerk to arrange interviews for Guadalupe Chavarria, Melissa English, John Menkes and Randall Hall.

After Council spoke highly about all the candidates, the majority of Council voted to appoint John Menkes to serve a three year term, term to expire November 13, 2014, or until his successor has been appointed.

**RESOLUTION BOOK NO. 34 – PAGE 290**

**C. RESOLUTION NO. 12-53 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION**

Vice-Mayor Manheimer said that there current exists a vacancy left on the Historic Resources Commission by Mr. John Dean, whose term expires July 1, 2012.

The following individuals have applied for a vacancy on the Historic Resources Commission: Jay Lively, Jay Marino, Anne Harrell, Frank Hallstrom, Deanna Reeder, Michael Bragg and Tracey Rizzo.

On February 14, 2012, it was the consensus of Council to interview Jay Lively, Tracey Rizzo and Deanna Reeder.

After Council spoke highly of all the candidates, the majority of Council voted to appoint Tracey Rizzo to serve the expired term of Mr. Dean, and then a full three-year term, July 1, 2015, or until her successor has been appointed.

**RESOLUTION BOOK NO. 34 – PAGE 291**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Mr. Dan Bridges spoke about some of the following concerns he has experienced in his capacity of a volunteer in the handicapped parking program: (1) he is unable to find the correct person to voice his concerns; (2) handicapped parking signs for some new area businesses are 3.5 feet off the ground, but should be 6.5 feet off the ground; (3) no handicapped signs for some area businesses; (4) some handicapped signs are not legible; and (5) stripping of handicapped spaces. City Manager Jackson said that he would investigate Mr. Bridges concerns and report back to him and Council.

Mr. Fred English urged Council to oppose I-95 becoming a toll road through North Carolina as it will affect the price of what we pay in North Carolina.

Mr. Tim Sadler commented about the need for better density bonuses and urged Council to adopt a policy making zero waste as a goal for the City by 2020.

Ms. Gretchen Lewis thanked Council for the increase in recyclable materials and the City's participation in the 10% local food campaign. She hoped Council would keep sustainability and climate change as a priority in all their decisions.

Mr. Chris McGrayne urged City Council to support the City's demolition of unsafe private property.

Councilman Davis was pleased to announce the Southern Conference Basketball Tournament which will be in Asheville this weekend - March 2-5, 2012. He urged all citizens to come by the newly renovated US Cellular Center or the Kimmel Arena at UNC-Asheville to enjoy a weekend of basketball.

**Senate Bill 183**

Mr. Judy Mattox, Chair of the local Sierra Club Group, requested city Council help regarding Senate Bill 183 that allows 350 feet of clear-cutting on both sides of billboards on state rights-of-way. Dyke Longest, Director of the Duke Environmental Law and Policy Clinic, will file a suit on behalf of Scenic North Carolina, to challenge the temporary rules regarding the law and to request that the implementation of the law be moved back into the summer instead of starting on March 1. She asked the City to (1) write an amicus brief in support of their Complaint and Motion for Preliminary Injunction; (2) contact the N.C. Dept. of Transportation (NCDOT) and the Governor's Office asking them to suspend the temporary rules; (3) convene with other cities to discuss the possibility of city-initiated litigation over the temporary rules; (4) contact the NCDOT to ask for copies of permit applications in their city and their extraterritorial jurisdiction; (5) start documenting and investigating illegal cutting activity; (6) contact the NC League of Municipalities, NC Assoc. of County Commissioners and the Metro Mayors to urge them to fight this at the General Assembly in May; and (7) organize a coordinated strategy call with some other counties and cities with similar concerns, such as Charlotte, Boone, Winston-Salem, Raleigh, Wilson, etc.

Mayor Bellamy noted that Council expressed their opposition to this Bill last year in their legislative program. It was the consensus of Council to ask City Attorney Oast to review information regarding this Bill and provide Council an update at their next formal meeting, including what other communities are doing.

**Closed Session**

At 6:37 p.m. Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: Henderson County Cane Creek Water and Sewer District, Asheville-Buncombe-Henderson Water Authority, Buncombe County, and City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(11); and (2) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:15 p.m., Councilman Davis moved to come out of closed session. This motion was seconded by Councilman Bothwell and carried unanimously.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 7:15 p.m.

Magdalen Burleson
CITY CLERK

Jan M Bellamy
MAYOR

Tuesday – March 13, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Councilman Cecil Bothwell (family emergency)

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Hunt gave the invocation.

**I. PROCLAMATIONS:**

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 28, 2012**

**B. RESOLUTION NO. 12-54 - RESOLUTION AUTHORIZING THE CITY MANAGER ENTER INTO A CONSTRUCTION CONTRACT WITH CANA CONSTRUCTION FOR THE BREVARD ROAD 24-INCH WATERLINE AND WATER SYSTEM IMPROVEMENTS PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to enter into a construction agreement with Cana Construction, in the not-to-exceed amount of $162,188.00, for the Brevard Road 24-inch Water Line and Water System Improvements Project.

On February 2, 2012, the Water Resources Department issued an Advertisement for Bids for the Brevard Road 24-inch Water Line and Water System Improvements Project to upgrade the water system between Interstate 26 and the entrance to the Biltmore Square Mall. The scope of the project includes all labor, materials, and equipment required for: (1) the installation of approximately 848 linear feet of a new 24-inch ductile iron pipe with related appurtenances; and (2) completion of the last planned section of transmission line along Brevard Road.

On February 23, 2012, Water Resources received seven (7) bids for the project in response to the Advertisement for Bids. Companies responding were:

1. Cana Construction – Waynesville, NC
2. Steppe Construction, Inc – Mill Spring, NC
3. T & K Utilities, Inc. – Asheville, NC
4. Patton Construction Group, Inc.– Arden, NC
5. Chandler Construction Services, Inc.– Ninety Six, SC
6. Wateree Construction Company, Inc. – Sumter, SC
7. Payne, McGinn and Cummins, Inc.– Travelers Rest, SC

The bids were reviewed by the Water Resources Department and the City's Office of Economic Development (Minority Business Plan Compliance) with all officers recommending approval of Cana Construction as the lowest, responsible bidder in the amount of $162,188.00.

This project is part of City Council's strategic plans to improve city infrastructure and provide local companies with labor opportunities.

Pros:

- This project will complete the last planned section of an important transmission main, which enables the Water Resources Department to efficiently feed large volumes of water from the Mills River Treatment Plant to West Asheville and the rest of the water system.
- This project is aligned with the City and the Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects in order to provide safe and reliable service.
- Approval of the construction contract to the lowest, responsible bidder will invest City funds in the local economy.

Con:

- Failure to award a construction contract would prevent the completion of this important transmission line link in the City's water system.

The Water Resources Department currently has the funds needed for this project budgeted in the Water Resources' Capital Improvement Projects Fund.

City staff recommends City Council approval of the City Manager to enter into an agreement with Cana Construction, in the amount of $162,188.00, for the Brevard Road 24-Inch Water Line & Water System Improvements.

**RESOLUTION BOOK NO. 34 – PAGE 292**

**C. RESOLUTION NO. 12-55 - RESEOLUTION SUPPORTING RESIDENTIAL PROPERTY ASSESSED CLEAN ENERGY (PACE) THROUGH HOUSE RESOLUTION 2599, PACE ASSESSMENT PROTECTION ACT OF 2011**

Summary: The consideration of a resolution to encourage federal legislators to support House Resolution 2599.

Residential PACE: The PACE model ran into significant barriers on when the Federal Housing and Finance Administration (FHFA) wrote directives in July 2010 and February 2011 to Fannie Mae, Freddie Mac and the Federal Home Loan Banks to "continue to refrain from buying mortgage loans secured by properties with outstanding first-lien PACE obligations and carefully monitor through their seller-servicers any programs that create such first-lien obligations." The FHFA's stated primary concern is that these type of loans "pose unusual and difficult risk management challenges for the (banks)".

Addressing Federal Barriers

Municipalities across the country have coordinated efforts to address the FHFA barrier through two primary routes: HR 2599 a federal legislative fix and an Advanced Notice of Rulemaking (ANRM) a judicial fix. Asheville City Council can join these efforts to support removing the federal regulatory barriers to residential PACE.

1) HR 2599: This bill is to prevent Fannie Mae, Freddie Mac and other Federal residential and commercial mortgage lending regulators from adopting policies that contravene established state and local property assessed clean energy laws.

2) Advanced Notice of Rulemaking (ANRM): The FHFA was challenged in federal court regarding the legality of the FHFA's ability to intervene regarding PACE without following the required process of rulemaking. Resulting from this case the FHFA is

seeking public comments regarding whether their previous directive should be maintained, changed, or eliminated and whether other restrictions or conditions should be imposed.

Addressing State Barriers

Should federal regulatory barriers be removed North Carolina municipalities would then need to reevaluate state PACE legislation to ensure it complies with new federal guidance.

Commercial PACE: To implement a commercial PACE program the City of Asheville would need to borrow money for the purpose achieving community energy reductions through installing energy efficiency and renewable energy improvements on voluntary private properties. The city would repay the money they borrow by levying a special property tax assessment on the participating private properties. These special property tax assessments would need to cover all costs of implementing the program and would theoretically be made available to the property owner through the energy efficiency savings. In order to implement these projects the city would have to hire a third party administrator to manage procurement, installation and the assessment process on the city's behalf.

Addressing Financing

Staff's analysis indicates that the only financially feasible method for commercial PACE capitalization is through utilizing Qualified Energy Conservation Bonds (QECB's). QECB's are qualified tax credit bonds which allow the borrower to only pay back the principle and the bondholder receives federal tax credits in lieu of traditional bond interest. QECB's are allocated to states who then make allocations to local jurisdictions. For each allocation 70% must be used for public projects and no more than 30% are allowed to be used for private activity projects. The City of Asheville did not receive a direct allocation. Buncombe County did receive an allocation totaling $2,394,259 and it is staffs understanding that they do not intend to utilize this borrowing option. The QECB rules indicate that the county can allow the city to access this allocation on their behalf.

Commercial PACE next steps:

1. Establish strategic partnerships with potential commercial partnership to establish a stakeholder group of likely commercial borrowers for a pilot program.
2. Continue to research available financing methods.
3. Design a pilot program for council consideration.

This item went to the Sustainability Advisory Committee on Energy and the Environment on February 15th and was unanimously supported. The Council Finance Committee reviewed this item on February 28th at which point they recommend this go before the full Council.

These actions support the following Council strategic goals: (1) Explore opportunities to enhance affordability by reducing utility costs through innovative energy efficiency financing programs; and (2) Work with regional partners to create incentives for green building, energy conservation and energy independence.

There is no fiscal impact associated with the staff recommendation.

Regarding Residential PACE, staff recommends Council pass a resolution to encourage federal legislators to support HR 2599 and write a letter to the FHFA with public comments.

Councilman Davis stated that he would only support staff looking into Commercial PACE.

Councilman Hunt felt it was appropriate to incentivize energy efficiency thorough a program like PACE. He understands we are only directing staff to research the Commercial PACE further and it will be reviewed through the Finance Committee prior to coming to Council.

**RESOLUTION BOOK NO. 34 – PAGE 294**

**D. RESOLUTION NO. 12-56 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A FOUR YEAR CONTRACT WITH THE N.C. DEPT. OF PUBLIC SAFETY TO PROVIDE REGIONAL HAZARDOUS MATERIALS EMERGENCY RESPONSE FOR REGION 6**

Summary: The consideration of a resolution authorizing the City Manager to enter into the four year contract agreement with the N.C. Dept. of Public Safety to provide regional hazardous materials emergency response for Region 6.

North Carolina is divided into seven geographical regions for the purpose of hazardous material emergency response. The N.C. Dept. of Public Safety formerly known as Dept. of Crime Control and Public Safety contracts with municipalities across North Carolina to respond into the geographical regions and provide technician level hazardous materials emergency response. The region six areas encompass the westernmost twenty counties.

The N.C. Dept. of Public Safety formerly has offered a contract agreement to the City of Asheville for Hazardous Materials Emergency Response Services for contract years of July 1, 2012 through June 30, 2016. The City of Asheville has been a regional hazardous materials provider since FY 1994-1995. The State of North Carolina provides funding that fully supports the operational costs of the program.

The City Council Public Safety Committee reviewed and unanimously recommended this action. This program is also consistent with the City's Strategic Operating Plan regarding partnerships.

Pros:

- The State of North Carolina provides the hazardous materials response truck, all response equipment and provides for administrative costs of operating the team. In addition, the state funds extensive training for members of the Asheville Fire Department to enable us to competently handle hazardous materials emergencies.
- The City of Asheville has full use of the truck and all specialty equipment within the City of Asheville. Without the state hazardous materials contract, Asheville taxpayers would need to provide much of the resources necessary to properly respond to emergencies within Asheville. With the contract, we have the advantage of the equipment and resources being funded at the state level, rather than at the local level.
- During the eighteen years that we have provided regional hazardous materials response services, we have not experienced difficulties or disadvantages with the program.
- Firefighter and citizen safety will be enhanced.

Con:

- None have been identified or known at this time.

This contract generates approximately $65,000 in revenue for the City of Asheville which is expended on operating our hazardous materials emergency response program.

City staff recommends City Council authorize the City Manager to enter into the four year contract agreement with the N.C. Dept. of Public Safety to provide regional hazardous materials emergency response for Region 6.

**RESOLUTION BOOK NO. 34 – PAGE 295**

**E. RESOLUTION NO. 12-57 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH SITE DEVELOPMENT CORPORATION INC. FOR THE PATTON AVENUE SIDEWALK PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to execute a contract (and all change orders in the amount of 20% of the contract or $77,000) with Site Development Corporation, Inc. in the amount of $387,307.25 for the project known as Patton Avenue Sidewalk Project, Project # ENG-11-12-005.

A formal request for bids was issued on February 3, 2012, and bids were opened on February 23, 2012. There were a total of 4 bids received with the lowest responsive bidder being a North Carolina based contractor, Site Development Corporation, located in Cliffside, N.C., with an amount of $387,307.25. With the addition of a 20% contingency, the total budgeted amount for this project is $464,307.25. This will be a unit price contract and not a lump sum contract and is part of the City of Asheville's CIP program.

This action complies with the City Council Strategic Operating Plan of Multimodal Transportation in that it will meet the need of increasing the output of sidewalk construction and provide sidewalk in an area that is in need of sidewalk linkage.

Pros:

- Provides a pedestrian linkage by connecting existing sidewalks.
- Will be a step forward in meeting the City's Strategic Plan and current fiscal year CIP goals.
- Is listed as an identified need on the City of Asheville pedestrian plan.

Cons:

- Project management and contract administration will consume staff time and City funds.
- Temporary lane and driveway closures.
- The new construction will increase the maintenance load on the City.

This project is part of the $1.3 million sidewalk construction program that City Council approved as part of the FY 2011-12 Capital Improvement Budget. Funding will come from debt proceeds.

Staff recommends City Council to authorize the City Manager to execute on behalf of the City of Asheville a contract with Site Development Corporation in the amount of $387,307.25 for the project known as Patton Avenue Sidewalk Project, and all change orders in the amount of 20% of the contract or $77,000.

Councilman Pelly spoke in support of sidewalk construction in this area of the City.

**RESOLUTION BOOK NO. 34 – PAGE 296**

**F. RESOLUTION NO. 12-58 - RESOLUTION AUTHORIZING THE MAYOR TO PURCHASE TWO EASEMENTS ACROSS PROPERTY LOCATED OFF ELIZABETH PLACE FOR THE PURPOSE OF IMPLEMENTING PHASE IV OF THE REED CREEK GREENWAY**

Summary: The consideration of a resolution authorizing the Mayor to execute all necessary documents to purchase both temporary and permanent easements across property identified as PIN #s 9649-23-7140 and 9649-23-7067 located off of Elizabeth Place, in the amount of $3,000, for the purposes of implementing Phase IV of the Reed Creek Greenway.

The City needs easements through two (2) contiguous properties in order to obtain the right-of-way necessary to implement the Phase IV of the Reed Creek Greenway. The total size of the permanent easement is 1,130 +/- square feet and the size of the construction easement is also 1,130 +/- square feet. The proposed compensation is based on the current land value per the Buncombe County Tax Assessment, at fifty percent (50%) of value for the permanent easement and ten percent (10%) of value for the construction easement. The joint owners of the parcels, Elizabeth C. Graham and Nancy Nutter, have agreed to accept $3,000 as compensation for the easements needed. The City will pay for all transaction costs associated with the easement.

This action complies with City Council's Strategic Plan in the Multimodal Transportation section, in that it advances a multi-modal transportation plan, which includes greenways. This action also complies with the Asheville City Development Plan 2025 in that it implements the adopted Greenway Master Plan.

Pros:
- Secures critical easements necessary for the completion of Phase IV of the Reed Creek Greenway.
- Increases the City's inventory of park space.

Con:
- Added maintenance costs.

Compensation for easements is $3,000 plus closing costs. Funding for the stated purchase has been allocated by City Council via the FY 11/12 capital budget. City staff will prepare closing documents and perform final closing.

City staff recommends City Council adopt a resolution authorizing the Mayor to purchase two easements (PIN #s 9649-23-7140 and 9649-23-7067) in the amount of $3,000 from Elizabeth Graham and Nancy Nutter for the purposes of implementing Phase IV of the Reed Creek Greenway.

Councilman Hunt spoke in support of these easements for greenway development.

**RESOLUTION BOOK NO. 34 – PAGE 297**

**G. RESOLUTION NO. 12-59 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH KOSTELEC PLANNING LLC TO PREPARE THE LONG RANGE TRANSPORTATION DEMAND MANAGEMENT PLAN**

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Kostelec Planning, LLC. to prepare the Long Range Transportation Demand Management Plan.

Transportation Demand Management (TDM) is the application of policies and strategies that attempt to optimize existing transportation resources and infrastructure by mitigating single occupancy vehicle use in a defined area. TDM programs have the potential to deliver better environmental outcomes, lower parking demands, improved public health, stronger communities, and a more prosperous and livable city.

The TDM program, which was hosted by the City from FY 2005 until FY 2011, focused on promoting alternatives to single occupancy vehicles mainly inside the City limits. The program was funded by the City and the N.C. Dept. of Transportation (NCDOT) with each entity contributing 50% of the needed funds. NCDOT expressed the need to set regional goals to improve the quality of life for the citizens of Western North Carolina by providing education,

support and resources that would enhance and promote alternatives to driving alone. In order to evaluate the adequacy of these goals and to continue the program, the NCDOT wants to perform an analysis, known as the Long Range Transportation Demand Management Plan, which would provide new strategies that would allow transportation demand management to grow accordingly to regional needs.

Due to the regional nature of the study, and as recommended by the NCDOT, the City signed an agreement with the Land of Sky Regional Council of Governments (COG) to manage the study. The Council approved the agreement on August 23, 2011. The Council issued a Request for Proposals (RFP) on November 2, 2011, and it closed on December 30, 2011. Proposals were received from the following firms:

- Martin/Alexiou/Bryson, P.C.
- Kostelec Planning, LLC.
- UrbanTrans North America
- Tindale-Oliver & Associates, Inc.

The proposals were evaluated by a selection committee that included 14 members from different agencies, including the City of Asheville, Western North Carolina Alliance, Buncombe County, Henderson County, the NCDOT, UNC-Asheville, Haywood Community College, the Chamber of Commerce, and staff/members of the Technical Coordinating Committee and Transportation Advisory Committee of the French Broad River Metropolitan Planning Organization. The selection committee individually evaluated and scored the proposals, then combined the scores. The evaluation process took about two months and numerous meetings to ensure that all aspects relevant to the RFP were considered. During the process, the firms were asked to provide additional information to help clarify questions posed by the committee. The firms were evaluated based on their experience, similar projects completed, team qualifications, quality of proposal, and project management plan. This procurement process has followed Federal regulations that apply for professional services contracts and geographic preference is not a factor to be considered.

After careful review and consideration of all the evaluation factors and the information provided, the selection committee recommended Kostelec Planning, LLC to prepare the Long Range Transportation Demand Management Plan.

The total project cost is $99,620. The project will be funded by the Federal Transit Administration in the amount of $79,696 (80%) and the North Carolina Department of Transportation in the amount of $19,924 (20%). The City is not responsible for any of the project cost. The City, as designated recipient, will be responsible for overseeing the use of the project funds according to Federal Transit Administration and NCDOT regulations. The subject task will require staff time that is already budgeted.

This action complies with the City Council Strategic Operating Plan by supporting the fiscal responsibility and green and sustainable focus areas, specifically operating the City of Asheville to the highest levels of fiscal responsibility, leveraging funding from Federal and State agencies; and setting and developing a plan for implementing a community energy reduction goal.

Pros:

- The project will be fully funded by the Federal Transit Administration and the NCDOT.
- The plan will address NCDOT and City of Asheville concerns about the future of the transportation demand management program.
- The plan will provide guidance for future transportation demand management initiatives regarding regional needs.

Con:

- Staff time is needed to oversee the use of the funds.

The total project cost is $99,620. The Federal Transit Administration will provide 80% of the total project cost and the NCDOT will provide the remaining 20%. The City will oversee the use of the funds and will seek reimbursement from both agencies. The budget for the subject project was approved by City Council during January 2011.

City staff recommends that City Council authorize the City Manager to enter into a contract with Kostelec Planning, LLC. to prepare the Long Range Transportation Demand Management Plan.

**RESOLUTION BOOK NO. 34 – PAGE 298**

**H. RESOLUTION NO. 12-60 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A 5-YEAR LEASE WITH DEWINE SEEDS – SILVER DOLLAR BASEBALL, LLC, FOR THE USE OF MCCORMICK FIELD FOR THE OPERATION OF THE ASHEVILLE TOURISTS MINOR LEAGUE BASEBACLL TEAM**

**ORDINANCE NO. 4065 - BUDGET AMENDMENT FOR THE LIGHTING AND PLAYING SURFACE REPLACEMENT PROJECTS; AND TECHNICAL BUDGET AMENDMENT FOR FISCAL YEAR 2011-12 STREET MAINTENANCE EXPENSES**

Summary: The consideration of (1) a resolution authorizing the City Manager to sign a new lease with DeWine Seeds –Silver Dollar Baseball, L.L.C. for the use of McCormick Field for the continued operation of the Asheville Tourists baseball; (2) a budget amendment, in the amount of $390,000, from General Fund pay-as-you-go capital funds for the Lighting and Playing Surface Replacement Projects; and (3) a technical budget amendment, in the amount of $390,000, from debt proceeds for Fiscal Year 2011-12 street maintenance expenses.

On July 1, 2005, the City entered into a 10-year lease with Asheville Tourist Baseball Club, Inc. for the use of McCormick Field to operate a minor league baseball program within the city limits of Asheville. On January 5, 2010, Palace Baseball, L.L.C. entered into an asset purchase agreement with DeWine Seeds – Silver Dollar Baseball, L.L.C. On January 26, 2010, City Council agreed to assign the lease with Palace Baseball, L.L.C. to DeWine Seeds – Silver Dollar Baseball, L.L.C for the continued operation of minor league baseball in the city limits of Asheville.

DeWine Seeds –Silver Dollar Baseball, L.L.C. has been operating the under the original 2005 lease agreement. The City and DeWine Seeds –Silver Dollar Baseball, L.L.C. have been working together to develop a lease with terms that are mutually beneficial for both parties. The current lease agreement calls for the City to provide the following services at a net annual operating cost to the City of approximately $70,000:

| **Current** | |
|---|---|
| Terms | 10 years |
| Annual Lease payment to City | $ 100,000 |
| Annual Capital payment to City | $ 40,000 |

| | **Responsible Party** |
|---|---|

| Current | City | Tourist | Cost |
|---|---|---|---|
| Utilities | X | | $ 92,560.00 |
| Stadium Clean-Up | X | | $ 35,000.00 |
| Playing Field Maintenance | X | | $ 65,000.00 |
| Facility Maintenance | X | | $ 17,000.00 |
| | | | **$ 209,560.00 Annually** |

Under a renegotiated lease, DeWine Seeds – Silver Dollar Baseball, L.L.C would assume responsibility for most operational functions of McCormick Field for baseball operations.

The proposed new terms are as follows:

1. Tourist assumes all operating and staff cost for field and stadium operations
2. Tourist receives all revenue for operations of the stadium.
3. The City will continue to provide building maintenance services for routine maintenance.
4. The City will continue to provide outside landscaping and tree trimming support.
5. The City and DeWine Seeds – Silver Dollar Baseball, L.L.C will develop a separate MOU for the following areas: (a) Facility Naming Rights; (b) Use of Operational Equipment; and © Long Range Capital improvements.

| **Proposed** | | | |
|---|---|---|---|
| Terms | 5 years | | |
| Annual Lease payment | $ 1.00 | | |
| | | **Responsible Party** | |
| **Proposed** | **City** | **Tourist** | **Cost** |
| Utilities | | X | |
| Stadium Clean-Up | | X | |
| Playing Field Maintenance | | X | |
| Facility Maintenance | X | | $ 10,000.00 |
| | | | **$ 10,000.00 Annually** |

Under the new lease agreement, the City's net annual operating cost will be $10,000. Also, as part of the lease agreement, the City commits to capital improvements in the facility according to the schedule below. These investments total $765,000 and will be implemented over the 5-year term of the lease. It is anticipated that these improvements will be funded through General Fund pay go contributions that will be made available by increasing the amount of street maintenance projects that are funded by debt financing. The additional debt service from the streets projects will be approximately equal to the net operating loss under the current agreement.

During the 5-year term of this lease, if other unidentified maintenance issues not outlined below are identified by DeWine Seeds – Silver Dollar Baseball, L.L.C and agreed upon by the City, the below project list will be reprioritized in order to address the new maintenance issues and to stay within the total 5 year investment of $765,000.

| | FY 11-12 | FY 12-13 | FY 13-14 | FY 14-15 |
|---|---|---|---|---|
| Lighting Replacement | 90,000.00 | | | |
| Playing Surface Replacement | 300,000.00 | | | |

| | | |
|---|---|---|
| Clubhouse Renovations | 100,000.00 | |
| Bleacher Replacement | | 275,000.00 |

City Council Finance Committee reviewed the new lease terms on February 28, 2012, and recommended this item to the full City Council.

Pros:

- DeWine Seeds –Silver Dollar Baseball, L.L.C. is committed to keeping minor league baseball in Asheville.
- With the change in the economic climate, this gives the Asheville Tourists and the City an opportunity to make possible changes to a 10-year old lease developed by the previous owner of the Asheville Tourists.

Con:

- None

City will continue to provide Building Maintenance functions such as electrical, plumbing, and HVAC services for the stadium on an as needed basis. The cost is anticipated to be approximately $10,000 per year and will be budgeted in the City's Building Maintenance annual operating budget.

The City will fund the capital projects using General Fund pay-go capital contributions that will be freed up by increasing the amount of streets projects that are funded via debt financing. The additional debt service for the streets projects is anticipated to be approximately equal to the City's current investment in operating the McCormick Field. A budget amendment in the amount of $390,000 is included to appropriate funds for the Lighting and Playing Surface Replacement Projects in the current fiscal year. The other capital projects will be included in the five year CIP that staff presents to Council as part of the FY 2012-13 Budget. A technical budget amendment is also included to move $390,000 in street maintenance expenses to the capital projects fund, where they will be funded with debt proceeds.

Staff recommends City Council adopt (1) a resolution authorizing the City Manager to sign a new lease with DeWine Seeds –Silver Dollar Baseball, L.L.C. for the use of McCormick Field for the continued operation of the Asheville Tourists baseball; (2) a budget amendment, in the amount of $390,000, from General Fund pay-as-you-go capital funds for the Lighting and Playing Surface Replacement Projects; and (3) a technical budget amendment, in the amount of $390,000, from debt proceeds for Fiscal Year 2011-12 street maintenance expenses.

Councilman Davis said that the City owns McCormick Field and as with all its property, we must be good stewards of it. He was happy that the Asheville Tourists are in Asheville to bring quality entertainment to the entire family.

Councilwoman Manheimer said that under this new lease we are shifting several annual reoccurring costs that the City used to be paying and exchange, because McCormick Field is a City-owned facility, we will be making capital improvements. We will issue some debt in order to do that but our debt service payment will be approximately the same as what we were paying under the current lease. She said this is a good partnership for some much needed improvements to the baseball facility.

**RESOLUTION BOOK NO. 34 – PAGE 299**
**ORDINANCE BOOK NO. 27 – PAGE 324**

I. **ORDINANCE NO. 4066 - BUDGET AMENDMENT TO FUND DEMOLITION OF UP TO THREE STRUCTURES THAT HAVE BEEN FOUND AS UNSAFE,**

166

**UNFIT FOR HUMAN HABITATION AND MEET THE DEFINITION OF DILAPIDATED**

Summary: The consideration of a budget amendment using $45,000 from General Fund fund balance to fund demolition of up to three structures that have been found as unsafe, unfit for human habitation, and meet the definition of dilapidated following the City of Asheville Minimum Housing Code process.

The Building Safety Department enforces Article VII of Chapter 4, of the Code of Ordinances, or our Minimum Housing Code. Section 4-217 of the Housing Code outlines a process for remedying defects that may lead to the structure being found unsafe or unfit for human habitation. The Department is responsible for enforcing the State Building Code that references General Statutes, specifically GS 160A-425 through GS 160A-432, the unsafe building statutes.

Complaints on a structure's condition can come from many different sources, such as the tenant, the neighbors, APD, AFD, social services, visible from the road by the inspector, etc. An inspector investigates the complaint. If the structure is occupied the inspector will communicate with the tenant and landlord or owner to correct the items identified. The structures that are vacant, and meet the definition of dilapidated are extremely difficult to bring into compliance. We encourage the owners to demolish the structure and to board the structure to prevent entry as a safety precaution until demolition is completed. Following the Housing Code, or in some cases the General Statutes, dilapidated structures require the owner(s) to demolish or repair within a specified time after an administrative hearing. If the order is not met, City Council can order the structure demolished and place a lien on the property. Once the property is sold, the City is reimbursed for the cost of the demolition and other associated costs such as legal service time. The property taxes are paid prior to the City's lien then any other liens are after those priorities.

Demolition contractor's bids are requested, including the Public Works Department, when the structure and work are within their scope. Over the past four years, staff has taken one commercial structure to Council for demolition and has received payment for that cost. Public Works has demolished one small single-family home where a lien was placed on the property for the costs of the landfill tipping fees and other costs. Demolition costs are fluid based upon many factors. The size, construction type, and if salvageable items are present to lower the cost for the contractor are specific to each structure. If asbestos is present, the cost will go up for the removal or for disposal of the structure in a landfill for hazardous items. Most single-family home demolitions will range from approximately $9,000 to $20,000.

The Building Safety Department must seek Council authorization for demolitions to confirm the process, that the structure meets the definition, and to authorize the funding. Funding for demolitions for at least the last ten years has come from Fund Balance. All proceeds from the lien upon the property selling are returned to Fund Balance. The Building Safety Department has several locations where the structure meets the definition of dilapidated. Our efforts have been concentrated on seeking the owners to correct the situation, collaborating with other organizations and the owner to remove or repair the structures, and to not begin the process to require Council to order the structure demolished unless all other avenues have been exhausted. We now have several single-family homes and one commercial structure that we have had no success in remedying the dilapidated conditions. Once these structures follow the legal process they will individually come back to City Council for authorization.

This action complies with the City Council Strategic Operating Plan goal to support the creation and preservation of affordably and home ownership opportunities in Asheville so that all citizens have access to safe, sufficient and affordable housing.

Pros:

- The removal of an unsafe and dilapidated structure from the community ensures that communities do not have structures that would allow children and others to enter and potentially be injured.
- Increases the appeal and potentially the tax value of the neighboring properties by the removal of a dilapidated structure.

Cons:

- The payback of a lien is an unknown time duration based upon the sale of the property.
- May impact the June 30, 2012 General Fund fund balance.

Staff is recommending that Council appropriate $45,000 from General Fund fund balance for the cost of these demolitions. As noted above, all proceeds received from the lien upon the property selling will be returned to fund balance.

City staff recommends City Council approve the budget amendment in the amount of $45,000 from General Fund fund balance to fund demolition of dilapidated structures.

**ORDINANCE BOOK NO. 27 - PAGE 326**

**J. ORDINANCE NO. 4067 - BUDGET AMENDMENT TO APPROPRIATE PARKING FUND FUND BALANCE TO PROVIDE AN EQUITY CONTRIBUTION TOWARD THE CONSTRUCTION COSTS FOR THE BILTMORE AVENUE PARKING GARAGE**

Summary: The consideration a budget amendment to appropriate $3.0 million from the Parking Fund fund balance to provide an equity contribution toward the construction costs for the Biltmore Avenue parking garage (formerly referred to as 51 Biltmore).

Construction of the new parking garage at Biltmore Avenue, which is approximately 90% complete, is ahead of schedule and on budget. The current budget for this project is $14.1 million, with funding coming entirely from debt proceeds. As reported to Council this past November as a part of the FY 2010-11 Comprehensive Annual Financial Report (CAFR) presentation, the Parking Fund ended FY 2010-11 with available fund balance of approximately $3.35 million more than the established target level.

Staff is recommending that Council appropriate $3.0 million from Parking Fund fund balance to provide an equity contribution to the Biltmore Avenue Parking Garage project. This action will reduce the amount of funds that need to be borrowed to approximately $11.1 million. Staff estimates that reducing the amount of the loan proceeds by $3.0 million will save approximately $1.2 million in interest costs over the life of the loan.

This action complies with the City Council Strategic Operating Plan goal to "Operate the City of Asheville to the highest levels of fiscal responsibility."

Pros:

- Reduces the amount of funds borrowed for the Biltmore Parking Garage Project, thereby reducing the amount of interest costs over the payback of the loan.
- Lowers the annual debt service payments, which creates greater flexibility in the Parking Operating Fund budget.

Con:

- None.

This $3.0 million appropriation will leave the Parking Fund with an available fund balance of approximately $500,000. The target level fund balance for the Parking Fund (8% of the fund's operating budget) is $151,622.

Annual debt service payments for the Biltmore Avenue Parking Garage will be reduced as a result of the proposed equity contribution. For example, staff estimates that the first year of debt service payments will go down from $ $1,140,515 to $ 889,760. This adjustment will provide greater long-term flexibility in the Parking Fund's annual operating budget.

City staff recommends City Council approve the budget amendment to appropriate $3.0 million from the Parking Fund fund balance to provide an equity contribution toward the construction costs for the Biltmore Avenue parking garage.

**ORDINANCE BOOK NO. 27 – PAGE 328**

**K. RESOLUTION NO. 12-61 - RESOLUTION APPOINTING ESTHER CARTWRIGHT TO THE RIVER DISTRICT DESIGN REVIEW COMMITTEE**

Summary: Rod Baird is one of two members of the RiverLink Board of Directors appointed to serve on the River District Design Review Committee. Mr. Baird no longer serves in that capacity, thus leaving an unexpired term until September 1, 2013. RiverLink has requested City Council to appoint Ms. Esther Cartwright, who is a seated Board member, to fill out Mr. Baird's term.

**RESOLUTION BOOK NO. 34 – PAGE 300**

**L. RESOLUTION NO. 12-62 - RESOLUTION AMENDING THE 2012 CITY COUNCIL MEETING SCHEDULE TO INCLUDE A WORKSESSION ON TUESDAY, MARCH 27, 2012, AT 3:30 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM OF CITY HALL**

**RESOLUTION BOOK NO. 34 – PAGE 301**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Hunt moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Pelly and carried unanimously.

## III. PRESENTATIONS & REPORTS:

**A. ASHEVILLE-BUNCOMBE COMMUNITY RELATIONS COUNCIL UPDATE**

Dr. Larry McCallum, Chairman of the Board of Directors of the Asheville-Buncombe Community Relations Council (CRC), was pleased to introduce their new Executive Director Sarah Nunez. He said that are working on transparency for the governance and operation of the Council.

Ms. Nunez outlined many changes they were making as an organization to move forward. Regarding inclusion (1) they will conduct a listening tour, (2) reconnect with communities; (3) do outreach; and (4) have bilingual staff and volunteers. Accountability will include deliverables, data collection and an Audit Committee from the Board of Directors. Sustainability will include strategic planning, diversify funding, and board development. Vision will

include (1) programs that align with their mission; (2) have a broad appeal to all citizens of Asheville and Buncombe County; (3) build trust; and (4) build respect.

Dr. McCallum and Ms. Nunez responded to various questions/comments from Council, some being, but are not limited to: will the services and the programs be similar to what has been offered in the past and will they offer any new services; is Buncombe County committed to funding the CRC and at what level; has the community been bringing the CRC fair housing concerns and if so, how is the CRC handling those concerns; approximately how many fair housing referrals are made weekly; what types of data will be collected; what is the purview of the Audit Committee; what is the CRC's perception of the needs of the community; and how does the CRC hope to affect change in eliminating discrimination in our community.

Mayor Bellamy suggested Ms. Nunez provide Council with their Strategic Operating Plan, showing their benchmarks going forward.

Mayor Bellamy thanked Dr. McCallum for his work on the CRC and Ms. Nunez for the hard work she has accomplished since recently been appointed Executive Director.

**B. EBLEN TOY RUN**

Mr. Bill Murdock, representing the Eblen Toy Run, and Mr. Steve Kaser, representing Smoky Mountain Town Run, presented City Council with a certificate of appreciation for their support for the Smoky Mountain Toy Run. The Eblen St. Nicholas Project stated 15 years ago with 12 children being assisted at Christmas. Two years ago they assisted 325 children and now through partnership like the City of Asheville, last Christmas they assisted 6,000 children. Mayor Bellamy, who invited Building Safety Director Robert Griffin and Police Chief William Anderson to accept the Certificate with her, was pleased to accept it on behalf of the City of Asheville.

**C. QUARTERLY REPORTS**

**Finance Committee Chair Report**

Vice-Mayor Manheimer, Chair of the Finance Committee, updated Council the progress and achievements made by the Finance Committee during the second quarter of the fiscal year.

**Planning & Economic Development Committee Chair Report**

Vice-Mayor Manheimer, Chair of the Planning & Economic Development Committee, updated Council on Committee actions through the second quarter of our fiscal year (October through December, 2012).

**Public Safety Committee Chair Report**

A report submitted by Councilman Bothwell, Chairman of the Public Safety Committee, was provided to Council on some major accomplishments during this quarter.

At the suggestion of Mayor Bellamy, it was the consensus of Council to ask that the Public Safety Committee look for an opportunity to name an existing or future piece of City-owned property in memory of our fallen firefighter Capt. Jeffrey Bowen, along with a policy for any employee who loses their life on the job.

**Strategic Operating Plan**

Assistant City Manager Jeff Richardson said that the Asheville City Council identified short and long term goals at the February, 2011, strategic planning retreat and staff is providing its quarterly updates on progress of the five key focus areas.

170

City Council asked City staff to provide quarterly updates on key strategic initiatives associated with the five primary focus areas of the City's Strategic Plan. Staff has tracked projects using performance indicators and measurements through the Fiscal Year 2011-12.

This report outlines key operational updates during the first and second quarters of our fiscal year (July 2011 – December 2011).

*Affordable*

- Affordable Housing Fee Rebates: As part of an effort to make housing in Asheville more affordable, the Water Resources Department administers an Affordable Housing Rebate Program. This program provides a 50% rebate on water fees if the constructed house or apartment meets the definition of "affordable". During the first two quarters of this fiscal year, there have been 43 rebates, totaling $59,805. This is a notable increase from the same quarters of the previous fiscal year: $27,935.

- Community Development: Through the first two quarters of this fiscal year, there were 163 new affordable housing units produced, which included 31 new home ownership units and 132 new affordable rental units. A total of 50 housing units were preserved through repair or rehabilitation. Twenty four households became first time home buyers with HOME and CDBG assistance; 179 households received rental assistance, which helps prevent instances of homelessness.

- Temporary Use Amendment: This amendment expands the temporary use standards to allow food vendor sales on institutional properties in residential districts. This would allow a small produce vendor to set up on a church or school property in neighborhoods where they may be able to better reach underserved communities. This amendment also seeks to address an enforcement disparity by requiring permits for certain temporary uses in commercial areas.

- Sign Code Amendment: This is a collection of miscellaneous amendments designed to update the standards to address changing practices and businesses. This amendment includes increased signage options for special events, campaign signs, temporary signs, development signs, and strengthens standards for digital billboards.

*Fiscal Responsibility*

- Automated Meter Reading Project: The installation of automatic water meter devices began in the first quarter of fiscal year 2011. To date over 28,000 total devices have been installed (50% of all City meters). The cost to this point is $5 Million, which included the new meters, the reading devices, labor and other miscellaneous materials.

- Diversity in Revenue Stream: Wrist bands sold during events at the U.S. Cellular Center generated $100,000 of new revenue during the first two quarters of this fiscal year.

*Job Growth and Community Development*

- Workforce Development: (City Health Clinic Expansion) The City has made considerable strides in attracting and retaining quality employees. The City Health Services Clinic has opened its new location at 155 Biltmore Avenue, with one part-time Physician Assistant hired. Through the direction of City Council, staff assembled a Blue Ribbon Healthcare Task Force to learn more about employee benefits and provide recommendations for benefits during the current fiscal year. As consistent with those recommendations, healthcare costs sharing has been implemented, as well as a health premium differential for participation in the wellness program.

(Youth Development)
At a time when more than 70 percent of teenagers are unemployed, the City of Asheville Youth Leadership Academy (CAYLA) is committed to investing in youth and expanding available opportunities for them to succeed. Each spring, 30 students at Asheville High School are selected for CAYLA. In addition to volunteer projects and group workshops, these students are placed in diverse work environments, to include nine City departments and a growing array of local businesses and nonprofit agencies. To date, 100% of CAYLA graduates have been accepted to college (with 93% currently attending); participants have received over $500,000 in merit scholarships (not including Pell Grants); over 2,000 hours of community service have been completed since 2007.

(Staff Training)
Lastly, there has been a coordinated effort to provide high quality trainings to City staff. In total, staff and outside consultants provided 61 classes to 477 attendees during the first and second quarter of this fiscal year. Examples of trainings include sessions on the City's Core Values (e.g. ethics and diversity), policy-specific sessions (e.g. workplace harassment), leadership and time management.

- Downtown Development: The public-private partnership of Aloft Hotel (51 Biltmore Avenue) is approximately 85% complete, slightly ahead of schedule and on budget.

- Limited Fees: Staff continues to support business by limiting taxes, fees and regulations. During the first two quarters of this fiscal year, 52% of all parking citations in the central business district were warnings.

- Homeless Initiative: During the last two years, this initiative prevented or ended homelessness for 669 people in 320 households. Since January 2011, over 400 people accessed permanent, supportive housing.

- Community Center: As the first Asheville community center opened since the Montford Center in 1974, the new Dr. Wesley Grant Sr. Southside Center recognizes a great local leader and an historic cultural neighborhood. This is the City's first LEED Certified building and staff is currently applying for LEED Platinum status. Additionally, proceeds from the recent sale of the Reid Center will be invested in the next phase of the Grant Center.

- Development Rebates and Permits: City Council approved the use of *Change-out Rebates* during the 2009 fiscal year. These allow residents over the age of 65 to receive a rebate when contracting work on a single family home. There have been 23 rebates issued this fiscal year, totaling $1,150.

  Lastly, the table below outlines permitting activity during the first two quarters of the previous three years.

| | **July - Dec 2009** | **July - Dec 2010** | **July - Dec 2011** |
|---|---|---|---|
| Single Family | 94 | 108 | 94 |
| Multi Family | 1 | 17 | 14 |
| Townhouses | 72 | 27 | 12 |
| Duplexes | 0 | 0 | 0 |
| Commercial | 30 | 31 | 22 |
| Residential Additions/Alterations | 556 | 641 | 430 |
| Commercial Additions/Alterations | 707 | 1007 | 799 |

| | | | |
|---|---|---|---|
| Mobile Homes | 7 | 5 | 1 |
| | | | |
| Total Building Permits Issued | 1467 | 1836 | 1372 |
| **Total Valuation of Permits** | **$116,694,831** | **$111,010,090** | **$93,788,009** |

*Green and Sustainable*

- Technological Efficiencies: The City of Asheville's green PC & data center reduction project reduced energy consumption while preserving a high level of service to customers. Through a large-scale computer upgrade project, the City is expecting to realize a 72% - 82% reduction in computer energy use.

  The first phase of the initiative downsized and modernized the City's 20-year-old data center through a combination of virtualization and cloud computing adoption. The second, concurrent phase, changed the way that the City handled PC desktops in two ways: sizing, and auto-shutdown.

- LED Streetlight Replacements: The City is currently in the second phase of LED streetlight replacements. This phase includes replacing streetlights in the Kenilworth neighborhood (100% complete), West Asheville (95% complete) and parts of Oakley (starting in mid March). To date, there have been 3,200 streetlights installed.

- Public Transit: When compared to the previous fiscal year, there has been a 9.8% reduction in fuel usages (approximately 21,700 gallons). This is largely due to the addition of five new buses, an effort to reduce idling, the streamlining of bus stops, eliminating the Weaverville route and merging two existing routes.

*Safe*

- Nuisance Court: As you can see from the table below, there has been a considerable increase in Nuisance Court activity when compared to the same quarters of the previous fiscal year.

| | **July - Dec 2010** | **July - Dec 2011** |
|---|---|---|
| New Cases | 114 | 189 |
| Community Service Hours Completed | 1,258 | 3,222 |

- Graffiti: The City's graffiti program currently consists of 30 individuals, each doing one month of community service through the Nuisance Court. Their daily outings focus on downtown, public property. In addition to sidewalk cleaning and trash pickup, this program removed 4,236 graffiti tags during the first two quarters, up from 3,318 compared to the same quarters of the last fiscal year.

- Americans with Disabilities Act (ADA) Compliance: The Public Works Department continues to install and maintain ADA measures in public right-of-ways. During the first two quarters of this fiscal year, 27% of all known ADA issues were addressed.

- Community Programming: The Parks, Recreation and Cultural Arts Department offers a variety of community programs that are safe, well maintained and affordable. Seven programs focus specifically on at-risk youth:

  School-age Child Care Program
  Therapeutic Recreation Program
  Center Afterschool/Teen Program
  Outdoor Adventure
  Youth Athletics

Aston Tennis Youth Programs
Skatepark Youth Programs

During the first and second quarters of the fiscal year, these programs have provided 6,111 service hours to 4,690 participants (cumulative participation).

- Gang Violence Prevention Programs: Gang Violence Prevention Grants continue to be used for anti-gang programs in the community. During the second quarter of this fiscal year, 416 hours of programming was completed, reaching 211 youth in four schools.

*Multimodal Transportation*

- Sidewalks: As the table below reflects, sidewalk repairs have grown substantially when compared to the previous fiscal year. Sidewalk installation during the 2010 fiscal year is relatively large due to increased financial resources through American Reinvestment and Recovery funds.

| Sidewalk (Linear Feet) | July - Dec 2010 | July - Dec 2011 |
|---|---|---|
| Repaired | 728 | 1,479 |
| Installed | 4,934 | 2,585 |

- Multimodal Mapper: Staff has worked to leverage existing funds in pursuing pedestrian and bike friendly community opportunities. The Multi-Modal Mapper "Active Mapper" is now available to citizens at http://gis.ashevillenc.gov/mapAsheville/activemapper. This simple webGIS application allows users to easily locate features such as sidewalks, greenways, multiuse paths and bicycle lanes.

- AT&T Surface Parking Lot: The City opened a new 45-space parking lot on O.Henry Avenue, on the AT&T property. The lot is leased from AT&T for five years and is equipped with solar-powered multi-space meter machines. This significantly increases our ability to address the parking concerns in the Grove Arcade area.

City Council has asked for an activity report on a quarterly basis of the Domestic Partner Registry. Since the Registry began on May 2, 2011, a total of 31 couples have registered.

This information is to update City Council on key operational initiatives specific to the Strategic Operating Plan. No action is necessary at this time.

Upon inquiry of Mayor Bellamy, City Manager Jackson said that we have been experiencing an increase of graffiti on private property, which is beyond our influence to remove quickly. He suggested Chief Anderson work with the Public Safety Committee to evaluate past policies, current directions and the effectiveness of not only what we are doing, but look to see if there are other new trends. Mayor Bellamy said that we should involve the community as there have been community members who have expressed a desire to be part of the solution, in particular Mr. Carr with Tops for Shoes.

City Manager Jackson briefly updated Council on his recent trip to a National League of Cities Committee meeting. In summary, Council should be proud of the goals they have set in making Asheville sustainable and vibrant.

**Financial Report**

Budget Manager Tony McDowell provided Council with the following financial information which reflects the City's overall financial position for the fiscal year through December, 2011.

***Amendments.*** The General Fund budget presented in the second quarter report reflects: (1) the adopted budget of $87,645,955; (2) a technical amendment adjusting the fleet external charge budget, and; (3) seven budget amendments totaling $660,803, none of which involved an appropriation from fund balance.

| | |
|---|---|
| Adopted Budget | 87,645,955 |
| Fleet Technical Change | (1,221,594) |
| Budget Amendments: | |
| NCDENR Park Recycling Bin Grant | 30,000 |
| NC Arts Council Grassroots Arts Grant | 49,850 |
| Buncombe County/Changing Together Partnership | 63,000 |
| Debt-Funded Purchase of Computer Equipment | 350,000 |
| State Haz-Mat Grant | 25,000 |
| Federal COPS Hiring Grant | 118,543 |
| State Senior Opp. Center/Harvest House Grants | 24,410 |
| 12/31/2011 Budget | $87,085,164 |

***Revenues.*** Through December 30, 2011, the City has collected $50,756,337 in General Fund revenue, which represents approximately 58.3% of the total General Fund revenue budget. Revenue collections through the first six months are almost identical to collections at this same point in the previous fiscal year. Staff received property tax data from Buncombe County in January that showed that the FY 2011-12 tax levy grew by only 1.3%. As a result, staff has revised downward the property tax revenue estimate for the current year. Sales tax revenue is on track to exceed budget. Staff projects that state utility tax revenue and several other smaller revenues will fall short of budget in the current year based on FY 2010-11 actuals. Overall, staff is currently estimating that ***total FY 2011-12 General Fund revenue will come in under budget by $580,000 or 0.67%.***

***Expenditures.*** General Fund expenditures through December 31, 2011 total $40,102,673 or 46.0% of the budget, which is typical for this point in the fiscal year. Fuel expenses continue to run ahead of where they were one year ago and are expected to have an impact on the budget. In addition, Fire Department overtime expenses are running ahead of budget. Fuel and overtime costs will likely require technical adjustments in the FY 13 budget to reflect actual expenditures. ***Savings in other areas of the budget, such as full time salaries and utilities, are expected to offset the projected over expenditures in fuel and fire overtime. Staff also continues to seek opportunities to generate additional savings by closely monitoring expenses and by maximizing efficiency in operations. Staff anticipates being able to generate the necessary expenditure savings to fully offset the minor revenue shortfall.***

***Fund Balance.*** The City ended FY 2010-11 with available fund balance of $13.18 million, which equated to 15.2% of FY 2010-11 expenditures. ***FY 2011-12 available fund balance is expected to remain at 15.2% of estimated expenditures.***

In response to Councilman Smith, City Manager Jackson said that staff will provide Council with the information on where the vehicle replacements are being made and the percentage that are hybrid and alternative fuel.

Councilman Smith spoke in support of the big box van that was converted into a mobile art lab for the community. It has served thousands of people in its first year and has been one of the most cost effective successful popular programs we've ever seen come out of the Parks, Recreation and Cultural Arts Department.

**D. TRANSIT MARKETING PLAN UPDATE**

Transit Manager Mariate Echeverry provided Council with a Transit Marketing Plan update regarding the effects of gas prices in transit. Considerations taken in account should be the transit operations, measures to offset the cost, and how to help the community. She showed a graph of the rise in fuel costs from $1.23 in 2003 to $3.79 in 2011. She said that there has been a 4% increase in ridership from July 2011 through January 2012.

Measures to offset the cost include (1) fleet changes (a) addition of five hybrid buses to the fleet (March 2011); and (b) nine more buses are coming in November 2012; and (2) route efficiency (a) elimination of Weaverville route; (b) merging of Route 28 and 29 in new 170; (c) merging of route 3 with 52; (d) streamling bus stops; and (e) reducing idling.

We can help the community by setting up Park and Rides along transit routes; partner with larger employers to educate their employees about transportation choices; create a card with basic transit information, as well as bike and pedestrian information; use the Transit Master Plan implementation campaign to reach out to people; use social media to community the benefits of riding the bus; partner with Buncombe County TV; sponsor bike classes; offer bike and pedestrian trip planning (Google maps); promote carpooling: Share the Ride NC; Promote Strive Not To Drive; and create a pamphlet related to vehicle maintenance to conserve fuel.

Councilman Hunt felt that Council should pay particular attention to the marketing component of the transit budget.

In response to Councilman Smith, Ms. Echeverry explained the several funding partnerships in acquiring hybrid buses.

Councilman Smith, liaison to the Transit Commission, was pleased to announce the new Chair of the Transit Commission Julie Mayfield and briefly explained the new route structure.

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING TO CONSIDER AMENDING THE UNIFIED DEVELOPMENT ORDINANCE REGARDING A REDUCTION TO THE SQUARE FOOTAGE THESHOLD THAT TRIGGERS A MAJOR WORKS DESIGN REVIEW BY THE RIVER DISTRICT DESIGN REVIEW COMMITTEE

**ORDINANCE NO. 4068 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE REGARDING A REDUCTION TO THE SQUARE FOOTAGE THESHOLD THAT TRIGGERS A MAJOR WORKS DESIGN REVIEW BY THE RIVER DISTRICT DESIGN REVIEW COMMITTEE**

Urban Planner Nate Pennington said that this is the consideration of an amendment to the Unified Development Ordinance regarding a reduction to the square footage threshold that triggers a major works design review by the River District Design Review Committee (RDDRC). This public hearing was advertised on March 2 and 9, 2012.

Development in the area identified as the River District has increased in the past few years. New construction, demolitions and redevelopment are transforming an area once known for industry and manufacturing into a vibrant area of mixed uses in and surrounding the well established River Arts District – home to a number of thriving artist's studios and galleries.

With all the new activity, concern has been raised by the RDDRC that the existing square footage threshold for major works review is too large. The most recent concern relates to a newly constructed building on the old Long John Silvers site at 14 Swannanoa River Road. It was under the threshold for review by the Committee (Zoe's Kitchen is 2704 square feet) and thus the RDDRC did not have an opportunity to provide comments to the developer. RDDRC review of new structures is limited to those of 5,000 square feet or more. Smaller structures are reviewed

at a staff level as a minor work, although the staff only has the ability to refer to and make suggestions from the River District Design Review Guidelines. Because the RDDRC believes it would be helpful for the City and for developers in the River District to have the benefit of their reviews, they have proposed the expansion of their review to smaller structures and for a larger geography that includes zoning other than River District. The RDDRC is not, however, proposing to change their directive for mandatory review, but voluntary compliance program.

The RDDRC recommended that the threshold for major works review be lowered to 500 square feet. The original recommendation also included a request to expand the geographical review area; however, consideration of this request has been postponed until the City has implemented the new permitting software and tracking the review area can be more effectively performed. The proposal for the reduced review threshold was presented to the Asheville Area River Redevelopment Commission (AARRC) on November 10, 2011 and the Council's Planning and Economic Development (PED) Committee on November 15, 2011. While both generally supported the rationale for the changes, the PED Committee expressed a concern that the proposed 500 square foot threshold is too low and will subject too many small projects to a required review by the RDDRC. Both groups also supported delaying the consideration of the geographical change until the new software can be implemented (Fall/Winter 2012). Implementation of that change would be very difficult for the staff until the new computer software is available.

The Planning and Zoning Commission reviewed this request at their January 4, 2012, meeting. After hearing a presentation and recommendation from staff that the amendment be approved at a 1,500 square foot threshold, discussion ensued amongst the members regarding an appropriate square footage threshold for major works review. A motion was made to reduce the square footage threshold for major works design review from 5,000 square feet to 1,500 square feet. This motion was seconded but failed on a 3-4 vote. After further discussion, a new motion was made to reduce the threshold to 2,500 square feet. This motion was seconded but also failed on a 3-4 vote. As a result, the proposal is carried forward to the Council without support from the Planning and Zoning Commission.

This proposal does not directly relate to the goals outlined in the City Council Strategic Operating Plan but is most closely aligned with the goal for "job growth and community development" by balancing business needs with community needs and concerns.

Pros:

- Provides opportunity for additional input related to design review for new construction that would have previously been reviewed on a staff level.
- Provides for a more consistent design style in the river district.

Con:

- Subjects smaller projects to formal design review and will require more staff resources for a more complex review process.

Increased review times for projects now deemed as major works would be likely, although the amount of additional staff time needed is expected to be relatively modest.

The Planning staff shares the concern of the PED Committee regarding the 500 square foot threshold. As an alternative, the staff recommends a 1,500 square foot threshold along with an exemption for accessory structures (decks, etc.) and additions to a building primarily occupied by mechanical, electrical and communications equipment (elevator/stairway shafts, HVAC, etc.). Approval of the change to a 1,500 square foot threshold is recommended.

Mayor Bellamy opened the public hearing at 6:31 p.m.

Mr. Terry Meek, Chair of the RDDRC, explained how it would be helpful for the City and for developers in the River District to have the benefit of their reviews. The RDDRC believes that

the mandatory review but voluntary compliance is still the best approach. They do not want to saddle development with any undue delays or unnecessary additional costs, but they see their review as an opportunity to have more eyes on the project and be proactive. He then gave the Commissioners a brief report on the requested revisions to the geographical review area. He requested Council approve both the reduction in the square footage threshold and the geographical change.

Rev. Christopher Chiaronmonte said that this amendment will only allow the City more control.

Mayor Bellamy closed the public hearing at 6:44 p.m.

Mayor Bellamy said that staff's report at this time is for the reduction on the square footage issue and felt it would be appropriate for them to bring back a separate report on the geographical change once the new computer software is available.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Davis moved for the adoption of Ordinance No. 4068 reducing the square footage threshold that triggers a major works design review by the RDDRC to 1500 sq. ft. along with an exemption for accessory structures (decks, etc.) and additions to a building primarily occupied by mechanical, electrical and communications equipment (elevator/stairway shafts, HVAC, etc.). This motion was seconded by Councilman Smith and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 330**

It was the consensus of Council to consider the New Business items prior to the Unfinished Business item.

**V. NEW BUSINESS:**

**A. BOARDS & COMMISSIONS**

Regarding the Board of Adjustment, the following individual has applied for the vacancy: Dimi Kulakov. Because there are two alternate openings and one applicant, it was the consensus of Council to re-advertise in two months.

Regarding the Homeless Initiative Advisory Committee, the following individuals have applied for a vacancy: Debbie Metcalf, Micheal Woods, Michael Akers, Timothy Sadler, John Spears and Charles Barber. It was the recommendation of the Boards & Commissions Committee to re-advertise in two months.

Regarding the Community Relations Council (CRC), the City has four appointments to make, including one possible reappointment of Mike Hahn. The following individuals have applied for a vacancy: Charles Rosenblum, Kathryn Liss, Itiyopiya Ewart, Rachael Tanksley-Russell, Francis Dibari, Melissa Blazen and Carol Rogoff Hallstrom. The CRC recommended Council appoint Charles Rosenblum, Rachael Tanksley-Russell and Francis as they feel those folks will bring the skills and gender to balance the Board. It was the consensus of Council to interview Charles Rosenblum, Rachael Tanksley-Russell, Francis Dibari, Kathryn Liss, Itiyopiya Ewart, Carol Rogoff Hallstrom and Mike Hahn on April 24 (taking into consideration the recommendations by the CRC) after Council reviews the CRC's Strategic Operating Plan. Ms. Sarah Nunez, Executive Director of the CRC, explained that their Strategic Operating Plan will not take place until next fiscal year and hoped that Council would appoint members as soon as possible they need leadership to help guide the CRC.

## VI. UNFINISHED BUSINESS:

### A. UPDATE ON SENATE BILL 183 (SELECTIVE VEGETATION REMOVAL)

Due to a conflict of interest, Councilman Davis moved to recuse Vice-Mayor Manheimer from participating in this matter. This motion was seconded by Councilman Hunt and carried unanimously. At this time, Vice-Mayor Manheimer left the Chamber.

City Attorney Oast said that since the Council meeting of February 28, 2012, he has received and reviewed several documents regarding the new law allowing removal of vegetation in front of and around billboards, and have had several discussions with attorneys and others interested in this issue.

**I. Brief History and Effect of Law:**

A. Senate Bill 183 was adopted by the General Assembly this summer (N.C. Sess. L. 2011-397). In essence, that law allows for expanded "cut zones" in front of outdoor advertising signs (billboards) along some State controlled roads. The law also provides for non-removal of certain species of trees, and for replanting.

B. Pursuant to the law, temporary rules were to be promulgated by the North Carolina Department of Transportation to administer the SVR process. These rules became effective on March 1. On and after this date, billboard owners may apply for SVR permits.

C. Municipalities have the ability under the law to review and comment on SVR permit applications within their jurisdiction. Asheville has requested the local district office of the DOT to make SVR applications available for the City's review.

**II. What is Occurring Locally:**

A. DOT has issued temporary rules; we have obtained a copy of them.

B. In conversations with other cities, and the League of Municipalities, we have learned of some issues to be aware of in our review of these SVR permit applications. These conversations are continuing.

C. City Planning, Transportation, and Legal staff have met to review which roads are affected by the new law.

D. City staff will soon be meeting with local DOT staff to ensure consistent understanding of which roads and signs are covered by the new law and the process by which the City will be notified and allowed to express any comments on the SVR permit applications.

E. 15 SVR permit applications have been received for signs in Buncombe County; three of those are located in the City's jurisdiction.

**III. Lawsuit Challenging New Rules:**

A. On February 29, a lawsuit was filed by Scenic NC, Inc., through the Duke Environmental Law and Policy Clinic.

B. The basis of the legal challenge is that DOT did not follow the proper process in developing and promulgating the new rules, including inadequate notice and some other procedural issues. There were no hearings locally.

C. So far, no cities have signed on as plaintiffs in this matter. Some of the sign companies have been allowed to intervene. A temporary restraining order was applied for, but was not allowed. In part, this was because DOT did not plan to issue SVR permits immediately, but the permits will issue soon.

**IV. Issues in Need of Further Review:**

A. Clarify which roads and signs the new law applies to.

B. Clarify whether the new law applies within the extraterritorial jurisdiction.

C. Review and understand the new rules.

He said that we continuing to research and review this matter, and to discuss the issues with the Duke Environmental Law and Policy Clinic, the League of Municipalities, and representatives of other cities.

He said that Scenic NC has requested for Asheville for assistance, which may come in the form of intervention in the civil action as a party. He felt that any further discussion should be in closed session.

Ms. Judy Mattox, Chair of the local Sierra Club, provided Council with a copy of "Civil Bill of Costs" and a letter dated March 13, 2012, from Ryke Longest, Director of Duke Law, to City Attorney Bob Oast, which reads "Thanks so much for your interest in intervening in the litigation initiated by Scenic NC against the N.C. Department of Transportation (ND DOT) regarding the temporary rules that were made effective March 1, 2012. NC DOT and the Outdoor Advertising Association have asked the Court to dismiss our lawsuit altogether at a hearing currently scheduled for March 19, 2012. If the City wants to intervene and be heard on the NC DOT's Motion to Dismiss, time is running out. If there is a need for more time for the City to file, I will need to file a motion to continue the Hearing by Thursday afternoon at the latest. If the City decides that it intends to seek to intervene, I will be happy to seek a continuance of the Hearing. I will need to get a letter from you addressed to me asking me to see a continuance for that reason. I would need such a letter by Thursday at noon sent to me and then I would file a Motion for Continuance before 5:00 on Monday, attaching the letter to my Motion." She urged Council to intervene. She said the costs would be $200 cost to file a complaint and attorney fees. If you lose the case you may be asked to share in the court costs, which they felt would be under $1,000. She said there are 200,000 trees in our state that are at risk.

At this time, Vice-Mayor Manheimer re-entered the meeting and continued to participate.

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Mr. David Garver supported the Asheville Values Assessment and urged Council to bring greater public awareness to the issues raised in the report, and for Council to become even more a leader in environmental responsibility. Mayor Bellamy said that she would make arrangements for Council to receive a copy of the report.

Rev. Christopher Chiaronmonte was concerned with the way Asheville has treated the homeless.

Mr. Carl Silverstein, Executive Director of Southern Appalachian Highlands Conservancy, felt that since the conversation easement on the watershed property was adopted over 16 years ago, there have been some innovations on easements that improve the practice of stewardship of properties. He asked that Council be open to amending the easement. It was the consensus of Council to refer this to the Planning & Economic Development Committee for review.

Ms. Judy Strong felt that discretionary activities such as baseball and the golf course should be self-sustained.

Councilman Davis urged the community to support the UNC-Asheville Men's Basketball Team in their play-offs this week.

Councilman Davis thanked all the community volunteers, sponsorships, Economic Development Director/Civic Center Director Sam Powers, the Sports Commission, UNC-Asheville, staff at UNC-Asheville, staff at the US Cellular Center, City staff, and everyone associated with the Southern Conference. He said it was a very successful weekend from an economic standpoint and from a civic standpoint. Mayor Bellamy was also pleased and thanked the team of people who volunteered, including all the assistance from the Asheville Independent Restaurant Association. She was very pleased with the renovations of the US Cellular Center.

Councilman Smith mentioned that a report recently came out ranking the Asheville Metropolitan Statistical Area as third in the nation for food hardship. He pointed out that the Asheville Metropolitan Statistical Area consists of Madison, Buncombe, Haywood and Henderson counties – a broad number of governments, people and systems. The Asheville-Buncombe Food Policy Council has been putting together policy suggestions which they hope will be a parallel process with the Food Council so we can take a comprehensive look at this and come up with some solution.

**Closed Session**

At 7:30 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: Scenic NC Inc. and the N.C. Dept. of Transportation. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); (2) To discuss matters relating to the location or expansion of industries or other businesses in the area served by the City Council, including agreement on a tentative list of economic development incentives that may be offered in negotiations, provided that any action authorizing the payment of economic development incentives will occur in open session. The statutory authorization is contained in G.S. 143-318.11(a)(4); and (3) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 8:30 p.m., Councilman Smith moved to come out of closed session. This motion was seconded by Councilman Hunt and carried unanimously.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 8:30 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – March 27, 2012 – 3:30 p.m.
First Floor North Conference Room

Worksession

Present: Vice-Mayor Esther E. Manheimer, Presiding; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Terry M. Bellamy

**General Fund Operating Budget**

Director of Finance & Management Services Lauren Bradley reviewed with Council the budget process calendar; General Fund Revenues, 10-year property tax rate trend; and General Fund Expenditures. She pointed out other financial presses that (1) Asheville supports a larger population than its residential population suggests; (2) slow economic recovery; (3) limitations on annexation; and (4) limited opportunity to diversity revenue sources. Ongoing opportunities include (1) opportunities to promote urban scale, infill growth; (2) continuing to provide high quality public services that support a high quality of life; continue to attract people and business growth to Asheville; and (3) continuing to seek partnerships on projects with regional impact. Tool and process include setting the strategic vision for the City; setting the annual property tax rate; determining the scope of public services; determining the level of investment in public infrastructure; economic incentives; and land use planning.

She reviewed the revenue and expenditure assumptions, along with the Fiscal Year 12-13 expenditure obligations. At this time, she said that staff is asking for feedback from Council so they can build it into the budget.

The City Council Finance Committee received a preview of the FY 12-13 General Fund Operating Budget Briefing at its meeting on Tuesday, March 20, 2012. At that meeting, the Committee requested additional information on a few items included on the "Expenditure Options" list in the presentation and staff has provided that supplemental information to the full City Council.

Ms. Bradley responded to various questions/comments from Council and those which could not be answered immediately will be provided to the full Council. Some included the impact of fire staffing on their budget; how much the fuel cost is for cars vs. large vehicles; are alternative fuel vehicles being looked at when fleet is replaced; what is the reoccurring costs vs. the one-time capital expense on reinstating vacuum leaf collection.

Several comments/questions were raised by Council, some being, but are not limited to: reinstating the vacuum leaf collection will be discussed at the Capital Improvement Plan worksession on April 10, along with options; the Economic Development Commission is actually requesting $60,000, not $50,000; can the form based code cost be spread over multiple years; request staff contact Mountain Housing Opportunities regarding funding for the Eagle-Market Street Project; question of whether the Business Improvement District contribution will be needed in the first year; interest by Council to have a two-year plan (with a portion this year) to raise the Housing Trust Fund allocation back to $600,000 a year; interest by Council to implement transit service on Sundays (understanding it is restricted to the areas with the highest routes); and request to look at the WNC Nature Center allocation.

It was the consensus of Council to build in a minimum of $500,000 for employee compensation.

**Strategic Operating Plan**

City Council reviewed the proposed Fiscal Year 2012-13 Strategic Operating Plan, by reviewing completed and ongoing goals. It was the consensus of Council that the Strategic Operating Plan captured City Council goals for FY 2012-13; therefore Ms. Bradley said that staff will bring back a resolution to adopt the FY 2012-13 Strategic Operating Plan at the April 10, 2012, meeting.

Councilman Pelly moved to continue the budget worksession until 3:30 p.m. on Tuesday, April 10, 2012. This motion was seconded by Councilman Hunt and carried unanimously.

Tuesday – March 27, 2012 - 5:00 p.m.

Regular Meeting

Present: Vice-Mayor Esther E. Manheimer, Presiding; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Terry M. Bellamy

**PLEDGE OF ALLEGIANCE**

Vice-Mayor Manheimer led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Pelly gave the invocation.

**I. PROCLAMATIONS:**

**A. PROCLAMATION HONORING THE UNC-ASHEVILLE BULLDOGS**

Vice-Mayor Manheimer read the proclamation honoring the UNC-Asheville Bulldogs. She said that the joint City-County proclamation was presented to the Bulldogs at a reception held earlier in the day.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 13, 2012**

**B. RESOLUTION NO. 12-63- - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH HENDERSON COUNTY TO LEASE FIVE TRANSIT VEHICLES**

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Henderson County to lease five transit vehicles.

As a result of the 2000 Census, the French Broad Metropolitan Area was reclassified from a non-urbanized area to an urbanized area with a population greater than 200,000 persons and now includes municipalities in Buncombe, Haywood, and Henderson counties. After the reclassification, Henderson County's transit system became part of the transit systems operating in the overall urbanized area. The Federal Transit Administration (FTA) named the City of Asheville the designated recipient and as a result, the City of Asheville oversees all of the FTA

funding, including reporting, administration and procurement of goods. The City of Asheville and Henderson County have signed a sub-recipient agreement that specifies how the funds are disbursed. The City of Asheville is accountable to the FTA regarding the use of all FTA funds and owns all the capital items that Henderson County purchases with these funds.

As per Henderson County's request, the City of Asheville conducted a procurement process and ordered five transit vehicles. Three of those vehicles are paid with the American Reinvestment and Recovery Act funding; the other two vehicles are paid with a combination of 5307 Urbanized Area Formula Grant, North Carolina Department of Transportation and Henderson County's funding; these vehicles will be used to serve the County's service area and will be operated by Apple Country Transit.

In order for the County to receive the buses, a lease agreement, stipulating the terms and conditions to operate these vehicles, must be signed by both parties as required by FTA. The lease agreement also details how the County will reimburse the City for those two vehicles that require local match.

There is no cost obligation for the City with this action other than staff time to accomplish the task.

This action complies with the current City Council 2011-12 Strategic Operating Plan within the fiscal responsibility focus area by operating the City of Asheville to the highest levels of fiscal responsibility.

Pros:

- The lease agreement is an administrative step required by the FTA that protects the City's interests as designated recipient of Federal funds.
- There is **no** cost obligation for the City of Asheville other than administrative expenses.

Con:

- The City of Asheville is responsible for administrative expenses including staff time to oversee the project for the duration of such, approximately seven years.

There is no direct fiscal impact to the City of Asheville, however the City's cost of administering the project is not recovered.

City staff recommends that City Council approve a resolution authorizing the City Manager to enter into an agreement with Henderson County to lease five transit vehicles.

**RESOLUTION BOOK NO. 34 – PAGE 302**

**C. RESOLUTION NO. 12-64 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A LEASE AGREEMENT WITH THE ASHEVILLE BOARD OF ALCOHOLIC CONTROL FOR THE PREMISES AT 179 S. CHARLOTTE STREET**

Summary: The consideration of a resolution authorizing the Mayor to enter into a Lease Agreement with the City of Asheville Board of Alcoholic Control for real property located at 179 S. Charlotte Street.

The property at 179 S. Charlotte Street has been in operation as an ABC Store since 1984. The property is improved with a brick building measuring 3406 square feet on a 0.84 acre lot. At this time, the Board of Alcoholic Control has offered to enter into a lease that is consistent with market based pricing, as follows:

(1) Term of five years

(2) Annual rental fee at an initial rate of approx. $46,000 per year with 3% annual increases
(3) Lessee to pay all utilities and maintenance associated with premises
(4) Both parties have the option to terminate the lease at 180 days written notice.

In order to achieve market-based pricing, City staff established the rate by gathering and comparing lease rates of similar size and location within the Asheville market. The rental rate is consistent with area fair market value for this type of building and use at $13.51 per square foot per year. All proceeds of this lease benefit the Community Development Block Grant budget as Program Income.

The Notice of Intent to enter into a Lease Agreement with the City of Asheville Board of Alcoholic Control was published on March 16, 2012, in the Asheville Citizen-Times. Ten days have passed since the publication and authorization to execute the Lease Agreement is being requested.

This action complies with the City Council Strategic Operating Plan by contributing to fiscal responsibility. Strategic real property management, through the renewal of lease agreements, presents the City with revenue enhancements.

Pros:

- Enhanced revenue through the lease fee, to benefit the Community Development Block Grant program as income
- The City of Asheville Board of Alcoholic Control is a consistent and well established tenant in that location

Con:

- The City of Asheville Board of Alcoholic Control distributes overall net proceeds to the City of Asheville and Buncombe County based on 75% and 25% split. An increase in the rent may have a modest effect of the net distribution that contributes to the City's General Fund.

The proposed increase to the lease amount will be built into the upcoming budget cycle for the Community Development Block Grant FY2012-2013 budget. During the next four subsequent years, the lease rate will increase by 3 percent annually. Over the life of the five year lease, the city will realize more than $244,000 in CDBG Program Income. Given the increase in rent, there may be a slight decrease in the Board's distribution to the City's General Fund, since an increase in operational costs such as rent may minimally impact the overall net proceeds.

City staff recommends City Council adopt a resolution authorizing the Mayor to execute the lease agreement with the City of Asheville Board of Alcoholic Control on behalf of the City of Asheville.

**RESOLUTION BOOK NO. 34 – PAGE 303**

**D. RESOLUTION NO. 12-65- RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH FLETCHER GRADING CONTRACTORS FOR THE NORTH LOUISIANA AVENUE SIDEWALK IMPROVEMENTS PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to execute a contract in the amount of $192,187.25 and any change order within the budgeted amount with Fletcher Grading Contractors for the project known as North Louisiana Avenue Sidewalk Improvements – Emma Road to Emma Elementary School, City of Asheville Project # ENG-08-09-002.

The City of Asheville will receive $100,000 from HUD through a CDBG grant and $187,500 from FTA through a JARC grant to fund the project. A formal request for bids was issued on February 10th, 2012 and bids were opened on March 7th, 2012. Fletcher Grading Contractors, a local business, was the low bidder at $192,187.25. The disadvantaged business enterprise (DBE) goal of 6.2% was exceeded at 67%. This is a unit price contract and not a lump sum contract.

This project will build much needed sidewalk and transit infrastructure along North Louisiana Avenue. Pedestrians currently must walk on the side of the road, in a ditch, or in the street itself. Many children use this thoroughfare as well to reach Emma Elementary School. This project is not within the City limits, but is in the ETJ. The community has been active in getting this project underway and has garnered the support of the City of Asheville, NCDOT, and Buncombe County through a municipal agreement. The scope of work includes sidewalk, curb and gutter, drainage, retaining walls, wheelchair ramps, bus stops, driveways, and utility relocation.

This action complies with the City Council Strategic Operating Plan in fully leveraging funding from the State and other sources for regional transportation improvements.

Pros:

- Improves pedestrian safety.
- Funded by CDBG and JARC grants, with no City General Fund contribution.
- Encourages walking, thereby reducing carbon emissions.
- Future maintenance will be paid for by Buncombe County.

Cons:

- The City could be contracted by Buncombe County for future maintenance of the project.
- Project management and contract administration will consume staff time.

This project will bring $192,187.25 of transportation infrastructure improvements at minimal cost to the City. There is a total of $287,500 budgeted for this project.

City staff recommends City Council adopt the resolution awarding the contract to Fletcher Grading Contractors and authorizing the City Manager to execute on behalf of the City of Asheville the contract and any change order within the budgeted amount.

Councilman Smith was pleased to support this action and noted the low bid was a local company.

**RESOLUTION BOOK NO. 34 – PAGE 304**

**E. RESOLUTION NO. 12-66 - RESOLUTION AUTHORIZING APPLICATION FOR A FEDERAL TRANSIT ADMINISTRATION JOB ACCESS AND REFERSE COMMUTE PROGRAM TO CONTINUE FUNDING THE BLACK MOUNTAIN ROUTE AND AUTHORIZING THE MAYOR TO EXECUTE THE APPROPRIATE DOCUMENTS TO ACCEPT THE GRANT IF AWARDED**

Summary: The consideration of a resolution authorizing a mixture of local, private and federal funding to continue funding the Black Mountain route.

Since inception in 2002 the Black Mountain route has been funded with different funding sources. During the first 7 years, Intercity grant provided 45% Federal, 45% State and 10% match from the Town of Black Mountain, Buncombe County, and from the route's farebox revenue. The Intercity grant was discontinued in November 2009; the North Carolina Department of Transportation funded the route with a Demonstration grant until December 2010. After that date the route was merged with route 29 and funded with City and Warren Wilson College funds,

for the segment from Downtown to Warren Wilson College, and Job Access and Reverse Commute grant for the segment between Warren Wilson and the Town of Black Mountain.

After exploring all the options available, the JARC funding is the only funding source in the short-term we can apply for, and if awarded will allow city staff to pursue other funding sources for the upcoming years. The Job Access and Reverse Commute (JARC) program was established to address the unique transportation challenges faced by welfare recipients and low-income persons seeking to obtain and maintain employment. Eligible activities are capital, planning and operating expenses for projects that transport low income individuals to and from jobs and activities related to employment, and for reverse commute projects.

This route is part of a partnership between Warren Wilson College and the City. As proposed in the Transit Master Plan, this route was merged with route 29 that served the college and operates as a regular route with frequent stops. The route operates four times a day, Monday through Saturday, along US 70 (Tunnel Road) between downtown Asheville and Black Mountain. Mountain Mobility is also applying for the JARC funding to fund the Black Mountain portion of the route. The service will continue connecting with the local Mountain Mobility deviated route service.

This route's ridership is increasing steadily since it was merged in the new route 170.

| Year | Period | Route | Ridership | Change |
|---|---|---|---|---|
| FY2012 | July - Dec. | 170 | 36,193 | 28% |
| FY2011 | Jan. - June | 170 | 28,248 | 21% |
| FY2011 | July - Dec. | 28 | 23,350 | |

The total cost of providing this service is $237,120; 50% or $118,560 will be paid by the grant and the other 50% by the combined contribution of Warren Wilson College (14% or $33,280) and the City of Asheville to the route (36% or $85,280). The city is planning to apply for a one year period.

The application deadline is March 28, 2012.

This action complies with the current City Council 2011-12 Strategic Operating Plan within the Fiscal Responsibility and Multimodal Transportation focus areas by seeking efficiencies in master plan implementation by identifying plan interdependencies, funding sources and key partnerships. This action also complies with operational improvement recommendations included in the Transit Master Plan that was accepted by the City Council on October 27, 2009.

The Transit Commission supports the subject action.

Pros:

- Increased mobility for the citizens of Asheville both within and outside the city.
- This is a step toward retaining the service and funding.

Con:

- The City is required to fund 50% ($118,560) of the subject project cost; funding will be allocated from the Warren Wilson College and City of Asheville contribution to current route 170.

The total cost of the subject project is about $237,120. The City is required to fund 50% ($118,560) of the subject project cost with the remaining 50% funded by the JARC grant. The City's required funding will be allocated from the Warren Wilson College and the City of

Asheville's contribution to the current route 170. Warren Wilson contribution will total $33,280; therefore the City's cost is $85,280 per year. The City's cost will be included in the Transit Fund proposed budget for FY 2012-13.

City staff recommends City Council adopt a resolution authorizing City staff to apply for a FTA Job Access and Reverse Commute Program grant to fund the Black Mountain route and authorizing the Mayor to execute the appropriate documents to accept the grant, if it is awarded to the City of Asheville.

**RESOLUTION BOOK NO. 34 – PAGE 305**

**F. RESOLUTION NO. 12-67 - RESOLUTION AMENDING THE 2012 CITY COUNCIL MEETING SCHEDULE TO DELETE THE MAY 8, 2012, CITY COUNCIL FORMAL MEETING**

**RESOLUTION BOOK NO. 34 – PAGE 306**

**G. ORDINANCE NO. 4069 - BUDGET AMENDMENT TO INCREASE THE CIVIC CENTER FUND BUDGET TO REFLECT UPDATED FISCAL YEAR 2011-12 REVENUE AND EXPENDITURE PROJECTIONS**

Summary: The consideration of a budget amendment, in the amount of $150,000, from the Civic Center operating revenue, to increase the Civic Center Fund budget to reflect updated Fiscal Year 2011-12 revenue and expenditure projections.

In order to fund anticipated expenses over the last quarter of the current fiscal year, staff is recommending that the Civic Center Fund budget be increased by $150,000. It is anticipated that revenue generated by concessions will cover the most if not all of the cost of the budget amendment; therefore, no additional transfer from the General Fund is required at this time. The Civic Center has several events scheduled before June 30 that should generate significant revenues.

This amendment has been presented to the Civic Center Commission and recommended to City Council.

This action supports the City Council Strategic Plan by supporting the Civic Center as a regional entertainment destination and improving the Civic Center customer experience.

Pro:

- Provides sufficient budget authorization for anticipated revenues and expenditures in the Civic Center Fund without increasing the General Fund transfer.

Con:

- If year end revenues are not sufficient due to the extended closing of the Center, some of the budgeted General Fund allocated for transfer to the Civic Center may need to be utilized.

As noted above, this budget amendment is anticipated to be funded with Civic Center operating revenue that will likely exceed original budget estimates. Therefore, there is no expected impact to the City's General Fund budget.

Civic Center staff and Commission recommend City Council approve a budget amendment to increase the Civic Center Fund budget by $150,000 to reflect updated Fiscal Year 2011-12 revenue and expenditure projections.

**ORDINANCE BOOK NO. 27 – PAGE 332**

Vice-Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Davis and carried unanimously.

In the Mayor's absence, Councilman Pelly moved to authorize Vice-Mayor Manheimer to sign Resolution No. 12-66. This motion was seconded by Councilman Smith and carried unanimously.

**III. PRESENTATIONS & REPORTS: None**

**IV. PUBLIC HEARINGS:**

**A. PUBLIC HEARING TO CONSIDER REZONING 157 AND 163 CRAVEN STREET FROM URBAN PLACE DISTRICT TO RIVER DISTRICT**

**ORDINANCE NO. 4070 - ORDINANCE TO REZONE 157 AND 163 ON CRAVEN STREET FROM URBAN PLACE DISTRICT TO RIVER DISTRICT**

Urban Planner Julia Fields said that this is the consideration of an ordinance to rezone 157 and 163 Craven Street from Urban Place District to River District. This public hearing was advertised on March 16 and 23, 2012.

Ms. Fields said that the French Broad River Group, LLC has petitioned the City to rezone three properties along Craven Street, west of the French Broad River and Riverside Drive from Urban Place (UP) District to River District. The site of the former WNC Stockyards, these properties were among twelve properties in the River District that were rezoned in 2007 from River District to Urban Place, a newly created district. The purpose of this district is to foster higher density, mixed-use development in particular on properties in or near the French Broad and Swannanoa Rivers. At the time it was believed that this rezoning would encourage redevelopment of this site.

Having marketed the site for a number of years with its present zoning, in February of this year the owner/manager of the three properties along Craven Street petitioned the City to have these parcels rezoned back to River District. The petitioner indicated that because the River District allows for greater flexibility in use and development design than is found in the Urban Place District, that rezoning back to River should help in the marketing and ultimate redevelopment of this site. Additionally, the property is bisected by another property zoned River District that was not rezoned in 2007 creating an awkward development situation. Another property south of the site and owned by the same LLC is also zoned River. The petitioner would prefer that all the properties be zoned the same - River District.

The property is 5.54 acres in size and is entirely within the regulated 100 year floodplain. A portion of one of the properties along the French Broad is located in the floodway as well. The property was adopted into the Regional Brownfields Initiative in January of 2011 making it eligible for revolving loan funds for any needed cleanup. A small restaurant and a number of large buildings used for a variety of purposes are located on the site.

If the property is rezoned to River District it still would be subject to design standards. Any proposed development would have to be reviewed and approved under the River District Design Review processes.

The Planning and Zoning Commission reviewed this petition at its meeting on March 7, 2012. They voted unanimously to recommend this rezoning to the Asheville City Council. The only person who spoke on the matter was the applicant.

Pros:

- Provides greater flexibility for the development of property in the River Arts District.
- Allows for five parcels in single ownership to have the same zoning.

Con:

- None noted.

Staff finds this request to be reasonable and also recommends approval of this rezoning request.

Vice-Mayor Manheimer opened the public hearing at 5:15 p.m., and when no one spoke, she closed it at 5:15 p.m.

Vice-Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt moved for the adoption of Ordinance No. 4070. This motion was seconded by Councilman Bothwell and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 334**

**B. PUBLIC HEARING TO CONSIDER AMENDMENTS TO THE UNIFIED DEVELOPMENT ORDINANCE CONCERNING CHANGES TO THE STANDARDS REGULATING DIGITAL BILLBOARDS**

**ORDINANCE NO. 4071 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE CONCERNING CHANGES TO THE STANDARDS REGULATLING DIGITAL BILLBOARDS**

Planning & Development Director Judy Daniel said that this is the consideration of an ordinance amending the Unified Development Ordinance concerning changes to the standards regulating digital billboards. This public hearing was advertised on March 16 and 23, 2012.

Assistant Planning & Development Director Shannon Tuch said that the City of Asheville has had a somewhat complex history and relationship with billboards. Back in 2000-02, there were public discussions about amortizing and prohibiting billboards. As a result, the City entered into negotiations with the outdoor advertisers in the area and developed a 10-year agreement that included a new "Cap & Replace" ordinance along with the removal of 10 very high profile billboards in the City. This agreement was signed in 2004 and won't expire until 2014. The Cap & Replace ordinance required that all qualifying billboards be registered, and once registered, they could be maintained and even moved – but no additional billboards could be added to the overall industry. Any relocated billboard could only be re-located to one of nine specific corridors and would also have to meet a number of standards.

Then in 2006, the City adopted a small amendment that allowed billboards to be combined or split into smaller faces, provided the same total amount of square footage was not increased.

Then in 2008, the City was approached by Lamar Outdoor Advertising requesting the consideration of new standards that would allow new digital technology to be used for billboards. The proposal provided that three times the square footage of paper billboard face be removed for every one square foot of digital. After some discussion, these standards were ultimately adopted and included a number of digital specific standards designed to help control the most concerning aspects of these boards.

Both the 2006 and 2008 billboard amendments are not included in, or controlled by, the 2004 billboard agreement.

Shortly after the adoption of the digital billboard standards in 2008, Lamar began installing boards around the City on major corridors and, to date, has installed 7 total, including the most recent one on Tunnel Road, near the Asheville Mall. Fairway Advertising has installed 4 digital billboards, including the one located on Merrimon Avenue. This particular billboard has raised a lot of concern in the community and has caused staff to re-examine and reconsider the standards regulating digital billboards.

Staff first raised the issue of digital billboards with the Planning & Zoning Commission as part of an update to the City's sign code. The Commission chose to separate digital billboards from the rest of the sign updates to be considered separately.

The Commission first considered an update to digital billboard standards in December and at that time, the intent of the recommended ordinance was to specifically address concerns raised by the Merrimon billboard. The Commission debated whether this was enough of a change and requested the matter be continued to allow staff more time to research other options.

The Commission discussed the matter again in January of this year, and the public was invited to comment as well as representatives from both Lamar and Fairway. The Commission was somewhat divided on the matter with some members preferring to strengthen standards and some preferring to eliminate the option of digital billboard standards altogether. After significant deliberation, the Commission ultimately recommended that staff return the following month with the basic amendment that was originally proposed but also directed staff to continue to work on researching the standards that regulate digital billboards and to return at a later date with this research and a possible amendment that would strengthen those standards.

What is before Council now is the ordinance supported by the Planning & Zoning Commission, as an interim step, while staff continues to research the matter.

A summary of the changes is as follows:

(1) There is a change to the corridors in which digital billboards could be erected. Merrimon Avenue has been removed and a narrow and residential portion of Sweeten Creek Road has also been removed.

(2) The setback standard has been extended to any residential unit, not just residential structure.

(3) A new setback of 50' from the row or edge of pavement is proposed on narrow corridors.

There are a number of standards regulating digital billboards that are not being considered at this time, including brightness, dwell time, conversion ratios, etc. that are more complex and would likely require additional research before amending.

Lastly, the option to repeal the standards allowing digital billboards was also discussed at some length at the Commission meeting and, should this be Council's preference, would not require any further research by would require a new amendment and ordinance that would have to go back before the Planning & Zoning Commission.

**Safety:** While many citizens find certain aspects of digital billboards objectionable, the characteristic that is most concerning from a public safety standard is the question of whether these billboards may distract motorists by the bright, changing images and contribute to accident rates. This question was debated some in 2008 when the standards to allow digital billboards were first proposed, however, at that time the data on the subject was extremely biased or inconclusive. The Federal Highway Administration (FHWA) was in the process of studying the issue and was expected to reveal the results in 2009. No results were revealed however, and the FHWA continues to study the issue. Other experts have weighed in on the subject but, once again, the conclusions are in conflict with one another.

One safety study, not limited to billboards alone, concludes that a distraction that causes a driver to look away from the road for more than two seconds greatly increases the likelihood of an accident, and that external stimuli were more likely to distract drivers for longer periods of time than internal distractions [Chan et.al., 2008, *Evaluation on a Driving Simulator of the Effect of Drivers' Eye Behaviors from Distractions Inside and Outside the Vehicle*]. Determining whether a digital billboard causes an individual to look away for more than a brief moment is at the heart of the issue that continues to be debated (see American Planning Association, *Digital Billboards, Distracted Drivers* article).

**Sustainability:** A reduced carbon footprint was thought to be one of the benefits of digital billboards because they utilized energy efficient LED lights, did not require vehicles to be driven to the site, and did not use adhesive and other plastics and papers. There is new information however, that indicates that the energy used for the average digital billboards is higher than originally believed. Comparing the benefits of the new technology to the old techniques is difficult to evaluate and may not be as good as had originally believed.

This proposal does not directly relate to the goals outlined in the Strategic Operating Plan but is most closely aligned with the goal for "job growth and community development" by balancing business needs with community needs and concerns.

The subject of billboards is discussed in some detail in the ***Implementation Matrix*** of the City's comprehensive plan; Goal 1 under the Transportation section of the **Land Use and Transportation** portions of the Matrix states:

> **Goal I**. The design of streets and highways should be consistent with the economic goals of the City of Asheville and should be compatible with the physical character of the community.
>
> And strategy 6 under this goal states:
>
> Strategy 6. New billboards should not be allowed along any road corridors and existing ones should be amortized and removed unless adjacent to federal aid primary highways.

It is important to note, however, that the comprehensive plan was adopted in 2003 before the state passed legislation effectively eliminating a municipality's ability to amortize billboards, and before the City entered into an agreement with the outdoor advertisers in the area. The current "Cap & Replace" ordinance effectively bans the addition of any new billboards.

Pros:

- Addresses compatibility concerns from residents and motorists while still preserving opportunities for off-premise advertising.
- Reduces potential for distractions in other already congested areas.

Con:

- Renders one existing billboard non-conforming.

City staff concurs with the Planning & Zoning Commission and recommends, at a minimum, approval of the wording amendment as proposed. City staff also supports the Commission's recommendation to continue work to strengthen the existing standards.

As an alternative, the City Council may choose to eliminate standards for 5 billboards entirely. Should the Council support this alternative, staff would return later with a revised ordinance.

Vice-Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt moved for the adoption of Ordinance No. 4071. This motion was seconded by Councilman Bothwell.

Councilman Hunt felt that removing the digital billboards standards is the best thing for the community for a number of reasons, especially driver safety. However, his concern goes beyond safety. He appreciates the role signage in advertising can play economic development; however, his view is that the economic development of this community is better served by reinforcing the quality of life and quality of character. Digital billboards are a very bright, glaring form of advertising that he feels overwhelms our aesthetic character in our community. After Council deliberates the motion to strengthen the digital billboards standards, he will make another motion to instruct the Planning & Zoning Commission review an ordinance that eliminates standards for digital billboard entirely.

Vice-Mayor Manheimer opened the public hearing at 5:34 p.m.

The following individuals spoke in support of eliminating digital billboards standards entirely, for several reasons, some being, but are not limited to: billboard control is good for business; billboards degrade the natural environment; billboards endanger health and safety; billboards hamper economic growth; limiting or banning digital billboards makes sense for Asheville with its tourism-based economy; and need to begin discussion on how we can approach phasing out digital billboards:

Ms. Diane Hankins, east Asheville resident (requested a 6-month moratorium on all digital billboards)
Mr. Jane Northway (provided Council with a copy of "Scenic America's Trust About Billboards")
Mr. Alan Escovitz (provided Council with a copy of "Billboard Control is Good for Tourism")
Ms. Grace Curry, representing the local Sierra Club (supports 6-month moratorium on all digital billboards)
Rev. Tyler Martin, north Asheville resident
Ms. Dakota Forgione

Mr. Terry Graves, General Manager of Fairway Outdoor Advertising, said they have been in the community a long time. They also do a lot with public service announcements, and provided Council with a copy of the many public service announcements. Another attribute of

digital advertising is, because of the nature of digital, we can involve the community in different ways quicker, such as, Amber Alerts and social media. We have received a lot of positive feedback and exposure from those social media aspects. He noted that he was part of the negotiations when billboards were banned from downtown and said that Fairway is committed to continuing to work with the City.

Rev. Christopher Chiaronmonte felt there needs to be a balance regarding the use of digital billboards.

Vice-Mayor Manheimer closed the public hearing at 5:59 p.m.

When it was determined that if the ordinance is adopted, digital billboards are still allowed to apply for a permit if they meet these new stricter standards, Councilman Pelly asked Councilman Hunt for a friendly amendment to his motion to consider a moratorium until a new ordinance can be considered by Council to eliminate the standards entirely. City Attorney Oast noted that it would take just as much time to get a moratorium in place (notice and public hearing) as it would be to direct the Planning & Zoning Commission to review a new ordinance to eliminate the standards and bring it back to City Council for consideration.

The motion made by Councilman Hunt and seconded by Councilman Bothwell to amend the standards regulating digital billboards carried unanimously.

City Attorney Oast noted that these provisions apply only to digital billboards. We are subject to the Cap & Replace ordinance regarding static billboards until January of 2015, including Merrimon Avenue and that portion of Sweeten Creek Road. In summary, Council cannot adopt an ordinance to remove static billboards prior to January 2015.

**ORDINANCE BOOK NO. 27 - PAGE 337**

Councilman Hunt moved to instruct the Planning & Zoning Commission to consider an ordinance to eliminate digital billboard standards entirely. This motion as seconded by Councilman Pelly.

Councilman Hunt appreciated the digital billboard companies working with the City in the past and hoped that the good relationship will continue in the future.

In response to Councilman Davis, City Attorney Oast said that if City Council adopts an ordinance eliminating digital billboard standards entirely, the existing digital billboards would be grandfathered, but no new ones could be erected.

Vice-Mayor Manheimer opened the public hearing at 6:10 p.m.

The following individuals spoke in support of eliminating digital billboards entirely:

Mr. Paul Van Heden
Mr. Dave Castel
Mr. Joe Minicozzi, licensed and certified planner with the American Institute of Certified Planners

Vice-Mayor Manheimer closed the public hearing at 6:14 p.m.

In response to Councilman Hunt regarding a timeframe, Ms. Tuch said that the Planning & Zoning Commission could consider the ordinance at their May meeting and it could be back before City Council at the end of May.

The motion made by Councilman Hunt and seconded by Councilman Pelly to instruct the Planning & Zoning Commission to consider an ordinance to eliminate digital billboard standards entirely carried unanimously.

**V. UNFINISHED BUSINESS:**

**A. UPDATE ON LIVING WAGE POLICY**

**RESOLUTION NO. 12-68 - RESOLUTION ADOPTING A LIVING WAGE FOR FULL- AND PART-TIME CITY EMPLOYEES AND GENERAL SERVICE CONTRACTS $30,000-$200,000**

Administrative Services Manager Brenda Mills said that the purpose of this staff report is to provide an update on the Living Wage Policy and recommended action for the Fiscal Year 2012-2013, which includes a resolution adopting a living wage for full- and part-time City employees and general service contracts $30,000-$200,000.

In April 2011, City Council approved a resolution setting a living wage for City of Asheville full- and part-time employees and contract employees working on General Service contracts $30,000-$90,000 in value. The resolution set the living wage for Fiscal Year 2011-2012 at $11.35/hour without employer provided health insurance and $9.85/hour with employer provided health insurance.

Based on direction given in 2011, City Council stated its intent to annually evaluate the living wage as part of the budget process to ensure the wage stays current with inflationary indexes (such as the Consumer Price Index) and/or the most current recommendation from Just Economics. The City Council also stated it would evaluate if the living wage provision should be extended to additional thresholds of General Services contracts. Once the rate and contract threshold is set, the City's standard terms and conditions for general service contracts will be updated annually to reflect that wage.

The terms and conditions for contracts within this threshold have contained a provision that the vendor is required to pay a Living Wage to employees who carry out duties specific to the completion of the contract. It has been the City's intent to pay the additional cost of incorporating a living wage into General Service contracts.

Analysis:

**(1) Living Wage Rate**
It is the recommendation of Just Economics, based on a formula that takes into consideration costs of housing for a single person, that the living wage rate remain unchanged in Fiscal Year 2012-2013 at $11.35/hour without employer provided health insurance and $9.85/hour with employer provided health insurance.

**(2) Living Wage application to General Service Contracts**
The City's new financial system, MUNIS, allows general services contract information to be collected and reviewed each quarter for living wage review. Data collected since July 2011 shows the following impact of the living wage policy on the city's general services contracts:

- Total of 114 general services contracts were let through March 14, 2012
- Number of general services contracts by dollar thresholds:
  - Between $30,000 and under $90,000 (17 total) – Eight were subject to living wage and vendor complied with living wage requirements per the City's current policy.

- Between $90,000 and under $200,000 (4 total) – All contracts in this threshold would have been subject to living wage if the current policy had included contracts up to $200,000.
- Over $200,000 (6 total) – Two contracts in this threshold would have been subject to living wage if the current policy had included contracts above $200,000.

For the data above, contracts not subject to the living wage would have been those that did not include a labor services (i.e., software licensing purchases, Interlocal agreements, etc.). For the most part, contracts executed in the $90,000-$200,000 and above range included services where living wage rates are already paid (audit services, Development Services software implementation, IT infrastructure maintenance, radio infrastructure maintenance, etc.).

The City of Asheville currently meets the current living wage standard for full-time employees, and so no fiscal impact is expected.

Data from contracting in the current fiscal year shows that when the City contracted for services above $90,000, the vendor typically already paid a living wage. Based on the City's current year performance, the impact of adjusting the General Services contract threshold up to $200,000 may have a limited financial impact. However, if the City executes large contracts for labor intensive services (i.e., security services, landscaping and mowing services), there may be a more significant impact, possibly ranging from 10-30%.

Adoption of a living wage policy supports the Asheville City Council's goal to make Asheville a place that is affordable for people of all income, life stages and abilities. The Finance Committee reviewed and unanimously approved staff's recommendation at its meeting on March 20, 2012.

Staff recommends adoption of a Living Wage resolution that:

(1) Sets the living wage rate at $11.35/hour without employer provided health insurance and $9.85/hour with employer provided health insurance;
(2) Increases the contract threshold for General Services subject to the living wage up to $200,000 for review;
(3) Directs staff to continue to monitor the impact of an adjustment with data provided to City Council as part of the quarterly financial reports, and;
(4) Brings the policy back to City Council for official review as part of the FY 13-14 budget process.

In response to Councilman Davis, and for clarification purposes, Ms. Mills explained that the living wage provision for general service contracts from $30,000-200,000 is a requirement for all bidders. The City would contract with the lowest responsible bidder if they meet all the requirements. We may; however, have to pay a little more for the contract that meets the living wage requirement if the lowest bidder does not pay a living wage.

When we receive bids, Councilman Davis felt it would be helpful to have the figures of how many employers would not be paying a living wage if it were not required and to monitor what the difference would be.

Rev. Christopher Chiaronmonte felt that $11.35 is not a living wage.

The Executive Director of Just Economics thanked the City for the living wage provisions and hoped that other companies will follow in the City's footsteps.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 12-68. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE307**

**VI. NEW BUSINESS:**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Ms. Pat Dockery presented Council with a petition which reads "We the undersigned residents of West Asheville would like for all excessive noise (especially from The Get Down club that has shown blatant disregard for the neighborhood) to cease and desist between the hours of 10:00 p.m. and 7:00 a.m." She also presented Council with a thread from Facebook regarding the noise ordinance. She said she attended the Public Safety Committee and was not satisfied with the outcome. She asked that Council adopt a temporary ordinance until such time as the Public Safety Committee reviews further information from City staff.

Rev. Christopher Chiaronmonte asked for Council to investigate why the Asheville Police Department selectively enforces ordinances.

Ms. Judy Mattox, Chair of the local Sierra Club, urged Council to vote for intervention on Senate Bill 183, selective vegetation removal.

**Closed Session**

At 6:53 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: Scenic NC Inc.; North Carolina Outdoor Advertising Association, et al; State of North Carolina; J. Jerome Jensen, Jr., et al (Biltmore Lake Annexation); Cities of Rocky Mount, Goldsboro, Wilmington, Kinston, Lexington; and Henderson County. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (2) To discuss matters relating to the location or expansion of industries or other businesses in the area served by the City Council, including agreement on a tentative list of economic development incentives that may be offered in negotiations, provided that any action authorizing the payment of economic development incentives will occur in open session. The statutory authorization is contained in G.S. 143-318.11(a)(4. This motion was seconded by Councilman Smith and carried unanimously.

At 8:13 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Smith and carried unanimously.

**VIII. ADJOURNMENT:**

Vice-Mayor Manheimer adjourned the meeting at 8:13 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – April 10, 2012 – 3:30 p.m.
First Floor North Conference Room

Worksession

Present: Vice-Mayor Esther E. Manheimer, Presiding; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Terry M. Bellamy

**Enterprise Funds & Capital Improvement Plan**

Director of Finance & Management Services Lauren Bradley reviewed the following General Fund worksession: (1) Maintain current property tax rate and City services; (2) Proceed with technical adjustments and expenditure obligations; (3) Include $500,000 for employee compensation; revisit compensation mid-year; (4) Consider $150,000 in Parking Fund revenues over expenditures for: (a) Transit service on holidays on main routes with limited hours: $30,000; (b) Phase I implementation of form-based planning policy: $100,000; and (c) Increase EDC allocation from $40,000 to $60,000: $20,000; and (5) Look for new revenue opportunities to increase the Housing Trust Fund allocation..

There was discussion regarding the Phase I implementation of the form-based code vs. an unknown allocation to the Housing Trust Fund, both of which were a priority. Ms. Bradley explained there may be another viable revenue source regarding the privilege license for gaming machines. It is estimated, if adopted by Council, an additional $200,000 of new revenue next fiscal year. Several suggestions were discussed, including (1) a suggestion was to allocate the $200,000 of new revenue to the Housing Trust Fund and if it was not attainable, then delay Phase I of the form based code and use the $100,000 for the Housing Trust Fund allocation; (2) a suggestion to use the $100,000 from the form based code towards the Housing Trust Fund, and if we do realize any revenues from the other revenue source that the first $100,000 go towards the form based code and the second $100,000 go to the Housing Trust Fund; and (3) a suggestion was to use the $60,000 allocation for the Economic Development Coalition towards the Housing Trust Fund. However, it was the consensus of Council to set aside $100,000 for contractual services in a line item in the City Manager's budget targeted towards housing and community development and then Council can make their decision later in the process.

Water Fund outlook includes: (1) Operating revenues are performing better than budget in current year – which means more revenue next year without a rate increase – partly due to improved meter accuracy with AMR's; (2) FY 12-13 operating budget will be adjusted downward to reflect actual expenses; and (3) As a result, pay as you go contribution to capital will increase by $1.3 million.

Regarding the Parking Fund outlook, parking revenues are projected to exceed expenses by $150,000 in FY 12-13 (a) Includes increasing transfer to the Transit Fund from $500,000 to $590,000; (b) Includes full year of expenses associated with operating Biltmore Avenue Parking Garage (including 2 FTEs) and debt service; and (c) Includes transfer of $55,000 in operating funds to parking capital improvements for meter replacements.

Regarding the Transit Fund outlook (1) Loss of $160,000 in State funding; partially off-set by increase in Transit revenue as a result of increased ridership; (a) Increases Parking Fund transfer by $90,000 for a total of $590,000; General Fund transfer to remain at $985,000; and (2) Projecting decrease in fuel consumption will offset increase in fuel prices.

Regarding the Golf Fund, (1) Right-sized revenue budget and included $140,000 transfer from General Fund based on past performance; (2) Staff continues to explore alternatives for management efficiencies; and (3) Responses to RFP were due March 23 (8 responses); pursuing any option will likely require funds for operating and capital budgets.

Councilman Hunt suggested, and it was the consensus of Council, that staff make a good faith effort in the coming fiscal year to work toward reducing the subsidy for next fiscal year for the Nature Center and Golf Course combined from $650,000 to $450,000.

Regarding the Stormwater Fund, (1) Stormwater utility was created as a requirement of the Clean Water Act to (a) maintain/improve the public storm drain system, (b) enforce stormwater and erosion standards related to (re)construction activities, (c) prevent illegal dumping, and (d) educate the public about stormwater issues; (2) Fee brings in approximately $3.0 million annually in revenue; (3) Fee collections have historically been better than budget projections (a) FY12 Budget included $700,000 fund balance appropriation for Victoria Road capital project; and (4) Revenues in FY 13 budget are projected to equal expenditures (a) FY13 Proposed Budget includes $290,000 fund balance appropriation for Michigan Avenue capital project.

Regarding the General Capital Improvement Program (CIP), the CIP categories are as follows: **Multi-modal:** Streets, sidewalks, greenways, pedestrian safety projects, Transit system investments; **Infrastructure:** Bridges, retaining walls, sewer projects, traffic signal poles, infrastructure associated with water lines; **Buildings & Facilities:** Building and facility maintenance, roof replacements, recreation center maintenance, park maintenance, Civic Center renovations, Urban Trail maintenance; **Equipment & Technology:** Radio infrastructure and radio replacements, software upgrades and replacements; and **Vehicle Replacement:** Vehicles and other rolling stock. Using charts, she explained what drives the level of investment, and the 2011-12 CIP revenues.

The 2011-12 projects underway include: City Hall Exterior Repairs: $5.5 million; New sidewalk construction: $1.8 million; Beaucatcher Greenway: $1.25 million; Vehicle and PC Replacements: $4 million; Wild Cherry Bridge: $700,000; and Montford Street Rebuild: $300,000.

She then reviewed the FY 2012-13 CIP revenues and proposed CIP expenditures.

The 2012-13 multi-modal expenditures, totaling $3.4 million (56%) include: (1) Street Resurfacing: $1.3 million, 5.83 miles resurfaced - Slightly more than FY 11-12; (2) Pedestrian Safety: $35,000 - Charlotte Street corridor comprehensive traffic engineering analysis; (3) Sidewalk maintenance: $480,000, 4,900 linear feet maintenance work - $800,000+ in sidewalk maintenance personnel and related costs budgeted in operating budget; (4) New sidewalk construction: $870,000, 1.35 miles new sidewalk; (5) Greenway development: $100,000 - Design work for Town Branch Greenway to get it shovel ready; and (6) Bicycle Master Plan Projects: $81,000 - Northside Sharrow Network: $51,000; and Design plans for north- and west-end bike connectors: $30,000.

The 2012-13 building and facilities expenditures, totaling $1.192 million (22%) include: (1) Roof replacements: $200,000, (Fire Stations, Hunt Hill facility, Burton Street); (2) General facility maintenance: $91,000; (3) General Fund contribution to Civic Center debt service and maintenance: $400,000; (4) Public Art (a) Maintenance: $40,000; and (b) Reserve for future acquisitions: $47,807 (represents 1% of eligible projects over five year CIP); and (5) Park & Recreation center maintenance: $400,000 (a) Gym floor replacement at Montford Center, Aston Park Court Lifts, Resurface Velodrome.

The 2012-13 equipment & technology, totaling $265,000 (5%) include: (1) Public safety radio replacements: $100,000; (2) Fuel Station Pump replacement: $75,000; and (3) Garbage collection roll cart replacements: $90,000.

The 2012-13 vehicle replacement, totaling $1 Million (19%), includes the vehicle replacement: $1,000,000 - $550,000 targeted for CNG vehicles.

The 2012-13 Green CIP includes: (1) Achieve a 4% carbon footprint reduction each year for 20% total reduction over five years; and (2) Funded by "revolving" utility savings generated by energy efficiency projects for investment into additional projects (a) Streetlight retrofit project provides significant utility savings for five-year Green CIP; (b) $1.3 million projected for third phase of streetlight retrofit; and (c) $840,000 for City facility retrofit and weatherization projects (i) City Hall controls; Boiler maintenance and repairs at 10 facilities; window and HVAC replacements.

Ms. Bradley then reviewed the FY 2013-14 CIP revenues, a chart of CIP planning years of FY 2013-14 – FY 2016-17; and FY 2013-17 CIP revenues.

She then reviewed the CIP snapshots using a chart showing the current five year CIP. For accelerating progress by adding $1 million, a possible structure would be (1) $300K allocated to Pay-Go for capital maintenance; or (2) Remainder dedicated to debt service for an additional $13 million in debt capacity. An accelerated progress for adding $4 million possible structure would be (1) $1.4 million allocated to the Pay-Go Fund; or (2) $2.6 million allocated for debt service to gain an additional $35 million in debt capacity - COPS or GO?

Policy direction needed includes: (1) For the FY 12-13 proposed CIP budget, is staff programming resources in proportion to the City's strategic and mission critical priorities? (2) Is Council supportive of the level and timing of resource allocations? and (3) What process would City Council like to pursue to discuss and prioritize planning years?

Ms. Bradley responded to various questions/comments from Council and those which could not be answered immediately would be provided to the full Council.

After discussion, it was the consensus of Council that they are generally comfortable with how staff has split up the funding in the General CIP Program for Fiscal Year 2012-13 and that the Finance Committee will discuss more about a process and prioritizing the planning years in the budget.

At 4:36 p.m., Councilman Bothwell moved to adjourn the worksession. This motion was seconded by Councilman Smith and carried unanimously.

Tuesday – April 10, 2012 - 5:00 p.m.

Regular Meeting

Present: Vice-Mayor Esther E. Manheimer, Presiding; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Terry M. Bellamy

**PLEDGE OF ALLEGIANCE**

Vice-Mayor Manheimer led City Council in the Pledge of Allegiance.

**INVOCATION**

Vice-Mayor Manheimer gave the invocation.

## I. PROCLAMATIONS:

### A. PROCLAMATION PROCLAIMING APRIL 2012 AS "CHILD ABUSE AWARENESS MONTH"

Councilman Smith read the proclamation proclaiming April, 2012, as "Child Abuse Awareness Month" in the City of Asheville. He presented the proclamation to Mr. Bill McGuire, Director/CEO of Child Abuse Prevention Services Inc., who briefed City Council on some activities taking place during the month.

### B. PROCLAMATION PROCLAIMING APRIL 2012 AS "PARKINSON'S DISEASE AWARENESS MONTH"

Councilman Bothwell read the proclamation proclaiming April, 2012, as "Parkinson's Disease Awareness Month" in the City of Asheville. He presented the proclamation to Jim Hall, Linda Morgan and Dick Poore, who briefed City Council on some activities taking place during the month.

### C. PROCLAMATION PROCLAIMING APRIL 15-21, 2012, AS "NATIONAL VOLUNTEER WEEK"

Councilman Hunt read the proclamation proclaiming April 15-21, 2012, as "National Volunteer Week" in the City of Asheville. He presented the proclamation to Ms. Michelle Bennett, Director of Hands On Asheville, our local clearing house for non-profit volunteer opportunities, who briefed City Council on some activities taking place during the week.

### D. RECOGNITION OF RECIPIENTS OF GOVERNOR'S AWARD FOR VOLUNTEER SERVICE

Councilman Hunt said that National Volunteer Week is a time for us to stop and think about what volunteers contribute to the efforts of local government, non-profits and faith-communities to improve the lives of our citizens. In addition to proclaiming this week National Volunteer Week, she took this opportunity to recognize local volunteers who have received special recognition for their efforts over the past year. 2012 is the 34th consecutive year the North Carolina Commission on Volunteerism and Community Service has honored community members who demonstrate a strong commitment to improving their community through volunteerism. The City of Asheville's two nominations have been selected to receive the 2012 Governor's Volunteer Service Award. The local recipients of the 2012 Governor's Award are:

(1) Lora Ann DeGroat: Ms. DeGroat was nominated for her Girl Scout Silver Award project which resulted in the creation of the Asheville Fire Department's Volunteer Fire Hydrant Painting program.

(2) Asheville Police Department Volunteer Chaplain Corps: The Chaplain Corps was nominated in recognition of the group's 31-year service to the community and individual Corps members' commitment to provide a wide range of emotional and spiritual support to police employees and community members who experience crisis or trauma situations. The APD Volunteer Chaplains recognized are Chaplain Coordinate Kent Withington and Chaplains Sue Barron, Steve Brady, Tim Brady, Sister Carmen Cruz, Don Furniss, Joe Ontiveros, Billy Osigian, Philip Priddy, Wayne Roper, Jane Smith and Bill Snyder.

### E. RECOGNITION OF THE VOLUNTEERS IN SERVICE TO AMERICA PROGRAM

Councilman Hunt said that the VISTA program is 5 years old this year and we'd like to acknowledge the great work these full-time volunteers have done. The focus of the Asheville Learning Links VISTA program is to build the capacity of organizations in our community to serve the needs of young people in Asheville City Schools. They do this by providing crisis intervention, advocacy, enriching arts, and by developing programs that support families living in poverty. Each VISTA lives at the poverty level for one year while serving our community. So far 34 VISTAs have made this commitment, some have committed two years. Among the list of accomplishments are the Listening To Our Teens Report that mobilized the community in support middle school youth, The Burton Street Community Project, and over $200,000 in new revenue to organizations. Many of our former VISTAs have gone on to do great things. Erika Germer formerly a VISTA at the Asheville City Schools Foundation is the program director for the City of Asheville Youth Leadership Academy. The organizations touched by their community service are many and span our community. They are: Asheville City Schools Foundation; Asheville-Buncombe Community Relations Council; Asheville Design Center; ABCCM; Asheville Homeless Initiative; Center for Diversity Education; Children First-Communities and Schools; Eagle Street Development Corporation; Green Opportunities; Green Works; LEAF in Schools & Streets; NC Stage Company; On Track Financial; Ribbon of Hope After School; Mentoring Program (Asheville City Schools Foundation, Delta House, YWCA); Weed & Seed Program at Pisgah View; WNC Alliance; and YWCA.

Councilman Hunt then recognized Ms. Leah Ferguson, Co-Director of the Asheville City Schools Foundation who spoke about the program.

**F. EMPLOYEE RECOGNITIONS**

City Manager Jackson recognized (1) Firefighter Jay Bettencourt as Asheville Firefighter of the Year Award - Each year the WNC Association of Firefighters gives an award to an outstanding individual who has distinguished himself or herself in the fire service. The association accepts nominations from across the western part of state from 395 departments and over 13,000 firefighters in search of just such an individual. This year, Asheville firefighter Jay Bettencourt was chosen as WNC Firefighter of the Year. Jay was recognized and presented this award on January 18, 2012, in Lincolnton, N.C., at the WNCAFF quarterly meeting; and (2) Director of Water Resources Steve Shoaf for receiving the George Warren Fuller Award - At the 91st Annual Conference of the NC American Waterworks and Water Environment Association, Steve Shoaf was awarded the George Warren Fuller award. This is an AWWA award named for Mr. Fuller in recognition of his many contributions to the field of sanitary engineering. It is the highest award that can be given by a State Section of the Association. Mr. John McLaughlin, Chair of the NC American Waterworks and Water Environment Association was pleased to describe the recognition as well.

Vice-Mayor Manheimer thanked the employees on what they do on behalf of the City of Asheville and City Council. She was proud of City staff and looked forward to highlighting more accomplishments.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 27, 2012**

**B. RESOLUTION NO. 12-69 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE EARTH DAY EVENT ON APRIL 21, 2012**

202

**RESOLUTION NO. 12-70 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BIG LOVE FEST ON MAY 6, 2012**

**RESOLUTION NO. 12-71 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE FOR THE MONTFORD PARK PLAYERS 2012 OUTDOOR SEASON ON MAY 10, MAY 11, MAY 12, MAY 13, MAY 17, MAY 18, MAY 19, MAY 20, MAY 24, MAY 25, MAY 26, MAY 27, JUNE 1, JUNE 2, JUNE 3, JUNE 8, JUNE 9, JUNE 10, JUNE 15, JUNE 16, JUNE 17, JUNE 22, JUNE 23, JUNE 29, JUNE 30, JULY 1, JULY 6, JULY 7, JULY 8, JULY 13, JULY 14, JULY 15, JULY 20, JULY 21, JULY 27, JULY 28, JULY 29, AUGUST 3, AUGUST 4, AUGUST 5, AUGUST 10, AUGUST 11, AUGUST 12, AUGUST 17, AUGUST 18, AUGUST 24, AUGUST 25, AUGUST 26, AUGUST 31, SEPTEMBER 1, SEPTEMBER 2, SEPTEMBER 7, SEPTEMBER 8, SEPTEMBER 9, SEPTEMBER 14, SEPTEMBER 15 AND SEPTEMBER 16, 2012**

**RESOLUTION NO. 12-72 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE DOWNTOWN AFTER FIVE EVENTS ON MAY 18, JUNE 15, JULY 20, AUGUST 17 AND SEPTEMBER 21, 2012**

**RESOLUTION NO. 12-73 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE MOUNTAIN SAFARI ON MAY 31, 2012**

**RESOLUTION NO. 12-74 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BEER CITY FESTIVAL ON JUNE 2, 2012**

**RESOLUTION NO. 12-75 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BEER CITY CUP ON SEPTEMBER 2, 2012**

**RESOLUTION NO. 12-76 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE CLIPS OF FAITH BEER & FILM TOUR ON SEPTEMBER 7, 2012**

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at Asheville Earth Day on April 21, 2012; The Big Love Fest on May 6, 2012; Montford Park Players 2012 Outdoor Season on May 10, May 11, May 12, May 13, May 17, May 18, May 19, May 20, May 24, May 25, May 26, May 27, June 1, June 2, June 3, June 8, June 9, June 10, June 15, June 16, June 17, June 22, June 23, June 29, June 30, July 1, July 6, July 7, July 8, July 13, July 14, July 15, July 20, July 21, July 27, July 28, July 29, August 3, August 4, August 5, August 10, August 11, August 12, August 17, August 18, August 24, August 25, August 26, August 31, September 1, September 2, September 7, September 8, September 9, September 14, September 15, September 16, 2012; Downtown After 5 on May 18, June 15, July 20, August 17 and September 21, 2012; the Mountain Safari on May 31, 2012; the Beer City Festival on June 2, 2012; the Beer City Cup on September 2, 2012; and the Clips of Faith Beer & Film Tour on September 7, 2012.

- The Lake Eden Arts Festival in conjunction with Mountain Roots Management has requested through the City of Asheville Development Service Center that City Council

permit them to serve beer and/or unfortified wine at Asheville Earth Day and allow for consumption at this event.

Asheville Earth Day will be held on Saturday, April 21, 2012 from 12:00 p.m. to 10:00 p.m. within the boundaries of the 100 block of Lexington Avenue as per the area limits referenced on the accompanying site map.

- Asheville City Schools Foundation has requested through the City of Asheville Development Service Center that City Council permit them to serve beer and/or unfortified wine at The Big Love Fest and allow for consumption at this event.

  The Big Love Fest will be held on Sunday, May 6, 2012 from 2:00 p.m. to 8:00 p.m. within the boundaries of Pack Square Park's Roger McGuire Green, Reuter Terrace, Vance Median and Raised Lawn areas including South Spruce Street between the intersections of South Pack Square and College Street, North Pack Square between the intersections of Biltmore Avenue and South Pack Square, South Pack Square between the intersections of Biltmore Avenue and South Market Street and within the City Hall/Courthouse Parking Lot as per the area limits referenced on the accompanying site map.

- The Montford Park Players has requested through the City of Asheville Development Service Center that City Council permit them to serve beer and/or unfortified wine at the Montford Park Players 2012 Outdoor Season and allow for consumption at this event.

  The Montford Park Players 2012 Outdoor Season will be held on May 10, May 11, May 12, May 13, May 17, May 18, May 19, May 20, May 24, May 25, May 26, May 27, June 1, June 2, June 3, June 8, June 9, June 10, June 15, June 16, June 17, June 22, June 23, June 29, June 30, July 1, July 6, July 7, July 8, July 13, July 14, July 15, July 20, July 21, July 27, July 28, July 29, August 3, August 4, August 5, August 10, August 11, August 12, August 17, August 18, August 24, August 25, August 26, August 31, September 1, September 2, September 7, September 8, September 9, September 14, September 15, September 16, 2012 from 7:30 p.m. to 10:30 p.m. within the boundaries of the Hazel Robinson Amphitheatre as per the area limits referenced on the accompanying site map.

- The Asheville Downtown Association has requested through the City of Asheville Development Service Center that City Council permit them to serve beer and/or unfortified wine at Downtown After 5 and allow for consumption at this event.

  Downtown After 5 will be held on the Fridays of May 18, June 15, July 20, August 17, September 21, 2012 from 5:00 p.m. to 9:00 p.m. within the boundaries of the 100 block of Lexington Avenue as per the area limits referenced on the accompanying site map.

- Friends of the WNC Nature Center has requested through the City of Asheville Development Service Center that City Council permit them to serve beer and/or unfortified wine at the Mountain Safari and allow for consumption at this event.

  The Mountain Safari will be held on Thursday, May 31, 2012 from 5:30 p.m. to 9:30 p.m. within the boundaries of the WNC Nature Center property as per the area limits referenced on the accompanying site map.

- Big Brothers Big Sisters of WNC in conjunction with GSCBA & ABA has requested through the City of Asheville Development Service Center that City Council permit them to serve beer and/or unfortified wine at the Beer City Festival and allow for consumption at this event.

  The Beer City Festival will be held on Saturday, June 2, 2012 from 12:00 p.m. to 6:00

p.m. within the boundaries of Pack Square Park's Roger McGuire Green, Spruce Street between the intersections of South Pack Square & College Street, and within the City Hall/Courthouse Parking Lot as per the area limits referenced on accompanying site map.

- The Western North Carolina Soccer Foundation has requested through the City of Asheville Development Service Center that City Council permit them to serve beer and/or unfortified wine at the Beer City Cup and allow for consumption at this event.

The Beer City Cup will be held on Sunday, September 2, 2012 from 12:00 p.m. to 10:00 p.m. within the boundaries of Memorial Stadium as per the area limits referenced on the accompanying site map.

- New Belgium Brewing Company in conjunction with the Asheville Downtown Association has requested through the City of Asheville Development Service Center that City Council permit them to serve beer and/or unfortified wine at the Clips of Faith Beer and Film Tour and allow for consumption at this event.

The Clips of Faith Beer & Film Tour will be held on Friday, September 7, 2012 from 7:00 p.m. to 10:00 p.m. within the boundaries of Pack Square Park's Roger McGuire Green including City Hall/Courthouse Parking Lot as per the area limits referenced on the accompanying site map.

These actions have no direct connection with the City of Asheville Strategic Operating Plan.

Pro:

- Allows fundraising opportunities for Lake Eden Arts Festival, Asheville City Schools Foundation, Montford Park Players, Asheville Downtown Association, Friends of the WNC Nature Center, Big Brothers Big Sisters of WNC, and the Western North Carolina Soccer Foundation.

Con:

- Potential for public safety issues

Overtime pay for Asheville Police officers per sponsorship agreement for Downtown After 5. There is no fiscal impact for Asheville Earth Day, The Big Love Fest, the Montford Park Players 2012 Outdoor Season, the Mountain Safari, the Beer City Festival, the Beer City Cup, and the Clips of Faith Beer & Film Tour.

City staff recommends City Council adopt the resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at Asheville Earth Day, The Big Love Fest, the Montford Park Players 2012 Outdoor Season, the Mountain Safari, the Beer City Festival, the Beer City Cup, and the Clips of Faith Beer & Film Tour.

**RESOLUTION NO. 12-69 - RESOLUTION BOOK NO. 34 – PAGE 308**
**RESOLUTION NO. 12-70 - RESOLUTION BOOK NO. 34 – PAGE 311**
**RESOLUTION NO. 12-71 - RESOLUTION BOOK NO. 34 – PAGE 314**
**RESOLUTION NO. 12-72 - RESOLUTION BOOK NO. 34 – PAGE 317**
**RESOLUTION NO. 12-73 - RESOLUTION BOOK NO. 34 – PAGE 320**
**RESOLUTION NO. 12-74 - RESOLUTION BOOK NO. 34 – PAGE 323**
**RESOLUTION NO. 12-75 - RESOLUTION BOOK NO. 34 – PAGE 326**
**RESOLUTION NO. 12-76 - RESOLUTION BOOK NO. 34 – PAGE 329**

**C. RESOLUTION NO. 12-77 - RESOLUTION AUTHORIZING THE PURCHSE OF 1-INCH, 1 1/2-INCH AND 2-INCH METER BOXES FROM SOLE SOURCE VENDOR PSP MANUFACTURING**

Summary: The consideration of a resolution to exempt the formal bidding requirement for the subject purchasing bid, authorize Water Resources to purchase new 1-inch, 1 ½-inch, and 2-inch new meter boxes, and recognize PSP Manufacturing as the sole source for the purchases.

North Carolina General Statute 143-129 (e) allows exceptions to formal bidding when standardization or compatibility is the overriding consideration.

In November 2011, the Water Resources Department Standard Details were updated to detail new meter box requirements for 1-inch, 1 ½-inch, and 2-inch meters. The new meter box requirement will allow more sizes of water meters to fit within the same meter box, thereby reducing the various sizes of meter boxes needed by the WRD. The meter box shown on the updated details are manufactured by PSP Manufacturing & Supply in Rome, Georgia. Currently, Water Resources is not aware of another manufacturer for these meter boxes.

Water Resources staff consulted with the Purchasing Division on the need to sole source the purchase to PSP Manufacturing & Supply due to compatibility issues with the new WRD Standard Details. All parties agreed that PSP Manufacturing & Supply should be recognized as the sole source for this purchase and a Purchase Order should be issued to them for the purchase of the new 1-inch, 1 ½-inch, and 2-inch meters boxes. The sole source with PSP Manufacturing will initially be for 12 months to allow time for interested vendors to update their products to match the City's needs and provide a competitive bid.

This project is part of City Council's strategic plan to improve city infrastructure and to operate at the highest levels of fiscal responsibility.

Pros:

- Recognizing PSP Manufacturing as the sole source for the 1, 1 ½, and 2-inch meter boxes and authorizing the purchase from this vendor will ensure compliance with WRD's Standard Details.
- The new meter boxes can be locked, which will deter tampering and water theft.
- The new meter box has a locking mechanism that does not allow the lid to slip, slide, or otherwise dislocate, which greatly reduces pedestrian liability when located in sidewalks or other pedestrian-friendly environments.

Con:

- The new meter boxes will be more expensive than the current meter boxes. WRD currently pays $375 for 1, 1 ½, and 2-inch meter boxes. The price will increase to $671 per meter box. Because the proposed meter box can accommodate different meter sizes, that should help compensate for the increased expense.

The funding needed for this purchase is currently allocated in the Water Resources' Operating budget.

City staff recommends City Council consideration of a resolution to exempt the formal bidding requirement for the subject purchasing bid, authorize Water Resources to purchase new 1-inch, 1 ½-inch, and 2-inch new meter boxes, and recognize PSP Manufacturing as the sole source for this purchase.

**RESOLUTION BOOK NO. 34 – PAGE 332**

**D. RESOLUTION NO. 12-78 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE AGREEMENT WITH ASHEVILLE OIL**

206

**COMPANY INC. FOR REAL PROPERTY KNOWN AS TRIANGLE PARK LOCATED ON S. MARKET STREET**

Summary: The consideration of a resolution authorizing the City Manager to execute a lease agreement with Asheville Oil Company, Inc. for real property known as Triangle Park, located on S. Market Street (PIN # 9648.49.7620.00000).

For many years, the City of Asheville has leased the property known as Triangle Park from Asheville Oil Company, Inc. in order to provide a public park space in downtown Asheville. At this time, the current lease has expired and the City and Asheville Oil Company, Inc. would like to continue the lease arrangement based on the following terms:

(1) Purpose: For public park, recreation and cultural arts purposes including public special events such as festivals.
(2) Term: Five year lease with an option to renew for an additional five year period
(3) Rental payment: City agrees to pay annual property taxes and all associated utility costs
(4) Termination: Mutual rights to terminate at 180 days prior written notice
(5) Maintenance: City responsible for all maintenance and repairs

This action complies with the City of Asheville Parks, Recreation, Cultural Arts and Greenways Master Plan by maintaining a community park amenity within downtown Asheville.

Pros:

- Continued public park property for the community.
- No change in terms from previous lease

Con:

- None.

The annual cost for the property taxes and storm water utility are estimated at approximately $1,700. This expense is part of the Park, Recreation and Cultural Arts Budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute the lease agreement with Asheville Oil Company, Inc. for real property known as Triangle Park.

**RESOLUTION BOOK NO. 34 – PAGE 333**

**E. RESOLUTION NO. 12-79 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE CHANGE ORDERS TO THE CONTRACT WITH CDM-SMITH FOR AN ENVIRONMENTAL ASSESSMENT FOR A PORTION OF THE WILMA DYKEMAN RIVERWAY PROJECT**

**ORDINANCE NO. 4072 - BUDGET AMENDMENT FOR THE WILMA DYKEMAN RIVERWAY GRANT FUND**

Summary: The consideration of (1) a resolution authorizing the City Manager to execute change orders to the contract with CDM-Smith for an environmental assessment for a portion of the Wilma Dykeman Riverway Project; and (2) a budget amendment, in the amount of $19,569, from the Grant Fund reserves to the Wilma Dykeman Riverway Grant Fund.

The City of Asheville is involved in a process to prepare a federal Environmental Assessment for a portion of the Wilma Dykeman Riverway Project that has come to be known as the RADTIP (River Arts District Transportation Improvement Project). The RADTIP will ultimately construct roadway improvements, sidewalks, bike lanes and greenway along Lyman Street and part of Riverside Drive.

The City's consultant, CDM-Smith (formerly Wilbur Smith Associates), has been leading an extensive process involving public involvement, design, and technical documentation of environmental impacts. Up to this point the study has been carried out using 100% federal funding.

During the environmental study it was determined that the potential impacts to historic properties in the RADTIP area would require an additional level of study known as a Section 106 evaluation. The Section 106 evaluation and required public outreach necessitate a need to change the scope of work for CDM-Smith.

The cost of additional work required to complete the environmental study is $49,847. There are federal funds in the project in the amount of $30,278 to fund a portion of this additional work. The remaining $19,569 will have to come from City funds. Staff is proposing that Council appropriate this amount from the City's Grant Fund reserves.

Work is continuing on the project and city staff anticipates we will have a federally-approved environmental document by September of this year. The additional work is necessary if that goal is to be met. CDM Smith proposes to sub-contract with the firms of Matthews Architecture and LandDesign for a portion of the work.

This project supports the City of Asheville's Strategic Operating Plan under the goals of Multi-Modal Transportation and Job Growth and Community Development. In addition the project supports implementation of numerous master plans including the Wilma Dykeman Riverway Plan, Sustainable Economic Development Plan, Greenway Master Plan, and the 2025 City Development Plan.

Pro:

- The additional documentation is required in order to obtain federal approval for the project.

Con:

- Requires the use of $19,569 in City of Asheville funds.

As noted above, the $19,569 needed for this budget amendment will be appropriated from the Grant Fund reserves. There is currently $21,853 in Grant Fund reserves; after this appropriation there will be $2,284 remaining for future use. This appropriation will have no impact on General Fund fund balance.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to execute change orders to the contract with CDM-Smith for an environmental assessment for a portion of the Wilma Dykeman Riverway Project; and (2) a budget amendment, in the amount of $19,569, from the Grant Fund reserves to the Wilma Dykeman Riverway Grant Fund.

**RESOLUTION BOOK NO. 34 – PAGE 334**
**ORDINANCE BOOK NO. 27 – PAGE 341**

**F. ORDINANCE NO. 4073 - BUDGET AMENDMENT FOR CONTRIBUTIONS TO SUPPORT RECREATION PROGRAMS**

Summary: The consideration of a budget amendment, in the amount of $8,700, for contributions to support recreation programs.

The City of Asheville in the Parks, Recreation & Cultural Arts Department has received contributions to support programming and special projects within the department operations. Description is listed below:

- $8,700 from miscellaneous donations to support therapeutic recreation and youth programs and community centers

This action complies with the City Council Strategic Goal of fiscal responsibility in that it provides an alternative for enhancing the city's commitment to master plan implementation. This action also complies with the Parks, Recreation, Cultural Arts & Greenways Master Plan in that it will 1) increase department funding with alternative funding via donations, and 2) enhance the department's means to respond to identified programming priorities.

Pros:

- Expansion of programming opportunities will be provided
- Equipment purchases will enhance the customer experience

Con:

- None

The City's Fiscal Year 2011/2012 General Fund operating budget for Parks, Recreation & Cultural Arts will increase by $8,700. This increase is funded by $8,700 in contributions from miscellaneous contributions. Thus, there is no net fiscal impact to the City's budget.

Staff recommends City Council to adopt the budget amendment in the amount of $8,700, for contributions to support recreation programs.

**ORDINANCE BOOK NO. 27 – PAGE** 343

**G. ORDINANCE NO. 4074 - BUDGET AMENDMENT FOR COMMUNICATION CENTER ANTENNA REPAIRS**

Summary: The consideration of a budget amendment, in the amount of $18,000, to appropriate funds received from Buncombe County for Communication Center antenna repairs.

In September 2003, the City and Buncombe County entered into an intergovernmental agreement for the establishment of a consolidated public safety communication center. In September 2009, both parties agreed to an addendum to the original agreement which served as the formal joint agreement for the operation of the consolidated center. As a part of that agreement, Buncombe County agreed to make annual payments to the City for costs associated with City radio equipment located in the consolidated call center and the redundant call center that is located in the Municipal Building. The first year payment, which as due in March 2010, was set at $67,500, and the payment has been adjusted annually since then based on the Consumer Price Index (CPI). To date, the City has received $167,504.98 from the County to be used for this purpose.

Staff is recommending that Council appropriate $18,000 from these funds to repair antenna equipment used for Police and Fire dispatching at the Consolidated Communications Center. The repairs will allow continued use of radios by Police and Fire Telecommunicators in the event of an equipment failure ensuring continuity of City of Asheville Public Safety operations.

This action complies with the City Council Strategic Operating Plan goal to "Leverage internal and external partnerships for pursuing capital improvements and infrastructure projects."

Pros:

- Increased backup radio coverage in the Consolidated Communications Center.
- Increased ability to utilize cost effective equipment to provide reliable backup communications for the Asheville Police Department as well as the Asheville Fire Department.

Con:

- None.

As noted above, the City has received $167,504.98 in payments from Buncombe County to date. Appropriation of the $18,000 needed for the antenna repairs will leave an available balance of $149,504.98. The remaining funds, along with the additional annual payments that are received from Buncombe County, will be used toward expenses related to the City of Asheville's radio dispatch operations in the Consolidated Communications Center. The City will receive its next payment from Buncombe County in March 2013. This budget amendment has no impact on General Fund fund balance.

City staff recommends City Council approve the budget amendment in the amount of $18,000 to appropriate funds received from Buncombe County for Communication Center antenna repairs.

**ORDINANCE BOOK NO. 27 - PAGE 345**

**H. RESOLUTION NO. 12-80 - RESOLUTION ADOPTING CITY COUNCIL'S 2012-13 STRATEGIC OPERATING PLAN**

Summary: The consideration of a resolution reaffirming City Council's Strategic Operating Plan for fiscal year 2012 – 2013.

At the February 3, 2012, retreat, the Asheville City Council reaffirmed its commitment to six key focus areas that serve as the foundation for the City of Asheville's Strategic Operating Plan. These focus areas are:

- **Affordable** - The City of Asheville will offer a standard of living that is affordable and attainable for people of all income levels, life stages and abilities.
- **Fiscal Responsibility** - The City of Asheville will support a stronger, more prosperous community by making smart investments that accomplish lasting, tangible returns.
- **Green & Sustainable** - Asheville will be the southeastern leader in clean energy and environmental sustainability.
- **Job Growth and Community Development** – Asheville will support a dynamic and robust local economy with balanced sustainable growth.
- **Safe** - Asheville will be one of the safest and most secure communities when compared to similar cities.
- **Multimodal Transportation** – Integrate and implement a multi-modal transportation plan including sidewalks, bike paths, signal preemption, transit, greenways, streets, rivers and access to river, and other system improvements resulting in a funding priority list.

*Performance Measurement and Reporting*

During the 2011-2012 fiscal year, City staff continued to provide City Council with quarterly management reports on performance tied to the organization's adopted strategic goals and related initiatives.

Moving forward with the comprehensive quarterly management report, Council will continue to incorporate quarterly updates from each Council Committee Chair. Each Chair will present to the Council on policy initiatives designed to further achievement of the strategic goals.

Pros:

- Provides Council and City staff with an overall direction and goals of the organization.
- Provides Council and City staff with a measure of success.

Cons:

- None noted

The Strategic Operating Plan will provide direction for Council and the Executive Management Team throughout the budget process.

City staff recommends that City Council adopt the resolution reaffirming Council's Strategic Operating Plan.

**RESOLUTION BOOK NO. 34 – PAGE 335**

**I. RESOLUTION NO. 12-81 - RESOLUTION ACCEPTING COURT PLAZA AS A CITY-MAINTAINED STREET**

Summary: The consideration of a resolution to accept Court Plaza as a city-maintained street.

Code of Ordinances sec. 7-15-1(f)(4)a requires that streets dedicated for public use be accepted by resolution of the City Council.

City Council took action to close the streets located in the area known as City/County Plaza on May 23, 2006 (Ordinance # 06-110) in order to construct the new Pack Square Park. Specifically, the streets that were closed included Court Plaza, City Hall Drive North, City Hall Drive South, and City Hall Circle (see Attachment 2). Buncombe County agreed with the closures.

Court Plaza from College Street to its dead-end has an average width of 26 feet, standup curb, and an overall length of 0.12 mile including the two traffic circles.

The park is now completed and Court Plaza is the only remaining "closed" street. It needs to be added back as a city-maintained street in order to officially provide public access to the Buncombe County Court House and City Hall.

Following City Council's approval of this resolution, the subject street will be added to the official Powell Bill List.

This action complies with the City Council 2011-12 Strategic Operating Plan within the Fiscal Responsibility Area by accepting street infra-structure to help support the healthy growth of the City.

Pros:

- The City of Asheville will receive Powell Bill Funds from the North Carolina Department of Transportation (NCDOT) to help maintain the street.
- The street provides access and connectivity to the Buncombe County Court House and City Hall.

Con:

- Powell Bill Funds will not cover 100% of the total cost to maintain the street.

There will be no initial financial impact to the City, although the responsibility of maintenance belongs to the Public Works Department and is included in the operating budget. The City will receive Powell Bill Funds in the future to help maintain the streets.

Staff recommends that City Council accept Court Plaza as a city-maintained street.

**RESOLUTION BOOK NO. 34 – PAGE 339**

**J. RESOLUTION NO. 12-82 - RESOLUTION CONFIRMING CITY COUNCIL SUPPORT OF PARTICIPATION IN THE YWCA'S "STAND AGAINST RACISM' EVENT ON APRIL 27, 2012**

Summary: The consideration of a resolution supporting the City's participation in the YWCA's "Stand against Racism" effort.

The YWCA of Asheville is participating in a nationwide "Stand against Racism" event to be held April 27, 2012, and has requested community organizations plan events in support of the overall effort to acknowledge racism still exists in our community.

The City of Asheville will organize an event that was successful last year: a walking diversity tour of downtown. Approximately 15 -20 employees from the City of Asheville received training prior to the event from the Center for Diversity Education. City employees will use their lunch hour to sign up for time slots throughout the day in which they would walk the predetermined .5 mile route, led in groups by the trained peer guides, through downtown Asheville.

The tour will examine areas within a short distance of City Hall that are significant to the stories of women's suffrage, the history of slavery and civil rights, the impact of Native Americans, Jewish business and the Scots-Irish in the growth of Asheville as a center of commerce, how the LGBT, Hispanic, Asian and eastern European/Slavic communities contribute to the economic and cultural health of our community and why the changing face of our city, county and region is important to and impacts each of us as citizens and/or employees.

A virtual version of the tour will be made available to employees who are not able to participate due to physical or scheduling limitations.

Short video interviews in which participants share what standing against racism means to them would be taped as groups complete their walk. The interviews would then be posted on City of Asheville websites.

Pros:

- Participation in the event will allow individuals the opportunity to express their desire to stand against racism during their lunch hour.
- The walk and associated videos will make a visual statement about the City's support of YWCA of Asheville's mission of ending racism.
- The walk also meets Asheville Balanced Choices (ABC's) employee wellness goals for increased physical activity opportunities.
- The event is an expression of the City of Asheville's core value of Diversity.
- The walking tours are planned to continue beyond the Stand against Racism throughout the year to highlight the City of Asheville's year-round commitment to value and highlight diversity in our community.

Con:

- Eradicating racism involves much more than making a visual statement.

As participation in the event would take place during employee lunch hours, there is no fiscal impact involved in organizing the walk. The training and subsequent walking tours are part of an ongoing diversity initiative that is supported by management as an important component of employee training and development.

City staff recommends City Council adopt a resolution of support for a City of Asheville walking diversity tour in support of the YWCA's "Stand against Racism" effort.

Councilman Smith encouraged everyone to participate in the YWCA's event.

**RESOLUTION BOOK NO. 34 – PAGE 343**

**K. RESOLUTION NO. 12-83 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE CONTRACT WITH TRIANGLE J COUNCIL OF GOVERNMENTS FOR THE CAROLINA BLUE SKIES INITIATIVE GRANT**

**ORDINANCE NO. 4075 - BUDGET AMENDMENT FOR ADDITIONAL GRANT FUNDS FOR THE CNG STATION AND VEHICLES**

Summary: The consideration of a resolution authorizing the City Manager to accept subgrantee funds via the Triangle J Council of Governments from the Dept. of Energy Clean Cities grant, and the associated budget amendment in the amount of $51,380.

The purpose of this grant is to upgrade 28 fleet vehicles to CNG and expand the capacity of the existing City of Asheville CNG station. The intent of this grant is to improve air quality by retrofitting vehicles to run on compressed natural gas instead of diesel. City Council approved acceptance of this stimulus grant in August 2010. The budget amendment is to accept additional funds which will pay to convert three dump trucks instead of three pick-up trucks. The dump truck conversions as slightly more expensive but will use much more fuel than pick-up trucks and therefore reduce have a better impact on air quality.

This action complies with City Council's Strategic Operation Plan in the following ways: (1) Identify resources for strategic initiatives and create meaningful performance measures for programs and services; (2) Work with regional partners to create incentives for green building, energy conservation and energy independence; and (3) Identify strategies and costs for increasing the city's annual energy reduction goal to 4%

Pro:

- Support municipal carbon reduction efforts

Con:

- None identified

This project is entirely funded with grant proceeds, so there is no impact on the City's annual operating budget.

Staff recommends City Council authorize the City Manager to accept subgrantee funds via the Triangle J Council of Governments from the Dept. of Energy Clean Cities grant, and the associated budget amendment in the amount of $51,380.

**RESOLUTION BOOK NO. 34 – PAGE 344**
**ORDINANCE BOOK NO. 27 – PAGE 347**

**L. RESOLUTION NO. 12-84 - RESOLUTION AUTHORIZING CITY OFFICIALS TO EXECUTE AND DELIVER AN INSTALLMENT FINANCING CONTRACT FOR**

**VARIOUS CAPITAL PROJECTS AND ACQUISITIONS AS WELL AS THE REFINANCING OF EXISTING DEBT**

Summary: The consideration of a resolution authorizing City officials to execute and deliver an installment financing contract for various capital projects and acquisitions as well as the refinancing of existing debt.

On December 13, 2011, City Council approved a Resolution authorizing the negotiation of an installment financing contract in an amount not to exceed $50 million for: (1) "new money" for Council approved capital projects authorized as part of the FY 2012 and FY 2011 Budgets, (2) the takeout of the interim note on the 51 Biltmore Parking Deck project and (3) the refinancing of some existing debt to achieve financial savings. On January 10, 2012, City Council held a public hearing consistent with Section 160A-20 of the General Statutes of North Carolina, which require installment financing contracts involving real property to include a public hearing in which the public may comment on the proposed financing.

Since that time, City staff has been working with the Local Government Commission (LGC), bond counsel and underwriters to complete the bond disclosure and financing documents. The LGC has scheduled its approval of the transaction on May 1 with the bond sales to occur on May 24 with closing on June 6.

The Resolution under consideration:

(1) Ratifies the various documents required to be issued in connection with the transaction;
(2) Authorizes the release of the official statement (bond prospectus), and;
(3) Authorizes the execution of various documents (Contract, Deed of Trust, Indenture of Trust and Contract of Purchase) by City officials.

Copies of the extensive bond legal documents are available in the City Clerk's office for review.

This action supports the City of Asheville's goal to operate the City to the highest level of fiscal responsibility by enhancing its commitment to infrastructure maintenance and capital improvements.

Pros:

- Allows the City to move forward with the FY 2012 debt financing to fund several critical facility and infrastructure projects.
- Refunding of existing debt results in financial savings and the reinvestment of those savings in the CIP.

Cons:

- None noted.

The total amount projected for identified capital projects and refinancing is approximately $45 million.

The projected annual debt service costs associated with the transaction range from $5.277 million to $1.25 million through 2032. The range of annual debt service payments over the life of the transaction is a function of several factors - the final payoff in 2021 of the debt being refinanced and components of the "new money" projects that are being financed over their useful lives of 4, 5, 10 and 20 years. The repayment of the "new money" debt issuance is incorporated in the debt management plan through the capacity being generated by the retirement of existing debt and a portion of the savings generated by the refunding. The refinancing of existing debt, at current market rates, is projected to produce about $1.1 million in cash flow savings through 2021.

Staff recommends that City Council approve the resolution as presented.

**RESOLUTION BOOK NO. 34 – PAGE 345**

Vice-Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Davis and carried unanimously.

**III. PRESENTATIONS & REPORTS: None.**

**IV. PUBLIC HEARINGS: None.**

**V. UNFINISHED BUSINESS:**

**A. RESOLUTION NO. 12-85 - RESOLUTION CALLING FOR A PUBLIC HEARING ON APRIL 24, 2012, TO DEMONSTRATE SUPPORT AND SOLIDARITY BY ASHEVILLE WATER CUSTOMERS IN DEFENDING OWNERSHIP OF OUR WATER SYSTEM**

Councilman Pelly said we will be hearing from the state legislative committee on the management of our water system on August 19. Since the City has not had a formal hearing to give residents an opportunity to let their feelings known, this public hearing is requested to be set for that opportunity.

Councilman Pelly moved to set a public hearing on April 24, 2012, to demonstrate support and solidarity by Asheville water customers in defending ownership of its water system. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 350**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 12-86 - RESOLUTION IN SUPPORT OF EQUALITY AND IN OPPOSITION TO AMENDMENT ONE**

Councilman Gordon Smith presented the following resolution: "WHEREAS the core values of the City of Asheville include commitments to "value and respect a diverse community, workforce, and ideas," and to "value the safety and welfare of our employees and the citizens we serve;" and WHEREAS, the City of Asheville includes at least 737 same-sex couples and has the highest concentration of same-sex couples among North Carolina cities; and WHEREAS, the City of Asheville has adopted a policy of extending equal health care benefits to Asheville City Government employees who are in same-sex domestic partnerships; and WHEREAS, the Council passed a resolution establishing a Domestic Partnership Registry through which same-sex couples can register their relationships; and WHEREAS, the Council passed a resolution endorsing and supporting the rights of same-sex couples to share fully and equally in the familial rights and responsibilities of civil marriage in 2011; and WHEREAS, this Council recognizes that some local and national companies doing business in the City of Asheville extend equal health care benefits to employees in same-sex relationships; and WHEREAS, discriminatory marriage laws deprive same-sex couples and their children of fundamental rights and protections, including, but not limited to, health care coverage and related decision-making, access to

assisted-living facilities, decision making around funerals and end of life matters, inheritance rights, survivor benefits, child custody, and adoption rights; and WHEREAS, on May 8, 2012, the people of North Carolina will vote on Amendment One, a proposed amendment to the North Carolina State Constitution that would prohibit marriage between people of the same sex, and further prohibit the recognition of any other form of domestic legal union; and WHEREAS, the adoption of such a Constitutional amendment is inconsistent with the City's commitment to equal rights and opportunities for its residents and employees and could invalidate the City of Asheville's domestic partner benefits; and WHEREAS, the adoption of such a Constitutional amendment could invalidate local and national businesses' benefit policies; and WHEREAS, Asheville proudly embraces the diversity of its residents; NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: (1) The City Council opposes Amendment One; (2) Whether Amendment One passes or fails on May 8, 2012, the City Council reaffirms its commitment to equal rights and opportunities for City employees and for all residents and families of Asheville, including the rights of same-sex couples to share fully and equally in the rights, responsibilities, and commitments of civil marriage; and (3) This resolution shall be effective on and after its passage, and shall be shared with the members of Asheville's General Assembly delegation."

Councilman Smith said that to all the lesbian, gay, bi-sexual, transgender citizens of the State of North Carolina we care about you and we value equality and recognize the need for it, Even after May 9 we as a body will continue to care and fight for equality.

Councilman Bothwell urged people to vote against Amendment One, not only because of the rights of LGBT individuals, but because the Amendment is poorly worded and will have effects far beyond its original intent.

Councilman Hunt was proud to support the resolution, noting that the YWCA's "Stand Against Racism" examines areas "that are significant to the stories of women's suffrage, the history of slavery and civil rights, the impact of Native Americans, Jewish business and the Scots-Irish in the growth of Asheville as a center of commerce, how the LGBT, Hispanic, Asian and eastern European/Slavic communities contribute to the economic and cultural health of our community and why the changing face of our city, county and region is important to and impacts each of us as citizens and/or employees."

Councilman Pelly was also proud to support the resolution in that as a real estate agent he works with couples intensively for a couple of months and has noted that LGBT couples express the same love to each other and their children.

Mr. Tyler McCall, representing the Coalition to Protect all North Carolina families, spoke in support of the resolution, thanked City Council for their commitment to equality, and urged the community to become educated on the harm of Amendment One.

Councilman Smith noted that Asheville has come a long way in declaring its stance on the topic of equality.

Councilman Smith moved for the adoption of Resolution No. 12-86. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 351**

**B. DISCUSSION OF LIAISON TO THE GENERAL ASSEMBLY AND FEDERAL GOVERNMENT**

City Manager Jackson said that at Council's retreat a goal was set to explore whether or not there would be benefits to increasing the City's representation in the State General Assembly

and in the federal government processes. Staff gathered benchmarking information and shared it with Vice-Mayor Manheimer and Councilman Davis (who Council charged with this task).

Vice-Mayor Manheimer and Councilman Davis met with staff and reviewed the information. They recommended the Council authorize the City Manager to prepare a Request for Proposals for a federal liaison to help us identify and secure funding for projects that tend to be funded by the federal government. We feel that without representation we are missing out on some opportunities and that any cost associated with retaining such representation would more than pay for itself in the funding we would identify and secure.

She said that on the State side there is a more immediate and identifiable need to have someone in Raleigh to follow the water issue as well as any other issues affecting municipalities that we need to be able to hear about more than we are able to do from our remote location. Since that does not require a Request for Proposals, they recommended Council authorize staff to engage someone very soon to follow the issues for Asheville and get information back to Council.

When Vice-Mayor Manheimer asked for public comment, no one spoke.

Councilman Hunt felt that a presence in Raleigh is important, noting that Council will continue to build on relationships with other local government officials and our state legislators. He then moved to authorize staff to engage a state liaison to follow the issues for Asheville. This motion was seconded by Councilman Davis and carried unanimously.

Councilman Davis felt the urgency of having a liaison in Raleigh and urged Council to consider a more defined role for a staff member in the future to take this into a different realm. He hoped we would not just stop with representation in Raleigh, but for staff and Council to continue to be involved in addition to that representation.

Councilman Bothwell was not deeply opposed to the motion especially given the urgency of things affecting Asheville recently; however, he felt our delegation in Raleigh has an obligation to keep us apprised of what's going on that affects Asheville.

Councilman Hunt moved to authorize staff to authorize the City Manager to prepare a Request for Proposals for a federal liaison to help us identify and secure funding and monitor regulatory activity. This motion was seconded by Councilman Davis and carried unanimously.

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Rev. Christopher Chiaronmonte spoke about the need for accountability in leadership.

**Closed Session**

At 6:06 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: State of North Carolina; J. Jerome Jensen, Jr., eta al. (Biltmore Lake Annexation); cities of Rocky Mount, Goldsboro, Wilmington, Kinston, and Lexington; and Henderson County. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); (2) To discuss matters relating to the location or expansion of industries or other businesses in the area served by the City Council, including agreement on a tentative list of economic development incentives that may be offered in negotiations, provided that any action authorizing the payment of economic development incentives will occur in open session. The statutory authorization is contained in G.S. 143-318.11(a)(4); and (3) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information

privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:01 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Hunt and carried unanimously.

**VIII. ADJOURNMENT:**

Councilman Davis adjourned the meeting at 7:01 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – April 24, 2012 - 5:00 p.m.

Regular Meeting

Present: Vice-Mayor Esther E. Manheimer, Presiding; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Terry M. Bellamy

**PLEDGE OF ALLEGIANCE**

Vice-Mayor Manheimer led City Council in the Pledge of Allegiance.

**INVOCATION**

Vice-Mayor Manheimer gave the invocation.

**I. PROCLAMATIONS:**

**A. PROCLAMATION PROCLAIMING APRIL 25, 2012, AS "ADMINISTRATIVE PROFESSIONALS DAY"**

Vice-Mayor Manheimer read the proclamation proclaiming April 25, 2012, as "Administrative Professionals Day" in the City of Asheville. She presented the proclamation to Ms. Sandy Stotesbury, NC Division President, and Ms. Mary Ann Schiller, Land-of-the-Sky Chapter President, who briefed City Council on some activities taking place during the day.

**B. PROCLAMATION PROCLAIMING APRIL 29, 2012, AS "GIRLS ON THE RUN DAY"**

Councilman Bothwell read the proclamation proclaiming April 29, 2012, as "Girls on the Run Day" in the City of Asheville. He presented the proclamation to Ms. Audrey McElwain, Executive Director of Girls on the Run of WNC, and Ms. Rachelle Sorensen-Cox, who briefed City Council on some activities taking place during the day.

**C. PROCLAMATION PROCLAIMING MAY AS "FOSTER CARE MONTH MONTH"**

Councilman Hunt read the proclamation proclaiming May, 2012, as "Foster Care Month" in the City of Asheville. He presented the proclamation to Ms. Tara Foster, representing the Buncombe County Dept. of Human Services, who briefed City Council on some activities taking place during the month.

**D. PROCLAMATION PROCLAIMING MAY AS "MOTORCYCLE AWARENESS MONTH"**

Councilman Pelly read the proclamation proclaiming May, 2011, as "Motorcycle Awareness Month" in the City of Asheville. He presented the proclamation to Mr. Steve Ensley who briefed City Council on some activities taking place during the month.

**E. PROCLAMATION PROCLAIMING MAY AS "STROKE AWARENESS MONTH"**

Councilman Davis read the proclamation proclaiming May, 2012, as "Stroke Awareness Month" in the City of Asheville. He presented the proclamation to Robin Jones, RN, Stroke Program Coordinator at Mission Hospital; Teri Giordano, Paramedic with Buncombe County EMS and Coordinator of Go Gray In

May Because Gray Matter Matters, who briefed City Council on some activities taking place during the month.

**F. PROCLAMATION PROCLAIMING MAY 6-12, 2012, AS "NATIONAL NURSES WEEK"**

Councilman Smith read the proclamation proclaiming May 6-12, 2012, as "National Nurses Week" in the City of Asheville. He presented the proclamation to Ms. Kathleen Guyette, Senior Vice President and Chief Nursing Officer of Mission Health, and nurses from Mission Hospital, who briefed City Council on some activities taking place during the week.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 10, 2012**

**B. MOTION SETTING A PUBLIC HEARING ON MAY 22, 2012, ON THE 2012-13 ANNUAL OPERATING BUDGET**

**C. RESOLUTION NO. 12-87 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUITE A LEASE AGREEMENT WITH RIVERLINK INC. FOR THE PURPOSE OF INSTALLING AND OPERATING PUBLIC PARKING AND PUBLIC RIVER ACCESS AT 706 RIVERSIDE DRIVE**

Summary: The consideration of a resolution authorizing the Mayor to execute a Lease Agreement with RiverLink, Inc. for the purpose of installing and operating public parking and public river access on city-owned real property at 706 Riverside Drive, Asheville, NC.

On November 22, 2011 RiverLink, Inc. presented information to the Asheville City Council on the organization's current revitalization focus at the intersection of Riverside Drive and Pearson Bridge Road. Within its stated mission to revitalize the French Broad River corridor, RiverLink, Inc. is seeking to establish a lease agreement for city owned property at 706 Riverside Drive. The purpose of this lease is to establish public parking and a future river access point for river recreation.

The property located at 706 Riverside Drive is approximately 0.46 acres. The land is undeveloped and encumbered with significant Metropolitan Sewerage District (MSD) sewer lines. A large portion of the property is contained within the French Broad River 100 year floodplain. Per the proposed Lease, RiverLink's responsibilities will include the installation and ongoing operation of a public parking lot and future river access point. All physical improvements are subject to the City approval, with the City to be responsible for placing signage on the property for public use. The proposed lease terms are as follows:

(1) Term of five years, with a five year renewal.
(2) Tenant responsibilities: Installation of all improvements, per zoning standards. Must maintain cleanliness of property, landscaping, improvements, clearing of debris.
(3) Mutual rights to terminate lease
(4) Public signage will be the responsibility of the City of Asheville
(5) Rental: In that property will be maintained for public use, rental is established at $1 per year
(6) Greenway: this property is intended for a future greenway. The City reserves the right to design and construct the greenway through the property as the eventual design dictates.
(7) Easements to remain in place: MSD sewer easements, power line easements

The Notice of Intent to enter into a Lease Agreement with RiverLink, Inc. was published on April 13, 2012, in the Asheville Citizen-Times. Ten days have passed since the publication and authorization to execute the Lease Agreement is being requested.

This action complies with the City Council Strategic Operating Plan – Job Growth and Community Development Goal by supporting riverfront redevelopment with an area partner. In addition, this action supports the Wilma Dykeman Riverway Master Plan by encouraging riverfront revitalization.

Pro:

- Activates an under-utilized property along the French Broad River corridor

Con:

- None

No expenses or in-kind services are required of the city for this lease agreement except for the modest costs associated with public signage. The city will receive no rental income from this lease.

City staff recommends City Council adopt a resolution authorizing the Mayor to execute the lease agreement with RiverLink, Inc. on behalf of the City of Asheville.

**RESOLUTION BOOK NO. 34 – PAGE 353**

**D. RESOLUTION NO. 12-88 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH CAROLINA MOUNTAIN ROOFING FOR THE TRANSIT GARAGE ROOF REPLACEMENT PROJECT**

**ORDINANCE NO. 4076 - BUDGET AMENDMENT FOR THE TRANSIT GARAGE ROOF REPLACEMENT PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to execute a contract in the amount of $152,925 and any change order within the budgeted amount with Carolina Mountain Roofing for the project known as Transit Garage roof replacement; and a budget ordinance amendment in the amount of $17,000 to move funds from the Transit Capital Reserve funds to the Transit garage roof repair project to increase the total project budget to $177,000.

The purpose of the project is to repair the roof at the transit operations garage. The subject building, which was constructed in 1971, is a one-story steel and masonry structure containing about 12,600 square feet. The current roof is an EPDM ballasted roof that was installed in 1985. The membrane on the roof has deteriorated to the point that leaking is occurring in the parking shed, vehicle maintenance area, and offices during rain events. This leaking not only creates a safety hazard with the electrical wiring and equipment in the garage but it has also caused the wood to rot around the skylights and flashing at the mechanical units.

The existing insulation has also been damaged and is therefore not energy efficient. It needs to be replaced in the areas where the water damage has occurred. We do not know at this time if any major structural damage has occurred.

The project would replace the existing roof with a new EPDM mechanically adhered roofing system, which would meet current energy conservation requirements and it would provide savings in energy consumption.

The City issued a Request for Qualifications and hired REI Engineers, Inc. (REI) on April 14, 2011, as the engineering firm to design, develop the technical specifications, and manage the construction project. REI developed the specifications and the city released the construction bid on July 22, 2011. The bids received were higher than the budget available and the bid was not awarded. On November 22 2011 City Council approved a capital project budget for the transit operations garage roof repair in the amount of $160,000.

REI developed new specifications to bid the project again. An informal request for bids was issued on January 30, 2012 and bids were opened on February 23, 2012. Carolina Mountain Roofing was the responsive low bidder at $152,925.

The budget set aside for this project is not enough to cover construction costs and engineering fees. Therefore, city staff is requesting the reallocation of $17,000 in the CIP budget from the Transit Capital Reserve funds to the roof project to be able to complete the necessary roof repairs. The total cost of the project will now be $177,000. Due to constraints in the grant allocation Federal Funds will provide 72% of the cost, which equates to $128,000 and the remaining $49,000 will come from the local match.

The project is scheduled to take place during the next three months.

This action complies with the City Council 2011-12 Strategic Operating Plan within the fiscal responsibility focus area by operating the City of Asheville to the highest levels of fiscal responsibility.

Pros:

- Provides needed maintenance to an aging facility.
- Helps to make the building safe and more energy efficient which should generate savings in energy consumption.
- Federal Funds will provide 72% of the total project cost, which equates to $128,000.

Cons:

- The total cost of the project is $177,000.
- The City's share of the total cost of the project is $49,000.

There is currently $74,000 available in the Transit capital reserve project that has accumulated from projects that came in under budget. Staff is recommending that Council appropriate $17,000 from the reserves to cover the increased cost of the garage roof repairs. After this appropriation, there will be approximately $57,000 available for future allocation.

Staff recommends that City Council adopt (1) a resolution authorizing the City Manager to execute a contract with Carolina Mountain Roofing for the project known as Transit Garage roof replacement; and (2) a budget ordinance amendment to reallocate $17,000 from the Transit Capital Reserve funds to the project budget for the Transit Operations Garage roof repair project.

**RESOLUTION BOOK NO. 34 – PAGE 354**
**ORDINANCE BOOK NO. 27 - PAGE 349**

**E. RESOLUTION NO. 12-89 - RESOLUTION DECLARING THE INTENT OF THE CITY TO REIMBURSE ITSELF FOR CAPITAL EXPENDITURES INCURRED IN CONNECTION WITH THE ACQUISITION OF COMPUTERES AND RELATED EQUIPMENT FROM THE PROCEEDS OF AN INSTALLMENT FINANCING CONTRACT TO BE EXECUTED AND DELIVERED IN FISCAL YEAR 2012**

**ORDINANCE NO. 4077 - BUDGET AMENDMENT FOR PERSONAL COMPUTER REPLACEMENTS**

Summary: The consideration of a resolution authorizing the reimbursement of the City from proceeds of the financing for project expenses incurred prior to the execution of the installment purchase contract; and a budget amendment, in the amount of $115,000 from debt proceeds, for the purchase of lifecycle replacements for computers and related equipment.

In previous years, the City of Asheville has used an operational lease for computer equipment. This offered the operational benefit of a lifecycle replacement for computers every four years, which allowed for more reliable computing for employees. However, during staff analysis during the operational lease rebid process, staff chose to move away from the operational lease model for several reasons.

First, during difficult budget years, when computers are purchased, rather than leased, an extension of the lifecycle is at zero cost. Second, according to staff financial analysis, it has the potential to save between 12-30% on payments.

The purchase of the computer equipment is the second of a 5-step process. The purchase will be from state and other authorized contracts. To execute the purchase, staff seeks authorization for both a budget amendment as well as a reimbursement resolution. When the FY 2011-12 budget was adopted, staff had not finalized its plan to purchase rather than lease computers, therefore only the operational lease costs were included in the adopted budget, not the purchase price. In September, Council approved a $350,000 budget amendment for the purchase of the first round of computer replacements. This second budget amendment, which is for $115,000, will provide funding for the next round of replacements that will occur in this fiscal year. The revenue to support this purchase will come from debt proceeds. The money that was budgeted for the remaining operational lease payments will be redirected to pay debt service on this financing. The purpose of the Reimbursement Resolution is to provide the City with the ability to move forward with the project and reimburse its accounts upon the issuance of the debt. The Resolution does not specifically authorize the issuance of the debt.

This action complies with City Council's strategic operating plan, specifically the Fiscal Responsibility goal of making smart investments

Pros:

- Continue to offer the lifecycle replacement, allowing for more reliable computing for employees
- Save between 12-30% on lease payments

Con:

- In the past, with an operational lease, keeping old computers had a cost, making the decision to replace the computers with modern equipment an easy one. With the new capital lease, there is no cost to retain old computers, and it may be tempting to leave old, obsolete computers in place.

As noted above, the purchase of the computer replacements will be funded with debt proceeds. The savings from the operational lease payments will be used to pay the debt service on this borrowing.

City staff recommends that City Council adopt (1) a resolution authorizing the reimbursement of the City from proceeds of the financing for project expenses incurred prior to the execution of the installment purchase contract; and (2) a budget amendment, in the amount of $115,000 from debt proceeds, for the purchase of lifecycle replacements for computers and related equipment.

**RESOLUTION BOOK NO. 34 – PAGE 355**
**ORDINANCE NO. 27 – PAGE 351**

**F. RESOLUTION NO. 12-90 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A SERVICE AGREEMENT WITH BLUE CROSS BLUE SHIELD OF NORTH CAROLINA FOR THIRD PARTY ADMINISTRATOR SERVICES FOR THE CITY'S HEALTH INSURANCE PLAN**

Summary: The consideration of a resolution authorizing the City Manager to enter in to a service agreement with the City of Asheville and Blue Cross Blue Shield of North Carolina for Third Party Administrator services for the City of Asheville's health insurance plan.

The City of Asheville is required to provide health insurance for our City employees. In an effort to promote Council's employer of choice strategic goal by providing the best and most cost effective benefit plan and providers for our employees, the City of Asheville utilized a formal bidding process for health insurance providers as Third Party Administrators (TPA). The City utilized our brokerage firm, The Ferguson Employee Benefit Agency, to facilitate this process. We received 15 proposals in response to our Request for Proposals. The Ferguson Employee Benefit Agency worked with staff to review each proposal. Staff heard presentations from four of the TPAs. Evaluation of the proposals included items

such as; experience in doing business in Western North Carolina, cost, network coverage and discounts, ability to support the Asheville Project, consumer tools, employee satisfaction.

After a thorough review the vendor selected is Blue Cross Blue Shield of NC.

This action aligns with City Council's Strategic Operating Plan in that it is an effort to promote Council's employer of choice strategic by providing the best and most cost effective benefit plan and providers for our employees

Pros:

- BCBS network discounts.
- Expanded Network access to employees and covered lives outside of the region.
- Enhanced online tools for consumers and practitioners.
- Web and phone support tools for employees to include online disease management and cost comparison tools.

Con:

- Possible transition issues that normally may occur when switching providers of these services.

The projected administrative costs for the new TPA service contract are $660,950 for the first year, which represents a 47% increase over the current year fees. This increase is due primarily to BCBS's network access fee, however based on thorough analysis this increase will be offset by the network discounts received by utilizing the BCBS network.

Analysis was done by an independent firm that reviewed a total of twelve months of recent claims history comparing current discounts wit those offered by the BCBS Network. In addition, Ferguson Employee Benefit Agency did a review comparing the top 100 codes by frequency, top 50 providers by cost, and top 10 hospitals by cost to further validate the results and ensure that network discounts were substantial enough to offset the increased administrative costs.

The City will be consolidating pharmacy benefits with BCBS eliminating other administrative expenses/costs associated with our current Pharmacy Benefit Manager and BCBS will also assume responsibility for managing the network access for mental health services. Funding for this contract is budgeted in the Health Insurance Fund.

City staff recommends City Council adopt resolutions authorizing the City Manager to enter in to service agreements with the City of Asheville and BCBS for Third Party Administrator services for the City of Asheville's health insurance plan.

**RESOLUTION BOOK NO. 34 – PAGE 357**

**G. RESOLUTION NO. 12-91 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER TO THE CURRENT CONTRACT WITH RIVERTOP CONTRACTING INC. FOR PACK SQUARE PARK MAINTENANCE TO ADD FOUNTAIN AND ADDITIONAL GROUNDS MAINTNEANCE AND TO EXECUTE AN AMENDMENT TO THE CURRENT CONTRACT INCORPORATING THESE CHANGES**

Summary: The consideration of a resolution authorizing the City Manager to execute a change order to the current contract with Rivertop Contracting, Inc. for Pack Square Park grounds maintenance to add fountain and additional grounds maintenance in the amount of $33,362 and to execute an amendment to the current contract incorporating these changes.

The City of Asheville is responsible for the maintenance of Pack Square Park and contracts with Rivertop Contracting, Inc. for maintenance at this location. Since entering into the contract with Rivertop, it has been determined to add specialized maintenance services for the three fountains located in the park, and to add general ground maintenance at the new pavilion which is about to open in the park. The cost to add these services to the current contract is $33,362, which is budgeted within the FY 2011-2012 adopted operating budget for Pack Square Park.

Pack Square Park Budget

| | | | |
|---|---|---|---|
| Revenue: | | $150,000 | City of Asheville |
| | | $150,000 | Buncombe County |
| | Total | $300,000 | |
| Expense: | | $90,000 | Rivertop Maintenance Contract |
| | | $33,362 | Rivertop Maintenance Contract Change Order |
| | Total | $123,362 | |
| (Over)/Under | | $176,638 | |

This action complies with the Parks, Recreation, Cultural Arts, and Greenways Master Plan in that the expanded contract will support a higher level of maintenance delivery for Pack Square Park.

Pros:

- Enables the City to maintain the pavilion area and the three fountains in Pack Square Park Pavilion Site at the level of maintenance standards required at this location.
- Provides for daily pavilion and fountain maintenance on a daily basis.

Con:

- None

The $33,362 to support the increased cost in the Pack Square Park contract is budgeted in the FY 2011-2012 Parks, Recreation & Cultural Arts Department operating budget as part of the Pack Square Park budget. In addition to funding the park maintenance contract, the $300,000 Pack Square Park budget is designed to support utilities and supply costs associated with operating park. The City and Buncombe County evenly split the operating costs associated with the Park.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute a change order to the current contract with Rivertop Contracting, Inc. for Pack Square Park grounds maintenance to add fountain and additional grounds maintenance in the amount of $33,362 and to execute an amendment to the current contract incorporating these changes.

**RESOLUTION BOOK NO. 34 – PAGE 358**

**H. RESOLUTION NO. 12-92 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A MUNICIPAL AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION APPROVING THE REPLACEMENT OF BRIDGE OVER POND ROAD AND HOMINY CREEK ON I-26**

Summary: The consideration of a resolution authorizing the City Manager to sign a municipal agreement with the N.C. Dept. of Transportation (NCDOT) approving the replacement of Bridge # 235 and # 238 over SR 3431 (Pond Road) and Hominy Creek on I-26.

The NCDOT plans to replace Bridge # 235 and # 238 over SR 3431 (Pond Road) and Hominy Creek on I-26. As a part of the agreement, the City agrees to effect the necessary adjustment of any utilities under franchise without cost to the NCDOT and to provide for the adjustment of any municipally-owned utilities without cost to the NCDOT, except that the NCDOT will reimburse the City in accordance

with the NCDOT's Municipally-Owned Utility Policy. These requirements are standard requirements in all of NCDOT's Municipal Agreements and may or may not be applicable for a specific project. Since the City of Asheville does not have any utilities under franchise, this specific requirement is not applicable. The Water Resources Department has reviewed the proposed project plans and has confirmed that municipally-owned water lines will not be relocated as a part of the subject project; therefore, a separate utility agreement, detailing the specific requirements and associated costs, is not needed.

The NCDOT has confirmed that the subject municipal agreement does not require a financial commitment.

This action complies with the City Council 2011-12 Strategic Operating Plan by partnering with the NCDOT to make improvements to the existing street infra-structure.

Pros:

- Two existing sub-standard bridges along the interstate highway system will be replaced.
- The NCDOT is funding and constructing the project.

Con:

- There are no identifiable cons.

There is no estimated cost to the City.

Staff recommends that City Council approve a resolution authorizing the City Manager to sign a municipal agreement with the NCDOT formally approving Project B-5178.

**RESOLUTION BOOK NO. 34 – PAGE 359**

**I. ORDINANCE NO. 4078 - BUDGET AMENDMENT FOR TWO PART-TIME TEMPORARY INTERNS**

Summary: The consideration of a budget amendment, in the amount of $ 3,600, from Warren Wilson College, to appropriate revenue and budget expenditure accounts associated with the payment for two part time temporary interns.

The City of Asheville and Warren Wilson College (WWC) formed a strategic partnership in June 2007 to collaborate in our efforts to reduce green house gas emissions. A valuable part of this partnership is to provide professional development opportunity to WWC students. Warren Wilson College will provide the funds for payment to these interns upon approval of this budget amendment request.

The Sustainability Education Intern will support energy efficiency outreach efforts in the Office of Sustainability. The Transit Intern will support information gathering for transit routes in the Transportation Department.

This action complies with the City Council Strategic Operating Plan in the following ways: (1) Seek efficiencies in master plan implementation by identifying plan interdependencies, funding sources and key partnerships; (2) Expand partnerships with institutions to achieve common goals; (3) Identify strategies and costs for increasing the city's annual energy reduction goal to 4%.

Pros:

- Internship supports the Transportation Department in implementing the Transit Master Plan
- Internship supports the City Office of Sustainability efforts to reduce carbon footprint of city operations

Cons:

- None identified.

The $3,600 for the interns' stipend will be funded through Warren Wilson College to be paid through the City of Asheville.

City staff recommends City Council adopt the budget amendment to appropriate revenue and budget expenditures associated with payment of an interns stipend.

**ORDINANCE BOOK NO. 27 – PAGE 353**

**J. RESOLUTION NO. 12-93 - RESOLUTION OF INTENT TO CLOSE A PORTION OF VICTORIA ROAD AND SET THE PUBLIC HEARING ON MAY 22, 2012**

Summary: The consideration of a resolution of intent to permanently close a portion of Victoria Road, and setting a public hearing on May 22, 2012.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjacent property owner Mission Hospital Inc. and Aycock Jr. and Owen E. et al William R has requested the City of Asheville to permanently close a portion of Victoria Road.

The proposed permanent closure of a portion of Victoria Road was on the Greenway Commission's agenda at their regular meeting on April 12, 2012, and they approved the closure unanimously.

This closure allows for maximum land use potential for further development complying with the Asheville City Development Plan, Land Use.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close a portion of Victoria Road, and setting a public hearing on May 22, 2012.

**RESOLUTION BOOK NO. 34 – PAGE 360**

**K. RESOLUTION NO. 12-94 - RESOLUTION OF INTENT TO CLOSE AN UNNAMED ALLEY IN BILTMORE VILLAGE AND SET THE PUBLIC HEARING ON MAY 22, 2012**

Summary: The consideration of a resolution of intent to permanently close an unnamed alley in Biltmore Village, and setting a public hearing on May 22, 2012.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjacent property owner's John William Bell Jr., Janis E. Bell and Wachovia Bank and Trust Company have requested the City of Asheville to permanently close an unnamed alley in Biltmore Village.

The proposed permanent closure of an unnamed alley in Biltmore Village was placed on the Greenway Commission's agenda at their regular meeting on April 12, 2012, and they approved the closure unanimously

This closure allows maximum land use potential for further development complying with the Asheville City Development Plan, Land Use.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close an unnamed alley in Biltmore Village, and setting a public hearing on May 22, 2012.

**RESOLUTION BOOK NO. 34 – PAGE 362**

**L. RESOLUTION NO. 12-95 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH SITE DEVELOPMENT CORPORATION FOR THE NORTH LOUISIANA SIDEWALK IMPROVEMENTS PROJECT – EMMA ELEMENTARY SCHOOL TO MALLARD DRIVE**

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $189,145.50 and any change order within the budgeted amount with Site Development Corporation for the project known as North Louisiana Avenue Sidewalk Improvements – Emma Elementary School to Mallard Drive, TIP# SR-5001D, City of Asheville Project # ENG-08-09-002.

The City of Asheville will receive $250,000 from FHWA through a Safe Routes to School grant to fund the project. A formal request for bids was issued on March 12th, 2012 and bids were opened on April 10th, 2012. Site Development Corporation, a business from Cliffside, NC, was the low bidder at $189,145.50. The disadvantaged business enterprise (DBE) goal of 4.0% was exceeded at 5.15%. This is a unit price contract and not a lump sum contract.

This project will build much needed sidewalk along North Louisiana Avenue. Pedestrians currently must walk on the side of the road, in a ditch, or in the street itself. Many children use this thoroughfare as well to reach Emma Elementary School. This project is not within the City limits, but is in the ETJ. The community has been active in getting this project underway and has garnered the support of the City of Asheville, NCDOT, and Buncombe County through a municipal agreement. The scope of work includes sidewalk, curb and gutter, drainage, retaining walls, wheelchair ramps, driveways, and utility relocation.

This action complies with the City Council Strategic Operating Plan in fully leveraging funding from the State and other sources for regional transportation improvements.

Pros:

- Improves pedestrian safety.
- Funded by a Safe Routes to School grant, with no City General Fund contribution.
- Encourages walking, thereby reducing carbon emissions.
- Future maintenance will be paid for by Buncombe County.

Cons:

- The City could be contracted by Buncombe County for future maintenance of the project.
- Project management and contract administration will consume staff time.

This project will bring $189,145.50 of transportation infrastructure improvements at minimal cost to the City. There is a total of $250,000 budgeted for this project. As noted above, this project is fully funded with grant proceeds.

City staff recommends City Council adopt a resolution awarding the contract to Site Development Corporation and authorizing the City Manager to execute on behalf of the City of Asheville the contract and any change order within the budgeted amount.

**RESOLUTION BOOK NO. 34 – PAGE 363**

**M. MOTION RESCHEDULING THE PUBLIC HEARING ON THE MUNICIPAL SERVICE DISTRICT FOR DOWNTOWN ASHEVILLE FROM MAY 22, 2012, TO JUNE 12, 2012**

**N. RESOLUTION NO. 12-96 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AMENDMENT TO EASEMENT FOR PACK PLACE EDUCATE ARTS & SCIENCE CENTER**

Summary: The consideration of a resolution authorizing the City Manager to execute an amendment to an easement to allow for the installation of electrical service lines for a sign on the western or Biltmore Avenue façade of Pack Place.

The City owns the real estate on which Pack Place Education Arts & Science Center is located. Pursuant to a complex set of agreements, and as owner of the property, the City has the authority to grant easements for various purposes in connection with the operation of Pack Place.

The Diana Wortham Theatre is one of the facilities located in Pack Place. As part of the reallocation of space within the building, the main entrance to Pack Place that is on Pack Square will be used primarily by the Art Museum, and the main entrance to the Diana Wortham Theatre and the Colburn Earth Science Museum is being moved to the courtyard, which is accessed from Biltmore Avenue. In connection with this move, Diana Wortham Theatre proposes to locate a sign on the Biltmore Avenue façade of the building. The sign will also serve the Colburn Museum. In order to provide electrical power to the sign, it is necessary to run a conduit through the courtyard, which is essentially unimproved common area under the control of the City of Asheville. The conduit will be installed in an unobtrusive manner, and a conceptual drawing of the façade sign will be available at the Council meeting, if not attached.

This action aligns with City Council's Strategic Operating Plan in the goal of supporting a vibrant and active center city, as expressed in the Downtown Master Plan.

Pros:

- Allows for better identification of the entrance to Diana Wortham Theatre and the Colburn Earth Science Museum.
- Supports the renovation of Pack Place.

Cons:

- Slight additional burden on an existing easement.

Recited consideration of $10 to the City. Negligible financial impact.

Adoption of the resolution is recommended.

**RESOLUTION BOOK NO. 34 – PAGE 364**

Vice-Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Hunt and carried unanimously.

**III. PRESENTATIONS & REPORTS: None**

**IV. PUBLIC HEARINGS:**

**A. PUBLIC HEARING TO CONSIDER ADOPTION OF THE CONSOLIDATED ACTION PLAN FOR FISCAL YEAR 2012 WHICH SETS OUT THE PROPOSED USE OF FEDERAL COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS**

**RESOLUTION NO. 12-97 - RESOLUTION ADOPTING THE CONSOLIDATED ACTION PLAN FOR FISCAL YEAR 2012 WHICH SETS OUT THE PROPOSED USE OF FEDERAL COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS**

Community Development Director Jeff Staudinger said that this is a public hearing to receive comments regarding the proposed Consolidated Action Plan for Fiscal Year (FY) 2012-2013, which sets out the proposed use of federal Community Development Block Grant (CDBG) and HOME Investment Partnership Act (HOME) funds for the coming fiscal year; followed immediately by Council's consideration of a resolution authorizing submission of this Consolidated Action Plan to the US Department of Housing and Urban Development.

The City will have available an estimated $1,213,892 in CDBG funds and $1,039,140 in HOME funds in the fiscal year beginning July 1, 2012. The City's Housing and Community Development Committee has made recommendations for the use of CDBG funds, which must be used in housing or community development programs in Asheville, and the Asheville Regional Housing Consortium has recommended uses for the HOME funds, which must be used for housing programs within the four-county Consortium area (Buncombe, Henderson, Madison, and Transylvania counties). A total of 31 programs are recommended for funding. Allocations are consistent with the proposed Strategic Housing & Community Plan for 2010-2015.

This proposed Action Plan reflects a 16% reduction in CDBG Entitlement funding from last year (on top of a 16% cut last year from the year before), and a 26% reduction in HOME Entitlement funding. The CDBG cuts were buffered somewhat by the receipt of Program Income, which is returned to the grant fund for reallocation. The CDBG grant this year is $26,601 less than last year. The HOME grant funds are $384,224 less than last year. This combined funding cut of $410,825 this year, following last year's cut of $388,187 continues to have repercussions internally and externally. The Community Development Division will maintain its staffing this year using reserved prior year funds but significant cuts are being felt across the board by all subrecipients and their community development projects.

HOME funds and CDBG funds will assist in creating or improving 190 housing units and helping an additional 229 households afford housing Consortium-wide. CDBG funds will also benefit more than 3,775 low-income City residents through homeless services, housing counseling, small business assistance, and other needed services. Our partner agencies will contribute approximately $18,513,000 of other funding to these programs, leveraging $8.21 for every $1 of HOME and CDBG funds.

A public hearing will be held at the Council meeting of April 24. Comments received at the meeting will be incorporated into the Plan, as will comments submitted in writing. The plan is due to be submitted to HUD by May 15.

This Annual Action Plan directly supports Council's Strategic Goals of:

- Affordable: This plan directly supports the City's affordable housing plan, uses innovative public-private partnerships to incentivize affordable housing development, and supports initiatives to end chronic homelessness emphasizing the Housing First model;
- Green and Sustainable: works with regional partners creating green buildings and energy conservation;
- Safe: Supports employment alternatives for youth at risk of gang exposure
- Job Growth and Community Development: Supports diversified job growth and small business development; promotes sustainable high-density infill growth; and attracts and retains quality employees.

Pros:

- Approval of the Action Plan paves the way for the receipts of over $2,200,000 of HUD funding to the City, which will be used to create affordable housing, create jobs, and improve public infrastructure.
- HUD funding will leverage $18,500,000 of additional funding for these projects.
- Reflects the carefully considered recommendations of the City's Housing & Community Development Committee and the Asheville Regional Housing Consortium.

Con:

- It is not possible to fund all the applications received, and most of those funded will receive less than the amount requested.

The Action Plan is fully funded from federal CDBG & HOME entitlement grants, unused funds from previous completed projects, and estimated program income. Staff costs to administer the program are also fully paid from federal sources. The funded programs will provide new construction and other economic activity in the City and region, creating and sustaining employment. New assisted housing units to be constructed in Asheville will add to the City's tax base.

Staff recommends approval of the resolution authorizing submission of the City's Consolidated Annual Action Plan for 2012-13 to the U. S. Dept. of Housing and Urban Development.

Staff recommends approval of the resolution authorizing submission of the City's Consolidated Annual Action Plan for 2012-13 to the U. S. Dept. of Housing and Urban Development.

Councilman Davis, Chair of the Housing & Community Development Committee, said it was very difficult for the Committee to make their recommendation in that all the requests were for good projects, but regrettably there was not enough money to fund everything.

Vice-Mayor Manheimer opened the public hearing at 5:40 p.m. and when no one spoke, she closed the public hearing at 5:40 p.m.

Vice-Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Pelly moved for the adoption of Resolution No. 12-97. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 34– PAGE 365**

**B. PUBLIC HEARING TO REZONE A PORTION OF PROPERTY LOCATED ON GERBER ROAD FROM URBAN VILLAGE DISTRICT/CONDITIONAL ZONING TO COMMERCIAL BUSINESS II DISTRICT**

**ORDINANCE NO. 4079 - ORDINANCE REZONING A PORTION OF PROPERTY LOCATED ON GERBER ROAD FROM URBAN VILLAGE DISTRICT/ CONDITIONAL ZONING TO COMMERCIAL BUSINESS II DISTRICT**

Urban Planner Alan Glines said that this is the consideration of an ordinance to rezone a portion of property located on Gerber Road from Urban Village District/Conditional Zoning to Commercial Business II District. This public hearing was advertised on April 13 and 20, 2012.

The current application is to rezone 4.25 acres of the original Gerber Urban Village property from Urban Village (UV) to Community Business Two (CB II). Last fall, the developed portion which includes the shopping center (about 7.22 acres) was rezoned from UV to CB II because the bank holding the note on the development foreclosed on the property and subsequently sold the different parcels to new owners. As was noted during that rezoning request, the Urban Village zone was created in 2001 and was applied to the large Gerber tract along with a master development plan. Only a portion of the site fronting along Hendersonville Road was actually built and a large section of the property (about 16 acres) has remained vacant. The downturn in the economy has been discussed as the main cause for the failure of this urban village project.

The parcel under consideration with this application is located on the south side of Gerber Road and is physically disconnected from the other portions of the site. The property cannot stand alone as an Urban Village because it does not meet the standard size for UV zoned areas (5 acres) and the buildable area is limited because a sizable portion of the lot that runs along Gerber Road is too narrow for development. The request to rezone the property to CB II is based on the size of the property and its limited buildable area with access from Gerber Road. . The intended scale for development in the CB II zone is appropriate for smaller parcels located along streets such as Gerber Road.

The proposed CB II zone is intended to provide areas for medium to high density commercial uses serving several residential neighborhoods. The district requires parking to be placed to the side or rear of the building which is a pedestrian oriented building standard to encourage pedestrian access and movement through the district. The location for CB II zoned areas is appropriately located on major thoroughfare streets to ensure adequate access. The list of allowed uses is extensive in anticipation of the wide range of commercial uses needed to serve as a community base. Individual buildings cannot exceed 45,000 square feet.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable because the larger Urban Village project is being redirected because the property has been divided up and sold to different buyers and because the CB II zone is appropriately scaled for smaller lots like the subject parcel.

The Planning and Zoning Commission reviewed the rezoning request at their meeting on April 4, 2012. The only comment was from the owner's agent. Because of a recent rezoning for the Gerber Village area and a current conditional zoning proposal for apartments for the other remaining portion of the parcel, this rezoning request was expected given the changes in the development direction for the entire Gerber Village property. The Planning and Zoning Commission voted 5-0 (with 2 absent) to recommend approval of the rezoning request.

Pros:

- The proposed rezoning is responsive to changing market conditions and economic realities.
- The proposed zoning will be compatible with the scale of the parcel and the surrounding area.
- The zoning change is expected to encourage investment on the parcel.

Con:

- Mixed-use projects are becoming unlikely for this site and the surrounding area.

The Planning & Zoning Commission recommended approval of the rezoning from UV to CB II and staff supports that recommendation.

Vice-Mayor Manheimer opened the public hearing at 5:44 p.m. and when no one spoke, she closed it at 5:44 p.m.

Vice-Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4079, subject to the following conditions: (1) This project will undergo review by the appropriate reviewing body prior to the issuance of any site development permits; (2) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10, of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with the ordinance will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; and (3) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 355**

**C. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY IDENTIFIED AS GIVENS PARK APARTMENTS, LOCATED ON GERBER ROAD, FROM URBAN VILLAGE DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A 240 UNIT ELDERLY AFFORDABLE HOUSING COMPLEX, WITH A MODIFICATION REQUEST TO SECTION 7-11-3 (D) (3) (C) OF THE UNIFIED DEVELOPMENT ORDINANCE TO ALLOW FOR THE PLACEMENT OF REQUIRED STREET TREES**

**ORDINANCE NO. 4080 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY IDENTIFIED AS GIVENS PARK APARTMENTS, LOCATED ON GERBER ROAD, FROM URBAN VILLAGE DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A 240 UNIT ELDERLY AFFORDABLE HOUSING COMPLEX**

Urban Planner Nate Pennington said that this is the consideration of an ordinance to conditionally zone property identified as Givens Park Apartments, located on Gerber Road, from Urban Village District to Highway Business District/Conditional Zoning for the development of a 240 unit elderly affordable housing complex, with a modification request to Section 7-11-3 (d) (3) (c) of the Unified Development Ordinance to allow for the placement of required street trees. This public hearing was advertised on April 13 and 20, 2012.

The applicant is requesting a Conditional Zoning for a portion of one (1) parcel zoned UV (Urban Village to HB-CZ (Highway Business – Conditional Zoning) for the development of a 240 unit senior housing development in accordance with Section 7-7-8 of the UDO.

The subject property consists of a portion of one parcel comprising 16.95 acres (split by Gerber Road) according to the submitted site plan and is located in the City of Asheville's corporate limits. The property is located along the north side of Gerber Road and behind the Gerber Village Shopping Center on Hendersonville Road. If approved, the subject property would be subdivided into two (2) separate parcels which would create separate tracts of land on each side of Gerber Road. The portion of property (4.25 acres) south of Gerber Road is being considered for a standard rezoning under a separate

application. The proposed project density is 18.6 units per acre. The maximum density permitted in the HB zoning district is 32 units per acre.

The following list provides a breakdown of the proposed development:

- 5 story construction
- 2 apartment buildings - 240 total units (120 units per building)
- 188 – one bedroom units
- 52 – two bedroom units
- Covered pavilion, leasing area, walking trails and outdoor seating areas
- Large surface parking fields
- Approximately 800 linear feet of retaining walls, ranging in height from 5 to 8 feet
- New public sidewalk and other basic site improvements

The subject property is vacant and was previously graded to support the Gerber Village development. With the exception of existing evergreen trees along Gerber Road, the site is mostly void of vegetation.

The apartment project is proposed to be built in two (2) phases with one (1) building and associated parking to be constructed in each phase. The pavilion/seating area and a trail system are proposed to be built as part of phase I.

Access to the site is proposed to be provided from three points of ingress/egress (one is ingress only) along Gerber Road.

According to the site plan, 318 parking spaces are provided. This amount of parking is well within the minimum/maximum parking threshold and is inclusive of required ADA spaces. Sixteen bicycle parking spaces are provided and this number is in compliance of the required 5% bicycle parking standard. Vehicle parking is dispersed throughout the site with the majority of parking located to the sides and rear of the proposed buildings.

Street trees will be required along the entire frontage of Gerber Road – with one modification being requested (see below). Building impact and retaining wall landscaping are dispersed throughout the site. Parking lot landscaping has been provided in applicable areas and tree save areas are located towards the perimeter of the site.

The open space requirement for this type of development is 15% of the total site size; a total of 2.45 acres for this site. The site plan illustrates that more than adequate open space has been reserved to meet this requirement.

Section 7-11-3(d)(3)c. of the UDO provides that street trees are required to be located no farther than 20 feet from the edge of pavement. Due to the location of existing underground and overhead utilities as well as a natural gas relief valve platform along Gerber Road, the applicant is requesting a modification to place required trees as far back as 35 feet from the edge of pavement. **The staff finds this request to be reasonable and supports the modification.**

A continuous sidewalk will be constructed along Gerber Road.

This proposal was approved with conditions by the Technical Review Committee on March 19, 2012.

This proposal, together with the modification request listed above, was approved unanimously with conditions by the Planning and Zoning Commission on April 4, 2012. One audience member suggested that the project include urban gardening options, and asked about transit options near the project.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
The subject property is vacant and was previously graded years ago to support the Gerber Village development. The property is surrounded by high intensity commercial uses, vacant property, road infrastructure and an active rail line. The proposed infill development is clustered towards the center of the site and will be planted with required landscaping.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
As noted in Finding #2, the proposed development is compatible with surrounding uses and adjacent transportation corridors.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
As noted in Finding #2, the development is proposed in an area surrounded by other uses of similar intensity and served by adequate infrastructure. The proposed density is approximately one-half of the permitted residential density for the HB zoning district and is currently zoned to accommodate a much higher density.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
Elements of the proposal are aligned with the City's goals and objectives for "Affordable" and "Green and Sustainable," as noted in the Compliance with Comprehensive Plan and other Adopted Plans section (listed above).

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
The property is located along Gerber Road in the vicinity of Sweeten Creek Road and Hendersonville Road. The nearest bus stop is approximately 100 feet north of the Gerber Village Shopping Center along Hendersonville Road and a pedestrian access point is proposed allowing for ingress/egress into the shopping center from the project. Adequate water supply, fire and police protection, waste disposal and similar facilities are verified during the TRC review process.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
The impact of the proposed use as revised (Givens Park Apartments) is expected to be substantially less than the density associated with the previously approved Urban Village residential use. As a result, the revised proposed use is not expected to cause undue traffic congestion or create a traffic hazard.

Based on the above findings and the analysis provided in the report, staff finds this request, with conditions noted, to be reasonable.

Pros:

- Higher density development furthers the goals and objectives of the comprehensive plan.
- The project meets City goals of providing green, affordable and infill development.

Cons:

- None noted.

Staff recommends approval of the project, including the modification request, as submitted by the applicant, with the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) All site lighting must comply with the City's Lighting Ordinance and be equipped with full cut-off fixtures (including wall packs) and directed away from adjoining properties and streets. A detailed lighting plan will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee if applicable; (3) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (4) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards; (5) This project will undergo final review by the TRC prior to issuance of any required permits; and (6) A minor subdivision application must be submitted and approved to create the lot to the south of Gerber Road that is being rezoned as part of a separate application.

Vice-Mayor Manheimer opened the public hearing at 5:48 p.m.

Mr. Tracy DeBruhl urged the developer to use local labor.

Mr. Matt Sprouse, SiteWorks Studio, explained how they are excited about the project and how it fits a need n the community.

Vice-Mayor Manheimer closed the public hearing at 5:51 p.m.

Council members spoke in support of the project, and even though they cannot mandate the developer to use local labor they would encourage it.

Vice-Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4080 to conditionally zone property identified as Givens Park Apartments located on Gerber Road, from Urban Village District to Highway Business District/Conditional Zoning for the development of a 240 unit elderly affordable housing complex, with the modification to place required trees as far back as 35 feet from the edge of pavement, and subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) All site lighting must comply with the City's Lighting Ordinance and be equipped with full cut-off fixtures (including wall packs) and directed away from adjoining properties and streets. A detailed lighting plan will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee if applicable; (3) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (4) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards; (5) This project will undergo final review by the TRC prior to issuance of any required permits; and (6) A minor subdivision application must be submitted and

approved to create the lot to the south of Gerber Road that is being rezoned as part of a separate application. This motion was seconded by Councilman Bothwell and carried unanimously by a 7-0 vote.

**ORDINANCE BOOK NO. 27 - PAGE 357**

**D. PUBLIC HEARING TO REZONE A PORTION OF PROPERTY LOCATED AT 2 COMPTON DRIVE FROM RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT TO INSTITUTIONAL DISTRICT**

**ORDINANCE NO. 4081 - ORDINANCE REZONING A PORTION OF PROPERTY LOCATED AT 2 COMPTON DRIVE FROM RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT TO INSTITUTIONAL DISTRICT**

Urban Planner Blake Esselstyn said that this is the consideration of an ordinance to rezone a portion of property located at 2 Compton Drive from RS-8 Residential Single Family High Density District to Institutional District. This public hearing was advertised on April 13 and 20, 2012.

Eliada Homes, Inc. has petitioned the City of Asheville to rezone a portion of their 203.41 acre property off of Compton Drive from RS8 to Institutional. The property abuts existing Eliada Homes property that is zoned institutional to the north and east. The subject property contains a single-family home and a portion of the drive for Erwin Hills Baptist Church accessing from New Leicester Highway.

The applicants are petitioning for this rezoning in order to perhaps develop the property as part of the Eliada Homes operation sometime in the future. The other 198 acres owned by Eliada Homes is zoned Institutional. Access to the property for institutional purposes would be via Compton Drive or off a shared drive with the church.

The property to be rezoned is 5.4 acres in size. It is relatively flat near Compton Drive but slopes sharply down to New Leicester Highway.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

This rezoning request was recommended for approval by a 5-0 vote at the Planning & Zoning Commission meeting on April 4, 2012. There were no speakers in the public hearing.

Pros:

- Addresses the goal found in the Asheville City Development Plan: 2025 that appropriate non-residential uses that serve residents should be permitted in appropriate locations.
- Allows for all property owned by an institutional operation to be zoned as Institutional.

Con:

- None noted

Staff finds this request to be reasonable and recommends approval of this rezoning petition.

Vice-Mayor Manheimer opened the public hearing at 5:56 p.m., and when no one spoke she closed the public hearing at 5:56 p.m.

Vice-Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Pelly moved for the adoption of Ordinance No. 4081, and find that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City. This motion was seconded by Councilman Smith and carried unanimously.

**E. PUBLIC HEARING TO DEMONSTRATE SUPPORT AND SOLIDARITY BY ASHEVILLE WATER CUSTOMERS IN DEFENDING OWNERSHIP OF ITS WATER SYSTEM**

Vice-Mayor Manheimer said that they now have the report from the Legislative Research Commission studying this issue. They made the following three recommendations: (1) That the Metropolitan Sewerage District Act be amended (a) to allow Henderson County to have two board members on the MSD board (reducing the number of seats Asheville has from 3 to 1 and reduce the number of Buncombe County seats from 3 to 2); and (b) to allow MSD to run a water system; (2) That the Conservation Trust for North Carolina continue to work with the City of Asheville as the parties consider clarifying the 1996 Asheville Watershed Conservation Easement; and (3) Merging the Public Utility Water System with the Metropolitan Sewerage District of Buncombe County (MSD would take over the running of the water system entirely). The report says that they will not take any action until the next legislative session in January, 2013. Asheville has until January 2013 to enter into good faith negotiations with MSD to work out an agreement where Asheville would not run the water system and as long as we are engaged in that discussion, the legislature would not act to take our water system and merge it with MSD.

Mayor Bellamy had asked Vice-Mayor Manheimer to convey the message that now that we have the Legislative Report there is more opportunity for community discussion regarding this topic. Tonight will not be the last opportunity to speak about this issue at a public hearing.

Councilman Pelly said that since the Legislative Research Commission began their work earlier this year they held four public hearings of which three of those took place in Raleigh and the other took place at the WNC Ag Center near the Airport. There has not been any formal public hearing within the City of Asheville, despite the fact that the City of Asheville is the owner of the water system that serves Asheville and Buncombe residents. He had requested this public hearing so that Asheville residents who will be affected by the decisions made in Raleigh have an opportunity to voice their comments on this issue. This public hearing was advertised on April 13 and 20, 2012.

Vice-Mayor Manheimer opened the public hearing at 6:04 p.m.

The following individuals spoke in support of Asheville retaining ownership of the water system and urged Council to stand strong and fight for Asheville's continued ownership and operation of the City water system as they have been good stewards of this asset:

Peter Gentling, Asheville resident
Barry Summers
Heather Rayburn
Cheryl Wolf, Woodfin resident
Lois Hodgson
Teddy Jordan, President of Kenilworth Residents Association and Asheville resident
Mike Blankenship, Asheville resident
Christopher Chiaronmonte
Leni Sitnick, Asheville resident
Ellen Lyle, Asheville resident
Tom English, Asheville resident
Valerie Hoh, representing the Coalition of Asheville Neighborhoods
Steve Rasmussen
Milton Byrd
Tracy DeBruhl
Susan Fisher, Arden resident
Fred English, Asheville resident
Byron Greiner, Chairman of the Issues Committee for the Asheville Downtown Association

Clare Hanrahan

Vice-Mayor Manheimer closed the public hearing at 6:56 p.m.

Councilman Bothwell urged our residents to get involved.

Vice-Mayor Manheimer said that it is unknown what the water rates will be for County residents.

Councilman Smith hoped we can appeal to legislators in the General Assembly to recognize the excellence to which the City of Asheville has managed its water system, to recognize the consensus formed around maintaining Asheville's management of its water system and that those in Raleigh will see the folly of pursuing Rep. Moffitt's unilateral hope.

**Closed Session**

At 7:02 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: State of North Carolina; J. Jerome Jensen, et al (Biltmore Lake Annexation); cities of Rocky Mount, Goldsboro, Wilmington, Kinston and Lexington; and the City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (2) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:29 p.m., Councilman Smith moved to come out of closed session. This motion was seconded by Councilman Hunt and carried unanimously.

**A. ASHEVILLE-BUNCOMBE FOOD POLICY COUNCIL REPORT**

Councilman Smith presented Council with the results of a lot of hard work from our community and hoped that we can agree to continue moving forward for a food secure Buncombe County. He thanked Council for already choosing to allow markets in residential neighborhoods and to join in NC Cooperative Extension's 10% Campaign and for the historical support of the farmer's markets around Asheville. This is another opportunity that we have to alleviate poverty, reduce hunger in our community, improve public health, expand local commerce and make a more sustainable community.

The Future of food in Asheville & Buncombe County addressing poverty, public health, local commerce and sustainability through food security. The world health organization defines food security as existing "when all people at all times have access to sufficient, safe nutritious food to maintain a healthy and active life."

Regarding regional food security, (1) 14% of Buncombe County's 15 zip codes contain a food outlet of some sort yet 1 out of 6 people in WNC experience food insecurity; (2) 27% increase in county residents receiving food assistance in 2012; and (3) 50% of students within Buncombe County School system were enrolled in the free and reduced lunch program during 2009-10 year, up from 47% the previous year.

Problems associated with food insecurity include (1) Impaired mental and physical development in young children; (2) Food insecure children are 90% more likely to be in fair or poor health than food secure children; (3) A poorly prepared and uncompetitive work force; and (4) Family and personal instability, where uncertainness over "the next meal" creates a roadblock to dealing with other problems.

Causes of food insecurity include (1) "Food Deserts"-areas that do not have a convenient, affordable, healthy food source nearby, or full scale grocery store; (2) High prices for healthy food even

when it is available; (3) Inadequate cooking education and nutrition information; (4) Limited public awareness on the necessity and accessibility of affordable, healthy food; and (5) The availability of *Local sustainable food* to the population.

The mission of the Asheville-Buncombe Food Policy Council will identify and propose innovative solutions to improve local food systems, spurring local economic development and making food systems environmentally sustainable and socially just.

Community stakeholders include: Manna, Children First, Bountiful Cities, Asheville Housing Authority, Green Opportunities, Mountain Housing Opportunities, Advantage West, Mission Hospital, NC Health & Wellness Center, Healthy Buncombe, Office of Heath Shuler, Chamber of Commerce, ASAP, Asheville Independent Restaurant Association, Pioneering Healthy Communities, Rainbow in my Tummy, Slow Food Asheville, Council on Aging, Jewish Community Center, YWCA, ABCCM, WNCA, Transition Asheville, Interfaith Group, NC Cooperative Extension, AB-Tech, UNC Asheville, Warren Wilson, Asheville City School Foundation, Land of Sky, Just Economics, Youth for Empowered Solutions, Women's Wellbeing Fund, Homeward Bound, Mountain Valley Resource Conservation, French Broad Food Cooperative, and many individuals and businesses.

We have enormous opportunities regarding our community's commitment to ensuring a stable, healthy, and affordable food supply. Food security encompasses issues of poverty, public health, local commerce, and sustainability.

Local food is a simple, convenient, and powerful tool to achieve food security. Local food is reliably healthy and beneficial to the economy, and Local food increases access and affordability of fruits and vegetables.

Improving food security infrastructure (1) If the food and farm economy were expanded in WNC an additional $200 to $300 million would be spent on locally sourced food within the region; (2) expanding could increase employment opportunities; and (3) Local food expansion could address poverty, public health, commerce, and sustainability within any community or region.

Some cities that have passed local food policies include Baltimore, Philadelphia, Seattle, San Francisco, Bloomington, Cleveland, Milwaukee, Nashville, NYC, Chicago, Portland, Oakland, Minneapolis, Detroit, Providence, Kansas City, Austin, Santa Monica, Denver, Ann Arbor, and Santa Fe.

Potential policies (planning/land use) (1) Identify arable city-owned land and issue an RFP for organic, GMO-free food production, with a focus on Permaculture; (2) - Modify zoning rules to allow increased food production – greenhouses, gardens; (3) - Home-based cottage industries allowance for small-scale, value-added products; (4) UDO allowances for innovative methods of production (aquaculture, vertical farming, rooftop gardens, etc.); and (5) - Identify barriers to food production in residential neighborhoods and seek remedies.

Potential policies (parks & recreation) (1) Utilize parks to grow food and have community programming regarding health, nutrition, and gardening; (2) - Edible and medicinal landscaping in all public parks and rights of way; (3) - Partnership with gleaning organizations to distribute produce from edible trees, plants in parks and rights of way; and (4) - Liability waiver for volunteers helping to tend food production in parks. Make it easier for grassroots efforts to happen.

Potential policies (community development) (1) Utilize community centers for farmers' markets and CSA distribution; (2) Encourage food distribution in underserved communities by establishing market areas in each neighborhood, based on neighborhood preferences; (3) Seek incentives for food distributors in food deserts; (4) Allocate funds to non-profits involved in food security efforts; and (5) Encourage mobile markets for low-income communities, especially those in food deserts.

Potential policies (schools) (1) Identifying qualifying students who aren't enrolled in free and reduced lunch; (2) Prioritize local, fresh foods in cafeterias; (3) For qualifying students – identifying needs

outside of school for food, expand on "summer feeding sites"; and (4) Partner with Parks/Rec to provide feeding sites (would also increase participation with Parks/Rec initiatives). Other partners might include AB Tech, AIR DINER, GO, MANNA, Salvation Army, and Meals on Wheels.

Potential policies (economic development) (1) Seek grant opportunities for food production, processing, and distribution; (2) Recruit businesses focused on food processing and distribution in identified food deserts; (3) Incentivize food system development particularly in regard to processing; (4) Encourage home-based cottage industries for small-scale, value-added products; (5) Incent innovative methods of production (aquaculture, vertical farming, rooftop gardens, etc.); and (6) Provide incentives for local restaurants and food trucks to participate in the NC Cooperative Extension's 10% campaign. Ideas include the city providing advertising on public transit for participating businesses.

Potential policies (emergency) (1) Initiate a "Resilient Neighborhoods" program, i.e. assist neighbors in putting together knowledge and goods that would help them in the event of a shortage of food; and (2) Ensure fuel availability to food producers, processors, and distributors in the event of an extended fuel shortage.

Other potential policies (1) Replace contents of city vending machines with healthy food choices; (2) Implement CSA program for City Employees; (3) Utilize local, healthy foods in city commissary; (4) Investigate the potential for a citywide composting program alongside trash and recycling with a central point for community access to compost; and (5) Support community gardens and urban agriculture through resolutions.

Goals of Council include (1) Improve food sustainability within the region; (2) Coordinate production and distribution to increase efficiency; (3) Expand food education; (4) Improve land usage; and (5) Increase access of healthier food options.

Food systems cross governmental and geographic lines, and only by partnering with others can we take the necessary steps to create a food secure future. Asheville will work with all of our partners to ensure that food policies integrate sustainably with others' efforts, plans, and visions.

Councilman Hunt said this Food Policy Council effort is broader than the City of Asheville. There has been enough focusing in on general notions of what can be achieved community-wide and now we need to understand what policies might be realistic to achieve and what might be priorities on a city level. Therefore, he moved to direct staff to explore the proposals of the Food Policy Council to consider which components might become policy for the City of Asheville. This motion was seconded by Councilman Bothwell.

Councilman Bothwell took part in the first large meetings of the communications team and this dovetails nicely with what the Tree Commission is looking at, which is to make Asheville a Bee City and start planting trees that are good for bees. He suggested this Report go through the Tree Commission and the Sustainable Advisory Committee on Energy & the Environment (SACEE).

Councilman Davis felt that food security is very important and there is no need for hunger in our community. He liked Councilman Bothwell's suggestion of having SACEE review the report first. He felt the motion on the floor needed further refinement because some policy changes would require Unified Development Ordinance amendments, etc.

Councilman Hunt did not intend the motion to direct staff to move to any specific policy amendments at this stage. He was looking for simple exploration and refinement of what might fit policy-wise.

In response to Councilman Hunt, City Manager Jackson said that the Food Policy Council report is an excellent community initiative. There are a couple of ways to ask our organization to get behind it. One is to facilitate policy changes or implement programs and response to it affirmatively like we have with other partnerships. We can meet people half-way very effectively. Council's strategic goals for the

year suggest that we would, in fact, do that. We have a City adopted Greenway Plan, a Sidewalk Plan, a Sustainability Plan, and 14-15 other master plans that have gone through an extensive process. Those are City-adopted master plans, not a community plan. If Council refers this to SACEE, we will have to define our role. We are already responding with freeing up market regulations, etc., and as initiatives come forward, we can respond to those and move those to priority status, given Council direction. There are two roles and depending upon Council's direction now, or the direction that may come out if Council refers this to SACEE, may require additional discussion and maybe resource allocations.

Councilman Smith said that he broke the presentation down into the different departments so each department could look at some of the pieces. He said some of this movement is already going on and if we can allow time for staff to look at these things and see how it fits into the strategic goals we have, we might be able to see the "low hanging fruit" and what things we are going to have to open up a longer, more deliberative process to approach.

Councilman Hunt suggested that SACEE take a leadership role and provide a report to Council in nine months and over that time engage with staff and explore what sort of things can come out from a refinement standpoint. Councilman Smith confirmed that during that time, departments will look at those things and deliver their cursory findings to SACEE and then have SACEE re-package and bring it back to Council.

Councilman Hunt withdrew his motion.

It was the consensus of Council to have SACEE look at the Food Policy Council's sustainability initiatives to see how they fit into the Sustainability Plan we have and for SACEE to provide a report back to Council in nine months. City Manager Jackson said that SACEE may also want to recommend to Council the significant partnerships as well. He would ask that SACEE not only look at what we can do for this program, but what the larger community effort will be and compliment it.

City Manager Jackson suggested a joint worksession between the Food Policy Council and SACEE to begin talking about how they can collaborate on the larger program and then bring it down to the City role and participation.

## VI. NEW BUSINESS:

### A. REVIEW OF CURRENT SKATEBOARDING ORDINANCE

Assistant City Manager Jeff Richardson said that this is a review of the current skateboard ordinance to either: (1) Strengthen the Police Department's ability to enforce the no-skateboarding provision in the city's business district by amending the current ordinance to disallow riding skateboards in cross-walks, and installing informational signage accordingly, or (2) Permit skateboarding in the Central Business District's (CBD) roadways as a "green" mode of transportation.

The City's current skateboard ordinance prohibits skateboarding upon any roadway, except while crossing a street on a crosswalk. This prohibition applies throughout the City, regardless of the type of district the roadway is located. Additionally, skateboarding is prohibited on any sidewalk in a business district. This particular prohibition applies in business districts only; skateboarding is allowed on sidewalks in all other districts.

Currently, the Asheville Police Department enforces the skateboard ordinance by either a citation or verbal warning; an average of 20-30 citations and countless verbal warnings are issued each year to skateboarders in the Central Business District. Because these citations enter the judicial system, a District Court Judge requested that informational signage be placed in the CBD informing the public of no skateboarding in the district. In addition, the judge also asked that the ordinance be modified to disallow skateboarding in cross-walks, in an effort to clarify the restriction and provide consistency throughout downtown.

On a separate but parallel track, skateboard advocates previously approached the Public Safety Committee in 2010 and asked the City to evaluate skateboarding as a means of green transportation in the Central Business District on downtown streets. At that time, the Police Department expressed concerns with traffic safety dangers to the skateboard operator, pedestrians, and motor vehicles.

Skateboarding advocates point to skateboarding as an alternative form of transportation, and if allowed, providing for an additional multi-modal option for citizens to get to and from work across the CBD, by allowing more expeditious movement throughout the downtown in general, similar to bicyclists.

Benchmark North Carolina Cities:

The North Carolina General Statutes do not address skateboards. This issue is usually governed by local ordinances. Several regional cities were identified to currently prohibit skateboarding in their core downtown areas, to include:

- Chapel Hill: No skateboarding on core streets downtown.
- Charlotte: No skateboarding on any roadway except to cross a street.
- Durham: No skateboarding on any roadway, except while crossing the street at a crosswalk and except upon streets set aside as play streets.
- Fayetteville: No skateboarding on any roadway, except while crossing a street at a crosswalk/intersection.
- Greenville S.C. No skateboarding in the Central Business District or any road designed for vehicular traffic posted more than 30 mph.
- Greensboro: No skateboarding on roadways throughout the city and any sidewalk in the CBD.
- Raleigh: No skateboarding on any roadway, except for crossing a street at a crosswalk, or upon streets as play or sledding streets.
- Wilmington: No skateboarding on streets, sidewalks, public park, or public vehicular area located in the CBD or Riverwalk.

Nationally, city staff identified several cities, to include Portland, Oregon, which allow skateboarding in certain areas of downtown. Portland, in contrast to Asheville, has significant bike lane infrastructure connectivity throughout its downtown, connecting back to greenways reaching to most areas of the city. Lastly, Portland, which is commonly referred to as the skateboarding capital of the U.S., also boasts five skateboard parks, and roadway signage and connectivity framing out a skatepark system. Additional cities, to include Seattle and San Antonio have embraced the idea of multi-skatepark systems.

This action aligns with City Council's Strategic Operating Plan in the area of Asheville as a Safe City/Asheville as a multi-modal city.

City Council has emphasized integration and implementation of a multi-modal transportation plan, to include adding it as a sixth Area of Focus in the current Strategic Operating Plan. Therefore, it is understandable as to the advocacy for additional green options through the downtown.

Similarly, the Strategic Plan also identifies "Safe", as a high priority, namely, Asheville as one of the safest cities when compared to similar sized cities. The Police and Transportation Department's operational efforts include continual analysis of Asheville's most dangerous intersections. This includes traffic crash data analysis, including intersection design, signalization (or lack thereof), roadway, signage, and marking design. These traffic safety efforts serve to better direct staff resources regarding dedicated patrol as a deterrent. In the spirit of those efforts, the Police Department cannot in good faith endorse skateboarding as a safe means of multi-modal transportation on streets in the Central Business District.

(1) If City Council permits skateboarding in the Central Business District's (CBD) roadways as a "green" mode of transportation, staff analysis offers the following:

Pro: Expanded multi-modal opportunities for citizens throughout downtown.

Con: Traffic safety dangers to the skateboard operator, pedestrians, and motor vehicles.

Fiscal Impact: Transportation staff recommends informational signage on key city streets to denote skateboarding as an approved usage on CBD streets. Costs are estimated at $500.

(2) If City Council strengthens the Police Department's ability to enforce the no-skateboarding provision in the city's business district by amending the current ordinance to disallow riding skateboards in cross-walks, and installing informational signage accordingly, staff analysis offers the following:

Pros:

- Removes uncertainty of whether skateboarding is a permitted activity downtown;
- Assists the prosecutorial process in the judicial court system;
- Creates a safer environment for pedestrians, the motoring public, and skateboarders.

Con: Restricts a mode of transportation in the Business Districts.

Fiscal Impact: The estimated cost to fabricate and install the appropriate signs in the central business district is about $500 and is currently budgeted in the operating budget for the Transportation Department.

Skateboarding is prohibited in downtowns across the country. City staff recognizes the competing interests as outlined above with expansion of multi-modal options, while assuring Asheville remains a benchmark for community safety. Asheville's high downtown density makes this consideration especially concerning, thus, City staff recommends support for no skateboarding in the Central Business District.

Assistant City Attorney Kelly Whitlock briefly said that the current ordinance prohibits skateboarding upon any roadway, except when crossing a crosswalk. That prohibition applies across the board to all roadways – doesn't matter what district. Additionally, skateboarding is also prohibited on any sidewalk in the Central Business District. Skateboarding is allowed on greenways and in parks.

Councilman Smith felt there are inequities in our policies regarding transportation. We have a multi-modal transportation goal for our city and we need to allow people to use alternative modes of transportation. He said there is no data presented to suggest that skateboarding as a mode of transportation was any more dangerous than bicycling or segwaying. There are models for skateboarding as transportation, such as the Four Wheels Down model, which is if you are rolling on all four wheels, you are trying to get to one place to another. If you are using it to jump, do tricks or go on two wheel, then you are a recreational skateboarder and it becomes unsafe. Safe use of your vehicle, regardless of what it is, needs to be promoted. He didn't think we should have one mode of transportation signaled out for a prohibition.

Councilman Smith moved to direct staff to prepare an ordinance to allow the use of skateboards for transportation, using the Four Wheels Down model on roadways, crosswalks and bike lanes (where available), not sidewalks, within the Central Business District and bring it back for Council consideration. This motion was seconded by Councilman Pelly.

Councilman Bothwell agreed about the green transportation effort and that other cities have been successful with the Four Wheels Down model. However, one significant difference he has noticed is where they do have that policy, the cities tend to be flatter than Asheville. The danger is more prevalent when you're on a hill vs. a flat area.

Councilman Davis' concern is that in the Central Business District (CBD) there are a lot of pedestrians. The entire CBD is a 50 block area and easily walkable. He is not trying to single out a

sector of society, but there are certain things that make sense and to him, skateboarding in the CBD is not really a means of transportation as much as it is for recreation.

Councilman Pelly was not entirely convinced and would like to hear proponents talk about the safety concerns raised. If we do allow this to move forward, he asked for consideration of requiring helmets, lighting at night, etc.

Councilman Hunt said some concerns expressed were out of control skateboarding, jumping and recreational-type uses. Some felt that lifting the ban might invite these recreational aspects back in our downtown area.

When Councilman Hunt asked about enforcement challenges, Mr. Richardson said that if Council directs staff to move forward to allow skateboarding on roadways in the CDB with the Four Wheels Down model, staff would have to spend time talking with other cities who have that in place to talk about their enforcement mechanisms. Presently there are 20-30 citations a year with a considerable amount of verbal warnings. He would suppose it would be a challenge for the Police Department to enforce that because there is a significant amount of subjectivity looking through a very densely populated CDB to determine if this is a means of transportation, how fast is the person going, is the person a danger to himself or the people around him, etc.

In response to Vice-Mayor Manheimer, Mr. Richardson said that he has found no other city in North Carolina that allows skateboarders in their downtown. Portland, Oregon, (who has the reputation of the skateboarding capital of the United States with significant infrastructure in their CBD) and New Haven, Michigan, have ordinances that allow skateboarding in the CBD. He has not been able to identify a good benchmark city comparable to Asheville, but given direction by Council, they will continue to look.

The following individuals spoke in support of allowing the use of skateboards for transportation, using the Four Wheels Down model on roadways and crosswalks, not sidewalks, within the Central Business District, as they basically wanted the same rights as bicycles:

Owner of Push Skate Shop in downtown Asheville (presented Council with a list of downtown businesses that support skateboarding as transportation)
Chad McRory
A gentleman
Clyde Singleton
Mike Bellamy
Thomas Coffey
Carol O'Shiver
Thomas Lance

Ms. Michelle Arack spoke in favor of keeping the ban for pedestrian safety; however, she felt. skateboarding in bike lanes would be acceptable.

When Councilman Bothwell asked if confiscation of the boards when given a ticket is City policy, Ms. Whitlock said that it is not part of our ordinance.

City Attorney Oast said that some clarification on the ordinance may be necessary, such as, operators shall wear helmets meeting American National Standards Institute standards, no skateboarding after sunset or before sunrise, skateboarders shall obey all traffic laws and shall keep to the right of the lane of travel using bike lanes where available, all skateboards shall have at least four wheels and all wheels shall be on the ground at all times. Vice-Mayor Manheimer said that if the motion passes, staff will craft the ordinance with suggested appropriate components for Council to consider.

Vice-Mayor Manheimer wanted to see some information about cities that are similar to Asheville that do allow skateboarding in their downtown and how they handled it. She would also like to hear what the downtown businesses have to say about skateboarding on the roadways downtown. She felt the

people in the audience are very well intentioned, but she recalled a downtown Asheville where we were not enforcing our ordinance and allowing skateboarding and it basically consisted of 20 guys in front of the Biltmore Building doing tricks and making it a very unwelcoming environment for those who were not on a skateboard. It was very intimidating and difficult to move around. It was not a community oriented activity that felt welcoming for older folks, younger children and families. She was not interested in creating that environment again in downtown.

In response to Councilman Bothwell, City Attorney Oast said that roller skating is not allowed on any sidewalk in a business district. He noted that our ordinance is from the 1960's.

When Councilman Pelly asked if Councilman Smith would be interested in a friendly amendment to his motion to also have staff draft an ordinance allowing skateboarding on roadways on all City streets, Councilman Smith asked if that could be a separate motion, given the speed limits downtown vs. the speed limit on Hendersonville Road.

At Councilman Pelly's request, it was the consensus of the majority of Council to have staff examine how other cities have dealt with allowing skateboarding on roadways on all City streets.

The motion made by Councilman Smith and seconded by Councilman Pelly carried on a 5-1 vote, with Councilman Davis voting "no."

**B. RESOLUTION NO. 12-98 - RESOLUTION ESTABLISHING THE NEIGHBORHOOD ADVISORY COMMITTEE**

Councilman Pelly said that nearly everyone in the Chamber is a resident of Asheville and, as proud as we are of that, we also identify ourselves by the area of town in which we live. Be it Malvern Hills, Beverly Hills or Richmond Hill we identify with the neighborhood we call home. There is a reason for this, neighborhoods are the place we inhabit on a daily basis and for which most residents feel a special bond of community.

Each area of town is unique and has its own identify and oftentimes its own set of challenges. For this reason, he maintains the City has a self-interest in promoting cohesion and community participation at the neighborhood level. By creation of the Neighborhood Advisory Committee, City Council is indicating they acknowledge a fundamental geographic subset of the city by which most residents already self-identify – their own neighborhood. He believes the collective interest of our community will be served by promoting cohesion and participation at the neighborhood level and that creation of this committee will help foster that process.

As proposed, the Neighborhood Advisory Committee is charged with developing plans to strengthen neighborhood identity and resilience, and to facilitate communication and cooperation between Asheville's neighborhoods and City offices. The Committee will also develop benchmarks and standards by which progress towards implementing these plans can be measured.

As an advisory Committee, these plans will take the form of recommendations to City Council for review and formal action. Among the questions the Committee will explore include (1) How are other cities meeting the needs of their neighborhoods?; (2) What are the best practices and model policies for defining and delivering neighborhood services?; (3) What is the best way to align the City's Strategic Operating Plan with neighborhood considerations?; (4) What training programs are needed and what are available for existing and potential neighborhood leaders?; (5) How might the City become a national model in providing neighborhood services?; (6) How might the City incentivize neighborhoods to become organized?; and (7) In what ways can this advisory committee support the goals of City government?

The idea of a Neighborhood Advisory Committee is not new. Many cities in North Carolina and elsewhere already have some variation of this idea. He believes the time is right for our City to begin to explore ways to refine and strengthen the relationship between City government and neighborhoods.

The resolution calls for a nine-member Committee with five members from each major geographic area of the City, as defined by postal zip codes, 28801 (central), 28803 (south), 28804 (north), 28805 (east) and 28806 (west). The remaining four seats will be at-large appointments and all seats shall reflect the socio-economic diversity of Asheville.

His personal hope is to attract candidates for appointment with a demonstrated interest in working to strengthen neighborhood identity and citizen participation.

Although he believes this is an important process to undertake, he does not know what outcomes the Committee may recommend. What he believes; however, is that our City will benefit from undertaking this discussion. There are many good ideas, some which don't cost anything, that can help us become an even more neighborhood-oriented community.

Examples of ideas that the Committee might explore include (1) working with the Asheville Police Department and Chief Anderson to increase Neighborhood Watch participation and community policing; (2) formalizing a process for sharing local success stories between neighborhoods such as Montford's community newsletter or Kenilworth Community Watch program; (3) formally recognizing successful neighborhood leaders to highlight their accomplishments; (4) creating a model for developing and executing individual neighborhood plans that identify challenges and opportunities; and (5) seeing how food security can it into the "Resilient Neighborhoods" program.

Councilman Hunt felt that neighborhoods are the fabric of our community and a great source of strength. He hoped for the committee to achieve is how can neighborhoods serve to reinforce community-wide goals.

Mr. Steve Rasmussen supported establishing this Committee.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 12-98. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 366**

**C. RESOLUTION NO. 12-99 - RESOLUTION AUTHORIZING THE CITY MANAGER TO INSTITUTE A THREE-WEEK FARE-FREE PROMOTION BEGINNING MAY 21 – JUNE 8, 2102**

Director of Transportation Ken Putnam said that this is the consideration of a resolution authorizing the City Manager to institute a three week fare-free promotion as part of the implementation of the first phase of the Transit Master Plan (TMP), which is scheduled to begin on May 21, 2012, and end on June 8, 2012.

The first phase of the Transit Master Plan (TMP) implementation was approved by Council on April 27, 2010. The specific recommendations included a fare increase, operational changes, and a marketing strategy. The fare increase was effective on July 1, 2010, and affected monthly and annual passes and ticket books; the cash fare remained the same. The rest of the recommendations will be implemented on May 21, 2012, and include:

- Operational Changes

In order to provide better service to our customers, 30-minute frequency will be implemented along the main corridors in the densest sections of the specific corridor. In order to accomplish this task, existing routes will be staggered along five corridors; namely, Patton Avenue – Routes 15 and 16,

Haywood Road – Routes 1 and 9, Biltmore Avenue – Routes 4 and 8, Tunnel Road – Routes 13 and 26, and Merrimon Ave. – Route 2.

System wide on-time performance changes are also included. Currently, one of the biggest challenges the transit system faces is keeping the buses on-time mainly due to route deviations and Dial-A-Ride service. In order to accomplish this task, existing route deviations will be reduced or eliminated and Dial-A-Ride service will be stopped. The subject action addresses driver's concerns with the current route schedules and the pressure they constantly receive from riders to be on-time.

The operational changes are incorporating two cross-town routes, one serving the southeast-southwest and the other one serving the northeast-northwest. Also, new areas will be served, New Leicester Highway to Land of Sky Regional Council and ABCCM on Tunnel Rd.

The evening routes will be consolidated with the day routes, eliminating the existing gap; the evening routes will end earlier as recommended in the TMP, based on ridership. The routing will be the same for day and evening trips making navigation of the system smoother for the rider.

In addition, the bus stop system has been streamlined, new bus stops have been installed, some existing bus stops have been removed, and other stops have been relocated.

These system wide changes are being achieved with no fiscal impacts in the current operating budget.

- Marketing

One of the most important elements to enhance the Asheville Redefines Transit System, as expressed in the Transit Master Plan, was to develop a marketing strategy that focuses on the creation of a new image for the system and promotion of route changes including system "branding" (logo), color schemes for the buses, signs, and new maps. The City hired Urban Trans Consultants Inc., from Atlanta to support and assist in the implementation of the marketing strategy. Urban Trans has developed all the material that will be used during this implementation, including, a new brand, new image for the signs, new route numbers, maps, and miscellaneous material. Some of these changes have already been implemented, such as the Asheville Redefines Transit logo (ART) and the art work on the five new hybrid diesel-electric buses.

Staff is working on polishing the final details to roll out the new routes. As part of the communications plan six public meetings will be held to inform the public about the changes and to provide assistance navigating the system. The meetings will be held in Downtown Asheville and in five different neighborhoods: North, East, West, South, and the River District. Agencies and organizations have been contacted to inform their constituents about the changes. Also there will be mobile information stations at the Asheville Redefining Transit (ART) Station and on the buses and additional phone lines will be available to assist customers during implementation. All of these will be complemented with information to the media, press releases, and social media.

As part of the marketing strategy the Transit Commission has requested a fare free promotion from May 21, 2012, to June 8, 2012. This request was voted 6-1 during their March 6, 2012, meeting. The fare free is intended to ease the transition to the new routes for existing riders and to attract new riders to the system that would like to give it a try.

The city has implemented fare free promotions in the past. In 2007 there was a three-month fare free promotion that increased ridership 23%. In 2011 there was a one-week fare free promotion to promote the Strive Not To Drive campaign that increased ridership by 3%. On both occasions the ridership increases have been maintained after the promotion ended.

The increase in ridership not only reduces the cost/hour to operate the system but also increases the Federal Transit Administration Section 5307 apportionment that helps pay for transit operations (passenger miles vs. operating costs count for 9.2% of the apportionment).

The cost of the fare free promotion is estimated to be about $42,000. Staff has analyzed revenues and expenses and concluded that the promotion would not have a negative impact on the overall current operating budget and the promotion can be absorbed in it.

The Transit Commission supports the subject action. In addition, the Finance Committee approved this action at their April 3, 2012, meeting.

This action complies with the current City Council's Strategic Operating Plan for Fiscal Year 2011-12 within the fiscal responsibility and multimodal transportation focus areas by operating the City of Asheville to the highest levels of fiscal responsibility; and helping establishing a multimodal transportation plan by making needed transit system improvements.

Pros:

- The fare free promotion will ease the transition to route changes for existing riders and will attract new riders.
- The fare free has been an effective marketing tool to increase ridership in the past.
- If there is an increase in ridership this will reflect in the system's performance measures, reducing the cost/hour of operating the system and potentially increasing the federal allocation.

Con:

- The cost of the project is about $42,000.

The fiscal impact of this project is estimated to be approximately $42,000 in lost revenue. Based on current year revenue to date, staff anticipates that budget estimates will still be met even with the $42,000 in revenue that will not be received during the fare-free promotion.

City staff recommends that City Council authorize the City Manager to institute a three week fare-free promotion as part of the implementation of the first phase of the Transit Master Plan (TMP), which is scheduled to begin on May 21, 2012.

When Vice-Mayor Manheimer asked for public comments, none were received.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 12-99. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 368**

**D. RESOLUTION NO. 12-100 - RESOLUTION AMENDING THE 2008-09 ANNUAL ACTION PLAN TO REALLOCATE CDBG-R FUNDS FROM LOUISIANA STREET SIDEWALK TO EMERGENCY REPAIR**

Community Development Director Jeff Staudinger said that this is the consideration of a resolution amending the 2008-09 Annual Action Plan to reallocate CDBG-R funds from Louisiana Street Sidewalk to Emergency Repair.

In June of 2009, the City submitted to HUD its Amended 2008-2009 Action Plan for the use of $332,942 received in an ARRA-funded CDBG-R grant. Of that award, $123,648 was allocated to the City of Asheville to contract for sidewalk construction on North Louisiana Street, serving the Emma neighborhood and connecting that neighborhood to Patton Avenue. $63,914.59 was used for that

purpose, leaving an unexpended grant budget of $59,733.41. The City fully expected to be able to use these funds for additional sidewalk construction there. However, competing Public Works construction priorities and an extended timeframe in negotiating rights-of-way have resulted in delay in getting additional construction underway.

CDBG-R funds must be fully expended and drawn down from HUD prior to September 30, 2012. Public Works and Community Development staff have had extensive discussion about the project and the CDBG-R timeframe. Although Public Works staff feels that the intended construction could be completed within that timeframe, two factors concern staff:

1. The potential loss of funds due to additional unanticipated delays;
2. The potential loss of funds due, ironically, to cost savings for the intended construction, due to a favorable construction cost environment.

In light of these considerations, Public Works staff has reviewed the project funding available, and state that the intended project will be completed with already budgeted City funds for sidewalks- sufficient funds are available in both materials and contracted services budgets. Both CD and Public Works staff concur that the allocation of these funds for another grant eligible purpose is in the best interest of the City.

Because of the impending deadline to use the funds in a manner which meets both CDBG and Recovery Act regulations, limited options are available. Of existing CDBG-R grantees, the Emergency Repair program, operated by Mountain Housing Opportunities, has significant unmet demand, and would be able to meet the completion timelines outlined above. The Emergency Repair program provides one of two services to very-low income, special needs households: a "Tier 1" repair that provides up to $5,000 to address one issue that threatens the health or safety of the household; and a "Tier 2" repair which provides up to $15,000 to address more complicated issues threatening the health or safety of the household. In either case, the repair prevents homelessness. The HCD Committee reviewed this, and agrees that reallocating funds for the MHO Emergency Repair program is advisable.

This proposed reallocation of CDBG-R funds directly supports Council's Strategic Goal of Affordable by funding an initiative to prevent homelessness.

Pros:

- Approval of the reallocation ensures that $59,733 of HUD CDBG-R funds will be used to assist very-low income special needs households make emergency repairs that address critical health and safety issues in their homes;
- The City has sufficient other funds to construct the planned sidewalk on N. Louisiana Street.

Con:

- None.

The proposed reallocation is fully funded from the federal CDBG-R grant. Other funds budgeted for sidewalk construction are sufficient to construct the sidewalk for which the grant had originally been programmed.

Staff recommends approval of the resolution authorizing the amendment to the 2008-2009 Annual Action Plan to reallocate $59,733.41 of CDBG-R funds from the City of Asheville North Louisiana Street sidewalk project to the Mountain Housing Opportunities Emergency Repair program.

When Vice-Mayor Manheimer asked for public comments, none were received.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 12-100. This motion was seconded by Councilman Smith and carried unanimously.

## E. ORDINANCE NO. 4082 – ORDINANCE AMENDING THE FEES & CHARGES MANUAL FOR ELECTRONIC GAMING OPERATIONS

Director of Finance & Management Services Lauren Bradley said that this is the consideration of an ordinance amendment to the *Fees & Charges Manual* for Electronic Gaming Operations.

In May 2010, the City of Asheville adopted zoning standards regulating Electronic Gaming Operations (EGOs). Adopted on the same night was an amendment to the *Fees & Charges Manual* establishing a privilege license fee for these same operations. The fee was established by considering the potential revenue for the operations and was benchmarked against other municipalities in the area. The benchmarking revealed that Asheville's fee was neither the highest or the lowest. The fee adopted was (Ord. No. 3869):

*Base fee $1,000.00 per year; plus $2,500.00 per machine added to the base fee.*

Shortly after standards were established and fees collected for over 50 businesses, the NC General Assembly adopted a new law that banned all EGO's. As most businesses were informed of the likelihood of the ban, there was little resistance to the ban. Permit issuance and fee collection ceased, and police enforcement followed. In order to accommodate a few large privilege license fees, a subsequent fee amendment allowed for pro-rated fees which enabled a few modest refunds. This fee was (Ord. No. 3910):

** Base fee $48.67 per month (or part of a month) per establishment; and 208.33per month (or part of a month) per machine.*

**This amendment appears to include a typographical error that swapped the respective fees. As originally adopted, the fee was written as "Base fee $208.33 per month (or part of a month) per establishment; and 48.67per month (or part of a month) per machine". This was in error.*

Now that the legality of EGOs seems to be somewhat settled, the option for pro-rated fees are not necessary. Additionally, pro-rating fees for privilege licenses is uncommon and somewhat problematic both from both a processing and a collection standpoint. This amendment proposes to supersede the current fee and re-establish the once-year fee to be paid in full at any point through-out the year for a new business, and renewed annually at the beginning of each new fiscal year. If adopted, this fee would not allow for pro-rated fees for a partial year, nor would it allow for any refunds should the state pursue new action that would prohibit these operations.

Additionally, staff is proposing an increase in the base fee from $1000 to $1500 per establishment. Additional research shows that this increase is consistent with fees from other municipalities.

This fee amendment has not been reviewed by other public bodies – although it is an amendment to an existing fee. Additionally, the judicial decision has left little time to establish a fee prior to the new fiscal year.

This proposal does not directly relate to the goals outlined in the Strategic Operating Plan but is most closely aligned with the goal for "job growth and community development" by balancing business needs with community needs and concerns.

Pros:

- Works in concert with regulating standards that help control the unchecked proliferation of these businesses, and potential nuisance impacts associated the businesses.
- Provides unbudgeted revenue for the City of Asheville.

Cons:

- None noted.

Revenue from these fees in 2010 was approximately $192,000. City enforcement staff has noted approximately the same number of establishments currently in operation as those that were noted in 2010. Therefore, staff has included the additional revenue from these fees in the Proposed FY 2012-13 Budget that is being presented to Council on April 24.

Ms. Bradley said that since we had the fee in place, there were 72 businesses with these machines and approximately 226 stations. If Council approves the privilege license fee, there may be some of these operations that close and chose not to function just because it's not financially feasible for them to do it. But we expect that there will be at least as many as we saw before paying the privilege license fee. We charge a privilege license fee for this type of operation because it helps provide information about who is conducting this type of business and where so that we can ensure compliance with our zoning guidelines, and it also helps provide a fee mechanism for these businesses to participate in the demand on City services in a way that is more equitable. If people don't pay the fee, they can't get their zoning permit and there is a civil violation of $100 per day. More significantly, our ordinance for privilege licenses says that there is a criminal penalty (a misdemeanor) if you don't pay your privilege license fee and that the City can seek an injunction; however, we normally go through a collection process first.

City staff recommends the adoption of the ordinance and new fee as proposed.

Mr. Mike Grace, attorney from Winston-Salem representing a firm out of Oklahoma who is one out of the two main plaintiffs in the lawsuit mentioned, said his client licenses over 150 internet café locations in more than 60 counties across North Carolina. He was not concerned about the propose change to the fee schedule, but to open dialogue concerning the fee schedule as a whole. Based on his experience, the City will not have many people applying for licenses at the current fee schedule of $2,500 per machine. There are only three other cities that have a similar schedule and they are in negotiations with them to reconsider their schedule. He feels this fee will drive legitimate businesses out of the City into the County and you will have to deal with the people running illegally. He will contact City Attorney Oast and some later time for reconsideration of the entire schedule.

In response to Councilman Davis, Ms. Bradley said that initially, before the ruling change, we had 45-50 establishments licensed with a revenue of approximately $190,000.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Smith moved for the adoption of Ordinance No. 4082. This motion was seconded by Councilman Bothwell and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 364**

**F. PRESENTATION OF THE CITY MANAGER'S RECOMMENDED BUDGET**

Director of Finance & Management Services Lauren Bradley outlined the following budget goals: (1) Maintains the current tax rate to support affordability goals for Asheville citizens and businesses; (2) Invests in our workforce; (3) Aligns resources with strategic planning and core services; and (4) Builds a budget based on sound financial management practices to ensure continued stability as the economy recovers.

General Fund revenues consist of (1) No property tax increase; (2) Revenues projected to increase by 2.9% (a) 1% growth projected in property tax revenue; (b) 5% growth projected in sales tax revenue; (c) 1.6% growth projected in Intergovernmental revenue; (d) 11.7% growth projected in licenses

& permits; and (e) Other sources remain flat; and (2) No fund balance appropriation. Revenue enhancement is restoration of licenses for electronic gaming machines: $200,000.

She then showed a chart of sales tax revenue and other taxes.

General Fund expenditures consist of (1) 1% cost of living adjustment for city employees; (2) General Fund contribution to health care to remain unchanged; (3) Technical adjustments made for: (a) Increases in the cost of fuel; and (b) Fire department overtime staffing costs (addition of 9 firefighters); and (4) Increased Housing Trust Fund contribution by $200,000 for $500,000 total.

Water Fund - (1) No water rate increases to any class of customer; (2) Revenues have increased partly due to Automatic Meter Reading initiative; and (3) Contribution to capital is increasing by $1.3 million as a result.

Stormwater Fund - Stormwater fees remain unchanged (a) $290,000 appropriated from stormwater fund balance for Michigan Avenue capital project.

Transit Fund - Loss of $160,000 in State funding; partially off-set by increase in Transit revenue as a result of increased ridership (a) Increases Parking Fund transfer by $90,000; and (b) An additional $30,000 from the Parking Fund will fund holiday bus service on main routes during peak hours.

Parking Fund - Proposed budget includes: (a) Increasing transfer to the Transit Fund; (b) Full year of operation of Biltmore Avenue Parking Garage; (c) Transfer of $40,000 to capital for meter replacements; and (d) Transfer of $120,000 to General Fund for first phase of form based planning policy and increase to EDC allocation.

Civic Center Fund – (1) General Fund operating transfer to the Civic Center Fund shows an increase of $303,000 for debt service associated with renovations; capital decreases by same amount making overall transfer unchanged; and (2) 2 FTEs added to cover additional points of sale and building maintenance; expenses covered by increases in revenue.

Golf Fund – (1) Includes a revenue adjustment and $140,000 transfer from General Fund to balance the budget; and (2) Responses to the Request for Proposals (RFP) coming forward to City Council in the first quarter of FY 2012-2013.

Internal Service Fund - Proposed FY 2012-13 budget includes the first year contribution ($200,000) of a step-up plan to meet the City's annual required contribution for Other Post Employment Benefits (OPEB) to the State Treasurer's OPEB Investment Fund.

She then reviewed pie charts of the FY 2012-13 CIP Revenues and CIP Expenditures.

Capital Improvement outcomes include (1) Street Resurfacing: $1.3 million, 5.83 miles resurfaced; (2) 1 mile of sidewalk maintenance, 1.35 miles new sidewalk; (3) Design work for Town Branch greenway to make it shovel ready; (4) Northside bicycle sharrow project; (5) $500,000 for parks and facilities deferred maintenance; (6) $1 million in vehicle replacement (a) Half targeted for alternative fuel vehicles; and (7) Continuation of Green CIP (a) Third phase of streetlight retrofit project; and (b) $840,000 for facility weatherization and retrofit projects.

Vice-Mayor Manheimer noted that the public hearing on the budget will be held on May 22, 2012.

**G. 2012 STATE LEGISLATIVE AGENDA**

City Attorney Oast said that this is the consideration of the City's Legislative Agenda for the 2012 Session of the North Carolina General Assembly.

The session of the North Carolina General Assembly that begins on May 16, 2012 is a "short" session. Essentially, it is a continuation of the 2011-2012 biennial session of the General Assembly that began on January 26, 2011, and adjourned for the first time on June 18, 2011. As Council knows, the legislature has continued to meet sporadically throughout the year to take up such special subjects as redistricting, and considering whether to override the Governor's veto of certain bills.

Despite the fact that this short session or continuation session is more general in nature, the range of bills that may be considered is still fairly narrow. Included among the bills eligible for consideration are (1) Bills that passed out of the chamber in which they were introduced, and that were received in the other chamber ("crossover bills"); (2) Bills implementing the recommendations of study commissions ("study bills"); and (3) Local bills that meet certain requirements (non-controversial, unanimous support among local delegation, etc., "local bills"). The City of Asheville is interested in some bills that fall into each of these categories.

**I. "Crossover" Bills**. There is an 18 page list of bills that were passed out of one house and are eligible for consideration in the short session. That list includes some local bills of interest to Asheville.

One crossover bill, HB 552, is the bill to create the Greater Asheville Regional Airport Authority. Council has previously expressed concerns about this bill, and we will continue to monitor it.

**II. Study Bills**. HB 925 directs the Legislative Research Commission ("LRC") to study whether certain municipal water systems should be conveyed to metropolitan sewerage districts in the interest of promoting operational efficiency. The hearings that have been conducted by the LRC's "Committee on Metropolitan Sewerage/Water System," chaired by Rep. Tim Moffitt of Buncombe County, have focused on Asheville and MSD. As Council knows, the Committee's draft report was published on April 13. Following a comment period, an amended report was voted out of Committee April 19. That report contained a recommendation that the 2013 Session of the General Assembly take action to consolidate the water system with MSD, but further provided that action not be taken "if the parties are engaged in good faith negotiations on this matter." The full LRC will consider the recommendations of the Committee on May 14 (two days prior to the convening of the short session). This proposal, and the report, have been covered extensively in other places, and no attempt will be made to summarize that information here. We will, of course, monitor this bill and keep Council advised of developments.

**III. Local Bills**. Council has long been interested in a bill that would reconfigure the boundaries of Asheville and Woodfin in the area around UNC-Asheville. This is not a new request, but it has been revised. The municipalities of Asheville and Woodfin are adjacent to one another and, in places, share a common boundary. In the area near UNC-Asheville and the River Road/Broadway/US 19-23 Interchange (herein "19-23 Interchange"), however, there are pockets of unincorporated areas that are developed, and should have a municipal level of service available, especially public safety services. Additionally, some properties located in Asheville or Woodfin could be more efficiently served with police, fire, and garbage collection services by the other municipality.

Municipal boundaries in this area do not follow streets or recorded property lines, and this can cause jurisdictional confusion when it is necessary to respond to emergencies or traffic incidents. Perhaps the most dramatic illustration of this phenomenon is that the UNC-A athletic field and track are transected by the City of Asheville's corporate limit such that part of the track is in the City of Asheville, and part of it is in unincorporated Buncombe County. In addition, there are parts of the UNC-Asheville campus (or lands being held for future development by the university), that are located within the Town of Woodfin. Asheville, Woodfin, and UNC-Asheville agree that the campus and associated property should be in the City of Asheville's jurisdiction. The proposed legislation would include all of the State-owned university properties (whether they are currently in Woodfin or unincorporated) in Asheville's corporate limits. In addition, there is a small portion of unincorporated area near the 19-23 Interchange that we are proposing for incorporation into Woodfin. This will eliminate some jurisdictional and service delivery confusion for an important and heavily traveled intersection.

The proposed legislative action affects only State-owned properties, and as such would have no property tax implications. In the past, the owners of private property in the area have objected to the proposed reconfiguration as it affected them, and previous versions of the bill stalled as a result. However, in a bill drafted in 2010, an "opt-in" procedure was proposed for the privately-owned properties in Woodfin such that the political jurisdiction would not change unless the owners requested it. We have contacted all of the affected private property owners.

There has been a new area added to the proposed boundary adjustment. As Council may know, the Town of Woodfin has been working to reconfigure the entrance to the Reynolds Mountain Development, and has proposed a roundabout on Weaverville Highway/Merrimon Avenue near Beaver Drive. The proposed location of this roundabout is where Asheville's and Woodfin's boundaries meet. Discussions among Asheville and Woodfin officials, and with the North Carolina Department of Transportation, have resulted in a proposed boundary reconfiguration such that all of the roundabout and parts of some realigned streets will be located in Woodfin's jurisdiction. As with the 19-23 Interchange, this will eliminate some jurisdictional and service delivery confusion for a heavily traveled intersection. Woodfin officials have discussed this with affected property owners.

**IV. State-wide and Regional Issues**. As occurs with every session of the legislature, other organizations of which the City is a member or in whose activities the City participates adopt their own legislative agendas. Those organizations include the Asheville Area Chamber of Commerce and the North Carolina League of Municipalities. Council may wish to take a position or receive more information with respect to one or more of the items included in those programs.

**Deadlines**. The legislature convenes for the short session on Wednesday, May 16. Local bills must be submitted to bill drafting no later than 4:00 p.m., on Wednesday, May 23, and introduced or filed for introduction no later than 4:00 p.m., on Wednesday, May 30.

Council has previously taken positions on the bills that affect us. Additionally, Council directed the submission of the Woodfin/Asheville boundary reconfiguration request last year. Accordingly, no formal action is needed other than a reaffirmation of Council's previous positions on these matters. If Council wishes to include new or additional matter, that can be done by resolution or motion.

At Council's direction, he will transmit appropriate information, including past resolutions regarding the Water Authority and the airport, to the members of the General Assembly whose district includes Asheville.

**RESOLUTION BOOK NO. 34 – PAGE**

**H. RESOLUTION NO. 12-101 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE COMMUNITY RELATIONS COUNCIL**

Vice-Mayor Esther Manheimer said that There currently exists the following three vacancies on the Community Relations Council: (1) vacancy from Ms. Kate Pett whose term expired December 31, 2010; (2) vacancy from Ms. Jill Fromewick who is not interested in serving another term whose term expired December 31, 2011; and (3) vacancy from Ms. Sharon West whose term will expire December 31, 2012.

Mr. Mike Hahn, current member whose term expire December 31, 2011, is eligible to serve another term and is interested in reappointed.

It was the consensus of Council to interview Itiyopiya Ewart, Kathryn Liss, Mike Hahn, Rachael Tanksley-Russell, Frank Dibari, Carol Hallstrom and Chuck Rosenblum. Mr. Dibari and Ms. Hallstrom have since been appointed by the Buncombe County Board of Commissioners. Mr. Rosenblum was unable to attend the interview.

After Council spoke highly of all the candidates, Councilman Bothwell moved to (1) appoint Itiyopiya Ewart to serve the unexpired term of Ms. Pett, term to expire December 31, 2013; (2) appoint Rachael Tanksley-Russell to serve a three-year term, term to expire December 31, 2014; (3) appoint Kathryn Liss to serve the unexpired term of Ms. West, and then a full three-year term, term to expire December 31, 2015; and (4) reappoint Mr. Hahn to serve a three-year term, term to expire December 31, 2014. All terms are until their successors have been appointed. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 370**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Rev. Christopher Chiaronmonte cited examples of police harassment in Asheville.

Ms. Judy Strong felt that the even though the City of Asheville owns McCormick Field, they should not use taxpayer dollars to support it. She suggested they contact the Tourism Development Authority and apply for a grant and/or increase user fees. Vice-Mayor Manheimer said that City Manager Jackson would contact her to provide her an explanation of why the City has an obligation to keep their assets up.

Rev. Amy Cantrell, Pastor and Co-Founder of Be Loved Community, and Dr. Bill Pence urged Council to find a safe legal space for people to camp when the shelters are full. They offered to work with the City for a dignified solution.

Mr. John Kleckner said that he is working on a documentary on downtown and would be happy to get their prospective on several of the issues raised by Council at this meeting.

**Mountain Area Information Network Request**

Mr. Tim Ballard, Board Member of the Mountain Area Information Network (MAIN), read a statement from the Board which requested a policy directive by City Council to enable MAIN's continued access to a city-owned cell tower. They requested a 60-day extension to the City's directive that they vacate the tower on May 1. The extension will give Council and City staff ample time to evaluate details of the request.

Councilman Hunt said in the past three weeks there has been a lot of dialogue between MAIN, City staff and City Council. He suggested Council grant the 60-day grace period noting that it would be MAIN's responsibility to respond on the following key questions: (1) what is MAIN's proposal in regard to the past due payments on the lease; and (2) in regard to moving forward in some type of partnership with the City, how would MAIN articulate community need and how would that come together for City participation.

In response to Councilman Hunt, City Manager Jackson said the amount due is long overdue and staff has been providing extensions, gone through a collections agency, with over $37,000 outstanding. Staff tries to be fair and consistent when seeking payment of the debts to taxpayers. If extended, staff will look forward to seeing their proposal to make good on those payments and also the proposal on how they want to partner with the City.

In response to Councilman Bothwell, City Manager Jackson said at this point the recourse is to terminate the services, which is provided for in the contract, but we can certainly apply discretion as management, if endorsed by Council.

In response to Councilman Davis, City Manager Jackson said that we have others looking for that cell tower space.

Councilman Davis said that he also spoke with Mr. Wally Bowen, representing MAIN, who was amenable to a 30-60 day extension. Because we do have others interested in that space, he could support an extension of 30 days only.

Mr. Isaac Coleman, Board member of MAIN, requested Council for the 60-day extension, in that they are trying to serve an under-served population.

City Manager Jackson said that there are two issues. One is the payment of the obligation for use of the cell tower. That is an outstanding debt owed. He didn't think it would take more than 30 days to show good faith and agree to a payment plan. On the other hand, if there is some grant application for the City to bring to Council for different federal/state/non-profit partnership grant where the City would provide in-kind services, that proposal would need to be developed and very clear. Council has considered those kinds of proposals in the past and they have been very well developed with a scope of services, who is the entity that has the grant funds available, what would MAIN do, what is the City being asked to do, what the criteria is for the grant, the performance deliveries, how the public is served, etc. Staff would bring that to Council as they have in the past. We do not have anything of that nature from MAIN. Council has expressed a desire to extend broadband service particularly to segments of the community if there is a good plan and opportunity to structure such an opportunity. The first response as to whether or not MAIN will honor its obligation and agree to some kind of commitment and the question is if there will be a proposal on that. It would be wise for Council, as good stewards of the City's assets and the taxpayer resources, to know within a 30-day timeframe if that plan is forthcoming. In this case they will be responding to Council. We have gone through months in trying to get a response on a payment plan from MAIN. Their other option is to ask Council to waive that debt and enter into another kind of contract proposal. It would need to have a greater level of specificity than staff has been able to secure. The City does not have the ability to gift or do grants, no matter how worthy the agency might be. The City does have the ability to contract for the delivery of public services and typically Council wants those to be performance based contracts. Council also has a process for outside agency grants and contracts of that nature.

Councilman Davis was comfortable with a 30-day extension to receive an answer about how the past due payments would be settled, recognizing if they present some plan, it would take longer for that to be developed.

City Manager Jackson said that within 30-days we should get a response on whether it is a viable organization with which the City should contract with. If there are substantial opportunities to partner that are consistent with the legal requirements, when we report on their payment plan proposal, we can report on what those options might be and how much more time it might take to bring that back in the form of a contract.

In response to Councilman Smith, City Manager Jackson said that he would provide a history on the grant that is being discussed by MAIN members.

It was the consensus of Council to grant a 30-day extension to the City's directive that MAIN vacate the cell tower on May 1.

**VIII. ADJOURNMENT:**

Vice-Mayor Manheimer adjourned the meeting at 10:18 p.m.

Magdalen Bateson
CITY CLERK

MAYOR

Tuesday – May 22, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**INVOCATION**

Councilman Davis gave the invocation.

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led the Pledge of Allegiance.

**I. PROCLAMATIONS:**

**A. RECOGNITION OF CITY OF ASHEVILLE YOUTH LEADERSHIP ACADEMY STUDENTS**

Mayor Bellamy said that five years ago this June, she and the members of the Asheville City Council welcomed the inaugural class of the City of Asheville Youth Leadership Academy – better known as CAYLA. Since that very first day, CAYLA students have exceeded our highest expectations – as role models, as future leaders, as contributors to our greater community. CAYLA was designed to introduce Asheville's young people to professional careers, to assist them in their quest for college, and to develop their leadership skills through volunteering. It is without question that by this definition, CAYLA is a success – but only because the CAYLA students have made it so.

Just this year, they have collectively completed 36 separate community service projects, totaling more than 450 volunteer hours. The graduating CAYLA seniors have ALL been accepted to college and will share their many talents, their dedication, and their enthusiasm on university campuses across the state and region this fall.

Tonight, many of our CAYLA students will be honored further at the annual AHS Awards Night, where they will learn how their hard work has paid off in the form of foundation and community scholarships. I'd like to especially recognize Brianna Rock, who has been named a Gates Millennium Scholar, one of only 1,000 in the entire nation.

The City of Asheville has gained much from your contributions, and we recognize you tonight and challenge you to keep striving for excellence in the months and years to come.

As Mayor she was so proud of the young people who are being recognized today – the CAYLA Class of 2012.

With that, she read the names of the CAYLA students who were in the meeting this evening: Omar Alvarado, LaBrea Baird, Kearra Brownlee, Briana Bunn, Calvin Clark, Brianna Crudup, Rachel Downie, Jalyn Folston, Jalen Freeman, Caleah Hallum, Jaquell Hines, Ceante' Hudson, Markes Jackson-Edgerton, Ashare' Jefferson, Curtis Johnson, Tiffany Jones, Abel Lomeli-Garcia, Manny Lomeli-Garcia, Kasia Maatafale, Alex Mitchiner, Janeka Moore, Tequila

Porter, Brianna Rock, Quanteria Sitton, Ashly Surratt, Fiona Taylor, Lisa Waters, Marcus Whitson, Bryanna Williams, and Christopher Wright.

Mayor Bellamy praised Erika Germer for her hard work on this program.

**B. PROCLAMATION PROCLAIMING MAY 20-26, 2012, AS "NATIONAL PUBLIC WORKS WEEK"**

Mayor Bellamy read the proclamation proclaiming May 20-26, 2012, as "National Public Works Week" in the City of Asheville. She presented the proclamation to Michael Kyle, representing Water Resources; Rachell Banks, representing Fleet Management; Chris Maloney, representing Sanitation; Joel Tweed, representing Transportation; and Larry Buckner, representing Meter Services.

**II. CONSENT AGENDA:**

At the request of City Attorney Oast, and consensus of Council, Consent Agenda Item "P" was added to the Consent Agenda.

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 24, 2012**

**B. RESOLUTION NO. 12-102 - RESOLUTION SETTING A PUBLIC HEARING ON JUNE 12, 2012, FOR A LAND USE INCENTIVE GRANT APPLICATION FOR 155 GLENN BRIDGE ROAD**

Community Development Director Jeff Staudinger said that this is the consideration of a resolution setting a public hearing on a Land Use Incentive Grant (per the policy adopted by City Council on March 8, 2011), applied for by the owners/developers of 155 Glenn Bridge Road.

This following report summarizes their application and reports on eligibility and points. The 155 Glenn Bridge Road project entails the development of 176 units of rental housing located at the indicated project address in the City of Asheville. No commercial or other mixed use development is cited in the proposal.

The project, as presented to staff, appears to meet the following Eligibility Requirements,

- Equity: A 20% equity contribution is required. The project developers indicate they will contribute 20.4% equity to the project. This includes unreimbursed value of the land, and other expenses.
- Energy Star Certification: The developers indicate the project will achieve Energy Star certification.
- Legal Costs; the developer must agree to assume all legal costs if the LUI is challenged: The developer has agreed to assume all legal costs if the Land Use Incentive policy is challenged.

The project does not meet the following eligibility criteria:

- Inside city limits, within ¼ mile of designated major highways: The project is located approximately .6 mile from Hendersonville Road, and therefore about ¼ mile outside of the eligible area. The developer has requested a waiver of this eligibility criteria.

*Public Benefit*

The project proposes the following Public Benefit Elements:

- Affordable Housing units with assured affordability at that rent level for a minimum of ten years: 40% of total units (40 points)
- Workforce Housing units with assured affordability at that rent level for a minimum of ten years: *50% of total units* (10 points)
- Green Building/Energy: *Energy Star certified* (5 points)

The project therefore scores 55 points. Based on this score, the project would be eligible for a 5.5 year Land Use Incentive Grant.

The project meets the following 2010-11 Strategic Plan Goals: (1) *Affordable*: Create and preserve affordable rental and homeownership opportunities in Asheville. The project is directly related to the opportunity for public/private partnerships and innovative financing to incentivize affordable housing development; and (2) *Green and Sustainable*: Set and develop a plan for implementing a community reduction goal. The project is being built to Energy Star standards, and will be certified by Energy Star.

The project meets applicable Master Plans in the following ways: (1) The project supports the goals of the *2009 City Transit Master Plan* by its location "along major transit corridors..." ; and (2) The project supports the goals of the *2009 Sustainability Management Plan*, which calls for the City to encourage Transit Oriented Development. According to sources cited by the developer, "the minimum density at which rapid transit can operate efficiently is approximately 12 units per acre. The Weirbridge Village development is 17 units per acre."

*Exemption Request*

The developer has requested an exemption from the eligibility requirement that a project be located within ¼ mile of identified major highways. The project is located .6 miles from an eligible transit route, so slightly more than ¼ mile from the eligible area boundary. It is, however, in an area identified as "Location Efficient" in the Center for Neighborhood Technology study of location efficiencies in Asheville; although public transportation at or closer to this location is not in the Transit Master Plan. The developer notes that the project is located close to retail employment opportunities.

Fiscal Impact: Estimated maximum value of Land Use Incentive: The current assessed value of the property is $1,062,500. The developer's estimate of completed project taxable value is $23,881,118. The current annual city tax, based on current assessed value, is $4,462.50. The annual estimated city tax post completion, based on the developer's estimate is $100,300.70. Thus, the estimated annual Land Use Incentive Grant would be $95,838.20, the exact amount to be determined by the length, in years, of the grant award, and the actual assessed value of the development upon completion. If approved for 5.5 years, the estimated Grant would be $527,110.10.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Plan Review Fees and Water Service Connection Fee is $108,632. The value of each 10% of the fee rebate would be $10,863.20. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 55 point level, the fee rebate would be $59,747.60.

The Housing and Community Development Committee has reviewed this application and recommends that Council set a public hearing date for its consideration.

**RESOLUTION BOOK NO. 34 – PAGE 371**

**C. RESOLUTION NO. 12-103 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF**

**TRANSPORTATION TO FUND THE METROPOLITAN PLANNING PROGRAM, SECTION 5305 OF THE FEDERAL TRANSIT ADMINISTRATION**

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the North Carolina Department of Transportation (NCDOT) to fund the Metropolitan Planning Program, Section 5303 of the Federal Transit Administration (FTA).

The FTA Section 5303 Metropolitan Planning Program is part of the annual Unified Planning Work Program (UPWP) of the French Broad River Metropolitan Planning Organization (FBRMPO), which outlines transportation planning tasks to be performed by the FBRMPO. The Metropolitan Planning Program is designated to pay exclusively for transit planning activities, such as grants administration and reporting activities, short range and long range transit planning, transportation improvement program preparation, Title VI and DBE programs, and planning and operational analyses. The funds are used to supplement the Transit Projects Coordinator position (90% of the grant) and a portion of the Transportation Manager position (the remaining 10%) for time spent on transit planning.

FY 2011-12 funding totals $63,600. The subject grant will provide 80% of the anticipated funding ($50,880), the North Carolina Department of Transportation will provide 10% ($6,360), and the City will provide the remaining 10% ($6,360). The grant funding and the City's local match in the amount of $6,360 are currently budgeted in the Transportation Department's approved budget for the current fiscal year.

This action complies with the current City Council's Strategic Operating Plan in the fiscal responsibility focus area by operating the City of Asheville to the highest levels of fiscal responsibility.

The Transit Commission supports the subject action.

Pros:

- The subject grant supplements funding for two existing positions.
- The subject grant enables the City of Asheville to use $57,240 in Federal and State funds for transit planning activities.

Con:

- A 10% local match in the amount of $6,360 is required.

The total grant funding for Fiscal Year 2011-12 is $63,600. The City is required to provide a 10% local match in the amount of $6,360. The anticipated grant funding and the City's local match in the amount of $6,360 are currently budgeted in the Transit Services fund.

City staff recommends that City Council adopt a resolution authorizing the City Manager to enter into an agreement with the North Carolina Department of Transportation to fund the transit planning program, Section 5303 Metropolitan Planning Grant of the Federal Transit Administration for FY 2011-12.

**RESOLUTION BOOK NO. 34 – PAGE 372**

**D. RESOLUTION NO. 12-104 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE MOUNTAIN SPORTS FESTIVAL ON MAY 25, 26 AND 27, 2012**

**RESOLUTION NO. 12-105 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR**

**UNFORTIFIED WINE AT THE 5 WALNUT ANNIVERSARY BLOCK PARTY ON JUNE 14, 2012**

**RESOLUTION NO. 12-106 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BREWGRASS FESTIVAL ON SETPEMBER 15, 2012**

**RESOLUTION NO. 12-107 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE GRIZZLIES FOOTBALL GAMES ON JUNE 18, 2012, JUNE 30, 2012, JULY 14, 2012, JULY 28, 2012, AUGUST 11, 2012, AND SEPTEMBER 1, 2012**

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Mountain Sports Festival on May 25, 26 & 27, 2012; the 5 Walnut Anniversary Block Party on June 14, 2012; the Brewgrass Festival on September 15, 2012; and the Asheville Grizzlies Football Games on June 18, 2012, June 30, 2012, July 14, 2012, July 28, 2012, August 11, 2012, and September 1, 2012.

- Mountain Sports Festival, Inc. has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at the Mountain Sports Festival and allow for consumption at this event.

  The component of the Mountain Sports Festival requesting alcohol will be held on Friday, May 25, 2012, from 4:00 p.m. – 10:00 p.m., Saturday, May 26, 2012, from 10:00 a.m. – 10:00 p.m. & Sunday, May 27, 2012 from 12:00 p.m. – 6:00 p.m. within the boundaries of Carrier Park, as per the event area limits referenced on the accompanying site map.

- Arts2People has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at the 5 Walnut Anniversary Block Party and allow for consumption at this event.

  The 5 Walnut Anniversary Block Party will be held on Thursday, June 14, 2012, from 5:00p.m. – 10:00 p.m. within the boundaries of Walnut Street between the intersections of Broadway and Carolina Lane, as referenced on the accompanying site map.

- Big Brothers Big Sisters WNC has requested through the City of Asheville Development Services Center that City Council permit the sale of beer and/or unfortified wine at the Brewgrass Festival and allow for consumption at this event.

  The Brewgrass Festival will be held on Saturday, September 15, 2012, from 12:00 p.m. – 7:00 p.m. within the boundaries of Martin Luther King Jr. Park, as per the event area limits referenced on the accompanying site map.

- Asheville Grizzlies has requested through the City of Asheville Development Services Center that City Council permit the sale of beer and/or unfortified wine at the Asheville Grizzlies Football Games and allow for consumption at these events.

  The Asheville Grizzlies Football Games will be held on Monday, June 18, 2012, Saturday, June 30, 2012, Saturday, July 14, 2012, Saturday, July 28, 2012, Saturday, August 11, 2012, and Saturday, September 1 2012, from 5:00 p.m. – 11:00 p.m. within the boundaries of Memorial Stadium, as per the event area limits referenced on the accompanying site map.

These actions have no direct connection with the City of Asheville Strategic Operating Plan.

Pro:

- Allows fundraising opportunities for the Mountain Sports Festival, Arts2People, and Big Brothers Big Sisters of WNC.

Con:

- Potential for public safety issues

There is no fiscal impact.

City staff recommends City Council adopt the resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Mountain Sports Festival, the 5 Walnut Anniversary Block Party, the Brewgrass Festival and the Asheville Grizzlies Football Games.

**RESOLUTION NO. 12-104 - RESOLUTION BOOK NO. 34 – PAGE 373**
**RESOLUTION NO. 12-105 – RESOLUTION BOOK NO. 34 – PAGE 376**
**RESOLUTION NO. 12-106 – RESOLUTION BOOK NO. 34 – PAGE 379**
**RESOLUTION NO. 12-107 - RESOLUTION BOOK NO. 34 – PAGE 382**

**E. RESOLUTION NO. 12-108 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH ASHEVILLE STAFFINIG INC. FOR TEMPORARY SERVICES IN THE CITY PARKING GARAGES**

Summary: The consideration of a resolution authorizing the City Manager to execute a change order for a contract with Asheville Staffing, Inc for temporary services in the City's parking garages and surface parking lots through June 30, 2012.

The City of Asheville, through the Parking Services Division, currently operates three parking garages with a fourth garage, Biltmore Avenue Parking Garage opening on or about July 1, 2012. In addition, the Parking Services Division operates several monthly parking and pay-by-space surface parking lots downtown. Parking Services Division uses a combination of City employees and contract temporary workers to provide service and customer assistance in these facilities and lots. Generally, City employees work during the business day and early evenings while contract temporary services are used for fill-ins, special events, and to extend garage hours during late evenings, weekends, and holidays. Use of temporary workers allows the greatest flexibility as needs vary greatly depending on time of year and events booked at the U.S. Cellular Center.

Effective July 1, 2011, general service contracts, including temporary labor, between $30,000.00 and $90,000.00 were required to pay the Living Wage as set by the City of Asheville. Parking Services solicited bids from interested vendors and the contract was awarded to Asheville Staffing, Inc. including the Living Wage provision.

The current contract with Asheville Staffing is not to exceed $89,000.00. Expanded hours to provide better customer service and the addition of a major special event, the Southern Conference Basketball Tournament, will result in a shortfall in the contract amount. Therefore, staff is requesting authorization to execute a change order to make the contract not to exceed $105,000.00.

This action complies with the City Council Strategic Operating Plan in that it provides safe facilities for residents and visitors to park in the most cost effective manner and provides better customer service

Pros:

- Provides safe and convenient facilities for residents and visitors to park in.
- Using temporary service employees is the most cost effective and flexible manner to augment the Parking Services Division's staffing requirements.

Con:

- Additional $16,000.00 expenditure.

The necessary funds are already budgeted in the Parking Services Fund's Operating Budget for FY 2011-12.

City staff recommends that City Council adopt a resolution authorizing the City Manager to sign a change order in the contract with Asheville Staffing to increase the contract amount to not exceed $105,000.00.

**RESOLUTION BOOK NO. 34 – PAGE 385**

**F. RESOLUTION NO. 12-109 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH COPELAND HOLDINGS LLC FOR SECURITY SERVICES IN THE CITY PARKING GARAGES**

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Copeland Holdings, LLC for security services in the City's parking garages for July 1, 2012, through June 30, 2013.

The City of Asheville, through the Parking Services Division, currently operates three parking garages; Civic Center, Rankin Avenue, and Wall Street. A fourth garage, Biltmore Avenue Parking Garage will open on or about July 1, 2012. The Parking Services Division uses a combination of City employees and contract security officers to provide security and customer assistance in the garages. Generally, City employees work during the business day and early evenings while contract security is on duty during late nights, weekends, and holidays.

During September 2011, the Parking Services Division requested quotes for service from interested vendors resulting in 20 vendors responding. Copeland Holdings, LLC provided the lowest price for the service.

During November 2011, City Council directed staff to review the merits of bringing all security functions in house. Parking Services negotiated a short-term contract with Copeland Holdings to provide security services during the review period. Staff subsequently determined that due to operational efficiency and flexibility it was more advantageous to the City to contract for these security services.

During March 2012, City Council expanded the range of service contracts subject to Living Wage requirements. Copeland Holdings was informed of these changes and adjusted their wage scale accordingly; raising the pay of the guards to $11.35 per hour. By providing the Living Wage provision, it is projected to cost about $50,000 (annual) more than a similar contract without the Living Wage provision. On a normal week, a total of 215 hours of security services will be needed. In addition, the Parking Services Division will request additional security support during periods of high demand; for example, Bele Chere, Southern Conference Tournament, Moogfest, employee vacations, or large concerts at the Civic Center. The total cost of the one year security contract will be $170,000.00.

This action complies with the City Council Strategic Operating Plan in that it provides safe facilities for residents and visitors to park in the most cost effective manner.

Pros:

- Provides safe facilities for residents and visitors to park in.
- Using contract security is the most cost effective manner to augment the Parking Services Division's security requirements.
- Achieves the City of Asheville's assurances to its partners at 51 Biltmore that adequate security will be maintained in the Biltmore Avenue Parking Garage.
- Includes the Living Wage provision.

Con:

- Total cost of $170,000.

The necessary funds are budgeted in the Parking Services Fund's Proposed Operating Budget for FY 2012-13.

City staff recommends that City Council adopt a resolution authorizing the City Manager to sign a one-year contract with Copeland, Holdings LLC to provide security services in the City's parking garages at a total cost not to exceed $170,000.00 per fiscal year.

**RESOLUTION BOOK NO. 34 – PAGE 386**

**G. RESOLUTION NO. 12-110 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A CONTRACT WITH DISASTER RECOVERY GROUP AND TREE SERVICE INC. FOR THE TUNNEL ROAD SIDEWALK CONSTRUCTION PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to execute a contract (and all change orders in the amount of 20% of the contract or $38,000.00) with Disaster Recovery Group and Tree Service, Inc., in the amount of $186,120.00 for the project known as Tunnel Road Sidewalk Construction Project, Project # ENG-11-12-004.

An informal request for bids was issued on March 13, 2012, and bids were received on April 10, 2012. There were a total of 5 bids received with the lowest responsive bidder being a North Carolina based contractor, Disaster Recovery Group and Tree Service, Inc., located in Arden, N.C., with an amount of $186,120.00. With the addition of a 20% contingency, the total budgeted amount for this project is $224,120.00. This will be a unit price contract and not a lump sum contract and is part of the City of Asheville's CIP program.

This action complies with the City Council Strategic Operating Plan of Multimodal Transportation in that it will meet the need of increasing the output of sidewalk construction and provide sidewalk in an area that is in need of sidewalk linkage.

Pros:

- Provides a pedestrian linkage by connecting existing sidewalks.
- Will be a step forward in meeting the City's Strategic Plan and current fiscal year CIP goals.
- Is listed as an identified need on the City of Asheville pedestrian plan.

Cons:

- Project management and contract administration will consume staff time and City funds.
- Temporary lane and driveway closures.
- The new construction will increase the maintenance load on the City.

This project is part of the $1.3 million sidewalk construction program that City Council approved as part of the FY 2011-12 Capital Improvement Budget. Funding will come from debt proceeds.

Staff recommends City Council to authorize the City Manager to execute on behalf of the City of Asheville a contract with Disaster Recovery Group and Tree Service, Inc., in the amount of $186,120.00 for the project known as Tunnel Road Sidewalk Construction Project, and all change orders in the amount of 20% of the contract or $38,000.00.

**RESOLUTION BOOK NO. 34 – PAGE 387**

**H. RESOLUTION NO. 12-111 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A LEASE AGREEMENT WITH ONTARIO INVESTMENTS INC. FOR GOLF CARTS AND MAINTENANCE EQUIPMENT AT THE ASHEVILLE MUNICIPAL GOLF COURSE**

Summary: The consideration of a resolution authorizing the City Manager to enter into a lease agreement renewal with Ontario Investments, Inc. for golf carts and maintenance equipment at the Asheville Municipal Golf Course.

In 2009, the City of Asheville entered into a one-year lease agreement with an option to renew for one additional year with Ontario Investments at a cost of $123,158 for golf carts and maintenance equipment at the Asheville Municipal Golf Course. In 2010, the City entered in a one-year renewal of the lease at a cost of $92,369. In 2011, the City entered into a ten month-renewal of the lease at a cost of $57,150 in anticipation of conducting the process to outsource the management of the golf course. The lease expires June 30, 2012.

The City is in the process of considering proposals from private golf course management firms to operate the golf course. This process is expected to continue through the latter part of 2012. The City wishes to renew the lease an additional six months at a cost of $34,290 while the option to outsource golf course operations is considered.

This action complies with the Parks, Recreation, Cultural Arts and Greenways Master Plan in that it provides ongoing maintenance and operations for the City's park system.

Pros:

- Investment to maintain and care for the Asheville Municipal Golf Course, a City-owned asset.
- Provide quality service for ongoing, core facility maintenance services.
- Fulfill commitment for maintenance of the golf course.

Cons:

- None

The six-month lease renewal will cost $34,290. The funds to support the lease renewal are included in the Proposed FY 2012-2013 Golf Fund Operating Budget. Funding is contingent upon City Council approving the FY 2012-2013 operating budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a lease renewal agreement with Ontario Investments Inc. for golf course carts and maintenance equipment at the Asheville Municipal Golf Course not to exceed $34,290 contingent upon City Council approving the funds associated with the lease agreement as part of the City's Proposed FY 2012-2013 Golf Fund Operating Budget.

**RESOLUTION BOOK NO. 34 – PAGE 388**

**I. RESOLUTION NO. 12-112 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH WESTERN WATER PROOFING COMPANY FOR CONSTRUCTION, RESTORATION, REPAIR AND MOISTURE MITIGATION TO THE CITY HALL BUILDING**

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Western Waterproofing Company for the restoration, repair, and moisture mitigation to the Asheville City Hall Building.

The Asheville City Hall Building is recognized throughout the country as an Art Deco masterpiece. Douglas D. Ellington, an architect, who came to Asheville in the mid-1920s, designed the eight-story building, which was completed in 1928. Ellington stated that the design was "an evolution of the desire that the contours of the building should reflect the mountain background."

Asheville City Council approved Resolution Number 10-151 on July 27, 2010, authorizing a contract with Sutton-Kennerly & Associates to prepare construction and bid documents, conduct special inspections, and authorized prototype repairs and testing. Based upon the earlier investigation by Sutton-Kennerly & Associates and the prototype repairs conducted in 2011, specifications were developed to mitigate water infiltration. A Request for Qualifications was advertised for construction firms. Qualification criteria included, but was not limited to the following:

- Unlimited General Contractor's license in the State of North Carolina;
- A minimum of twenty years continuous and ongoing experience in the repair and restoration of historic masonry structures to include extensive experience with terra cotta repairs;
- A sufficient number of experienced management, supervisory staff, superintendents, expert tradesmen, journeymen, and laborers to complete a minimum of 90% of the work with the contractor's own forces without subcontracting the work;
- Proof the required insurance and bonding capacity to meet the insurance and bonding capacity of the entire project.

Pursuant to the RFQ, firms were pre-qualified and an Invitation For Bid was issued. Only those firms prequalified were allowed to respond to the IFB. Western Water Proofing Company, Charlotte, North Carolina was the low bid. The project has multiple unknowns such as number of bricks, terra cotta tiles, and other exterior material to be repaired or manufactured. Some of the bricks and terra cotta tiles are damage being beyond repair and will need to be replaced. The project has alternatives that are included to improve the long-term viability of the repairs. These include vented metal rain screen on the back side of the existing parapet walls and removing the existing lead coated copper hidden gutter liners at the seventh and ninth floor levels and installing new self adhering inner liner and new lead coated copper gutter liner at all locations. The base bid with alternatives is $3,682,700. Unit prices were included for individual brick replacement ($14.40 each), shelf angle extension ($65.00 per foot), terra cotta molding ($2,500 each), terra cotta replication ($330 each), terra cotta surface repair ($46 per cubic foot), terra cotta repair by epoxy bonding ($145 each), and blocking replacement ($24 per board foot).

Due to the complexity and historic nature of this project, a number of unknown repair/ replacements may become evident that are not within the scope of the bid specifications. Included in the total project is a contingency for the unknowns and future years scope of work. The renovation/remodel of the seventh and eighth floors will not begin until the third year of the project. The prototype repairs and engineering approved for the project are $523,100. New HVAC for the seventh and eighth floors utilizing the existing boiler and chiller is estimated by Sutton-Kennerly & Associates to be $375,000. The demolition and renovation of the 7$^{th}$ and 8$^{th}$ floors is $127,500. This includes new furniture, floor covering, walls, ceiling, tile, restrooms, etc. The total budget is $5,950,000 to complete the water mitigation repairs and to renovate the seventh and eighth floors. Due to the high potential for change orders, staff recommends Council authorize the full budgeted amount.

| | |
|---|---|
| • Base Bid with alternates | $3,682,700 |
| • Contingency | $1,241,700 |
| • Approved Expenditures (Engineering & prototype repairs) | $ 523,100 |
| • 7th & 8th floor HVAC | $ 375,000 |
| • 7th & 8th floor renovation/remodel | $ 127,500 |
| Total Budget | $5,950,000 |

It is estimated that the construction schedule will expand over several fiscal years, due to temperature fluctuations. For example, painting cannot be conducted with temperature below 50 degrees Fahrenheit or masonry work conducted with temperatures below 40 degrees Fahrenheit or when freezing conditions exist. It is anticipated the water mitigation repairs will be completed by November 2014. There will be periods when the project will be shut down to accommodate inclement weather. This will allow the project work to be phased. Additionally this will also allow time for the reproduction of any sections of the existing terra cotta that are beyond repair. The lead time for reproductions such as these is 8 to 12 months. Based upon properly performed research, the project work can be completed in three phases with two inclement weather shut downs between the three phases.

Pros:
- The City Hall Building is an architectural treasure and the crown jewel of Asheville. Restoration of the building is essential to the City's historic and cultural fabric.
- The approval of the resolution authorizing the contract for construction allows the repair and mitigation work to begin.
- Funding for the project is currently in the budget and funded by debt proceeds.

Cons:
- Administering a project of this size and following through on implementation will require significant staff time.
- A delay will further deteriorate the building and could threaten its structural integrity.

This project supports the City's long-term financial commitment to master plan implementation, infrastructure maintenance, capital improvements, and public facilities.

The cost of the base bid with alternates for the construction to mitigate water infiltration is $3,682,700. Additional costs have been identified for specific known conditions but with unknown quantities. Additional unknown conditions are anticipated as with any major project, especially with a building of this age and historic nature. The total cost of the project including engineering, prototype repairs, construction, and the renovation of the 7th and 8th floors is anticipated not to exceed the $5,950,000 budget.

City staff recommends that City Council adopt a resolution authorizing the City Manager to sign the contract with Western Waterproofing Company and future change orders associated with the project not to exceed the total budget amount.

**RESOLUTION BOOK NO. 34 – PAGE 389**

**J. RESOLUTION NO. 12-113 - RESOLUTION AUTHORIZING ACCEPTANCE OF CONVEYANCE AND RECORDATION OF DEEDS FOR CERTAIN WATER SYSTEM ASSETS FROM BUNCOMBE COUNTY**

Summary: The consideration of a resolution authorizing acceptance of conveyance and recordation of deeds for certain water system assets from Buncombe County.

There are two conveyances proposed: (1) reversion of recreational facilities and (2) conveyance of water lines and facilities.

**1. Reversion of Recreational Facilities**: Pursuant to the 1981 and 1996 Water Agreements, Buncombe County assumed ownership and maintenance responsibility for several regional recreation facilities: Recreation Park/WNC Nature Center, Municipal Golf Course, McCormick Field, and Aston Park Tennis Center. The facilities were deeded to the County, but ownership of these facilities was subject to reversion back to the City in the event of termination of the agreement.

For reasons unrelated to the termination of the Water Agreement, Aston Park was re-conveyed to the City by deed in January of 2005. As of the effective date of termination of the Water Agreement, June 30, 2005, ownership of the remaining properties reverted to the City by operation of the language in the agreement and deeds, and the City now owns and maintains them.

While a deed to re-convey these properties (McCormick Field, Recreation Park/Nature Center/Golf Course) is not legally necessary for the reversion to the City to be effective, it is helpful for clearing up title issues in the event there is ever a transaction involving third parties or financing, such as survey work, boundary adjustments, facility leasing, or operating agreements. Accordingly, we have asked Buncombe County to convey these properties by non-warranty deed, formalizing the reversion.

**2. Conveyance of Water Lines and Facilities**: As Council knows, Buncombe County owns about 20 miles of water lines in various places in the County, and also owns the South Buncombe pump station and storage tank. Since the termination of the Water Agreement in 2005, the City has been maintaining these lines and facilities pursuant to an agreement with Buncombe County. Buncombe County has offered to transfer the lines and the pump station to the City, along with associated facilities (valves, hydrants, meters, etc.) and easements.

A resolution authorizing both of these conveyances was adopted by the Buncombe County Board of Commissioners at its meeting on May 15. The resolution accepts the conveyance of the pump station and water line properties, and authorizes the recordation of deeds for those facilities and for the recreation facilities that previously reverted to the City.

Pros:

- Consolidates ownership of the water system and facilities in the entity that operates the system.
- Eliminates necessity for a separate agreement for maintenance of lines and facilities.
- Clears potential issues with title to property.

Con:

- Slight increase in maintenance costs.

Other than the minimal increase in maintenance costs in the Water Resources Fund, there is no budget impact. The water lines and facilities will need to be added to the City's fixed asset system. The current replacement value of those assets is approximately $6.2 million. Staff will calculate the fair market value of the assets and add them to the City's fixed asset record based on that calculation. The recreational facilities were previously added to the City's fixed assets.

Adoption of the resolution is recommended.

RESOLUTION BOOK NO. 34 – PAGE 390

**K. RESOLUTION NO. 12-114 - RESOLUTION APPROVING THE 2012 UPDATE TO THE TEN YEAR SOLID WASTE MANAGEMENT PLAN FOR THE JURISDICTION OF BUNCOMBE COUNTY**

Summary: The consideration of a resolution supporting the Buncombe County Solid Waste Plan to protect the health and environment of the Asheville area through safe and effective management of municipal solid waste.

North Carolina General Statute 130A-309.09A (b) requires Asheville to complete an individual Solid Waste Plan or to cooperatively partner with other entities on a regional plan. Historically Asheville has cooperatively partnered with Buncombe County supporting their regional plan, most recently in June, 2009.

Although there are no noteworthy changes to the regional plan, staff did include updates to reflect the City's new single-stream recycling program and the significant changes expected from that endeavor. Additional changes include television and electronics disposal consistent with the new state law, evaluation of food and yard waste disposal, and evaluation of the budgetary impacts of landfill costs on regional solid waste disposal.

Pros:

- The plan collectively focuses the responsible entities efforts.
- Identifying goals clarifies the purpose of solid waste programs by identifying specific strategies and objectives.
- Partnering allows consolidated regional plan.
- Meets state requirement(s).

Cons:

- State required to have plan, so individual plan would be needed.
- Individual plans lose broader impact and collaboration.

This action meets Council's goal on several fronts: It allows the City to partner with allied agencies on a common issue project; helps identify and focus efforts on clean and green initiatives, and allows for a more regional impact by sharing the City's lofty goals and objectives, particularly with regard to our green efforts.

Goals reported in the proposed plan are consistent with Council and Departmental goals, therefore, no additional fiscal impact.

Staff recommends that Asheville City Council adopt a resolution approving and supporting the update to the 2012 Buncombe County Regional Solid Waste Plan.

At the request of Councilman Smith, and consensus of Council, staff was directed to explore a county-wide composting facility.

RESOLUTION BOOK NO. 34 – PAGE 391

**L. RESOLUTION NO. 12-115 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH SIRE TECHNOLOGIES FOR THE INTEGRATED DOCUMENT MANAGEMENT SOFTWARE SYSTEM**

**ORDINANCE NO. 4083 - BUDGET AMENDMENT FOR THE INTEGRATED DOCUMENT MANAGEMENT SOFTWARE SYSTEM**

270

Summary: The consideration of: 1) a resolution authorizing the City Manager to enter into a contract for the Integrated Document Management Software Replacement Project with Sire Technologies and other suppliers in total amount not to exceed $107,600 for software, hardware, and services, and 2) a budget amendment in the amount $107,600 from unexpended capital funds in the Building Security and Business Technology Improvement Projects (BTIP).

An extensive Request for Proposals (RFP) process for Integrated Document Management software was conducted in late 2011 and early 2012. A survey of departments and end users was used to guide the RFP requirements. In addition to system requirements, the RFP included minimum proposal criteria, described the criteria for initial proposal evaluation and established finalist vendor selection activities and criteria. Responses were received from 11 vendors, and evaluated by a team that included IT, Police, Fire, Building Safety, Human Resources, Finance, Public Works, Legal, and the City Manager's Office.

A second stage of evaluation and due diligence was done for the 3 vendors who substantially met the RFP requirements. The 8 vendors who were not advancing to the second stage received notification from staff.

City staff met with officials from the Criminal Justice Information System (CJIS) to ensure compatibility and security of a new document management software system. Further, specific reference checks were performed with other law enforcement agencies to validate the appropriateness of the proposed software systems. After completing due diligence and reference checks, staff is seeking authority from City Council to enter into contract negotiations and sign a contract with Sire Technologies.

The project will provide an integrated software system that will support City staff throughout the organization in the appropriate use, storage, retrieval, archiving, and potential disposal of documents following defined business rules and state regulations in a manner that takes advantage of best practices and improves the efficient use of documents and related information resources.

This action supports City Council's Strategic Operating Plan as follows: (1) Supports City Council "Green" goal by implementation of processes that will require significantly less paper; and (2) Supports City Council goal to "create meaningful performance measures for programs and services."

Pros:

- Replaces an unsupported proprietary system that has reached its end of life with a system based on open standards
- Enhances ability to streamline and eliminate paper-based processes
- Provides secure, long-term digital storage and retrieval of critical documents throughout the organization, including the conversion of more than 2 million existing documents
- Improves quality and accessibility of information for decision support and business planning.

Cons:

- Any software implementation causes some degree of organizational turbulence during implementation.
- Allocated unexpended capital funds that could be used for other purposes.

As noted above, the total cost of this contract will not exceed $107,600. A portion of the project budget needed for this contract ($60,600) will be funded from savings realized by IT Services in the execution of the BTIP project. The remaining $47,000 needed for this project will be allocated from unexpended funds in the existing capital budget for Building Security.

City staff recommends City Council adopt: 1) a resolution authorizing the City Manager to enter into contracts for the Integrated Document Management Software Replacement Project with Sire Technologies in total amounts not to exceed $107,600 for software, hardware, and services, and 2) a budget amendment in the amount $107,600 from capital savings in the Building Security and BTIP projects.

**RESOLUTION BOOK NO. 34 – PAGE 392**
**ORDINANCE BOOK NO. 27 – PAGE 366**

**M. RESOLUTION NO. 12-116 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AMENDED PROFESSIONAL SERVICES CONTRACT WITH BETSCH ASSOCIATES/PBC+L FOR THE PURPOSE OF CONTINUED DESIGN SESRVICES FOR ADDITIONAL RENOVATIONS TO THE U.S. CELLULAR CENTER**

Summary: The consideration of a resolution to authorize the City Manager to execute an amendment to the professional services contract with Betsch Associates/PBC+L for design services related to the U.S. Cellular Center renovations extending the term of the contract and expanding the scope of the work in an amount not to exceed $205,855.

Betsch Associates/PBC+L provided design services for renovation project that helped the City achieve its goal of hosting the Southern Conference tournament. The original contract provided for the possibility of additional phases of design work. This amendment covers additional improvements that are consistent with our continued collaborative partnerships with Tourism Development Authority (TDA), Buncombe County, U.S. Cellular and SoCon. Our demonstration of good stewardship and proper plan development helped in securing additional grant funding from the TDA for continued improvements to the U.S. Cellular Center.

This action complies with the City Council Strategic Operating Plan's Fiscal Responsibility goal of developing strategic partnerships to leverage resources for infrastructure and CIP projects. This action also complies with the Civic Center Commission Master Plan that encourages continuing renovations for the facility, and supports the goal of developing new partnerships. It has been reviewed and recommended by the Civic Center Commission.

Pros:

- Action updates the professional services contract to meet the obligations required by the TDA grant approval.
- Action meets the requirements to facilitate the Southern Conference, and the resulting economic impact.
- Action will support improved facilities and prolonged economic strength for the U.S. Cellular Center.
- Action leverages significant partnership funding, with the City's commitment to CIP, to allow for greater levels of future renovation.

Con:

- None.

The design and construction costs to date for the Civic Center renovations have come in under budget. Thus, there is sufficient budget in the existing Southern Conference Renovations capitol project to fund this contract amendment without increasing the overall budget for the project. Funding for the additional improvements that are consistent with our continued collaborative partnerships with Tourism Development Authority (TDA), Buncombe County, U.S. Cellular and SoCon will be included in the FY 2012-13 budget.

Staff recommends approval of a resolution to authorize the City Manager to execute an amendment to the professional services contract with Betsch Associates/PBC+L for continued construction design services for the U.S. Cellular Center Renovations in the amount of $205,855.

**RESOLUTION BOOK NO. 34 – PAGE 393**

**N. RESOLUTION NO. 12-117 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR GRANT FUNDS UNDER THE N.C. OFFICE OF JUSTICE PROGRAMS OF THE U.S. DEPT OF JUSTICE**

Summary: The consideration of a resolution authorizing the City to apply for funds through the 2012 Byrne Justice Assistance Grant – Local Solicitation in the amount of $56,927.

The Asheville Police Department requests authorization to apply for the Edward Byrne Justice Assistance Grant (JAG) – Local Solicitation Award 2012. This is a predetermined amount of funds based on the Part 1 Uniform Crime Reporting Crimes. If the grant is approved the Asheville Police Department and Buncombe County Sheriff's Department will be allocated $56,927 based on the award matrix, with Asheville receiving $41,582 and Buncombe County receiving $15,345. The distribution of funds has been approved through a signed MOU.

APD plans to purchase in-car video systems to place in patrol cars. These recordings would generally serve as evidence to be utilized in court for the prosecution of criminal cases. However, these recordings could also be used to aid in resolving allegations of wrongdoing by officers. This would allow for an even greater level of protection of officers and citizens. The digital cameras provide high quality and high resolution video/audio recording of events in and around the patrol car. Recordings such as this help protect the interests of citizens as well as the interests of police officers. Recordings captured with these cameras could potentially aid in mitigating potential civil liability for the City of Asheville by illustrating in detail the actual events that transpired. The secure evidentiary storage and wireless upload capabilities of the system create a user friendly system that is extremely secure and versatile.

The Buncombe County Sheriff's Department plans to purchase a throwbot robotic mobile surveillance system, digital imagery equipment, and TASER X2s. The size and methods of deployment are more versatile than traditional robots and will enhance officer safety by transmitting images back to a display for viewing. This digital imagery equipment enhances the ability to capture non-testimonial identification imagery and will provide for positive identifications quicker. TASER X2s will allow deputies to deal with one or multiple persons at a time with less lethal force – thus enhancing officer and community safety.

There will be an expense of $41,582 by the APD for the in-car video system. The Buncombe County Sheriff's Department will expend $15,345 for the purchase of a throwbot portable surveillance robot, digital imagery equipment and TASERs. This accounts for the total allocation of $56,927 for this Grant.

This is a 100% non-matching grant that will enable the APD to greatly enhance documentation of patrol related activities such as vehicle stops, pursuits, etc. The video evidence will prove to be very valuable in court for both civil and criminal offenses. Additionally, such evidence will be valuable to for internal investigations into officer actions and encounters. This will enhance accountability for officer actions and increase officer and public safety.

This action complies with City Council's Strategic Operating Plan in the Focus Area - Safe - Asheville will be one of the safest and most secure communities when compared to similar cities.

Pros:

- Increasing In-Car video will allow for better documentation of police related incidents.

- Increases officer and citizen accountability through recorded interactions.

Con:

- None.

There is no fiscal impact at this time for City Council to approve the resolution authorizing the City to apply for the grant. If the grant is awarded, there would be maintenance and replacement costs for the equipment that would need to be included in future fiscal year budgets.

City staff recommends City Council adopt the resolution authorizing the City Manager to apply for grant funds through US Office of Justice Programs in the amount of $56,927.

**RESOLUTION BOOK NO. 34 – PAGE 394**

**O. RESOLUTION NO. 12-118 - RESOLUTION SETTING A PUBLIC HEARING TO (1) AUTHORIZE EXPENDITURES FOR ECONOMIC DEVELOPMENT PURPOSES (INFRASTRUCTURE AND SITE IMPROVEMENTS) IN THE CRAVEN STREET/WAYNSVILLE AVENUE AREA; AND (2) AUTHORIZE AN ECONOMIC DEVELOPMENT INCENTIVE AGREEMENT WITH NEW BELGIUM BREWING**

Summary: The consideration of a resolution setting a public hearing to authorize expenditures for economic development purposes (1) to provide and improve public infrastructure in the vicinity of Craven Street and Waynesville Avenue to serve an industrial facility to be constructed by New Belgium Brewery, and (2) to authorize an economic development incentive agreement with New Belgium.

In connection with the decision of the New Belgium Brewing to locate a facility in Asheville, the City proposes to undertake certain improvements to the public infrastructure in the area where New Belgium proposes to locate - - Craven Street and Waynesville Avenue in West Asheville. Most of these improvements are on public land and facilities and will benefit the New Belgium facility indirectly. Some improvements, such as storm-water facilities and increasing the size of waterlines will benefit the New Belgium facility directly.

The City also proposes to enter into an economic development incentive agreement with New Belgium, whereby the City will make annual grants to New Belgium, based on the value of improvements and job creation.

Where such expenditures are proposed for economic development purposes, the law provides for a public hearing to be held upon 10 days notice. Council's rules (Rule 27) provide for certain public hearings to be organized by special order of the Council.

The resolution sets the public hearing on this matter for the regular Council meeting on June 12, 2012.

Adoption of the resolution setting the public hearing is recommended.

**RESOLUTION BOOK NO. 34 – PAGE 395**

**P. RESOLUTION NO. 12-123 – RESOLUTION AUTHORIZING EXECUTION OF AN EXTENSION OF TIME FOR FULFILLMENT OF CONDITION REGARDING PROPERTY ON BREVARD ROAD CONVEYED TO HENDERSON COUNTY**

Summary: The consideration of a resolution authorizing the execution of an extension of the time for fulfilling the condition on the Brevard Road property conveyed to Henderson County in 2002.

In 2002, the City conveyed 137 acres of land on Brevard Road (herein "Brevard Road Site") to Henderson County pursuant to the Water Agreement. The conveyance was subject to a condition that Henderson County either convey the property to MSD for waste water treatment purposes or to a regional water and sewer authority of which Asheville and Henderson County are members. This conveyance is to occur within 10 years of the date of the conveyance to Henderson County, and if it does not occur, the property will come back to the City. The 10 year period expires on July 15, 2012.

As Council knows, we have been engaged in negotiations with Henderson County for a number of years regarding continuation of water service following termination of the Water Agreement in 2005. The disposition of the Brevard Road Site continues to be a key point in those negotiations. As Council also knows, the report of the Water Study Committee to the Legislative Research Commission contains an expectation that the "interested governments" will engage in "good faith negotiations" regarding regional water and sewer issues. Extending the condition on the Brevard Road Property will enable the City and Henderson County to engage in further negotiations without the July 14 deadline looming, or the uncertainty of an informal agreement. The City Manager has contacted the Henderson County Manager regarding negotiations.

The Henderson County Attorney and I have worked out language for the extension. Authorization is requested to allow for the signing of an instrument to be recorded in the Buncombe County Register of Deeds to formalize the extension.

Adoption of the resolution is recommended.

**RESOLUTION BOOK NO. 34 – PAGE 401**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Bothwell and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. MANAGEMENT PLAN FOR THE POLICE PROPERTY EVIDENCE ROOM

Police Chief William Anderson said that it was his goal to manage the property and evidence room at the highest level of professionalism and accountability and to restore community trust in the police department's handling of evidence.

This management plan outlines current steps being taken by the Asheville Police Department regarding the active management of the property and evidence room. The identified steps have been vetted by the District Attorney and in no way impact the ongoing SBI investigation. We do not have a timeline as to when this investigation will be completed. The department is committed to moving forward with improvements in the process of handling evidence and will keep city officials and the public informed, recognizing the importance of restoring community trust.

Current operations will continue with the separation of the old and new property room. As part of the rebuilding process, several steps have been taken to work on restoring trust and accountability to the process of collecting and storing evidence and property by the Police Department. The department is ready to move forward with the hiring of a property room

manager and will continue to make improvements to the evidence room process that are above and beyond the requirements of the department's accrediting agency, CALEA.

Hiring of evidence room manager:

- Nationwide search, expected to take between 3-4 months
- Targeted recruitment will be done through the professional law enforcement organizations such as International Association of Chiefs of Police, the International Association of Property Managers and the North Carolina Association for Property Managers
- The successful candidate will:
    - Have an extensive background in inventory management and/or experience working in a law enforcement property/evidence room environment
- First priorities:
    - Review all policies and practices to ensure they meet or exceed industry standards.
    - Combine old and new evidence room

Improvements to evidence room process:

- New Building Security System
- Civilian staff will report directly to a sworn officer at the sergeant level
- Additional steps cannot be disclosed at this time as they relate to the on-going investigation

This is budgeted as part of the General Fund.

His overall goal is to get the evidence & property room back to operating at its highest level of professionalism and accountability, while at the same time determining who is criminally responsible and ensuring that they are prosecuted to the fullest extent of the law.

In response to Mayor Bellamy, Chief Anderson explained more about how the advertising will be conducted, noting they are also advertising locally and working through our Human Resources Department to select the best qualified candidate for the position.

Mayor Bellamy stressed the need to make sure the community is informed with factual information moving forward and to be as transparent as possible.

**B. QUARTERLY REPORTS**

**Public Safety Committee Chair Report**

Councilman Bothwell, Chairman of the Public Safety Committee, provided Council with a brief update on some major accomplishments during this quarter.

**Strategic Operating Plan**

A report submitted by Assistant City Manager Jeff Richardson was provided to Council on the quarterly updates on key strategic initiatives associated with the five focus areas of the City of Asheville's Strategic Plan. Staff has tracked departmental projects using performance indicators and measurements through quarter three. This report outlines key operational updates during the third quarter of the City of Asheville's fiscal year (January 2012- March 2012).

In addition, City Council has asked for an activity report on a quarterly basis of the Domestic Partner Registry. Since the Registry began on May 2, 2011, a total of 48 couples have registered.

Affordable

*Housing:* The Residences at Glenn Rock, a 22 unit mixed use development by Mountain Housing Opportunities, received $140,000 of the $2.2 million of federal CDBG and HOME funds approved by Council. Givens Park Apartments, a 240 unit affordable housing development for seniors has been approved and is in the process of submitting construction permits.

Fiscal Responsibility

- *Revenue Diversification:* City Council has adopted a new fee for electronic gaming operations with expected revenues to be approximately $200,000.

- *Information Technology:* As an ongoing effort to operate the City of Asheville to the highest levels of fiscal responsibility, Information Technology Services has enacted a number of changes that will result in notable savings, including:

| **Operational Change** | **Fiscal Impact** |
|---|---|
| Staff-written software interfaces (in-house work) | $31,000 |
| Remote access software changes | $9,000 |
| Mobile phone plan changes | $8,000 |
| AT&T billing changes | $5,500 |
| **Total Savings:** | **$53,500** |

Job Growth and Community Development

- *Support Diversified Job Growth and Business Development:*
    - New Belgium Brewing Company will invest $175 million over the next seven years, bringing 154 jobs on the site of the former WNC Livestock Market on Craven Street. Construction will not begin until early next year, but the renovation will support 1,252 jobs in construction over the next seven years, with an additional 260 jobs for industry vendors and suppliers. Hiring won't begin until the end of 2014, and production won't begin until the first quarter of 2015. The new jobs will pay an average $50,000 a year, exceeding the county's average wage by 43 percent.

- *Expand partnerships with UNC-Asheville, A-B Tech, Mars Hill College, Warren Wilson College and other institutions to achieve common goals including health and wellness, workforce development and sustainable Economic Development.*
    - The City of Asheville and UNCA continue to expand their partnership opportunities including moving the Health Adventure to 525 Broadway in a collaborative venture that included the Montford Neighborhood Association, TD Bank, and the City providing site development guidance. Future plans include cleaning up the property and holding a community work day.

Green and Sustainable

- *Implement Ways to Reduce Solid Waste:*
    - The Human Resources Department has implemented a new online recruitment system, replacing a completely paper-based process. Last fiscal year the department processed over 3,500 paper applications. This system makes it easier for applicants to apply for positions, stay informed about application

status, and be notified of future vacancies in an area of interest. In addition, this system will allow for increased reporting and measuring of recruitment efforts.

- The Human Resources Department's Health Services Division has implemented an electronic medical records system which will not only eliminate the paper associated with visits, but also allow for easier access, tracking and reporting of activities.

- *Set and develop a plan for implanting a community energy reduction goal:*
  - Transit decreased its fuel usage by 9.6% during the 3rd quarter of FY2011-12. There were 1,081,698 total riders from July 2010 through March 2011 and 1,131,658 from July 2011 through March 2012 which equates to 49, 960 more riders or an increase of 4.6%.

- *Identify strategies and costs for increasing the city's annual energy reduction goal to 4 percent.*

  - Phase 1 of city-wide LED street lighting replacement completed in FY 11. Phase 2 (in FY 12) will put the city at 39% complete. Despite rising electricity rates, the city is trending down in electricity spending.
  - Old, inefficient IT servers were exchanged for newer and more energy efficient servers that require less space and less cooling.

Safe

- *Implement strategies to significantly improve public safety in neighborhoods in Asheville with the highest levels of crime*
- *Continue efforts to eliminate open air drug markets in Asheville*
  - Federal funding for the West Riverside Weed & Seed initiative will end June 30, 2012, reflecting the end of 5-year grant period. Significant achievements include: improved place-based social programs that integrate community input and needs with services provided, updated community facilities in both the Burton Street neighborhood and Pisgah View Apartments, and an overall trend of decreased violent crime. Drug arrests have also decreased with no decrease in officer presence (e.g., when comparing 2008 to 2011, drug arrests decreased 29%)

- *Track and Monitor Performance of the Nuisance Court:*
  - There were 108 new Nuisance Court cases in the third quarter of the fiscal year and 1,670 community service hours completed an increase from the same time period last fiscal year; there were only 66 new Nuisance Court cases and 836.5 community service hours completed for the same time period. However, these numbers are a decrease in new Nuisance Court cases from the second quarter of our current fiscal year from 189 new cases and 3, 222 community service hours completed.

- *Monitor the "Changing Together" Initiative:*
  - Cross agency partnerships continue to be strengthened with an outcome of improved communication about the region's most violent offenders.
  - There were 19 offenders that were invited to the Focused Deterrence call-in held at AB-Tech on March 22, 2012; 13 offenders showed up and six stayed to discuss the program and their options with the service providers present. Since this call-in, four participants are currently receiving services and two participants have re-offended by being arrested on drug charges.

- *Support Recreation and Employment Alternatives for Youth At Risk of Gang Exposure:* This quarter 211 youth participated in gang prevention education programs housed at four schools.

- *Support the Safe Routes to School program by applying for funding for one school this year*
    - NCDOT has awarded a contract to build a sidewalk along US 70 (Tunnel Road) near Charles C. Bell Elementary School for a Safe Routes to School (SRTS) project. The estimated completion date is August 2012.

Multimodal Transportation

- *Pursue Pedestrian and Bike Friendly Community Opportunities:* Asheville has been designated as a Bicycle Friendly Community at the Bronze Level by the League of American Bicyclists. The League of American Bicyclists is an advocacy organization representing the interests of 57 million cyclists and promoting cycling in communities across the United States.

The purpose of this information is to update City Council on key operational initiatives that are in accordance with the Council's Strategic Operating Plan. No action by Council is necessary at this time. City staff will prepare and present a comprehensive year end Strategic Plan Close Out report this coming August 2012.

In response to Mayor Bellamy on the status of the Haywood Street property, City Manager Jackson said that City management staff is translating the direction from the Finance Committee and Council into a contract for purchase. Those documents will be exchanged between City staff and McKibbon Hotel Group and then scheduled for Council action. Staff also has direction from the Finance Committee to insert into the process an opportunity for the Asheville Design Center to facilitate a review of design in such a way that both the City and the Basilica get the highest and best use of the property.

City Attorney Oast noted that there is a requirement for a public hearing to be held prior to signing a contract.

**Financial Report**

Budget Manager Tony McDowell provided Council with the following financial information which reflects the City's overall financial position for the fiscal year through March 2012.

***Amendments.*** The General Fund budget presented in the third quarter report reflects: (1) the adopted budget of $87,645,955; (2) a technical amendment adjusting the fleet external charge budget, and; (3) ten budget amendments totaling $746,363. The only amendment which involved an appropriation from fund balance was funding for the demolition of private property that had become unsafe; and it is anticipated that the city will reimbursed the cost of the demolitions in future fiscal years through proceeds received from the lien on the property.

| | |
|---|---|
| Adopted Budget | 87,645,955 |
| Fleet Technical Change | (1,221,594) |
| Budget Amendments: | |
| NCDENR Park Recycling Bin Grant | 30,000 |
| NC Arts Council Grassroots Arts Grant | 49,850 |
| Buncombe County/Changing Together Partnership | 63,000 |
| Debt-Funded Purchase of Computer Equipment | 350,000 |
| State Haz-Mat Grant | 25,000 |
| Federal COPS Hiring Grant | 118,543 |
| State Senior Opp. Center/Harvest House Grants | 24,410 |

| | |
|---|---|
| Mill Creek Condo Project | 38,207 |
| Hanging Basket Program | 2,353 |
| Demolition Funding | 45,000 |
| 3/31/2012 Budget | $87,170,724 |

***Revenues.*** Through March 31, 2012, the City has collected $72,808,671 in General Fund revenue, which represents approximately 83.6% of the total General Fund revenue budget. Revenue collections through the first nine months of the previous fiscal year were at 81% of budget, so collections this year are slightly ahead of where they were one year ago. The City has received nine months of sales tax revenue, and collections are up 9.3% compared to the prior year. Sales tax revenue is now projected to exceed budget by $575,000. State utility tax revenue (Intergovernmental category) continues to lag behind budget primarily due to the warmer than normal winter, which depressed natural gas and electricity usage. Overall, staff is currently estimating that ***total FY 2011-12 General Fund revenue will come in under budget by $475,000 or 0.55%.***

***Expenditures.*** General Fund expenditures through March 31, 2012 total $59,461,913 or 68.2% of the budget. One year ago expenses were at 68.4% of budget at this same point in the fiscal year. While fuel prices have fallen slightly from their peak, expenses for fuel and fleet maintenance are still expected to exceed budget by approximately $600,000 in the current year. As reported in the second quarter report, Fire Department overtime expenses also continue running ahead of budget. As evidenced by the overall General Fund expenditure percentage through the first three quarters, savings in other areas of the budget, such as full time salaries and utilities, are offsetting the over expenditures in fuel and fire overtime. Staff also continues to seek opportunities to generate additional savings by closely monitoring expenses, closing old purchase orders and contracts, and by maximizing efficiency in operations. ***Staff anticipates being able to generate the necessary expenditure savings to more than offset the minor revenue shortfall.***

***Fund Balance.*** The City ended FY 2010-11 with available fund balance of $13.18 million, which equated to 15.2% of FY 2010-11 expenditures. ***Based on current revenue and expenditure estimates, FY 2011-12 available fund balance is expected to increase slightly to 15.6%.***

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING ON THE FISCAL YEAR 2012-13 ANNUAL OPERATING BUDGET

Director of Administrative Services Lauren Bradley said that the City Council conducts a public hearing each year to receive public input on the Proposed Annual Operating Budget before the Annual Budget Ordinance is adopted.

Fiscal 2012/2013 Proposed Annual Operating Budget was presented to City Council on April 24, 2012. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 11 and May 18, 2012. Adoption of the Fiscal 2012/2013 Budget Ordinance is scheduled for June 12, 2012, at the regularly scheduled City Council meeting.

The Fiscal Year 2012/2013 Proposed Budget is balanced with an Ad Valorem tax rate of $0.42 per $100 of assessed value, which represents no change from the current year tax rate. All essential City services are continued in the Proposed Budget. A copy of the Proposed Budget is available for public inspection in the City Clerk's office. Also, the Proposed Budget is available for viewing on the City's website (www.ashevillenc.gov). In accordance with the North Carolina Local Government Budget and Fiscal Control Act, the Proposed Budget may be changed by City

Council in any way before adoption. It may also be changed by budget amendment after adoption, with the only exception being the Ad Valorem Tax rate, which cannot be changed once the Budget is adopted.

The item of employee compensation has been raised so she briefly walked Council through the process to date. We entered this year, after 3 years of very difficult economic conditions and tough decisions, through the City's priority to avoid significant reductions in the workforce and maintain the tax rate. Unfortunately, based on those decisions were we required to defer adjustments to employees' salaries for three years. Fortunately in the coming year we are projecting that the City will see some modest revenue growth, mostly thorough growth and sales tax revenues. As we worked through the budget worksession process there were two expenditure areas that were unavoidable – rise of fuel costs and fire overtime (which resulted in hiring 9 new firefighters). After those unavoidable expenditures, there was approximately $500,000 of discretionary funds. Council agreed with City management that employee compensation needed to be the number 1 priority with those discretionary funds. In the General Fund a 1% cost of living adjustment is approximately $460,000. To reach that beyond $460,000 would mean that they would have to consider some other opportunities for funding employee compensation, which would require either additional revenue (in the form of a tax rate increase), or a reduction in other expenditure areas or capital. Council directed staff that through the next several months as we close out the current fiscal year to look for opportunities to either provide for a one-time bonus or recurring salary adjustment for employees based on better than budget performance in the current year. In August the City will receive their sales tax information about the current year. If we have better than budget performance in what we are currently projecting, there might be a recurring source of revenue that could be built into next year's budget that would provide an opportunity for recurring employee compensation. Also, in August we will be at a point where we will have bid out all of our major capital projects in the current year, so that if there are savings Council can make a comprehensive strategic decision about those funds at that time. In November they will have the annual audit which shows how the City ended the year in unassigned Fund Balance. We are currently projecting that we will end the year with revenues over expenditures around $300,000, which would take us from a Fund Balance level of 15.2% to 15.6%. If sales tax revenues improve through the end of the year, that number might be better. We are optimistic that we will see some positive growth. By the time Council receives the audit by the end of November, they will have an idea of where we landed on unassigned Fund Balance and can make a decision about one-time revenues, so if Council is interested in doing some kind of one-time compensation at the end of the year, we would know by that point. The discussion about employee compensation or other priority areas for City Council doesn't have to end with adoption of the budget. There is a process we will move through based on budget performance and revenue performance where Council can make additional decisions through the year to address employee compensation. We did hear from Council that employee compensation was their highest priority. At this point, we are confident that we can afford a 1% cost of living adjustment in the upcoming fiscal year based on their current projections, but that we are hopeful that those projections might improve through the end of the fiscal year.

Staff recommends City Council conduct the public hearing on the City of Asheville Fiscal Year 2012/2013 Proposed Annual Operating Budget and include public input in its consideration of the Budget.

Mayor Bellamy opened the public hearing at 5:45 p.m.

Sgt. Rondell Lance, President of the local Fraternal Order of Police representing the men and women of the Asheville Police Department and their families, said that over three years ago employees were told that due to economic issues and the effect that the economy had on the finances of the City, the employees would not be receiving a raise. The employees understood the decision. For three years they did their part to help the City. They did not come before Council to raise issues with that decision. The employees continued to do their job in a professional manner with energy and dedication. The employees handled many events, some

being Moogest, Bele Chere, Presidential candidates visits, President Obama's visit to Asheville, basketball tournaments and protests. From the Street Division to Parks & Rec and other departments in the City, the reputation and greatness of the City of Asheville continued to be evident at these events, without any reduction in dedication to the City. We, as employees, believe in the City and are dedicated to the City and that's why we feel we have done our part in the last three years to help ease the City's burden of their financial difficulties. Police officers have worked without overtime (due to City sponsorship) and have had to flex out the time over the week or use it as compensatory time. Police officers also have to work 6 hours over as straight time before overtime and straight time on Christmas day. The City Manager told him that the last thing he would do as City Manager would be to balance the budget on the back of City employees. But after three years of balancing the budget on the back of the employees, we now feel it's time to find a way to give all employees a 4% raise. One of the main reasons Asheville is a great City is because of the dedication of their employees. Every day tireless efforts are made by employees to implement the goals and desires of Council, as well as keeping Asheville the premier City it is. Departments work together and employees go beyond their normal duties to make sure we maintain the City's reputation. The best investment the City can make in their budget is to invest in the City employees. The return of that investment will be felt all over the City – they eat in City restaurants, bring our families to the City, attend the many events in the City, shop at the malls, etc. They invest back into the City with not only dedication to the City, but also in monetary ways. He urged Council to invest in their employees. They don't feel a 4% raise for all employees is unfair. Employees need to be treated with respect and compensated for their service.

Mr. Doug Williams, member of the Board of Directors and Past President of the Friend of the WNC Nature Center, explained how the Nature Center is the City's most popular park facility. He expressed concern that their budget in the past three years has been reduced by more than 7%, along with reduction in staffing. They are concerned about the Nature Center's ability to maintain its current level excellent level of care for the animals and to provide educational programs for visitors and school groups.

Mr. Scott Mullins, President of the Firefighters Association, said that in the City's budget is a small token of appreciation – a 1% wage increase. Although we appreciate the thought, it is once again a step backwards. We have gone three years without a raise, which insurance and the inflation rate continues to increase. More money is going out of their pockets than going in. We are asking Council to get creative with the budget and find a way to put more money in the pockets of the men and women that people call on their worst day. They are the professionals that make the Fire Department one of the best in the state and the reason why so many residents choose to retire here. During the last three years, with no wage increase, the City was being called one of the best places to retire. Many Fire Department employees are hurting financially. The 1% increase means about $5 more a week for a new employee and his/her family. This is not nearly enough to help firefighters and other City employees who are struggling to get off the government assistance programs that they are currently on. It is not enough of an increase to help a firefighter purchase a home in the City that they proudly serve. Four-percent is a raise. They are not advocating that the City raise taxes or cut employees to give the raise. The City operates with a General Fund Balance of 15.2%. The State of North Carolina recognizes an 8% minimum. We believe it's time for a policy change. We ask that the City put less in the General Fund Balance and put it in the pockets in the hard working men and women to help Asheville the great City it is today. We understand the City has had to make some tough choices over the last three years and will be faced with hard decisions with this year's budget as well. Our firefighter families are no different. We've had to decide not to let our children participate in sports or attend camp simply because they could not afford it. Many firefighters have had to work overtime or work a second job to allow our children to do the things that so many take for granted. Asheville is a great place to work but please don't balance the budget on the backs of the employees.

Mr. Harry Carlyle, Asheville resident, spoke in support of more than a token 1% raise for City employees.

Ms. Holly Stiles, member of the Friends of the Nature Center, urged Council not to reduce the WNC Nature Center budget any further.

A firefighter spoke about the great City Asheville is and urged Council to increase the salaries of employees.

At 6:01 p.m., Mayor Bellamy closed the public hearing.

Mayor Bellamy said that this is the first public opportunity for her to talk about the City's budget. She agrees that we need to find additional funding for our City employees. She didn't like it last year when there was no increase and she doesn't like the 1%. She did not feel it was appropriate to wait until August. Going back to the financial investments policy approved last year where it said anything over 15% should be used for capital – she knew this day would come when we would have needs beyond capital, and this is the time. She felt that anything over 15% should be used for operations. She also believed that we should decrease our capital expenses by $1 million. Our employees are the backbone of our organization and earlier at this meeting she proclaimed National Public Works Week and stated how important they are to our City and still only a 1% raise. She believes we need to find the money. She offered the following suggestions: (1) we have used our Parking Fund for transit for the last few years and it has done a wonderful job; (2) we are accelerating our payback back for our bonds for our parking deck – maybe we shouldn't be as aggressive to pay it back and use some of that money for streets, and the money that would have been used for streets, put towards operations; or (3) reduce how much we are looking to invest in our debt service for the bond package we are about to go after – the cost for construction might to be a lot lower than anticipated even after we put the 25% in for cost overruns. She believed we need to find the money for more than 1%.

Councilman Bothwell was uncomfortable giving differential raises, as much as he values firefighters and police. The police and fire employees are organized in a way that other employees are not. He could support a 1.5-cent increase in property taxes which would cover a 4% raise for all City employees.

Councilman Pelly said as a new Council member it has been an eye-opener to try and balance the competing demands for the City. We have the 1% already in the budget and he's heard other options tonight, including (1) that some projects may be coming in under budget; (2) sales tax revenues may be larger than we anticipate; and (3) possibly holding the General Fund Fund Balance to 15%. Those are all possibilities. He was committed to trying to find a way to get as close to 4% as possible.

Councilman Hunt appreciated the work that firefighters and police provide the community. He agreed that the 1% increase is insufficient after 4 years. He talked about the process and challenges Council faces in trying to formulate an overall budget. The budget was presented at the April 24 Council meeting, the Finance Committee has met three times to discuss the budget and there has been two full Council budget worksessions. There are trade-offs that we wrestle with, including trying to get the Housing Trust Fund up to its original funding; transit, and several outside agencies that we have to cut funding. On the capital side, we have to make investments as well and not making them pushes those capital needs out into the future. He suggested to the City Manager that perhaps staff could provide a briefing for employees and the public so everyone could get a greater sense about those trade-offs. Council is very committed to public safety as seen in Council's strategic goals to have Asheville a safe city. Despite Council not improving compensation at the rate he would like, we have honored the commitment to improve public safety by adding 23 full-time jobs over the past five years and at the same time reduced all other departments by 34 jobs, through attrition. Given the interest of Council looking at this further, there may be avenues where we have other compensation discussion going further.

Vice-Mayor Manheimer said that Council is trying to balance all the different values our community has stressing that we place a high value on our public safety employees. When we learned at the budget worksession that there was some revenue to work with this year, the City Manager and Ms. Bradley put before Council a long list of things that needed funding. Council immediately pulled out employee pay raises as the item they wanted to fund, which basically took up all of the revenue we had to work with this year. Council values their employees. When we had these budget discussions, part of that discussion was we felt we were making some safe and conservative revenue estimates for this year and knowing that, we quickly decided that we would revisit our budget situation in August when we had firmer numbers on sales tax revenues. At that time we would be in a position to make a decision about additional one-time bonus pay increase, or a recurring pay increase. We will also have more numbers in November for a better outlook. The intent is to look at this again and hopefully be in a position to offer some additional revenues. She also owns a business and struggles with making sure they pay their employees a fair wage. She noted the unique situation Asheville is in opposed to all other cities across North Carolina – and that is, the higher call volume (50,000 additional calls) for emergency response needs from the people that come into our City every day. City taxpayers have to pay for those services. We have a high level of need, but a finite base to pay for it. We have heard that people don't want their taxes increased. This budget does not increase taxes, nor does it increase residential water rates.

Councilman Smith thanked the public service employees for the service they give the City, the excellence each pursues and professionalism with which they always conduct themselves. He agreed that we are not doing as much as we need to do regarding employee compensation. He would like to see us look at benchmark cities of similar size in the state to make sure we at least get to the average for public safety employees. That being said, thing are only now being beginning to stabilize after years of recession. Council has to be prudent and responsible to guarantee that this city continues to grow in a safe way so we can guarantee future revenues and get back to doing a cost of living adjustment every year. Asheville has restrictions preventing us from being as creative as we would like with raising revenue, e.g., difficulty in annexation; limits on our occupancy tax; high day call volume, etc. We are advocating for those revenues on a state level. He hoped to see later this year if the General Fund Fund Balance gets to 15.6% and if sales tax numbers rise, he would support giving employees more than 1%. He does not feel comfortable spending money that we don't have yet. He would be willing to take the General Fund Fund Balance to 15% once we know where it stands later in the year. He noted that the state is proposing a 15% cut in the transit budget state-wide so when we are looking at where money might come from to augment, we also have to protect some of the core services the City delivers. Perhaps the Finance Committee would be willing to begin working on a multi-year plan to get us to the state averages.

Councilman Davis hoped we could have offered raises more than 1%, reiterating that we may be able to offer a one-time bonus when more firm figures come in, nothing that he is not a fan of one-time bonuses. He could support going back to the table and trying to be creative to get as close to 4% as possible. He is not advocating a tax increase, but sometimes if the community wants high standards, they have to pay a little more. He agreed the raises should be more than 1%. When also noted that when we lose our employees to competing areas, it is very expensive to train new firefighters and police officers.

Councilman Bothwell pointed out that a 7-cent increase is being advocated for the Business Improvement District. To him, 1-cent increase on the property tax isn't off the table. Asheville is being compressed by our lack of being able to annex so we can't grow into getting a bigger tax base.

Mayor Bellamy supported deferring some capital investments. We have had employee health insurance increases, cost of living increases, but no increases for our employees. Our employees are taking home less today than three years ago. Budgets are based upon Council's priorities and if this is a priority of Council, then four votes can make it happen. Council members

are the policy makers and we should not leave it up to the employees to find the trade-offs. It may mean deferred new vehicles or perhaps a fixed roof and not a new one. It's time we invest in people, since we have invested in buildings, cars, greenways, transit, etc. It is time for Council to step up and make an investment in our employees. Mayor Bellamy supported a 4% increase before August.

Mayor Bellamy supported putting a 4% employee pay raises in the budget now and asking the City Manager to find the funds (capital needs on the table) and then in August when more firm numbers come in, put that money towards capital needs.

Councilman Hunt said that since we are late in the budget process, he was not ready to say how the budget might be reframed. It's clear there is interest amongst Council to look closely at employee raises. He suggested the Mayor work with the City Manager to come up with a process to where perhaps there be another Finance Committee meeting or another budget worksession to understand what the trade-offs would be.

Mayor Bellamy noted she did not support the budget last year because there were no employee raises. She stated in Council's retreat how important it was for employees to get a raise and she has stated to staff repeatedly how the employee raises should be more than 1%. Again, if this is a priority for Council, Council can make it happen. She could name things that have been a priority to Council that have made it through the budget process, even though the budget was tight. It will cost us more if our employees decide to strike or train new ones. We have invested where we wanted, and now we need to invest in the people who have made our community great. We wanted a One Stop Shop and the employees made it work; some employees work 4 10-hour days; there has been a decrease of employees but raise in customer service; and we cut staff in Parks & Recreation but still maintain programs for our youth. We are doing more with less employees.

Councilman Pelly confirmed that the current budget has a 1% increase for employee raises. He then moved to increase the property tax rate by 1-cent with those funds being dedicated to employee pay raises (for a total pay raise of 3%). This motion was seconded by Councilman Davis.

City Attorney Oast clarified that Council is not actually raising the tax rate, but giving direction to staff to come back with a budget that incorporates a 1-cent tax increase, with a 3% increase for employee salaries.

Mr. Tracey DeBruhl felt that there are several employees with base salaries that are too high. He felt we should bring those in line with the people that they are actually working with.

Ms. Judy Strong was opposed to spending money to support McCormick Field and the Golf Course which both do not support the community. To ask the community to support that funding and then increase property taxes by 1-cent is wrong.

Rev. Christopher Chiaronmonte supported an employee pay raise, but not funding it with a tax increase.

Councilman Hunt suggested that there have been several ideas floating around about how to retool the budget to have a more suitable pay increase for employees, but without having the context of understanding all the options and trade-offs, committing to a 1-cent property tax increase is not the best way to approach it. He appealed to Council that they deliberate in a more careful way, making sure the budget is adopted before July 1.

Councilman Davis reconsidered his second and withdrew it, believing that the Finance Committee and City staff have heard Council's wishes.

Councilman Bothwell then seconded Councilman Pelly's motion.

Councilman Smith felt it is Council's responsibility to deliberate and supported employee pay raises be reviewed again by the Finance Committee.

Vice-Mayor Manheimer, Chair of the Finance Committee, said they will take up the issue of employee pay, perhaps with a multi-term year plan to get us to the state averages as suggested by Councilman Smith. City staff is very talented to pull something together to consider that will bring us in line with other cities. She felt it was unfair to increase property taxes when the public was not aware that item was going to be discussed.

The motion made by Councilman Pelly and seconded by Councilman Bothwell failed on a 3-4 vote, with Vice-Mayor Manheimer, Councilman Davis, Councilman Hunt and Councilman Smith voting "no."

Mayor Bellamy hoped the Finance Committee consider that City staff should not wait until after July 1 to know if they are going to get more than a 1% raise.

Councilman Hunt suggested Vice-Mayor Manheimer and Mayor Bellamy meet with City Manager Jackson and come up with a schedule that gets us to adopt the budget by June 30, where we build in opportunities for a Finance Committee meeting and a Council worksession.

Mayor Bellamy doesn't think we need another worksession to just talk about the process. Is the goal to give the employees more than a 1% raise?

Councilman Hunt noted that under any scenario, no raise would go into effect until July 1 and deciding how much now is much less important than doing it property and thoroughly. He felt we need to be deliberative, balance all the trade-offs, and come to a unified decision.

Vice-Mayor Manheimer suggested said that through our budget worksessions we have been understanding the trade-offs from 1%, 2% or 3% increases. The City Manager can have the menu in front of Council and then Council can make those hard decisions. She needs to understand the ramifications of where the money will come from and what the trade-offs will be before she can support more than a 1% increase.

Mayor Bellamy said that she would meet with Vice-Mayor Manheimer and City Manager Jackson to talk about a process by which we can lay these things out for discussion and consideration and see if the majority of Council can support a higher raise for our employees.

**B. PUBLIC HEARING TO CONSIDER THE PERMANENT CLOSING OF A PORTION OF VICTORIA ROAD**

**RESOLUTION NO. 12-119 - RESOLUTION TO PERMANENTLY CLOSE A PORTION OF VICTORIA ROAD**

Assistant Public Works Director David Foster said that this is the consideration of a resolution to permanently close a portion of Victoria Road. This public hearing was advertised on April 27, May 4, 11 and 18, 2012.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjacent property owner Mission Hospital Inc. and Aycock Jr. and Owen E. et al William R has requested the City of Asheville to permanently close a portion of Victoria Road.

The Greenway Commission met on April 12, 2012, and approved the closure unanimously.

This closure allows for maximum land use potential for further development complying with the Asheville City Development Plan, Land Use.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution to permanently close a portion of Victoria Road.

Mayor Bellamy opened the public hearing at 6:53 p.m., and when no one spoke, she closed the public hearing at 6:53 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 12-119. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 34– PAGE 396**

**C. PUBLIC HEARING TO CONSIDER THE PERMANENT CLOSING OF AN UNNAMED ALLEY IN BILTMORE VILLAGE**

**RESOLUTION NO. 12-120 - RESOLUTION TO PERMANENTLY CLOSE AN UNNAMED ALLEY IN BILTMORE VILLAGE**

Assistant Public Works Director David Foster said that this is the consideration of a resolution to permanently close an unnamed alley in Biltmore Village. This public hearing was advertised on April 27, May 4, 11 and 18, 2012.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjacent property owners John William Bell Jr., Janis E. Bell, and Wachovia Bank and Trust Company have requested the City of Asheville to permanently close an unnamed alley in Biltmore Village.

The Greenway Commission met on April 12, 2012, and approved the closure unanimously.

This closure allows maximum land use potential for further development complying with the Asheville City Development Plan, Land Use.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution to permanently close an unnamed alley in Biltmore Village.

Mayor Bellamy opened the public hearing at 6:57 p.m.

Mr. Lou Bissette, representing the petitioners, said the idea is to improve the backs of the buildings.

Mayor Bellamy closed the public hearing at 6:58 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 12-120. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 34– PAGE 398**

**D. PUBLIC HEARING TO CONSIDER REZONING 7 ROBERTS STREET FROM COMMERCIAL INDUSTRIAL DISTRICT TO URBAN PLACE DISTRICT**

**ORDINANCE NO. 4084 - ORDINANCE TO REZONE 7 ROBERTS STREET FROM COMMERCIAL INDUSTRIAL DISTRICT TO URBAN PLACE DISTRICT**

Assistant Planning & Development Director Shannon Tuch said that this is the consideration of an ordinance to rezone 7 Roberts Street from Commercial Industrial District to Urban Place District. This public hearing was advertised on May 11 and 18, 2012.

Ms. Tuch said in late 2006 and early 2007, a number of properties were rezoned to Urban Place in an effort to support the Wilma Dykeman Riverway Master Plan. The area to the north, west, and south of the subject site constituted a part of that rezoning. This particular property was sought for inclusion in the rezoning at that time, but omitted because the property owners could not be reached to confirm their consent.

Subsequently, in recent months, the property was sold in a Buncombe County tax auction to one of the owners of the adjacent property already zoned Urban Place. The proposed rezoning would close the awkward gap and create a more consistent and orderly zoning pattern in the area.

At their May 2 meeting, the Planning and Zoning Commission voted unanimously (7-0) to recommend approval of the rezoning. One neighboring property owner spoke at the public hearing seeking confirmation that it would not affect his zoning.

Prior to the Planning and Zoning Commission meeting, staff received one communication from another neighbor seeking clarification. Staff has received no other communication from the public regarding this petition.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- Would resolve a problematic gap in the existing zoning district.
- Could encourage mixed use, high-density infill development.

Con:

- None noted.

While the diminutive subject site, at less than 2,000 square feet, does not hold any great development potential by itself, this rezoning promises to fill in a "missing piece" of a significant larger site, and staff feels it would undeniably yield an improvement over the existing situation.

Mayor Bellamy opened the public hearing at 7:00 p.m., and when no one spoke, she closed the public hearing at 7:00 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4084. This motion was seconded by Councilman Smith and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 369**

**E. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO REMOVE STANDARDS ALLOWING DIGITAL BILLBOARDS**

**ORDINANCE NO. 4085 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO REMOVE STANDARDS ALLOWING DIGITAL BILLBOARDS**

Assistant Director of Planning & Development Shannon Tuch said that this is the consideration of an ordinance amending the Unified Development Ordinance to remove standards allowing digital billboards. If adopted, existing DBBs will become legal non-conforming signs. No new DBBs could be added to the inventory. This public hearing was advertised on May 11 and 18, 2012.

Standards allowing digital billboards were adopted in 2008 after extensive public discussion – there have been eight digital billboards installed since the adoption of these standards and approximately 45 billboards removed, as required by the digital billboards standards (3 times the square footage of static for every digital). A more recently installed digital billboard on Merrimon Ave. has prompted substantial discussion in the community regarding appropriateness and compatibility of this new technology, especially along certain narrower corridors. After significant public discussion and staff analysis, the Planning & Zoning Commission recommended amending the ordinance to address specific concerns that arose with the Merrimon Ave. billboard, but also made a recommendation that staff continue to research the topic and develop a stronger set of standards overall.

This recommendation was forwarded to the Asheville City Council on March 26, 2012, where the Council unanimously voted to adopt the proposed wording amendment. The Council, however, also made a second motion instructing planning staff to return with a follow-up amendment that removes the option for DBBs altogether. This motion passed unanimously. The ordinance reflecting that direction, if adopted, would prohibit any new DBBs from being installed within the city's jurisdiction and would render all existing DBBs non-conforming. Since these existing DBBs were established legally, they will be "grandfathered" and will be allowed to remain

in place and maintained; however, these boards will not be able to be replaced or relocated - including the Merrimon Avenue DBB.

The subject of DBBs was reviewed by the Planning & Zoning Commission on several occasions (December 7, 2011, January 4, 2012, and February 1, 2012) where there was significant public discussion and deliberation (see above).

The most recent discussion occurred on May 2, 2012, by the Planning & Zoning Commission where the City Council directed amendment that proposed to remove standards allowing DBBs was discussed and approved 4:2 (Brooks recused).

This proposal does not directly relate to the goals outlined in the Strategic Operating Plan.

This proposal is; however, supported by the City's comprehensive plan where the *Implementation Matrix* states in the *Land Use and Transportation* section: **Goal I**. The design of streets and highways should be consistent with the economic goals of the City of Asheville and should be compatible with the physical character of the community. And strategy 6 under this goal states: **Strategy 6.** New billboards should not be allowed along any road corridors and existing ones should be amortized and removed unless adjacent to federal aid primary highways. The ability of local governments to require amortization of outdoor advertising was significantly limited by the enactment in 2004 of NCGS 160A-199, "Regulation of outdoor advertising signs". In absence of the ability to amortize, this action would support the intent of this goal.

Pros:

- Addresses compatibility and safety concerns from residents and motorists.
- Allows existing boards to remain in place.

Con:

- Renders existing digital billboards non-conforming with no opportunity for replacement or relocation.

No direct fiscal impact.

The proposed wording amendment reflects the Council's direction to remove the potential for any further digital billboards within the City of Asheville.

Ms. Tuch said that yesterday the received an application from Lamar Outdoor Advertising that proposes to relocate one of their existing digital billboards on Hendersonville Road by Applebees further north on Hendersonville Road. Staff will review and process the request. However, should this amendment pass, any future relocation or replacement applications will be denied.

Mayor Bellamy opened the public hearing at 7:03 p.m.

Mr. Tracey DeBruhl was concerned that if Council did not let billboards be replaced, it will be less of that industry for the smaller companies.

Mr. Tyler Martin urged Council so support this amendment and looked forward to staff working on relating the Merrimon Avenue digital billboard.

Mayor Bellamy closed the public hearing at 7:08 p.m.

In response to Councilman Smith about the digital billboard on Merrimon Avenue, City Attorney Oast said that we can no longer adopt ordinances that require the amortization of billboards without compensating for it. What Council is doing with adoption of this ordinance

doesn't close out the possibility of working out a relocation for that particular digital billboard. He and Ms. Tuch met last week with a representative of Fairway Outdoor Advertising to talk about ways to address relocation.

Councilman Davis said that the representative of Fairway Outdoor Advertising has made a good effort to get to this point. Regrettably, there was not a lot of willingness with the neighborhood to help with that process. He hoped we will continue to look at getting to a better place.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4085. This motion was seconded by Councilman Pelly and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 370**

**F. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE APPROVED CONDITIONAL ZONING MASTER PLAN FOR HUNT HILL APARTMENTS, LOCATED AT 56 HUNT HILL PLACE WITH A MODIFICATION REQUEST**

At the developer's request, Councilman Hunt moved to continue this public hearing until June 12, 2012. This motion was seconded by Councilman Pelly and carried unanimously.

**G. PUBLIC HEARING TO CONSIDER THE REZONING OF AN AREA IN THE VICINITY OF 55 HUNT HILL PLACE FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING TO INSTITUTAL DISTRICT**

At the developer's request, Councilman Hunt moved to continue this public hearing until June 12, 2012. This motion was seconded by Councilman Pelly and carried unanimously.

**V. UNFINISHED BUSINESS:**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 12-121 - RESOLUTION AUTHORIZING APPROVAL OF THE 2013 OUTSIDE AGENCY GRANTS**

Planning & Development Director Judy Daniel said that this is the consideration of a resolution approving of the recommendations of the Housing & Community Development (HCD) Committee for the 2013 Outside Agency Program.

The HCD Committee received applications from 17 eligible organizations for Outside Agency funding for 2013. The Committee considered these applications at their meeting of May 10, 2012, and now recommends 13 applications for funding. The recommendations are:

| Outside Agency | Funding Support Purpose | 2013 Recommended Funding |
|---|---|---|

| | | |
|---|---|---|
| Asheville Area Chamber of Commerce-Economic Development Coalition | Create jobs for the citizens of the Asheville area by attracting companies, creating companies, retaining companies and expanding companies. | $ 60,000 |
| Asheville Buncombe Community Relations Council | Outreach, advocacy, referral and training for Fair Housing and Employment Discrimination; training for area agencies on Diversity/Inclusion; conduct community conflict resolution, and acts as a community relations agent. | $ 35,000 |
| Asheville Buncombe Regional Sports Commission | Identify and attract sports events and related meetings to enhance the health, wellness and quality of life for area residents and sports enthusiasts and generate a positive economic impact by promoting our region as a recognized sporting destination. | $ 45,000 |
| Asheville Design Center | Small Business Assessment Pilot Program in cooperation with COA's Community Development, Economic Development and Development Services Departments. | $ 4,000 |
| Asheville Greenworks | Act as a liaison between city, other governments and community agencies and citizens to improve the environment. Serve every citizen and visitor in Asheville by cleaning up litter, reducing graffiti, recycle and reduce waste, and beautify with tree plantings, park restorations and flower beds. | $ 8,000 |
| Child Abuse Prevention Services, Inc. | Reduce/prevent child abuse, strengthen families, and assist children and families who have experienced abuse through prevention education, parenting education, and crisis intervention/counseling. | $ 5,000 |
| Children First /Communities in Schools | Project MARCH: after-school safe-haven program at three housing complexes in the City | $ 15,740 |
| Green Opportunities | GO Kitchen Ready program to prepare participants for jobs in Asheville restaurant and hospitality industry. | $ 25,000 |
| Homeward Bound of Asheville-AHOPE | Outreach, intake and support for homeless persons, support for weekend operations. | $ 20,000 |
| Housing Authority-Youthful HAND | Afterschool Program serves 30 children who reside in the Lee Walker Heights (LWH) housing development. The children are in grades K-8. | $ 4,720 |
| One Youth at a Time | Provide mentoring/tutoring, guided growth activities, job training and placement assistance to at-risk and critically at-risk youth ages 8-19. | $ 5,440 |

| | | |
|---|---|---|
| United Way 2-1-1 | 2-1-1 is a community service information line that connects people to community resources. It is a free confidential service available by phone 24/7 to speakers of all languages. Its database of public and non-profit services is also available online and via mobile devices. | $ 2,500 |
| YWCA of Asheville and WNC | MotherLove is a comprehensive program for pregnant and parenting teens, the overarching goal of which is to move these teens to graduation and higher education. | $ 8,000 |
| TOTAL | | $ 238,400 |

This action complies with the City Council Strategic Operating Plan in (1) Affordable, buy supporting initiatives to end homelessness; (2) Safe, by supporting recreation and employment alternatives for youth at risk of gang exposure; (3) Job Growth and Community development, by continuing to support the Economic Development Coalition; and by considering tools and programs the City can use to promote job growth and creation.

Pros:

- Approval of Outside Agency Grants provides operating support to Asheville- based organizations that are providing direct services for Asheville residents.
- Reflects the carefully considered recommendations of the City's Housing & Community Development Committee.

Con:

- Budget constraints continue to curtail the availability of funds; supported organizations will need to find alternate sources of program support. All worthy proposals could not be funded.

Outside Agency Grants are funded from the City's general fund. The funding recommendations exceed the fiscal limits included in the FY 2012-2013 Proposed Budget by $5,000. Staff suggests that this additional funding recommendation can be met through anticipated electronic gaming revenues. With City Council's approval, this modification will be included in the FY 2012-2013 Adopted Budget.

The HCD recommends approval of the 2013 Outside Agency Program grants as presented.

Brother Christopher Chiaronmonte questioned Council felt that instead of providing money to outside agencies, Council should put those funds towards employee wages.

Mr. Tracey DeBruhl felt that these outside agencies should try to raise the funds needed through fund-raising measures.

Councilman Davis, Chairman of the HCD Committee, said that these agencies come to the table with more funding requests than the City can help with. The 60,000 for the Economic Development Coalition, along with a much larger amount from Buncombe County, goes toward economic development and attracting jobs to our area. He also noted that the Sports Commission is a very important partnership that has leveraged many, many dollars to this community. These all come with partnership dollars brought to the table, not just agencies reaching out for funds.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 12-121. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 399**

**B. RESOLUTION NO. 12-122 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PERMANENT LENDER LETTER OF INTENT TO PROVIDE FINANCING TO EAGLE MARKET STREETS DEVELOPMENT CORPORATION**

Staff Report - The consideration of a resolution authorizing the City Manager to execute a letter of intent to provide permanent financing in the amount of $1 million to Eagle Market Streets Development Corporation ("the developer") for the project known as Eagle Market Place, and direction to the City Manager to pursue a HUD Section 108 loan to fund the developer's loan request.

Staff has reviewed a request from Eagle Market Streets Development Corporation for permanent financing in the amount of $1 million for the Eagle Market Place project. The development corporation is presenting its request to City Council along with information about how the loan proceeds would be used in the overall project on May 22, 2012. That request is outlined in more detail in separate documents provided by the developer.

The purpose of this staff report is to provide analysis on a recommended funding source for the requested loan should City Council wish to approve the request.

**HUD Section 108 Loan Program**

The HUD Section 108 Loan Program is an available finance resource for the Eagle Market Place project. **The Section 108 funds would be provided by HUD as a loan to the City.**

Section 108 allows eligible HUD CDBG grantees to borrow funds from future CDBG allocations to finance projects. A grantee may borrow up to five times their current year allocation. With an allocation this year of $950,000, the City of Asheville has the authority to borrow up to a maximum of approximately $4.75 million. The City has an existing loan of $750,000, leaving about $4 million in borrowing capacity. Although the City must apply for the funds, Section 108 is a non-competitive program.

The use and administration of these funds is tied to the regulations of the HUD Community Development Block Grant (CDBG) program. As with the CDBG program, all projects and activities must meet a HUD national objective: either principally benefit low and moderate income persons, aid in the elimination or prevention of slums and blight, or meet urgent needs of the community. The Eagle Market Place project purpose is eligible for a Section 108 loan because it is housing construction as part of community economic development, and 100% of the funds will benefit low and moderate income persons.

**Section 108 Loan Details**

**Security:** The principal security for the loan guarantee is a pledge by the applicant public entity or the State (in the case of a nonentitlement public entity) of its current and future CDBG funds. Additional security will also be required to assure repayment of guaranteed obligations. The additional security requirements will be determined on a case-by-case basis, but could include assets financed by the guaranteed loan.

**Repayment:** The maximum repayment period for a Section 108 loan is twenty years.

**Financing Source**: Section 108 obligations are financed through underwritten public offerings. Financing between public offerings is provided through an interim lending facility

**Other:** Other CDBG rules would also apply, including federal environmental review processes, Davis-Bacon wage rates for construction labor and Section 3 standards to proactively market available jobs to residents of the area where the project is located. Because HUD HOME program funds are committed to the project, these rules are already in place, and new management costs would not be incurred because of them.

Completion of the Eagle Market Place project is an objective within the City's of Asheville's Strategic Operating Plan under the goal area "Job Growth and Community Development."

Pro:

- According to the developer, approval of the loan request would improve the project's ability to secure North Carolina Low Income Housing Tax Credits, which are essential to the project's pro forma.

Cons:

- CDBG funds can be used as a method of repayment, but there is no guarantee that the CDBG program will continue to be funded nationally.
- Commits future CDBG funds to loan repayment for Eagle Market Place instead of funding other eligible projects.
- Sufficient security will need to be pledged for the loan. Security is negotiated with HUD during the application process.

Regarding the fiscal impact: (1) **Loan from the City to Developer:** The developer's proposed repayment schedule for the loan made by the City to the developer includes deferring payments for a period of 20 years at a 2% interest rate. The repayment schedule and interest rate do not parallel the repayment structure between the City and HUD for a Section 108 loan, therefore creating annual negative cash flows to the City's CDBG program. As a result, the City's overall annual discretionary CDBG funding will be reduced for other projects. (2) **Loan from HUD to the City:** Interest rates on interim borrowing are priced at the 3 month London Interbank Offered (LIBO) rate plus 20 basis points (0.2%). Permanent financing is pegged to yields on U.S. Treasury obligations of similar maturity to the principal amount. A small additional basis point spread, depending on maturity, will be added to the Treasury yield to determine the actual rate. While interest-only payments for a period of time can be structured, the payments are not deferred, and principal payments typically start in year 5. Based on current market conditions, staff would roughly estimate that annual debt service payments would be $100,000. Annual repayments would be allocated from CDBG funds.

If City Council approves the loan request and the resolution as presented, staff recommends that City Council direct staff to pursue a HUD Section 108 loan as a funding source or the loan.

Mr. Darryl Hart, Chairman of the Eagle-Market Streets Development Corporation (EMSDC), said that they have been working with Mountain Housing Opportunities (MHO) for the last 1.5 years for this Eagle Market Place project to come to fruition. This project will be approximately 63 rental apartments in the Eagle-Market Street area. This is really a partnership with the City, County and the community. He thanked Council for their support and hoped they would approve this action.

In response to Councilman Bothwell, Ms. Bradley that Section 108 allows eligible HUD CDBG grantees to borrow funds from future CDBG allocations to finance projects. A grantee may borrow up to five times their current year allocation. With an allocation this year of $950,000, the

City of Asheville has the authority to borrow up to a maximum of approximately $4.75 million. The City has an existing loan of $750,000, leaving about $4 million in borrowing capacity. Although the City must apply for the funds, Section 108 is a non-competitive program.

In response to Councilman Bothwell on what the risk is to the City, Vice-Mayor Manheimer said this will commit future CDBG funds to loan repayment for Eagle Market Place instead of funding other eligible projects.

Ms. Cindy Weeks, representing MHO and the Eagle Market Place project, explained that they have done everything they possibly could do to reduce the cost of the project so that it would come in at a reasonable price. She then showed before and after renderings of the project and how the project was reduced from 7 floors to 6 floors and reduced the number of units from 70 to 62.

Mayor Bellamy explained we have used Section 108 loans in the past. The good thing about this project is that it will be paying taxes. This is not a new tool for the City, and even though we have not used it often, we will see benefits to our community.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hunt moved for the adoption of Resolution No. 12-122. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 400**

**BOARDS & COMMISSIONS**

Mayor Bellamy asked that at the next Boards & Commissions Committee meeting that they consider the Mayor's Committee on Veterans Affairs, which has operated as a task force for many years, become a City-County Committee to look at veterans issues. Vice-Mayor Manheimer said that she would be happy to place that on their next meeting agenda and invite the Chairman to make the presentation.

Regarding the Board of Adjustment, there currently exists two alternate seats, left vacant by Mr. James Sheeler, term to expire January 21, 2015; and Mr. Douglas Hattaway, term to expire January 21, 2014. The following individuals have applied for the vacancies: Dimi Kulakov, Daniel Summerlin, Robert M. Swicegood and Derek Weekley. It was the consensus of Council to interview all four individuals.

Regarding the Homeless Initiative Advisory Committee (HIAC), there are two vacancies (1) term of Wanda Lanier expired on November 1, 2011; and (2) vacancy from the passing of Gerald Hixson, whose term will expire on November 1, 2013. The following individuals have applied for the vacancies: Debbie Metcalf, Micheal Woods, Timothy Sadler, Charles Rosenblum, John Spears, Charles Barber, Jay Lively and Michael Akers. At the request of Mr. David Nash, Chairman of the HIAC, it was the consensus of Council to delay making appointments until the HIAC make their recommendation.

Regarding the Sustainable Advisory Committee on Energy & the Environment (SACEE), there currently exists a vacancy for someone who has "expertise in the field of energy management." This term would expire December 31, 2013. The following individuals have applied for the vacancy: William Hutchings, Timothy Ballard, Charles Rosenblum, Stuart Smith, Peter Brezny, Marcus Renner, Lawrence Pittman, Alan Watts, Brandee Boggs and Melita Kyriakou. At the suggestion of SACEE, it was the consensus of Council to interview Timothy Ballard and Brandee Boggs. In addition, it was also the consensus of Council to interview Lawrence Pittman.

Regarding the Planning & Zoning Commission, it was noted that Mr. Mark Brooks and Ms. Holly Shriner's terms on the Planning & Zoning Commission expire August 14 of this year. Both are eligible for reappointment and have excellent attendance records. Last year a new appointment process was established for the three Commission vacancies. It was the majority of Council's consensus to proceed with the newly-established process for appointments to these two seats, noting that both Mr. Brooks and Ms. Shriner will be considered for reappointment. Mayor Bellamy and Councilman Davis did not support proceeding with the new process because they felt the process established last year was when there were vacancies, not reappointments.

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Rev. Christopher Chiaronmonte spoke about the proposed business improvement district and the police violating his civil rights.

Mr. Joe Minicozzi thanked Council for their vote on digital billboards.

When Mr. Tracey DeBruhl asked for information to become a member on the Mayor's Committee on Veterans Affairs, Mayor Bellamy referred him to City Clerk Maggie Burleson who would advise him on the process.

Councilman Bothwell was pleased to announce that in the first month of rolling out the "Big Blue" (96-gallon carts), there has been an 87% increase in recyclables collected. This is a reduction of more than 112 tons of trash headed for the landfill.

Councilman Smith reminded the public that this is Strive Not To Drive Week and was pleased to describe the new Asheville Redefines Transit Program.

**Mountain Area Information Network**

Mr. Tim Ballard, member of the Board of Directors of the non-profit Mountain Area Information Network (MAIN) was joined by fellow Board member Isaac Coleman, read the following statement: "As you know, at your April 24 Council meeting, City staff was directed to work with MAIN to reach a mutually agreeable resolution of MAIN's past-due rent for space on the City's cell tower. Our understanding was that it was Council's desire that the past-due rent to be paid in full over a reasonable time period, and that any repayment plan include a substantive upfront payment. The MAIN Board of Directors met recently and approved the following repayment plan which meets these requirements. We are prepared to make: an upfront payment of $7,000; resume the monthly payments; and repay the balance in full by June 1, 2014. This repayment schedule would consist of two equal, annual payments, the first on June 1, 2013 and the second, and final, payment on June 1, 2014. As you may have read in the Asheville Citizen-Times op-ed page this past Sunday, MAIN plays a unique and important role in our community's ability to create and sustain a vibrant locally oriented economy. We also understand that City staff does not have the authority to take this public-service mission into account. But you, as our elected representatives, do have that authority. We are here tonight to ask you to exercise that authority by accepting MAIN's offer to repay the tower arrears, in fully, by June 1, 2014."

**Legislative Research Commission – MSD**

Vice-Mayor Manheimer said that the Mayor has received a letter from Mr. Steve Aceto, Chairman of the Metropolitan Sewerage District (MSD), asking the City if they would like to engage in negotiations with MSD as mentioned in the Legislative Study Committee's report. The report mentions that if the parties are engaged in good faith negotiations they will not pass legislation in the 2013 Session forcing the City of Asheville to transfer its water system to MSD. She felt the letter would require some response from the City. At her suggestion, it was the

consensus of Council, to respond to MSD by acknowledging receipt of the letter and stating that the City is in the process of determining their next steps.

Vice-Mayor Manheimer said that she and Councilman Davis are appointed as liaisons to the Task Force that was tracking the Study Committee, but now that the Study Committee is done with its work Council will need to re-tool how we want to approach this. We have engaged former City Manager Doug Bean, who is now with Raftelis, to help us interact with MSD as they interact with their study about a merger.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 7:54 p.m.

Magdalen Bullerson
CITY CLERK

MAYOR

Tuesday – May 29, 2012 – 6:30 p.m.
Public Works Facility

Community Meeting - Central Asheville

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

Mayor Bellamy opened the meeting, welcomed the audience and introduced City Council members.

Assistant City Manager Jackson provided the audience with a brief overview of the City Council Strategic Goals, noting that the 2011-12 end of year update would be provided at Council's August 28 meeting.

Director of Planning & Development Judy Daniel provided a brief update on the following: upgrades and renovations to City Hall; Buncombe County Courthouse repairs and additions; Charlotte Street potential traffic study; private investments in the east end of the Charlotte Street Corridor; Central Business District Food Truck Court; Lenoir Rhyne University in the Chamber of Commerce Building; new Harris Teeter grocery on Merrimon Avenue; Eagle-Market Street development; Pack Square Park Pavilion; Aloft Hotel; Art Museum expansion; new Diana Wortham Theatre entry; Pack Place historical exhibit; consideration of a Business Improvement District; update on 88 Haywood Street property; US Cellular Center continuing interior upgrades; and Lexington Avenue "Best Main Street Award".

Mayor Bellamy then opened up the meeting for questions. Questions/comments responded to consisted of (and those which could not be immediately responded to would be followed-up by City staff to the appropriate individual): how was the decision arrived at that Asheville needs another hotel on the Haywood Street property; who serves on the City Council Planning & Economic Development Committee; why hasn't the decayed Flying Frog building already been demolished; suggestion for City to tear down Flying Frog building and add the cost to the purchase price; complaints of noise, drunk and disorderly conduct at the Brewgrass Festival in Martin Luther King Jr. Park and request that it be relocated next year; opposition to Business Improvement District; support of Business Improvement District; request for relocation of Water Maintenance Division at 174 S. Charlotte Street due to unacceptable noise levels; what terminates the grandfathering of an existing digital billboard; concerns of prostitution in the South French Broad area; overwhelming traffic on South French Broad during school hours; need to include African Americans in planning processes; what are the roles of the ambassadors of the proposed Business Improvement District; and request not to proceed with the Charlotte Street Corridor traffic engineering analysis.

Mayor Bellamy and Council members expressed their appreciation for the community involvement.

At 8:15 p.m., Mayor Bellamy adjourned the meeting.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – June 5, 2012 – 3:30 p.m.

Special Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Councilman Gordon D. Smith

**BUDGET WORKSESSION**

**Employee Compensation**

Director of Finance and Management Services Lauren Bradley reviewed the Fiscal year 2012-13 budget goals and the rating agency reports for Asheville. She said that in the proposed Fiscal Year (FY) 2012-13 budget there is a 1% cost of living adjustment (COLA) effective July 1, 2012. In addition, there will be a revisit of compensation when (1) year-end sales tax numbers come in late August (sales tax base adjustment may generate recurring source of funds for additional base salary adjustment); and (2) audit is complete in November (fund balance above 15% may provide one-time source of funds for employee bonuses.

Ms. Bradley then reviewed the FY 2012-13 budget revenues, showing a subtotal net change in revenues of $2,235,000. She then reviewed the budget expenditures of technical assumptions - $1,345,000; and revenue less expenditure obligations - $785,000. Expenditure variables total $815,000, with a revenue less strategic investments of a negative $30,000.

She then explained in detail Option #1 – 2% COLA and a one-time bonus. Funding considerations: (1) sales tax projections will not be verified until late August; if actuals fall short of estimates, the City will have to capture mid-year savings to balance the budget; and (2) utilizes one-time capital reserves that could be used for other projects; replacement of obsolete equipment is a recurring expense.

She then explained in detail Option #2 – 3% COLA. Funding considerations: (1) sales tax projections will not be verified until late August; if actuals fall short of estimates, the City will have to capture mid-year savings to balance the budget; (2) utilizes one-time capital reserves that could be used for other projects; replacement of obsolete equipment is a recurring expense; (3) utilizes Parking Fund transfer to General Fund for salary expenditures; funding source would need to be revisited in FY 13-14; and (4) utilizes Fund Balance allocation for recurring expenditure priorities (Housing Trust Fund, Form-Based Code); funding source would need to be revisited in FY 13-14.

Policy direction needed included (1) to what level should employee COLA adjustments be funded in the FY 2012-13 adopted budget; (2) if an increase is approved, does City Council support the funding alternatives provided; (3) does City Council support a market-based compensation analysis to be used as a tool to make salary recommendations in the FY 2013-14 budget; and (4) moving forward, are there priorities or areas of interest that should be pursued in the next budget cycle.

There was considerable discussion on each option, with Mayor Bellamy and each Council member voicing why their supported either Option 1 or Option 2. Option 1 was supported by Vice-Mayor Manheimer, Councilman Hunt and Councilman Pelly with the one-time bonus (depending on Fund Balance in November) for the approximately 800 employees who earn $75,000 or less. Mayor Bellamy, Councilman Bothwell and Councilman Davis supported Option

2. Vice-Mayor Manheimer and Councilman Hunt noted that Councilman Smith expressed support for Option 1.

Ms. Bradley said that adoption of the budget is scheduled for June 12; however, if can be delayed until the June 26 meeting.

Mayor Bellamy asked that staff have language ready to insert in the budget ordinance on June 12 to reflect the majority of Council's wishes regarding employee compensation. She also challenged City staff to find cost saving measures in order to provide a 3% employee pay increase.

As Vice-Mayor Manheimer will be out of town on June 12, City Attorney Oast said that he would verify that a vote on the budget via speaker phone would be appropriate.

**ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 4:59 p.m.

Magdalen Bowerson
CITY CLERK

MAYOR

Tuesday – June 12, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Vice-Mayor Esther E. Manheimer

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Hunt gave the invocation.

**I. PROCLAMATIONS:**

**II. CONSENT AGENDA:**

At the request of City staff, it was the consensus of Council to add the following on the Consent Agenda: "Resolution amending Resolution No. 12-107 allowing for the provisions of malt beverages and/or unfortified wine at the Asheville Grizzlies football game to change the date from June 18 to June 16, 2012.

**A. APPROVAL OF THE MINUTES OF THE FORMAL MEETING HELD ON MAY 22, 2012; THE MAY 29, 2012, COMMUNITY MEETING; THE BUDGET WORKSESSION ON JUNE 5, 2012**

**B. RESOLUTION NO. 12-124 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION AGREEMENT WITH PATTON CONSTRUCTION GROUP INC. FOR THE CHALLEDON SUBDIVISION WATERLINE REPLACEMENT PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to enter into a construction agreement with Patton Construction Group, Inc., in the amount of $314,360.00 for the Challedon Subdivision Waterline Replacement Project.

This project consists of the installation of approximately 5,300 Linear Feet (LF) of new 6-inch Ductile Iron Pipe (DIP) along with all associated valves, hydrants, and services to provide fire protection and domestic water service to the Challedon Subdivision located in Candler, NC. The proposed waterline will replace an existing 6-inch Polyvinyl Chloride (PVC/plastic) line that will be abandoned once construction of the new line is complete. The Water Resources Department (WRD) issued an Advertisement For Bids for the construction project. In response to the Advertisement For Bids, the WRD received seven (7) proposals.

Companies responding were:

1. Patton Construction Group, Inc.– Arden, NC
2. Cooper Construction Company Inc. – Flat Rock, NC
3. Huntley Construction Company, Inc. – Asheville, NC
4. Cana Construction – Waynesville, NC
5. Carolina Specialties Construction, LLC – Hendersonville, NC

6. Steppe Construction, Inc – Mill Spring, NC
7. T & K Utilities, Inc. – Asheville, NC

The bids were reviewed by City Staff and selected Patton Construction Group, Inc., as the lowest responsible bidder at a bid of $314,360.00.

This project is part of City Council's strategic plans to improve city infrastructure and provide local companies with labor opportunities.

Pros:

- This project will replace an existing waterline that ruptures often, causing costly repairs for the City and Water Resources Department and frequent outages for the customers, with a durable, reliable, sustainable water system for the Challedon Neighborhood.
- This project is aligned with the City and Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.
- Approval of the construction contract to the lowest responsible bidder will invest City funds in the local economy.

Con:

- Failure to award a construction contract would prevent the completion of this high-priority waterline replacement project and maintenance issues with the existing line would continue.

The Water Resources Department currently has the funds needed for this project budgeted in the Water Resources' Capital Improvement Projects Fund.

City staff recommends City Council approval of the City Manager to enter into an agreement with Patton Construction Group, Inc. in the amount of $314,360.00 for the Challedon Subdivision Waterline Replacement Project.

**RESOLUTION BOOK NO. 34 – PAGE 402**

**C. RESOLUTION NO. 12-125 - RESOLUTION SETTING A PUBLIC HEARING ON JUNE 26, 2012, FOR THE ADOPTION OF AN ORDINANCE ORDERING THE DEMOLITION AND REMOVAL OF 44 LINDEN AVENUE**

Summary: The consideration of a resolution calling for a public hearing on June 26, 2012, for the adoption of an ordinance ordering the demolition and removal of the dwelling located at 44 Linden Avenue.

This property first came to the attention of the Building Safety Department in the summer of 2009, having been the scene of a fire several years earlier. Numerous efforts were made to locate the whereabouts of the property owner to no avail. Additionally, the owner was in default of a deed of trust and the lender had instituted foreclosure proceedings. Upon the lender's failure to follow through with the foreclosure sale, the City after giving notice, held an administrative hearing, ordering the demolition of the dwelling. The owner has voiced no opposition to the order of demolition. The dwelling is in a severely dilapidated condition in that the fire has substantially impacted the structural integrity of the foundation of the dwelling, no windows, gutters are missing, the eves are burned and failing with the interior of the dwelling severely smoke damaged throughout.

This action supports the city's strategic goal of implementing strategies to significantly improve public safety in neighborhoods.

Pro:

- Eliminates a health and safety hazard and contributes to the City's tax value

Con:

- There is a $113,750 Deed of Trust along with a $21,340.00 line of credit against the property in favor of Bank of America. To protect the City's demolition lien, the City, maybe forced to litigate the superiority of its lien over Bank of America's liens.

City Council authorized the use of fund balance for demolitions on March 13, 2012. The demolition is expected to cost $8,750.

City staff recommends that City Council adopt the resolution setting the date of public hearing on June 26, 2012, to consider an ordinance to order the demolition of the dwelling located at 44 Linden Avenue.

**RESOLUTION BOOK NO. 34 – PAGE 404**

**D. ORDINANCE NO. 4086 - ORDINANCE ENACTING AND/OR CHANGING THE SPEED LIMIT TO 25 MPH ON BORIS STREET, COMPTON DRIVE, EVELAKE DRIVE, GALAHAD PLACE, GAWAIN STREET, GUINEVERE COURT, KING ARTHUR PLACE, LANCELOT LANE, LIONEL PLACE, MERLIN WAY, PERCIVAL COURT, CAMPGROUND ROAD, DILLINGHAM ROAD, EDGELAWN ROAD, HERON AVENUE, MILDRED AVENUE, TRACEY DRIVE AND SCHENCK PARKWAY**

Summary: The consideration of an ordinance to enact and/or change the speed limit on Boris Street, Compton Drive, Evelake Drive, Galahad Place, Gawain Street, Guinevere Court, King Arthur Place, Lancelot Lane, Lionel Place, Merlin Way, and Percivale Court in the Camelot Subdivision to 25 mph; and enact/change a 25 mph speed limit on Campground Road, Dillingham Road, Edgelawn Road, Herron Avenue, Mildred Avenue, Tracey Drive, and Schenck Parkway.

According to state law (NCGS # 20-141), the statutory speed limit in North Carolina is 35 mph inside municipal corporate limits for all vehicles and 55 mph outside municipal corporate limits for all vehicles except for school buses and school activity buses.

Furthermore, local authorities may authorize by ordinance higher speeds or lower speeds than the statutory 35 mph speed limit on locally-maintained streets provided that the higher speed limit cannot exceed 55 mph. Speed limits authorized by local authorities are effective when the appropriate signs are erected.

City staff recently completed traffic engineering investigations and determined that a 25 mph speed limit would be reasonable and safe on the following streets in the Camelot Subdivision. The subject streets primarily serve residential areas in this subdivision. They are Boris Street from King Arthur Place to Lancelot Lane, Compton Place from NC 63 New Leicester Highway to the end of City maintenance, Evelake Drive in its entirety, Galahad Place in its entirety, Gawain Street from King Arthur Place to Lancelot Lane, Guinevere Court in its entirety, King Arthur Place in its entirety, Lancelot Lane in its entirety, Lionel Place from Guinevere Court to the end of City Maintenance, Merlin Way from Compton Place to the end of City Maintenance, and Percivale Court from Evelake Drive to the end of City Maintenance.

Additional traffic engineering investigations were conducted by City staff that indicated that a 25 mph speed limit would be reasonable and safe on Campground Road from Maple Springs Road to Bull Mountain Road, Dillingham Road from New Haw Creek Road to Old Haw Creek Road, Edgelawn Road from Midland Drive to Stratford Road, Herron Avenue from Haywood Road to Craggy Avenue, Mildred Avenue from Haywood Road to Herron Avenue, Tracey Drive from Hazel Mill Road to Skyview Terrace, Schenck Parkway from NC 146 Long Shoals Road to its southern intersection with East Schenck Crescent, and Schenck Parkway from its northern intersection with East Schenck Crescent to the end of City maintenance.

This action complies with the City Council Strategic Operating Plan in the Safety focus area by improving the "street experience" for all users including pedestrians, bicycles, and motorists in a primarily residential corridor.

Pros:

- City staff has been able to respond favorably to citizen's requests.
- The new speed limit will be consistent with roads of like character and design.
- This action will "clean up" some roads where the signs do not reflect the ordinance.
- This action will also bring some of the roads into line with our speed limit policies.
- Based on the 85th percentile speeds, most drivers would adhere to a 25 mph posted speed limits on these roads.

Cons:

- The initial cost to install the appropriate speed limit signs is about $1,200.00.
- Typically, speed limit signs have a serviceable life of five to seven years.

The initial cost to install the appropriate speed limit signs is about $1,200.00 and is included in the current operating budget for the Transportation Department.

City staff recommends that City Council approve an ordinance enacting and/or changing a 25 mph speed limit on Boris Street from King Arthur Place to Lancelot Lane, Compton Place from NC 63 New Leicester Highway to the end of City maintenance, Evelake Drive in its entirety, Galahad Place in its entirety, Gawain Street from King Arthur Place to Lancelot Lane, Guinevere Court in its entirety, King Arthur Place in its entirety, Lancelot Lane in its entirety, Lionel Place from Guinevere Court to the end of City Maintenance, Merlin Way from Compton Place to the end of City Maintenance, Percivale Court from Evelake Drive to the end of City Maintenance, Campground Road from Maple Springs Road to Bull Mountain Road, Dillingham Road from New Haw Creek Road to Old Haw Creek Road, Edgelawn Road from Midland Drive to Stratford Road, Herron Avenue from Haywood Road to Craggy Avenue, Mildred Avenue from Haywood Road to Herron Avenue, Tracey Drive from Hazel Mill Road to Skyview Terrace, Schenck Parkway from NC 146 Long Shoals Road to its southern intersection with East Schenck Crescent, and Schenck Parkway from its northern intersection with East Schenck Crescent to the end of City maintenance.

**ORDINANCE BOOK NO. 27 – PAGE 372**

**E. RESOLUTION NO. 12-126 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A LICENSE AGREEMENT WITH DUKENET COMMUNICATIONS LLC FOR INSTALLING, OPERATING AND MAINTAINING FIBER OPTIC EQUIPMENT AT 166 RESERVOIR ROAD**

Summary: The consideration of a resolution authorizing the Mayor to execute a License Agreement with DukeNet Communications, LLC for the purposes of installing, operating and maintaining fiber optic equipment at 166 Reservoir Road.

The property at 166 Reservoir Road known as White Fawn Reservoir is on a knoll at the western end of the Beaucatcher Mountain ridge. Two telecommunication towers are located on the property and the City of Asheville leases antenna space on the towers and ground space for related equipment.

DukeNet Communications, LLC provides fiber optic service to many of the telecommunications tenants at the site. In order to facilitate greater service to their clients, DukeNet requests to lease approximately 6,480 square feet in order to install fiber optic cable to connect the two towers on the premises. This license area measures 10 feet in width and is

approximately 648 feet long. DukeNet intends to use this license area for fiber optic communications between the two towers. The proposed term of the License Agreement will be five (5) years with one renewal period of five (5) years.

As consideration for the license agreement, DukeNet has agreed to grant the City the right to use twelve (12) designated dark fibers or unlit fibers along S. Charlotte Street to Reservoir Road for the same term of 10 years total. These dark fibers are bundled within DukeNet's existing fiber optic network, yet are not currently utilized by DukeNet (unlit). Through this value exchange, the City is seeking to create a no-cost link that will increase public safety network reliability for the City of Asheville's radio system. This link would cost approximately $45,000 if constructed separately.

In the coming years, the property at 166 Reservoir will be utilized as part of the Beaucatcher Greenway for potential parking, overlook areas, trail areas, etc. In order to minimize any impact to the future park development or the Beaucatcher Greenway development, DukeNet has agreed relocate the fiber optic line within City property if a portion of the designated license area is needed for Park or greenway development.

The Notice of Intent to enter into a License Agreement with DukeNet Communications, LLC was published on June 1, 2012, in the Asheville Citizen-Times. Ten days have passed since the publication and authorization to execute the License Agreement is being requested.

This action aligns with City Council's Strategic Operating Plan in that strategic agreements that enable the City to improve telecommunications infrastructure in exchange for use of City real property complies with the City's commitment to Fiscal Responsibility.

Pros:

- Maximize the value of this license agreement through the access to the DukeNet fibers
- Adds a link that will contribute to the City of Asheville's public safety radio reliability
- DukeNet agrees to relocate fiber optic line if in conflict with the future greenway or park

Con:

- None.

Under the License Agreement, the City will not receive any revenue from DukeNet; however the City will receive the right to use twelve (12) designated dark or unlit fibers along S. Charlotte Street to Reservoir Road which will save the City an estimated $45,000 in fiber optic installation costs.

City staff recommends City Council adopt a resolution authorizing the Mayor to execute the license agreement with DukeNet Communications, LLC on behalf of the City of Asheville.

**RESOLUTION BOOK NO. 34 – PAGE 406**

**F. RESOLUTION NO. 12-127 - RESOLUTION AUTHORIZING CITY STAFF TO APPLY FOR A FEDERAL TRANSIT ADMINISTRATION GRANT TO HELP PAY CURRENT TRANSIT SYSTEM FUEL COSTS AS CAPITAL MAINTENANCE EXPENSES AND IF AWARDED, AUTHORIZING THE MAYOR TO EXECUTE THE APPROPRIATE DOCUMENTS TO ACCEPT THE GRANT**

Summary: The consideration of a resolution authorizing City staff to apply for a Federal Transit Administration (FTA) grant to help pay current transit system fuel costs as a capital maintenance expense instead of an operating expense and if the grant is awarded, authorizing the Mayor to execute the appropriate documents to accept the grant.

The 2012 Consolidated and Further Continuing Appropriations Act permits the Federal Transit Administration (FTA) to treat fuel costs for vehicle operations as a capital maintenance item for grants made in FY 2012 under the Urbanized Area Formula Program up to a total of $100,000,000. Typically, fuel costs are treated as an operating expense. Since the funds were capped, FTA is limiting the use of the funds for the subject purpose to recipients that responded to an announcement that was posted on January 25, 2012 and closed on February 29, 2012.

City staff submitted a letter of interest within the specified timeframe and as a result, we are approved to use $175,182 for fuel costs in an 80/20 ratio instead of the 50/50 ratio that is used when fuel costs are considered an operating expense. This grant does **not** constitute additional funding; it is part of the annual Section 5307 allocation.

For grant purposes, Henderson County is considered a sub-recipient and therefore is eligible to share in the grant. Based on the approved formula apportionment, their share is estimated to be about $41,294 leaving a balance of $133,888 for the City of Asheville. The total project cost equals $218,978 ($175,182 divided by 80%) which means the 20% local match equals $43,796. Asheville is responsible for $33,472 of the local match and Henderson County is responsible for $10,324.

This action complies with the current City Council's Strategic Operating Plan by operating the City of Asheville to the highest levels of fiscal responsibility.

The Transit Commission supports the subject action.

Pro:

- Enables the City to leverage operating funding and use it as a capital expense, in a ratio of 80/20 instead of the typical 50/50 ratio allowed for operating assistance.

Con:

- A 20% local match is required which equals $33,472 (City of Asheville).
- Reduces the amount of FTA funding available for future capital improvements.

This FTA grant revenue and the City's local match are already included in the Proposed Transit Fund budget for the next fiscal year.

City staff recommends that City Council adopt a resolution authorizing City staff to apply for a Federal Transit Administration grant to help pay current transit system fuel costs as a capital maintenance expense instead of an operating expense and if the grant is awarded, authorizing the Mayor to execute the appropriate documents to accept the grant.

**RESOLUTION BOOK NO. 34 – PAGE 407**

**G. RESOLUTION NO. 12-128 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS FROM THE U.S. DEPT. OF JUSTICE THROUGH THE BULLETPROOF VEST PARTNERSHIP PROGRAM 2011**

**ORDINANCE NO. 4087 - BUDGET AMENDMENT FOR THE BULLETPROOF VEST PARTNERSHIP PROGRAM 2011**

Summary: The consideration of (1) a resolution authorizing the City Manager to accept grant funds through the Bulletproof Vest Partnership Program; and (2) an associated budget amendment, in the amount of $32,056 with half the proceeds coming from the grant and the other half (City match) coming from the Police Department's FY 2011-12 budget.

The City of Asheville Police Department currently participates in the US Department of Justice BVP program. The funds allocated through this program are designed to offset

departmental cost associated with purchasing bulletproof vests. The City of Asheville has been awarded $16,028 from the grant. The grant does require a 50% match from the City, which will come from the Police Department's existing FY 2011-12 General Fund budget. These funds, along with the City match, will enable the Police Department to purchase 54 bulletproof vests. APD would have to purchase these vests at full replacement costs if the grant award had not been received.

This action complies with City Council's Strategic Operating Plan in the Focus Areas - Safe - Asheville will be one of the safest and most secure communities when compared to similar cities and Fiscal Responsibility – The City of Asheville will support a stronger, more prosperous community by making smart investments that accomplish lasting, tangible returns.

Pros:

- Reduction in cost to the City of Asheville for the purchase of bulletproof vest
- Increase in officer safety by providing crucial safety equipment

Con:

- Requires 50% City match

There is a 50% match required by the City of Asheville in the amount of $16,028. As noted above, the match will come from the Police Department's existing FY 2011-12 budget.

City staff recommends City Council adopt (1) the resolution authorizing the City Manager to accept funds through US Department of Justice for grant monies; and (2) the associated budget amendment, in the amount of $32,056 with half the proceeds coming from the grant and the other half (City match) coming from the Police Department's FY 2011-12 budget.

**RESOLUTION BOOK NO. 34 – PAGE 408**
**ORDINANCE NO. 27 - PAGE 374**

**H. ORDINANCE NO. 4088 - BUDGET AMENDMENT TO USE NORTH CAROLINA STATE DRUG SEIZURE FUNDS**

Summary: The consideration of a budget amendment, in the amount of $10,000, to authorize the use of North Carolina State Drug Seizure Funds to fund office space improvements for the Asheville Police Department.

The North Carolina State drug seizure program is an equitable sharing program which divides the illegal proceeds from drug dealing between the North Carolina State government and local law enforcement agencies. It is designed to help off-set the considerable cost of drug enforcement, by allowing local law enforcement agencies to use seized monies for equipment, training, and improvements that might not necessarily be budgeted for by the agency. The illegal proceeds are divided with 25% going to the North Carolina Department of Revenue and 75% going to the local law enforcement agency initiating the seizure.

The City of Asheville Police Department has received $10,000 in North Carolina State drug seizure funding. This amendment will authorize the use of that funding to partially fund office space improvements at the old NC Guard Armory not covered by the APD operating budget.

This action complies with City Council's Strategic Operating Plan in the Focus Areas - Safe - Asheville will be one of the safest and most secure communities when compared to similar cities and Fiscal Responsibility – The City of Asheville will support a stronger, more prosperous community by making smart investments that accomplish lasting, tangible returns.

Pro:

- North Carolina State drug seizure revenue used to fund office space improvements at no cost to city taxpayers.

Con:

- None noted

The increase of $10,000 for construction improvements. Accepting and allocating these funds is a financial benefit to the APD allowing us to better equip our employees. There is no impact to the General Fund budget.

City Staff recommends City Council adopt a budget amendment in the amount of $10,000 authorizing the use of North Carolina State Drug Seizure Funds to fund office space improvements for the Asheville Police Department.

**ORDINANCE BOOK NO. 27 – PAGE 376**

**I. RESOLUTION NO. 12-129 - RESOLUTION CANCELLING THE JULY 31, 2012, COMMUNITY MEETING**

**RESOLUTION BOOK NO. 34 – PAGE 409**

**J. RESOLUTION NO. 12-130 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH OTIS ELEVATOR TO PROVIDE ELEVATOR MAINTENANCE AND REPAIR SERVICE FOR MULTIPLE MUNICIPAL BUILDINGS**

Summary; The consideration of a resolution authorizing the City Manager to enter into a contract with Otis Elevator to provide elevator maintenance and repair service for multiple municipal buildings.

The City of Asheville currently has a service contract with Otis Elevator, located at 203 Elk park Drive, Asheville, NC. This contract is renewable. Otis Elevator has proposed to renew and extend the contract to include a 7% discount for the next year and capping all future year increases at 5% per year in a five-year contract. The service contract is a predictive, preventative maintenance system for the Otis elevators at City Hall, Municipal Building, Stephens Lee Recreation Center, and Asheville Fire Station 11. The total contract amount for Fiscal Year 2013 is $64,433.71.

This contract supports the city's long-term financial commitment to master plan implementation, infrastructure maintenance, capital improvements, and public facilities.

Pros:

- Provides a contract to maintain and provide repair service to the elevators at City Hall, Municipal Building, Stephens Lee Recreation Center, and Fire Station 11;
- Provides a discount in cost for the next two fiscal years with fixed increases the following three years;

Cons:

- Maintenance cost to the elevators at City Hall will continue to increase due to the age of the elevators increasing the annual service contract.
- Some repair costs may still be incurred for repairs beyond the scope of this contract.

The $64,433.71 for contracted elevator services is budgeted in the City's Fiscal Year 2012-13 operating budget for facilities maintenance.

City staff recommends that City Council adopt a resolution authorizing the City Manager to sign the contract with Otis Elevator to provide elevator maintenance and repair services for multiple municipal buildings in the amount of $64,433.71.

**RESOLUTION BOOK NO. 34 – PAGE 410**

**K. RESOLUTION NO. 12-131 – RESOLUTION AMENDING RESOLUTION NO. 12-107 ALLOWING FOR THE PROVISIONS OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE GRIZZLIES FOOTBALL GAME FROM JUNE 18, 2012, TO JUNE 16, 2012**

**RESOLUTION BOOK NO. 34 – PAGE 411**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Davis moved for the adoption of the amended Consent Agenda. This motion was seconded by Councilman Smith and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. UPDATE ON STATE LEGISLATIVE ISSUES

**Asheville Airport**

Mayor Bellamy said that the City needs to take a formal position on the Airport legislation (House Bill 552) which was introduced on March 30, 2011, to establish the Greater Asheville Regional Airport Authority as an independent authority.

Councilman Smith restated the motion which carried unanimously on April 26, 2011, and moved to communicate to our legislators that the Asheville City Council is opposed to HB 552 with the following specific concerns (1) provisions to restrict the types of citizens who can serve on the board, (2) proposal to transfer title away from the taxpayers of Asheville to another entity; (3) if any properties are developed, under any circumstances where City tax-payer funding was used, for non-aviation purposes, that the City's equity position be recognized and considered; and (4) over the make-up of the board in terms of the number of people from each jurisdiction who can serve on the Board. The motion emphasized that we are strongly opposed (especially strongly concerned regarding compensation) to this happening without our input and ask if this moves forward that the concerns outlined be taken into consideration. The motion also formally requested an opportunity to dialogue further regarding the proposal. This motion, as restated to Councilman Smith was seconded by Councilman Bothwell and carried unanimously.

City Attorney Oast said that a letter was prepared and sent to all our legislators last year with Council's concerns.

Mayor Bellamy noted that the Airport was clearly paid for by Asheville taxpayers.

Mayor Bellamy urged Council to call on each of our legislators and reaffirm our commitment to keep the Airport. Also she asked that our legislative liaison relay Council's opposition to our legislators as well.

It was the consensus of Council to instruct the City Attorney to prepare another letter to our legislators expressing Council's continued opposition and concerns regarding HB 552.

**Legislative Study Committee on Water**

Mayor Bellamy said that the Committee on Metropolitan Sewerage/Water System of the Legislative Research Commission has recommended that the 2013 Session of the North Carolina General Assembly consolidate the City of Asheville's water system with the Metropolitan Sewerage District. The Committee also recommended an option for the "interested governments" to "craft their own solution for consolidation." Mr. Steven Aceto, Chairman of the Metropolitan Sewerage District (MSD) sent a letter to her asking the City to be part of the process where MSD will study the impact of a possible consolidation of the water and sewer systems on MSD ratepayers. She responded to him stating that the Council will deliberate on the best course of action moving forward.

Mayor Bellamy said that recently she travelled to Raleigh and spoke with our legislators and at that time Representative Tim Moffitt offered to come talk to City Council about this issue. She felt it would be good to have all our legislators come to ask them what their expectations are for the City and MSD to craft their own consolidation solution.

Councilman Smith said that it was his understanding the MSD was looking to have a solution crafted by November, but based on the timetable provided by the Legislative Research Commission, the November date seems rushed and we should approach this as deliberately as we can.

After a brief discussion, it was the consensus of Council to (1) instruct City Attorney Oast to draft a letter for the Mayor's signature inviting our legislators to meet with City Council to provide clarity on what their expectations are for the City and MSD to craft a consolidation solution; (2) participate in the MSD process going forward (noting that Raftelis will be able to provide MSD facts and craft information needed to support a regional scope more than just having Asheville turn over its assets) – Councilman Pelly is on the MSD Planning Committee and Vice-Mayor Manheimer is also on the MSD Board; and (3) since MSD is only looking at one part of this, that the City Manager be instructed to draft a letter to other local officials from area municipalities (or their designees) and service providers to also be a part of the process. That way we will have all the leaders that provide water in Buncombe County as well as our neighboring counties (if they are really talking about a regional authority).

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING TO CONSIDER A MUNICIPAL SERVICE DISTRICT FOR DOWNTOWN ASHEVILLE

Project Manager for the Asheville Downtown Master Plan Sasha Vrtunski said that this is the consideration of a resolution creating a downtown Municipal Service District, also known as a Business Improvement District (BID), in downtown Asheville. This public hearing was advertised on June 1, 2012.

She said that the Downtown Master Plan, adopted by City Council in June 2009, strongly recommended a downtown management entity for Downtown Asheville. A subcommittee was formed by the Downtown Commission to explore this idea, and began meeting in December 2009. The Management committee worked for two years exploring a district for downtown Asheville. This included a needs survey, an Economic Benefits Study (which also included a business survey), a public forum at the Civic Center, and a series of seven meetings with business and property owners.

In December 2011, an Interim Board was formed as the Management Committee recognized that it did not have enough property owners to finalize a plan. The Interim Board was

composed of some of the larger property owners, whom also have a long history with Asheville's downtown revitalization.

The Interim Board has worked over the past six months to develop a proposal for the business improvement district, and presented it at five open meetings, and numerous smaller meetings with property owners.

City Attorney Oast said the statute that governs the establishment of municipal service districts has certain requirements and City Clerk Burleson has provided that certification into the record.

Ms. Susan Griffin, property owner and resident in downtown, past Secretary and Vice-President of the Asheville Downtown Association and former Chair of DARN, provided Council with the history of the downtown area. Sixty years ago the downtown was the place to be, but in the 1970's the area rapidly declined. In 1977 City Council took the lead in getting downtown back on track, working closely with the private sector to revitalize and rehabilitate downtown. One of the most effective tools it had was the Downtown Development Department. In 1991 the Downtown Development Department lost its focus and no one was directly managing downtown. About 12 years later the Downtown Commission recognized the need to refocus on downtown. They urged Council to fund the Downtown Master Plan, which they adopted in 2009. Action committees were formed to implement each of the 7 strategies in the Plan. The Downtown Management Committee, which she Chairs, was appointed in 2009 to study Strategy 7 – Downtown Management. Goals were to ensure that downtown stayed clean, green and safe and to empower stakeholders to collaborate in decisions and investments that support mutual downtown interests. Action items were (1) study current conditions and services in the Central Business District (CBD) and develop a baseline of services; and (2) researched BIDs in North Carolina and all around the country to see how they worked, problems they faced and how they overcame them. They researched several different models, i.e., volunteers, lobbying, etc. Since North Carolina legislation was enacted in 1973 there have been 50 BIDs formed in North Carolina. The oldest was formed in Hendersonville in the early 1980's and it is still existing today. There are over 1,000 BIDS across the United States and many of them are formed in culturally and politically progressive cities. Many are formed to revitalize a dying downtown area, but many others are formed to manage, maintain and capture the unique vibe of their districts. Research shows that BIDS have had a positive impact wherever they are implemented. The Downtown Management Committee commissioned an economic benefit study to find out the impact on Asheville. The study showed a downtown BID would have a positive impact on the retail sales, on property values and on creation of jobs in the BID increased. This would be increased revenues for property owners downtown and also to City and County coffers, thereby benefitting all citizens of the area. The Downtown Management Committee formed an interim Board – 13 members who are all property owners, representing different types of stakeholders in the downtown area. They were charged with four things – to come up with a proposal that included the boundaries, services, assessment and the board make-up. She urged Council to support the BID.

Mr. Peter Alberice, property owner and resident in downtown, past President of the Asheville Downtown Association, past Chair of the Downtown Commission, and chair of the Asheville Area Chamber of Commerce, explained the proposal in depth. The interim BID Board generated the Business Improvement District Formation Report, which has been on the City's website since May 10, 2012. He explained how they determined the BID boundary which is to match the CBD. He explained how the assessment of 7-cents per $100 was arrived at – noting that the state average is 15-cents. For 67% of downtown property owners, their daily assessment would be 96-cents. Major property owners' daily assessment would be approximately $1.92. Regarding the proposed budget, 77% (613,865) would be budgeted for clean & safe; 13% ($103,937) would be for advocacy & coordination; and 10% ($82,187) would be for administration – totally $800,000. The clean and safe program would consist of regular sweeping/washing of sidewalks, litter/trash pick-up, graffiti removal, snow removal, landscaping/amenities

maintenance, and ambassador program. He was clear that the ambassador program is not going to be a police force – they will be unarmed and have a two-way radio or cell phone and if there is a problem, they will call the Police Department. The advocacy & coordination program would be to (1) bring downtown folks together to talk about issues; (2) work with City and County officials; (3) give district property owners a "point person" for problem solving; and (4) ensure all downtown voices have a forum. The Board of Directors proportionately represents different types of property owners, will prepare an annual work plan, will have financial oversight, will have program and staff oversight, and will represent property owners' interest. He said there is a 3-year sunset clause. In summary, he said this is a great opportunity for the City that it will help address issues such as revenue generation within downtown, help increase the tax base of the downtown and to provide another feature for people who are interested in coming to Asheville whether they want to start a business, build a project, renovate an old building, or live here. He urged Council to support the BID.

Mayor Bellamy opened the public hearing at 5:40 p.m.

The following individuals spoke in support of the BID for several reasons, some being, but are not limited to: positive impacts a BID can have on a community; important to put an infrastructure in place to protect the investment made years ago to keep our vibrant downtown; with a BID, those that decide to assess themselves also make the decisions about where the money will be spent; a BID will promote infill development; a BID provides a return on investment; a BID increases services to downtown; cities that currently have BIDs renew them over and over again because they have been successful; an important role of the BID is advocacy where there will be a central point of information; some have noted that their savings alone on graffiti would accommodate the assessment; the City can't pay for all the solutions needed for downtown, i.e., remove graffiti on private property; a BID will keep the sidewalks clean from dirt, cigarette butts, dog excrement, overgrown weeds, graffiti, sidewalk stains etc; reasons why volunteers cannot manage the BID; each state has different legislation regarding BIDs and each BID is tailored for each individual city; BIDs are for cities that are revitalized; now is the time to make downtown sustainable in an insecure time and create a funding source for downtown improvement that can weather the winds of political change; there will be an increase in retail sales and property values; the interim BID Board is a cross-section of downtown property owners from small entrepreneurs to residents of small, medium and large property owners; the BID will not create a gated community or mall atmosphere; BID concept is to make Asheville cleaner and safer for everyone; if people are unhappy with the BID, it can be altered or discontinued after three years; support for the BID will bring in a $700,000 overture to make our downtown neighborhood cleaner, safer and more prosperous; a BID has been suggested back in 1988; a BID will provide a consistency of service so that all of downtown will be safer and look its best with all of us determining the needs and sharing the cost; and lack of existing police services:

Ms. Kit Kramer, downtown resident, President of the Asheville Area Chamber of Commerce, past President of the International Downtown Association, and former Downtown Manager
Mr. Bob Barringer, Asheville resident
Ms. Kim MacQueen, property owner and business owner of a business downtown, member of the Downtown Management Committee, former Chair of the Downtown Commission, former Chair of the Downtown Association, etc.
Mr. Tom Gallagher, Asheville resident and local consultant who drafted the Downtown Master Plan
Mr. Adrian Vassallo, President of the Asheville Downtown Association
Mr. Joe Minicozzi
Mr. Andy Brockmyer, downtown resident
A north Asheville resident
Mr. Dwight Butner, former President of the Asheville Downtown Association, former Chair of the Downtown Commission, downtown resident and business owner
Owner of two downtown businesses and Director of the Asheville Grown Business

Alliance
Ms. Rebecca Hecht, member of the Downtown Master Plan Committee, member of the Asheville Downtown Commission, Board member of the Asheville Downtown Association, and owner of two downtown businesses
Mr. Buck Bragg, downtown property owner
Mr. Barry Olen, downtown property owner
Mr. David Quinn, planner focused on downtown and member of Asheville Downtown Association
Mr. Pat Whalen, downtown property owner and resident
Mr. Larry Holt, downtown property owner
Ms. Kim McGuire, downtown property owner
Ms. Judy Swan, downtown property owner
Mr. David Nutter
Property owner on Pearl Street
Downtown business and property owner
Business owner downtown

The following individuals spoke in opposition to the BID for several reasons, some being, but are not limited to: concern of make-up of BID Board of Directors; raising taxes in downtown will divide our community; the BID will impose of the will of a certain group of people on everyone; other citizens of Asheville work, eat and attend events downtown and just the property owners in downtown should have to pay for its upkeep; there is little evidence to support the financial claims that a BID brings to the community; there is no way of knowing whether residential property values would increase or decrease as a result of this added BID tax; higher taxes might deter buyers from living downtown and encourage them to buy less expensive property outside of the CBD while still have access to City amenities; the BID structure is not fair or democratic; the BID Board of Directors are an elite group; some businesses hire employees to pick-up trash in front of their buildings, shovel snow and clean their sidewalks and the BID will not be providing any services for them; it should be the responsibility of the downtown property owners to keep the front of their business neat and clean; some people feel overly-taxed and are already having a difficult time paying taxes; many downtown property owners feel unrepresented and abandoned by the BID Board; the BID tax will cost larger property owners much more and it will be passed down to tenants; if you keep taxing downtown businesses, you will see chain stores because small businesses won't be able to afford staying there; we elected City Council to run the City, not the BID Board of Directors; suggestion for the two opposing sides to meet and come back to Council in six months; and question if hotels in the downtown area should be considered in the BID because they already pay a hotel/motel tax:

Mr. Scott Owen, farmer and struggling artist
Property owner at 61 N. Market Street
Mr. Fred Guggenheim, downtown property owner
Mr. Liberty Valance, downtown business owner
Mr. Hunt Mallet, downtown property owner
Mr. Russell Thomas, managing partner for the Flat Iron Building
Mr. Martin Ramsey
Mr. Clayton Ludeman, property owner at 52 Biltmore Avenue – presented Council with a petition containing 25 signatures from the Oxford Place Condominiums that are opposed to the BID
Mr. Wes Rhinehart, representing FIRC Group
Mr. Chris Peterson, downtown property owner
Mr. Steve Lansford, downtown property owner
Mr. Denny Pearson, owner of Hotel Indigo on Haywood Street
Mr. Steve Rasmussen, worked on the Downtown Master Plan
Representative of WNK Asheville LLC (major property hotel owner in downtown)

The following individuals asked that Council delay any decision on the BID until issues have been addressed, some being, but are not limited to: The Ambassador program has no mention of the Asheville Police Department along with minimal oversight by the City of Asheville; BID will make life harder for the homeless; there is no representation on the BID Board of Directors from the social service community; this is a complex situation and even though a lot of good information has been presented, more information needs to be; surveys were sent to 369 residential condos in 17 buildings and out of those 369 surveys sent - 108 responses were received of which 101 were opposed to the BID; and most of the support heard today was from those involved in the process:

Mr. Karl Katterjohn, Asheville resident
Mr. John Spitzberg, Veteran for Peace and member of the Asheville Homeless Network
Mr. William Wilcox, owner and operator of the BB&T Building in downtown Asheville
A lady
Mr. Timothy Sadler

Mayor Bellamy closed the public hearing at 7:44 p.m.

Councilman Hunt acknowledged the enormous amount of hard work by a lot of people who have worked on this. He believed the downtown is a key part of the economic engine for this community and is very supportive of a BID. He felt that everyone in the community will benefit from the well-led BID effort. There are very few things in our political toolbox that will allow a local government to progressively and creatively reinforce its own vibrancy. Enthusiastic as he is of the BID, he believed more work is required. The additional work with a better focus will help satisfy some unsettled views and ultimately will improve the likelihood that we will have a great BID. He felt more time would allow for a better definition of the structure of the corporation the City would be contracting with for the BID services, the governance of it, what kind of oversight the City Council might have over that, a draft contract between the City and the BID corporation, the budget taken to a more refined level, etc. He believed the City Manager and the City Attorney are prepared to support a process to add the kind of definition needed. It will mean a year delay in implementation. He then moved to continue the public hearing to September 25, 2012, and direct the City Manager and City Attorney to work toward refinement with the understanding of how this might play out so Council will benefit from information when it comes back to Council. This motion was seconded by Councilman Bothwell.

Councilman Bothwell said that the economic impact study has so many qualifications that it renders it meaningless. He said we recently have a legal decision that said property owners cannot be the only voters on annexation and he would trust that the courts would say the same thing about expenditure of taxpayer funds. He felt the 7-cent tax raise is good for downtown and felt it would be good City-wide as there are all kinds of needs across the City. He didn't like carving out one section of the City for a tax increase and possibly coming back to the downtown property owners next year with another tax increase depending on the revaluation. He was also concerned about a non-elected board handing money in the City, citing the Pack Square Conservancy and the Grove Arcade. He felt the elected officials should be accountable.

Councilman Pelly was also concerned about the oversight, particularly when tax dollars are involved. In addition, he was not comfortable with the structure of the BID Board as proposed. However, he did support the BID in principle, but would like it refined.

In response to Councilman Smith, City Manager Jackson outlined several things to enhance service downtown, i.e., established a downtown police patrol, moved the police company storefront into the Haywood Street office, partnered with DARN to upgrade Pritchard Park, established the nuisance court and expanded the community services for graffiti cleanup and putting thousands of hours into those kinds of projects, increased the frequency of trash can pick-up; provided public restrooms on Haywood Street, and invested over $200,000 in doing the

Downtown Master Plan which resulted in clearer standards and better processes for review of proposed developments downtown.

Councilman Smith said that while we are trying to respond to the needs of downtown, when you have this kind of concentration of people, those needs intensify. There are a lot of needs outpacing our ability to keep up. So, as we look at this BID, once we get to a place to move forward, this will be an ongoing collaborative process. He felt it will be important for people to understand the loss/retention around independent businesses in the downtown area. There will be actual benchmarks to measure whether this is working or not. He would like to see a City and County representative on the BID Board, making sure the meetings are open, ensuring that there is someone with homelessness or social work expertise on the BID Board, and making sure the City and County receive reports to make sure that we have the confidence of the taxpayers as far as the finances are being handled. He would also like more clarify on the role of the police department and the ambassadors. He also wanted to see the BID by-laws.

Councilman Davis, downtown property owner, is generally supportive of the BID, however, he does have some concerns. He would like to see the by-laws of the BID Board.

Mayor Bellamy thanked the members of the Downtown Management Committee who have worked for three years to implement what they through Council wanted when we adopted the Downtown Master Plan – to move the BID forward. She also thanked the Parks & Recreation Foundation for the hanging baskets; DARN residents who help maintain the planters in Pritchard Park along with other maintenance in Pritchard Park; the Asheville Downtown Association for their work with Downtown After Five; individuals who help with the Oktoberfest; individuals who help with the Spare Change for Real Change Program; etc. We don't have a staff person dedicated to make sure this happens. The success that we have on the Asheville Redefines Transit is because we have the Transportation Department making sure that the improvements are made that Council wants to see happen. Council is asking the volunteers (and Ms. Vrtunski) to provide all this additional information, without any guarantee Council will vote in favor of it. She didn't think it was fair to burden our volunteers with more work and ask that it be brought back in three months. If we really want our downtown to be improved, we need a staff person to be dedicated to this.

City Manager Jackson said that if it's Council's goal to dedicate a person on a specific job, Council can add a position to the budget. Or, if you would like to give him an opportunity to take the direction he has heard from Council at this meeting, he will get staff input and then report back with a plan to be submitted it to Council within the one week.

Mayor Bellamy felt it was important to have a staff person dedicated to make sure things are being addressed. For those that are opposed to the BID, she urged them to help find some solutions on how to address the cleanliness of downtown. She asked for the following items to be addressed: what will be the role of the police officers, would like to see the budget, there should be a voting member of City Council and County Commissioner, accountability does need to be clarified, make sure that downtown residents are represented on the BID Board in a way that is clear, the BID boundaries should not go all the way to the Tunnel (stop at Charlotte Street), and the need to have a homeless representative or a service provider on the BID Board. She did not think that all of this can be addressed in three months and hoped that Councilman Hunt would be willing to amend his motion to continue the public hearing for an additional three months.

In response to Councilman Hunt, Ms. Griffin felt that the entire interim board is very willing to work on some of these issues and compromise, but she couldn't speak for the entire board. She hoped that the timeframe would be one that the interim Board is also considered on what works for them. She felt three months is a much easier way for them to look at another time commitment than to extend this out for another six months.

In response to Councilman Hunt, City Attorney Oast said that if the information cannot be produced in the three-month timeframe, the public hearing can then be continued again.

At 8:30 p.m., Councilman Smith called the question. This motion was seconded by Councilman Davis and carried unanimously.

The motion made by Councilman Hunt and seconded by Councilman Bothwell to continue the public hearing to September 25, 2012, carried unanimously.

At 8:30 p.m., Mayor Bellamy announced a short break.

**B. PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT APPLICATION FOR 155 GLENN BRIDGE ROAD**

**RESOLUTION NO. 12-132 - RESOLUTION APPROVING A LAND USE INCENTIVE GRANT APPLICATION FOR 155 GLENN BRIDGE ROAD**

Community Development Director Jeff Staudinger said that this is the consideration of a resolution approving a land use incentive grant application for 155 Glenn Bridge Road. This public hearing was advertised on June 1, 2012.

Mr. Staudinger said that the owners/developers of 155 Glenn Bridge Road have applied for a Land Use Incentive Grant per the policy adopted by Council on March 8, 2011. This report summarizes their application and reports on eligibility and points.

The 155 Glenn Bridge Road project entails the development of 176 units of rental housing located at the indicated project address in the City of Asheville. No commercial or other mixed use development is cited in the proposal.

The project, as presented to staff, appears to meet the following Eligibility Requirements,

- Equity: A 20% equity contribution is required. The project developers indicate they will contribute 20.4% equity to the project. This includes unreimbursed value of the land, and other expenses.
- Energy Star Certification: The developers indicate the project will achieve Energy Star certification.
- Legal Costs; the developer must agree to assume all legal costs if the Land Use Incentive policy is challenged: The developer has agreed to assume all legal costs if the Land Use Incentive policy is challenged.

The project does not meet the following eligibility criteria:

- Inside city limits, within ¼ mile of designated major highways: The project is located approximately .6 mile from Hendersonville Road, and therefore about ¼ mile outside of the eligible area. The developer has requested a waiver of this eligibility criteria.

*Public Benefit*

The project proposes the following Public Benefit Elements:

- Affordable Housing units with assured affordability at that rent level for a minimum of ten years: 40% of total units (40 points)
- Workforce Housing units with assured affordability at that rent level for a minimum of ten years: *50% of total units* (10 points)
- Green Building/Energy: *Energy Star certified* (5 points)

The project therefore scores 55 points. Based on this score, the project would be eligible for a 5.5 year Land Use Incentive Grant.

The project meets the following 2010-11 Strategic Plan Goals: (1) *Affordable*: Create and preserve affordable rental and homeownership opportunities in Asheville. The project is directly related to the opportunity for public/private partnerships and innovative financing to incentivize affordable housing development; and (2) *Green and Sustainable*: Set and develop a plan for implementing a community reduction goal. The project is being built to Energy Star standards, and will be certified by Energy Star.

*Exemption Request*

The developer has requested an exemption from the eligibility requirement that a project be located within ¼ mile of identified major highways. The project is located .6 miles from an eligible transit route, so slightly more than ¼ mile from the eligible area boundary. It is, however, in an area identified as "Location Efficient" in the Center for Neighborhood Technology study of location efficiencies in Asheville; although public transportation at or closer to this location is not in the Transit Master Plan. The developer notes that the project is located close to retail employment opportunities.

Fiscal Impact: Estimated maximum value of Land Use Incentive: The current assessed value of the property is $1,062,500. The developer's estimate of completed project taxable value is $23,881,118. The current annual city tax, based on current assessed value, is $4,462.50. The annual estimated city tax post completion, based on the developer's estimate is $100,300.70. Thus, the estimated annual Land Use Incentive Grant would be $95,838.20, the exact amount to be determined by the length, in years, of the grant award, and the actual assessed value of the development upon completion. If approved for 5.5 years, the estimated Grant would be $527,110.10. The estimated annual value of direct services provided by the City to the development (primarily police and fire response) is approximately $100,000.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Plan Review Fees and Water Service Connection Fee is $108,632. The value of each 10% of the fee rebate would be $10,863.20. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 55 point level, the fee rebate would be $59,747.60.

The Housing and Community Development Committee has reviewed this application and recommends that Council act upon it.

Mayor Bellamy opened the public hearing at 8:57 p.m.

Mr. Morosani clarified that the project will be 40% affordable housing and 60% workforce housing.

Mayor Bellamy closed the public hearing at 8:58 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Hunt moved for the adoption of Resolution No. 12-132, waiving the requirement that the project be within ¼ mile of a major transportation corridor. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 34– PAGE 412**

**C. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE APPROVED CONDITIONAL USE PERMIT FOR HARMONY VILLAGE, LOCATED AT MYRA PLACE**

**ORDINANCE NO. 4089 - ORDINANCE AMENDING A PREVIOUSLY APPROVED CONDITIONAL USE PERMIT FOR HARMONY VILLAGE, LOCATED AT MYRA PLACE, FOR A REDUCTION TO THE NUMBER OF APPROVED UNITS, A REDESIGN OF THE SITE, AND PROPOSAL OF THREE NEW SINGLE-FAMILY LOTS, AND A REQUEST FOR A MODIFICATION TO ALLOW ENCROACHMENTS INTO A SETBACK**

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process. This process is the issuance of a conditional use permit, which is a quasi-judicial site specific act. At this public hearing, all the testimony needs to be sworn.

Mayor Bellamy and Councilman Davis disclosed that they were on City Council when this project was first before Council and would consider this issue with an open mind on all the matters before them without pre-judgment and that they will make their decision based solely on what is before Council at the hearing.

City Attorney Oast said that as documentary evidence is submitted, he would be noting the entry of that evidence into the record.

City Attorney Oast said that the Authorized Practice Committee of the North Carolina State Bar has issued an advisory opinion that appearing in a representative capacity for a party before a local governmental body in a quasi-judicial proceeding is the practice of law, especially with respect to such aspects of the hearing as examining or cross-examining witnesses, or advocating for legal conclusions or results. This does not prevent persons, including land use professionals, from presenting information or expressing opinions within their knowledge or area of expertise.

After hearing no questions about the procedure, Mayor Bellamy opened the public hearing at 9:01 p.m.

Urban Planner Jessica Bernstein submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

Ms. Bernstein said that this is the consideration of an amendment to the approved Conditional Use Permit for Harmony Village, located at Myra Place, for a reduction to the number of approved units, a redesign of the site, and proposal of 3 new single-family lots, and a request for a modification to allow encroachments into a setback.

The applicant is requesting an amendment to the previously approved plan (CUP # 07-6306) to reduce the number of units and alter the number of lots / building configuration on an existing site (City Exhibit 3 – Location Map and Site Plan).

The project site consists of a 1.89 acre parcel located at Myra Place, Old Haywood Road and East Starnes Cove Road and is zoned RS-4. Surrounding properties are zoned RS-4 with Highway Business (HB) adjacent to the south. This site has been partially developed according to the previous approval.

The project, previously known as Myra Place, was approved by City Council on March 25, 2008, under density bonus provisions which allowed for additional units when a proposal incorporated exceptional development features and affordability. The proposal included 12 units throughout four buildings all centered around a common open space, site landscaping, a 5 foot sidewalk along Old Haywood Road, individual driveways and a common parking area. Twenty percent of the units were to be dedicated at as affordable, allowing for a 150% density bonus above the base zoning (8 units).

The site plan was slightly modified after Council approval to rearrange the building placement, reduce the number of driveway openings and provide two common parking areas.

Construction started on this site but stalled. Two duplex structures exist at about 90 percent completion.

The current owner (First Bank) is proposing to reconfigure the site with the total number of units reduced from twelve to seven. The partially-built duplexes (and associated parking areas) will be completed with each building on its own separate parcel. There are no plans for additional building construction with this proposal. Three additional single-family lots would be created and made available for sale - one of which fronts only on Old Haywood Road. The other parcels are all through-lots with additional frontage on Myra Place.

- Reduction from one parcel containing multi-family development to five individual parcels
- Change from a mix of duplexes and triplexes to duplexes and single-family on their own individual lots
- Reduction from 12 units to seven
- Change from individual driveways and common parking lots to primarily individual parking
- Significant reduction in required landscaping (property line buffer, building impact, parking lot landscaping, street trees and open space are no longer required – however some has been included).

*Parking and Access* - The proposal includes an individual driveway into each of the five lots. There will be a small, four-space parking area for each duplex constructed at this time (two spaces for each unit) and the single-family access will be established at a later date by the subsequent property owners.

*Sidewalks* - Old Haywood Road is identified as a needed linkage; however, sidewalk construction would not be required for a development with this reduced number of units. An easement for future construction will be provided. No sidewalks are provided or required along Myra Place.

*Landscaping* – Landscaping requirements from the previous multi-family approval would not be applicable under this revised proposal due to the reduced scale; however some minimal landscaping will be included. Duplexes in the RS-4 zoning district are considered to be a Use By Right, Subject to Special Requirements and one of those requirements is screening the parking area from adjacent single-family uses (Type A 20' buffer). Since this proposal is amending a previous approval, the USSR standards are not necessarily applicable however this screening will be provided. Additionally, street trees along Old Haywood Road will be included.

*Modification* – Parking is not permitted within any required setback but the plan shows a small portion of both parking areas encroaching. This modification will need to be approved by City Council.

This project was approved with conditions by the Technical Review Committee on April 16, 2012. No opposition has been received. As an amendment to a previously approved Conditional Use Permit, review by the Planning & Zoning Commission is not required.

City Council must take formal action as set forth in Section 7-5-5(e)(3) of the Unified Development Ordinance (UDO), and must find that all seven standards for approval of conditional uses are met based on the evidence and testimony received at the public hearing or otherwise appearing in the record of this case pursuant to Section 7-16-2(c). Staff's review indicates that all seven standards are met as proposed in the site plan.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   The proposed use and development of the land is compatible with the natural features and topography of the site. The parcel was graded with the (stalled) construction and this proposal will complete the work at either end of the site and return the rest of the area to a re-graded, seeded/mulched status until further developed. There are no significant topographic features on the site.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
   The proposed residential use is compatible with the surrounding residential neighborhood and should not injure the value of nearby properties. Completing the construction and closing out a stalled construction site should benefit the neighborhood.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
   The proposed duplexes and single-family lots may be more compatible with the surrounding neighborhood than the original, higher-density development planned for this site.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
   This downsized proposal does not conflict with any policies held by the City. The original plan may have been more aligned with objectives adopted by City Council which encourage higher-density and affordable residential projects, however, this proposal provides infill residential development and closes out a stalled construction site – both of which are benefits to the City.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
   This site is located just off I-240/Patton Avenue, which places the project in an easily accessible location by car and Asheville transit (old rt. 15 – new W3). The project has been reviewed by the Technical Review Committee and has been found to have adequate access to infrastructure.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**

There is no traffic congestion or traffic hazard anticipated as a part of this proposal.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- This action will allow for an open, stalled construction site to be closed-out.
- The proposed development will complement the existing residential fabric of the neighborhood.

Cons:

- The amendment does not include any of the affordable or exceptional design characteristics in the original, higher-density proposal.

Staff recommends approval of this amendment to the previously approved Conditional Use Permit, reducing the scale and configuration of the previous development. This recommendation includes approval of the proposed modification to allow parking within required setbacks as shown on the plans.

After rebuttal, Mayor Bellamy closed the public hearing at 9:03 p.m.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4089, amending the approved Conditional Use Permit for Harmony Village, located at Myra Place, for a reduction to the number of approved units, a redesign of the site, and proposal of 3 new single-family lots, and approval of the requested modification to allow encroachments into a setback, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance and be equipped with full cut-off fixtures and directed away from adjoining properties and streets. A detailed lighting plan will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; and (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 378**

**D. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE APPROVED CONDITIONAL ZONING MASTER PLAN FOR HUNT HILL APARTMENTS, LOCATED AT 56 HUNT HILL PLACE WITH A MODIFICATION REQUEST**

**PUBLIC HEARING TO CONSIDER THE REZONING OF AN AREA IN THE VICINITY OF 55 HUNT HILL PLACE FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING TO INSTITUTIONAL DISTRICT**

**ORDINANCE NO. 4090 - ORDINANCE TO AMEND THE CONDITIONAL ZONING TO THE APPROVED CONDITIONAL ZONING MASTER PLAN FOR HUNT HILL APARTMENTS, LOCATED AT 56 HUNT HILL PLACE WITH A MODIFICATION REQUEST**

322

**ORDINANCE NO. 4091 - ORDINANCE TO REZONE AN AREA IN THE VICINITY OF 55 HUNT HILL PLACE FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING TO INSTITUTIONAL DISTRICT**

Regarding the public hearing on the conditional zoning amendment, Urban Planner Julia Fields said that this is the consideration of an ordinance to amend the approved conditional zoning master site plan for Hunt Hill Apartments, located at 56 Hunt Hill Place, for a redesign of the site and buildings and also a new pool and clubhouse addition with a modification request to the setback. This public hearing was advertised on June 1 and 8, 2012.

Ms. Fields said on June 24, 2008, the Asheville City Council reviewed and approved the conditional zoning of 9.58 acres of property (from RM8 and Institutional to RM16CZ) located off of Hunt Hill Place and Ardmion Drive in order to allow for the construction of a 180-unit multi-family development, to be named Hunt Hill Place. The subject property for this development was primarily the former location of the McCormick Heights Apartments which were demolished prior to the adoption of the original 2008 Conditional Zoning. The project site also included a small portion (1.06 acres) of City of Asheville property. At that time a land exchange with the City was anticipated with the 1.06 acres of City property becoming part of the Hunt Hill development in exchange for the City receiving .85 acres for future park development along with additional consideration. The development received permits but was never completed.

A new developer, Hunt Hill Holdings, LLC (Chip Kassinger), has obtained the property and wishes to develop Hunt Hill Apartments with the same number of dwelling units (180) but with revisions to the circulation/access patterns, the location/placement/number of buildings on the property, the addition of a new .85 acre property, and an adjustment deleting the land exchange with the city. The buildings are to be stick-built as opposed to the modular construction proposed in the former development.

The previously approved land exchange will not be necessary under the new proposal as the developer plans to reconfigure the location of buildings and access points so only the two parcels owned now by Hunt Hill Holdings, LLC will be needed. The 1.06 acres of City-owned property made a part of the original conditional zoning approval is the subject of a separate rezoning process. The new proposal includes the .85 acres that were originally proposed to be given to the City.

A small portion of the property is in Zone A subject to the City's Steep Slope regulations. Under the regulations, the allowable number of units in the Zone A portion zoned RM16CZ is 30 units. The allowable density for the remainder of the project, again if zoned RM16CZ, is 117 units – a total of 147 units. Both the previous development plan and the current proposal show 180 units, a number that will necessitate an exceptional development density bonus for the 33 additional units. This is an 18.3% bonus. The previous approval was for a 17% bonus. To receive this density bonus, the developer proposes that ten percent (10%) of the development (18 units) be affordable, meeting the City's standards.

The developer also proposes a number of "green" features in the development. Construction, appliances, etc. will be Energy-Star certified. They are also looking at providing car charging stations and utilizing rain gardens as possible.

The new proposal would contain five buildings instead of four with a new mix of 107 studio or one-bedroom units and 73 two-bedroom units (previously there were 22 three-bedroom units and 168 one and two-bedroom units proposed).

The other significant change concerns access. The previous plan showed access only as it now exists off Hunt Hill Place and Ardmion Drive, but the amended proposal shows additional access from Carroll Drive. Additionally, circulation is now to be throughout the

development; whereas previously two buildings were accessed off of Ardmion Drive and two were accessed off of Hunt Hill Place. With these changes land disturbance is decreased under the new proposal from 7.48 acres to 7.04 acres.

A modification is needed for the side setback for Building 2. At one small point this building encroaches approximately 10 feet into the required 40 foot setback.

At a meeting on April 16, 2012, the Technical Review Committee approved this conditional zoning amendment with conditions. Since that time the applicant has submitted revisions addressing many of the concerns.

At a meeting on May 2, 2012, the Planning and Zoning Commission voted 6-1 to recommend approval to the Asheville City Council with the conditions as proposed in the staff report and with the following additional conditions:

- That the dumpster(s) will be distributed across the site looking at better access and with attention to the distance from Ardmion Drive and with attempt to direct away from Hunt Hill Place.
- That the green features as listed/provided by the developer be provided.
- That a 20 foot buffer be provided behind the RM8 zoned properties containing single-family homes along Edgehill Road and Carroll Avenue.
- That a signal warrant analysis be conducted for the intersection of South Charlotte Street and Martin Luther King, Jr. Drive assessing current conditions. This study shall be completed prior to review at City Council.
- That 12 months from the issuance of the last building certificate of occupancy on the project, but before the final site certificate of occupancy, that a second signal warrant analysis be completed. If the first traffic impact study determines that a traffic signal is warranted at the intersection of South Charlotte Street and Martin Luther King, Jr. Drive, this second study would not be needed. If however, the first study does not show such a signal is warranted but the second study shows that the signal is warranted, then the developer will pay for the signal at that intersection if approved by NCDOT.

The developer met with residents of the East End/Valley Street Neighborhood Association following the Planning and Zoning Commission meeting to address their concerns. He has agreed to an additional compactor location behind the clubhouse parking area and is meeting with residents to show them how the compactors operate. He has agreed to the buffer behind the properties along Edgehill and Carroll Avenue.

The signal warrant analysis requested by the Planning and Zoning Commission has been completed and indicates that the signal at Charlotte Street and Martin Luther King, Jr. Drive is warranted at present. This information will be presented to NCDOT and means that, under the Planning and Zoning Commission recommendation, this signal should not be the responsibility of the developer of the apartments.

Confirmation concerning the entrance on Carroll Avenue is pending with Tried Stone Missionary Baptist Church. Staff recommends that the project be approved with an additional condition that either the Carroll Avenue access be completed as shown or that a new traffic impact analysis be conducted and brought back for review by staff and the Asheville City Council.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**

The project, if approved, must meet all the technical standards set forth in the City's Unified Development Ordinance and Standards and Specifications Manual. The developer has been working closely with City staff to ensure compliance.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
The developer is working with the existing condition of the site, siting the buildings utilizing the existing impervious area. They are in compliance with the City's steep slope regulations.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
The project site abuts institutional facilities and parkland and should provide an appropriate transition to the also adjacent single-family homes. They are proposing buffering and other enhanced landscaping which should improve the site which has little significant vegetation now.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
The proposed project does show a residential development with greater density than is found in the surrounding area. However, its proximity to an active recreation facility and central location in the City makes this an appropriate transition to less dense housing found in the area. The project site previously served as a 100 unit housing community of seventeen (17) two-story buildings.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
The proposed use supports the 2025 goals and Council vision as follows:
   1. Supports the goal of pursuing compatible infill development.
   2. Supports the goal of promoting the use of green building techniques.
   3. Supports the goal of permitting more intense development and density in areas with appropriate infrastructure.
   4. Supports the goal of providing affordable housing.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
The use as proposed has three means of access to the project which make the traffic less concentrated than previously proposed as it disseminates through the surrounding neighborhood. Transit access is only a block away on Martin Luther King, Jr. Drive. TRC raised no concerns over the provision of services.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
The traffic engineer has reviewed the project and all concerns have been or are being addressed.

Pros:

- This project supports the City of Asheville's goal of pursuing higher density infill development.
- This project proposes a minimum affordable housing component of ten percent (18 units).
- This project incorporates green building strategies in construction.

Cons:

- The project has a greater density than the surrounding residential development.
- Access to the project is via small residential streets.

In addition ot the Standard Conditions, the following additional Conditions Suggested by Staff: (1) That 10% (18) of the units be affordable meeting City standards; (2) That the Carroll Avenue access is completed as shown or that a new traffic impact analysis is conducted and brought back for review by staff and the Asheville City Council; and (3) that the developer work with City staff to iron out the issues with respect to the access to the City's park property through the developer's property and grant an easement is necessitated.

Additional Conditions Suggested by the Planning and Zoning Commission: (1) That the dumpster(s) will be distributed across the site looking at better access and with attention to the distance from Ardmion Drive and with attempt to direct away from Hunt Hill Place; (2) That the green features as listed/provided by the developer be provided: (3) That a 20 foot buffer be provided behind the RM8 zoned properties containing single-family homes along Edgehill Road and Carroll Avenue; (4) That a signal warrant analysis be conducted for the intersection of South Charlotte Street and Martin Luther King, Jr. Drive assessing current conditions. This study shall be completed prior to review at City Council; and (5) That 12 months from the issuance of the last building certificate of occupancy on the project, but before the final site certificate of occupancy, that a second signal warrant analysis be completed. If the first traffic impact study determines that a traffic signal is warranted at the intersection of South Charlotte Street and Martin Luther King, Jr. Drive, this second study would not be needed. If however, the first study does not show such a signal is warranted but the second study shows that the signal is warranted, then the developer will pay for the signal at that intersection if approved by NCDOT.

She reiterated that the signal warrant analysis requested by the Planning and Zoning Commission has been completed and indicates that the signal at Charlotte Street and Martin Luther King, Jr. Drive is warranted at present. This information will be presented to NCDOT and means that, under the Planning and Zoning Commission recommendation, this signal should not be the responsibility of the developer of the apartments. Conditions 4 and 5 by the Planning & Zoning Commission do not need to be listed as conditions.

Regarding the public hearing on the rezoning of 55 Hunt Hill Place, Urban Planner Julia Fields said that this is the consideration of an ordinance to rezone an area in the vicinity of 55 Hunt Hill Place from RM-16 Residential Multi-Family High Density District/Conditional Zoning to Institutional District. This public hearing was advertised on June 1 and 8, 2012.

Ms. Fields said that on June 24, 2008, the Asheville City Council reviewed and approved the conditional zoning of 9.58 acres of property (from RM8 and Institutional to RM16 CZ) located off of Hunt Hill Place and Ardmion Drive in order to allow for the construction of a 180-unit multi-family development, to be named Hunt Hill Place. The development received permits but was never completed.

A new developer, Hunt Hill Holdings, LLC (Chip Kassinger), has obtained the property and wishes to develop Hunt Hill Apartments with the same number of dwelling units (180) but with revisions to the circulation/access patterns and the location/placement/number of buildings on the property.

As part of the original development proposal a land swap was approved but never carried out between the City and the original developer. The developer was to receive 1.06 acres of currently unused park property (part of Mountainside Park, zoned Institutional) and the City would receive .85 acres for future park development. The new developer plans to use only property that is owned by Hunt Hill Holdings, LLC and the proposed amended conditional zoning approval shows no development involving the 1.06 acres still owned by the City but zoned RM16CZ.

The City wishes to have this City-owned property revert back to the previous zoning of Institutional and staff is bringing forward this rezoning application in order to effectuate this rezoning. The property that is the subject of this rezoning request is located just south of the proposed Hunt Hill Apartments development site and is vacant except for a small portion which contains a drive entrance to Mountainside Park.

At a meeting on May 2, 2012, the Asheville Planning and Zoning Commission reviewed and unanimously recommended approval of this rezoning to Asheville City Council. No one spoke on this matter.

Pro:

- Zones a piece of City-owned property with the same zoning designation as the remainder of the property.

Con:

- None noted.

The staff finds the request to be reasonable and recommends approval of this rezoning request. At a meeting on May 2, 2012, the Asheville Planning and Zoning Commission reviewed and unanimously recommended approval of this rezoning to Asheville City Council.

Mayor Bellamy opened the public hearing at 9:17 p.m.

Mr. Chip Kassinger, developer, spoke in support of the project stating that they are really focused on energy efficiency and noise. They are saving a lot of trees. He said that they are continuing to work with Mr. Proctor at Tried Stone Missionary Baptist Church for an agreement; however, the Church needs to approve the agreement as a body. He said they have been very good to work with and hoped to be able to work out the agreement soon.

Ms. Mandy Broderick, resident on Hunt Hill Place, felt this is a good space for a development like this and the developer has been open to discussions about any issues the neighbors have. However, there is already a tremendous amount of traffic on Hunt Hill and the traffic study showed that 30% of the traffic would be on Ardmion, 40% on the access through the Church parking lot (Carroll Avenue access), and then 30% on Hunt Hill. She was concerned if the access point on Carroll Avenue is not worked out, then 70% of the traffic will be on Hunt Hill.

Ms. Carmen Ramos-Kennedy hoped that the traffic signal at the intersection of Martin Luther King Jr. Drive and Charlotte Street can be installed quickly.

Mayor Bellamy closed the public hearing at 9:22 p.m.

Traffic Engineer Jeff Moore reiterated that the signal warrant analysis does indicate that a traffic signal at Charlotte Street and Martin Luther King, Jr. Drive is warranted at present. He has forwarded that information to the NDCOT. The NCDOT process takes approximately 6-8 weeks after they do their independent count.

Mayor Bellamy asked that the City draft a letter to the NCDOT to expedite the traffic signal installation at Charlotte Street and Martin Luther King Jr. Drive and that the City's members on the Transportation Advisory Committee urge the NCDOT to make this intersection a top priority as well.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master

plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4090, to amend the approved conditional zoning master site plan for Hunt Hill Apartments, located at 56 Hunt Hill Place, for a redesign of the site and buildings and also a new pool and clubhouse addition with a modification request to the setback, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10 of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with this ordinance will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards; (6) That 10% (18) of the units be affordable meeting City standards; (7) That the Carroll Avenue access is completed as shown or that a new traffic impact analysis is conducted and brought back for review by staff and the Asheville City Council; (8) ) that the developer work with City staff to iron out the issues with respect to the access to the City's park property through the developer's property and grant an easement is necessitated; (9) That the dumpster(s) will be distributed across the site looking at better access and with attention to the distance from Ardmion Drive and with attempt to direct away from Hunt Hill Place; (10) That the green features as listed/provided by the developer be provided: (11) That a 20 foot buffer be provided behind the RM8 zoned properties containing single-family homes along Edgehill Road and Carroll Avenue; and (12) That the City communicate with the NCDOT about the need for the traffic signal at the intersection of Martin Luther King Jr. Drive and Charlotte Street. This motion was seconded by Councilman Davis.

**ORDINANCE BOOK NO. 27 – PAGE 384**

Mr. Kassinger responded to Councilman Hunt regarding the location of the proposed greenway, noting there is no need for public access across the developer's property to get to the proposed greenway.

There was considerable discussion regarding the third access on Carroll Avenue. Ms. Fields noted that the current approval that is in place only has two access points (180 condominium units). The traffic impact study that has been performed included the Carroll Avenue access. If the agreement with the Church is not reached, a new traffic impact analysis would need to be conducted and brought back for review by staff and the Asheville City Council, knowing that the current approval only had two access points.

Mayor Bellamy was concerned that the Church is not represented at this meeting and she felt it was unfair to pressure the Church to enter into an agreement with the developer. She felt Council would be setting a precedent making the developer have a third party approval for his project to be approved. She felt Council should either approve the project or not, but not make it contingent upon a third party agreement.

City Attorney Oast said that an option would be to approve the project without the Carroll Avenue access, and if the developer does work out that access, the third access would not require an amendment to the conditional zoning thus not requiring the project to come back to Council.

Mr. Kassinger felt the third access is important as that is the best way to access the property. He did not want to pressure the Church, and noted that they do plan on improving the Church's parking lot. He understood that if the third access is not worked out that they will have to do an additional traffic impact analysis.

Mayor Bellamy reiterated that she did not want it to look like we are forcing the Church to make that access happen. She felt this project should stand on its own. She was opposed to setting this kind of precedence, but supported the project because it is a good project, with two or three accesses.

The motion made by Councilman Smith to adopt Ordinance No. 4090 with conditions outlined above and seconded by Councilman Davis carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 389**

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4091. This motion was seconded by Councilman Bothwell and carried unanimously.

**F. PUBLIC HEARING REGARDING THE NEW BELGIUM BREWERY/ECONOMIC DEVELOPMENT**

**RESOLUTION NO. 12-133 - RESOLUTION AUTHORIZING AN ECONOMIC DEVELOPMENT INCENTIVE AGREEMENT WITH NEW BELGIUM BREWING COMPANY INC.**

**RESOLUTION NO. 12-134 – RESOLUTION AUTHORIZING THE CITY OF ASHEVILLE TO ENTER INTO A MEMORANDUM OF UNDERSTANDING WITH NEW BELGIUM BREWING COMPANY INC. REGARDING CERTAIN PUBLIC INFRASTRUCTURE IMPROVEMENTS**

City Attorney Oast said that this is the consideration of (1) resolution authorizing an economic development incentive agreement with New Belgium Brewing Company, Inc. (herein "New Belgium"), and (2) resolution authorizing certain infrastructure improvements in connection with New Belgium's location in the City of Asheville. This public hearing was advertised on June 1, 2012.

New Belgium is a Colorado corporation that brews and distributes beer. New Belgium proposes to locate a major brewing facility on approximately 20 acres along Craven Street on the west side of the French Broad River, between the Smith-Carrier Bridge on the north, and the West Asheville RiverLink Bridge on the south. The property is currently occupied by a self-storage facility, and was formerly used as the WNC Stockyard, among other uses.

New Belgium is the third largest craft brewer in the United States. The City of Asheville is one of several locations under consideration for New Belgium's east coast facility. In order to encourage New Belgium to choose Asheville, the City staff, working with the State of North Carolina, Buncombe County, and the Chamber of Commerce, assembled a package of economic development incentives and other incentives. The City's incentive package consists of two components: economic development cash grants, and in-kind improvements to public infrastructure on or near the proposed location for New Belgium.

**Economic Development Incentives**: New Belgium is already engaged in design and planning for the proposed Craven Street facility. New Belgium proposes to begin construction in early 2013, to begin production on site in early 2015, and to complete construction and be in full operation by early 2022. The total investment (real property and personal property) is anticipated to be $175 million. The total number of jobs at full production is anticipated to be 130. A substantial number of the jobs will pay at or above the average wage for Buncombe County. The cash grants will be in an amount equal to 80 percent of the taxes paid on the eligible improvements, and will not be made until taxes have been paid. Eligible improvements include real and personal property subject to *ad valorem* tax and located in the City.

The incentive is weighted equally to job creation and investment. To allow for unplanned delays in construction and economic fluctuation, there is a two-year "extended deadline" by which New Belgium must achieve 80 percent of the investment and job creation benchmarks, or the grant amounts are subject to adjustment or "clawbacks" on the basis of the percentage of the jobs or investment benchmark that New Belgium does not achieve. Some of the New Belgium facilities, such as the warehouse and distribution facility, may be located somewhere other than Craven Street, but must be located in the City of Asheville to qualify for the incentive. The total amount of cash grants is anticipated to be $2.1 million over seven years.

**Public Infrastructure**: In addition to the economic development incentive agreement, the City has agreed to make some improvements to the infrastructure in the area of New Belgium's proposed Craven Street location, and on the property itself. The improvements include widening Craven Street and improving some of the intersections approaching the proposed location of the brewery, replacing and enlarging waterlines, and constructing and improving some storm-water facilities. The improvements also include construction of a greenway on New Belgium's property.

The City and New Belgium propose to enter a memorandum of understanding (herein "MOU") outlining responsibility for particular improvements. The improvements and the estimated cost of them are set out in detail in the schedule provided to Council, and will be attached to the MOU and resolution. The City's share of the cost of these improvements is estimated at $2.3 million. Under the MOU, the City will be responsible for funding the improvements it agrees to make. To reduce these costs, the City is seeking grants and other assistance. The City has obtained one grant in the amount of $500,000 from the Golden Leaf Foundation, and has applied for another grant in the amount of $1.1 million from the Economic Development Administration to assist with these improvements, and the State will undertake some of the roadway improvements.

In connection with the public infrastructure improvements, Council is being requested to approve a specific contract for professional services for design work being undertaken for the City and New Belgium in connection with the project. The Staff Report for that contract approval follows this Staff Report. Assuming Council authorizes the expenditures for the infrastructure improvements, consideration and adoption of the resolution for that contract would be appropriate.

This project is consistent with several officially adopted plans for the City. (a) Strategic Operating Plan (2011-12 and 2012-13) supports diversified job growth and business development, partnering in regional economic development strategy, practice sustainable high density infill growth. (b) The project is also consistent with plans for redevelopment of the riverfront.

Pros:

- Potential for $175 million investment and addition to the tax base.
- Potential for creation of 130 jobs, with a substantial number of them at above average wage.
- Capitalizes on the City's growing reputation as a center for craft brewing in the United States.

Con:

- Requires some reprogramming of City's funds.

Adoption of the resolutions authorizing the City to enter into the economic incentive development agreement and the memorandum of understanding regarding the public infrastructure improvements is recommended.

Mayor Bellamy and Council members welcomed New Belgium to the City and thanked them for their investment in our community.

Mayor Bellamy opened the public hearing at 9:56 p.m.

A representative of New Belgium expressed their appreciation for the work of the Economic Development Coalition and City staff on this project. They were happy to be here in Asheville and looked forward to moving forward.

Mayor Bellamy closed the public hearing at 9:57 p.m.

Mayor Bellamy said that members of Council have previously received copies of the resolutions and they would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 12-133. This motion was seconded by Councilman Chris and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 413**

Councilman Pelly moved for the adoption of Resolution No. 12-134. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 414**

**RESOLUTION NO. 12-135 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A COTNRACT WITH COLEJENEST & STONE TO PROVIDE DESIGN SERVICES FOR THE CRAVEN STREET IMPROVEMENTS**

**ORDINANCE NO. 4092 - BUDGET AMENDMENT FOR THE CRAVEN STREET IMPROVEMENTS**

Public Works Director Cathy Ball said that this is the consideration of a resolution authorizing the City Manager to execute a contract with ColeJenest and Stone in the in the amount of $514,221 (and authorization to cover any amendments in the contract not to exceed 10% or $51,422) for the purpose of completing professional design services for the Craven Street Improvements; and the associated budget amendment in the amount of $565,643 to cover the cost of the project.

The City of Asheville is proposing to improve Craven Street from Haywood Road to the Craven Street Bridge. These improvements will include two way vehicular traffic, bike lanes, sidewalk, greenway and regional storm water improvements. Additionally, the City is proposing to improve the intersection at Roberts, Lyman, Depot and Clingman Avenue to allow larger truck vehicles while maintaining or improving pedestrian and bike traffic.

The City solicited proposals from qualified design professionals to perform this work. On April 25, 2012, the City received fourteen proposals. A selection committee consisting of five staff members from the City of Asheville and two from New Belgium Brewery reviewed the proposals and requested interviews with the five most qualified teams.

The selection committee interviewed the five teams on May 7th and May 8th and determined based on qualifications that ColeJenest and Stone was the most qualified to perform the work. ColeJenest and Stone is partnering with several local firms to complete the work. Over 90% of the fee will go to local professionals.

This action complies with the City Council Strategic Operating Plan of Multimodal Transportation in that it will meet the need of increasing the output of sidewalk construction and provide sidewalk in an area that is in need of sidewalk linkage.

Pros:

- Improves a currently narrow roadway into a complete street with bike lanes and sidewalk.
- Provides a new greenway linkage.
- Adds much needed public parking with a low impact development design.
- Improves urban storm water runoff for the watershed.

Cons:

- Project management and contract administration will consume staff time and City funds.

This design cost is estimated at $514,221. The estimated total cost of the project is approximately $2.3 million. The City received a $300,000 grant from the Golden Leaf Foundation and is in the process of applying for an Economic Development Grant from the Department of Commerce in the amount of $1.1 million. The remaining cost of the project will be paid through the Stormwater, Water, and Parking Fund operating funds and General Fund debt proceeds.

Staff recommends City Council (1) authorize the City Manager to execute a contract with ColeJenest and Stone in the in the amount of $514,221 for the purpose of completing professional design services for the Craven Street Improvements including authorization to cover any amendments in the contract not to exceed 10% or $51,422; and (2) adopt a budget amendment in the amount of $565,643 to cover the cost of the project.

Mayor Bellamy said that members of Council have been previously furnished with copies of the resolution and ordinance and they would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 12-135. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 434**

Councilman Smith moved for the adoption of Ordinance No. 4092. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 391**

**G. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING HUNTER APARTMENTS, LOCATED AT 25 & 27 WASHINGTON ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING TO ALLOW FOR THE REMODEL OF TWO EXISTING RESIDENTIAL STRUCTURES INTO TWO DUPLEX STRUCTURES FOR A TOTAL OF FOUR APARTMENTS**

At the applicant's request, Councilman Smith moved to continue this public hearing until July 24, 2012. This motion was seconded by Councilman Davis and carried unanimously.

**V. UNFINISHED BUSINESS:**

**A. ORDINANCE NO. 4093 - ORDINANCE ADOPTING THE 2012-13 ANNUAL OPERATING BUDGET**

Director of Finance and Management Services Lauren Bradley said that this report presents the Fiscal Year 2012/2013 Annual Budget for adoption by City Council.

The Fiscal 2012/2013 Proposed Annual Operating Budget was presented to City Council on April 24, 2012. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 11 and May 18, 2012. City Council conducted a public hearing on the Proposed Budget on May 22, 2012. The Fiscal Year 2012/2013 Budget is balanced with an Ad Valorem tax rate of $0.42 per $100 of assessed value, which represents no change from the current year tax rate. The General Fund budget also includes no appropriation from the City's fund balance. All essential City services are continued in the Budget.

***Technical Budget Adjustments***

The net proposed FY 2012/2013 operating budget presented to City Council on April 24th was set at **$134,113,810**, including a General Fund appropriation of **$89,318,377**. Since the Proposed Budget was presented to City Council, there were three technical adjustments that have altered the total of the budget that is presented tonight for Council adoption.

1) **Changing Together:** After the Proposed Budget was presented to Council, the City received notification that Buncombe County would be renewing the contract with the City of Asheville to act as the coordinating agency for Changing Together, an initiative funded by the North Carolina Governor's Crime Commission. The partnership assists the Asheville Police Department in its work to improve safety in neighborhoods with high crime. Contracts for the Project Director and Project Assistant, in the amounts of $51,060 and $28,000 respectively, will be managed by the City of Asheville and reimbursed by Buncombe County. The total revenue to the City of Asheville will be **$79,060**, with Buncombe County providing $26,665 of that amount as part of the local match for the grant.

2) **Funding for Outside Agencies:** The FY 2012/2013 Outside Agency funding levels that were approved by Council at the May 22, 2012 meeting exceeded the fiscal limits included in the FY 2012-2013 Proposed Budget by **$5,000.** This additional funding was accommodated by increasing the budget for electronic gaming revenue.

3) **Market Based Salary Analysis:** During Council deliberations on the FY 2012/2013 employee salary adjustments, staff proposed the inclusion of **$60,000** in the budget to fund a market based salary study to be completed during the first half of FY 2012/2013. Funding for this one-time expense will come from unexpended capital funds that have accumulated in the General Capital Projects Fund as projects have been completed and come in under budget.

***Budget Adjustments for Salary Options***

Early in the budget process, City Council indicated that its highest priority was investing in employee compensation. The FY 2012/2013 proposed budget that staff brought forward to Council on April 24 included a 1% cost of living adjustment (COLA) for all city employees that would become effective July 2012. Staff also proposed that if the General Fund achieved better than budget performance in the current fiscal year, Council consider a one-time bonus for employees in November 2012 after completion of the annual financial audit. During budget deliberations, Council directed staff to provide options for additional investments in employee compensation. Staff outlined two options for Council at the June 5th budget worksession. Those two options are presented for Council's consideration tonight as part of budget adoption. The financial impact of each option is discussed below. Staff has prepared two budget ordinances that reflect these salary options.

1) **Additional 1% COLA (2% Total) effective July 2012 with possible one-time bonus after audit completion:** The cost in the General Fund of an additional 1% COLA for all employees is approximately **$460,000.** To fund this expenditure, staff is proposing to 1) increase the FY 2011/2012 sales tax projection, which provides another $300,000 in revenue; and 2) appropriate an additional $160,000 from unexpended capital funds to fund two projects that were previously funded with General Fund recurring revenue. As noted above, under this option, staff would recommend that Council revisit employee compensation after the annual audit is completed in November and consider a one-time bonus to employees based on FY 2011/2012 fund balance results. However, the one-time bonus would be considered as a mid-year budget amendment and would not be adopted as part of the budget ordinance currently under consideration.

2) **Additional 2% COLA (3% Total) effective July 2012:** The cost in the General Fund of an additional 2% COLA for all employees is approximately **$920,000.** To fund this expenditure, staff is proposing the following budget changes: 1) increase the FY 2011/2012 sales tax projection which provides another $300,000 in revenue; 2) appropriate an additional $260,000 from unexpended capital funds to fund three projects that were previously funded with General Fund recurring revenue; 3) assume an attrition level of 1.25% as opposed to the 1.00% attrition level that was included in the Proposed Budget; and 4) reduce planned expenditures for the Housing Trust Fund, form based planning, and the Economic Development Coalition by a total of $320,000. Staff is recommending that funding for these three programs be revisited after the annual audit is completed in November and possibly restored with a fund balance allocation. However, the one-time allocation would be considered as a mid-year budget amendment and would not be adopted as part of the budget ordinance currently under consideration.

This action complies with the Fiscal Responsibility focus area of City Council's Strategic Operation Plan: Operate the City of Asheville's organization to the highest levels of fiscal responsibility.

Pros:

- Ensures City's compliance with North Carolina General Statutes that require local governments to adopt a balanced budget ordinance by July 1 of each year.
- General Fund Budget is balanced with no tax rate increase or fund balance appropriation and all essential City services are continued.

Cons:

- A revenue shortfall could occur in FY 2012/2013 if sales tax estimates in the current year are not realized.
- The FY 2012/2013 budget utilizes one-time unexpended capital funds that could be used for other projects.

As noted above, the Proposed FY 2012/2013 General Fund budget is balanced with no property tax rate change and no fund balance appropriation. The amount currently available in unexpended capital funds totals $697,000. As part of the FY 2012/2013 Proposed Budget, staff recommended allocating $275,000 in previously unexpended capital funds to the CIP budget, and those funds were allocated to the capital projects identified in the Proposed Budget. Depending on which salary option Council approves, the budget will include the appropriation of somewhere between $220,000 and $320,000 in unexpended capital funds above and beyond the $275,000 that was already included in the Proposed CIP.

Staff requests that Council review the FY 2012/2013 Annual Operating Budget, including the changes noted above, and make necessary recommendations or adjustments followed by adoption of the Budget Ordinance.

City Manager Jackson clarified that Option 1 leaves the door open for Council to consider, after the audit is complete and revenue pictures are better understood, an increase to the COLA and a budget amendment at that time, rather than the one-time bonus. Ms. Bradley responded that is correct, if there is a recurring revenue sources to fund additional COLA's.

Councilman Smith hoped that we can find ways to recommit ourselves to various priorities, not only staff, but the Housing Trust Fund, expanding transit services, resurfacing streets, adding bike lanes, etc.

Councilman Smith moved for the adoption of Ordinance No. 4093, with Option 1, with the understanding that we further study staff compensation in an effort to achieve parity and as the audit is complete and revenue pictures are better understood, then further adjustment to staff salaries. This motion was seconded by Councilman Davis.

Councilman Bothwell supported Option 2.

Councilman Pelly's understanding of Option 1 was a 2% COLA July 1 and then at the end of the year in November we see what we have in the way of additional funds for either a one-time bonus or perhaps an additional 1% COLA. If the funds are available in November, he supported the additional 1% COLA for a total 3% COLA. If we don't have the $460,000 for the additional 1% COLA, then he supported a one-time bonus for employees below the median income.

Councilman Hunt supported Option 1 as stated by Councilman Smith.

Councilman Davis supported Option 1 as well and hoped that we could add the additional 1% COLA near the end of the year.

Mayor Bellamy's preference was Option 2, but thanked the Council from moving from 1% to at least 2% with consideration of an additional 1% in November. She felt staff deserves 3%.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

The motion made by Councilman Smith and seconded by Councilman Davis carried on a 5-1 vote, with Councilman Bothwell voting "no".

**ORDINANCE BOOK NO. 27 – PAGE 393**

**B. MOTION ADOPTING THE PLANNING & ZONING COMMISSION APPONITMENT PROCESS**

Councilman Bothwell moved to approve the 2012 appointment process for the Planning & Zoning Commission, with a request that City Clerk Burleson provide Council the responses to the essay questions as soon as possible. This motion was seconded by Councilman Hunt and carried unanimously

Councilman Davis asked that City Clerk Burleson provide Council with the essay questions previously compiled by the Council for the last vacancies.

In response to Councilman Pelly, Councilman Smith said that the two seated members on the Planning & Zoning Commission will also be asked to complete the essay questions, but in honor of their current service to the Commission, they will have automatic interviews.

## VI. NEW BUSINESS:

### A. MOTION AUTHORIZING CITY STAFF TO PREPARE AND RELEASE A REQUEST FOR QUALIFICATIONS FOR A COMPREHENSIVE TRAFFIC ENGINEERING ANALYSIS ALONG THE CHARLOTTE STREET CORRIDOR

Councilman Bothwell moved to reschedule this item until June 26, 2012. This motion was seconded by Councilman Pelly and carried unanimously.

### B. RESOLUTION NO. 12-136 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A LICENSE AGREEMENT WITH USCOC OF GREATER NORTH CAROLINA, LLC FOR ANTENNAS AND RELATED EQUIPMENT AT 57 CRESTWOOD PLACE, ARDEN, N.C.

Director of Information Technology Services Jonathan Feldman said that this is the consideration of a resolution authorizing the Mayor to execute a License Agreement with USCOC of Greater North Carolina, LLC for antennas and related equipment at 57 Crestwood Drive, Arden, NC.

In 1987, the City of Asheville entered into a lease agreement with the United States Cellular Corporation of North Carolina for City owned property at 57 Crestwood. Under this lease agreement, the United States Cellular Corporation constructed a cellular tower on the premises in exchange for the right to operate antennas and related equipment on the tower and adjacent premises for a period of 20 years. At the end of the twenty year period in 2007, the lease allowed the tenant to extend the term for an additional 10 years for a rental of $200 per month. The current lease has approximately five years remaining in its final term.

At this time, the surviving entity of the United States Cellular Corporation, known as USCOC of Greater North Carolina LLC, has requested an equipment upgrade for the antennas on the tower. Rather than perform an amendment to the lease agreement dated 1987, staff proposed that USCOC enter into a new agreement based on the following terms:

The new term of the License Agreement will be five (5) years with one renewal period of five (5) years. The annual License Fee is based on the initial rate of $30,000 plus 3% annual increases. The proposed License Agreement will enable USCOC to install 3 additional panel antennas to the current loading with corresponding coaxial lines connecting to ground equipment. A tower analysis is required by the license agreement to assure that the new installation does not interfere with other tenants and that the tower can withstand the loading. These facilities are separately metered and the tenant will continue to pay for utility services.

The initial rate was determined by gathering and comparing rate structures used by other municipalities across the state, including the Cary, Hickory, Charlotte and others. Formal findings were reviewed and endorsed by the Council's Planning and Economic Development Committee on August 20, 2008. Results indicate that base fee of $30,000 per annum represents fair market value for this type of installation.

The Notice of Intent to enter into a License Agreement with USCOC of Greater North Carolina LLC was published on June 1, 2012, in the Asheville Citizen-Times. Ten days have passed since the publication and authorization to execute the License Agreement is being requested.

This action complies with the City Council Strategic Operating Plan in that strategic tower asset management, through the proper management of license agreements, presents the City with revenue enhancements. These revenue enhancements underwrite a cost savings plan for the City's own telecommunication operations and as such, promote fiscal responsibility.

Pros:

- Enhanced revenue through the license fee income to underwrite City's telecommunications operations

Cons:

- None

The City will receive $30,000 in revenue under the first year of the agreement, with 3% increases each year thereafter.

City staff recommends City Council adopt a resolution authorizing the Mayor to execute the license agreement with USCOC of Greater North Carolina LLC on behalf of the City of Asheville.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 12-136. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 435**

**C. RESOLUTION NO. 12-137 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PARTNERSHIP AGREEMENT BETWEEN AC ENTERTAINMENT AND THE U.S. CELLULAR CENTER FOR 2012 MOOG FEST**

Director of Finance and Management Services Lauren Bradley said that this is the consideration of a resolution authorizing the city manager to enter into a partnership agreement between AC Entertainment and the U.S. Cellular Center for 2012 Moog Fest.

AC Entertainment, in cooperation with the Moog Foundation and Moog Music, annually produces Moog Fest, a multiple-day festival featuring multi-faceted cultural experiences. Moog Fest has been hailed in national and international publications as a world-class destination event. A portion of the proceeds of Moog Fest benefit the Moog Foundation, which is developing a Bob Moog Museum dedicated to the work of the legendary visionary. The main venue for Moog Fest is the U.S. Cellular Center.

AC Entertainment has proposed that the U.S. Cellular Center, which has had a co-promotional agreement in place for the previous Moog Festivals, consider entering into a partnership agreement for the event. The terms of the agreement include:

- Net revenues (revenues less expenses) earned by the promoter, including ticket sales and sponsorship revenue, be split evenly with the U.S. Cellular Center, and;
- Net concessions revenue and all other gross revenues earned by the U.S. Cellular Center be split evenly with AC Entertainment.

The 2012 proposal is different from previous agreements in two ways. First, it proposes that the U.S. Cellular Center share all categories of revenue, including its facility fee and concessions recovery fee, which have not been shared before. Second, it proposes that the U.S. Cellular Center receive half of any net profit earned by AC Entertainment.

Ashley Capps, the President of AC Entertainment noted, "The principle behind the deal structure that we have proposed is important. By sharing 50/50 in all revenue streams, we align everyone's interests in the spirit of working together for a common goal and mutual success. This is the heart of our proposal." According to the promoter, the proposal is structured so that both parties have a financial incentive to manage the event as efficiently and profitably as possible.

Financial Analysis:

**Moog Fest 2010**

The U.S. Cellular Center had a net profit (revenues less direct expenditures) of $105,719 for Moog Fest 2010. Under the terms of the 2010 agreement, the U.S. Cellular Center split half of its net concessions revenue with AC Entertainment. No other revenue streams were shared. AC Entertainment was responsible for reimbursing the U.S. Cellular Center for all direct expenses, which include building costs, labor, and other fees.

**Moog Fest 2011**

In 2011, the U.S. Cellular Center did not split concessions revenue with AC Entertainment, and AC Entertainment was not responsible for reimbursing the U.S. Cellular Center for direct expenses. The U.S. Cellular Center's financial performance for Moog Fest 2011 is summarized below:

| | |
|---|---|
| U.S. Cellular Center Revenue | $137,013 |
| U.S. Cellular Center Direct Expenses | ($71,945) |
| U.S. Cellular Center Net Profit (Loss) | $65,069 |

**Moog Fest 2012**

AC Entertainment has proposed that net concessions revenue and all other sources of gross revenue collected by the U.S. Cellular Center be split in half with AC Entertainment. In return, AC Entertainment would split any net profit earned by the promoter on the event with the U.S. Cellular Center. AC Entertainment developed a revenue projection for the U.S. Cellular Center based on the terms of its partnership proposal, which is included below in the summary below:

| | |
|---|---|
| U.S. Cellular Center Revenue (50%) | $68,401 |
| Promoter's Net Revenue (50%) | $99,987 |
| U.S. Cellular Center Direct Expenses | ($71,945) |
| U.S. Cellular Center Projected Net Profit (Loss) | $96,443 |

Using AC Entertainment's financial assumptions, and assuming the U.S. Cellular Center's expenditures are roughly the same as 2011, the Center would have a net profit of $96,443 for the 2012 event. If the promoter does not experience positive net revenue, the U.S. Cellular Center will likely break even or experience a net loss on the event. This scenario is illustrated below.

| | |
|---|---|
| U.S. Cellular Center Gross Revenue (50%) | $68,401 |
| Promoter's Net Revenue (50%) | $0 |
| U.S. Cellular Center Direct Expenses | ($71,945) |
| U.S. Cellular Center Net Profit (Loss) | ($3,544) |

In conclusion, by agreeing to split all sources of revenue, the U.S. Cellular Center has the opportunity to participate in the promoter's potential positive financial performance; at the same time, should the promoter fail to generate a net profit, the U.S. Cellular Center could experience a loss. By entering into the partnership agreement, the Center is agreeing to assume a greater

financial risk in the event with the potential to realize a financial reward. However, if the promoter fails to achieve a net profit on the event, the U.S. Cellular Center will also experience a net loss. As a result, the Civic Center Fund would either have to exceed revenue projections for other events during the year or anticipate a greater financial subsidy from the General Fund at year end.

Pros:

- Structure of the agreement incentivizes both parties to maximize profitability of the event.
- Performance driven agreement that provides an opportunity to participate in the promoter's net profit for the event, if one is achieved.
- Potential to return the event to profitability experienced in 2010.
- The event supports economic impact in the form of hotel sales and occupancy taxes, retail and sales tax generation.

Cons:

- Requires the City to split all categories of revenue with the promoter; promoter is not required to pay for any of the U.S. Cellular Center's direct expenses.
- City staff does not have access to Moog Fest's financial information (budget to actuals) from past events to validate the projections included AC Entertainment's pro forma. In addition, other variables, like changes in the event structure year-over-year, make it difficult to project how likely the promoter will be in achieving forecast financial performance.
- The U.S. Cellular Center has limited influence on the promoter's revenue and expenses related to the event.
- If the promoter is unable to achieve a net profit on the event, the U.S. Cellular Center will likely experience a loss on the event.

The City Council's Strategic Operating Plan, Fiscal Responsibility Category, has a goal to review analysis of revenue streams to identify opportunities for revenue diversification.

The financial performance of this event impacts the U.S. Cellular Center's ability to meet budgeted revenue projections for the year. The facility's financial performance for the year directly impacts the level to which the General Fund must support the U.S. Cellular Center's operations. Using AC Entertainment's revenue projections, the U.S. Cellular Center could experience a net profit as much as $96,443 for Moog Fest 2012. Under the worst case scenario, if the promoter fails to achieve a net profit on the event, the U.S. Cellular Center would lose approximately $3,544 on the event.

If City Council approves entering into this partnership agreement, staff would recommend that the 2012 financial results be presented to the City Council Finance Committee after the event to evaluate if this type of structure is a viable partnership model for future Moog Fest events. Staff also recommends that the U.S. Cellular Center be listed as an event partner in all promotional material and advertising for the event.

In response to Councilman Hunt, Councilman Davis said that the Civic Center Commission did review this request and acknowledged how AC Entertainment brings quality entertainment to the U.S. Cellular Center; however, they feel they would be stepping outside the guidelines that they normally work in.

In response to Councilman Hunt, Mr. Bryan Benson, representing AC Entertainment, said that keeping this agreement at a 50/50 partnership and throwing all the ancillary revenue streams into the pot, including the facility fee and the concessions recovery fee, is integral to keeping this as a complete partnership agreement between AC Entertainment and the U.S. Cellular Center. That is how they like to operate with all their partners across the country in all the buildings they do business in. They are not asking for anything different than they would normally get out of other buildings. Moog Fest is set up to being complete partners with the U.S. Cellular Center by

sharing all of their revenue streams as well as then having the U.S. Cellular Center share in all of their revenue streams.

When Councilman Hunt asked what would happen if the U.S. Cellular Center did not share in all of their revenue streams, Mr. Benson said they would continue to work with the staff of the U.S. Cellular Center, the Civic Center Commission and City Council to come up with alternative solutions to keep this as a 50/50 partnership agreement and keep the spirit of that agreement in place.

In response to Councilman Hunt, Ms. Bradley said that did believe this is a standard in the industry where co-promotional agreements are negotiated between buildings, facilities and promoters. However, the terms of those agreements might vary. She did think it is becoming more standard in the industry to have these types of co-promotional agreements.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 12-137 and that the 2012 financial results be presented to the City Council Finance Committee after the event to evaluate if this type of structure is a viable partnership model for future Moog Fest events, and that the U.S. Cellular Center be listed as an event partner in all promotional material and advertising for the event. This motion was seconded by Councilman Davis.

In response to Councilman Davis, Mr. Benson said it is agreeable with them to list the U.S. Cellular Center as an event partner in all promotional materials and advertising for the event.

Councilman Davis noted that this is certainly an exception for Council regarding sharing all their revenue streams.

Councilman Hunt asked for a friendly amendment for AC Entertainment to disclose their financials from 2010 and 2011, as well as transparency going forward.

Councilman Smith and Councilman Davis accepted Councilman Hunt's friendly amendment.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

The amended motion made by Councilman Smith and seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 436**

**D. RESOLUTION APPOINTING ALTERNATE MEMBERS TO THE BOARD OF ADJUSTMENT**

Councilman Smith, member of the Boards & Commissions Committee, said that this is the consideration of appointing two alternate members to the Board of Adjustment.

There currently exists two alternate seats, left vacant by Mr. James Sheeler, term to expire January 21, 2015; and Mr. Douglas Hattaway, term to expire January 21, 2014.

The following individuals have applied for the vacancies: Dimi Kulakov, Daniel Summerlin, Robert M. Swicegood and Derek Weekley.

On May 22, 2012, City Council instructed the City Clerk to arrange interviews for all the candidates. Mr. Kulakov withdrew his application and Mr. Summerlin was unable for the interview.

After Council spoke highly of the candidates, Daniel Summerlin received 5 votes; Robert M. Swicegood received 4 votes; and Derek Weekley received 5 votes. **NOTE:** Because the City Clerk noted an error in the voting after the meeting, (all three candidates received 4 votes), the matter will be postponed until June 26, 2012, meeting.

**E. RESOLUTION NO. 12-138 - RESOLUTION APPOINTING A MEMBER TO THE SUSTAINABLE ADVISORY COMMITTEE ON ENERGY & THE ENVIRONMENT**

Councilman Smith, member on the Boards & Commissions Committee, said that Isaac Savage, representing the seat for "expertise in the field of energy management" has resigned, thus leaving an unexpired term until December 31, 2013, on the Sustainable Advisory Committee on Energy & the Environment (SACEE).

The following individuals have applied for the vacancy: William Hutchings, Timothy Ballard, Charles Rosenblum, Stuart Smith, Peter Brezny, Marcus Renner, Lawrence Pittman, Alan Watts, Brandee Boggs and Melita Kyriakou.

Councilman Smith said that SACEE recommended Timothy Ballard or Brandee Boggs.

On May 22, 2012, City Council instructed the City Clerk to arrange interviews for Lawrence Pittman, Timothy Ballard and Brandee Boggs.

After Council spoke highly of the candidates, Timothy Ballard received 4 votes; Lawrence Pittman received 2 votes; and Brandee Boggs received no votes. Therefore, Timothy Ballard was appointed to the seat for expertise in the field of energy management to serve the unexpired term of Mr. Savage, term to expire December 31, 2013, or until his successor has been appointed

Councilman Smith noted that SACEE will be looking to expand their membership from 9 to 11 members and to alter some of the requirements for their seats.

**RESOLUTION BOOK NO. 34 – PAGE 437**

**F. BOARDS & COMMISSIONS**

Regarding the Airport Authority, the term of Vice-Mayor Manheimer expires on June 30, 2012. The following individuals have applied for the vacancy: Michael L. Hudkins, Albert Anderson, Tilt Thompkins, Bradley J. Cain, Julian D. Jones and Aixa Wilson. It was the consensus of the Boards & Commissions Committee, and of City Council, to allow Vice-Mayor Manheimer to remain on the Authority pending Airport legislation.

Regarding the Neighborhood Advisory Committee, the following individuals have applied for vacancies: Peggy Dutton, Alan Escovitz, Tikkun Gottschalk, Kathy Link, Grant Millin, Saul Chase, Teddy Jordan, Steven Stewart Cobb, Robert Roepnack, Steven Rasmussen, James A. Bond, Barber Melton, Carolyn Worthington, Elaine Poovey, DeWayne Barton, Mary Jean Burgin, Dwight Butner, Carmen Ramos-Kennedy, Aixa Wilson, Trina M. Mullen, Matt Pickett and Jean W. Boyd. After Council spoke highly of all the candidates, Council members first voted for one individual from each zip code, and then voted for 4 at-large members. In summary, it was the consensus of Council to appoint Carmen Ramos-Kennedy (at-large), Robert Roepnack (28804), Barber Melton (28805), Elaine Poovey (at large) and DeWayne Barton (28806). It was also the

consensus to interview Alan Escovitz, Saul Chase, Jean W. Boyd, Peggy Dutton, Teddy Jordan and Aixa Wilson.

**RESOLUTION NO. 12-139 - RESOLUTION APPOINTING MEMBERS TO THE BOARD OF ELECTRICAL EXAMINERS**

Councilman Smith, member of the Boards & Commissions Committee, said that terms of Tommy Wilson, Phil Wilson, Fred Pratt, Gus Sims and Harold Garland, as members on the Board of Electrical Examiners, will expire on July 1, 2012.

The following individual applied for a vacancy: David Martin.

It was the consensus of the Boards & Commissions Committee to (1) reappoint Tommy Wilson (electrical contractor), Phil Wilson (journeyman electrician), Gus Sims (licensed engineer), and Harold Garland (layman); and (2) appoint David Martin (utility representative).

Councilman Bothwell moved to(1) reappoint Tommy Wilson (electrical contractor), Phil Wilson (journeyman electrician), Gus Sims (licensed engineer), and Harold Garland (layman); and (2) appoint David Martin (utility representative). All terms to expire July 1, 2015, or until their successors have been appointed. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 438**

**RESOLUTION NO. 12-140 - RESOLUTION APPOINTING MEMBERS TO THE CIVIC CENTER COMMISSION**

Councilman Smith, member of the Boards & Commissions Committee, said that the terms of Joel Storrow, George Kelley and J. Michael Burke expire on June 30, 2012.

The following individuals applied for a vacancy: Deanna Reeder, Saul Chase, Grant Millin, Beau Dean, Angela Rutledge and William Foley.

It was the consensus of the Boards & Commission Committee to (1) reappoint Mr. Storrow and Mr. Burke to each serve a three year term respectively, terms to expire June 30, 2015; and (2) re-advertise.

Councilman Pelly moved to (1) reappoint Mr. Storrow and Mr. Burke to each serve a three year term respectively, terms to expire June 30, 2015; and (2) re-advertise. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 439**

**RESOLUTION NO. 12-141 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION**

Councilman Smith, member of the Boards & Commissions Committee, said that the term of Brian Cook will expire on July 1, 2012.

The following individuals applied for a vacancy: Deanna Reeder, Buck Bragg, Ronald Burgin and Aixa Wilson.

It was the consensus of the Boards & Commissions Committee to reappoint Mr. Cook.

Councilman Davis moved to reappoint Brian Cook as a member to the Asheville-Buncombe Historic Resources Commission to serve a three-year term, term to expire July 1,

2015, or until his successor has been appointed. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 440**

**RESOLUTION NO. 12-142 – RESOLUTION APPOINTING MEMBERS TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE**

Councilman Smith, member of the Boards & Commissions Committee, said that the term of Wanda Lanier expired on November 1, 2011, and there currently exists a vacancy left by the passing of Gerald Hixson until November 1, 2013.

The following individuals have applied for a vacancy: Debbie Metcalf, Timothy Sadler, Charles Rosenblum, John Spears, Charles Barber, Jay Lively and Hilliard Carlisle.

It was the consensus of the Boards & Commissions Committee to appoint Mr. Jay Lively to serve a three-year term, term to expire November 1, 2014 and to appoint Mr. Hilliard Carlisle to serve the unexpired term of Mr. Hixson, term to expire November 1, 2013.

Councilman Davis moved to (1) appoint Mr. Jay Lively to serve a three-year term, term to expire November 1, 2014; and (2) appoint Mr. Hilliard Carlisle to serve the unexpired term of Mr. Hixson, term to expire November 1, 2013. Both appointments will be until their successors have been appointed. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 441**

**RESOLUTION NO. 12-143 – RESOLUTION APPOINTING MEMBERS TO THE NOISE ORDINANCE APPEALS BOARD**

Councilman Smith, member of the Boards & Commissions Committee, said that the terms of Jim Fink (Regular member), Barbara Hodgson (Regular member) and John Hayes (Alternate member) expire on July 1, 2012.

The following individual has applied for a vacancy: Beau Dean.

It was the consensus of the Boards & Commissions Committee to appoint John Hayes and Beau Dean as Regular members and re-advertise for the Alternate seat.

Councilman Bothwell moved to (1) appoint Mr. John Hayes as a Regular member to serve a three-year term, term to expire July 1, 2015; and (2) appoint Mr. Beau Dean as a Regular member to serve a three-year term, term to expire July 1, 2015. Both appointments will be until their successors have been appointed. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 442**

**RESOLUTION NO. 12-144 - RESOLUTION APPOINTING MEMBERS TO THE PUBLIC ART AND CULTURAL COMMISSION**

Councilman Smith, member of the Boards & Commissions Committee, said that the terms of Sharon Trammel, Robert Todd and Honor Moor expire on June 30, 2012. In addition, there currently exists a vacancy until June 30, 2014.

The following individuals applied for a vacancy: Ami Worthen, Jessica McCuan, Leslie Klingner, Davyne Dial, John Spears, Grant Millin, Itiyopia Ewart, Laura Corte, Andrew Monte, Angela Rutledge, Bruce L. Waller Jr., Bryan Andrews and Melinda Tennison.

It was the consensus of the Boards & Commissions Committee to (1) reappoint Ms. Trammel, Mr. Todd and Ms. Moor to each serve an additional three-year term respectively; and (2) appoint Leslie Klingner to serve a three-year term.

Councilman Hunt moved to (1) reappoint Ms. Trammel, Mr. Todd and Ms. Moor to each serve an additional three-year term respectively, terms to expire June 30, 2015; and (2) appoint Leslie Klingner to serve a three-year term, term to expire June 30, 2015. All terms are until their successors have been appointed. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 443**

**RESOLUTION NO. 12-145 - RESOLUTION APPOINTING MEMBERS TO THE RECREATION BOARD**

Councilman Smith, member of the Boards & Commissions Committee, said that the terms of Wanda Hawthorne, Wayne Wheeler, John Parrish, Hutch Kerns and Mary Ann West expire on June 30, 2012.

The following individuals applied for a vacancy: Barry Mundt, Richard D. Warren, John A. Broadbooks, Beau Dean, Robert Pierce, Robert Roepnack, Mike Lovoy and Ashley Arrington.

It was the consensus of the Boards & Commissions Committee to (1) reappoint Mr. Wheeler, Mr. Parrish and Mr. Kerns to each serve an additional three-year term respectively; and (2) appoint Barry Mundt and Ashley Arrington to each serve a three-year term.

Councilman Pelly moved to 1) reappoint Mr. Wheeler, Mr. Parrish and Mr. Kerns to each serve an additional three-year term respectively, terms to expire June 30, 2015; and (2) appoint Barry Mundt and Ashley Arrington to each serve a three-year term, terms to expire June 30, 2015. All terms are until their successors have been appointed. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 444**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Ms. Judy Strong commented on several budget line items, including asking middle and low income people to pay for employee pay raises, suggestion to decrease employee health benefits, and find other sources for the golf course and McCormick Field.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 10:56 p.m.

Magdalen Pouncey
CITY CLERK

MAYOR

Tuesday – June 26, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Councilman Marc W. Hunt

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Pelly gave the invocation.

**I. PROCLAMATIONS:**

**A. BICYCLE FRIENDLY COMMUNITY AWARD**

Mr. Mike Nix, member of the League of America Bicyclists Board of Directors and Chairman of the National Bicycle Dealers Association, was pleased to present the Bicycle Friendly Community Award to the City of Asheville. He explained that the award is presented only to communities with remarkable commitments to bicycling.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 12, 2012**

**B. RESOLUTION NO. 12-146 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A RENEWAL OF THE ADOPT-A-PARK AGREEMENT WITH JUST FOLKS**

Summary: The consideration of a resolution authorizing the City Manager to sign a renewal of the Adopt-a-Park Agreement with Just Folks including a waiver for park use fees for Triangle Park for FY 2012-2013.

Just Folks is a local non-profit organization whose primary purpose is to support community-building activities in the Eagle/Market Street area. The members of the Board of Directors are all residents who grew up in the area and are actively engaged in efforts to improve the environment in Triangle Park by providing more positive uses of the park. Their focus on Triangle Park began eight (8) years ago when they were encouraged to produce cultural events in the park by a past City of Asheville Cultural Arts Superintendent. Last year City Council authorized the City Manager to sign an amended Adopt-a-Park agreement with Just Folks that included a waiver of park use fees and permit waivers for up to $2,500 for FY 2011-2012 to allow them to hold events in the park including music festivals, community cookouts and other community-building events in the park May to December on Saturdays and Sundays.

During FY 2011-2012, Just Folks has fulfilled the terms of the amended Adopt-a-Park agreement through activities that included:

- Conducting regular clean-ups

- Weeding and maintaining the planted beds
- Mulching paths and planting beds
- Providing volunteers to participate in these and other projects
- Providing the tools and materials to carry out regular maintenance and special approved projects
- Participating in the development of a mural project for the walls of the park assisted by thee Asheville Design Center and city staff and scheduled to be implemented in the fall of 2012.
- Holding a minimum of two (2) events each weekend during the course of the year, including music events and community cookouts that were free and open to everyone in the community.

The presence of Just Folks members and their programming in the park have continued to contributed to the reduction of nuisance behaviors in and around the park and improved appearance of the park, which has made the park more attractive to downtown visitors and community members and meeting specific City Council goals for economic and community development

Just Folks is requesting that their Adopt-a-Park agreement with the city be renewed for FY 2012-2013 and include waivers for park usage and event permitting fees at the same level of $2,500 approved for FY 2011-2012.

This action addresses City Council Strategic Goal for Asheville to be one of the safest and most secure communities compared to similar cities. The events held by Just Folks in Triangle Park proactively promote positive community interactions in the area and have significantly improved public safety in "The Block". Strategic partnerships allow the city to leverage programming and events to reach a wider and more diverse audience.

Pros:

- Provides additional quality cultural programming and diversity in a park that is generally not used for this type of event.
- Reduces staff time in processing fee wavier requests related to this group's events.
- This action is consistent with other partnerships the City has entered into for park programming in key community development areas.

Con:

- The reduction in permit fees result in lost revenue for the city; however, the city has not budgeted for this revenue in FY 2012-2013.

The estimated value of the waived park usage fees is $2,500; however, this revenue has not been included in the FY 2012-2013 budget.

Staff recommends that City Council authorize the City Manager to sign an Adopt-a-Park Agreement with Just Folks including a fee waiver for park usage fees associated with programming in Triangle Park.

**RESOLUTION BOOK NO. 34 – PAGE 445**

**C. RESOLUTION NO. 12-147 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 2012 INGLES 4TH OF JULY CELEBRATION**

**RESOLUTION NO. 12-148 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 2012 BELE CHERE FESTIVAL**

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the 2012 Ingles 4th of July Celebration and the 2012 Bele Chere Festival.

- The Benevolent Patriotic Order of the Does has requested that City Council permit them to serve beer at the 2012 Ingles 4th of July Celebration and allow for consumption at this event.

  The 2012 Ingles 4th of July Celebration will be held at Pack Square Park on Wednesday, July 4, 2012, from 4:00 PM – 10:00 PM. The festival area will be open on Wednesday, July 4 from 4:00 PM – 10:00 PM.

  The sale of malt beverages will end at 9:30 PM. However, the possession of open containers of malt beverages or consumption of malt beverages would be allowed during the festival hours of 4:00 PM – 10:00 PM.

- The following organizations: Wild South, Asheville Ski Club, Asheville Area Paralegals, BPO Does, The Mediation Center, Cataloochee Ski Patrol, PBL –AB Tech, St Johns Episcopal Church, Green Opportunities, Asheville Breakfast Rotary Club, and Engineers without Boarders have requested that City Council permit them to serve beer and/or unfortified wine at the 2012 Bele Chere Festival and allow for consumption at this event.

  The 2012 Bele Chere Festival's Festival Area will be open on Friday, July 27, 2012, from 12:00 PM – 10:00 PM, Saturday, July 28, 2012 from 10:00 AM – 10:00 PM and Sunday, July 29, 2012 from 12:00 PM – 6:00 PM.

  The sale of malt beverages and/or unfortified wine will end at 9:45 PM in all instances; however, the possession of open containers of malt beverages and/or unfortified wine or consumption of malt beverages and/or unfortified wine would only be allowed during the periods as follows:

  Friday, July 27, 2012, from 12:00 Noon to 10 PM
  Saturday, July 28, 2012, from 10:00 AM to 10 PM

  There will be no sales and/or consumption of malt beverages and/or unfortified wine permitted on Sunday, July 29, 2012.

These actions have no direct connection with the City of Asheville Strategic Operating Plan.

Pro:

- Allows fundraising opportunities

Con:

- Potential for public safety issues

The potential for public safety issues requires additional police presence and more overtime pay for Ashville Police Department officers. This expense is built into the FY 2012-13 Police Department operating budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the 2012 Ingles 4th of July Celebration and the 2012 Bele Chere Festival.

Councilman Davis thanked Ingles for providing fireworks at their 2012 4th of July celebration.

**RESOLUTION NO. 12-147 - RESOLUTION BOOK NO. 34 – PAGE 446**
**RESOLUTION NO. 12-148 - RESOLUTION BOOK NO. 34 – PAGE 448**

**D. RESOLUTION NO. 12-149 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RENEW AN AGREEMENT WITH BUNCOMBE COUNTY TO OVERSEE THE ADMINISTRATIVE COORDINATION OF THE COLLABORATIVE COMMUNITIY CRIME PREVENTION PROJECT, CHANGING TOGETHER**

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville an agreement with Buncombe County in which the City will act, for a second year, as the coordinating agency for the Changing Together community project aimed at reducing violence through strategic prevention, intervention and suppression

Changing Together is a comprehensive and collaborative community project with participation from law enforcement, the District Attorney's Office and numerous non-profit and social service agencies throughout Asheville and Buncombe County. It was formed to address the issue of violence and chosen by the Governor's Crime Commission (GCC) as a Tier 1 site for implementation of the Focused Deterrence Model (High Point Model) in fiscal year 2009.

On September 13, 2011, Council adopted a resolution authorizing the City Manager to enter into an agreement with Buncombe County to have the City oversee the administrative coordination of Changing Together. Since that time, the initiative has more clearly defined its goal of addressing violent crime through the focused deterrence model.

A call-in was held March 22, 2012 in which 13 of 19 offenders heard the message that their violent actions will no longer be tolerated and that law enforcement agencies are coordinating through an information-sharing network to ensure that call-in participants that continue to commit violent acts receive the most sever sentencing under the law. They also were made aware that if they reached out to initiative staff, Changing Together was committed to assisting in providing access to a variety of resources. After the call-in, 6 individuals spoke with staff and 4 of the 6 are receiving assistance and support from Changing Together staff, community members and service providers.

Currently, the County receives grant funding from the Governor's Crime Commission to coordinate direct services for call-in participants age 16 and older. Funding pays for the coordination of Changing Together, which includes a salary for the program director, project assistant and one resource counselor. For fiscal year 2012-13, the grant is $79,955.

The County is requesting the City continue responsibility for administrative coordination of Changing Together. One factor prompting the request is that the Governor's Crime Commission emphasized a preference for the coordination to be located in a municipality because of the stability it provides due to organizational capacity and infrastructure. The Buncombe County District Attorney's Office and the Buncombe County Sheriff's Office continue to be supportive of this restructuring of program coordination responsibilities.

If the agreement is approved, the program director and project assistant positions will again be overseen by the community relations division of the city manager's office with associated funding from the County in an amount not to exceed $79,060. The remainder of the grant will fund formal and informal service support systems. These components will be managed by Buncombe County Human Services. As part of the grant match, Buncombe County will also pay $20,400 for a Resource Counselor and $7200 for an outreach partner.

This action complies with City Council's Strategic Operating Plan in the Core Focus Area – Safety. This partnership will continue to assist the Asheville Police Department in its work to successfully work with youths at risk of gang exposure and as a strategy to improve safety in neighborhoods with high crime.

Pros:

- Through initiatives such as West Riverside Operation Weed and Seed, the City of Asheville has impactful experience administering federal and state grants focused on community-based crime prevention.
- Changing Together has a regional focus area which provides a natural evolution for the site-specific Weed and Seed program. Community members involved with Weed & Seed will be able to share their experiences with other neighborhoods and communities experiencing crime.
- Administrative coordination by the City creates an opportunity for seamless crime prevention coordination with the community and greater flexibility in adapting the Focused Deterrence function of Changing Together to meet future crime trends.

Con:

- Public perception of program effectiveness may by associated with only the City when it is actually a collaboration between the community, City of Asheville, Buncombe County and other state and federal agencies.
- Additional administrative resources related to contract management and accounts payable will be required.

Buncombe County has agreed to provide the required grant match of $26,665 for fiscal year 2012-13. With revenue in the amount of $79,060 received from the County, the City will manage funds budgeted for the program director and project assistant positions. These funds have been included as part of the FY 2012-13 budget. All positions will be contract employees in order to re-evaluate available state funding at the conclusion of the current fiscal year. Other than the time commitment related to administrative oversight, there is no hard cost impact on the current year budget.

Staff recommends City Council adopt the resolution authorizing the City Manager to execute, on behalf of the City of Asheville, the agreement with Buncombe County to continue administrative coordination of Changing Together

**RESOLUTION BOOK NO. 34 – PAGE 453**

**E. RESOLUTION NO. 12-150 - RESOLUTION AUTHORIZING THE CITY MANAGER ENTER INTO A CONTRACT WITH RIVERTOP CONTRACTING INC. FOR GROUND MAINTENANCE AT VARIOUS PARKS AND GREENWAYS**

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Rivertop Contracting, Inc. to provide grounds maintenance services at various parks and greenways.

The City issued an Advertisement for Bids for grounds maintenance for parks and greenways on December 22, 2012. Rivertop Contracting, Inc., was lowest responsive and responsible bidder for a total of $125,600.

The grounds maintenance contract will extend from July 1, 2012 to June 30, 2013 with the option for two (2), twelve (12) month extensions based on contractor performance.

This action complies with the City Council Strategic Operating Plan in that it supports operation of the Park Maintenance operations to the highest levels of fiscal responsibility as well

as enhances a basic city service. It also complies with the Parks, Recreation and Cultural Arts Master Plan in that it provides ongoing maintenance and care for the City's park system.

Pro:
- Supports the efficient delivery of core park maintenance services.

Con:
- None

The $125,600 to support the grounds maintenance contract is budgeted in the FY 2012-2013 Parks, Recreation & Cultural Arts Department operating budget as part of the Park Maintenance budget.

City staff recommends City Council to adopt a resolution authorizing the City Manager to enter into a contract with Rivertop Contracting, Inc. to provide grounds maintenance services at various parks and greenways for a 12 month period with an option for 2, twelve month extensions based on contractor performance for a total of $126,500 beginning July 1, 2012.

**RESOLUTION BOOK NO. 34 – PAGE 454**

**F. RESOLUTION NO. 12-151 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A MULTI-YEAR LEASE WITH THE MONTFORD PARK PLAYERS FOR CERTAIN PREMISES LOCATED AT 92 GAY STREET, KNOWN AS THE HAZEL ROBINSON AMPHITHEATRE**

Summary: The consideration of a resolution authorizing the Mayor to execute a multi-year lease with the Montford Park Players for certain premises located at 92 Gay Street, Asheville, NC, known as the Hazel Robinson Amphitheatre.

The Montford Park Players have been operating a theatre company at the Montford Community Center since 1973 with the mission to present the works of Shakespeare and other classical playwrights to the public free of charge. In 2012, the Montford Park Players were awarded funding from the Tourism Development Authority (TDA) for capital improvements to the Hazel Robinson Amphitheatre and as such, the Montford Park Players would like to enter into a formal lease agreement for the Amphitheatre and immediate vicinity.

The Hazel Robinson Amphitheatre is located to the rear of the Montford Center recreation complex and the proposed lease area measures approximately 1 acre. The original amphitheatre, constructed in 1983, is a one-story 1,800 square foot structure which combines all of the following: two-story stage house, scene shop, properties shop, costume shop, two dressing areas, electrical area for stage lighting control and a lounge area for actors waiting to go on stage. The hillside lawn facing the stage is terraced for audience seating. The proposed lease terms are as follows:

- Term: Initial ten years, with two renewal periods of five years each
- Tenant responsibilities: Installation of all improvements, per zoning standards.
- Rental: $1 per year
- All utilities to be paid by the tenant
- Maintenance: All maintenance to be performed by Tenant
- Standard provisions of all City leases (e.g. insurance, indemnity, etc.) will also apply

The proposed renovations to the Hazel Robinson Amphitheatre include (1) construction of a 400 square foot Guest Services Facility at the entrance to the Amphitheatre to house the concessions, patron restrooms and box office area, (2) improvements to the stage and lawn seating to bring the audience closer to the stage, (3) completion of the Stagehouse façade in the Elizabethan-Tudor style (4) construction of a two story 5,600 sq. ft. multi-use facility adjacent to

the existing building that will contain a rehearsal hall, backstage restrooms, dressing rooms, costume storage and actors lounge/ green room and (5) construction of a graded pathway for handicap accessibility to the Amphitheatre.

This action supports the City of Asheville Parks, Recreation, Cultural Arts & Greenways Master Plan by increasing the city's resources with alternative funding sources ensuring a high level of service in parks and facilities by addressing capital maintenance of existing parks and facilities to meet community standards. This action also complies with the City Council Strategic Operating Plan – Fiscal Responsibility by leveraging a community partnership to pursue capital improvements to an aging facility.

Pros:

- Community investment in a Parks facility at no cost to the City
- Supports the cultural arts and Asheville's performance arts community

Con:

- None

No expenses or in-kind services are required of the city for this lease. The city will receive no rental income from this lease.

City staff recommends City Council adopt a resolution authorizing the Mayor to execute the lease agreement with the Montford Park Players on behalf of the City of Asheville.

Mayor Bellamy congratulated the Montford Park Players for a grant received from the Public Development Fund and looked forward to their performances at the Hazel Robinson Amphitheatre.

**RESOLUTION BOOK NO. 34 – PAGE 455**

**G. RESOLUTION NO. 12-152 - RESOLUTION AUTHORIZING THE MAYOR TO APPROVE A GRANT OFFER FROM THE FEDERAL AVIATION ADMINISTRATION FOR THE ASHEVILLE REGIONAL AIRPORT**

Summary: The consideration of a resolution authorizing the Mayor to approve a Grant Offer from the Federal Aviation Administration (FAA) in the amount of $1,558,054.

The FAA has offered a grant agreement to the Asheville Regional Airport. This grant, in the amount of $1,558,054, is for passenger boarding bridges (design, purchase, building modification).

Staff recommends adoption of the resolution authorizing the Mayor to execute the grant agreement for Project No. 3-37-0005-041-2012. This authorization is contingent on the City's continued legal status as a sponsor of the Asheville Regional Airport, and recognition by the FAA, following the anticipated enactment of a law to establish the Asheville Regional Airport Authority, and transfer the operational responsibility for the Airport to that Authority.

City Attorney Oast noted that the resolution has been amended to reflect the authorization is contingent on the City's continued legal status as a sponsor of the Asheville Regional Airport.

**RESOLUTION BOOK NO. 34 – PAGE 456**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda, with the amendment to Resolution No. 12-152. This motion was seconded by Councilman Pelly and carried unanimously.

**III. PRESENTATIONS & REPORTS:**

**IV. PUBLIC HEARINGS:**

**A. PUBLIC HEARING TO CONSIDER ADOPTION OF AN ORDINANCE ORDERING THE DEMOLITION AND REMOVAL OF 44 LINDEN AVENUE**

**ORDINANCE NO. 4094 - ORDINANCE ORDERING THE DEMOLITION AND REMOVAL OF 44 LINDEN AVENUE**

Director of Building Safety Robert Griffin said that this is the consideration of an ordinance ordering the demolition and removal of the dwelling located at 44 Linden Avenue, Asheville, N.C. This public hearing was advertised on June 15, 2012.

This property first came to the attention of the Building Safety Department in the summer of 2009, having been the scene of a fire several years earlier. Numerous efforts were made to locate the whereabouts of the property owner to no avail. The owner was in default of a deed of trust and the lender had instituted foreclosure proceedings. Upon the lender's failure to follow through with the foreclosure sale, the City after giving notice, held an administrative hearing, ordering the demolition of the dwelling. The order of demolition was served upon the owner and the owner has voiced no opposition. The dwelling is in a severely dilapidated condition in that fire has substantially impacted the structural integrity of the foundation of the dwelling, no windows, gutters are missing, the eves are burned and failing with the interior of the dwelling severely smoke damaged throughout. In its current condition, the dwelling structure represents a public health and safety hazard.

This action supports the City's strategic goal of implementing strategies to significantly improve public safety in neighborhoods.

Pro:

- Eliminates a health and safety hazard and contributes to the City's tax value

Con:

- There is a $113,750 Deed of Trust along with a $21,340.00 line of credit against the property in favor of Bank of America. To protect the City's demolition lien, the City, maybe forced to litigate the superiority of its lien over Bank of America's liens.

City Council authorized the use of fund balance for demolitions on March 13, 2012. The demolition is expected to cost $8,750.

City staff recommends that City Council adopt the ordinance ordering the demolition of the dwelling located at 44 Linden Avenue.

Mayor Bellamy opened the public hearing at 5:12 p.m.

Mr. Jim Johnson, adjacent property owner, urged Council to support this demolition as they have been living next to this blight for five years.

Mayor Bellamy closed the public hearing at 5:12 p.m.

In response to Vice-Mayor Manheimer, Assistant City Attorney Martha McGlohon said that the City's lien will take priority over any deed of trust. The only item our lien will not take priority over is the ad valorem taxes.

In response to Councilman Smith, Ms. McGlohon said explained the process of getting a blighted structure removed and the timeframe, which could take anywhere from 3 months to one year, depending on if there are complications.

It was the consensus of Council to have information regarding the process of getting a blighted structure removed on the City's website.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Pelly moved for the adoption of Ordinance No. 4094. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 399**

**B. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING FOR WHITE OAK GROVE APARTMENTS LOCATED AT 275 AND 281 HAZEL MILL ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY DENSITY DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF 92 APARTMENT UNITS HOUSED IN THREE BUILDINGS**

Mr. Bob Grasso, applicant, requested City Council to continue his public hearing until July 24, 2012, since a valid protest petition has been received requiring 6 out of 7 Council members to vote in favor of his application and Councilman Hunt is absent from this meeting. Therefore, Councilman Bothwell moved to continue this public hearing until July 24, 2012. This motion was seconded by Councilman Pelly and carried unanimously.

**C. PUBLIC HEARING TO CONSIDER A SIGNAGE PACKAGE FOR INGLES MARKETS INC. LOCATED AT 1115 AND 1141 TUNNEL ROAD**

Assistant Planning & Development Director Shannon Tuch said that this is the consideration of an ordinance approving a signage plan for Ingles Markets Inc. located at 1115 and 1141 Tunnel Road. This public hearing was advertised on June 15 and 22, 2012.

The proposed master signage plan is associated with a Level 1 expansion of the Oteen Ingles shopping center that proposes to add a new gas station (Ingles Gas Express) to the property. The main store is not being renovated at this time; however, the same signage that has been permitted for other Ingles Gas Express is desired for this new station. Additionally, staff and the applicant thought it prudent to also include consideration of new signage for the store if or when a renovation is considered. This additional signage would also match that permitted for the other stores and, if approved, would be valid for a period of five years. This signage would include the attached signage commonly used for the main store (including Starbucks), the gasoline sales/convenience store, and car wash facilities, along with a free-standing sign for both the gas express and the multi-tenant sign for Ingle's and other tenants.

The project site consists of two parcels totaling approximately 9.38 acres, zoned Highway Business (HB), and is considered to be a multi-tenant development. The Unified Development Ordinance (UDO) currently allows multi-tenant developments one free-standing development or joint identification sign (25' tall, 200 s.f.) and also attached signage for each individual business

within the development (one square foot per one linear foot of building frontage, not to exceed 200 s.f.). Additionally, tenants within a multi-tenant development are not permitted to have separate freestanding signs as is being proposed here.

The following table provides information on each of the signs that has historically been requested as part of the standard Ingle's signage plan as well as what is normally allowed and to what extent the request exceeds the normal standard. All of the following signs are included in this current request and are and consistent with those approved for 1865 Hendersonville Rd., 85 Tunnel Rd., and 153 Smokey Park Highway.

1115 & 1141 Tunnel Rd. (Oteen Ingles)

| INGLES MARKET EXHIBIT | PROPOSED | WHAT IS ALLOWED | AMOUNT EXCEEDED |
|---|---|---|---|
| Ingles (Store Sign) | 201.95 s.f. | 1 attached sign; not to exceed 200 s.f | 1.95 s.f. |
| American Owned | 36.0 s.f. | Not allowed | # of signs and s.f. has been exceeded |
| Fresh Foods | 29.46 s.f. | Not allowed | " |
| Starbuck's | 16.0 s.f. | Not allowed | " |
| Cafe | 8.48 s.f. | Not allowed unless not visible from the R.O.W. | " |
| Pharmacy | 13.13 s.f. | Wayfinding/directional | allowed |
| Vineyard (replaces "Video") | 16.09 s.f. | Not allowed | " |
| Free-standing Pylon | 180.26 s.f. | 1 sign @ 200 s.f | Permitted and Complies |

| GAS CENTER EXHIBIT | PROPOSED | WHAT IS ALLOWED | AMOUNT EXCEEDED |
|---|---|---|---|
| Gas Express, canopy | 36.6 s.f. | Not allowed; not a separate tenant | # of signs and s.f has been exceeded |
| Ingles, canopy | 24.0 s.f. | Not allowed; not a separate tenant | " |
| The i Market | 16.37 s.f. | Minimum of 25 s.f. or 1:1 ratio | Permitted and Complies |
| Wash Express and Laser Wash | 33.86 s.f.<br>4.32 s.f | Minimum of 25 s.f. or 1:1 ratio | Permitted and Complies |
| Free-standing Pylon | 121.84 s.f. | (1) Joint identification sign per development. | Number of free-standing signs have been exceeded. |

The stated purpose of allowing the consideration of a separate signage plan is as follows:

*The purpose behind this section is to permit creativity in sign design and placement to address site issues and constraints associated with topography, pedestrian-orientation, way-finding and other conditions unique to the subject development.*

Based on the nature of the activities occurring on the property, the surrounding site context on the commercial corridor, and other non-technical considerations, staff feels that the request is supportable. Staff also feels that a precedent for Ingles has been set through the approval of three other sign packages that were substantially similar to the package included in this report.

Pros:
- Provides clear and recognizable signage to a large grocery retailer.
- Maintains consistency with signage for other stores.

Cons:
- Exceeds existing standards without creatively addressing pedestrian-orientation or way-finding.
- Establishes a possible precedent or expectation that large box retailers are entitled to greater sign allowances.

Staff recommends that the signage plan for the Ingles development located at 1115 and 1141 Tunnel Rd. be approved as submitted with the following conditions: (1) All signs shall meet the HB zoning district setbacks, the site distance triangle requirements and all applicable building code requirements; (2) Window films shall be limited to image displays only; films that incorporate any form of commercial advertisement or trademark must be counted towards the development's signage requirements which are not included in this application; (3) Any changes to the signage included in this plan may require a new review by City Council; and (4) All signs shall comply with the proposed standards and no exceptions or variances are permitted.

Mayor Bellamy opened the public hearing at 5:22 p.m. and when no one spoke, she closed the public hearing.

At Councilman Pelly's request, Ms. Tuch elaborated on the con that it would exceed existing standards without creatively addressing pedestrian-orientation or way-finding.

Councilman Smith felt we have a separate standard for Ingles than we do for anyone else. He was concerned about having one entity consistently violate the sign ordinance because there are many people who struggle to stay within the sign ordinance. He did acknowledge what a wonderful partner Ingles is in so many ways in this community, but as far as maintaining a level of consistency and fairness, as far as the sign ordinance, he could not support a motion to approve the signage plan.

Councilman Davis said that the Ingles stores are a lot bigger today than what they were when the sign ordinance was adopted. He recalled discussion in the past to perhaps amend our ordinance or consider a sign package that is consistent with their stores, especially if they have more locations.

Ms. Tuch responded to Councilman Davis noting that after Ingles first application they consulted with the City Attorney's Office about whether or not there was a method available to us for a blanket approval for all their stores and avoid having to go through the public hearing process. However, the way the application is designed and the way it is written in the ordinance, it is per site. That was not an option available. To amend the Code would require direction from City Council.

Councilman Bothwell said that he would vote against this, as he has done in the past for other Ingles sign packages that are inconsistency with our sign ordinance. He felt this is excessive advertising and runs exactly against the reason we have the sign ordinance. Although Ingles is often a good community partner, in his opinion if they wanted to be a better community partner they should comply with the same rules that everyone else complies with.

Councilman Davis noted that Ingles is not unique as Council has amended sign packages for Mission Hospitals, Biltmore Park, etc.

At Councilman Davis' request, it was the consensus of Council to have staff review the sign ordinance to accommodate the changing nature of large grocery retailers. Councilman

Smith was amenable but expressed concern over the trend for larger or more signage and would prefer consideration for other more creative options.

Councilman Davis found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4095, to approve a signage plan for Ingles Markets Inc. located at 1115 and 1141 Tunnel Road, subject to the following conditions: (1) All signs shall meet the HB zoning district setbacks, the site distance triangle requirements and all applicable building code requirements; (2) Window films shall be limited to image displays only; films that incorporate any form of commercial advertisement or trademark must be counted towards the development's signage requirements which are not included in this application; (3) Any changes to the signage included in this plan may require a new review by City Council; and (4) All signs shall comply with the proposed standards and no exceptions or variances are permitted. This motion was seconded by Vice-Mayor Manheimer and failed on a 3-3 vote, with Mayor Bellamy, Vice-Mayor Manheimer and Councilman Davis voting "yes" and Councilman Bothwell, Councilman Pelly and Councilman Smith voting "no."

Mayor Bellamy was pleased that Asheville has two women leading the effort to plan our great City – Director of Planning & Development Judy Daniel and Assistant Planning & Development Director Shannon Tuch. She thanked Ms. Tuch for her leadership. She was also pleased about the award for Lexington Avenue as being named as one of the great main streets in the United States.

**V. UNFINISHED BUSINESS:**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 12-153 - RESOLUTION TO DESIGNATE ASHEVILLE THE INAUGURAL BEE CITY, USA**

Ms. Phyllis Stiles, Chair of the Bee City USA Steering Committee, explained why we need a Bee City USA program; Ms. Janet Peterson, Past President of the Buncombe County Chapter of the N.C. State Beekeeping Association, explained why Asheville should be the inaugural Bee City USA (sustainability; the Buncombe County Chapter is the nation's largest Bee Club; green; and Asheville is home for the Center of Honey Bee research); and Mr. Carl Chesick, Executive Director for Center for Honey Bee Research, explained the standards the City would be agreeing to if designated Bee City USA.

Both Asheville's SACEE Committee and Tree Commission have endorsed the principles of Bee City, USA, and many of Asheville's design standards, specifications, and developmental requirements contain many elements of Bee City, USA, and are readily adaptable to adoption of revisions to support Bee City, USA.

Pros:

- The plan continues Council's goals of improving the environment.
- Expanded pollination can improve food growth, production and quality.
- Identifying additional goals clarifies the mission of sound environmental stewardship of Asheville's resources.
- Aligns with other Asheville initiatives, such as Tree City, USA.
- Serving as the inaugural Bee City, USA advances Asheville's stake as a leader in conscientious environmental policies.
- Many of Asheville's existing standards and specifications already meet Bee City, USA guidelines.

Cons:

- Misunderstood perceptions of bees, particularly their role in a municipal environment, can be seen as a negative.
- Some slight revisions to standards and/or specifications may have to occur.
- Individual plans lose broader impact and collaboration.

This action meets Council's goal on several fronts: It supports and furthers sound environmental policies. It offers additional local opportunities to assist in green initiatives. It helps Asheville maintain its goal as a leader in the field.

Habitat budget can be incorporated into existing budgets and efforts in several departments, and standard and specification revisions can be incorporated into routine updates; therefore, no additional financial impact.

Staff recommends that Asheville City Council adopt a resolution designating Asheville as the inaugural Bee City, USA.

Councilman Smith recognized that the pollinators are a vital fundamental piece of having healthy food systems and it is his hope that as we move forward in an effort to create a food security plan, that the pollinators have a home within that as well.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 12-153. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 457**

**B. RESOLUTION NO. 12-154 - RESOLUTION ADOPTING A COMPLETE STREETS POLICY**

Director of Transportation Ken Putnam said that this is the consideration of a Complete Streets Policy.

In response to City Council's current strategic operating plan under the multi-modal transportation focus area (objective # 6); staff convened a multi-disciplinary working group to draft a complete streets policy for the City. The proposed policy is based on best practices identified by the National Center for Complete Streets and it meets the center's criteria for a comprehensive complete streets policy. Complete Streets policies have been adopted by the N.C. Dept. of Transportation (NCDOT), the City of Charlotte, and the Town of Chapel Hill. This policy will apply to new and existing city streets. It is complemented by the NCDOT's recently adopted complete streets policy and implementation guidelines.

Adopting the policy is only the first step. Implementation guidance will need to be developed so that the policy would have a lasting effect. The first steps include reviewing the Unified Development Ordinance and the City's engineering standards and specifications and modifying them as necessary, most likely during regular reviews of the documents rather than as a stand alone review. Staff might also seek adoption of guidelines similar to the recently published NCDOT complete streets guidelines if staff determines they are necessary.

The Complete Streets Policy is not a traffic calming technique. Complete Streets is the ability for us to look at the street and figure out a way to make it work for all modes of transportation. Traffic calming either diverts traffic away from a street or it slows traffic down.

The Complete Streets Policy may make use of some of the tools that traffic calming has, but that is not the purpose.

This action complies with the current City Council Strategic Operating Plan in the multi-modal transportation focus area by satisfying objective # 6 which states "City Council adoption of a complete streets policy".

This item was reviewed by the Planning and Economic Development Committee on April 17, 2012, and they recommended that it move forward to full City Council. It has also been presented to and endorsed by the Asheville Transit Commission, Greenway Commission, and the Asheville Bicycle and Pedestrian Task Force.

Pros:

- Meets objective # 6 under the multi-modal transportation focus area of the current Strategic Operating Plan.
- Formalizes a balanced approach to meeting the transportation needs for all modes of transportation.
- Provides a formal policy framework to coordinating transportation infrastructure maintenance and improvement projects.
- Supports existing best management practices for complete streets elements.
- Recognizes the need for pedestrians to be able to travel along a corridor as well the need to be able to cross a corridor.
- Includes maintenance activities; for example, resurfacing as well as new construction activities.

Cons:

- Could limit the ability to spread infrastructure improvements throughout the City in a given year.
- Could delay independent projects in order to make comprehensive improvements to a street or corridor.
- Could increase the complexity of transportation infrastructure maintenance project planning, design, and construction.
- Could increase the timeframe for project planning and design in order to consider all appropriate elements.

The subject policy will clarify the direction in which the City has been moving with its development regulations, engineering standards, and plans, including already adopted downtown, transit, bicycle and pedestrian plans. The subject action has no fiscal impact but there could be an unknown (at this time) fiscal impact during the implementation process.

City staff recommends that City Council adopt the complete streets policy as submitted.

Councilman Smith was excited about this as we have made a commitment to a multi-modal future in the City and it has so many benefits to our community.

Councilman Davis said that the French Broad River Metropolitan Planning Organization is advocating complete street policies in other communities and felt it was Asheville's role to be a leader and move forward with this Policy.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Manheimer moved for the adoption of Resolution No. 12-154. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 460**

**C. MOTION AUTHORIZING CITY STAFF TO PREPARE AND RELEASE A REQUEST FOR QUALIFICATIONS FOR A COMPREHENSIVE TRAFFIC ENGINEERING ANALYSIS ALONG THE CHARLOTTE STREET CORRIDOR**

Director of Transportation Ken Putnam said that the purpose of this update is to seek approval to prepare and release a request for qualifications (RFQ) for a comprehensive traffic engineering analysis along the Charlotte Street Corridor which is defined as that section of street from the I-240 westbound on/off ramps to Edwin Place. The subject corridor has a total length of about 0.50 mile.

The planning process began in 1996 when City Council directed the Planning Department to develop a small area plan for the subject corridor. Background information including historical development and existing conditions was collected and an Advisory Committee was established. The Advisory Committee designed a planning process that included community workshops/meetings and an intensive two-day design charrette. The results of the charrette were intended to be used as a foundation from which to develop the plan, rather than as a final product. One of the recommendations from the charrette process was to **explore** the possibility of creating a redesigned right-of-way along Charlotte Street between Chestnut Street and Edwin Place that would include two through movement traffic lanes and a center left-turn lane.

A statement included on page 3 of the document entitled "Asheville City Plan 2010 Charlotte Street Corridor Plan" indicates that a traffic corridor analysis prepared by the City's Engineering Department during August 1997 concluded that a three-lane section would reduce the overall level of service to "F", which is not good. Unfortunately, staff has been unable to locate that specific analysis and therefore cannot verify the results.

Following the charrette process, additional meetings were held, recommendations were eliminated and added, the draft plan was prepared and shared with the Advisory Committee and the community through an informal public meeting, and then it was presented to the Planning and Zoning Commission and the City Council for review and adoption. City Council adopted the plan on January 12, 1999 (Resolution # 99-11). The intention of the plan, as adopted, was to serve as a guide for future development and improvements along Charlotte Street. In addition, the Charlotte Street Transition Overlay Zoning District was approved by City Council on April 25, 2000 (Ordinance # 2690).

During 2001, a study known as the "Charlotte Street Transportation Enhancement Study" was undertaken by Kubilins Transportation Group, Inc. The overall goal of the study was to develop a **conceptual** design that would provide interim and long range enhancements to the Charlotte Street corridor through a balance of traffic analysis, responsive design, land use compatibility and substantive public involvement. As a part of the study process, the project team exhaustively researched known and available data and concluded that there were discrepancies between the traffic volumes listed in the 2010 Charlotte Street Small Area Plan and those collected by the North Carolina Department of Transportation. Therefore, additional traffic counts were collected during March 2001 and these counts served as the "base" for the current study. Using the updated traffic counts, a traffic analysis revealed that reducing the roadway to include two through traffic lanes and a center left-turn lane produced similar modeling results as existing conditions (four lanes without left-turn lanes).

The Charlotte Street Transportation Enhancement Study, which was completed during January 2002, concluded that dissention remained clear amongst the various interest groups on

the topic of transforming the corridor from an automobile dominated environment to a corridor where mobility options are balanced for all modes of transportation. One of the recommendations of the study was that a **comprehensive** study of traffic operations be conducted to model all affected intersections and to provide critical information regarding roadway geometry and signal timing and phasing.

During late 2009 and early 2010, City staff began meeting with concerned citizens who were interested in having the City take a more active approach to making Charlotte Street safer and more accessible to pedestrians. From the very beginning, staff encouraged the citizens to reach out to the area business owners and other community members in exploring possible changes to the corridor that would enhance the pedestrian experience (Although unsuccessful, City staff applied for a planning grant during the early part of 2009 as a part of a pilot program for creating walkable communities sponsored by the Federal Highway Administration).

The citizens formed a committee which is known as the "Charlotte Streetscape Committee" and they spent a lot of time during the past two years meeting with residents and business owners. They also circulated a survey and made a presentation to City Council on August 30, 2011. Their presentation to City Council emphasized their goal of identifying the least expensive and most effective way to enhance pedestrian safety and walkability along Charlotte Street that would not adversely impact the needs of the business owners. Overall, the results of the survey are consistent with public comments and suggestions received during the previous study periods. Many drivers use the street as a "cut-through" street to access other parts of the city and many pedestrians do not believe it is safe or comfortable to walk along the existing sidewalks.

A public meeting was held on February 6, 2012 at the Jewish Community Center with an estimated attendance of about 200 persons including four City Council members. The purpose of the meeting was informational **only**. No decisions were made before the meeting, during the meeting, or after the meeting. The format of the meeting provided ample time for questions and opportunities for public comment under the direction of an independent facilitator. City staff stressed the importance of receiving public comment at the meeting by oral communication and/or written communication. In addition, a public comment period was extended through February 17, 2012. Regarding the **possibility** of changing the existing four-lane section along Charlotte Street to a three-lane section, citizens were passionate on both sides of the issue (similar reactions have been documented in the previous studies). Some business owners located in the immediate study area are very concerned about potential loss of business as a result of any changes to Charlotte Street. Although there was not "clear cut", overwhelming consensus regarding 3 lanes versus 4 lanes, there seemed to be consensus on the following items:

- On-street parking along Charlotte Street is not needed.
- Improvements to the existing sidewalks are needed.
- Do **not** change Charlotte Street to 3 lanes on a trial basis.
- The section of Charlotte Street between I-240 and Chestnut Street should be separated from the section of Charlotte Street between Chestnut Street and Edwin Place.
- Overhead utilities should be placed underground.

City staff has worked very hard during the past two years to provide guidance and information to our citizens regarding the process of implementing various approved plans that exist. We have strived to remain neutral throughout this time period and now we need direction before moving forward. Possible next action steps include the following items:

- Prepare a request for qualifications (RFQ) to perform a comprehensive traffic engineering analysis that would model all of the affected intersections and would provide critical information regarding roadway geometry and signal timing and phasing (Estimated cost = $50,000 +/-).

- Prepare a request for qualifications (RFQ) to perform a comprehensive study to determine how to make pedestrian improvements without changing the existing Charlotte Street footprint (Estimated cost = $50,000 +/-).
- Do nothing (Existing conditions remain in place and no further action by staff).

The subject memorandum was presented to the PED Committee on March 20, 2012 and after due consideration, a recommendation was made for staff to submit and present the memorandum to City Council with the action step of authorizing staff to proceed with option 1, the comprehensive traffic engineering analysis.

The fiscal impact of Option 1 is estimated to be about $50,000 and the recommended source of funds is the Traffic Safety Projects Fund using the current available balance and part of the new allocation for FY 2012-13. In North Carolina, contracts for professional engineering services must be based on qualifications rather than low bid.

The scope of work for the comprehensive traffic engineering analysis would include the following tasks at a minimum:

- Reviewing previously collected traffic count data and collecting current traffic count data (2012).
- Establishing benchmarks (including levels of service, delay, and queue lengths) that all data would be compared to.
- Performing traffic engineering analyses for existing conditions (four lanes) and potential new conditions (three lanes) for the morning, mid-day, and afternoon peak hours during a typical weekday (Tuesday, Wednesday, or Thursday) using nationally recognized capacity software.
- Preparing a computer model that would clearly demonstrate the results under every scenario.
- Attending and speaking at any needed public meetings.
- Addressing concerns from citizens that have been submitted to staff.
- Discussing the pros and cons of moving forward with three lanes on a trial basis and determining the benchmarks for its success or failure.

It should be stressed that by moving forward with the comprehensive traffic engineering analysis, a decision has **not** already been made that Charlotte Street will be converted to three lanes. The analysis could conclude that Charlotte Street remain as a four-lane cross-section.

Based on the information in the subject memorandum, staff recommends moving forward with the comprehensive traffic engineering analysis in FY 2012-13 which begins on July 1, 2012.

The following individuals spoke in support of moving forward with a comprehensive traffic engineering analysis for several reasons, some being, but are not limited to: since there are a lot opinions, the study will look at a variety of options for the street, not just the 3-lane option; in 1994 there was interest in making Charlotte Street more walkable, neighborhood and pedestrian friendly commercial district; 38 businesses on Charlotte Street would like to see some improvement; and the study relates to the City's commitment to foster ways to promote multi-modal transportation:

Ms. Grace Curry, member of the Charlotte Street Streetscape Committee and north Asheville resident
Ms. Claudia Nix
Ms. Gwen Wisler, resident on Charlotte Street
Mr. Robin Wood
Owner of Charlotte Street Animal Hospital

The following individuals spoke in opposition of the City spending approximately $50,000 on a study to possibly reduce the lanes on Charlotte Street from 4 to 3, basically due to the already congested 4 lanes and the potential for additional response times by emergency vehicles:

Mr. Tom English, north Asheville resident
Representative of the Buncombe County Emergency Services
Mr. Chris Peterson, resident off Charlotte Street
Mr. R. L. Bailey, resident on Charlotte Street
Rev. Christopher Chiaronmonte
Mr. Jerry Sternberg, resident on Charlotte Street
Mr. Martin, employee of Fuddruckers Restaurant on Charlotte Street

In response to Councilman Pelly, Mr. Putnam said that he has not been made aware of any additional emergency response time needed after the change on College Street and felt sure that if the Fire Department was having any problems, they would have already been in contact with the Transportation Department.

When Councilman Pelly asked about previous studies, Mr. Putnam said that the other studies done were more conceptual and the last study done determined that before we move forward that a comprehensive study should be performed.

Councilman Smith said that the purpose of the study is to balance our roadways so different people can use them. We need to provide options for citizens and looked forward to seeing the results of the study.

In response to Councilman Davis, Mr. Putnam said that the comprehensive study would show us clearly, through a computer model, what is going on out on the street today. Hopefully they will be able to model that to exactly what people are experiencing. That would be the base from which we work from. At the same time, he wants the study to take the same existing data and assume that it will be a 3-lane section and then re-model it to see if it will improve or make things worse. He didn't want the study to give a definitive answer either way but only to give us enough information for staff, and involving the public, can be comfortable with the outcome. The study is only a tool to give Council the information for the ultimate decision.

When Councilman Davis asked if the study could be done in-house, Mr. Putnam said he and his staff do not have the amount of time necessary to devote to the study. They will, however, be involved with it.

In response to Councilman Davis, Mr. Putnam said that they did apply for a grant; however, they were not chosen to receive it.

Councilman Bothwell said that the study seems excessive, but felt it's the best way to move forward.

Vice-Mayor Manheimer reassured the public that the intention of Council is not to make anything worse or create problems for the businesses on Charlotte Street. The intention of Council is to make something better for all parties involved. She was interested in seeing what the study will produce.

Councilman Smith moved to direct staff to move forward with the comprehensive traffic engineering analysis in Fiscal Year 2012-13 for the Charlotte Street Corridor. This motion was seconded by Councilman Bothwell and carried unanimously.

**D. RESOLUTION NO. 12-158 - RESOLUTION PROHIBITING TOBACCO COMPANY SPONSORSHIP OF CITY OF ASHEVILLE EVENTS, INCLUDING, BUT NOT LIMITED TO BELE CHERE, EFFECTIVE JULY 30, 2012**

Councilman Bothwell said that Project ASSIST submitted a request to the City of Asheville in January 2012 via the Recreation Advisory Board to eliminate tobacco advertisement at Bele Chere. Project ASSIST is a service of Buncombe County Health Department to improve the health of county residents by promoting tobacco-free lifestyles, smoke-free places, and policies that support these efforts. The Tobacco Prevention and Control Program is managed through the Project ASSIST Tobacco Prevention Coalition, a local partnership of community members and agencies.

Because the ultimate decision regarding this policy change would be City Council, he felt it would be appropriate to bring it directly to Council and by-pass any other advisory boards. He said that there was one tobacco sponsorship last year that donated approximately $15,000 to the Bele Chere Festival. It it's the policy of Council not to permit smoking in City buildings and City parks, he felt it was reasonable to prohibit tobacco sponsorship at our City events. Although he has not seen anything in writing, he has heard that Mission Hospitals is willing to make up those sponsorship dollars.

He then read the following resolution: "Whereas, tobacco smoke has been conclusively linked to cancer, cardio-vascular disease and emphysema; and Whereas, tobacco-related disease affects public-health costs in our community, state and nation; and Whereas, 20 percent of our youth continue to take up a habit that will shorten their lives and the lives of those near to them; and Whereas, the City of Asheville prohibits smoking in public buildings and city parks; NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: Tobacco company sponsorship of City of Asheville events, including but not limited to Bele Chere, is prohibited, effective July 30, 2012."

Because the Bele Chere Festival contract for July 27-29, 2012, have already been let, he is asking for the effective date of July 30, 2012.

Rev. Christopher Chiaronmonte urged Council not to support the resolution.

Vice-Mayor Manheimer clarified that we are banning tobacco sponsorships only and that all regular ordinances still apply to Bele Chere.

In response to Councilman Bothwell, City Attorney Oast said that streets don't lose their character as streets just because they are barricaded – they are just banned from vehicular traffic.

Councilman Bothwell moved to adopt Resolution No. 12-158. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 467**

**E. BOARDS & COMMISSIONS**

**RESOLUTION NO. 12-155 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE REGIONAL AIRPORT AUTHORITY**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that her term on the Airport Authority expires on June 30, 2012. City Attorney Oast said that the legislation that is pending would prohibit elected officials from serving on the Airport Authority has

passed on the second or third reading today in the Senate and it has to go back to the House for concurrence. The legislature has predicted an adjournment date of July 2, 2012.

Vice-Mayor Manheimer said that basically the bill says that if you are serving in a term when the bill passes, you would finish that term.

There was a brief discussion on when the term would begin – either immediately or on July 1, 2012.

The following individuals have applied for the vacancy: Michael L. Hudkins, Albert Anderson, Tilt Thompkins, Bradley J. Cain, Julian D. Jones and Aixa Wilson.

Because Mayor Bellamy was interested in serving on the Airport Authority, Vice-Mayor Manheimer moved to appoint Mayor Bellamy to serve a four-year term, term to begin immediately and expire on June 30, 2016, or until her successor has been appointed. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 34 – PAGE 464**

**RESOLUTION NO. 12-156 - RESOLUTION APPOINTING ALTERNATE MEMBERS TO THE BOARD OF ADJUSTMENT**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing two alternate members to the Board of Adjustment.

There currently exists two alternate seats, left vacant by Mr. James Sheeler, term to expire January 21, 2015; and Mr. Douglas Hattaway, term to expire January 21, 2014.

The following individuals have applied for the vacancies: Dimi Kulakov, Daniel Summerlin, Robert M. Swicegood and Derek Weekley.

On May 22, 2012, City Council instructed the City Clerk to arrange interviews for all the candidates. Mr. Kulakov withdrew his application.

Because there was an error in the voting at the June 12 meeting, this matter is being brought back before Council.

After Council spoke highly of the candidates, Daniel Summerlin received 6 votes; Robert M. Swicegood received 5 votes; and Derek Weekley received 1 vote. Therefore, Mr. Summerlin was appointed as an alternate member to the Board of Adjustment to serve the unexpired term of Mr. Sheeler, term to expire January 21, 2015, or until his successor has been appointed; and Mr. Swicegood was appointed as an alternate member to the Board of Adjustment to serve the unexpired term of Mr. Hattaway, term to expire January 21, 2014, or until his successor has been appointed

**RESOLUTION BOOK NO. 34 – PAGE 465**

**RESOLUTION NO. 12-157 – RESOLUTION APPOINTING MEMBERS TO THE NEIGHBORHOOD ADVISORY COMMITTEE**

Vice-Mayor Manheimer said that on June 12, 2012, it was the consensus of City Council to appoint Robert Roepnack, Barber Melton, Elaine Poovey, DeWayne Barton and Carmen Ramos-Kennedy to the Neighborhood Advisory Committee.

Also on June 12, City Council, it was the consensus to interview Alan Escovitz, Saul Chase, Jean W. Boyd, Peggy Dutton, Teddy Jordan and Aixa Wilson. Mr. Wilson was unable to attend the interview.

After Council voted highly of the candidates, in summary after votes were counted, Alan Escovitz, Saul Chase, Jean W. Boyd and Peggy Dutton were appointed as members of the Neighborhood Advisory Committee to serve until their successors have been appointed. City Clerk Burleson would stagger the terms.

**RESOLUTION BOOK NO. 34 – PAGE 466**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Ms. Patricia Dockery asked for Council to adopt a temporary noise ordinance designating night hours from 11:00 p.m. until 7:00 a.m. until the Public Safety Committee concludes their outreach. Councilman Bothwell, Chair of the Public Safety Committee, explained that staff will bring back a report to the Committee in 60 days.

Rev. Christopher Chiaronmonte commented about Asheville losing its uniqueness.

Mr. Alan Ditmore spoke about sleeping in public is a right as a human need.

At Mayor Bellamy's suggestion, it was the consensus of Council to direct the City Manager to participate in the Bloomberg Philanthropies Mayors Challenge to come up with creative, local solutions to the problems affecting communities from coast to coast. The deadline is July 16.

Mayor Bellamy thanked all those City departments and other agencies that came to her and her family's assistance when a large tree fell on her home on July 21. She was proud to be Mayor of such a wonderful group of public servants.

**Closed Session**

At 7:17 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including lawsuits involving the following parties: The Institute for Southern Studies, Inc., d/b/a Carolina Public Press, Gannett Pacific Corporation, d/b/a Asheville Citizen-Times, Green Line Media, Inc., d/b/a Mountain Xpress, Western North Carolina Public Radio, Inc., d/b/a WCQS, and Sinclair Broadcast Group, Inc., d/b/a WLOS TV; City of Asheville; and Buncombe County District Attorney's Office. The statutory authorization is contained in G.S. 143-318.11(a)(3); (3) To discuss matters relating to the location or expansion of industries or other businesses in the area served by the City Council, including agreement on a tentative list of economic development incentives that may be offered in negotiations, provided that any action authorizing the payment of economic development incentives will occur in open session. The statutory authority is contained in G.S. 143-318.11(a)(4); and (3) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:57 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Davis and carried unanimously.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 7:57 p.m.

Magdalen Bullerson
CITY CLERK

MAYOR

Tuesday – July 24, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Vice-Mayor Manheimer gave the invocation.

**I. PROCLAMATIONS:**

**A. ANNOUNCEMENT OF STRIVE NOT TO DRIVE WINNERS**

Mayor Bellamy recognized Mr. Keith Bamberger who explained the Strive Not To Drive Program. Mayor Bellamy then said that each year Strive Not To Drive recognizes individuals and organizations that help make getting places without driving alone in a car easier. The winners were nominated by their friends, peers, and admirers for their dedication to striving not to drive. The Golden Spoke Award goes to people who make commuting by bike a priority. The Golden Wheel Award goes to people who are multi-modal mixing walking, cycling, and riding the bus to get the places they need to go. We also give a Strive Not To Drive Leadership Award to people who lead by example and make it easier for others to Strive Not To Drive. This year Strive Not To Drive is recognizing two individuals with the Golden Spoke Award: Caroline Wiltz and Lynn Player; Golden Wheel Award: Morna Childers, West Asheville Library and Jim Grode; and Strive Not to Drive Leadership Award: Renee Owen. The Workplace Challenge winners are as follows: winner for business and organizations with fewer than 10 employees – The Western North Carolina Alliance; the winner for 11-30 employees – Equinox Environmental; the winner for 31-50 employees – REI; the winner for 51 to 250 employees – SMARTTRAC Technology; and the winner for business and organizations over 251 employees – Buncombe County.

**B. ENVIRONMENTAL EXCELLENCE AWARD FOR THE DR. WESLEY GRANT SR. SOUTHSIDE CENTER**

Ms. Susan Roderick, Executive Director of Asheville Greenworks, and Ms. Willie Mae Brown, presented City Council via Director of Parks, Recreation & Cultural Arts Roderick Simmons, with the Environmental Excellence Award for the construction of the Dr. Wesley Grant Sr. Southside Center. The Center construction included significant green building techniques to earn LEED certification, the first for new construction of a city-owned building.

On behalf of City Council, Mayor Bellamy thanked Ms. Roderick for the Award. She also thanked City staff, Jane Mathews, the Junior League, K. Ray Bailey and Virgil Smith for their hard work in helping Asheville achieve this award.

## II. CONSENT AGENDA:

At the request of City Manager Jackson, Consent Agenda Items "D 1 and 2" and Consent Agenda Item "L" were removed from the Consent Agenda and would be scheduled at a later date.

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 26, 2012**

**B. RESOLUTION NO. 12-159 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXTEND THE GENERAL SERVICES CONTRACT WITH CAROLINA MANAGEMENT TEAM FOR THE WATER RESOURCES WATER STORAGE TANK AND PIPE COATING AND MAINTENANCE PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to extend the general services contract with Carolina Management Team (CMT) for the Water Resources Water Storage Tank and Pipe Coating and Maintenance Project for the 2012-13 fiscal year with an option to renew for an additional fiscal year.

On July 26, 2011, City Council awarded the general services contract to Carolina Management Team for the Water Storage Tank and Pipe Coating and Maintenance Project. The scope of the project is for the maintenance, rehabilitation, repair, and repainting of water storage tanks and pump station piping at various sites in the water distribution system. Project locations have included: West Asheville Candler Knob Tanks, Spivey Mountain Tank, South Buncombe Tank, Spivey Mountain Pump Station, Ridgeview Tank, Beaverdam Pump Station, Gaston Mountain Tank, Patton Mountain Pump Station, and Young's Cover Tank.

The Water Resources Department desires to extend CMT's contract for an additional fiscal year with an option to renew for an additional fiscal year, both at $150,000.00 each year, contingent upon funding. The extension of the contract with CMT with a one year option to renew benefits the City as follows: eliminates the time and expense associated with re-bidding; eliminates the logistics and operational requirements to mobilize another Contractor's workforce on site; continued work with a company who has a proven track record for excellent work and a known contract cost.

This project is part of City Council's strategic plan to maintain and improve city infrastructure and provide local companies with labor opportunities.

Pros:

- Approval of the project will allow Water Resources to complete necessary maintenance on various water storage tanks and pump station piping in need of rehabilitation and repair. The project will also make these sites more aesthetically pleasing.
- The project will provide a local company with work for at least the next year.
- The WRD will realize cost savings by not having to rebid the project.

Cons:

- If the project does not continue, the water storage tanks and pump station piping on the list to be rehabilitated and repaired will continue to degrade, which may eventually jeopardize the system's water quality.

No additional appropriations are necessary as funds are budgeted in the Water Resources Capital Improvement Projects Fund.

City staff recommends City Council adopt a resolution authorizing the City Manager to extend the general services contract with Carolina Management Team for the Water Resources Water Storage Tank and Pipe Coating and Maintenance Project for the fiscal year 2012-13 with

an option to renew for the 2013-14 fiscal year, at a cost of $150,000.00 per fiscal year contingent upon funding.

**RESOLUTION BOOK NO. 35 – PAGE 1**

**C. RESOLUTION NO. 12-160 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH PATTON CONSTRUCTION GROUP INC. FOR THE HAW CREEK AND RIDDLE ROAD WATERLINE REPLACEMENT**

**ORDINANCE NO. 4095 - BUDGET AMENDMENT FOR THE HAW CREEK AND RIDDLE ROAD WATERLINE REPLACEMENT**

Summary: The consideration of a resolution authorizing the City Manager to enter into a construction agreement with Patton Construction Group, Inc., for the bid amount of $914,790.00 plus a contingency amount of $91,479.00 for a total in the amount of $1,006,269.00 for the Haw Creek Area and Riddle Road Waterline Replacement; and a budget amendment in the amount of $369,169.00 from savings in other capital projects that were completed under budget.

This project consists of the construction and installation of approximately 3,200 linear feet (LF) of 8-inch ductile iron pipe and 6,130 LF of 6-inch ductile iron pipe with all associated valves, hydrants, and services to provide fire protection and domestic water service to the Haw Creek area and Riddle Road area. The Water Resources Department (WRD) issued an Advertisement For Bids for the construction project. In response to the Advertisement For Bids, the WRD received five (5) proposals.

Companies responding were:

1. Cana Construction – Waynesville, NC
2. Carolina Specialties Construction – Hendersonville, NC
3. Huntley Construction – Asheville, NC
4. Patton Construction Group, Inc. – Arden, NC
5. Steppe Construction, Inc. – Mill Spring, NC

The bids were reviewed by City Staff and McGill Associates Consulting Engineers, and Patton Construction Group, Inc., was selected as the lowest responsible bidder at a bid of $914,790.00. A contingency amount of $91,479.00 has been added for a total contract amount of $1,006,269.00.

This project is part of City Council's strategic plans to improve city infrastructure and provide local companies with labor opportunities.

Pros:

- This project will replace existing waterlines, which are undersized, constructed of asbestos cement pipe, and/or rupture often causing costly repairs for the City and Water Resources Department and frequent outages for the customers, with a durable, reliable, sustainable water system for the Haw Creek and Riddle Road areas.
- This project is aligned with the City and Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.
- Approval of the construction contract to the lowest responsible bidder will invest City funds in the local economy.

Con:

- Failure to award a construction contract would prevent the completion of this important waterline system improvement.

The Water Resources Department currently has $637,100.00 budgeted for this project. The remaining funds of $369,169.00 needed for the contract will be transferred from the General Projects capital project that accumulates remaining funds from all of Water Resources completed, inactive capital projects. In order to use the funds in General Projects, a budget amendment is necessary.

| | |
|---|---|
| Amount in Haw Creek / Riddle Road Project | $ 637,100.00 |
| Amount Needed for Construction Contract | $ 369,169.00 |
| Total Amount for Project | $1,006,269.00 |

The amount remaining in General Projects will be reallocated to other capital projects as the need arises. Staff will seek Council approval on any future reallocation of these funds.

City staff recommends City Council approval of the City Manager to enter into an agreement with Patton Construction Group, Inc., for the bid amount of $914,790.00 plus a contingency amount of $91,479.00 for a total contract amount of $1,006,269.00 for the Haw Creek Area and Riddle Road Waterline Replacement; and a budget amendment in the amount of $369,169.00 from savings in other capital projects that were completed under budget.

**RESOLUTION BOOK NO. 35 – PAGE 2**
**ORDINANCE BOOK NO. 27 – PAGE 401**

**D. RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH BROWN AND CALDWELL FOR THE MAIN WATER TRANSMISSION LINE EVALUATION PROJECT**

**BUDGET AMENDMENT FOR THE MAIN WATER TRANSMISSION LINE EVALUATION PROJECT**

These items were removed from the Consent Agenda in order to have staff prepare a presentation related to this topic.

**E. ORDINANCE NO. 4097 - ORDINANCE ENACTING A THROUGH TRUCK PROHIBITION ON RIVERVIEW DRIVE FROM AMBOY ROAD TO HAYWOOD ROAD**

Summary: The consideration of an ordinance to enact a through truck prohibition on Riverview Drive from SR 3556 (Amboy Road) to SR 3548 (Haywood Road).

The Traffic Engineering Division has conducted a traffic-engineering study along the subject road at the request of residents. This study, which included a truck traffic count, has determined that the subject street is not appropriate for through truck traffic.

City ordinances # 19-60 and 19-61 prohibit trucks from using residential and designated streets as listed in Appendix C of the Code of Ordinances. For purposes of these ordinances, a truck is defined as a vehicle that has any of the following characteristics; a gross vehicle weight rating of 10,000 pounds or more, a tandem or tri-axle, or a tractor or tandem vehicle when pulling semi-trailers or tandem semi-trailers. There are certain exceptions to the ordinances including points of destination on the specific street, authorized detour route, emergency vehicles, public utility vehicles, wreckers (when towing), and buses.

This action complies with the City Council Strategic Operating Plan in the Safety focus area by improving the "street experience" for all users including pedestrians, bicycles, and motorists in a primarily residential corridor.

The Public Safety Committee reviewed the subject action on June 25, 2012, and recommended that it move forward to City Council for consideration and approval.

Pros:

- City staff has been able to respond favorably to citizens requests.
- Consistent with streets of like character and design.
- Based on a traffic-engineering study.

Cons:

- Initial cost to install the appropriate truck prohibition signs is about $400.00.
- Typically, traffic control signs have a serviceable life of five to seven years.

The initial cost to install the appropriate truck prohibition signs is about $400.00 and is included in the current operating budget for the Transportation Department.

City staff recommends that City Council approve an ordinance to enact a through truck prohibition on Riverview Drive from SR 3556 (Amboy Road) to SR 3548 (Haywood Road).

**ORDINANCE BOOK NO. 27 – PAGE 405.**

**F. RESOLUTION NO. 12-162 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH T&K UTILITIES INC. FOR THE MCINTOSH ROAD WATER SYSTEM IMPROVEMENTS PROJECT**

**ORDINANCE NO. 4098 - BUDGET AMENDMENT FOR THE MCINTOSH ROAD WATER SYSTEM IMPROVEMENTS PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to enter into a construction agreement with T&K Utilities, Inc., for the bid amount of $635,860.00 plus a contingency amount of $64,140.00 for a total in the amount of $700,000.00 for the McIntosh Road Water System Improvements Project; and a budget amendment in the amount of $466,000.00 from savings in other capital projects that were completed under budget.

This project consists of the construction and installation of approximately 6,500 Linear Feet (LF) of new 8-inch Ductile Iron Pipe (DIP) and 1,000 LF of 6-inch DIP with all associated valves, hydrants, and services to provide fire protection and domestic water service to the McIntosh Road area. The Water Resources Department (WRD) issued an Advertisement For Bids for the construction project. In response to the Advertisement For Bids, the WRD received three (3) proposals.

Companies responding were:

6. Carolina Specialties Construction – Hendersonville, NC
7. T & K Utilities, Inc. – Asheville, NC
8. Patton Construction Group, Inc.– Arden, NC

The bids were reviewed by City Staff and T & K Utilities, Inc., was selected as the lowest responsible bidder at a bid of $635,860.00. A contingency amount of $64,140.00 has been added for a total contract amount of $700,000.00.

This project is part of City Council's strategic plans to improve city infrastructure and provide local companies with labor opportunities.

Pros:

- This project will complete an important link in the Water System between Brevard Rd and West Oakview Road and provide better domestic and fire service to the areas of McIntosh Rd, Pond Rd and Hazelnut Dr.
- The completion of this project will accomplish waterline relocation on Pond Rd that is necessary to allow NCDOT to complete a bridge replacement project on I-26 over Pond Rd.
- This project is aligned with the City and Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.
- Approval of the construction contract to the lowest responsible bidder will invest City funds in the local economy.

Con:

- Failure to award a construction contract would prevent the completion of this important waterline system improvement.

The Water Resources Department currently has $234,000.00 budgeted for this project. The remaining funds of $466,000.00 needed for the contract will be transferred from the General Projects capital project that accumulates remaining funds from all of Water Resources completed, inactive capital projects. In order to use the funds in General Projects, a budget amendment is necessary.

| | |
|---|---|
| Amount in McIntosh Road WL Project | $234,000.00 |
| Amount Needed for Construction Contract | $466,000.00 |
| Total Amount for McIntosh Road | $700,000.00 |

The amount remaining in General Projects will be reallocated to other capital projects as the need arises. Staff will seek Council approval on any future reallocation of these funds.

City staff recommends City Council approval of the City Manager to enter into an agreement with T & K Utilities, Inc, for the bid amount of $635,860 plus an additional contingency amount of $64,140.00 for a total in the amount of $700,000.00 for the McIntosh Road Water System Improvements Project; and a budget amendment in the amount of $466,000.00 from savings in other capital projects that were completed under budget.

**RESOLUTION BOOK NO. 35 – PAGE 5**
**ORDINANCE BOOK NO. 27 – PAGE406**

**G. RESOLUTION NO. 12-163 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A LEASE WITH DANNY'S DUMPSTER FOR THE PURPOSE OF OPERATING A COMPOST FACILITY ON CITY-OWNED PROPERTY AT 120 HARDESTY LANE**

Summary: The consideration of a resolution authorizing the City Manager to execute a Lease Agreement with Danny's Dumpster, Inc. for the purpose of installing and operating a Type III compost facility on a portion of city-owned real property at 80 Hardesty Lane, Asheville, NC.

Danny's Dumpster, Inc. is a small business located in Leicester, NC that serves as a commercial food waste hauling company for area establishments such as restaurants, universities, hospitals, etc. The food waste collected by Danny's Dumpster is used as a primary input in industrial composting operations. In addition to food waste hauling, Danny's Dumpster seeks to establish a compost processing facility to process food wastes and wood debris into the finished soil amendment known as compost. Compost processing facilities are regulated by the North Carolina Department of Environmental and Natural Resources, Solid Waste Division. Danny's Dumpster is in the process of applying for a Type III permit, which would enable Danny's Dumpster to process vegetable, grain, fruit, meat, and dairy food wastes.

The property at 80 Hardesty Lane is approximately 33 acres and is located at the back of the Recreation Park complex, between the Swannanoa River and the railroad. The current uses of this property are: (1) The City of Asheville Public Works Department operates a 5-acre beneficial fill site for waste concrete and other inert materials; (2) New Sprout Organic Farms leases 10 acres of land for certified organic fruit and vegetable production; (3) the Men's Garden Club of Asheville operates a small greenhouse on approx 0.37 acres. The proposed lease area for Danny's Dumpster is 5 acres +/-, directly adjacent to the beneficial fill site. This lease area will be minimally improved with three in-vessel composting containers, a food waste mixing container and covered storage areas for wood chip / debris and finished compost product. Danny's Dumpster will be required to access this site using the back entrance to Recreation Park off of U.S. 70 to avoid potential congestion with park users. No direct sales of compost will be permitted onsite.

The proposed lease terms are as follows:

- Initial term of two (2) years with the option to renew for two (2) additional two (2) year periods, subject to the mutual consent of the parties.
- Tenant responsibilities: Installation of all improvements, subject to zoning standards. Must maintain cleanliness of property, improvements, clearing of debris.
- All utilities to be paid by the tenant
- Maintenance: All maintenance to be performed by Tenant
- Mutual rights to terminate lease
- Rental: As consideration for the annual rental fees, Danny's Dumpster Inc. will accept all tree, limb and brush material generated by the Public Works Department of the City of Asheville free of charge. This in-kind arrangement equals an estimated $50,000 annual cost savings for the Public Works Department.
- Standard provisions of all City leases (e.g. insurance, indemnity, etc.) will also apply

The Notice of Intent to enter into a Lease Agreement with Danny's Dumpster, Inc. was published on July 13, 2012, in the Asheville Citizen-Times. Ten days have passed since the publication and authorization to execute the Lease Agreement is being requested. In the notice, the property was referenced as 80 Hardesty Lane; should this resolution be approved, the address assigned to this portion of the property will be 120 Hardesty Lane.

This action complies with the City Council Strategic Operating Plan by addressing the following goals: (1) Job Growth and Community Development Goal by supporting diversified job growth and business development, (2) Green & Sustainable Goal by reducing city-wide solid waste and (3) Fiscal Responsibility by leveraging an external partnership to reduce City service costs.

Pros:

- Support the local green economy
- Contributes to solid waste reduction
- Cost savings in the form of in-kind service exchange
- All tree, limb and brush debris collected by the City of Asheville will be recycled into compost

Con:

- None

The lease agreement requires that Danny's Dumpster accept all tree, brush and limb debris generated by the Public Works Department free of charge. Given the existing disposal costs associated all tree, limb and brush material, the City estimates the value of this cost savings at $50,000 per year. The City will receive no rental income from this lease.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute the lease agreement with Danny's Dumpster, Inc. on behalf of the City of Asheville.

In response to Mayor Bellamy, Real Estate Manager Nikki Reed said we will be leasing this surplus land to an existing business. She said Danny's Dumpster is an existing hauling business that is looking to expand to actually process the commercial compost that he now picks up. This is a straight forward lease of surplus property.

**RESOLUTION BOOK NO. 35 – PAGE 7**

**H. RESOLUTION NO. 12-164 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT RIVERFEST 2012**

**RESOLUTION NO. 12-170 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT ORGANICFEST**

**RESOLUTION NO. 12-171 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE CITIZEN-TIMES HALF MARATHON & 5K**

**RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE WEST ASHEVILLE SOAPBOX DERBY**

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at RiverFest 2012 on August 11, 2012; Dog Day Afternoon on August 18, 2012; the Goombay Festival on August 24, 25 & 26, 2012; the Lexington Avenue Arts & Fun Festival on September 1 & 2, 2012; Symphony in the Park on September 3, 2012; Chamber After Hours on September 6, 2012; Organicfest on September 8, 2012; the Asheville Citizen-Times Half Marathon & 5K on September 15, 2012; and the West Asheville Soapbox Derby on September 29, 2012.

- Riverlink has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at RiverFest 2012 and allow for consumption at this event.

  RiverFest will be held on Saturday, August 11, 2012, from 1:00 p.m. – 7:00 p.m., within the boundaries of French Broad River Park, as per the event area limits referenced on the accompanying site map.

- Animal Compassion Network has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at Dog Day Afternoon and allow for consumption at this event.

  Dog Day Afternoon will be held on Saturday, August 18, 2012, from 10:30 a.m. – 4:00 p.m. within the boundaries of Carrier Park, as per the event area limits referenced on the accompanying site map.

- YMI Cultural Center has requested through the City of Asheville Development Services Center that City Council permit the sale of beer and/or unfortified wine at the Goombay Festival and allow for consumption at this event.

  The Goombay Festival will be held on Friday, August 24, 2012 from 6:00 p.m. to 9:00 p.m., Saturday, August 25, 2012 from 12:00 p.m. to 10:00 p.m. and Sunday, August 26, 2012 from 11:00 a.m. to 9:00 p.m. within the boundaries of Eagle Street between Biltmore Avenue & S. Spruce Street, South Market Street between S. Pack Square & Beaumont Street, and includes Triangle Park, Sycamore Street and Wilson Alley, as per the event area limits referenced on the accompanying site map.

- Arts2People has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at the Lexington Avenue Arts & Fun Festival and allow for consumption at this event.

  The Lexington Avenue Arts & Fun Festival will be held on Saturday, September 1, 2012 from 8:00 p.m. to Sunday, September 2, 2012 at 2:00 a.m. and again on Sunday September 2, 2011 from 11:00 a.m. to 9:00 p.m. within the boundaries of Lexington Avenue between the intersections of College Street and the I-240 overpass, Walnut Street between Broadway and Rankin Avenue, Rankin Avenue between Walnut Street and Hiawassee, Hiawassee between Rankin Avenue and Carolina Lane, Chicken Alley and Carolina Lane between Hiawassee and Walnut Street, the Rankin Avenue Monthly Parking Surface Lots on Rankin Avenue between Walnut and Hiawassee, and the metered parking lot at Lexington Avenue and the I-240 Underpass, as per the event area limits referenced on the accompanying site map.

- The Asheville Symphony Society in conjunction with Arts2People has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at Symphony in the Park and allow for consumption at this event.

  Symphony in the Park will be held on Monday, September 3, 2012 from 1:00 p.m. to 9:00 p.m. within the boundaries Pack Square Park's Roger McGuire Green, Reuter Terrace, City-County Parking Lot, and Spruce Street between College Street and Court Plaza as per the area limits referenced on the accompanying site map.

- The Asheville Buncombe Youth Soccer Association has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at Chamber After Hours and allow for consumption at this event.

Chamber After Hours will be held on Thursday, September 6, 2012 from 5:30 p.m. to 7:00 p.m. within the boundaries of Azalea Park as per the area limits referenced on the accompanying site map.

- Asheville Greenworks has requested through the City of Asheville Development Service Center that City Council permit them to serve beer and/or unfortified wine at OrganicFest and allow for consumption at this event.

  OrganicFest will be held on Saturday, September 8, 2012 from 10:00 a.m. to 6:00 p.m. with all beer and/or unfortified wine contained to a beverage tent located within Pack Square Park's Roger McGuire Green as per the area limits referenced on the accompanying site map.

- Lend-a-Hand Foundation has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at the Asheville Citizen-Times Half Marathon & 5K and allow for consumption at this event.

  The Asheville Citizen-Times Half Marathon & 5K will be held on Saturday, September 15, 2012 from 5:30 a.m. to 12:00 p.m. along various streets with all beer and/or unfortified wine restricted to a portion of Otis Street, as per the event area limits referenced on the accompanying site map.

- Asheville Greenworks in conjunction with Run Amok Productions has requested through the City of Asheville Development Services Center that City Council permit the sale of beer and/or unfortified wine at the West Asheville Soapbox Derby and allow for consumption at this events.

  The West Asheville Soapbox Derby will be held on Saturday, September 29, 2012, from 12:00 p.m. – 5:00 p.m. on Seven Oaks Road between the intersections of Wilmington Street and Westwood Place, as per the event area limits referenced on the accompanying site map.

These actions have no direct connection with the City of Asheville Strategic Operating Plan.

Pro:

- Allows fundraising opportunities for Riverlink, Animal Compassion Network, YMI Cultural Center, Arts2People, Asheville Buncombe Youth Soccer Association, Asheville Greenworks, Lend-a-Hand Foundation, and Run Amok Productions.

Con:

- Potential for public safety issues

There is no direct fiscal impact related to the approval of this resolution.

City staff recommends City Council adopt the resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at RiverFest 2012, Dog Day Afternoon, the Goombay Festival, the Lexington Avenue Arts & Fun Festival, Symphony in the Park, Chamber After Hours, Organicfest, Asheville Citizen-Times Half Marathon & 5K, and the West Asheville Soapbox Derby.

Due to questions raised by Councilman Davis regarding the West Asheville Soapbox Derby event on September 29, it was the consensus of Council to remove consideration of that resolution at this meeting until further information regarding the event and location of the event can be obtained. It was also the consensus of Council, at the suggestion of Mayor Bellamy, to provide Council with a listing of how many events that have applied for the possession of alcohol at their events and if each of those events have a tie to Asheville.

**RESOLUTION NO. 12-164 - RESOLUTION BOOK NO. 35 – PAGE 8**

**I. RESOLUTION NO. 12-173 - RESOLUTION TO THE CHIEF OF POLICE AS THE ABC BOARD AUTHORIZED OFFICIAL TO MAKE RECOMMENDATIONS CONCERNING THE SUITABILITY OF PERSONS OR LOCATIONS FOR ABC PERMITS**

Summary: The consideration of a resolution to designate the Chief of Police as the authorized official to make recommendations concerning the suitability of persons or locations for ABC permits to the North Carolina Alcoholic Beverage Control Commission (Commission).

Pursuant to NCGS 18B-901, ABC permits are issued by the Commission. Before issuing a permit, the Commission shall be satisfied that the applicant is a suitable person to hold an ABC permit and that the location is a suitable place to hold the permit for which the applicant has applied. One of the factors that the Commission takes into consideration is the recommendation of the local governing body. Pursuant to NCGS 18B-904(f), the governing body may designate an authorized official, by name or by position, to make recommendations as to the suitability of a person or of a location for alcohol permits.

This item was reviewed by the Public Safety Committee and received unanimous approval.

This action aligns with the City Council's Strategic Operating Plan in the goal that Asheville will be one of the safest and most secure communities when compared to similar sized cities. By inspecting and regulating locations and persons for alcohol permits we enhance public safety.

Pros:

- Compliance with statutory regulations in permitting alcohol sales.
- Clearly designates the Chief of Police as the authorized official for the City of Asheville concerning ABC permits.

Con:

- None.

The Asheville Police Department recommends that City Council approve the resolution designating the Chief of Police as the Authorized Official for the City of Asheville to make recommendations as to the suitability of a person or of a location.

**RESOLUTION BOOK NO. 35 – PAGE 35**

## J. RESOLUTION NO. 12-174 - RESOLUTION AMENDING A HOUSING TRUST FUND LOAN TO MOUNTAIN HOUSING OPPORTUNITIES INC. FOR THE APARTMENTS AT THE GLEN ROCK HOTEL

Summary: The consideration of a resolution authorizing approval of an additional $167,000 in Housing Trust Fund financing to Mountain Housing Opportunities, Inc. (MHO) for the development of 22 one-bedroom apartments at the Glen Rock Hotel.

MHO has proposed a 22-unit multifamily rental development in the historic Glen Rock Hotel building on Depot Street. The site size is .66 acres and is currently zoned Urban Place with Conditional Use zoning. The total project development cost is $2,569,900. Through this project, 11 HOME units will be created, fulfilling the HOME unit commitment in the old East Riverside project. The amount of that grant ($235,000) is included in the project's sources of funds.

The Project was previously approved for funding in January 2012 as two separate loans, with more favorable terms being offered for the units rented below 60% AMI. The first loan in the amount of $165,500 was approved as a deferred interest-only loan at 2.00% interest with principal deferred for 20 years. This represented 75% of the total loan request at that time. Twelve (12) of the proposed units are proposed to be targeted to persons at or below 60% AMI. The second loan in the amount of $55,000 was approved as an amortized loan with monthly payments at 2.5% interest for 20 years. This represented 25% of the total loan request. Ten (10) of the proposed units will be targeted to persons at or below 80% AMI.

Staff has received a funding request from Mountain Housing Opportunities (MHO) for an additional $167,000 to complete the project financing. MHO has explored all available financing options and funding sources. In addition to City and County support, funding has been provided by Neighborworks America, the TD Bank Charitable Foundation, and Community Housing Capital. MHO will also provide a $125,000 developer loan and a $125,000 CDFI loan to the project. The additional funding requested by the developer will allow the project to begin construction. The terms requested are 2.50% interest-only with principal deferred for twenty (20) years. Approval of this request with special loan terms of interest-only financing requires an exception to our current policy. If approved at the requested amount, the new loan will bring the total HTF investment in the project to $387,000. The maximum aggregated loan amount under current guidelines for a project of this size is $200,000.

Staff analysis of the financial proforma suggests that that terms requested are necessary and reasonable due to the minimal cashflow that will be available for debt service after expenses. The Housing and Community Development Committee reviewed the request at their June 21st meeting and recommends approval at the requested terms based upon the financial need of the project.

The project proposal meets the funds' stated priorities in that 100% of the units will be one-bedroom floor plans. The first floor of the hotel (12,600 SF) will be developed commercially at a later time. MHO remains in negotiations with local grocers who may be interested in utilizing this space. The second and third floors (15,306 SF including common areas) will be adapted to residential use. The per-unit subsidy based upon the total aggregate loans of $387,000 is $17,590. The aggregate loan requests represent 15% of the total development costs. The total per-unit development cost is $116,814. The developer has provided a third party market analysis which reflects a capture rate of 4.5% for those persons seeking one-bedroom units. This would equate to a current market demand of 488 units, of which the project only needs to attract 22 tenants. Staff would note that units of this size (485-740 square feet) are relatively uncommon and comparable projects are not available by which to gauge the impact of the smaller floorplans on marketability.

The project is located in the East of the Riverway area, and is easily accessible to services, transit and employment. Two (2) of the units will be fully ADA accessible. The project

will be LEED certified. Success of previous mixed-use developments demonstrates sufficient developer capacity for this type of project.

The project directly supports the City's Strategic Operating Goals: (1) *Affordable*: The project proposal is supportive of the City's goal of providing safe and decent affordable housing units to the citizens of Asheville; and (2) *Sustainable*: The proposed project provides new housing units located near transit lines, higher urban development densities, and encourage higher standards of energy efficiency. The project also addresses the priorities of the Consolidated Strategic Housing & Community Development Plan by increasing the housing stock, providing affordable rental units, building high quality energy-efficient housing, and coordinating development with transportation and jobs.

Pros:

- Priority development area.
- Development team has been successful on similar projects.
- Financing commitments exceeding $1.5million have been received from non City-County sources.
- Urban location with easy access to employment, transit, and services.
- Energy efficiency with LEED certification
- Addresses the need for additional one-bedroom and efficiency units.
- Rehab and adaptive reuse of existing building.
- Catalyst for continued revitalization of a formerly distressed area.

Cons:

- Requested loan terms do not comply with current guidelines.
- Developer is relying heavily on City-County subsidy.
- There are no comparable projects by which to assess the impact of relatively small unit size on market demand.
- The City has a significant prior investment in the Glen Rock Apartments representing a substantial concentration of capital.

The current balance in the Housing Trust Fund is $470,848.07. No adverse fiscal impact is expected or anticipated. If approved, $303,848.07 will remain available to support other qualified projects.

The Housing and Community Development Committee recommends City Council approve a resolution amending the loan terms as previously authorized in Resolution No. 12 10 dated January 10, 2012, to Mountain Housing Opportunities, Inc.; and approving the following loans to Mountain Housing Opportunities, Inc at the terms stated: (1) $332,000 at 2.50% interest-only with principal deferred 20 years to Mountain Housing Opportunities, LLC for the development of Twelve (12) multifamily units at the Glen Rock Hotel on Depot Street; all funds to be made immediately available for disbursement following loan closing. These Twelve (12) units to be restricted to families earning 60% or less of the area median income; and (2) $55,000 amortized at 2.5% interest for 20 years to Mountain Housing Opportunities, LLC for the development of Ten (10) additional multifamily units at the Glen Rock Hotel on Depot Street; all funds to be made immediately available for disbursement following loan closing. These Ten (10) units to be restricted to families earning 80% or less of the area median income.

**RESOLUTION BOOK NO. 35 – PAGE 36**

## K. RESOLUTION NO. 12-175 - RESOLUTION AUTHORIZING THE CITY OF ASHEVILLE ACT AS LEAD AGENCY AND FISCAL AGENT FOR THE 2011-12 EMERGENCY SOLUTIONS GRANT PROGRAM

Summary: The consideration of a resolution for the City to act as the lead agency and fiscal agent for the 2011 and 2012 Emergency Solutions Grant.

The HUD Emergency Shelter Grant program is undergoing extensive changes. In prior years, agencies providing homeless shelter, outreach and homelessness prevention services applied directly to HUD for funding, primarily for operational costs for their programs. In Buncombe County, the following agencies and programs were funded last year: ABCCM Day Shelter, ABCCM, Steadfast House, Helpmate, Homeward Bound, AHOPE, and Salvation Army.

As the (now renamed) Emergency Solutions Grant, the program emphasis is changing from emergency and transitional shelters to rapid rehousing activities. Funding for Asheville and Buncombe County programs will be routed through the State of North Carolina, as opposed to directly through HUD. Instead of individual agency application, the State will require that each Continuum of Care (the City is the lead agency for the Asheville Buncombe CoC) submit one application detailing the use of funds for the coming year. The application deadline is August 13.

A total of $164,444 will be available this year to Asheville and Buncombe County. A supplemental FY 2011 allocation of $37,794 must be used for rapid rehousing. The FY 2012 allocation of $126,646 is available for both traditional purposes (limited to existing grantees) and for rapid rehousing. Per federal regulations, no less than 40% of those funds must be used for rapid rehousing, and the State has set that as a minimum, encouraging CoC's to do more.

The proposed City of Asheville role moving forward is for the City, through the Community Development Division, be the lead agency for the ESG program, and be the Fiscal Agent for the program as well. As lead agency, we would facilitate the application process to the state for the FY 11 and the FY 12 ESG funds, including facilitating the local recommendations for agency funding. As fiscal agent we would, upon receipt of the award, administer the grant by entering into contracts with the funded agencies, processing their request for draw downs, ensuring program compliance, and report to the State. This is the same role we play with CDBG and HOME funds, although we report directly to HUD for those funds. Some funds (estimated between $7,000 and $10,000) will be made available to the City for grant administration.

The Homeless Initiative Advisory Committee, the joint City/County advisory committee established to coordinate the 10 Year Plan to End Homelessness, has created a subcommittee to assist with preparing a community-wide application in this important transition year. None of the subcommittee members represents an agency that receives ESG funds, or that would receive ESG funds.

For funding decisions, our proposed process is that the Homeless Initiative Advisory Committee would make a recommendation to the Housing and Community Development Committee regarding individual agency funding. The HCD Committee recommendation would serve as an authorization to submit the final application, with their recommendation going to Council at the earliest possible time for final ratification

The project directly supports the City's Strategic Operating Goal of *Affordable*: The project proposal is supportive of the City's goal for all citizens to have access to safe, sufficient and affordable housing, by supporting initiatives intended to address homelessness with an emphasis on Housing First.

Pros:

- ESG funding is a key funding resource for emergency shelter, and is now becoming an important resource for rapid rehousing of persons experiencing homelessness;
- By acting as lead agency and fiscal agent, the City can assist homeless services providers by ensuring a coordinated and consistent application;
- By acting as fiscal agent, the City can ensure timely payment of grant funds to participating agencies and ongoing compliance with applicable state and federal regulations;
- We anticipate that the applications for future funding from HUD and the State will require a lead agency and fiscal agent, and this program gives the City specific experience in working with the State.

Cons:

- The application deadline was announced last week. Although we have been preparing for this, the deadline is very tight nonetheless, and does not coordinate well with Council's meeting schedule. This is the reason for designating the HCD Committee be authorized to submit the final application.

Program funding is entirely from the US Department of Housing and Urban Development. Existing community development division staff will administer the program. No general funds are requested to support this program.

Staff recommends that Council approve the resolution authorizing the City of Asheville act as lead agency and fiscal agent for the FY 11 and FY 12 Emergency Solutions Grant, and authorizing the Housing and Community Development Committee to approve the submittal of the regional application, to be ratified by City Council at its earliest opportunity.

**RESOLUTION BOOK NO. 35 – PAGE 37**

**L. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE HOUSING AUTHORITY TO FUND AND CREATE A PUBLIC HOUSING POLICING UNIT**

This item was removed from the Consent Agenda until the terms of the agreement are finalized, the fiscal analysis and performance measures are determined, and a budget amendment is ready for Council consideration as a new business item.

**M. RESOLUTION NO. 12-176 - RESOLUTION SETTING A PUBLIC HEARING ON AUGUST 14, 2012, TO CONSIDER AN ECONOMIC DEVELOPMENT GRANT FOR LINAMAR CORPORATION**

Summary: The consideration of a resolution authorizing a public hearing to be held on August 14, 2012, to consider an economic development incentive grant for Linamar Corporation.

Linamar Corporation is a world-class designer and diversified manufacturer of precision metallic components and systems for the automotive industry, energy and mobile industrial markets. The company located a new manufacturing facility in the former Volvo facility in the City of Asheville in 2011. The company is planning a $75,000,000 expansion on its South Asheville campus and has requested consideration for a performance based incentive grant under the City of Asheville Economic Development policy. The City of Asheville is considering offering a performance-based grant totaling $1,000,000.

North Carolina state law requires a public hearing be held before an incentive grant can be officially awarded.

The economic development incentive grant for Linamar supports the City Council's Strategic Operating Plan as it addresses multiple focus areas. Under the Job Growth and

Community Development focus area, the project supports the Goal of creating more collaborative and effective working partnerships between the COA, the business community, and other key organizations to effectively manage the city's regulatory environment while accomplishing economic development goals by meeting the objective to support diversified job growth and small business development. It supports the goal of supporting a strong local economy by continuing to implement sustainable growth and development policies by promoting sustainable, high density infill development that makes efficient use of existing resources.

Pros:

- Performance driven grant that is distributed after job and investment is achieved;
- Supports job creation and capital investment in manufacturing in Asheville;
- Supports development of an identified economic cluster in the City; and,
- Supports regional and state cooperation in the project.

Cons:

- Grant is formulated based on use of 75% of value of property tax revenue for a 5 year period.

The project has an overall positive fiscal impact on tax revenues received by the city. Initially (during the grant period), the City will receive approximately 25% of the new incremental property tax revenues from the project. After 5 years, the City will henceforth receive 100% capture of new city property taxes.

City staff recommends Council approve a resolution authorizing a public hearing to be held on August 14, 2012, on an economic development incentive grant agreement to support the expansion of Linamar Corporation.

**RESOLUTION BOOK NO. 35 – PAGE 38**

**N. RESOLUTION NO. 12 -177 - RESOLUTION AWARDING THE PROJECT KNOWN AS WILD CHERRY ROAD BRIDGE CONSTRUCTION PROJECT TO SADDLEBROOK CONSTRUCTION INC. AND AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT WITH SAME**

Summary: The consideration of a resolution authorizing the City Manager to execute a unit price contract (and all change orders in the amount up to a total contract amount of $580,000.00) with Saddlebrook Construction, Inc., in the amount of $463,711.44 for the project known as Wild Cherry Road Bridge Construction Project, Project # ENG-11-12-012.

In response to a Priority Maintenance Notification for Bridge Maintenance issued by the NCDOT Bridge Management Unit, a Request for Qualifications was advertised on October 28, 2011 by the City for a firm to analyze the status of the bridge and determine whether it was more prudent to rehabilitate or replace the bridge and to prepare a design of the selected course of action. The engineering firm of Mattern and Craig was selected for this undertaking. Their recommendation based on a Life Cycle Cost Analysis was to replace the bridge.

A formal request for bids for construction was issued on May 29, 2012; bids were received on June 14, 2012. There were a total of 2 bids received; not meeting the required minimum number of bids the project, per NCGS 143-132, was re-advertised on June 14, 2012. Bids were received again on June 22, 2012. Three bids were received with the lowest responsive bidder being Saddlebrook Construction, Inc., located in Pickens, S.C., with an amount of $463,711.44.

This will be a unit price contract and not a lump sum contract and is part of the City of Asheville's CIP program.

This action complies with the City Council Strategic Operating Plan of Fiscal Responsibility and Multimodal Transportation in that it will be providing infrastructure maintenance and increase the output of new sidewalks. This action will also address the Priority Maintenance Notification for Bridge Maintenance issued by the NCDOT Bridge Management Unit.

Pros:

- Updating a failing infrastructure item.
- Will be a step forward in meeting the City's Strategic Plan and CIP goals.
- Is listed as an identified need on the City of Asheville pedestrian plan.

Cons:

- Project management and contract administration will consume staff time and City funds.
- Temporary lane closures.
- The new construction will increase the maintenance load on the City.

The budget for this project was included in the approved FY 2011-12 Capital Improvement Program and is being financed with proceeds from the 2012 Limited Obligation Bond issuance. The $580,000 contract price is within the approved project budget.

Staff recommends City Council to authorize the City Manager to execute on behalf of the City of Asheville a contract with Saddlebrook Construction, Inc., in the amount of $463,711.44 for the project known as Wild Cherry Road Bridge Construction Project, and all change orders in the amount up to a total contract price of $580,000.00 to pay for unexpected items that might be uncovered.

**RESOLUTION BOOK NO. 35 – PAGE 39**

**O. RESOLUTION NO. 12-178 - RESOLUTION AUTHORIZING THE PURCHASE OF REAL PROPERTY ON CURVE STREET**

Summary: The consideration of a resolution to purchase real property on Curve Street for $1,000 that is bisected by Curve Street.

North Carolina General Statute sec. 160A-11 authorizes the City of Asheville to purchase real property. Parcel number 9648-68-5878 consists of .17 acres of property that is bisected by Curve Street, a City maintained street. Curve Street bisecting the property predates records detailing its creation, and the owner has approached the City wishing to sell the bisected property. Although the City has a statutory obligation and right to continue to maintain Curve Street without regard to the underlying property; obtaining the property will allow Public Works staff to clarify the Curve Street right-of-way for future maintenance clarity. City staff, including those from Legal and Economic Development, have researched the proposed purchase and found an equitable offer of $1,000 to which both sides are agreeable.

Pros:

- The purchase will clarify the status of Curve Street ownership for perpetuity.
- It will clear the books of an unused parcel of property.
- It is a mutually agreeable purchase.

Con:

- Uses operational funds to purchase property.

This action meets Council's goal on several fronts: It is a collaborative partnership to clarify a public good. A clarified street right-of-way will allow for future design potential should multi-modal transportation ever be an option for any future Curve Street redesign.

Other than the initial purchase of $1,000, there is no additional fiscal impact to the City of Asheville. The initial purchase will be absorbed in the Public Works budget.

Staff recommends that Asheville City Council adopt a resolution authorizing the purchase of parcel 9648-68-5878, consisting of .17 acres bisected by Curve Street.

**RESOLUTION BOOK NO. 35 – PAGE 40**

**P. RESOLUTION NO. 12-179 - RESOLUTION ACCEPTING SONNET LANE AS A CITY-MAINTAINED STREET**

Summary: The consideration of a resolution to accept Sonnet Lane as a city-maintained street.

Code of Ordinances sec. 7-15-1(f)(4)a requires that streets dedicated for public use be accepted by resolution of the City Council. The developer submitted a written request on May 7, 2012, asking the City to accept the subject street as a city-maintained street.

Sonnet Lane from Bassett Road to its dead-end is a developer-constructed street that has an average width of 20 feet with stand-up asphalt curb and 24-inch curb and gutter, a length of 0.18 mile, and a right-of-way width that varies from 25 to 32 feet.

Transportation Department staff and Public Works Department staff inspected the subject street and determined that it was constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual.

Following City Council's approval of this resolution, the subject street will be added to the official Powell Bill List.

This action complies with the current City Council Strategic Operating Plan within the Sustainable Focus Area by accepting street infra-structure to help support the healthy growth of the City.

Pros:

- The City of Asheville will receive Powell Bill Funds from the North Carolina Department of Transportation (NCDOT) to help maintain the street.
- The street provides access and connectivity in a residential community.

Con:

- Powell Bill Funds will not cover 100% of the total cost to maintain the street.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the street.

Staff recommends that City Council accept Sonnet Lane as a city-maintained street.

**RESOLUTION BOOK NO. 35 – PAGE 41**

**Q. ORDINANCE NO. 4099 - BUDGET AMENDMENT TO PURCHASE TWO VEHICLES TO SUPPORT OPERATION OF THE TRANSIT SYSTEM**

Summary: The consideration of a budget amendment in the amount of $56,250, from federal grant funding and Transit Capital Reserves, to purchase two vehicles to support operation of the transit system.

Transit Operations staff has identified the need to replace two support vehicles used to perform supervisory activities. Currently there are four vehicles available to perform supervisory activities including transporting drivers on a daily basis. The vehicles recommended for replacement have achieved their useful life of five years and will be replaced by two new SUV type vehicles. The SUV type vehicles will be a valuable asset especially during periods of inclement weather.

The City was granted funding through the annual apportionment, Section 5307 of the Federal Transit Administration. The annual apportionment is regularly used for capital items as well as operating and American with Disabilities Act's related expenses. Staff has secured a total of $56,250 to complete the subject project including a local match of 20% ($11,250). The local match will come from Transit Capital Reserves.

The project should be accomplished within the next three months.

This action complies with the City Council 2012-13 Strategic Operating Plan within the green and sustainable focus area by taking the City of Asheville's sustainability to the next level.

Pros:

- Replaces aged vehicles for more efficient ones which should generate savings in fuel consumption and maintenance costs
- Federal Funds will provide 80% of the total project cost, which equates to $45,000.

Cons:

- The total cost of the project is $56,250.
- The City's share of the total cost of the project is $11,250.

The total cost of the project is $56,250 including a 20% local match equating to $11,250. The local match will come from Transit Capital Reserves. After this allocation, there will be approximately $46,000 remaining in the Transit Capital Reserves.

Staff recommends that City Council adopt a budget ordinance amendment in the amount of $56,250 from Federal Funds and Transit Capital Reserve Funds to purchase two support vehicles.

**ORDINANCE BOOK NO. 27 – PAGE 408**

**R. ORDINANCE NO. 4100 - BUDGET AMENDMENT TO INCREASE THE ORIGINAL BUDGET FOR THE PURCHASE OF AN AUTOMATED VEHICLE LOCATION SYSTEM FOR THE TRANSIT SYSTEM**

Summary: The consideration of a budget amendment, in the amount of $225,000, from state grant funds to increase the original budget for the purchase of an Automated Vehicle Location system for the transit system.

On February 28, 2012, staff requested permission to apply for a FY 2013 Urban Advanced Technology grant. The Urban Advanced Technology grant is a biannual opportunity offered by the North Carolina Department of Transportation designated exclusively to provide funding for technology projects that would enable transit systems to improve efficiency in their operations and at the same time enhance the riders experience using transit.

The City was awarded $405,000 to acquire an Automated Vehicle Location (AVL) system with focus in the Real Time Passenger Information feature. The AVL system produces operational information in real time, which includes vehicle location, speed, fuel usage, on-time performance, and historical records. This information is a powerful tool to help manage the system and to identify areas needing improvement. It also enhances the customer experience by

providing next bus arrival information in real time, via personal cell phones, Smartphones and through the transit system's website. This project has been identified in the Transit Master Plan as a vital project to help improve the system's operation.

The FY 2011-12 adopted Transit Capital Projects Fund included a budget of $225,000 for the AVL system purchase, with $180,000 in funding from the state grant and $45,000 coming from the General Fund for the local match. This budget amendment will increase the total project budget by $225,000 to a new total of $450,000. Under the amended budget, the grant provides 90% of the funding or $405,000 and the City provides the 10% local match or $45,000, which was previously budgeted. This project should be completed in 24 months.

This action complies with the current City Council 2012-13 Strategic Operating Plan within the multimodal transportation and fiscal responsibility areas by funding system improvements that are in the long-term Capital Improvement Program and exploring alternatives for enhancing the city's long term financial commitment to master plan implementation, respectively.

The Transit Commission supports the subject action.

Pros:

- The acquisition of an AVL system is part of the Transit Master Plan implementation.
- The project will enable the City to improve the transit system's efficiency as well as the customer experience.
- The North Carolina Department of Transportation will provide funding for 90% or $405,000 of the project.

Cons:

- The total project cost of $450,000.
- The City provides the 10% local match or $45,000.

The total anticipated project cost is $450,000. The City is required to provide a 10% local match in the amount of $45,000, which was already included in the FY 2011-12 Adopted General Fund Budget.

Staff recommends that City Council adopt a budget amendment in the amount of $225,000 from state grant funds to acquire an Automated Vehicle Location system for the transit system.

**ORDINANCE BOOK NO. 27 – PAGE 410**

**S. ORDINANCE NO. 4101 - BUDGET AMENDMENT FOR 2012 LIMITED BOND FINANCING**

Summary: The consideration by City Council of a technical budget amendment to budget: 1) the $10,600,000 refunding component of the 51 Biltmore Parking Facility in the Parking Services Fund; 2) the $10,506,000 refunding of the 1997A and 1997C Certificates and the 2006 Contract in the General Fund; and 3) the $398,000 in execution and delivery costs of the 2012 Bonds in various funds.

On June 27, the City closed on its 2012 Limited Obligation Bond financing. The financing generated $43,448,000 in bond proceeds which are being used to: 1) finance various projects contained in the FY 2012 capital improvement plan such as streets, sidewalks, LED streetlights, City Hall and Civic Center renovations, vehicles and equipment and greenways; 2) refinance the 1997A and 1997C Certificates, the proceeds of which were used to finance and refinance improvements to various City facilities; 3) refinance the City's obligations under the 2006 Contract, the proceeds of which were used to finance two fire stations, vehicles and equipment;

4) refinance the City's obligations under the 2011 Contract, the proceeds of which were used to finance the construction of and improvements to the 51 Biltmore Parking Facility; and 5) finance the costs of the initial execution and delivery of the 2012 Bonds.

The financing was completed at a rate of 2.919% with a final maturity of 2032. The refunding activities generated cash flow savings (new debt service, including all costs compared to the old debt service) of $1,162,000 through 2021 – representing about $129,000 annually.

The FY 2012 budget contained debt financing appropriations for various projects included in the annual capital improvement plan and identified above. The budget, however, did not include appropriations reflecting the refunding components and costs of the transaction. The refunding components are comprised of $10,600,000 for the 51 Biltmore Parking Facility and $10,506,000 for the 1997A and 1997C Certificates and the 2006 Contract. The costs of the execution and delivery of the 2012 Bonds totaled $398,000 – slightly less than 1% of the total bond proceeds. This technical amendment incorporates into the budget the refunding components above and the costs of execution and delivery.

This action complies with the City Council Strategic Operating Plan goal of "Operate the City of Asheville to the highest levels of fiscal responsibility."

Pro:

- Amends the FY 2012 budget to reflect the various actions taken by the City Council beginning in December 2011 with respect to the 2012 Limited Obligation Bonds.

Con:

- None.

As noted above, the refunding activities generated cash flow savings (new debt service, including all costs compared to the old debt service) of $1,162,000 through 2021 – representing about $129,000 annually. The annual debt service payments associated with the 2012 Limited Obligation Bond Financing are included in the FY 2013 Adopted Budget.

City staff recommends City Council approve the technical budget amendment to budget: 1) the $10,600,000 refunding component of the 51 Biltmore Parking Facility in the Parking Services Fund; 2) the $10,506,000 refunding of the 1997A and 1997C Certificates and the 2006 Contract in the General Fund; and 3) the $398,000 in execution and delivery costs of the 2012 Bonds in various funds.

**ORDINANCE BOOK NO. 27 – PAGE 412**

**T. ORDINANCE NO. 4102 - TECHNICAL BUDGET AMENDMENTS FOR WATER CNG VEHICLES AND THE LAKE CRAIG (AZALEA ROAD) FLOOD MANAGEMENT CAPITAL PROJECT**

Summary: The consideration of two technical budget amendments to: 1) move the $56,524 budget for the water department's CNG vehicle purchases from the General Capital Projects Fund to the Water Capital Projects Fund; and 2) combine two previously approved project budgets for the Lake Craig (Azalea Road) Flood Management Project into one single project with a total budget of $4,163,239 funded by Senate Bill 7 and Sullivan Act proceeds.

*Water CNG Vehicles:* On August 10, 2010 City Council approved a budget amendment and accepted grant funds from the Department of Energy's Clean Cities Grant to upgrade a portion of the City's fleet vehicles to CNG. City Council subsequently amended the original CNG project budget on April 10, 2012 to accept additional grant funds. The current budget for the project, which is fully accounted for in the City's General Capital Projects Fund, is $482,227. From this amount, $56,524 was spent to upgrade water department vehicles to CNG. Staff is

requesting that Council approve a technical budget amendment to move this $56,524 from the General Capital Projects Fund to the Water Capital Projects Fund.

*Lake Craig (Azalea Road) Flood Management*: In a prior fiscal year, the City received grant funding through the Senate Bill 7 allocation for the Lake Craig Flood Management (Azalea Road) project. This funding, which totals $2,153,239, was budgeted in the City's Grant Fund. In addition, through a prior year annual budget appropriation in the General Capital Projects Fund, City Council approved the use of $2,010,000 in Sullivan Act funds for the Lake Craig Flood Management (Azalea Road) project. The technical amendment that staff is proposing combines these two separate projects into one single project with a total budget of $4,163,239. Due to the nature of the improvements being funded in this project, the single project budget will include appropriations in the General Capital Projects Fund, the Water Capital Projects Fund, and the Stormwater Capital Projects Fund. The allocation of the budget across these three funds may change once final construction bids are received, but the total project budget of $4,163,239 cannot be amended without Council approval.

This action complies with the City Council Strategic Operating Plan goal of "Operate the City of Asheville to the highest levels of fiscal responsibility."

Pros:

- Allows for more effective accounting and reporting of revenues, expenses and fixed assets.
- Aligns the budget with current accounting procedures.

Con:

- None.

These two technical amendments will have no net impact on the City's overall budget since all of the appropriations above have been previously approved by City Council.

City staff recommends City Council approve the two technical budget amendments to: 1) move the $56,524 budget for the water department's CNG vehicle purchases from the General Capital Projects Fund to the Water Capital Projects Fund; and 2) combine two previously approved project budgets for the Lake Craig (Azalea Road) Flood Management Project into one single project with a total budget of $4,163,239 funded by Senate Bill 7 and Sullivan Act proceeds.

**ORDINANCE BOOK NO. 27 – PAGE 422**

**U. ORDINANCE NO. 4103 - BUDGET AMENDMENT TO BALANCE REVENUE AND EXPENDITURES IN SIX OF THE 2008 PROJECTS IN ORDER TO CLOSE AND INACTIVATE THE PROJECTS**

Summary: The consideration of a technical budget amendment in the amount of $1,711,071.00 to balance revenues and expenditures in 6 of the 2008 Water Revenue Bond Projects in order to close and inactivate the projects.

In order to inactivate 25 older, completed capital projects, the revenue in six (6) 2008 Water Revenue Bond Projects (including Hendersonville Road, Central Business District, Pump Station / Mills River WTP Backup Generators, Valve Installations, and Fairview Tank / South Buncombe Pump/Weston Road) must be balanced. Specifically, the budget amendment reduces the revenue and expenditures budgeted in five projects by $ 1,711,071.00 million to match actual expenditures, and

Once these projects have been balanced via budget amendment, they can be closed as part of the City's annual year-end project close out.

This project is part of City Council's strategic plans to operate the City of Asheville to the highest levels of fiscal responsibility.

Pro:
- Approval of the technical budget amendment will allow six (6) of the 2008 Water Revenue Bond Projects to be balanced and closed in keeping with Generally Accepted Accounting Practices (GAAP).

Con:
- None.

The budget amendment is only a technical adjustment to balance revenues and expenditures in six (6) of the 2008 Water Revenue Bond Projects; therefore, it will have no additional impact on the Water Resources Capital Improvement Projects or Operating Funds.

City staff recommends City Council approval of a technical budget amendment in the amount of $1,716,871.00 to balance the revenue in 6 of the 2008 Water Revenue Bond Projects in order to close and inactivate the projects.

**ORDINANCE BOOK NO. 27 – PAGE 425**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda, removing from consideration Consent Agenda items D 1 and 2, H (9 - West Asheville Soapbox Derby event) and L. This motion was seconded by Councilman Pelly and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. ASHEVILLE POLICE DEPARTMENT FORENSIC INVENTORY

Mr. Michael Wright, Manager of Blueline Systems & Services LLC, provided Council with the following report, using photographs to illustrate his points:

"Blueline used applicable crime scene procedures in their work in the Asheville Police Department evidence facility. They first made photographs of the evidence condition in various parts of the property facility. A video tape was also made of the overall scene to show its condition before anything in the facility was touched. There are two systems in use to track evidence within the facility. The older system is a Microsoft access database (ACCESS). It covers the time period from 1980's through December 2005. The current system is referred as RMS. During the first few days of the inventory process, the Blueline staff set out to gain an understanding of the APD property and evidence storage system, floor plan and utilization of the various areas. It quickly became apparent that in some areas a readily-understandable and accurate system existed. In other areas a section of shelving or evidence would be encountered that had no understandable organization at all. Subsequently the location of an item described in the databases was rarely specific enough to narrow down exactly where an item might be located within the facility. It was decided that an independent location system must be created for the purpose of locating missing items and as a reference point for testifying the exact location of evidence, allowing the inventoried items to be located again for court, disposition or verification purposes and to facilitate future audits by the City or other entities. The only accurate and expeditious way to proceed was to design and implement an accurate shelf numbering system

and create three excel databases in which all items could be scanned in or manually entered. Considering the large size of the inventory, the difficulty of locating the items, and the state of the paper records, Blueline had to modify its plan procedures to make the best use of time and money allocated for the inventory.

"In the APD facility, 21,783 items are assigned a code ANBL which means not located in a bin. This contributes greatly to confusion in the facility and difficulty in locating items in a timely manner. Blueline has scanned (or manually entered) the following items from the two filing systems into three excel databases: ACCESS: 12,743 items; RMS: 22,793 items; and unidentified: 286 items for a total of 35,822 items. The location of those items are now identified by shelf and bin number. The fact that an item was not located does not rule out the item being found in the future in an area of the facility not yet scanned. The total items that the RMS systems shows to be on hand is 31,731. The ACCESS database system lists 80,039 items which have been entered since the start of computerized recordkeeping. 26,679 items do not show any disposition in the system. 204 items show a status of being at the SBI (some or most may have been returned). 2,150 items listed as status -0- (it is unknown what this code means).

"Selected items were given a complete examination per the contract. The items in the high risk facility (guns, drugs and cash) were completely scanned for inventory and location purposes. Specific items of evidence were located and completely examined for the purposes of verifying the integrity of the grand jury case evidence from a January, February, March and April of 2011 grand jury sections. Blueline prepared approximately 68 discovery trial-ready packages for grand jury cases and isolated them on shelves and carts. Blueline prepared a binder of grand jury cases and delivered it to the district attorney. Fourteen bankers boxes of currency envelopes were found in the back of the auction destruction room marked "school fund." Much research will be required in the future by APD or some other entity to find the legal status of these currency envelopes. They are marked "school fund" but there is no attached documentation to show what cases or court orders might of assigned those to the school fund. Many items show a disposition of destroyed, yet they are still on the shelf. About 75% of the facility had no shelf numbering system, so it was difficult to describe where anything might be.

"Lack of document scanning and filing has allowed large numbers of dispositions to accumulate on the desks and shelves in the outer offices of the property and evidence facility. Thousands of pages of property reports, dispositions and correspondence have never been filed. There are also 10-15 file cabinets in that facility full of papers that are in various states of organization. The Blueline staff dictated and created an index directory of the numbered box or bin locations in the various sections of the facility, as there was no directory to tell an outside party where anything might be there in the past. Blueline performed a partial organization of seven boxes of paper files from past years which were found in the auction and destruction room.

"Blueline found large quantities of evidence stored on the floor and blocking doorways and isleways and in several areas in the facility the inventory had overflowed the shelving and was piled in the aisles and floors. Blueline had the City of Asheville bring in two 20-foot long containers for storage and constructed 10 metal shelf sections for organizing evidence. As we encountered this evidence, as we removed it, we inventoried it and then indicated in our records where its new location is.

"Blueline prepared a floor plan drawing to show existing and new shelving and area numbers. The drawing is color-coded to show the areas scanned in yellow and the areas yet to be scanned in green. We have indicated where all the new shelf numbers are on this floor plan so future occupants of the room can find where the shelf numbering system is. Blueline did not make any entry into the new property room area. Their work was restricted to the old property room area. They have completed approximately 75% of the shelf space and there is probably 25% left for the City to inventory. Also all of the evidence in the two 20-foot long containers came out of the isleways and corners and general work areas. There is now almost nothing left on the floor, so if there happens to be a flood, the evidence would not be damaged.

"Blueline identified a number of questioned-item packages and referred them to the State Bureau of Investigation. Blueline has worked with and continues to work with the SBI investigators and with the district attorney and staff. In order to draw an accurate file of conclusion, the questions about whether or not cash, drugs or firearms are missing from the facility, thousands of paper documents of hand-written lists may have to be located, examined, entered and reconciled with a specific piece of property in two computer systems.

"We made many detailed and specific recommendations that are in the report that is filed with the district attorney but the recommendations that City Council needs to be concerned with is that the existing paper filing system is not consistent from year to year and the files need to be organized, re-sorted, analyzed and verified and aggressive and continuous purging policy and program must be implemented to get the inventory of the facility under control and to prevent the inventory from outgrowing the storage capacity. Since items of critical importance were found throughout the facility, the entire facility must be scanned and searched in order to definitely state that an item is missing. The evidence from the new evidence facility cannot be combined with the evidence from the existing facility until sufficient purging has occurred to allow the new evidence to be stored separately and until such time as the district attorney and SBI have reviewed the facilities and approved the plan for combining the facilities. It is the recommendation of Blueline that the City employ a minimum staff of 4 persons, and preferably 6 persons, dedicated to restoring the old property room to proper order. We believe it could take two years to accomplish the following tasks: complete the inventory; file and organize and research the existing paperwork; verify and update the computer records; research and purge the existing inventory by the following actions: (a) return the items to the owner if appropriate and possible; (b) research and carry out the orders of the court and the district attorney, if any; (c) auction off and destroy items as required; and (d) preserve and retain evidence involved in an existing or unsolved case. To prevent a reoccurrence of any of the problems which have plagued the old property room, Council should see that the Police Department has adequate staff, resources and facilities to operate the new property room in accordance with nationally accepted standards. The recommended staff level for the new property room is 4-6 persons. Considering both property rooms, that would be a total staffing level of 8-12 persons and all property and evidence staff should receive specialized training in property and evidence management and in software. Blueline has performed the work in the APD facility with an eye for the future laying the foundation for a system which will make future internal audits, purging and operational issues more accurate and efficient. Blueline staff will be available for a transition period when the new property and evidence staff transitions back into the facility to familiarize them with the new computer system, document management functions and shelf-numbering layout.

"Blueline received excellent cooperation and logistical support from APD and the City of Asheville staff and has received excellent support from the Buncombe County IT and CJIS staff in hardware configuration and the development of a specialized software application. This application can be used for APD's internal audit process in the future."

Mayor Bellamy said that it is appalling to look at the situation in the evidence room. Our police officers work hard and to put their hard work in the evidence room in that situation is disheartening. She hoped Council would support her by giving the Police Chief the tools he needs to be successful in creating an evidence room that we can all have faith in and support.

When Councilman Bothwell asked if the mishandling has been consistent, Mr. Wright said that at certain periods of time the handling was perfect and at some times the handling was not so close to the standards. It basically runs to different areas of the facility rather than to either one of the software systems. One thing that contributes to it is the fact that evidence is collected 24/7 and occasionally after a major crime or an event with a lot of arrests a bulk of evidence comes in and overwhelms the staff. Also, another thing that contributes to this is it's hard to purge the evidence. Purging is not an easy process. You can bring a piece of evidence in five minutes but to get rid of a piece of evidence you have to research the state court records, which

are in no way computer linked with any local agency records, and the state uses different case numbers to refer to the property. If a person is arrested and property is taken, they may be arrested several times over a few months and have property under his name under several arrests. Those cases might be consolidated for judgment. When the orders from the court come over, they simply state the case involving that person has been adjudicated and the evidence may be destroyed or released. It then turns into a research project for the staff to research what pieces of evidence might be associated with that. There is also a danger that the evidence might be associated with another defendant – if two people were in a call and robbed a store and the gun is involved in both cases. If one case is adjudicated, it's possible that the gun could be released or destroyed without being linked to the other case. Some software work needs to be done and a committee of the stakeholders at the Police Department, the court system, the DA's office and the City, County and State IT people need to work together to establish a system that makes purging evidence more straightforward.

When Councilman Bothwell noted that Blueline paid particular attention to the more serious items (guns, drugs and money), he asked if those items were in better or worse disarray than other evidence. Mr. Wright said that they were about the same as the rest of the facility. He said those types of things are more densely packed. The areas Blueline has already completed are your densely packed areas. Those are areas that there are hundreds of envelopes in a box. In the areas that are not scanned yet, there are a lot of bulky items, like a bed pillow wrapped up in brown paper, or a cash register from a store, or a tire, etc. He believed Blueline has made contact with most of the evidence because the items in the area they were unable to get to during the term of the contract are more bulky materials, not to say there couldn't be something of value in that area. The bulk of the evidence has been handled. In the auction destruction room, a full examination, either by Blueline or by the SBI with their assistance, was conducted of a good portion of the evidence in that facility. They worked with the SBI for approximately 100 hours since this was completed.

In response to Councilman Hunt when he asked if the new and old evidence rooms could be merged after the old property room is brought up to order, Mr. Wright replied that they can. He said that if the recordkeeping in the old room is brought up to code and is accurate there is no reason evidence couldn't be handled in one facility. In informal talks with the new evidence room staff, he believed that they have overcome most of the problems. One thing that also contributed to confusion in the old evidence room is the duplication of numbers. City staff has assured his that they have corrected that in the way they are using the software now in the new evidence room. However, there is a duplication of numbers between the two systems, and that has contributed to some confusion in previous internal audits.

Councilman Pelly said that there has been a lot of pressure on City Council to direct the district attorney t release the results of the finding, but what he understands from this report is that this audit is still not complete. Mr. Wright said that was correct. He said the City authorized $175,000 for the audit. When they approached that deadline they waited until someone let them know how they want to proceed. It was decided that the City continue the rest of the audit. We were informed to keep custody of it for while until the SBI decided how they were going to proceed and until they had finished their investigation. At some point we handed it back over to the City. Blueline gave the new property room staff about ½ day of orientation and they are available for more orientation if needed. If the City would like Blueline to complete the task, they could do that with another contract negotiation or the City could finish it.

Mayor Bellamy noted that Police Chief William Anderson took office on March 1, 2012, and had no part of this process but he inherited it. When she asked what the process is going forward, Chief Anderson said we are advertising for a new property manager and should have that person on board near the end of August. As far as the old property room, it was turned back to the APD's custody. Basically that room is still sealed with the exception of having to go in there to retrieve evidence for court cases. We have suspended all disposal of any item until we have a chance to review the audit and the new property manager is on board. We will have to

start from scratch and touch every single piece of evidence in both the new and old property rooms. We will go through the entire rooms, re-organize, catalogue items, and follow-up on the recommendations of Blueline. We will work with the DA's office to establish clear policies when it comes to the disposal of evidence.

In response to Mayor Bellamy, Chief Anderson said they will be looking at a total redesign of the room, how evidence is collected and stored in what areas, and the whole process for cataloging and retrieval. They will be working with the International Association of Property Managers. The President of that Association came to Asheville, looked at their facility and will be providing recommendations. All of it will be reorganized.

When Mayor Bellamy asked for a timeline for completion, Chief Anderson said they will start as soon as the new property manager is hired. The estimate of two years is on the conservative side. He felt it would take longer than that to go through that room and completely do what we need to do to get it in proper prospective, as it should be. We can initially start, but we need to keep in mind is that in order for us to establish creditability and to ensure that this operation is operating in a manner that it should, we will touch every piece of evidence again. That will take some time.

In response to Mayor Bellamy, Chief Anderson said that one of the delays that we may keep in mind is that in order for us to move forward in getting the new property manager in place, we really need to see the audit that is in the custody of the DA. We need to look at all the recommendations in that audit and look at exactly the findings that Blueline identified. That basically will be the roadmap to take us where we need to go.

Mayor Bellamy said that one way the Council can help in this process is for City Council to write a letter requesting the audit in order to help Chief Anderson complete this task.

Mayor Bellamy asked for a quarterly update on the progress of the evidence room. City Manager Jackson said that a separate update will be given during the quarterly reports.

Councilman Bothwell noted that the state court system uses a different numbering system and suggested that as part of our legislative agenda next year to ask that the legislature fix that system for the entire state. This is not just Asheville's problem. Chief Anderson responded that this is something they can look at with the DA's office. We have already entered into discussions about how we can streamline the system and come up with a more productive system to where maybe those two case numbers can be combined. We are also looking at the destruction process of how we can be on the forefront of getting rid of some evidence instead of having it stored for a long time in the evidence room. We have already started discussions with the DA's office on how to fine tune some of these issues.

In response to Councilman Hunt, Chief Anderson said they will look at the inventory system established by Blueline and see if that system is what we need to accomplish the goals of getting this room back on track. Regardless of what system we use, we will have to go through every piece of evidence and work with the DA's office to issue destruction orders for items that need to be discarded. The work that Blueline has done has been very helpful.

In response to Councilman Smith, Chief Anderson said that when a piece of evidence comes in, it is logged into evidence and then taken by the evidence custodian to be stored in the new property room. In the new evidence room we have 6 officers, although 3 are returning to road duty, which will leave us with 3 officers and a sergeant assigned to the property room. All employees who were present when problems were on-going are not still employed with the Police Department. Any prosecutions are up to the DA's office. Basically, he has been told by the DA is that audit has not been released because of the ongoing SBI investigation. The DA has not indicated one way or the other where there is any case in jeopardy.

In response to Councilman Smith, Chief Anderson said that part of the discussions with the DA's office is the purging system and how we can streamline it and make it more efficient.

In response to Councilman Bothwell, Mr. Wright said regarding the thousands of loose papers, he recommended the City contract with some document management expert company to see if there is an optical character recognition that can pick up on the words. Most of those documents are hand written and some are in carbon paper form. They will be difficult to deal with. If an item is missing out of the evidence room, it might have been released and there could be a form filed in one of those cabinets that is not in order. The document management function is almost a separate problem.

Mr. Wright said that the International Association for Property Evidence recommends that most of your property management systems be able to export the data in a CSV format. Blueline has put this in that format so it can be imported. The City's software is made by Sungard OSSI. Sungard OSSI for a fee can write a special program to make it work on a customized basis for the particular situation. He neglected to mention that there is a field on the existing software that he didn't think was being using in the distant past, but since this problem came to light there has been some effort to have the magistrates and the APD officers coordinate that case number at the inception of the case. Some progress may have been made in that area. Another thing, when things go to district court hundreds of cases are disposed of a day and the ADA and the Court Clerk may not know there is evidence (may be a backpack the defendant had when arrested but did not pick up when released) in the case and no order is every issued by the Court to deal with that evidence. That needs attention also. If you can deal with the massive flow of evidence and get it moved out in a timely manner that would prevent it from outgrowing the facility.

In response to Councilman Davis, Mr. Wright said the sensitive parts are done. He thought the SBI is satisfied that the Police Department could take the evidence room back over. The APD can certainly finish this and Blueline can train them how to do it. The software system Blueline put in place is not a permanent total fix. The software package the City has is perfectly capable of managing the entire operation, it's just a matter of the fact that since incorrect information was put into it to begin with, or no information was put into it about the disposition of some items, and since the shelves were not numbered, we had to have a specific way of finding those things. Since items were placed in there with a description of "main room" with no bin location, a lot of search time would be involved in finding it. The only efficient way to proceed was to number the shelves, number the cardboard boxes and scan everything in there.

In response to Councilman Davis, Mr. Wright said that the APD is capable of assembling the vest old inventory to be disposed of (most expeditious way is to take one shelf at a time), research each item, ask the DA to sign off that they are ready to be disposed off and potentially a court order might have to be signed.

When Councilman Davis asked if there was any way of expediting the process of getting personal property back to victims of crimes, Chief Anderson said that would be part of the disposal process. There are two types of property – property found or property turned in with no connection to a criminal case. We can review those and make every attempt to locate the owner and dispose of those items we can't locate an owner. Evidence that is tied to a criminal case, we would have to research that evidence and those cases we may need to get a court order.

When Councilman Hunt asked if some of the recommendations would affect our current operating budget, City Manager Jackson said we are currently staffing two property rooms now and hope to be able to scale that down once we merge the two rooms. We still have the investments in the software system and the renovation and redesign of the building. Chief Anderson agreed and said that once we get the new property manager hired and evaluate the process, they will make a determination as far as staffing, but they expect to do that within their existing numbers.

Mayor Bellamy suggested contracting with City Clerk Maggie Burleson as she has extensive experience with documents that need to be scanned and indexed in an efficient and effective manner. Over the years she has done that for the City's history. As you look at a plan to get those documents in order, she felt she would do a wonderful job.

At Mayor Bellamy's suggestion, it was the consensus of Council to instruct the City Attorney to draft a letter requesting the District Attorney recommendations based on the information received from Blueline regarding future management practices for the police evidence room.

When Mayor Bellamy asked if Ms. Leann Melton, Buncombe County Public Defender, would like to speak, she said that because she has a pending case now, the Rules of Professional Conduct prohibit her from making any specific comments.

Vice-Mayor Manheimer clarified that what is going on presently is we have a streamline intake procedure now for all currently occurring cases and we have a new evidence room. What we are talking about here is all of the evidence that exists for prior cases which most cases have probably been disposed of. There may be a few still pending and those are the very important ones where cataloguing all this evidence is imperative so that the integrity of the evidence can be maintained for the handling of those suits. It is a two-part situation where we have evidence concerning past cases and then the current in-take procedures. She wanted to make it clear that this is absolutely and completely addressed for anything that has recently occurred and going forward and we are talking now about how to finalize the clean-up of the past cases and evidence that pertains to them.

Vice-Mayor Manheimer also clarified that the section of the evidence room where there are funds designated for the school board. In North Carolina, fines must be remitted for funding of the school system. She felt that's why there would be funds designated in that way.

On behalf of City Council, Mayor Bellamy thanked Mr. Wright for his informative update and his services on behalf of the citizens of Asheville.

**B. REVIEW OF LAND USE INCENTIVE POLICY**

Community Development Director Jeff Staudinger said that in March of 2011, City Council adopted a Land Use Incentive Policy that provided incentives "to encourage development projects that fulfill important public purposes... directly addressing annual strategic goals set by Council. It offers discretionary approval of incentives that Council may choose to grant projects they believe best achieve their goals." Council directed that the Policy be reviewed one year after its adoption.

In the one and a half years since the policy was initially approved, two applications for the Land Use Incentive Grant have been received and approved. One of the projects is nearing the end of construction; the other has not begun construction.

The existing policy has been reviewed and discussed by the Housing and Community Development Committee, the SACEE Committee, the development subcommittee of the Riverfront Redevelopment Commission, and others. Generally, these groups agree that most elements of the existing policy, without evidence to the contrary, should remain in place until a larger review of policy direction regarding land use incentives occurs. Some short term suggested changes are:

1. Include certain additional major routes- such as Swannanoa River Road from Hendersonville Road to Tunnel Road- as eligible areas for the incentive.

2. Target other areas strategically chosen for development or redevelopment- The River Arts District, for example.
3. The HCD Committee suggests that staff develop a proposal for extension of the LUIP to targeted areas that are related to the bicycle and pedestrian master plan, and other relevant master plans.
4. Use information developed by The Center for Neighborhood Technology, in their report Location Efficient Affordable Housing for a More Sustainable Asheville, to additionally identify "location efficient" areas in Asheville.
5. Assign Brownfield Redevelopment a higher point award to strategically target incentives for the redevelopment of these parcels.
6. Staff provide a cost-benefit analysis to determine the relationship between the allowable grant under the policy and the costs of providing City services to the proposed development.

More importantly, the review of the Land Use Incentive Program leads staff to consider the larger question of incentives and development. Questions include:

- What growth, in what locations, can be spurred by incentives?
- What are the specific outcomes sought by the City in its growth strategies?
- What incentives have proven successful in creating desired growth outcomes?
- What incentives are already available? Are they effective? Are they transparent, manageable, accessible?

Staff recommends that continued revision of the Land Use Incentive Policy, to reflect priority development areas as determined by Council, be made as needed; and that the staff review of projects for Council consideration include a cost of services estimate as part of the fiscal impact review.

Staff proposes to develop additional information for Council to consider regarding development incentives, for presentation at a later date.

Mr. Staudinger responded to Councilman Hunt regarding the medium area income vs. average wage pay.

Councilman Smith hoped that as the credit markets loosen up, they will see this is a very useful tool. Some short-term suggested changes, he would be in favor of learning more about those so we can continue to adjust to them. He was also interested, at some point, to re-visiting some of the density issues in residential areas.

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING HUNTER APARTMENTS, LOCATED AT 25 & 27 WASHINGTON ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING TO ALLOW FOR THE REMODEL OF TWO EXISTING RESIDENTIAL STRUCTURES INTO TWO DUPLEX STRUCTURES FOR A TOTAL OF FOUR APARTMENTS

Urban Planner Julia Fields said that this public hearing was continued from June 12, 2012, and that this is the consideration of an ordinance to conditionally zone Hunter Apartments, located at 25 & 27 Washington Road from RM-8 Residential Multi-Family Medium Density District to RM-16 Residential Multi-Family High Density District/Conditional Zoning, to allow for the remodel of two existing residential structures into two duplex structures for a total of four apartments. This public hearing was advertised on June 1 and 8, 2012.

City Attorney Oast said that a valid protest petition has been filed, thus requiring a three-fourths vote of City Council to approve the rezoning of the property.

Ms. Fields said that Ervin and Barbara Hunter, owners/petitioners, through their agent David Straub, have submitted an application for conditional zoning for the property located at 25 and 27 Washington Street (corner of Washington and Broad). The request is for rezoning from RM8 (Residential Multi-Family Medium Density) District to RM16CZ (Residential Multi-Family High Density Conditional Zoning) District to allow for the creation of four dwelling units in two existing residential buildings on the property. One of the dwellings is a three story structure (27 Washington Road). The other (25 Washington) is a two story structure.

The property, .33 acres in size, has by all indications been used for apartments in the past although the buildings have been vacant for some time. Meter account records obtained from Progress Energy and dated August of 2011 confirm that there were six meters on this property at that time. Proposed renovations to the buildings were begun approximately sixteen months ago without permits being obtained by the building contractor. The City issued stop work orders and the applicants now wish to proceed to make the apartments conforming, working with a new contractor. RM8 zoning would only allow for two units on the property. The conditional zoning is necessary to allow for four units. While not proposing to come under the City's affordable housing programs, the rental price points planned for the units are comparable.

A mix of uses is found in the area around Washington Road and Broad Street. Offices, institutional uses, and single-family and multi-family residences are all found in close proximity to 25 and 27 Washington Road.

A modification to the side setback on the southern property boundary is needed. One of the existing structures extends two feet into the required six foot side setback. Because the structures are existing staff is supportive of this request.

At a meeting on April 16, 2012, the Technical Review Committee reviewed and approved with conditions the conditional zoning application. The applicant has resubmitted since that time and addressed many of the comments.

On May 2, 2012, the Asheville Planning and Zoning Commission reviewed this application and voted 5-2 to recommend it for approval. Concerns were expressed by several area residents related to occupancy (duration and numbers) and management of the property. Since that time Mrs. Hunter and representatives working with the Hunters on this application met with neighborhood residents and property owners to discuss their concerns.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The project, if approved, must meet all the technical standards set forth in the City's Unified Development Ordinance and Standards and Specifications Manual with regard to public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   There are no significant natural features on the site that warrant mitigation. The buildings being rehabilitated are existing buildings.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
   The buildings being rehabilitated for the apartments previously contained multiple units. The buildings are in disrepair and the proposed improvements should positively impact property values in the area.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
   The buildings being renovated are existing buildings and very much in character with other residential structures in the vicinity. There are a number of larger office and institutional uses in close proximity as well.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
   This development supports the goal of promoting adaptive reuse of vacant structures while ensuring that neighborhood compatibility is met. It also supports the goal of producing affordable housing in convenient locations. Additionally, it supports Council's objective of creating affordable rental opportunities and the objective of promoting sustainable, higher-density, infill growth that makes efficient use of existing resources.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
   The proposed use is in a location convenient to transit routes and employment/business centers. TRC indicated no issues with service provision at the meeting on April 16.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
   Only four units are proposed in this development.

Pros:

- The proposed development meets a number of Council objectives and goals established in the comprehensive plan.
- The proposed development renovates two dilapidated structures.
- The suggested price points for the development are comparable to those established by the City for affordable rental housing.

Con:

- The development will contain two units more than would be allowed under the current zoning.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable with the conditions listed as follows, and with the setback modification requested. At a meeting on May 2, 2012, the Asheville Planning and Zoning Commission voted 5-2 to recommend this application to you. (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10 of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with this ordinance, will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; and (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards.

Mayor Bellamy opened the public hearing at 6:48 p.m.

The following individuals spoke in support of the conditional zoning for various reasons, some being, but are not limited to: applicant did not know their contractor did not have a license to do the work until they received a Notice of Violation from the City; applicant is in the process of trying to get the houses fixed up; property manager has formed a team of an engineer and builder to rehabilitate the houses so they can become a viable part of the community; the applicant wants to build four units of affordable housing; the project will be costly and the applicant is willing to invest in the property; the applicant is currently taxed almost $5,000 a year letting it sit there; need for more affordable housing; the applicant has demonstrated good faith in repairing the stabilizing the wall; the applicant is willing to spend money to fix the houses which are eyesores, abandoned and dilapidated which will in turn bring in a return on their investment; and if the property is not conditionally zoned the neighborhood will be stuck with the dilapidated houses:

Ms. Barbara Hunter, applicant and owner of 25 and 27 Washington Road
Ms. Lisa Roberts Allen, property manager for 25 and 27 Washington Road
Pastor Victor Burgin
Mr. Dave Smith, representing the firm which was retained to provide repairs to the existing all, a site design to meet the City's standards and rehabilitation plans to restore the homes
Ms. Sophie Dixon
Mr. Brian Anderson
Mr. Saul Chase, Broad Street resident
Ms. Claudia Tucker, West Chapel Road resident

The following individuals spoke in opposition of the conditional zoning for various reasons, some being, but are not limited to: applicant should fix the houses back to what they were – single family homes; the neighborhood is threatened by commercial sprawl; the homes might be converted into another low income group home which they already have in their area; the houses have been inhabitable for years with only pigeons and rats living there; request for more single family homes with young children; present zoning already allows for the appropriate use of these properties; property owners have demonstrated by past practices that they are not capable of managing these properties as multi-family units; neighborhood has no confidence that the current property owners can properly complete the proposed restoration and they have no confidence that the project would thereafter be managed properly; RM-16 zoning is not appropriate on the corner in this neighborhood; and the property has been dilapidated for 20 years and the property owners have not taken care of it:

Rev. Christopher Chiaronmonte
Mr. Paul Conrad, Broad Street resident
Ms. Kate Fisher, Madison Avenue resident (presented Council with a petition containing 38 signatures)
Mr. Jim Siemens, Washington Road resident

Mayor Bellamy closed the public hearing at 7:18 p.m.

In response to Councilman Hunt, Ms. Fields said that the conditional zoning is for apartments and not a group home. A group home would need an entirely separate permit and they would have to undo the conditional zoning. She believed what is in the area are family care homes, which are small homes addressing a lot of the same kind of issues as family care homes. Per state law, family care homes are allowed in every residential district. Assistant Planning & Development Director Shannon Tuch explained the differences between a family care home and a group home. It is possible that one of these units could become a family care home if it complied with all the other standards and one of the primary standards that we have is it has to be 600 feet from another family care home.

In response to Councilman Bothwell, Ms. Tuch said that if the lot line were changed from one lot to two, there could be two single-family homes each with an accessory apartment.

In response to Councilman Pelly about off-street parking, Ms. Tuch said that per the Unified Development Ordinance (UDO), the requirement for off-street parking is based on the number of bedrooms. However, this property is within ½ mile of the Central Business District which doesn't require any off-street parking. What is shown complies with our minimum standards.

Ms. Fields responded to questions raised by Councilman Pelly regarding the zoning prior to the UDO which was adopted in 1997.

In response to Councilman Pelly, Ms. Fields said that with conditional zoning, you have to start construction work within two years or it reverts back to the previous zoning. They would have to get permits and initiate work. Once they get permits there are all kinds of triggers for maintaining that permit based on continuing work.

Mayor Bellamy confirmed that one structure looks like it had 2 units in it and the other structure is a single-family house. Ms. Fields said that the applicant is applying for 4 units: two units in one structure – one with four bedrooms and one with two bedrooms; and two units in the other structure – both with two bedrooms.

Councilman Smith agreed that the house is dilapidated. Because it is a diverse neighborhood, room behind the house for parking, nice new retaining wall, multi-family across the street, and close to downtown he felt this sounds like a great candidate for the kind of infill that we are looking for, especially since the property owners are seeking grants to ensure that this will be affordable housing. He felt the neighbors are concerned that if this moves forward, there will be the kind of management that they can be confident in and uphold the neighborhood.

In response to Councilman Smith about how the property will be managed, Ms. Roberts-Allen said that she would be managing the property. They will be adhering to the normal lease requirements and running background checks. They will make sure that the people who live in the units will adhere to the community.

When Councilman Smith asked what would happen to the property should Council not approve the conditional zoning, Ms. Roberts-Allen said the property will continue to sit as it is. She said that when Mr. and Mrs. Hunter invested in the property there were 5 or more units. They were rented on a continuous basis. Mr. Hunter then got sick and they were not able to do anything with the property. They have now complied a team to make the property a benefit to the neighborhood.

When Councilman Smith asked if the builders be amenable to limiting the construction to four units, Ms. Roberts-Allen replied yes. She said they will limit the non-related tenants to 3, not 5.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4104, to conditionally zone Hunter Apartments, located at 25 & 27 Washington Road from RM-8 Residential Multi-Family Medium Density District to RM-16 Residential Multi-Family High Density District/Conditional Zoning, with the requested setback modification, to allow for the remodel of

two existing residential structures into two duplex structures for a total of four apartments, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10 of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with this ordinance, will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application; and (6) The number of units be limited to four. Any deviation from these plans may result in reconsideration of the project by the reviewing boards. This motion was seconded by Councilman Hunt.

City Attorney Oast said that if the property is rezoned, the rezoning follows the property. Council needs to make their decision based on appropriate land use consideration and not on the basis of who may be operating the facility. Also information was presented that if the rezoning is not grant, the project will sit vacant. He did not think Council should consider that information in making their decision.

Councilman Davis expressed concern with the valid protest petition. He recalled when the RS-8 zoning was restored to the area. There are certain things zoning protects and even as we strive for greater density it is already a fairly dense neighborhood. He felt the property will have value if restored to its prior use.

Councilman Pelly didn't take the petition filed lightly and understood the concerns of the neighborhood. At the same time he sees a proposal to renovate two houses on their existing footprints. As a Realtor, he knows that abandon houses depress surrounding property values and a renovation will raise values for the entire neighborhood and get rid of an eyesore. This was previously multi-family housing with a higher density zoning prior to adoption of the UDO.

Vice-Mayor Manheimer is familiar with this neighborhood and sees the struggle where every other house is a single family home and then rental properties and some family care homes. She is concerned that this application is caught in the cross-fire of what is really the problem and that's the issue of the family care homes, which have a high level of legal protection that City Council can't address. She was concerned that if we move this into a multi-family rental that we may impact the trajectory of this neighborhood recovery. On the other hand, people have moved into the neighborhood where there are clearly commercial uses throughout the neighborhood. If Council does not approve the conditional zoning, she hoped there would be some effort to find some other remedies to get the properties fixed up.

Due to a valid protest petition, the motion made by Councilman Smith and seconded by Councilman Hunt failed on a 5-2 vote, with Vice-Mayor Manheimer and Councilman Davis voting "no".

At 7:48 p.m., Mayor Bellamy announced a short recess.

**ORDINANCE BOOK NO. 27 – PAGE 428**

**B. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING FOR WHITE OAK GROVE APARTMENTS LOCATED AT 275 AND 281 HAZEL MILL ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY DENSITY DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF 92 APARTMENT UNITS HOUSED IN THREE BUILDINGS**

On June 26, 2012, Mr. Robert Grasso, applicant, requested City Council to continue his public hearing until July 24, 2012, since a valid protest petition has been received which required 6 out of 7 Council members to vote in favor of his application and Councilman Hunt was absent from that meeting.

On July 19, 2012, Mr. Robert Grasso, applicant, requested City Council to table the proposed apartment project indefinitely. Therefore, Councilman Hunt moved to table the conditional zoning for White Oak Grove Apartments located at 275 and 281 Hazel Mill Road indefinitely. This motion was seconded by Councilman Pelly and carried unanimously.

**V. UNFINISHED BUSINESS:**

**A. ORDINANCE NO. 4096 - ORDINANCE AMENDING THE CURRENT SKATEBOARD ORDINANCE TO PERMIT SKATEBOARDING ON DESIGNATED CITY-MAINTAINED ROADWAYS AND CROSSWALKS IN THE DOWNTOWN CENTRAL BUSINESS DISTRICT**

Assistant City Attorney Kelly Whitlock said that this is the consideration of an ordinance amending the current skateboard ordinance to permit skateboarding on designated City-maintained roadways and crosswalks in the downtown Central Business District (CBD).

The City's current skateboard ordinance prohibits skateboarding upon any roadway, except while crossing a street on a crosswalk. This prohibition applies throughout the City, regardless of the district in which the roadway is located. The current ordinance also prohibits skateboarding upon any sidewalk in a business district. This particular prohibition applies in business districts only; skateboarding is allowed on sidewalks in all other districts. The language contained in the City's skateboarding ordinance has remained unchanged since the City's Code of Ordinances was codified in 1965.

At the April 24, 2012, City Council meeting, Council requested staff to draft an ordinance to allow the use of skateboards for transportation, using the four wheels down model on roadways, crosswalks and bike lanes (where available) within the CBD for Council consideration. Council also requested information about cities nationwide that permit skateboarding in their downtown areas and whether that permission expanded to streets outside the downtown area. City staff identified the following cities which allow skateboarding in some form:

Benchmark National Cities:

- Portland, Oregon: Allows skateboarding on sidewalks and roadways except for certain streets and sidewalks in the downtown area with the following restrictions: 1) persons under the age of 16 must wear protective headgear; 2) operator must be equipped with lighting equipment between hours of sunset and sunrise and 3) operators are granted all rights and responsibilities applicable to bicyclists
- Grand Haven, MI: Allows skateboarding on roadways unless used in an intentional, reckless, careless or negligent manner which causes or could cause any injury to the rider, to any other person, or cause damage to any property; no skateboarding on the boardwalk or on sidewalks along Washington Avenue (within the CBD) from May to Labor Day
- Oxford Village, MI: allows skateboarding in downtown area and other roads but operators are prohibited from obstructing any street, sidewalk, parking area, public place/building or any other place or building by impeding the passage of vehicles, traffic or pedestrian
- Columbia, MO: prohibits skateboarding on sidewalks in downtown area; allows skateboarding on all streets in downtown areas (CBD) unless the use is prohibited; operators granted all rights and duties applicable to bicyclists including duty to obey all traffic control devices and signs and subject to the following conditions: 1) stay to the far right of the road 2) operate the device with the flow of traffic; 3) operate the device in

careful and prudent manner; 4) wear reflective clothing and 5) be equipped with a front facing lamp and rear facing red reflector at night
- Tacoma, WA: allows skateboarding on roadways and sidewalks; helmet required
- Lake Havasu, AZ: allows skateboarding on public roadways with less than four lanes or with speed limits less than 35 mph; on sidewalks outside the CBD and on public property where allowed, subject to the following conditions: 1) abide by all traffic control signals and devices; 2) operate at close proximity to the curb or outer portion of the roadway; 3) signal turns; 4) yield to pedestrians; 5) persons under age of 16 must wear protective helmets and 6) safety gear must be worn from dusk to dawn.
- NCSU Raleigh, NC: Skateboarding is allowed on campus; grinding (i.e. frictional contact between any part of the skateboard and a ledge, plant, or bench) and reckless operation prohibited

Highways (synonymous with streets) are defined by state law as property or right-of-way lines that are open to the use of the public as a matter of right for the purposes of vehicular traffic. Vehicles are defined by state law as every device in which any person may be transported upon a highway, excepting devices moved by human power; provided bicycles are deemed vehicles. Accordingly, the North Carolina Department of Transportation (NCDOT) takes the position that skateboarding is not allowed along state-maintained highways and streets as skateboards are not considered vehicles by state law.

Furthermore, pursuant to N.C.G.S. §160A-296(a), cities have general authority and control over all public streets, sidewalks, alleys, bridges, and other ways of public passage within its corporate limits except to the extent that authority is vested in the Board of Transportation. Therefore, the City does not have the authority to regulate the use of skateboards on state-maintained streets. The City's CBD contains the following state-maintained streets:

- SR 3548 (Clingman Avenue) from Hilliard Avenue to Patton Avenue
- SR 3602 (Haywood Street) from Patton Avenue to I-240 Eastbound on-ramp
- I-240 Westbound and Eastbound on/off ramps located west of Clingman Avenue
- US 25 (Southside Avenue) from Coxe Avenue to SR 3214 (Biltmore Avenue)
- SR 3214 (Biltmore Avenue) from Short Coxe Avenue to US 25 (Southside Avenue)
- US 25 (Biltmore Avenue) from US 25 (Southside Avenue) to Patton Avenue
- US 25 (Broadway) from Patton Avenue to Woodfin Street
- SR 3284 (South Charlotte Street) from US 25 (Southside Avenue) to US 70-74A (College Street)
- US 70-74A (Charlotte Street) from SR 3284 (South Charlotte Street) to Woodfin Place
- US 70-74A (College Street) from SR 3284 (South Charlotte Street) to the Beaucatcher Tunnel
- NC 694 (Town Mountain Road) from US 70-74A (College Street) to College Place

Transportation staff also reviewed and identified several streets in the CBD that have high vehicular and pedestrian traffic, on-street parking, bus routes, narrow widths, and street conditions that may contribute to safety concerns of pedestrians and skateboarders. In order to avoid off-limit state-maintained streets and to minimize safety concerns along those identified streets in the CBD, staff recommends allowing skateboarding on the following designated City-maintained streets which would form a skateboarding transportation network within the CBD:

- South Lexington Avenue and North Lexington Avenue from US 25 (Southside Avenue) to I-240
- Coxe Avenue from US 25 (Southside Avenue) to Patton Avenue
- Asheland Avenue from Hilliard Avenue to Patton Avenue
- South French Broad Avenue and North French Broad Avenue from Hilliard Avenue to Haywood Street
- South Market Street from US 25 (Biltmore Avenue) to South Pack Square

- Church Street from South Lexington Avenue to Hilliard Avenue
- South Spruce Street and North Spruce Street from Eagle Street to Walnut Street
- Flint Street from Hiawassee Street to Haywood Street
- Rankin Avenue from Walnut Street to Hiawassee Street
- Walnut Street from Rankin Avenue to North Spruce Street
- Hiawassee Street from Flint Street to Rankin Avenue
- Haywood Street from North French Broad Avenue to Flint Street
- Eagle Street from South Market Street to South Spruce Street
- Hilliard Avenue from SR 3548 (Clingman Avenue) to US 25 (Biltmore Avenue)
- College Street from North Spruce Street to US 70-74A (College Street)

If the subject action is approved, the Transportation Department and the Asheville Police Department would work closely together to come up with a suitable method to physically designate the allowable streets which could include signs and/or pavement markings.

The ordinance is subject to the following provisions: (1) Operators shall wear an American National Standard Institute approved helmets while operating; (2) Operators shall obey all traffic laws and shall keep to the right of the lane of travel, using bike lanes where available; (3) Operators shall yield the right-of-way to pedestrians; (4) Operators shall have all wheels of a skateboard in contact with the ground at all times while operating; and (5) Operators shall not operate a skateboard after sunset or before sunrise.

This action complies with the City Council Strategic Plan in the focus area of "Multi-modal Transportation" by expanding multi-modal opportunities for citizens throughout downtown but conflicts with the focus area of "safe" due to the increased traffic safety dangers to the skateboard operator, pedestrians, and motor vehicles.

Pros:

- Expanded multi-modal opportunities for citizens throughout downtown.
- High vehicular and pedestrian traffic, on-street parking, narrow widths and street conditions considered in designation of certain City-maintained streets in order to minimize safety concerns

Cons:

- Traffic safety dangers to the skateboard operator, pedestrians, and motor vehicles.
- Topography of designated City-maintained streets contribute to traffic safety dangers
- Potential conflict with bicyclists in designated bike lanes

The signs and/or pavement markings that would be needed to identify the designated streets that can be used by skateboarding would be the only fiscal impact and is currently estimated to be about $1,000.00. This money is included in the current Transportation Department's operating budget.

If Council approves of the proposed changes, adoption of the ordinance is recommended.

In response to Councilman Smith, Director of Transportation Ken Putnam showed Council a sample sign to be used to alert motorists that skateboarding is allows on that particular street.

In response to Councilman Smith, Police Chief William Anderson said it would be difficult to enforce the four wheels down rule. The action would have to be witnessed by the officer in

order to issue a citation and make sure that we have knowledge of the exact streets that skateboarding is allowed on.

Councilman Smith said that there is a lot of interest among the people who are skateboard commuting. The map of the designated City-maintained streets which would form a skateboarding transportation network within the CBD doesn't have a lot of connectivity. He hoped the skateboarding community would use various strategies to educate the skateboarders. He would like to adopt the ordinance for a trial period of six months to see if it's successful or not.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved for the adoption of an ordinance to allow skateboarding us in the Central Business District per the recommendations in the staff report with a City Council review in six months. This motion was seconded by Councilman Pelly.

The following individuals spoke in support of the ordinance:

Owner of Push Skate Shop in downtown Asheville
Rev. Christopher Chiaronmonte
A skateboarder in downtown
Mr. Kevin Haney

In response to Councilman Bothwell, Mr. Putnam said that as we extend the bike lane system the intent would be to extend the skateboard system too.

Councilman Bothwell suggested plain clothed police officers on skateboards, which would be cheaper than cars and bikes.

Councilman Hunt could not support the ordinance from a safety standpoint. He felt the challenges for police enforcement of the ordinance would be too difficult.

Councilman Pelly felt that some enforcement would be easily identified, such as someone not wearing a helmet or someone riding after sunset or before sunrise. He too had concerns about safety; however, he felt we need to give it a chance for the six-month trial period. He would look to the leaders in the skateboard community to set an example and get the message out about adhering to the standards.

In response to Councilman Bothwell, Mr. Putnam said that he would need approximately 60 days to make sure the signs are made and installed. City Attorney suggested Council may wish to give a delayed effective date of the ordinance.

Councilman Smith and Councilman Pelly both agreed to the friendly amendment made by Councilman Bothwell to delay the effective date for 60 days.

Councilman Davis agreed with Councilman Hunt that this is a safety issue. He understands the passion of skateboarders, but regrettably he couldn't see skateboarding as transportation as much as an opportunity for recreation in a densely populated area.

The amended motion made by Councilman Smith and seconded by Councilman Pelly failed on a 3-4 vote, with Mayor Bellamy, Vice-Mayor Manheimer, Councilman Davis and Councilman Hunt voting "no."

**ORDINANCE BOOK NO. 27 – PAGE 403**

### B. CONFIRMATION OF PLANNING & ZONING COMMISSION CANDIDATE QUESTIONS

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that the Committee reviewed questions submitted by Council members and asked for confirmation of the following five questions: (1) Please take time to review the City's 2025 Plan land use plan. How strongly does your own vision align with that plan, and in what ways might it differ?; (2) Do you believe Asheville has taken an approach that is too "pro-growth" or "anti-growth" over the past 5-6 years? What do the terms "pro-growth" and "anti-growth" mean to you? Please share your reasoning; (3) How strictly should interpretation and application of the Unified Development Ordinance be applied?; (4) Name one Planning & Zoning Commission decision in the last 18 months you've agreed with and one you've disagreed with or would have struggled with. Please explain your rationale for each; and (5) What are some of the positive or negative effects of Asheville's zoning regulations.

It was the consensus of Council to accept the five questions outlined above to send to all Planning & Zoning Commission candidates.

## VI. NEW BUSINESS:

### A. RESOLUTION NO. 12-161 - RESOLUTION REALLOCATING FAIR HOUSING ASSISTANCE PROGRAM FUNDS TO THE ASHEVILLE-BUNCOMBE COMMUNITY RELATIONS COUNCIL TO PERFORM FAIR HOUSING MARKETING, TRAINING AND OUTREACH

Community Development Director Jeff Staudinger said that this is the consideration of a resolution to reallocate Fair Housing Assistance Program Funds from a request by the Asheville-Buncombe Community Relations Council (ABCRC) for $15,000 in Fair Housing Assistance program funding to perform fair housing marketing, training and outreach.

For a number of years, the Asheville Buncombe Community Relations Council served as the designated Fair Housing investigatory and enforcement agency for the City of Asheville. Their services were funded, in part, through HUD's Fair Housing Assistance Program (FHAP). These funds were granted to the City of Asheville; the City then passed the funds on to ABCRC. The amount of funds allocated were based upon the number of fair housing cases closed in the prior year, as well as an administrative and travel/training allocation. Last year, the City of Asheville received these funds, but did not pass them through to ABCRC, because that agency was no longer the designated agency for fair housing for the City.

HUD was informed of this action, and told staff that the City could retain the funds but that they needed to be spent to "affirmatively further fair housing." The deadline for use of the funds is July, 2017. The amount of FHAP funds was $43,316. Of that amount, $11,000 has been expended on the Analysis of Impediments to Fair Housing. A balance of $32,316 remains.

ABCRC seeks to reinstate its position as the first agency point of contact for Asheville residents who have fair housing concerns, and to lead the community work to educate and inform Asheville residents about their fair housing rights and recourse if those rights have been violated. They seek $15,000 in FHAP funds to primarily conduct community information and education activities about fair housing, and to conduct fair housing training in Asheville. If successful, ABCRC indicates they are likely to make a similar request later this year to use FHAP for a Phase 2 element which would focus on honing their outreach plan and implementing it in the community.

Since the North Carolina Human Relations Commission was designated as the City's Fair Housing agency, it appears that fair housing complaints have been fewer in number. This could be attributed to a number of factors, including inadequate public education about fair housing.

The project directly supports the City's Strategic Operating Goal of *Affordable*: The project proposal is supportive of the City's goal for all citizens to have access to safe, sufficient and affordable housing.

Pros:

- Reestablishes a local point of contact for fair housing information for consumers.
- Fair housing training will assist private and public sector landlords comply with the law.
- ABCRC is developing a collaborative working relationship with State Human Relations Commission.

Cons:

- Agency is rebuilding, staff monitoring of the proposed activities will be important to determine whether this is the best use of limited FHAP funds.

The federal FHAP funds must be allocated to affirmatively further fair housing. The use of the funds for the proposed purpose meets that requirement. The funding will come from the FHAP budget that was approved in FY11-12. There is no impact to the General Fund.

The Housing and Community Development Committee recommends the approval of $15,000 in federal Fair Housing Assistance Program funds to ABCRC to develop and implement fair housing marketing, outreach and training, as proposed.

Ms. Staudinger responded to Vice-Mayor Manheimer's question regarding the tax issues that the ABCRC was experiencing.

Mayor Bellamy said that we are seeing an increase in people complaining about the minimum housing code not being sufficient to address their concerns with their landlords. She hoped the ABCRC will also use these funds to assist individuals in understanding their rights as well as connecting them to the resources in City government.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 12-181. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 4**

**B. MOTION TO REITERATE THE ASHEVILLE CITY COUNCIL'S POSITION THAT IT OPPOSES ANY ATTEMPT BY THE STATE LEGISLATURE TO STRIP ASHEVILLE AND ITS CITIZENS OF ITS WATER SYSTEM**

**MOTION ASKING THE GOVERNOR TO VETO HOUSE BILL 1009**

Mayor Bellamy asked that this item be placed on the agenda because she was not comfortable with the legislature stating that we had to sit down with other governments to consider consolidating our water system with Metropolitan Sewerage District (MSD). She talked to the staff in the Governor's Office to ask, as Mayor (not representing City Council) the Governor to veto the bill. She felt we can participate in the process and invite other governments to talk about this issue and we are in the process of trying to arrange a meeting with our legislators, but she felt wrong, as Mayor, not to say she doesn't like the bill and therefore wanted to ask the Governor to veto the bill. The way the bill is written is not just talking about our system. Other mayors are nervous because the bill can apply to other municipal services across the state, including other water systems. What she is asking for Council is not only for Asheville, but also

other municipalities who are fearful of their system being consolidated. If we are going to give up our water system it should be because this body of elected individuals believes it is the right thing to do. She felt the water system is worth fighting for and we should ask the Governor to veto this bill that we did not ask for.

Vice-Mayor Manheimer said that the House Bill 1009 does two things. The first part of the bill amends the current legislation that governs the MSD. At this time, MSD can take in additional systems and when it does that their board make-up changes. Now, due to the way the statute is worded, is if a portion of Henderson County were to come into MSD (MSD does treat the Cane Creek area of Henderson County), Asheville would lose two of their three seats on the MSD Board. The first part of this bill would be helpful in that it addresses that current problem by ensuring that if Henderson County were to come into MSD that Asheville would retain three seats. That is somewhat problematic for us because most of MSD customers now reside within the City of Asheville. The second part of this bill authorizes MSD to run a water system. She felt it was important for us to reiterate that we are opposed to any move by the legislature to strip us and our citizens of Asheville's water system.

Vice-Mayor Manheimer moved that the Asheville City Council reiterate its position that it opposes any attempt by the state legislature to strip Asheville and its citizens of its water system. This motion was seconded by Councilman Hunt.

Councilman Smith confirmed that the motion is also a reaffirmation of when Council reiterated this same sentiment before because we were not consulted, that we felt a lot of the facts were left out, and the overwhelming public opposition to this move.

Mayor Bellamy supported the motion but also believed we need to send a message that we don't support House Bill 1009 and ask the Governor to veto the bill. Even if the bill has some good to it, the intent is laying the foundation to take our system, and that is not okay for her. The consultants that MSD approved, when asked whether the existing ratepayers of the City's water system, if expanded to Henderson County, would see an increase, they said they would. If this system is expanded to take in Henderson County, Asheville ratepayers will see an increase. If our water system is taken from the City of Asheville, Asheville ratepayers will see an increase. It is not fair. She felt she would be doing the citizens of Asheville a disservice in not saying this is wrong. We should not be asked, forced or required to give our system to an independent authority.

In response to Councilman Smith, Mayor Bellamy said that she spoke to the City's government relations consultant, and the League of Municipalities who said that it is important that we show we don't want this. Otherwise, silence is approval. This begins the process of legislation to take our water system.

Councilman Smith said strategically as far as we are trying to figure out how we are going to see this process through and do right by the Asheville ratepayers, what weighs in his mind is whether to call on the Governor to veto a bill that received a veto-proof majority upon its first passage and is therefore very likely to be overridden again and whether that aids our cause of retaining the system or whether it might in fact further injure our cause.

Mayor Bellamy felt that some of the people who voted for it didn't under the impact of what they were voting for. She said the super majority of our delegation did not support this bill.

Councilman Davis was very supportive of reiterating our motion.

When Vice-Mayor Manheimer asked if she had a sense of whether or not the Governor would be willing to veto, Mayor Bellamy said that the Governor has already dismissed approximately 75% of the bills and she is waiting to hear officially from our community. If we vote

unanimously to request her to veto the bill, she would take that to mean that the citizens of Asheville do not support the bill.

Councilman Pelly agreed that we should ask the Governor to veto the bill. This is a public bill and if it is allowed to move forward and passes, the bill that would allow the system to be transferred to MSD could be a local bill that would not require the Governor's signature at all. He felt this is our last opportunity to send that statement to the Governor.

Mr. Barry Summers felt that if Council doesn't urge a veto of this bill, they are essentially acquiescing. He didn't think this can get worse as the study that MSD is proposing is going forward.

Rev. Christopher Chiaronmonte spoke about the poor treatment of the homeless.

Mayor Bellamy said that by reaffirming our position and/or asking for the Governor to veto the bill doesn't mean that the Governor will do ask we ask. But, as Mayor, she felt responsible to at least ask as she doesn't support the bill. While the bill may have a good portion, she felt the ultimate goal is not beneficial to the citizens of Asheville.

The motion made by Vice-Mayor Manheimer and seconded by Councilman Hunt carried unanimously.

Councilman Pelly moved to ask the Governor to veto House Bill 1009. This motion was seconded by Councilman Davis.

Councilman Bothwell reminded our citizens that we raised commercial water bills to make it more equitable for the residential users.

In response to Vice-Mayor Manheimer regarding a possible conflict of interest due to her appointment to the MSD Board, City Attorney Oast said that he realizes that she is serving in two capacities; however, she would be voting as a Council member. To the extent there is a conflict between her two responsibilities, he did not think it was a conflict to disqualify her from voting.

The motion made by Councilman Pelly and seconded by Councilman Davis carried unanimously.

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Mr. Grant Millin said that the Bloomberg Philanthropies Mayors Challenge application process is clear that citizens, businesses and nonprofits are authorized to design the application outcome strategy and participate in directing the distribution funds in a "people's Budget" formula. He urged Council to direct the City Manager to organize an open innovation process to find the pulse of the city for an Asheville Mayors Challenge response and offered his services to help with that process.

After Ms. Patricia Dockery expressed her concern about the delay in public meetings regarding the noise ordinance, City Manager Jackson said that he would be happy to provide Council and Ms. Dockery with a report on the process to make sure we have a comprehensive noise ordinance.

Rev. Christopher Chiaronmonte spoke about the homeless issue in Asheville and urged Council to provide a camp for them.

Ms. Deborah Gurriere, representative of the owners of Ardmion Park Association Condominiums, questioned Council's approval of the use of Ardmion Park Road for the Beaucatcher Mountain greenway. The Association has received information from a surveyor and

from the City that their private driveway is being considered as a vital part of the greenway allowing for public pedestrian and non-motorized vehicular use. It is the opinion of the homeowners and their legal counsel that this is an encroachment on their private properties which would result in issues of safety, privacy and personal liability. She provided the Council with a letter from their attorney to City Attorney Oast. Mayor Bellamy said that City Attorney Oast would be discussing the matter with their attorney, Mr. Albert Sneed.

Councilman Smith was pleased to announce that Homeward Bound broke their single year record for housing homeless people in Asheville. They housed 250 people this year.

At Mayor Bellamy's request, it was the consensus of Council to ask the City Manager to provide a report on the process the City is making towards homelessness.

Councilman Smith invited the public to attend the Bele Chere Festival this weekend.

It was the consensus of Council to hold a water worksession on July 31, 2012, from 3:30-5:00 p.m. in the First Floor North Conference to discuss items such as the Main Water Transmission Line project, a report on the MSD merger study, an overview of the calculations being performed by staff of the impact on the General Fund and CIP of MSD/Water merger scenarios.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 9:31 p.m.

Magdalen Bowlesson
CITY CLERK

MAYOR

Tuesday – July 31, 2012 – 3:30 p.m.

Worksession

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell (arrived in meeting at 4:25 p.m.); Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; Assistant City Attorney Martha McGlohon; and City Clerk Magdalen Burleson

Absent: None

**Water Resources Director Report**

Water Resources Director Steve Shoaf said that the Water Resources Department continues to manage the water production and distribution system operations while maintaining the assets of the system. The FY 2013 budget: $33,531,552 and they have 147 positions full-time positions. Their Capital Improvement project budget: $7,438,564. The water system is operated to provide a valuable resource and protect public health at a reasonable cost to consumers

Regarding affordability (1) Affordable housing tap and meter fee rebates for new construction: $74,140; (2) Water line infrastructure rebate for infill and affordable housing: $22,409; (3) Leak adjustments for higher than normal water bills related to leaks: $296,049; and (4) Water rates: No increase projected through FY 2014.

Regarding fiscal responsibility (1) Working with Finance to record existing and new fixed assets; (2) Working with Finance to close budgets for completed projects to release money for future projects; (3) Over 42,000 automated meter reading devices installed leading to better efficiency; (4) Improving asset management process to guide CIP planning; (5) CIP distribution projects intended to address system issues related to responsible operation; (6) CIP neighborhood projects address water line replacement in localized neighborhoods; (7) CIP water system master plan projects aimed at providing for current and future needs for operations and growth of the system; and (8) Internal emphasis on energy conservation and green solutions (ISO 14001).

Regarding the water transmission main evaluation (1) Primary conveyance bringing water from North Fork and Bee Tree WTPs to the City; (2) Evaluating almost 19 miles of pipe; (3) 36" steel pipe installed in early 1950's; (4) 24" cast iron pipe installed 80+ years ago; (5) Phase I complete (location, mapping, external evaluation, condition of visible features); and (6) Phase II proposed evaluation (internal and external).

North Fork Dam improvements (1) Continued evaluation of North Fork Dam; (2) Stability analysis indicates need for improvements to stabilize dam; (3) Storm event analysis indicates need for larger spillway and other improvements; (4) Repairs to existing raw water intake structures; and (5) Next phase is a geotechnical subsurface evaluation of proposed repairs/modifications.

Mayor Bellamy apologized to the Asheville Water Department employees in that this is not something City Council initiated or wants. We want them to feel secure in their future.

Mayor Bellamy noted our water system has a AA+ bond rating, the Water Department continues to maintain the certification of the ISO 140001 on energy conservation and green solutions, and most notably Mr. Shoaf was recently awarded the George Warren Fuller Award which is the highest award that can be given by a State Section of the NC American Waterworks and Water Environment Association. Her point in mentioning these outstanding accomplishments is that this legislation is not based on a badly run system. Our water system is run effectively and efficiently.

Mr. Shoaf responded to various questions/comments from Council, some being, but are not limited to: what is the technology for inspections inside the pipes; is the same system for inspecting water pipes the same as inspecting sewer pipes; confirmation that the water system is run on a "business as usual" basis while the MSD merger discussion is ongoing; addressed the leakage rate; and inventory of parts.

**Update on the Metropolitan Sewerage District Water/Sewer Consolidation Impact Study**

City Manager Jackson said that he invited Mr. Tom Hardy, Executive Director of MSD and/or their consultant, to present this update to Council; however, they declined.

Water Resources Director Steve Shoaf said that regarding the Water System – MSD Merger (1) Water System provides a significant City service; (2) Customer Service is already merged and produces a combined services statement; (3) Water Resources Department plans and implements on-going system improvements; (4) COA Water Resources collaborates with MSD regarding neighborhood projects (share capital project plans); (5) Phase I of MSD study to explore impacts to MSD rate payers if merged with COA Water; (6) Phase II of MSD study to explore impacts to MSD rate payers if merged with other systems with or without COA; (7) Timeline of MSD study - Phase I report – November 2012 and Phase II report – January 2013; and (8) Options that could be considered: (a) No merger occurs; (b) MSD absorbs the City of Asheville Water System; (c) The City of Asheville absorbs the MSD organization; (d) A new authority is formed to assume the functions of both MSD and the City's Water System; or (e) A regional solution involves all water and sewer providers in Buncombe and Henderson Counties.

In a little more detail, the Metropolitan Sewerage District of Buncombe County advertised a request for proposals (RFP) to study the impact on MSD rate payers of a consolidation/merger of the City of Asheville water system and other water systems in Buncombe County with the Metropolitan Sewerage District. MSD compiled extensive background information for use by the consultants and made this available at the following link: http://www.msdbc.org/waterstudy.php

In response to that RFP, on July 18, 2012, the MSD Board of Directors approved the selection of Malcolm Pirnie/Arcadis to perform a detailed impact study. There will be a project "kick off" meeting with MSD and the consultant on August 1, 2012. Representatives from the City have been invited.

The project as described will consist of two phases. Phase I will be an "Evaluation of the potential merger of the City of Asheville Water System with MSD". The Phase I study results will be presented to the MSD Planning Committee in early November 2012 and to the full Board on November 14, 2012.

Phase II will be an "Evaluation of the potential merger of the Weaverville, Biltmore Forest, and Montreat systems with MSD both in conjunction with, and independent of Asheville". The Phase II study results will be presented to the MSD Planning Committee and the full Board in January 2013.

The City can anticipate additional financial and operational information requests from Malcolm Pirnie/Arcadis as these studies progress. In addition the City of Hendersonville is pursuing a study of potential impacts to their water system should they become involved in a regional merger.

There are several scenarios that could be considered:

- No merger occurs
- MSD absorbs the City of Asheville Water System
- The City of Asheville absorbs the MSD organization
- A new authority is formed to assume the functions of both MSD and the City's Water System
- A regional solution involves all water and sewer providers in Buncombe and Henderson Counties

This is an information item. Any action would be at the discretion of City Council.

City Manager Jackson said that the MSD study only does modeling of one scenario. It does not evaluate what would be the best governance model of that system. It also does not look at alternative service delivery models and does not analyze compensation issues. And, it does not provide for public input or public comment.

**Overview of Staff Analysis of Merger Scenarios**

Budget Director Tony McDowell said that the purpose of this staff report is to provide City Council with an overview of a scope of work staff is completing on the financial impact of a merged water and sewer utility, as contemplated by the Legislative Research Commission's Committee on Metropolitan Sewerage/Water System and MSD's internal study.

As City Council is aware, MSD is studying the impact of absorbing the municipal water system into its existing operations. The scope of that study does not include determining the financial or operational impacts the merger would have on the City of Asheville.

The overall purposes of the City's analysis will be to:

- Evaluate the financial impacts (operating and capital) of merging the two systems versus operating them separately;
- To analyze the financial efficiencies of consolidating systems under the City of Asheville's municipal structure versus consolidating them under the Metropolitan Sewerage District;
- To quantify any future cost avoidance that could be achieved by merging the sewer and water utilities under municipal operations and independent authority operations;
- To estimate the impacts on future user charge rates of consolidating systems; and
- To confirm the most appropriate calculation of the market value of the water system.

Staff anticipates developing a preliminary plan for utility staffing and proposed merged budgets as well as forecasts for financially merged utilities under municipal operations versus MSD operations.

The scope of staff's evaluation does not include an engineering analysis of water and sanitary sewer systems assets and facility needs. The City of Asheville has conducted extensive evaluation of water system assets and the need for new water utility facilities to meet future demands through its master planning process. Staff will review any similar existing studies completed by MSD in addition to its Capital Improvement Plan. At this point, staff is assuming capital improvement needs would not be impacted under a consolidated model. However, a review of both utilities' CIP will be conducted to verify this assumption.

Staff is proposing that the analysis be phased with initial efforts focused on the financial impact to the City of Asheville from a consolidation with MSD. Staff anticipates this first phase of the analysis to conclude in 30-60 days. Staff will prepare a report of the study methodology and findings for City Council review, which is intended to facilitate and inform City Council's policy considerations and possible negotiations. The analysis will require MSD and the City of Asheville to share information about our respective utility operations, which is already occurring through the MSD study process.

This staff analysis is consistent with City Council's strategic goal of operating the City of Asheville to the highest standards of fiscal responsibility.

Staff is conducting this analysis using internal resources and staff time. Consulting services and data validation may be provided by a third-party firm, Raftelis Financial Consultants. It is anticipated that any costs incurred will be absorbed within the City's existing operating budget.

Staff recommends proceeding with the analysis as outlined above. Staff will provide any interim updates on the process to the City Council Finance Committee. A final report and findings will be provided to the full City Council.

Mayor Bellamy asked that City Council receive a mid-way interim update on the process.

In response to Councilman Hunt, City Manager Jackson said that the modeling we would do on the alternative merger (to bring MSD under the City water system) would be a modeling of how savings might be accomplished under just one alternative scenario, but there are multiple scenarios that we are not in a position to develop, unless directed by City Council. There are a range of those, including an intergovernmental agreement, a separate utility district, etc.

Mr. Doug Bean, representing Raftelis Financial Consultants, said there are a host of models that other cities across the United States use. What is really interesting is that as you look at utility operations how critical the governance piece becomes in operating a system. It needs to be modeled for a particular situation. There are a host of those governance structures and they can certainly lay those out for Council.

Councilman Hunt questioned if the study conducted by MSD does not including examination of a governance structure, is there opportunity for us to include in our study the governance piece for the MSD-led model? Mr. Bean explained there are two pieces of governance – the legal structure of the way it is put together and the governing of those different models.

Mayor Bellamy felt we need to also look at House Bill 1009 and propose legislation for Asheville not to lose any of their seats on the MSD board.

It was the consensus of Council to have Mr. Bean put together an assessment of the two pieces of governing models and how they work and in which situations they work best in.

Mayor Bellamy also suggested a review of the two studies conducted by Henderson County on the Cane Creek Sewer/Water District to see what the impact would be on the Asheville ratepayers if portions of Henderson County are merged into the system.

**Council Discussion and Policy Direction, Including Next Steps for Public and Intergovernmental Relations**

Mayor Bellamy noted that on May 18, 2012, MSD wrote the City and asked us to participate in their process. Per Council direction, City staff invited our legislatures to a joint meeting and also invited all towns/cities, Buncombe County and municipal districts in the area who would be affected by a regional system to a meeting.

Vice-Mayor Manheimer felt that our invitation to the surrounding municipalities and County is an important first step for a fruitful review of our own. We also need to know how our voters feel about this situation. The City has an opportunity under the Statute to, by referendum on the November ballot, to ask our voters whether or not they would approve of a change in our water system that might be negotiated without legislative interference. This is an excellent opportunity for us to accurately gauge the sentiment of the citizenry of Asheville with regard to this information. We will need to know that information, along with more information, in order to have a fruitful discussion with MSD in compliance with the recommendations of the Legislative Study Commission.

When Councilman Bothwell asked if the referendum would be binding, Assistant City Attorney Martha McGlohon said that the City Attorney's Office is looking at the entire referendum issue. There are time limits associated with a referendum along with actions required by City Council.

Councilman Bothwell questioned if we can also have the County, if they are willing, to include all of the precincts that are served by the water system, not just residents of the City of Asheville.

Vice-Mayor Manheimer suggested Council ask staff to look into questions raised by Council and give them specific guidance as to what we need to do to be able to put this on the November ballot, should Council choose to do so.

Regarding a response to MSD regarding participating in their process, after discussion, it was the consensus of Council send a letter to MSD, under the Mayor's signature, that we are willing to be a part of their process but we are in the information gathering stage to help us understand what the best options are for Asheville and Asheville's ratepayers and need that information before we would be able to have a really meaningful discussion with them.

Mayor Bellamy read a portion of the May 18 letter from MSD as follows "MSD Board and staff are available to meet with representatives of the City to consider the Committee's recommendations and to discuss a process going forward. If the City is interested in meeting with MSD and staff to discuss these matters, please have Gary Jackson contact Mr. Hartye to arrange a meeting." We may respond that we would like meet and do further due diligence together - not just say we are willing to meet. She noted their letter doesn't say what our part in that process would be, especially since they have already hired a consultant. We will get our ad hoc committee (Vice-Mayor Manheimer and Councilman Davis) to work with City Manager Jackson on a meeting. Because Vice-Mayor Manheimer and Councilman Pelly are both MSD Board members (seated to represent the City), it was the consensus of Council that Councilman Davis be the point person to speak on behalf of City Council so as not to put Vice-Mayor Manheimer or Councilman Pelly in a difficult position.

Regarding the invitation to our legislation for a joint meeting regarding this legislation, after discussion and due to the fact that we have not received responses from Rep. Moffitt and Senator Apodaca, it was the consensus of Council to meet on the date that Rep. Keever, Senator Nesbitt and Rep. Fisher could meet and re-extend the invitation again to Rep. Moffitt and Senator Apodaca. The meeting date would be Monday, August 27, 2012, at 1:30 p.m. in the Banquet Hall of the U.S. Cellular Center.

Regarding the public engagement part of this process, it was the consensus of Council to have on the City's website a page with all available information; a standing item at every Council meeting for an update on the water/sewer merger study; a special meeting for the mid-way interim update on the water analysis process; issuance of a press release using all available social media; an insert in the next water bill; and for Council consideration of calling for a referendum on the August 14 agenda.

City Manager Jackson said that staff hopes to have completed the conservation easement over the watershed within the next 60-90 days. Additionally, we have reached an agreement with Henderson County to extend the timeframe of when the Bent Creek land would transfer to the City.

**ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 5:02 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – August 14, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Bothwell gave the invocation.

**I. PROCLAMATIONS:**

**A. RECOGNITION OF OLYMPICS SILVER MEDALIST WINNER LAUREN TAMAYO**

On behalf of City Council, Mayor Bellamy was pleased to welcome home Olympics Silver Medalist Winner Lauren Tamayo and presented her with a key to the City.

**B. RECOGNITION OF CHRISTINA MAXWELL AS DISTINGUISHED YOUNG WOMAN OF AMERICA**

On behalf of City Council, Mayor Bellamy was pleased to recognize the Distinguished Young Woman of America, local teen Christina Maxwell, and presented her with a key to the City.

**C. EMPLOYEE RECOGNITIONS**

City Manager Jackson was pleased to recognize the following employees: (1) Erik Hagan (Building Safety), Maggie Ullman Finance/ Sustainability), Deb Messer (ITS), Wanda Burgess (ITS) and Jeff Reble (ITS) for their role in the Public Technology Institute Award; (2) Greg Shuler, Streets & Engineering Manager, for receiving the Robert S. Hopson Leadership Award for the N.C. Chapter of the American Public Works Association; (3) Sam Powers, Economic Development/Civic Center Director, for receiving the 2012 Economic Developer of the Year Award; and (4) from the Excellence in Public Service Awards - Continuous Improvement – Ivan Thomas (Water/Maintenance); Integrity – Jerry Hill (Public Works/Fleet); Diversity – Douglas Zuendt (Fire); Safety and Welfare – Michelle Massey-Smith (Water); Excellent Service – Chris Maloney (Public Works/Sanitation); Outstanding Leadership – Joy Ponder (Fire); Above and Beyond – Janet Dack (Economic Development); Rising Star – Zachary McTaggart (APD/Animal Services); and Outstanding Teamwork - Asheville U.S. Cellular Center Team (Civic Center) - Karen Gillespie, Dan Dover, Benita Wynn, Anne Stafford, Marcia Hart, JC Gillespie, Jim Smith, John Ball, Richard Quick, Jeanine Crum, Norbert Irvin, Ian Moye, William Hyde, Jody Beck, Chris Scott.

On behalf of City Council, Mayor Bellamy thanked these employees for their outstanding work and looked forward to hearing other great accomplishments by our employees.

**D. PROCLAMATION PROCLAIMING AUGUST 18, 2012, AS "HONEY BEE AWARENESS DAY"**

Mayor Bellamy read the proclamation proclaiming August 18, 2012, as "Honey Bee Awareness Day" in the City of Asheville. She presented the proclamation to Ms. Phyllis Stiles who briefed City Council on some activities taking place during the day.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 24, 2012**

**B. ORDINANCE NO. 4103 - BUDGET AMENDMENT FROM THE NORTH CAROLINA ARTS COUNCIL FOR THE GRASSROOTS ARTS PROGRAM GRANT**

Summary: The consideration of a budget amendment, in the amount of $50,431, from the North Carolina Arts Council for the Grassroots Arts Program Grant.

The North Carolina Arts Council operates the Grassroots Arts Program Grant that provides per capita-based funding for arts programming to all 100 counties across North Carolina ensuring opportunities for citizens to experience the arts in their own communities. In counties without a "Designated County Partner", the North Carolina Arts Council invites an organization to serve as a "Provisional County Partner" in order to manage the distribution of grant funds.

In 2011, As the Asheville Arts Council was going through an organizational restructuring. The City of Asheville was asked by the North Carolina Arts Council to be the "Provisional County Partner" to manage the distribution of Grassroots Arts Program funds as appropriated by the North Carolina Arts Council. We expect that once the North Carolina Arts Council and the Asheville Arts Council are done with organizational restructuring that the Asheville Arts Council will once again administer the grant program as they have done in the past.

The grant funds will be awarded to eligible organizations in Asheville and Buncombe County who will then provide community art programs. Per grant guidelines, the City may retain 10% of the grant funds to support administrative cost associated with the grant program.

The action complies with the City Council Strategic Plan in that is creates more collaborative and effective working partnerships between the City of Asheville, the business community, and other key organizations to effectively manage the city's regulatory environment while accomplishing economic development goals and fiscal responsibility of exploring alternative for enhancing the city's long-term financial commitment to master plan implementation, infrastructure maintenance, capital improvements, and public facilities. The action also complies with the Parks, Recreation, Cultural Arts and Greenways Master Plan in that it enhances public confidence for and appreciation of the arts, and enhance facilitation and resources among arts interests.

Pro:
- Provides additional funds to support the arts in Asheville and Buncombe County

Con:
- None

The $50,431 grant from the North Carolina Arts Council Grassroots Arts Program will be received by the City and passed on to the designated sub grantees. The grant will be budgeted in the General Fund.

Staff recommends City Council to approve the budget amendment authorizing the City Manager to establish a budget of $50,431 for a grant from the North Carolina Arts Council Grassroots Arts Program Grant.

**ORDINANCE BOOK NO. 27 – PAGE 426**

**C. RESOLUTION NO. 12-179 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH STRICKLAND WATERPROOFING CO. INC. FOR THE CLEANING AND GENERAL REPAIRS IN THE UPPER BALCONY SEATING AT THE U.S. CELLULAR CENTER**

**ORDINANCE NO. 4104 - BUDGET AMENDMENT TO FUND THE CONTRACT WITH STRICKLAND WATERPROOFING CO. INC.**

Summary: The consideration of: 1) a resolution authorizing the City Manager to enter into a contract with Strickland Waterproofing Company, Inc. in the amount of $ 117,000.00 plus a 20% contingency in the event additional services are required outside the original scope of the contract for general cleaning, stain removal and painting in the upper balcony seating area in the ExploreAsheville.com arena at the U.S. Cellular Center; and 2) a budget amendment in the amount of $140,400 to fund the contract and contingency with proceeds from Buncombe County's FY 2012-13 contribution to the Southern Conference Renovations project.

This contract incorporates an additional component of the overall renovation of the arena consistent with the overall U.S. Cellular Center renovation plans. The overall renovations were started in preparation to host the Southern Conference Basketball Tournament beginning in March 2012 and through 2015. These renovations give patrons and promoters a much improved experience when attending or scheduling concerts, sporting events and other special events throughout the years to come.

The following bids were received:

- Strickland Waterproofing Co. Inc., Charlotte, NC: $117,000.00
- Superior Painting Inc., Asheville, NC: $267,612.00

This action complies with the City Council Strategic Operating Plan's Fiscal Responsibility goal of developing strategic partnerships to leverage resources for infrastructure and CIP projects. This action also complies with the U.S. Cellular Center Commission Master Plan that encourages continuing renovations for the facility, and supports the goal of developing new partnerships. It has been reviewed and recommended by the Civic Center Commission.

Pros:

- Project provides for a much better experience for the patrons.
- Much needed attention that will prolong the life of possibly the most used seating section of the arena.
- Project bid is below budget.

Con:

- None.

As noted above, the amount of the contract and the 20% contingency is $140,400. The City received funding from Buncombe County in July in the amount of $340,000 for FY 2012-13 capital expenses associated with the Southern Conference Renovations project. A portion of this funding will be used for the Strickland Waterproofing contract and contingency budget.

City staff recommends City Council adopt 1) a resolution authorizing the City Manager to enter into a contract with Strickland Waterproofing Co. Inc., in the amount of $117,000.00 plus

20% contingency, for a total of $ 140,400.00, for the General Services of cleaning and refurbishing the upper seating balcony of the ExploreAsheville.com arena at the U.S. Cellular Center; and 2) a budget amendment in the amount of $140,400 to fund the contract and contingency with proceeds from Buncombe County's FY 2012-13 contribution to the Southern Conference Renovations project.

**RESOLUTION BOOK NO. 35 – PAGE 40**
**ORDINANCE BOOK NO. 27 – PAGE 428**

**D. ORDINANCE NO. 4105 - ORDINANCE AMENDING THE FEES AND CHARGES MANUAL FOR A CREDIT CARD FEE CONVENIENCE FEE FOR PARKING**

Summary: The consideration of a proposal for Parking Division staff to test a pay-by-phone with validation system for on-street metered parking to enable customers to use credit or debit cards and an ordinance amending the Fees and Charges Manual for the addition of a convenience fee.

Parking Division staff constantly looks for ways to improve the overall parking experience in downtown Asheville for all of its customers. We are currently looking at options to enable customers to use credit or debit cards in addition to cash at the parking meters. One option that we would like to test for 90 days during the months of September, October, and November is a pay-by-phone with validation system. The system provides three convenient payment options including phone, text message, and mobile "app". The existing parking meters continue to function just like they do now and customers can continue to add coins. The only things added to the parking meters are stickers and/or signs giving instructions on how to use the pay-by-phone system. There is no initial capital outlay for the test. The vendor charges a $0.25 per transaction fee (invoiced at the end of each month) and staff would like to pass that cost onto the customer as a convenience fee. The convenience fee would essentially keep all customers on the same "playing field" as to the current $1.00 per hour parking meter fee. The current maximum time of two hours would not change.

Currently, there are about 740 metered on-street parking spaces in the Central Business District and for collection purposes, we have seven geographical zones. The test would be in Zone 6 which includes Haywood Street, Battery Park Avenue, Wall Street, and Hiawassee Street. Zone 6 has about 104 on-street metered parking spaces and averages about $14,000 per month in revenue.

In addition to the pay-by-phone with validation system, we are working with our existing parking meter vendor to provide actual credit/debit card capability at each individual parking meter. We are a confirmed "test" city and we anticipate receiving the appropriate equipment in the next several months to install on 10 to 15 parking meters.

This action complies with the City Council's Strategic Operating Plan in the Fiscal Responsibility Area with the goal to operate the City of Asheville to the highest levels of fiscal responsibility.

This item was reviewed by the Council's Finance Committee on July 24, 2012, and has received the Committee's endorsement.

Pros:

- Enables customers to use credit or debit cards in addition to cash.
- Provides three convenient payment options to the customers.
- Provides validation enabling businesses an opportunity to validate a customer's parking experience.
- Requires no changes to the existing parking meters.

Con:

- $0.25 per transaction convenience fee.

The total anticipated cost of the "test" is about $4,200 assuming a 40% credit/debit card transaction rate. That amount is currently budgeted in the FY 2012-13 Parking Enterprise Fund Operating Budget but it would be recovered by the convenience fee.

Staff recommends that City Council approve a pay-by-phone with validation system for the on-street metered parking in Zone 6 for a period of 90 days to enable customers to use credit or debit cards and an ordinance amending the current Fees and Charges Manual for the addition of a convenience fee.

In response to Mayor Bellamy, Director of Transportation Ken Putnam explained in detail that this is a test project and how it will work. The individual will get a text message warning when they have 15 minutes left on the two-hour limit. The City has the technology in hand regarding enforcement. He said that before the end of the year he would provide Council with an update. He said they are always looking for ways to improve the customer service downtown.

**ORDINANCE BOOK NO. 27 – PAGE 430**

**E. RESOLUTION NO. 12-180 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH SCHNABEL ENGINEERING FOR SUBSURFACE INVESTIGATIONS OF THE NORTH FORK DAM SITE**

Summary: The consideration of a resolution authorizing the City Manager to execute a change order in the amount of $78,930.00 with Schnabel Engineering for Subsurface Investigations of the North Fork Dam Site for a total contract cost of $268,230.00.

On October 25, 2011, City Council authorized Water Resources to enter into a professional services contract with Schnabel Engineering for the North Fork Water Treatment Plant Dam / Tunnel Evaluation project. Schnabel's current contract consists of: (1) evaluating alternatives to address the spillway capacity, (2) a structural evaluation of the outlet works conduit, (3) evaluating the North Fork Dam spillway gates by performing gate inspections and a structural analysis of the gates, and (4) conducting EAP training for plant staff.

During the initial evaluation, Schnabel Engineering discovered unexpected conditions regarding the stability of the dam that need to be addressed before continuing with the evaluation. To complete the initial scope of services, Schnabel needs to conduct further subsurface investigations of the North Fork dam, and potential alternate spillway. Prior to developing preliminary designs and cost estimates for the spillway alternatives, additional geotechnical and geophysical investigations need to be performed to determine the cost and design implications of the subsurface conditions. The scope of the change order consists of: (1) Task 1 – Geotechnical Investigations at a cost of $53,830; (2) Task 2 – Geophysical Investigation at a cost of $18,000; and (3) Task 3 – Geotechnical Data Report at a cost of $7,100.

This project is part of City Council's strategic plan to improve city infrastructure and to operate at the highest levels of fiscal responsibility.

Pro:

- This change order will allow Schnabel to complete a thorough investigation of the North Fork dam site in order to ensure its stability.

Con:

- None.

The funding needed for the change order is currently allocated within the project in the Water Resources Capital Improvement Projects fund.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute a change order in the amount of $78,930.00 with Schnabel Engineering for Subsurface Investigations of the North Fork Dam Site for a total contract cost of $268,230.00.

**RESOLUTION BOOK NO. 35 – PAGE 41**

**F. RESOLUTION NO. 12-181 - RESOLUTION AUTHORIZING THE MAYOR TO ACCEPT A DONATION OF REAL PROPERTY FOR THE WILD CHERRY ROAD BRIDGE PROJECT**

Summary: The consideration of a resolution authorizing the Mayor to accept donation and conveyance of real property on Wild Cherry Road.

Additional property is needed to construct the proposed replacement bridge at Wild Cherry Road. The following property owners agreed to donate portions of their property in fee simple to the City of Asheville:

Gated Communities of Asheville, LLC. - New Right of Way #1: (.083 Acres +/-);
PIN # 9740769648

Gated Communities of Asheville, LLC. - New Right of Way #2: (.01 Acres +/-);
PIN # 9740770484

Anna Lee Hill - New Right of Way #3: (.004 Acres +/-);
PIN # 9740873310

This action will help to comply with the City Council Strategic Operating Plan of Fiscal Responsibility and Multimodal Transportation in that it will be providing infrastructure maintenance and increasing the output of new sidewalks.

Pros:

- The acquisition will allow Public Works to pursue the construction of the proposed bridge and update a failing infrastructure item.
- Will be a step forward in meeting the City's Strategic Operating Plan and CIP goals.

Con:

- None

Since the parcels will be donated to the City, there is no additional fiscal impact to the City of Asheville.

Staff recommends that Asheville City Council adopt a resolution authorizing the Mayor to accept the donation and conveyance of real property on Wild Cherry Road.

**RESOLUTION BOOK NO. 35 – PAGE 42**

**G. RESOLUTION NO. 12-182 - RESOLUTION AUTHORIZING THE MAYOR TO CONVEY A SANITARY SEWER EASEMENT AT MURPHY OAKLEY PARK TO THE METROPOLITAN SEWERAGE DISTRICT FOR THE LIBERTY STREET SEWER REHABILITATION PROJECT**

Summary: The consideration of a resolution authorizing the Mayor to convey a sanitary sewer easement at the Murphy Oakley Park, identified as PIN # 965758112100000, to the Metropolitan Sewerage District for the Liberty Street Sewer Rehabilitation Project.

In 2010, the City of Asheville conveyed a series of sewer easements to the Metropolitan Sewerage District (MSD) at Murphy Oakley Park as part of the Liberty Street Sewer Rehabilitation Project. The project encompassed the replacement of several existing 6 and 8 inch clay lines in the park that were in poor condition. During construction, MSD discovered an additional line at the Murphy Oakley Park that required replacement. At this time, MSD is requesting a sewer easement for the additional line segment as described on the enclosed map. This easement measures approximately 2,141 square feet and is located at the southeast corner of the park.

This action supports the City of Asheville Parks, Recreation, Cultural Arts & Greenways Master Plan by addressing critical infrastructure needs of existing parks and facilities to meet community standards.

Pros

- Improved sanitary sewer service for the community
- Minimal impact to the park property
- Proposed line replaces the existing, poor line

Cons

- Easement is being dedicated

No monetary consideration involved in this conveyance.

City staff recommends City Council to adopt the resolution authorizing the conveyance a sanitary sewer easement at the Murphy Oakley Park to the Metropolitan Sewerage District for the Liberty Street Sewer Rehabilitation Project.

**RESOLUTION BOOK NO. 35 – PAGE 43**

**H. ORDINANCE NO. 4106 - BUDGET AMENDMENT TO ENABLE THE SUB-GRANT TO THE ASHEVILLE HOUSING AUTHORITY OF A HUD EDI GRANT FOR THE REID CENTER**

Summary: The consideration of a budget amendment, in the amount of $137,200, to enable the sub-grant to the Asheville Housing Authority of a HUD EDI grant for the Reid Center.

In January 2011 Council Resolution 11-14 conditionally committed the Funds received from the EDI Special Projects Grant B-080SP-NC-0501 to the Housing Authority of the City of Asheville for renovation of the Reid Center dependent on final approval on the use of these funds by HUD.

HUD has agreed to allow the City of Asheville to sub-grant EDI Special Project funds to the Housing Authority for the renovation of the Reid Center. This budget amendment will allow the City of Asheville to fulfill its obligation and commitment to help preserve and renovate the Reid Center as a community education and training center.

This budget amendment supports the Council Strategic Goals of: (1) Safe, by supporting recreational and employment opportunities for youth at risk of gang exposure; and (2) Job Growth and Community Development, by supporting sustainable community investments in the East of the Riverway area.

Pro:

- Enables the use of EDI Special Project Grant funds for the renovation of the Reid Center

Con:

- None

When the City determined that the ongoing use of the Reid Center as a community recreation center was not feasible, the original purpose of this HUD grant would not have been able to be met, and the funds would have been returned to HUD. By supporting the Housing Authority's repurposing of the property, and committing these funds to that purpose, an additional $3.9 million of HUD funding was obtained. No general funds are required for the project, and the City has been able to sell the Center to the Housing Authority.

City staff recommends the City Council adopt the budget amendment in the amount $137,200 from HUD-federal grant funds, necessary for the City Manager to execute a subgrant agreement with the Housing Authority of the City of Asheville in the amount of $137,200.

Mayor Bellamy was pleased that the City will be a partner in the initiative with the Housing Authority for a sustainability job training center in the WC Reid Center.

**ORDINANCE BOOK NO. 27 – PAGE 432**

**I. RESOLUTION NO. 12-183 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH BROWN AND CALDWELL FOR PHASE II OF THE MAIN WATER TRANSMISSION LINE EVALUATION PROJECT**

**ORDINANCE NO. 4107 - BUDGET AMENDMENT FOR THE MAIN WATER TRANSMISSION LINE EVALUATION PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to execute a contract in the amount of $2,379,432.00 with Brown and Caldwell for Phase II of the Main Water Transmission Line Evaluation Project for a total evaluation cost of $2,698,450.00 (includes Phase I and II); and a budget amendment in the amount of $2,021,932.00 from savings in other capital projects that were completed under budget.

In August of 2011, the City of Asheville Water Resources Department solicited the services of a qualified engineering firm to work with staff to develop an assessment of some of the City's main water transmission lines (about 19 miles) with an overall goal to develop long term planning solutions for the replacement of its most critical water infrastructure. It was determined that the project needed to be divided into two phases due to budgetary constraints and to better accommodate the task sequence for the evaluation process. In January 2012, City Council approved Resolution No. 12-20 to allow the City Manager to enter into a contract with Brown and Caldwell for engineering services required to complete Phase I of the Main Water Transmission Line Evaluation Project for the contract amount of $319,018.00. Phase I of the project included: data gathering, meetings and a workshop, surveying, baseline mapping, right-of-way (easement) research, line walk and visual inspections, Level 1 External Corrosion analysis, Sub Utility Exploration (SUE), GIS updating, reporting, and planning for Phase II of the project. Phase I of the two-phase project has been completed. The entire project was taken out for bid at the same time, and Brown and Caldwell was awarded the full scope. Water Resources split the project into Phase I and II in order to allow time for more funding to become available.

The overall objective of this project is to promote the reliability of the transmission of finished water from the North Fork Water Treatment Plant to Haw Creek Junction where it is distributed to the overall water system. The main transmission lines are the 24-inch cast iron water main between Bee Tree and Haw Creek Junctions and the 36-inch steel water main that

begins at the North Fork Water Treatment Plant, interconnects with the 24-inch water main at Bee Tree Junction and continues to Haw Creek Junction. The Prestressed Concrete Cylinder Pipe (PCCP) water main is located at the North Fork WTP and connects the filters to the clear well and the transmission mains. After the break on the 36-inch water line on February 14, 2011, Water Resources staff discussed the need to perform a detailed analysis of the transmission lines in order to prevent a major break in the future.

The main reason why this project has such a drastic cost increase is because the engineer has to hire consultants who specialize in tapping into large size water pipe (24-inch and larger) under high pressures (200 psi or greater) and inserting cameras into the lines to take images of the pipe interior. This process can be dangerous, time consuming, and result in water outages if implemented incorrectly. The consultant that will be hired to do this work is the only consultant in the United States capable of performing this particular work. The amount for this specialized task is approximately $1.2 million.

This contract represents Phase II of the two-phase project. The successful completion of this second phase will result in the completion of an internal corrosion investigation using a compact camera that records a visual of the inside of the pipes, accurate leak detection, GPS location of the buried line and important features (valves, external connections), and an external pipe inspection using specialized equipment that provides remaining pipe wall thicknesses at key locations along the pipe lines. These two investigations will allow the completion of the overall condition assessment from which alternatives analysis, preliminary design, cost estimating and financial planning and implementation of a data warehousing system for this and future condition assessment projects can be derived if deemed necessary.

Phase II of the project includes analysis of the following assets:

1. 67,500 Linear Feet (LF) of 36-inch diameter steel pipe water transmission main;
2. 31,400 LF of 24-inch diameter cast iron pipe (CIP) water transmission main; and
3. 700 LF of 36-inch diameter precast concrete cylinder pipe (PCCP) finished water main at the North Fork WTP.

Pros:

- Brown and Caldwell successfully completed Phase I of the evaluation project and in the past, have provided Engineering Services on numerous water system projects for the City of Asheville. Their experience and knowledge of our water system will continue to minimize staff support and input during the process.
- This project will provide the City of Asheville with the remaining information and tools necessary to ultimately make sound decisions for planning and replacement of its most critical water infrastructure.

Con:

- Failure to award an engineering services contract would prevent the Water Resources Department from completing the necessary planning and replacement of critical water infrastructure in a timely manner.

The Water Resources Department currently has $676,518.00 budgeted for this project. The remaining funds of $2,021,932.00 needed for this contract will be transferred from the General Projects capital project that accumulates remaining funds from all of Water Resources completed, inactive capital projects. In order to use the funds in General Projects, a budget amendment is necessary.

| | |
|---|---|
| Current Amount in Main Transmission Line Eval. Proj. | $ 676,518.00 |
| Budget Amendment Amount Needed | $2,021,932.00 |
| Total Amount | $2,698,450.00 |

The amount remaining in General Projects will be reallocated to other capital projects as the need arises. Staff will seek Council approval on any future reallocation of these funds

City staff recommends City Council approval of the resolution authorizing the City Manager to execute a contract in the amount of $2,379,432.00 with Brown and Caldwell for Phase II of the Main Water Transmission Line Evaluation Project for a total evaluation cost of $2,698,450.00 (includes Phase I and II); and a budget amendment in the amount of $2,021,932.00 from savings in other capital projects that were completed under budget.

**RESOLUTION BOOK NO. 35 – PAGE 44**
**ORDINANCE BOOK NO. 27 – PAGE434**

**J. RESOLUTION NO. 12-184 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A COOPERATIVE PURCHASING/INTERLOCAL AGREEMENT WITH HOUSTON-GALVESTON AREA COUNCIL TO UTILIZE THEIR COOPERATIVE PURCHASING PROGRAM**

Summary: The consideration of a resolution authorizing the Mayor to enter into a Cooperative Purchasing/Interlocal Agreement with Houston-Galveston Area Council (H-GAC) to utilize their Cooperative Purchasing Program.

Cooperative Purchasing programs are formally organized programs that offer goods and services to at least two or more public agencies that have been competitively bid at discount prices. These programs allow local governments the opportunity to purchase at a much better price due to volume than if bid individually and offer highly technical equipment and heavy machinery which require strong product expertise to develop specifications and bids.

The Houston-Galveston Area Council (H-GAC) is a cooperative purchasing program that is an organized unit of local government assisting other local governments to make the governmental procurement process more efficient by establishing competitively priced contracts for goods and services, and providing the customer service necessary to help its members achieve their procurement goals. All contracts available to members of H-GAC have been awarded by virtue of a public competitive procurement process compliant with state statutes. Since this is also a unit of government, H-GAC requires an interlocal agreement to be signed in order to use this cooperative purchasing agreement.

This action complies with the City Council Strategic Operating Plan goal of "Operate the City of Asheville to the highest levels of fiscal responsibility.

Pros:

- Opportunity to Leverage Purchase Power due to Volume
- Availability of Respected/Proven products
- Benefit of Strong Technical Specifications
- Immediate Purchase for Quick Response Time

Con:

- None

This program may yield future cost savings on purchases.

City staff recommends City Council adopt a resolution authorizing the Mayor to enter into a Cooperative Purchasing/Interlocal Agreement with Houston-Galveston Area Council.

**RESOLUTION BOOK NO. 35 – PAGE 45**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Hunt moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Smith and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. HAYWOOD STREET PROPERTIES UPDATE

Mayor Bellamy noted that this is a staff update only. At the August 28, 2012, meeting there will be a resolution setting a public hearing on this issue for September 11, 2012.

Economic Development/Civic Center Director Sam Powers said that this presentation in response to Mayor Bellamy's request for a timeline of events for the City-owned Haywood Street property.

In an effort to provide current Council members relevant history on the evolution of this process, he briefly outlined the following key actions and updates relating to the City-owned, Haywood Street property.

**September 20, 2005 City Council Meeting**
Planning and Development Director Scott Shuford shared a map of downtown, City-owned properties with City Council. City Council discussed the scarcity of affordable housing for people in the service sector and asked staff to conduct a review of City-owned properties to determine if some of our land may represent good opportunities for community redevelopment, especially redevelopment that significantly adds to our base of workforce housing.

The City Manager asked for the opportunity to do some further examination and bring back some candidate evaluations and identify properties with the greatest potential.

**January 17, 2006 City Council Meeting**
Planning and Development Director Shuford summarized City-owned properties, the development potential for each and the selection criteria for reuse or redevelopment. City Council agreed to allow for staff to refine the report for specific Council action, with the following comments made:

- Work cooperatively with Buncombe County on a possible joint partnership
- Consider ways to reach the nearby property owners of City-owned parcels
- Consider affordable housing components in the process

**November 21, 2006 City Council Meeting**
Staff requested policy guidance prior to crafting the Request for Qualifications (RFQ) for redevelopment of City-owned properties. Council's feedback consisted of the following:

- Eliminate parking garages from the RFQ process.
- Bring the Civic Center issue back for further discussion.
- Include the Coxe Avenue transit station and Hunt Hill building in the RFQ process.
- Regarding the Charlotte Street property, craft the RFQ to say that we have very valuable buildings and facilities that we want to retain but that that we are willing to entertain opportunities that are place-making in nature.

426

**January 9, 2007 City Council Meeting**
City Council approves a resolution to enter into an agreement with Real Estate Research Consultants for the project management and marketing of an RFQ for the redevelopment of City-owned property.

**February 13, 2007 Planning and Economic Development Committee Meeting**
The Committee received a report on the legal review of the contract for project management assistance for the RFQ process.

**February 27, 2007 City Council Meeting**
City Council approves a resolution to enter into an agreement with Real Estate Research Consultants, Inc. for project management on the City Owned Property RFQ.

**April 11, 2007 Planning and Economic Development Committee Meeting**
Sam Powers updated the committee that the consultants would be presenting information to City Council during the May 2007 meeting.

**May 22, 2007 City Council Meeting**
Resolution approved to release an RFQ for the development of City-owned properties, including the Haywood Street properties, the Eagle Market Street properties, Office of Economic Development properties and Park Maintenance properties.

**July 11, 2007 Planning and Economic Development Committee Meeting**
Sam Powers presented a status report on City Property RFQ's; Phase II RFQ for Haywood Street/Page properties presented. The RFQ was sent to 500 firms; the report included a milestone timeline.

**August 21, 2007 City Council Meeting**
Resolution authorizing an agreement with Real Estate Research Consultants for the Request for Proposals (RFP) phase of project management for the development of a short list of firms who responded to the request for proposals.

**August 24, 2007 Downtown Commission**
Sam Powers provided a status report on the RFQ/RFP process.

**October 16, 2007 City Council Meeting**
City Council approved a short list of pre-qualified developers to be invited to submit a proposal.

**February 19, 2008 City Council Meeting**
City Council approved a resolution to amend the agreement with Real Estate research Consultants for an expanded scope of services. This allowed the project manager to assist in detailed negotiations with the firms submitting proposals.

**April 22, 2008 City Council Meeting**
City Council directed staff to enter into negotiations with the McKibbon Hotel Group to draft a development agreement for City Council review and approval.

**May 14, 2008 Planning and Economic Development Committee Meeting**
Sam Powers presented a report on the City Owned Property RFP. Council authorized staff to begin looking at components that would be included in a draft development agreement regarding the Haywood Street/Civic Center site.

**June 11, 2008 Planning and Economic Development Committee Meeting**
Sam Powers gave an update on the City Owned Property RFP; April 22, 2008 Council approved moving forward with negotiations on a draft development agreement. Staff stated that they would present draft agreement to Council in August 2008.

It was also reported that a meeting between the Basilica and McKibbon representatives occurred to discuss the letter written by the Mayor requesting a partnership to include both properties in the development of a new public space. McKibbon stated that it is committed to a "gateway" project.

**July 9, 2008 Planning and Economic Development Committee Meeting**
Sam Powers presented the update on the City Owned Property RFP; the process was on schedule. At that time McKibbon was not looking to include public parking, but was still investigating public/private partnership on the public space.

**August 20, 2008 Planning and Economic Development Committee Meeting**
Sam Powers presented an update on the City Owned Property RFP; the City received a revised letter of intent from the McKibbon Hotel Group on September 12, 2008. A meeting with Basilica representatives, the City and the developer was to take place to discuss possible public space on the triangle of land at Page Avenue and Haywood Street

**November 19, 2008 Planning and Economic Development Committee Meeting**
Sam Powers presented update on RFP for the Haywood Street Property; the McKibbon proposal included a Westin Element hotel. The City was finishing a due diligence on the offer and on the covenants and conditions of the sale to ensure development was to occur in the manner that the City envisioned.

**January 21, 2009 Planning and Economic Development Committee Meeting**
Sam Powers presented update on RFP for the Haywood Street Property; staff was negotiating agreement with McKibbon Hotel Group. A letter was sent to Bud Hansbury reinforcing Council's invitation to partner with the Basilica to develop the public space owned by the Basilica

**March 11, 2009 Planning and Economic Development Committee Meeting**
Sam Powers presented the update on the RFP for the Haywood Street Property. The city attorney was in the process of drafting a development agreement for review by the McKibbon Hotel Group; staff conducted outreach to stakeholders in the area to update them on the project. The City continued to entertain partnership opportunities on developing the public space on Basilica property. Once the draft development agreement was reviewed by McKibbon, staff would meet with Council in small groups to update them.

**April 8, 2009 Planning and Economic Development Committee Meeting**
Sam Powers presented the update on the RFP for the Haywood Street Property. City was still in the process of working on the development agreement with the intent of presenting it to the McKibbon Group once it was completed. Multiple meetings were held with McKibbon and the Basilica at the invitation of the City to partner on the development of public space on land owned by the Basilica. The City was in the process of updating the appraisal.

A motion was made that the Haywood Street Property issue be moved to Council in the form of a development agreement; the motion was passed unanimously.

**May 13, 2009 Planning and Economic Development Committee Meeting**
Sam Powers presented the update on the RFP for the Haywood Street Property. The City was preparing a draft purchase and sale agreement, and was following up with McKibbon Hotels representative Wes Townsend.

**June 10, 2009 Planning and Economic Development Committee Meeting**
Sam Powers provided a summary of correspondence with the Basilica to help clarify discussions on the public space.

**July 15, 2009 Planning and Economic Development Committee Meeting**
Stephanie Monson provided an update on the site modeling in conjunction with RENCI

**August 12, 2009 Planning and Economic Development Committee Meeting**
Stephanie Monson provided another update on the site modeling project in conjunction with RENCI.

**September 9. 2009 Planning and Economic Development Committee Meeting**
Sam Powers gave a report on the modeling project in conjunction with RENCI.

**November 11, 2009 Planning and Economic Development Committee Meeting**
Stephanie Monson presented site models developed by RENCI. The Committee directed staff to continue working under the intent of Council's initial request and discontinue the modeling system for this purpose.

**April 19, 2011 Planning and Economic Development Committee Meeting**
Bob Oast provided a summary of progress relating to the McKibbon Hotel Group negotiations. The Committee directed Mr. Oast to move forward with McKibbon Hotel Group on a formal track.

**June 21, 2011 Planning and Economic Development Committee Meeting**
Bob Oast gave an update on negotiations with the McKibbon Hotel Group, who had asked for an additional 20 – 60 days to look at their previous offer. Mr. Oast planned to work on the development agreement during that time. Additionally, he stated that much of the design of the structure had been defined with the adoption of the Downtown Master Plan.

**January 10, 2012 City Council Meeting**
City Council heard a presentation on a December 2011 proposal made on behalf of The Office of the Bishop of the Roman Catholic Diocese of Charlotte for the purchase of the City-owned, Haywood Street properties.

**January 17, 2012 Planning and Economic Development Committee Meeting**
At the direction of Council, the Planning and Economic Development Committee considered the proposal made on behalf of The Office of the Bishop of the Roman Catholic Diocese of Charlotte. At that meeting, committee members reaffirmed Council's commitment to the Request for Proposals process approved by Council and managed by city staff in 2007/2008.

**January 30, 2012 Letter**
The City of Asheville responded to the proposal from the Basilica of St. Lawrence.

**February 21, 2012 Planning and Economic Development Committee Meeting**
The Committee received an update on the drafting of the purchase agreement and shared staff's intent to receive the formal committee direction at their March meeting.

**March 20, 2012 Planning and Economic Development Committee Meeting**
The Committee received an update on from (i) City Attorney Bob Oast on the purchase contract for the McKibbon Hotel Group (MHG), and (ii) received a presentation from MHG on the elements, terms and the plan in which they wish to proceed, which would be incorporated into the development agreement. The Committee directed the item to go the full City Council. The following next steps were also discussed:

- The project would not be considered by full Council for at least a month;
- Talk to the Asheville Design Center regarding their expectations;
- Seek consultation from development attorneys on how to structure the additional processes Planning and Economic Development Committee suggested;
- Reach out to representatives of the Basilica and other neighbors to advise them that there would be an opportunity for additional input from them in this process as it moved forward in addition to just the ordinance requirements that Council puts on any property;

- Have additional consultation/conversations with the MHG on how the terms could be further analyzed to include greater clarity.

**May 10, 2012 City Staff Participation in Collaborative Design meeting**
City staff attended a meeting with representatives from the Asheville Design Center (ADC), the Basilica, and McKibbon at the offices of McGuire, Wood, and Bissette.

**May 15, 2012 Planning and Economic Development Committee Meeting**
The Committee received a brief update that City Attorney Bob Oast is reviewing the role for the Asheville Design Center on the project.

**May 31, 2012 City Staff Participation in Collaborative Design meeting**
City staff attended a meeting with representatives from the ADC, the Basilica, and McKibbon at City Hall.

**June 14, 2012 City Staff Participation in Collaborative Design meeting**
City staff attended a meeting with representatives from the ADC, the Basilica, and McKibbon at City Hall.

**July 5, 2012 McGuire, Wood & Bissette letter**
The City of Asheville received a letter from Attorney Louis Bissette representing the Basilica, outlining the following points:

- The Basilica had concluded the only way for it to protect itself and meet its interest is to have control on the city owned Haywood Street property.
- The Basilica was pulling out of the collaborative design discussions.
- The Basilica requested the Mayor put this development issue on the city council's agenda for determination.

**July 31, 2012 City Staff Participation in Collaborative Design meeting**
City staff attended a meeting with representatives from the ADC at the Civic Center.

**August 1, 2012 City Staff Participation in Collaborative Design meeting**
City staff attended a meeting with representatives from the ADC and McKibbon at City Hall.

A supplement memorandum was provided by the City Attorney outlining the state statutory process for completing a public real estate sale by a request for proposal process.

The following is the fiscal note: The purpose of this fiscal note is to provide City Council with financial considerations associated with the properties located at Haywood Street and Page Avenue. As City Council evaluates offers to purchase the property, staff recommends Council consider from a financial perspective:

- The City's financial history with the site, including its investment in the purchase of the land and previous project costs that have already been incurred and cannot be recovered (Section A);
- The most recent property appraisal, and (Section B);
- The property tax return on possible redevelopment scenarios (Section C);

**(A) Financial History**

In FY 2000, a budget was adopted for the "Battery Park parking project," a parking project contemplated at the property located ay Haywood Street and Page Avenue. While the project was active, the following revenues and expenses were recorded to the project:

Revenues:

| | |
|---|---|
| Parking Transfer | $341,000 |
| Rent | $44,000 |

Expenses:

| | |
|---|---|
| Land | $2.7 million |
| Professional Services | $1.3 million |
| Utilities, Legal, Other | $62,000 |

Project Balance: ($3.66 million)

The land associated with this project was purchased by the Parking Fund, and it is recorded as a fixed asset in that fund. If the land is sold, the proceeds from the sale would be returned to the Parking Fund. The negative project balance shown above has already been netted out of current Parking Fund fund balance projections, and so proceeds from the sale would add to the fund's reserves.

The original parking project considered at this site was not completed, and the project was deferred. Later, in 2006, City Council directed staff to include the site in the RFQ process for redevelopment proposals.

The original project has been inactive since 2006. Staff will close the project this fiscal year.

**(B) Property Appraisal**

Based on an appraisal completed on February 22, 2012, the market value of the assembled properties (three parcels and an alley) was $2,526,000.

**(C) Property Tax Projections**

Based on real estate comparables for a full service hotel with 100-125 rooms, an average annual property tax payment of $61,000 could be expected by the City of Asheville. The City of Asheville owns the properties at 68 Haywood, 76 Haywood, and 33 Page, thus there is no property tax revenue currently generated from those properties.

In response to Councilman Hunt, City Attorney Oast said the statute pursuant to which we have been proceeding is an economic development statute which allows us to convey property pursuant to private negotiation and sale, which is what we are doing in this case. That can only be done after a public hearing. At that public hearing, Council will receive information related to such things as the number of jobs that will be created, the tax value that will be added to the property, and other kinds of economic development information to ensure that the purpose of the economic development statute are being met by the proposed development. The statute specifically authorizes Council to impose conditions on the transfer to ensure that the public interest will be met. The public hearing on September 11 will be to authorize a contract which will be available for review before that time. There may be some things Council will want to add to the contract at that time and we would finalize it subject to Council's comments. Based upon what we know about the project now, it is a Level II project, which means that it would undergo design review at the Downtown Commission level and that any permits/approvals issued pursuant to the process would be incorporated into the development agreement.

Councilman Bothwell noted that the Planning & Economic Development (PED) Committee did not endorse this plan – they advanced it to Council. When it was discussed in January, he felt we should terminate this plan, because the agreement that was signed in 2008 stipulated that the project would be substantially complete within 2-3 years and Council never

voted to extend that agreement. That is the reason why he objects to continuing the project because the agreement has expired. When he voted in June to advance it to Council was because it was not going to be resolved in the PED Committee.

In response to Councilman Bothwell, City Attorney Oast said that there has been no signed contract to date but in the contract it will be specified that the project has to be complete within a certain amount of time, and that time will likely be 3 years or less.

Councilman Bothwell briefly offered another timeline about the history of some other projects in the City. The City bought the land with the intent to build a parking garage, but the citizens reacted very badly to that idea. In 2005 over 3,000 people signed a petition saying they wanted a public park or a public space at that location. Over 1,000 people signed onto a Citizen-Times one-page ad at the same time asking for the same thing. An organization he is involved with (People Advocating Real Conservancy) hired a polling company to do a phone poll of people who voted for this Council and of those people polled 78% did not want a hotel on this property. These indicate the will of the people.

Councilman Hunt felt we needed to move forward to the public hearing to see what kind of project that might yield and decide how to proceed at that point. Not that he is in favor of any of the following, but the property has several options including, but not limited to (1) surface parking; (2) creation of a public park; (3) a mixed use development that includes a pocket park/plaza; or (4) end the RFP process and begin negotiations with representatives of the Basilica.

In response to Councilman Smith, Director of Finance and Management Services said that the Parking Fund actually purchased the property. Proceeds from the land sale would be returned to the parking fund. However, it would add to the Fund Balance in that Fund and Council could choose to direct that money toward capital needs for parking or for other priorities as determined by the Council. City Manager Jackson also noted that in 2005 the minutes reflect that some benefit of this land development process should be to bring in more resources for affordable and workforce housing.

Councilman Smith was surprised to see one intent of the RFP was to establish more affordable and workforce housing. Creating affordable housing downtown is extraordinary difficult and he did not support creating affordable housing at this site. However, he would be interested in seeing how a developer might work with Council on how to achieve its strategic goals, which might be an allocation from the proceeds of the land sale into the Affordable Housing Trust Fund. He noted that the City has already spent $68,000 on the RFP process. Noting ways the Asheville Design Center has helped the process along, he hoped we can retain them through the rest of this process.

Councilman Davis recalled that Council was trying to find ways to make it affordable to live in the City by possibly converting land just sitting there. This property was added to that grouping and was not thought of from that standpoint. Regarding the poll, he appreciated the effort of PARC, but felt the poll was biased.

Mayor Bellamy said that at the public hearing there will be the opportunity for the public to address Council first-hand. She reiterated that on August 28, City Council will place on their consent agenda a resolution setting the public hearing for September 11, 2012. On September 11, Council will hear all comments and decide whether to move forward or start over.

**B. WATER RESOURCES UPDATE**

Water Resources Director Steve Shoaf briefly updated Council on the Water Resources events as follows:

At the July 31, 2012, City Council worksession (1) Overview of COA Water Resources; (2) Overview of MSD Impact Study; (3) Raftelis to review of governance models; and (4) Discussed options for Council interaction with MSD and North Carolina legislature - Suggestion to appoint a Process Manager to provide regular updates to Council.

On August 1, there was a meeting with MSD and Malcolm Pirnie/Arcadis to review project scope, establish timelines for study concerning Impact on MSD Rate Payers of Proposed Consolidation/Merger (1) November 2012 – report on potential impacts to MSD ratepayers of merger with Asheville; and (2) January 2013 – report on potential impacts to MSD ratepayers of merger with other systems in the region.

On August 7, there was a meeting of Ad Hoc City Council committee to discuss next steps for Council consideration.

On August 8, there was a meeting of COA Impact Analysis Team (Finance, WR, IT, HR, Admin) as part of internal review. Established sub-task work groups (1) MSD merger study relations; (2) Internal financial analysis; (3) Asset fair market value; (4) Governance models; and (5) Internal and external communications.

In response to Councilman Bothwell, Mr. Shoaf said that staff will provide Council with an estimate of cost for the analysis work when he brings the contract with Raftelis to Council on August 28.

Vice-Mayor Manheimer and Councilman Davis briefly updated Council on their ad hoc committee meeting, noting that they will be fairly static until the work of Raftelis is completed. The Committee will have a preliminary meeting with representatives from MSD to let them know how the ad hoc committee came to be but that the Committee is waiting for more information before we can have substantive conversations. Mayor Bellamy asked that the ad hoc Committee be prepared to report on their meetings during these bi-weekly updates.

Regarding the City's joint meeting with the legislative delegation on August 27, Mayor Bellamy said that Senator Apodaca, Rep. Keever and Rep. Moffitt will be unable to attend the meeting. Rep. Fisher, Rep. McGrady and Senator Nesbitt are able to attend. She asked for Council consensus on whether the meeting should take place or not, given that this is the second time we have tried to find a suitable date for all involved and the original intent of the meeting was to get clarification from Rep. Moffitt about whether we were proceeding in a fashion that aligned with the Legislative Study Committee mandate of good faith and how our broad efforts would go along with that.

After a brief discussion, it was the consensus of Council to extend a third invitation to our legislators get at least a majority attendance because she wants to make sure we do all we can to try to save our system. She felt strongly that the body of Council hear the same thing as it relates to House Bill 1009 as well as other issues. If that third meeting does not come to fruition, she would continue to try other ways to meet with them as a body.

Vice-Mayor Manheimer hoped the City would consider renewing the contract with Jack Cozort in an effort to help facilitate our legislative interactions. City Attorney Oast said that this will come back to Council as a budget amendment and we will make sure that he discusses Council's expectations with Mr. Cozort. Mayor Bellamy said that the budget amendment would be placed under New Business.

Mayor Bellamy asked for guidance from Council on whether to move forward with a meeting with water and sewer service providers. She provided Council with a listing of those invited and their response to date. That meeting would be to talk about if we are looking at consolidation, it's not just City and MSD, but looking at what does that look like for the region, if it is truly a regional effort. She felt it was important for these bodies to come together because she

felt we should reach out to them and let them know the status of what is happening in the City of Asheville, our process and our possible governance structure. She did not want any other body blindsided like Asheville was.

After a brief discussion, it was the consensus of Council to keep the lines of communication open in as many ways as possible including at the management level. Mayor Bellamy did not support not trying to meet with the surrounding water and sewer provides as she continued to believe that Council should hear all the same information at the same time.

**IV. PUBLIC HEARINGS:**

**A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED ON 80 HARDESTY ROAD FROM RS-2 RESIDENTIAL SINGLE-FAMILY LOW DESNITY DISTRICT TO INDUSTRIAL DISTRICT/ CONDITIONAL ZONING TO ALLOW FOR THE OPERATION OF A TYPE III COMPOST FACILITY UTILIZING THREE IN VESSEL COMPOST ROLL-OFFS**

**ORDINANCE NO. 4108 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED ON 80 HARDESTY ROAD FROM RS-2 RESIDENTIAL SINGLE-FAMILY LOW DESNITY DISTRICT TO INDUSTRIAL DISTRICT/CONDITIONAL ZONING TO ALLOW FOR THE OPERATION OF A TYPE III COMPOST FACILITY UTILIZING THREE IN VESSEL COMPOST ROLL-OFFS**

Urban Planner Julia Fields said that this is the consideration of an ordinance to conditionally zone from RS-2 Residential Single-Family Low Density District to Industrial District/Conditional Zoning for a project identified as Danny's Dumpster Compost Facility located on a portion of 80 Hardesty Road, to allow for the operation of a Type III compost facility utilizing three in vessel compost roll-offs, and a modification request to property line buffer standards as required in Section 7-11-3(d)(1) of the Unified Development Ordinance. This public hearing was advertised on August 3 and 10, 2012.

Ms. Fields said that the subject property is located off of Hardesty Lane in East Asheville. Hardesty Lane is a private drive into City-owned property located off of Azalea Road East. The site has recently been addressed as 120 Hardesty Lane. The subject property is an approximately 5.5 acre portion of a 33.48 acre site owned by the City of Asheville. The larger City-owned property is currently used for gardening/farming and is the location of the City's beneficial fill site.

The applicant, Danny's Dumpster (Danny Keaton), is requesting a conditional zoning amendment from RS2 (Residential Single-Family Low Density District) to INDCZ (Industrial Conditional Zoning District), in order to develop and operate a compost facility on this property. It is proposed that the operations would include the hauling of compostable materials (not vegetable oil) to the facility and the collection of leaves and wood chips at the site. All materials will be mixed and processed into finished compost/quality topsoil as a by-product. The process will require an employee to be on site only four hours per day, five days per week. The site abuts a Norfolk Southern Railway line and a small portion is in a flood protected area. Three "in-vessel roll-off structures" will be located on the site. No potable water is available onsite. Fire suppression will be provided via a dry hydrant/existing retention pond on the larger parcel.

A modification is requested to waive the property line buffer standards as set forth in Section 7-11-3(d)(1) due to the nature of the location on the site and the nature of the operation and surrounding uses.

In addition to the standard conditions, staff recommends that a condition be added to require all traffic to and from the site to be routed off of Azalea Road East via Tunnel Road and

not through the recreation complex. The Planning and Zoning Commission, at a meeting on July 19, 2012, expressed support for this condition and recommended an additional condition that the operation be an in-vessel compost process only.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The project, if approved, must meet the technical standards set forth in the City's Unified Development Ordinance and Standards and Specifications Manual. The existing site plan shows compliance with most applicable development standards.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   The proposed use would be located in a low lying area between the Swannanoa River and the I-240 right-of-way and Norfolk Southern rail line. Topographically and due to significant vegetation the site is not visible from many surrounding areas.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
   The site is proposed to be located on a portion of a larger site that hosts a landfill for structural and debris fill and gardening and farming sites. The proposed operation will be compatible with these uses and is far removed from other land uses off of Azalea Road.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
   No permanent, habitable structures will be placed on the site. Three in-vessel roll-off structures will be placed on the site to accommodate the composting operation. The operation will be in harmony with the abutting uses on the same large parcel.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
   The proposed use supports the comprehensive plan goal of diverting solid waste and organic materials from landfill disposal through creative/innovative measures. Additionally, it aligns with Council's strategic planning objective of supporting opportunities for reducing city-wide solid waste.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
   There is no potable water needed for this operation. Fire suppression will be handled via a dry hydrant/existing retention pond on the larger parcel. A portable toilet will be required on site. All other technical aspects of this project have or can be met by the applicant.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
   The use will be located on a drive that experiences little traffic. A proposed condition would require that traffic to the site be routed off of Azalea Road East via Tunnel Road

and not through the recreation complex located on Azalea to the west. No new drive will be created for this use.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

This conditional zoning request was recommended for approval by a 4-0 vote of the Planning and Zoning Commission; the only person to speak at the commission meeting was the applicant.

Pros:

- The proposed use provides for a much needed facility in Asheville which will support City goals for diverting waste from landfill disposal.
- The proposed use is located on currently unused City property and is compatible with other uses on that property.

Con:

- None noted.

Staff and the Planning and Zoning Commission recommend approval to a modification to waive the property line buffer standards as set forth in Section 7-11-3(d)(1) and subject to the standard conditions listed below and the following additional conditions: (1) That traffic to and from the site be routed off of Azalea Road East via Tunnel Road and not through the recreation complex located on Azalea to the west; and (2) That the operation be an in-vessel compost process only.

Mayor Bellamy opened the public hearing at 7:23 p.m. and when no one spoke, she closed it.

In response to Councilman Davis, Mr. Danny Keaton said that because of continuous air being pumped through the material, there would be no odor.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No.4108, to conditionally zone to consider conditional zoning from RS-2 Residential Single-Family Low Density District to Industrial District/Conditional Zoning for a project identified as Danny's Dumpster Compost Facility located on a portion of 80 Hardesty Road, to allow for the operation of a Type III compost facility utilizing three in vessel compost roll-offs, and approval of the modification request to waive the property line buffer standards as required in Section 7-11-3(d)(1) of the Unified Development Ordinance, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10 of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with this ordinance, will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards; (6) That traffic to and from the site be routed off of Azalea Road East via Tunnel Road and not through the recreation complex located on Azalea to the west; and (7) That the operation be an in-vessel

compost process only. This motion was seconded by Councilman Bothwell and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 436**

**B. PUBLIC HEARING TO CONSIDER AN ECONOMIC DEVELOPMENT INCENTIVE GRANT FOR LINAMAR CORPORATION**

**RESOLUTION BOOK NO. 12-185 - RESOLUTION AUTHORIZING AN ECONOMIC DEVELOPMENT INCENTIVE GRANT FOR LINAMAR CORPORATION FOR PHASE II EXPANSION**

**ORDINANCE NO. 4109 - BUDGET AMENDMENT FOR FIRST YEAR ECONOMIC DEVELOPMENT PAYMENT**

This public hearing was advertised on August 3, 2012.

Economic Development/Civic Center Director Sam Powers said that this is the consideration of a resolution approving a $1,000,000 economic development incentive grant for Linamar Corporation and the corresponding budget amendment in the amount of $200,000 from property tax revenue for the estimated first year's installment of this five-year economic development incentive grant.

This is consideration for an economic development incentive grant under the City of Asheville Economic Development Incentive policy. Linamar Corporation is a world-class designer and diversified manufacturer of precision metallic components and systems for the automotive industry, energy and mobile industrial markets. The company is proposing new, taxable, capital investment of $75,000,000 for additional production equipment and facility improvements at the local facility in South Asheville, and has requested consideration of a cash grant under the City of Asheville Economic Development Incentive policy. The purpose of this investment is to allow Linamar to expand its operations, and is projected to result in the creation of a substantial number of jobs that pay at or above the median average wage for Buncombe County.

Linamar has requested consideration of a performance-based incentive grant under the City of Asheville Economic Development Incentive policy. The City proposes to offer Linamar a performance-based grant not to exceed $1,000,000. The performance-based grant will be paid over a five (5) year period. Payments begin after the investment is made, taxes are paid and verified, and the company requests payment. The amount of the annual payment will take into consideration the estimated annual ad valorem property tax revenue attributable to the capital improvements, and each annual payment is projected to equal 75% of said estimated revenue. Any amounts paid to Linamar pursuant to the Agreement are subject to adjustment or recapture if the terms and conditions of the Agreement as to investment and job creation are not fulfilled.

The City will fund the payments from the general fund. The purpose of the proposed cash grant is to encourage Linamar to proceed with its proposed expansion. Staff believes that the project will further the economic interests of the area served by the City in several ways, including, but not limited to: (a) creating a substantial number of jobs having a wage at or above the median average wage for Buncombe County; (b) enhancing the City's tax base and the City's tax revenues; and (c) encouraging the retention and expansion of a major industrial operation in an existing facility.

The economic development incentive grant ties into City Council's Strategic Operating Plan as it addresses multiple focus areas of the Plan.

Pros:

- Performance driven grant that is distributed after job and investment is achieved;

- Supports job creation and capital investment in manufacturing in Asheville;
- Supports retention and expansion of existing industry in the City;
- Supports development of an identified economic cluster in the city; and,
- Supports regional and state cooperation in the project.

Con:

- Grant is formulated based on use of approximately 75% of the value of new incremental tax revenue for a five year period.

The project has a positive fiscal impact on tax revenues received by the City. Initially (during the grant period), the City will receive approximately 25% of the new incremental tax revenues from the project. After five years, the City will henceforth capture 100% of the new taxes.

City staff recommends Council approve the resolution authorizing an economic development incentive grant for Linamar Corporation not to exceed $1,000,000 and also the corresponding budget amendment in the amount of $200,000 from property tax revenue for the estimated first year's installment of this economic development incentive grant.

Mayor Bellamy opened the public hearing at 7:34 p.m.

Mr. Ben Teague, representing the Economic Development Coalition, read a letter from executives of Linamar who were unable to attend this meeting. They appreciated the support of the City and felt it was a privilege to be a part of the Asheville community. They hoped to be an exemplary citizen for many years to come.

Mayor Bellamy closed the public hearing at 7:36 p.m.

Mayor Bellamy conveyed her appreciation of having 250 new jobs coming to our community paying above Buncombe County wage. She was also excited about the fact that they are partnering with A-B Technical Community College for training many Asheville and Buncombe County residents.

Councilman Hunt, liaison to the Economic Development Coalition, highlighted how adding jobs don't happen by accident, but with community leadership. He thanked the Economic Development Coalition for their hard work on bringing Linamar to Asheville.

Councilman Bothwell said we live in a business culture in which large corporations extort this kind of money from communities, or they would locate elsewhere. He could not support this action.

Mayor Bellamy said that in the multi-decade model, the investment of incentives more than pay for themselves, and if Asheville is not going to offer incentives, then she felt it would put us out of the competitive field.

Mayor Bellamy said that members of Council have previously received copies of the resolution and ordinance and they would not be read.

Councilman Hunt moved for the adoption of Resolution No. 12-185. This motion was seconded by Councilman Davis and carried on a 6-1 vote, with Councilman Bothwell voting "no."

**RESOLUTION BOOK NO. 35 – PAGE 46**

Vice-Mayor Manheimer moved for the adoption of Ordinance No. 4109. This motion was seconded by Councilman Hunt and carried on a 6-1 vote, with Councilman Bothwell voting "no."

## V. UNFINISHED BUSINESS:

### A. COUNCIL TO DETERMINE WHO TO INTERVIEW FOR THE PLANNING & ZONING COMMISSION

It was the consensus of Council to interview Joe Minicozzi, Abigail Emison (the two individuals who completed the required essay questions) and the two seated members Mark Brooks and Holly Shriner.

## VI. NEW BUSINESS:

### A. RESOLUTION NO. 12-186 - RESOLUTION CALLING FOR A SPECIAL ELECTION ON THE QUESTION OF WHETHER THE CITY SHOULD SELL OR LEASE ITS WATER SYSTEM

City Attorney Oast said that this is the consideration of a resolution requesting referendum on the sale or lease of the City's water system.

The general law in North Carolina is that there must be specific authority to conduct an election or referendum on any matter. Municipalities are authorized, if not required, by general law to hold referenda or special elections for certain purposes. One of the purposes for which a special election or referendum is authorized is in regard to the sale, lease or discontinuation of its water system. N.C.G.S. 160A-321 provides as follows:

(a) A city is authorized to sell or lease as lessor any enterprise that it may own upon any terms and conditions that the Council may deem best. However, except as to transfer to another governmental entity pursuant to G.S. 160A-274 or as provided in subsection (b) of this section, a city-owned enterprise shall not be sold, leased to another, or discontinued unless the proposal to sell, lease or discontinue is first submitted to a vote of the people and approved by a majority of those who vote thereon. Voter approval shall not be required for the sale, lease, or discontinuance of airports, off-street parking systems and facilities, or solid waste collection and disposal systems.

(b) For the sale, lease or discontinuance of water treatment systems, water distribution systems, or wastewater collection and treatment systems, a city may, but is not required to, submit to its voters the question of whether such sale, lease, or discontinuance shall be undertaken. The referendum is to be conducted pursuant to the general and local laws applicable to special elections in such city.

As Council knows, a legislative study committee that met during the winter and spring of 2012 made several recommendations. One of the recommendations was that the water system and sewer system be merged or consolidated.

Pursuant to N.C.G.S. 163-287, the City has the authority to call a special election "as permitted by law." Subsection (b) of N.C.G.S. 160A-321, which was added to the statute in 2011, permits, but does not require, a city to seek voter approval for the sale, lease, or discontinuance of water treatment and distribution systems. To the extent that the consolidation could include a sale or lease of the system, N.C.G.S. 160A-321 allows the City to seek voter approval. The Council must first adopt a resolution specifying the details of the election, and specifying the date. The date proposed is November 6, the date of the upcoming general election. The details of the

election would include the language of the question to be put to the voters, reading substantially as follows:

> "Shall the City of Asheville undertake the sale or lease of its water treatment system and water distribution system, including the reservoirs, watershed lands, water lines, pump stations, storage tanks and other facilities used by the City of Asheville for the treatment and distribution of water?"

This language is a suggestion, and may be revised, but should be consistent with the statutory authorization.

The language of the statute limits the voters eligible to participate in such a referendum to City voters. The results of the referendum would be binding such that, if the vote was "no," the system could not be sold or leased.

He provided Council with a resolution for Council's consideration calling for a special election pursuant to N.C.G.S. 160A-321 on November 6, 2012, and setting out the question to be put to the voters.

A cost estimate for this election has been requested from the Board of Elections.

If Council desires to call for special election, adoption of the resolution is recommended.

Vice-Mayor Manheimer said that at the July 31 worksession she introduced the idea of conducting a referendum in the November election regarding the potential sale or transfer of our water system. In compliance with the Legislative Study Committee report, the City has put together a group to begin to talk to MSD and explore all our options. As a body, we are not in favor of any legislation transferring our water system.

In response to Councilman Bothwell, City Attorney Oast said that if the vote is not in favor of selling or leasing the water system, the vote would be binding.

Mayor Bellamy asked if we hold a referendum and the citizens say they don't want the City to sell or lease the water system but the State makes us give it away, do we negate the opportunity to be compensated. She didn't want to do anything to stop Asheville from being compensated. City Attorney Oast said that the use of sale or lease in the statute contemplates a voluntary transaction. The statute does not address a situation where the City was forced to transfer its assets involuntarily.

Councilman Hunt suggested an amendment to the language on the ballot; however, after a brief discussion he withdrew his suggestion.

Councilman Pelly suggested a friendly amendment to his motion for the language on the ballot to read "Shall the City of Asheville undertake the sale or lease of its water treatment system?" Vice-Mayor Manheimer accepted the friendly amendment.

In response to Councilman Davis, City Attorney Oast said the only City voters will be allowed to vote on this question, not all water ratepayers.

Councilman Davis said that he would support this resolution as he felt it was important to be united in this effort, but he had some reservations about this being the best thing.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Pelly moved for the adoption of Resolution No. 12-186. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 47**

**B. DISCUSSION OF N.C. LEAGUE OF MUNICIPALITIES' LEGISLATIVE AGENDA**

City Attorney Bob Oast said that the N.C. League of Municipalities (NCLM) is developing its legislative advocacy agenda for 2012-13. The NCLM is requesting input from member municipalities, and has asked for that input to be provided by August 31. This continues a process that the NCLM began in 2010 for 2011-13 Session of the North Carolina General Assembly

NCLM's legislative agenda is oriented to matters of importance to municipalities across the State, not to any particular municipality. Individual cities, including Asheville, develop and pursue their own legislative agendas. When the NCLM can help with their individual agendas, they do.

For guidance on the kinds of subjects that the NCLM is seeking input on, he provided Council with a copy of the current NCLM legislative advocacy agenda.

The purpose of having this item on the agenda today is to start the discussion. The item will appear again on August 28 for action. As Council knows, we anticipate meeting with some of our legislators on August 27, and this meeting should provide some useful information about what to expect in the next session, which begins in January.

He would be glad to obtain more information on any legislative matter for Council, or to talk with NCLM staff about a particular matter

Mayor Bellamy asked two issues be added to our state legislative agenda, because they have a statewide impact and are not our issues to govern (1) the state law for women to go topless; and (2) issues around mopeds. She felt we needed to refer these to the NCLM to add to their agenda.

Councilman Hunt said there is a movement to make it so that most, if not all, debt issued by a municipality would be subject to a general referendum of voters. That would make our lives very difficult to finance capital projects. There are others, especially on the fiscal front, that municipalities are increasingly limited on their ability to conduct business. At Mayor Bellamy's suggestion, Councilman Hunt said that he would be happy to consider serving on a NCLM committee that looks at these issues.

Councilman Smith asked that they consider legislation that would allow cities and counties to be able to set the occupancy tax rates for hotels/motels within their borders.

At the August 28 meeting, she urged Council to bring up any of their statewide issues which we can forward onto the NCLM.

**C. BOARDS & COMMISSIONS**

Regarding the Civic Center Commission, the following individuals applied for the vacancy: Deanna Reeder, Grant Millin, Angela Rutledge, Chris Bubenik, Antonio Hinton, Arthur Ollendorff, Elizabeth Franks and Suzanne Rice. It was the consensus of Council to instruct City Clerk Burleson to arrange interviews for Chris Bubenik, Antonio Hinton and Arthur Ollendorff.

Regarding the Noise Ordinance Appeals Board alternate seat, the following individuals applied for the vacancy: James Reato, Jessica Byrd and Elizabeth Franks. Because of the revisions to the noise ordinance currently being advertised, it was the consensus of Council to re-advertise for the alternate seat.

Regarding the Airport Authority, Mayor Bellamy was concerned about City representation on the Authority. She was also concerned that the Airport Authority will be meeting on August 17; however, it was her understanding that the Authority will not seat her as a member of the Authority, even though City Council appointed her on June 26, 2012. City Attorney Oast said that Mayor Bellamy can attend the meeting as a member of the public; however, our communication with the Authority indicates that she will not be seated.

**RESOLUTION NO. 12-187 - RESOLUTION APPOINTING MEMBERS TO THE AMERICANS WITH DISABILITIES ACT COMPLIANCE COMMITTEE**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Americans with Disabilities Act (ADA) Compliance Committee.

The terms of Julie Fulwood (representing the business or non-profit sector) and Teresa Foster-Moorefield (representing the education & the health/medical profession) expire on August 22, 2012. In addition, there currently exists a vacancy for a representative of the disabled community, whose term will expire August 22, 2013.

The following individuals have applied for a vacancy on the ADA Compliance Committee: Florence Bannon and Daniel Bridges.

It was the recommendation of the Boards & Commissions Committee, at the suggestion of City Attorney Oast, that (1) the Committee remain in existence, and that the committee members stay on in an "inactive" status; and (2) appoint Florence Bannon (representing the disabled committee) to the Committee to serve in an "inactive" status. In the event that a hearing is required, or the Committee is required to transact other business, the Committee members will be contacted by the Secretary to the Committee.

Councilman Smith moved to (1) reappoint Julie Fulwood and Teresa Foster-Moorefield to the ADA Compliance Act Compliance Committee on an "inactive" status; and (2) appoint Florence Bannon to an "inactive" status and in the event that a hearing is required, or the Committee is required to transact other business, the members would be contacted by the Secretary to the Committee. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 48**

**RESOLUTION NO. 12-188 - RESOLUTION APPOINTING MEMBERS TO THE HUB COMMUNITY ECONOMIC DEVELOPMENT ALLIANCE**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the HUB Community Economic Development Alliance.

The terms of Steve Cochran, Richard Stiles, Cheryl McMurray and Scott Dedman, members of the Alliance expire on August 22, 2012.

The following individuals have applied for a vacancy: Antonio Hinton, Kelly Erin-Spinney, Julie Mayfield and Grant Millin.

It was the consensus of the Boards & Commissions Committee to reappoint Mr. Richard Stiles, appoint Julie Mayfield and interview for the remaining vacancies.

Councilman Hunt moved to (1) reappoint Richard Stiles to serve an additional three-year term, term to expire August 22, 2015, or until his successor has been appointed; (2) appoint Julie Mayfield to serve a three year term, term to expire August 22, 2015, or until her successor has been appointed; and (3) re-advertise for the remaining two vacancies. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 49**

**RESOLUTION NO. 12-189 - RESOLUTION APPOINTING MEMBERS TO THE POLICE OFFICERS AND FIREFIGHTERS DISABILITY REVIEW BOARD**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Police Officers and Firefighters Disability Review Board.

The terms of Stephanie Cooper, Dr. Steven Hulkower and Maggie Burleson expired on July 19, 2012.

It was the recommendation of the Boards & Commissions Committee, at the suggestion of City Attorney Oast, that the Board remain in existence, and that the board members stay on in an "inactive" status. Board members Stephanie Cooper, Dr. Steven Hulkower and Maggie Burleson have agreed. In the event that a hearing is required, or the Board is required to transact other business, the Board members will be contacted by the Secretary to the Board.

Councilman Bothwell moved to reappoint Stephanie Cooper, Dr. Hulkower and Maggie Burleson to the Police Officers and Firefighters Disability Review Board on an "inactive" status, and in the unlikely event that a hearing is required, or the Board is required to transact other business, the members would be contacted by the Secretary to the Board. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 50**

**RESOLUTION NO. 12-190 - RESOLUTION APPOINTING A MEMBER TO THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Buncombe County Tourism Development Authority.

The term of Bob Patel, representing an owner or operator of a hotel, motel or other taxable tourist accommodation with more than 100 rental units) expire on August 30, 2012.

No individuals have applied for this vacancy.

It was the consensus of the Boards & Commissions Committee to reappoint Mr. Patel.

Mayor Bellamy moved to reappoint Mr. Bob Patel (representing an owner or operator of a hotel, motel or other taxable tourist accommodation with more than 100 rental units) expire on August 30, 2012) to serve an additional three-year term, term to expire August 30, 2015, or until his successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 51**

## VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mayor Bellamy reminded the public that the first day of Asheville City Schools starts on August 15 and the County Schools on August 16. She urged everyone to slow down, especially in school zones. She also noted that on August 15 the Smoky Park Bridge will be dedicated to Fire Captain Jeffrey Bowen.

Councilman Smith was pleased to announce the Land-of-Sky Regional Council was awarded a grant for agriventures which is going to utilize the agriculture talent and potential that we have in the region to serve as a business incubator.

The following individuals expressed concerns about management at the Asheville-Buncombe Community Christian Ministry (ABCCM), citing discrimination of women veterans in the ABCCM's Steadfast House: Mr. Monroe Gilmour, coordinator of Western North Carolina Citizens Ending Institutional Bigotry (provided council with his comments); Ms. Alyce Knaflich (provided Council with a brochure on veterans rights); Ms. Browne Hollowell; Ms. Marlene J. Perry; Mr. Anthony C. Hamilton; and Ms. Darlene Minton. City Manager Jackson said that he would gather background information on this matter, talk to Mr. Gilmour and report to the Housing & Community Development Committee (prior to City Council) on if there is a role for the City to play in this process.

Ms. Patricia Dockery was concerned that she received a letter outlining community meetings for revisions to the current noise ordinance; however, no locations were disclosed. City Manager Jackson said that he will provide Council and Ms. Dockery the communication plan by the end of the week.

Rev. Lisa Landis said that on November 5, 2011, she was arrested for exercising her first amendment rights (in which she was found not guilty), and said she would seek a lawsuit against the City for falsely prosecuting her if the City would not settle with her. Mayor Bellamy referred Ms. Landis to City Attorney Oast and suggested she put her request in writing.

Mr. Victor Ochoa said it was important that Asheville take a stand on not losing our water system. He read a draft rights-based ordinance which would make it illegal for MSD or any private corporation to take control of our water system.

**Closed Session**

At 8:37 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: The Institute of Southern Studies, Inc., d/b/a Carolina Public Press, Gannett Pacific Corporation, d/b/a Asheville Citizen-Times, Green Line Media, Inc., d/b/a Mountain Xpress, Western North Carolina Public Radio, Inc., d/b/a WCQS, and Sinclair Broadcast Group, Inc., d/b/a WLOS TV, the City of Asheville; Buncombe County District Attorney's Office; William Hogan; Brian Hogan; Cheryl Intveld; Stony Gonce and Mary Ann Wilcox. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (2) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Bothwell and carried unanimously.

At 9:19 p.m., Vice-Mayor Manheimer moved to come out of closed session. This motion was seconded by Councilman Bothwell and carried unanimously.

**VIII. ADJOURNMENT.**

Mayor Bellamy adjourned the meeting at 9:19 p.m.

Magdalena Bouleson
CITY CLERK

MAYOR

Tuesday – August 28, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and Deputy City Clerk Philip Kleisler

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Davis gave the invocation.

**I. PROCLAMATIONS:**

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 14, 2012**

**B. RESOLUTION NO. 12-191 - RESOLUTION AUTHORIZING THE APPLICATION TO THE N.C. DEPT. OF ENVIRONMENT & NATURAL RESOURCES TO INSTALL FLEET GPS TRACKING EQUIPMENT AND ROUTING SOFTWARE**

Summary: The consideration of a resolution authorizing the City Manager to apply for a grant from the N.C. Dept. of Environment and Natural Resources (DENR) in the amount of $32,000 to install fleet GPS tracking equipment and routing software.

The City of Asheville is committed to carbon footprint reductions in municipal operations, recently the highest priority in this effort is focused on vehicle fuel reductions. Two strategies to achieve these goals focus on operational management of routing and driver behavior change relating to idling. Receiving funds through this grant will allow staff to work on both strategies by installing GPS units on 43 fleet vehicles to better understand the travel patterns and routing needs as well as having diagnostic information about engine idling patterns.

This action complies with City Council's Strategic Operating Plan to continue to identify strategies and costs for maintain the city's annual energy reduction goal of 4%.

Pro:

- Reduce municipal carbon footprint

Con:

- Requires City matching funds of $25,000

As noted above, the City match for this grant is $25,000. CIP funding that was approved during the annual budget process for fleet replacement will serve as the City match. The City would be responsible for replacement of the tracking equipment and software at the end of its useful life.

City staff recommends City Council adopt a resolution authorizing the City Manager to apply for a grant from the N.C. Dept. of Environment and Natural Resources to install fleet GPS tracking equipment and routing software to improve fuel efficiency of sanitation and snow plowing activities.

**RESOLUTION BOOK NO. 35 – PAGE 52**

**C. RESOLUTION NO. 12-192 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE TANGERINE BALL**

**RESOLUTION NO. 12-193 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE AVLCX**

**RESOLUTION NO. 12-194 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT OKTOBERFEST**

**RESOLUTION NO. 12-195 - RESOLUTION AMENDING RESOLUTION NO. 12-167 MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE LEXINGTON AVENUE ARTS & FUN FESTIVAL**

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at The Tangerine Ball on September 15, 2012, AVLCX on November 3, 2012, Oktoberfest on October 13, 2012; and an amendment to Resolution No. 12-167, due to a reduction in the event boundaries and hours of operation for the Lexington Avenue Arts & Fun Festival on September 1 and 2, 2012.

- The Asheville Area Arts Council has requested through the City of Asheville Development Services Center that City Council permit the sale of beer and/or unfortified wine at The Tangerine Ball and allow for consumption at this event.

  The Tangerine Ball will be held on Saturday, September 15, 2012, from 6:00 p.m. – 9:00 p.m. on Walnut Street between the intersections of Broadway and Carolina Lane, and on Buxton Avenue between the intersections of Collier Avenue and Millard Avenue as per the event area limits referenced on the accompanying site maps.

- Trips for Kids WNC has requested through the City of Asheville Development Services Center that City Council permit the sale of beer and/or unfortified wine at the AVLCX and allow for consumption at this event.

  The AVLCX will be held on Saturday, November 3, 2012, from 2:00 p.m. – 8:00 p.m. within Carrier Park, as per the event area limits referenced on the accompanying site map.

- The Asheville Downtown Association has requested through the City of Asheville Development Services Center that City Council permit the sale of beer and/or unfortified wine at Oktoberfest and allow for consumption at this event.

  Oktoberfest will be held on Saturday, October 13, 2012, from 12:00 p.m. – 6:00 p.m. on Wall Street and extending through a one-lane portion of Battery Park Avenue, as per the event area limits referenced on the accompanying site map.

- Arts2People has requested through the City of Asheville Development Services Center that City Council amend Resolution No. 12-167 due to a reduction in the event hours and designated event boundary pertaining to the sale and consumption of beer and/or unfortified wine at the Lexington Avenue Arts & Fun Festival.

  The Lexington Avenue Arts and Fun Festival will be held on Saturday, September 1, 2012 from 5:00 p.m. to 10:00 p.m. within the boundary of the Rankin Avenue Monthly Parking Surface Lot East and again on Sunday September 2, 2011 from 11:00 a.m. to 9:00 p.m. within the boundaries of Lexington Avenue between the intersections of College Street and the I-240 overpass, Walnut Street between Carolina Lane and Rankin Avenue, Rankin Avenue between Walnut Street and Hiawassee, Hiawassee between Rankin Avenue and Carolina Lane, the Rankin Avenue Monthly Parking Surface Lots East and West on Rankin Avenue between Walnut and Hiawassee, and the metered parking lot at Lexington Avenue and the I-240 Underpass, as per the event area limits referenced on the accompanying site map.

These actions have no direct connection with the City of Asheville Strategic Operating Plan.

Pro:

- Allows fundraising opportunities for Run Amok Productions, Asheville Area Arts Council, Trips for Kids WNC and the Asheville Downtown Association.

Con:

- Potential for public safety issues

There is no fiscal impact.

City staff recommends City Council amend Resolution No. 12-167 for the Lexington Avenue Arts & Fun Festival as requested, and adopt new resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at The Tangerine Ball, AVLCX, Oktoberfest.

**RESOLUTION NO. 12-192 - RESOLUTION BOOK NO. 35 – PAGE 53**
**RESOLUTION NO. 12-193 - RESOLUTION BOOK NO. 35 – PAGE 57**
**RESOLUTION NO. 12-194 - RESOLUTION BOOK NO. 35 – PAGE 60**

**D. RESOLUTION NO. 12-196 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO FUND THE METROPOLITAN PLANNING PROGRAM, SECTION 5303 OF THE FEDERAL TRANSIT ADMINISTRATION**

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the North Carolina Department of Transportation (NCDOT) to fund the Metropolitan Planning Program, Section 5303 of the Federal Transit Administration (FTA).

The FTA Section 5303 Metropolitan Planning Program is part of the annual Unified Planning Work Program (UPWP) of the French Broad River Metropolitan Planning Organization (FBRMPO), which outlines transportation planning tasks to be performed by the FBRMPO. The Metropolitan Planning Program is designated to pay exclusively for transit planning activities, such as grants administration and reporting activities, short range and long range transit planning, transportation improvement program preparation, Title VI and DBE programs, and planning and operational analyses. The funds are used to supplement the Transit Projects Coordinator position (90% of the grant) and a portion of the Transportation Manager position (the remaining 10%) for time spent on transit planning.

FY 2012-13 funding totals $57,610. The subject grant will provide 80% of the anticipated funding ($46,088), the North Carolina Department of Transportation will provide 10% ($5,761), and the City will provide the remaining 10% ($5,761). The grant funding and the City's local match in the amount of $5,761 are currently budgeted in the Transportation Department's approved budget for the current fiscal year.

This action complies with the current City Council's Strategic Operating Plan in the fiscal responsibility focus area by operating the City of Asheville to the highest levels of fiscal responsibility.

The Transit Commission supports the subject action.

Pros:

- The subject grant supplements funding for two existing positions.
- The subject grant enables the City of Asheville to use $51,849 in Federal and State funds for transit planning activities.

Con:

- A 10% local match in the amount of $5,761 is required.

The total grant funding for Fiscal Year 2012-13 is $57,610. The City is required to provide a 10% local match in the amount of $5,761. The anticipated grant funding and the City's local match in the amount of $5,761 are currently budgeted in the Transit Services fund.

City staff recommends that City Council adopt a resolution authorizing the City Manager to enter into an agreement with the North Carolina Department of Transportation to fund the transit planning program, Section 5303 Metropolitan Planning Grant of the Federal Transit Administration for FY 2012-13.

**RESOLUTION BOOK NO. 35 – PAGE 66**

**E. RESOLUTION NO. 12-197 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH SPORTS FIELD INC. FOR THE REPLACEMENT OF THE TURF, THE RESTORATION AND REPAIR OF THE IRRIGATION AND DRAINAGE SYSTEMS TO MCCORMICK BASEBALL FIELD**

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Sports Field, Incorporated for the replacement of the turf, the restoration and repair of the irrigation and drainage systems to McCormick Baseball Field.

McCormick Field has been a professional baseball venue since construction in 1924. It is recognized as one of the premier minor league ballparks in the nation. The Tourists are the Single A affiliate of the National League Colorado Rockies.

In an effort to meet the specific needs of the minor league baseball and to maintain the field in superior condition the scope of work required the successful bidder to have and supply at least the following:

- Built or renovated three professional National Association affiliated fields;
- Prefer member of American Sports Builders Association;
- STMA National Membership required;
- References required.

Sports Field, Incorporated was the low responsible bid. The project has unknowns such as making the necessary amount repairs and improvements to the irrigation and drainage systems, the number of quick connects to be modified to one-inch, the amount of 100% golf green sand, and the amount to raise or lower the infield to meet the new playing surface. The base bid with alternatives is $170,929. Unit prices were included for additional golf green sand at $43.00 per ton.

Due to the age and unknown condition of the drainage and irrigation systems, an amount of uncertainty exists for additional change orders. Due to the potential for change orders, staff recommends Council authorize change order up to the approved budget.

This project supports the City's long-term financial commitment to master plan implementation, infrastructure maintenance, capital improvements, and public facilities.

Pros:

- McCormick Baseball Field is a premier location for minor league baseball and an asset to the City and community.
- The approval of the resolution authorizing the contract for construction allows the replacement, repair, and restoration work to begin.
- Funding for the project is currently in the CIP budget at $300,000.

Con:

- A delay will allow the irrigation and drainage system to continue being less than totally effective, affect the playing field, and could cause issues with Professional Baseball.

The cost of the base bid with alternates for the construction to repair the drainage and irrigation systems and to replace the turf is $170,929. Additional costs have been identified for specific conditions that include a fixed cost with unknown quantities. Additional unknown conditions are anticipated in the irrigation and drainage systems. The total cost of the project including the unknowns is anticipated not to exceed $225,000 of the $300,000 already approved in the CIP budget for the project.

City staff recommends that City Council adopt a resolution authorizing the City Manager to sign the contract with Sports Field, Incorporated and future change orders associated with the project not to exceed the total approved budget amount.

Vice-Mayor Manheimer and Councilman Davis responded to Ms. Judy Strong when she urged City Council to apply to the Tourism Development Authority for use of the Product Development Funds for McCormick Field renovation, and not use her tax dollars.

At Mayor Bellamy's request, it was the consensus of Council to instruct City Manager Jackson to report at the November 13, 2012, agenda staff's prioritization of projects for use of the Product Development Funds.

**RESOLUTION BOOK NO. 35 – PAGE 67**

**F. MOTION APPROVING THE BOARD OF ALCOHOLIC BEVERAGE CONTROL'S TRAVEL POLICIES ADOPTED JUNE 28, 2011**

**G. RESOLUTION NO. 12-198 - RESOLUTION DECLARING THE INTENT OF THE CITY TO REIMBURSE ITSELF FOR CAPITAL EXPENDITURES INCURRED IN CONNECTION WITH THE ACQUISITION, CONSTRUCTION AND IMPROVEMENT OF VARIOUS CAPITAL PROJECTS AND THE ACQUISITION OF VEHICLES AND EQUIPMENT FROM THE PROCEEDS OF AN**

**INSTALLMENT FINANCING CONTRACT TO BE EXECUTED AND DELIVERED IN FISCAL YEAR 2013**

Summary: The consideration of a resolution declaring the intent of the City to reimburse itself for capital expenditures incurred in connection with the acquisition, construction and improvement of various capital projects and the acquisition of vehicles and equipment from the proceeds of an Installment Financing Contract to be executed and delivered in FY 2013.

The City of Asheville plans to issue debt in FY 2013 to fund Council approved capital projects authorized as part of the FY 2013 budget. These projects include the construction and improvement of streets and sidewalks in the vicinity of Craven Street; the purchase and installation of LED streetlights, and; the purchase of vehicles and equipment. The City reasonably expects the maximum principal amount necessary to fund these projects is $4,000,000.

The purpose of the Reimbursement Resolution is to provide the City with the ability to move forward with the projects and reimburse its accounts upon the issuance of the debt. The Resolution does not specifically authorize the issuance of the debt. Those resolutions will be drafted in connection with the debt issuance in early 2013. Additionally, as a number of the projects, vehicles and equipment are bid, the actual size of the new money financing can be further refined.

Pro:

- Enables the City to begin spending money on the Council's approved capital projects, vehicles and equipment that were to be financed from debt proceeds.
- Proceeding with the construction projects now, in a 'soft market' may result more aggressive bidding and lower costs.

Con:

- Lost opportunity to earn interest (although at very low interest rates in the range of 1/10 of 1% to 1/4 of 1%) on the City's unrestricted cash and investments which are temporarily diverted to pay for the capital projects pending reimbursement from the debt issuance.

The Reimbursement Resolution will result in some minimal loss of interest income. Bidding and proceeding with the authorized capital projects may result in better pricing thus lower the actual amount of the debt financing. The repayment of the debt issuance is incorporated in the debt management plan through the capacity being generated by the retirement of existing debt.

Staff recommends City Council adopt the resolution.

**RESOLUTION BOOK NO. 35 – PAGE 68**

**H. RESOLUTION NO. 12-199 - RESOLUTION SETTING A PUBLIC HEARING ON SEPTEMBER 11, 2012, TO CONSIDER AUTHORIZING THE SALE OF PROPERTY LOCATED AT HAYWOOD STREET AND PAGE AVENUE IN DOWNTOWN ASHEVILLE TO MCKIBBON HOTEL GROUP FOR ECONOMIC DEVELOPMENT PURPOSES**

Summary: The consideration of a resolution setting a public hearing on the question of approving the sale of property located at Haywood Street and Page Avenue in downtown Asheville to McKibbon Hotel Group for economic development purposes.

The City is considering selling several parcels of property it owns at 68 and 76 Haywood Street, 33 Page Avenue, and at the intersection of Page Avenue and Battery Park Alley in downtown pursuant to N.C.G.S. 158-7.1 for economic development purposes. That statute authorizes the conveyance of property by private negotiation and sale, but requires that a public

hearing be held first. In addition, notice of the public hearing must be published 10 days in advance, and the notice must contain certain information required by statute. The proposal under consideration is to sell the property to McKibbon Hotel Group for development of a hotel. The conveyance may be subject to conditions to ensure that the purposes of the statute are met. Council's rules provide that public hearings be scheduled by special order, which is the purpose of this resolution.

Adoption of the resolution is recommended.

City Attorney Oast said that in this resolution setting a public hearing Council is also directing the City Clerk to publish a notice. In that notice it states that the City Council intends to convey the property. He said that City Council is not bound to do that, but it is a statement we are required to put in by statute.

In response to Councilman Bothwell regarding the appraisal value of the Haywood Street properties vs. the land at 51 Biltmore Avenue, Finance and Management Services Director Lauren Bradley said that there are several characteristics about the transaction that occurred at 51 Biltmore Avenue that make it not an easy comparable for the land on Haywood Street. Among those considerations is that the City did pay a premium for the 51 Biltmore Avenue land because they determined it would cost us less to pay a premium for land than to dig down further for another layer of parking and it was more cost effective for us to do that. Also there was a premium associated with the cost of the 51 Biltmore Avenue land because we were assembling many parcels of land in order to have enough land to do a project of that size. A third thing that makes it a difficult comparable to 51 Biltmore Avenue is that because the transaction was complicated (multiple purchasers and different parts of land that were converted into a condominium) and it was very different than a straight land sale on Haywood Street.

Councilman Bothwell didn't see any argument that the property across from the US Cellular Center can possibly be a lower value piece of property than 51 Biltmore Avenue.

**RESOLUTION BOOK NO. 35 – PAGE 70**

**I. RESOLUTION NO. 12-200 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AGREEMENT WITH DR. PAUL MARTIN FOR PHYSICIAN SERVICES THROUGH THE CITY'S HEALTH SERVICES DIVISION**

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement for physician services provided through the City's Health Services division.

In January 1995, Council authorized the City Manager to enter into an agreement for part-time physician services in the Health Services division. Dr. Paul Martin entered into a contractual agreement with the City of Asheville to provide three clinic days to City employees and their families. These clinic days have been very successful for Health Services.

This action complies with the Fiscal Responsibility prong of the City of Asheville's Strategic Operating Plan for 2012-13. By offering city employees clinic hours and complimentary health services for non-critical issues, Heath Care funds are saved in unnecessary doctor and emergency room visits, maintaining the city's long term financial commitment to high levels of fiscal responsibility.

Pros:

- The Health Services Clinic and Health Services Satellite Clinic provides on-site care for non-critical health needs
- Onsite care and services for employees saves the City of Asheville money in expenses that are not paid in unnecessary doctor and emergency room visits

- Dr. Martin is a trusted member of the Health Services staff team

Con:

- There are no foreseen cons for these services

This is a one year $120,000 contract, and funds have been budgeted and will be encumbered from the Health Care Fund to cover the cost of this contract.

City staff recommends City Council adopt a resolution authorizing the City Manager to sign an agreement for physician services with Dr. Paul Martin, MD to continue to provide physician services to employees and their families.

**RESOLUTION BOOK NO. 35 – PAGE 71**

**J. RESOLUTION NO. 12-201 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH BLUE CROSS/BLUE SHIELD OF NORTH CAROLINA FOR SPECIFIC STOP LOSS INSURANCE COVERAGE**

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement for Specific Stop Loss Insurance with Blue Cross Blue Shield of North Carolina.

The City of Asheville is self-insured for medical and prescription drug expenses less than $150,000 paid during a contract year on behalf of all participants in the City's medical plan. The City purchases Specific Stop Loss Insurance to cover the cost of large or catastrophic claims paid during the contract period that exceed $150,000.

Premiums for Stop Loss Insurance are based on the Medical and Prescription Drug Benefits, demographic make-up of the participants, prior claims experience, industry standards, medical trends / inflation, the claims accumulation period and any known on-going medical conditions.

In an effort to promote Council's employer of choice strategic goal by providing the best and most cost effective insurance, the City of Asheville requested that our brokerage firm, The Ferguson Employee Benefit Agency, initiate a formal bidding process for Specific Stop Loss Insurance. The City received 6 proposals in response to our Request for Proposals. The Ferguson Employee Benefit Agency worked with staff to review these proposals.

After a thorough review the vendor selected is Blue Cross Blue Shield of NC.

This action aligns with City Council's Strategic Operating Plan in that it is an effort to promote Council's employer of choice strategic by providing the best and most cost effective benefit plan for our employees.

Pros:

- Specific Stop Loss insurance rates and terms were the most competitive when compared to additional fees charged by BCBSNC for utilizing an outside stop loss insurance carrier.
- Reduces the length of time between the City's payment of claims and Stop Loss Carrier reimbursement for claims that exceed $150,000 during the contract year.

Con:

- None.

This is a one year $725,000 contract and funds have been budgeted and will be encumbered from the Health Care Fund to cover the cost of this contract.

City staff recommends City Council adopt a resolution authorizing the City Manager to sign an agreement for Specific Stop Loss Insurance with Blue Cross Blue Shield of North Carolina.

**RESOLUTION BOOK NO. 35 – PAGE 72**

**K. RESOLUTION NO. 12-202 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH A&D ENVIRONMENTAL INC. FOR ENVIRONMENTAL REMEDIATION OF CONTAMINATED SOILS AT THE FORMER ASHEVILLE POLICE DEPARTMENT FIRING RANGE AT 82 WESTFELDT ROAD IN FLETCHER, N.C.**

**ORDINANCE NO. 4110 - BUDGET AMENDMENT TO COVER PROJECT COSTS**

Summary: The consideration of a resolution authorizing the City Manager to execute a change order in the amount of $35,000 with A&D Environmental, Inc. for environmental remediation of contaminated soils at the former Asheville Police Department Firing Range at 82 Westfeldt Road in Fletcher, NC for a total contract cost of $128,060.00, and the associated budget amendment in the amount of $63,000 from General Capital Reserves to cover project costs.

Since the 1970s, the Asheville Police Department has operated a small arms firing range near the Asheville Airport for the purposes of police training and small arms certifications. Per the lease agreement between the City of Asheville and the Asheville Regional Airport Authority, this continued use was subject to long range planning and future development of the Asheville Airport. In early 2010, the City was notified that the west side taxiway and runway construction project would impact the firing range, and at that time, the City undertook the process to formally close the small arms firing range.

The N.C. Dept. of Environment and Natural Resources (NCDENR) regulates the closure of gun firing ranges due to the fact that remnants of bullet casings and shell fragments in concentrated areas contain levels of lead and other heavy metals that present hazards to human health. This case being an outdoor firing range, the concentrations of contaminants were found at large soil berms that served as the target practice areas.

The City initially established a budget of $200,000 to provide clean closure of the firing range. In establishing this initial budget, the following project management cost factors affected final project costs:

- At the time of project start up, there was no data attainable to accurately identify the depth and breadth of the soil contamination. For example, initial consultant estimates suggest as much as 2800 tons of soil would require remediation. As the technical analysis continued, that initial scope was refined significantly.
- Optional disposal sites could not be identified until the later part of the process, once final testing determined the final levels of applicable contaminants. Assumptions were initially made that a local/regional approved landfill would be able to accept the soil.
- Initial cost estimates included the City provide some level of in-kind support, to include: site preparation and soil transport. This was not an option once all options were fully studied and soil testing was completed.
- Initial cost estimates assumed normal DENR process steps to adequately treat soil. Once testing was completed, DENR required the use of roll-off containers, as a precautionary step to insure appropriate handling/treatment of affected soil. Roll-off containers significantly increased the cost and limited the City's options on in-kind operational support.

At this point, those funds have been allocated to: (1) Assess and delineate the areas of the firing range that demonstrated high levels of lead and other heavy metals, and provide full documentation to NCDENR to that effect, (2) Based on feedback from NCDENR, develop a method of containing and chemically treating the impacted soils in order to encapsulate the lead and prevent the possibility of lead leachate or chemical runoff, (3) Excavate and mix soils with chemical treatment, (4) Load soils into rolloff containers for storage, and perform rounds of confirmation testing to ensure the chemical treatment was effective, (5) Perform soils testing in former range area to ensure that all lead impact had been removed, (6) Enter into a contract with the Republic Landfill in Enoree, South Carolina for the final disposal of the treated soils as non-hazardous special waste.

The various contracts for these tasks have been within staff's threshold to execute according to the City's Procurement, Purchasing and Contracting Policy. It is the subject of this particular staff report and resolution to address a specific contract that exceeds staff's contracting threshold and therefore requires Council action to approve.

On May 1, 2012, the City of Asheville via the City Manager entered into an informal construction contract in the amount of $93,060 for the excavation and environmental remediation of contaminated soils at the former Asheville Police Department Small Arms Firing Range. A&D's current contract consists of: (1) Perform an initial treatability study on a representative soil sample to determine the amount of chemical reagent needed to encapsulate the existing lead and heavy metals present in the contaminated soils, (2) Excavate and screen impacted soils to remove large debris and generate a consistent soil basis, (3) Divide soil into 20 ton lots and mix in chemical reagent treatment, (4) Store soil in rolloff containers until final testing is completed and soils are ready for transport to a subtitle D approved sanitary landfill.

During the due diligence discussion with A & D, the estimated amount of treated soil was 820 tons, which would require 48 leased rolloff containers for storage. It was also estimated that the soils would be ready for transport in 30 days, implying that all approvals from NCDENR would be completed in that timeframe and that the City would have a contract with a sanitary landfill to accept and properly dispose of the special waste.

Three issues arose during the course of the work that have resulted in additional costs; namely, the soil had to be packed lightly in each container to achieve adequate mixing, and as a result 55 rolloff containers were leased versus the initial 48. Second, of the 55 rolloff containers of soil, 15 of the rolloff boxes did not pass the first round of lab analysis and required a second round of testing therefore delaying transport. Finally, once lab data was collated and discussed with area WNC landfills, it was determined that the closest landfill that would accept the soils was in Enoree, South Carolina. A local disposal solution would have resulted in less transport cost for the City.

In order to accommodate for the delays in the timeline, plus the need for 55 total rolloff containers, and the associated weekly rental on the rolloff containers, a change order is needed in the amount of $35,000 with A&D Environmental, Inc. for a total contract cost of $128,060.00.

This project complies with City Council's strategic plan by supporting the following goals: (1) Safe – the proper mitigation of an environmental issue supports safety and public health, (2) fiscal responsibility – effectively mitigating the City's exposure to an environmental liability through a formal clean closure process with NCDENR prevents future issues associated with this contamination.

Pros:

- Once the project is complete, the City will receive a statement of "No Further Action" from NCDENR, certifying that the cleanup has been completed according to stringent and specific environmental standards.

- Clean Closure is required under the terms of the Airport Lease Agreement, as discussed previously, and the city's successful attainment of clean closure is contributing to the successful completion of the Airport's runway widening project.

Cons:

- Reduction of the Capital Reserve Fund from $400,000 to $337,000.
- From an internal operational perspective, the City Police Department no longer manages its own small arms firing range, which has served to provide significant flexibility to the department's ability to meet and maintain applicable training standards for sworn personnel.

Staff initially budgeted a total of $200,000 for the remediation project - $100,000 in FY12 (from unused CJIS budget) and a new $100,000 in FY13. The final total for the project is estimated at $263,000 and requires a $63,000 budget amendment to cover the proposed change order amount and the tipping fees association with the Republic Landfill in Enoree, South Carolina. Staff recommends that the additional funding come from the Capital Reserve Fund, which there is approximately $400,000 balance, and can be used for unplanned project cost overages.

City staff recommends City Council to (1) adopt the resolution authorizing the City Manager to execute a change order in the amount of $35,000 with A&D Environmental, Inc. for environmental remediation of contaminated soils at the former Asheville Police Department Firing Range at 82 Westfeldt Road in Fletcher, NC for a total contract cost of $128,060.00; and (2) adopt the associated budget amendment in the amount of $63,000 from General Capital Reserves to cover project costs.

**RESOLUTION BOOK NO. 35 – PAGE 73**
**ORDINANCE BOOK NO. 27 - PAGE 442**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Manheimer moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Smith and carried on a 6-1 vote, with Councilman Bothwell voting "no".

## III. PRESENTATIONS & REPORTS:

### A. REPORT ON 445 BILTMORE AVENUE FIRE

Fire Chief Scott Burnett said that on July 28th, 2011, the City of Asheville suffered a tremendous loss while operating at a six story medical office building structure fire located at 445 Biltmore Ave. Captain Jeff Bowen died in the line of duty and 9 other firefighters were injured while fighting this fire. Over the past 12 months the Fire Department has conducted a Post Incident Analysis to identify areas of improvement for the department. The results of this analysis are included in this report and are organized into two sections: "Contributing Factors" and "Areas for Improvement".

Contributing factors identified by the fire department are:

- The fire was intentionally set
- The building was not protected by an automatic sprinkler system
- The extreme weather conditions that were present

- The standpipe system did not provide water adequately
- Incident command span of control was not optimal

There are 16 areas for improvement identified by the fire department. These areas are within three focus areas:

- Training
  - Rapid Intervention Training
  - SCBA Emergencies Training
  - Incident Command Training
- Span of Control
- Deployment Strategy
  - Current deployment is 17 operational companies, 3 supervisors and 1 support personnel
  - Proposed deployment is 16 operational companies, 4 supervisors and 3 support personnel

The fire department began implementing these improvements in the fall of 2011. The continuous improvement model that has been followed will perpetually facilitate even more enhancements to firefighter safety and levels of service to the community.

Councilman Bothwell noted that during the Public Safety Committee there was considerable discussion about the failure of the standpipe. It appears that one of the values that should have been permanently open was partially closed.

Fire Chief Burnette responded to various questions from Council related mainly due to the standpipe system.

**B. QUARTERLY REPORTS**

**Finance Committee Chair Report**

Vice-Mayor Manheimer, Chair of the Finance Committee, provided Council with a brief update on some major accomplishments during this quarter.

**Housing & Community Development Committee Chair Report**

Councilman Davis, Chair of the Housing & Community Development Committee, provided Council with a brief update on some major accomplishments during this quarter.

**Planning & Economic Development Committee Chair Report**

Vice-Mayor Manheimer, Chair of the Planning & Economic Development Committee, provided Council with a brief update on some major accomplishments during this quarter.

**Public Safety Committee Chair Report**

Councilman Bothwell, Chair of the Public Safety Committee, provided Council with a brief update on some major accomplishments during this quarter.

**Strategic Operating Plan**

Assistant City Manager Jeff Richardson provided to Council a report which outlined key operational updates during July 1, 2011 – June 30, 2012. He then provided Council to speak about certain points in detail.

In addition, City Council has asked for an activity report on a quarterly basis of the Domestic Partner Registry. Since the Registry began on May 2, 2011, a total of 50 couples have registered.

Mr. Richardson responded to various questions from Council, some being, but are not limited to: the maintenance of the public restrooms at Pack Square Park, what has been the highest allocation to the Housing Trust Fund, what happens to the old ammunition, and are there are ideas to decrease tagging in West Asheville.

Police Chief William Anderson provided a brief update regarding the Police Department's on-going operational efforts and progress in the day to day management of the Evidence and Property Room. He said they are doing a nationwide search for a property manager and have reviewed 167 applicants for the position. He hopes to make a job offer soon with the goal of having that person in place by the end of September. Operationally, they are researching a ventilation system for that space and they are also working with the District Attorney's Office to research disposal of long-term bulky narcotics evidence.

**C. UPDATE ON TEMPORARY USE STANDARDS**

Assistant Planning & Development Director Shannon Tuch said that on January 10, 2012, the Asheville City Council considered several small amendments to the section of the *Unified Development Ordinance* (UDO) regulating temporary uses. Among those amendments considered and adopted, was a new standard that would allow fruit and vegetable stands to operate on institutional properties (i.e., churches and schools) located in residential districts – before that evening, no temporary use of any kind was permitted in residential districts.

During the hearing there was some discussion regarding a proposed standard that would limit the operation of these produce stands to hours that did not overlap with the main operating hours of the primary use. This standard was proposed in an effort to limit potential traffic congestion issues that may arise during the busiest times. This limitation concerned some because it appeared contrary to the goal of connecting the greatest number of people with the opportunity to access fresh food, and it was asked that the issue continue to be studied and examined and return in 6 months with an update.

To date, three (3) applications for fruit & vegetable markets in residential areas have been permitted and are in operation. These sites include:

Oakley Farmer's Market
Oakley United Methodist Church
607 Fairview Rd.

Grace Farmer's Market
Grace Baptist Church
718 Haywood Rd.

East Asheville Tailgate Market
Groce United Methodist Church
954 Tunnel Rd.

Staff has contacted the managers of all three markets to discuss specifically whether there was any interest in overlapping with the primary use's hours and whether they believed this to be beneficial or practical considering potential traffic issues. Additionally, staff also asked other general questions in an effort to determine whether there were other obstacles that should be considered. Two of the three managers did not express any interest in overlapping in hours of operation, primarily because they didn't believe it would work since their market covered the very large majority of the parking lots. One of the market managers, who also occupied the parking lot of the church property they occupied, expressed an interest in potentially collaborating with the church on a special event or function but not necessarily to operate the full market during the church service hours. This would suggest that there is little interest in the farm community to overlap with the primary use's hours; however, it should be noted that these managers operate larger tailgate style markets and there could be interest or value in having one or two vendors operate during peak church/school hours – or operate in areas that do not take up parking.

Other items of note:

- All three managers felt that the markets were going well and would likely return next year.
- All three managers felt that the patrons of the market travelled by both foot and car. Only the Oakley market felt that the majority of patrons travelled by foot, or were within walking distance of the market.
- One manager stated that they would like to see food trucks allowed to be permitted as part of the market so they could have ready-to-eat foods (food trucks are allowed in markets but not those that occupy residentially zoned property).
- One manager stated that they felt the permit fees were high (approximately $300) and would like to see the fees reconsidered.
- Surveying standards in other cities revealed that all of those surveyed did not allow temporary uses in residential districts (with some exceptions, such as fundraisers or charity events). However, in non-residential areas, there were no restrictions on hours of operation.

Analysis: Neighborhoods have benefited from the code change permitting fruit & vegetable stands in residential districts, allowing for the operation of several small, neighborhood-scaled tailgate markets. All three markets do not overlap in hours of operation with the primary use, and don't express interest in doing so except on occasion for special events (one manager). The lack of interest may be a result of the scale of the market where the managers recognize the inability to occupy the parking lots at the same time as the primary use. A smaller number of vendors may not have the same limitation. Recognizing this, it seems reasonable to allow fruit and vegetable markets to overlap in hours of operation with the primary uses provided parking requirements are maintained and traffic properly managed. Given the scale of these uses, it is expected that the vendors and property owners will self regulate and manage traffic and congestion so as not to be a detriment to each other.

Staff recommends that an update to the previous code amendment be considered removing the restriction on hours of operation, and provided that sufficient parking is left available and an undue traffic hazard is not created. That wording amendment will go through the Planning & Zoning Commission first before coming before City Council. It is also recommended that the question about food trucks in residentially zoned areas should be reviewed as part of the one-year food truck update, expected sometime this fall.

A related concern that was not part of the earlier amendment to temporary uses but has arisen in other contexts is the UDO's restriction to accessory structures in residential areas when no primary structure exists. In the interest of supporting the goal to improve access to locally grown produce, staff also recommends an amendment that would allow small, residential scale structures (greenhouses & storage sheds) to be permitted on vacant residential property when in conjunction with a private or community garden. This wording amendment will also go through the Planning & Zoning Commission prior to City Council. These structures should be limited in size and not include permanent foundations.

It was the consensus of Council to support a wording amendment (1) removing the restriction on hours of operation, provided that sufficient parking is left available and an undue traffic hazard is not created; and (2) amendment that would allow small, residential scale (greenhouses & storage sheds) to be permitted on vacant residential property when in conjunction with a private or community garden.

**D. WATER RESOURCES UPDATE**

Water Consolidation Project Manager Phil Kleisler said that from the August 14, 2012, City Council meeting the Water Resources Director provided updates on the Council action up to that point, key dates relating to MSD and City analysis, and the structure of the City's internal analysis teams.

City of Asheville workgroups consist of (1) MSD merger study relations; (2) governance models; (3) asset value/fair market compensation; (4) internal financial analysis; and (5) internal and external communications.

Internal financial analysis team: (1) project team to complete first phase of internal analysis in approximately two weeks; and (2) at October 16 City Council worksession there will be a presentation of analysis for three scenarios (a) Water Resources being absorbed by MSD; (b) MSD being absorbed by Water Resources; and (c) a functional collaboration between the City and MSD.

Regarding governance models, asset management (1) consideration of a contract for such services at this meeting; and (2) representative from Raftelis Financial Consultants will be available.

He said that an alternate date has been proposed for the joint City Council/legislators meeting. That date is September 18, 2012, at 1:00 p.m. in the U.S. Cellular Center Banquet Hall.

Regarding internal/external communications (1) management meeting with employees; (2) informational presentations to neighborhood groups; and (3) Project Webpage: www.ashevillenc.gov/projects.

Vice-Mayor Manheimer said that MSD designated Al Root to be the MSD/City liaison to comply with the negotiation element of the Legislative Study Committee report.

**IV. PUBLIC HEARINGS:**

**A. PUBLIC HEARING TO CONSIDER THE INITIAL ZONING OF RECENTLY ANNEXED PROPERTY IN UNC-ASHEVILLE AREA TO INSTITUTIONAL DISTRICT AND RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT**

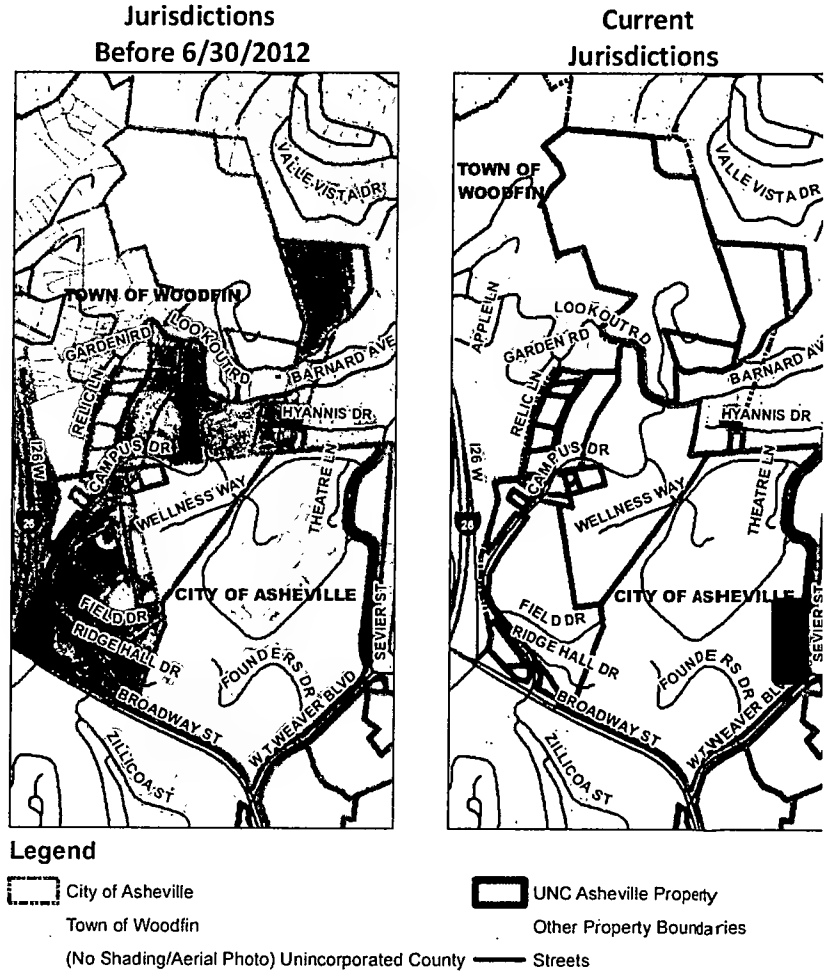
**ORDINANCE NO. 4111 - ORDINANCE TO INITIALLY ZONE RECENTLY ANNEXED PROPERTY IN UNC-ASHEVILLE AREA TO INSTITUTIONAL DISTRICT AND RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT**

Urban Planner Blake Esselstyn said that this is the consideration of an ordinance to initially zone recently annexed property in the UNC-Asheville Area to Institutional District and RS-4 Residential Single-Family Medium Density District. This public hearing was advertised on August 17 and 24, 2012.

Mr. Esselstyn said that as a result of NCGA Session Law 2012-119, roughly 119 acres of the UNC Asheville campus were brought into the City of Asheville jurisdiction effective June 30 of

this year. As a result the City is required to assign zoning districts to these areas. The maps on the following page show the jurisdiction changes, and the Exhibit A and B maps show the areas where an "initial zoning" will be required.

Just as the bulk of the University property that was already in the City's jurisdiction is under Institutional zoning, the staff proposal is for the bulk of the newly annexed University property to be zoned Institutional. The Unified Development Ordinance states that "The Institutional District is established to reserve land for the development of major educational facilities, major medical facilities and other complementary and supporting uses such as health related developments, office developments, and public services. Development standards for uses in this district are established to minimize conflict with adjacent land uses." This district represents the obvious choice for the contiguous campus parcels.



There are one and a half parcels, however, representing roughly half an acre, for which staff is recommending RS4 (Residential Single-Family Medium Density) zoning. These parcels, each with a building constructed as a residence, both front on Hyannis Drive. The portion of Hyannis Drive that had already been in City Limits has been zoned RS4 for 15 years, including half of one of the parcels under consideration for this initial zoning. The dominant use on the street is single-family residential, though there is a condominium development at the end of the street, in the Buncombe County jurisdiction. At one time, there was a day care business, but that appears to no longer be in operation. The University has owned the two properties on Hyannis since the mid-nineties, and has at times used the residential-style buildings for offices for faculty or for operations such as the Interfaith Campus Ministry.

While staff recognizes the University's interest in being able to use these properties for non-residential purposes, and also the University's past record of having been able to do so without disrupting the neighborhood, concerns remain that an (unconditional) INST zoning designation could lead to incompatible development there, especially if a third party were to acquire the property. Under the proposed RS4 zoning, continuation of existing non-residential uses, provided they did not switch to a higher impact, could be permitted as grandfathered "existing non-conformities."

Further, were these one and a half parcels to be zoned Institutional, staff feels that the isolated geometry could legitimately be challenged as spot zoning. Staff is of the opinion, however, that a conditional zoning would be appropriate for these parcels, and that such a petition from the University would be likely to receive staff support.

Also on the eastern edge of the subject area, but north of the Hyannis parcels, are two portions of parcels between Barnard Avenue and Valle Vista Drive. Portions of these parcels were already in the City Limits and were zoned RS4. The proposed initial zoning for the currently unzoned areas here is Institutional, which will result in a split-zoned situation for these two parcels. If the initial zoning is approved, however, staff intends to proceed with a rezoning of the RS4 slivers, which will rectify the split zoned situation. (The rezoning has to be undertaken separately from the initial zoning.)

The University has indicated acceptance of the staff recommendation. City staff, in communication with University staff, has indicated that small scale non-residential uses on Hyannis could likely be accommodated as existing non-conformities, or through conditional zoning, if necessary. In addition, in the future, if the University were to acquire a larger fraction of the properties on Hyannis with plans for expansion, staff would likely support a rezoning to Institutional.

At their August 1, 2012, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the initial zoning. One neighboring property owner spoke, and this citizen, along with staff and the commissioners, agreed that the proposed zoning would ensure greater scrutiny of future development compared to the previous situation.

As of this writing, staff has received 15 communications from neighboring property owners, all seeking additional information, with none expressing opposition to the proposed zoning.

Based on the above findings and the analysis provided in the report, staff finds this action to be reasonable and consistent with the Comprehensive Plan and other adopted plans.

Pro:

- Zones property in consideration of the surrounding zoning and land use and the City's Comprehensive Plan.

Con:

- Would create a split-zoned situation on two parcels (which staff intends to later rectify).

Staff recommends approval of the initial zoning.

Mayor Bellamy opened the public hearing at 6:39 p.m.

Mr. Alan Ditmore objected to the establishment of new single-family zoning as he felt it is a major cause of both homelessness and sprawl, in addition to burdening the school system.

Mayor Bellamy closed the public hearing at 6:42 p.m.

In response to Councilman Hunt, City Attorney Oast said that he didn't think that the inclusion of the property within the City's zoning jurisdiction makes it any more or less likely that the property will be developed than it was before.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4111. This motion was seconded by Councilman Davis and carried unanimously.

ORDINANCE BOOK NO. 27 – PAGE 444

## V. UNFINISHED BUSINESS:

### A. RESOLUTION NO. 12-203 - RESOLUTION APPOINTING MEMBERS TO THE PLANNING & ZONING COMMISSION

Vice-Mayor Manheimer said that the terms of Mark Brooks and Holly Shriner, as members on the Planning & Zoning Commission, expired on August 14, 2012.

On August 14, 2012, City Council instructed the City Clerk to arrange interviews for Mark Brooks, Holly Shriner, Abigail Emison and Joe Minicozzi.

After Council spoke highly of all the candidates, in particular current Chairman Mark Brooks, Mark Brooks received 3 votes, Holly Shriner received 4 votes, Abigail Emison received 2 votes and Joe Minicozzi received 5 votes. Therefore, Holly Shriner was reappointed and Joe Minicozzi was appointed as members of the Planning & Zoning Commission to each serve three-year terms respectively, terms to expire August 14, 2015, or until their successors have been appointed.

RESOLUTION BOOK NO. 35 – PAGE 74

### B. NC LEAGUE OF MUNICIPALITIES' LEGISLATIVE AGENDA

At the request of Mayor Bellamy, and after a short discussion, Councilman Hunt moved to ask the NC League of Municipalities to support a clarification of the intent of the indecent exposure bill, along with moped regulation. This motion was seconded by Councilman Davis.

Mr. Alan Ditmore was opposed to regulating mopeds.

Mr. Steve Rasmussen said if we outlaw toplessness, people will be looking for ways to protest, and secondly he felt it was a First Amendment issue.

Mr. Barry Summers agreed with Mr. Rasmussen and also felt that the topless rally attendance would be down from last year. He hated City Council, the League or the legislators wasting their time on an issue with such a low impact.

The motion made by Councilman Hunt and seconded by Councilman Davis carried on a 6-1 vote, with Councilman Bothwell voting "no."

**Closed Session**

At 7:10 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: The Institute of Southern Studies, Inc., d/b/a Carolina Public Press, Gannett Pacific Corporation, d/b/a Asheville Citizen-Times, Green Line Media, Inc., d/b/a Mountain Xpress, Western North Carolina Public Radio, Inc., d/b/a WCQS, and Sinclair Broadcast Group, Inc., d/b/a WLOS TV, the City of Asheville; and the Buncombe County District Attorney's Office. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Councilman Smith and carried unanimously.

At 7:50 p.m., Councilman Smith moved to recessed the closed motion to return to the formal meeting, noting that the closed session would continue at the end of the formal meeting. This motion was seconded by Councilman Bothwell and carried unanimously.

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 12-204 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE HOUSING AUTHORITY TO FUND AND CREATE A PUBLIC HOUSING POLICE UNIT**

**ORDINANCE NO. 4112 - BUDGET AMENDMENT TO FUND AND CREATE A PUBLIC HOUSING POLICE UNIT**

Police Chief William Anderson said that this is the consideration of a (1) resolution authorizing the City Manager to enter into an agreement with the Asheville Housing Authority to create a dedicated unit of sworn officers to provide direct law enforcement services to the 11 public housing communities in the City of Asheville; and (2) budget amendment in the amount of $217,000 from Housing Authority funds to add 4 full-time employees Patrol Officers.

The Asheville Housing Authority (AHA) currently hires public safety officers from both the City of Asheville and Buncombe County on a secondary employment basis. While this has been effective, a dedicated team of officers assigned to Asheville's public housing neighborhoods as their primary assignment should provide a more sustained and effective level of community safety to these neighborhoods through a variety of community policing techniques.

The Public Housing Unit would be responsible for criminal enforcement, crime prevention, community policing and enforcement of Housing Authority regulations in public housing. The unit would partner with the Housing Authority and its residents to foster an atmosphere focusing on community policing to create a safe environment and improve the quality of life in public housing, while simultaneously reducing crime. Preliminary discussions have occurred with Gene Bell, Chief Executive Officer of the Authority who is supportive of the concept.

General benchmark crime data suggests that all public housing neighborhoods combined have 24.3 per 1000 crime rate, whereas the entire City has a 5.1 per 1000, respectfully.

Over the first three years of implementation, the Police Department will track a number of performance metrics in an effort to improve the safety in these neighborhoods. These metrics include:

- Reducing crime in public housing neighborhoods by 10%.
- Reducing law enforcement calls for service by 5%.
- Increasing resident involvement and communication with APD by revitalizing resident associations and starting community watch groups in public housing.
- Partnering with public housing residents and community organizations to implement Police Activities League (PAL) activities for youth in public housing.
- Satisfaction survey of residents and Housing Authority Staff to measure effectiveness of new Public Housing Unit.

This action complies with the City Council Strategic Operating Plan in SAFE – Asheville will be one of the safest and most secure communities when compared to similar sized cities. The enhanced interactions and community policing activities in conjunction with the partnering with AHA will increase safety for the community and officers.

Pros:

- Establish a dedicated number of sworn officers to provide direct law enforcement services to the 11 public housing developments in the City of Asheville, which have a higher crime rate than other areas of Asheville.
- Foster an atmosphere focusing on community policing to create a safe environment and improve the quality of life in public housing.
- Improve lines of communication and cooperation between the residents, staff and the police in public housing.

Con:

- None identified.

A.) **COPS Grant Staffing**—On September 28, 2011, the City of Asheville was awarded a COPS Hiring Program Grant to fund the addition of five full-time officers. The grant covers the cost of salaries and benefits for a period of three years. The City is responsible for funding the cost of uniforms and equipment for these officers at an annual cost of $27,600 which is included in the FY 13 budget. At the beginning of the fourth year, the City's General Fund will be responsible for funding the full cost of salary and benefits. The revenue and expenses associated with this grant are already included in the FY 13 budget. It is staff's recommendation that these five positions be assigned to the proposed Public Housing Unit.

B.) **APD Staff Reassignment**—In addition to the five grant-funded positions, staff recommends reassigning an existing full-time employee from the Patrol Division to supervise this unit. The estimated cost of this position is already included in the FY 13 budget.

C.) **Housing Authority Contribution**—Staff anticipates the Housing Authority will fund an additional four full-time officers for the unit at an estimated cost of $217,000, bringing the total staffing of the unit to ten full-time officers

Public Housing Unit Staffing Plan

| Staffing Costs | Amount | Revenue Source | Included in FY13 Budget |
|---|---|---|---|
| 5 FTE Officers | $237,086 | COPS Hiring Grant (Years 1-3) | Yes |
| 1 FTE Unit Supervisor | $69,000 | General Fund | Yes |
| Uniform and Equipment (1 year) | $27, 600 | General Fund | Yes |
| 4 FTE Patrol Officers | $217, 000 | Housing Authority | No- Budget Amendment Needed |

Staff recommends that City Council approve a (1) resolution entering into an agreement with the Asheville Housing Authority to fund and create a public housing policing unit; and (2) a budget amendment in the amount of $217,000 from Housing Authority funds to add 4 FTE Patrol Officers.

Mayor Bellamy supported this initiative and felt that past performance in this type of initiative has been successful in different areas; however, looking at the Weed & Seed model that had 5 years of success, she felt we may be missing an opportunity to include some of the "seeding" portion back into the program. What made the Weed & Seed program so successful was there was one coordinator making sure residents were meeting, access to services, and

letting the residents know they are just as equal as the police officers in helping solve crimes and address issues in their community. She felt there should be one person dedicated to this process to move it forward. She felt some of the successes of the Weed & Seed program be included in this process so we can see some sustainability. She also asked that during this 3-year process that we get a continuation plan to sustainably address some of these issues that continually pop up.

In response to Councilman Davis, Mr. David Nash, Deputy Executive Director of the Housing Authority, said that the $217,000 is the money they spend for security. He used a graph showing crime rates in the public housing units, noting that this is the reason for an increased , police security presence and community policing presence in our communities. They are contributing funds because they want an increased community policing presence in their neighborhoods so they will be safer.

Mr. Gene Bell, Executive Director of the Housing Authority, said they do not want to lose the momentum of the Weed & Seed program. Their objective is clearly to improve neighborhoods, not to put people in jail.

Ms. Dawa Hitch, Community Relations Division Head and Public Information Officer, reinforced the commitment to this relationship between police community relations and the Housing Authority. Although the Weed & Seed position is no longer funded, the philosophy behind it still exists and they are looking at addressing that through resources that we currently have.

In response to Mayor Bellamy, Ms. Hitch said that she would have an update to Council in a 4-6 week timeframe.

Mr. Alan Ditmore felt the job of the Housing Authority is to provide housing and the City should be seeking grants to fight the drug war.

Mr. Fred English felt the Asheville Police Department is sufficient to police public housing communities.

Ms. Judy Strong said that we already subsidize the rent and maintenance of homes through various agencies to those identified as needing public assistance. She wondered at what point will accountability be asked of those residents.

Mr. Bell explained how they do hold criminals accountable, including the ones who may happen to be their residents.

Mayor Bellamy said that members of Council have been previously furnished with copies of the resolution and ordinance and they would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 12-204. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 75**

Vice-Mayor Manheimer moved for the adoption of Ordinance No. 4112. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 447**

**B. RESOLUTION NO. 12-205 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT WITH PROPERTY OWNERS ALONG BLAIR STREET TO CONSTRUCT A NEW STORM DRAINAGE PIPE**

**ALONG BLAIR STREET TO REPLACE A FAILING STORM DRAINAGE PIPE ON PRIVATE PROPERTY**

**ORDINANCE NO. 4113 - BUDGET AMENDMENT FOR THE BLAIR STREET NEW STORM DRAINAGE PIPE**

Stormwater Services Manager McCray Coates said that this is the consideration of (1) a resolution authorizing the City Manager to execute an Agreement with property owners along Blair Street to construct a new storm drainage pipe along Blair Street, which will new pipe will replace a failing storm drainage pipe located on private property; and (2) a budget amendment for the project in the amount of $155,720.

On April 17, 2012, a private storm drainage pipe collapsed under the home located at 17 Blair Street causing significant structural failure to the home. The home was declared un-inhabitable. Continued rain events expanded the void under the home and jeopardize the remaining properties. Further, the commercial structure located at 171 Charlotte Street has received significant flood damage as a result of the pipe failure in a separate location further downstream. The existing pipe appears to have been installed in the early 1900's and is made of terra cotta.

Since inception, City staff has diligently worked with the affected property owners, being: 36 Albermarle Place; 15 Blair Street; 17 Blair Street and 171 Charlotte Street to address this private nuisance, jeopardizing not only property but life as well.

Staff recommends that a new pipe be installed along the publicly maintained Blair Street. Once installed, the stormwater currently flowing into the failed storm drainage pipe will then flow into the new pipe.

The engineers estimate for the project, including a 5% contingency, is $155,720. The linear footage of pipe to be installed is 359 feet. Staff is proposing to cost share with the private property owners in a 75/25 split, with the City paying 75% of the cost. Staff originally considered a 50/50 cost share but reevaluated the split due to the cost the property owners will incur to abandon the failing pipe under their respective structures. There is currently no estimate for these costs, but the costs are expected to be significant.

Staff proposes that the cost be distributed based on linear footage of property owned by each property as is consistent with a statutory Special Assessment. The estimated cost for each property is displayed in the table below. The property owners will pay their portion of the actual cost but no more than the costs shown below. The City's cost of the project is estimated at $123,079

| Property | Linear Foot | Cost per LF (25%) | Total Cost |
|---|---|---|---|
| 171 Charlotte Street | 158 | $108.44 | $17,134 |
| 15 Blair Street | 46 | $108.44 | $4,988 |
| 17 Blair Street | 49 | $108.44 | $5,314 |
| 36 Albermarle Place | 48 | $108.44 | $5,205 |

The public purpose of the project is to eliminate standing water from flash flooding on Charlotte Street and protect life and property, as there exist more than the possibility that Albemarle Place will collapse if the existing pipe is not repaired/replaced.

This action meets Council goals by enhancing the City's long-term financial commitment to infrastructure maintenance and capital improvements. Additionally, this project leverages internal and external partnerships for pursuing capital improvements and infrastructure projects.

Pro:

- If this recommendation is approved, staff would be able to move quickly on the constructing the new pipe, minimizing future damage to property.

Con:

- The City Stormwater Utility is paying a large portion of the cost of the project.

This engineer's estimate for the project with a 5% contingency is $155,720. Twenty-five percent (25%) of the cost of the project, or $32,641, will be paid by the four private property owners. The remaining $123,079 will be funded from Stormwater Utility Enterprise Fund fund balance reserves. Based on the City's fund balance policy, the Stormwater Fund should maintain reserves equal to 8% of the operating budget. After the appropriation for this project, staff estimates that the Stormwater Fund's fund balance will exceed the 8% target amount by $750,000. The project will be completed by City crews.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to execute an Agreement with property owners along Blair Street to construct a new storm drainage pipe along Blair Street to replace a failing storm drainage pipe on private property with a 75%/25% city/private cost share; and (2) a budget amendment for the project in the amount of $155,720.

The property owner of 17 Blair Street showed pictures to Council of the gravity of the storm drainage pipe collapse underneath her home. She explained the extensive work necessary on her home to make it livable again. She urged Council to accept the 75/25 agreement in addition to asking Council to consider waiving future permitting and dump fees associated with the demolition and reconstruction of the residences.

The following property owners urged Council to pay 100% of the costs in addition to waiving the permitting and dump fees:

Property owner of 36 Albemarle Road
Property owner of the house at the bottom of the hill
Property owner of 15 Blair Street

In response to Vice-Mayor Manheimer, Mr. Coates explained the cost sharing with the property owners. City Manager Jackson also noted that we are trying to get to a point (in consultation with Risk Management) that as other private lines fail, we will look at them on a case by case basis.

Ms. Tressa Hayes, from the City's Risk Management Division, responded to Councilman Pelly regarding homeowner insurance.

City Attorney Oast said that he would report back to Council on the costs associated with waiving future permitting and dump fees associated with the reconstruction of the homes.

Mayor Bellamy said that members of Council have been previously furnished with copies of the resolution and ordinance and they would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 12-205. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 76**

Vice-Mayor Manheimer moved for the adoption of Ordinance No. 4113. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 27 – PAGE 449

C. **RESOLUTION NO. 12-206 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A MANAGEMENT AGREEMENT WITH POPE GOLF LLC FOR THE OPERATION OF THE ASHEVILLE MUNICIPAL GOLF COURSE**

Director of Parks, Recreation and Cultural Arts Roderick Simmons said that this is the consideration of a resolution authorizing the City Manager to enter into a seven (7)-year management agreement with Pope Golf, L.L.C. for the operation of the Asheville Municipal Golf Course.

In January 2012, the City Council Finance Committee supported a staff recommendation to issue a Request for Proposals (RFP) for management of the Asheville Municipal Golf Course, and to bring back a recommendation on the best management options for the City.

Staff issued the RFP in March 2012 which was advertised locally, state-wide and nationally. In addition, it was posted on the City website and social media tools including Facebook and Twitter. Staff also conducted several community meetings with stakeholder groups and individuals to inform them about the process and get feedback.

A total of eight (8) firms responded to the RFP. Those responses were reviewed by three committees. One was composed of citizens and stakeholders participating in the Muni Alliance and the other two were composed of City staff. Each of these committees ranked the proposals and made recommendations to the final review team.

The final review team, consisting of staff and community volunteers, reviewed the recommendation and narrowed the proposals down to two (2) finalists. The two (2) finalists were invited to Asheville to discuss their proposals with the final review team.

The final review team met on July 19, 2012, to develop a recommendation on the type of management plan to recommend to the Finance Committee. The final review committee selected Pope Golf as the firm with the strongest proposal for management of the Municipal Golf Course.

The Pope Golf proposal presented to the City outlines a contract agreement to create a Public/Private Partnership. This provides several advantages to the City:

1. **Elimination of financial risk for the City:** The contractor will be committed to pay the municipality a performance payment, pay all operating expenses, supply equipment, and likely provide some capital funds for investment in the golf facility. The City is guaranteed positive income from performance payments.

2. **Protection of and accessibility of the asset:** While contractual arrangements are typically associated with less municipal control over golf course operations, staff is confident the City can protect the quality of and accessibility to the asset by carefully developing an agreement with clear operational and maintenance standards, as well as performance measures and provisions that address pricing, programming, capital improvements and service.

The Pope Golf proposal addresses the following items that were major concerns of community members:

**Q: Will the City lose control of the rate structure?**

*A: No. The City will include language in the contract to retain control of the maximum rates charged for all goods and services. Pope Golf seeks only the ability to offer discounts to*

*customers to increase volume at off peak times. Pope has agreed not to increase rates during the first two years of the contract. Thereafter, rates may not increase more than the CPI for the southeast region.*

**Q: Will current tournaments continue to operate at the golf course?**

*A: Yes. Pope Golf will continue to allow current tournaments that have a 10+ year history to operate at the golf course. The dates and times will be protected.*

**Q: Will the public have access to the golf course?**

*A: Yes. The course will remain open to the public. It will not be a private course. It will continue to be a City asset and open to all citizens who want to participate.*

**Q: Will current employees be retained?**

*A: Under a contract arrangement, all golf course employees will be employed by the management company. Pope Golf understands the importance of local jobs and the relationship between current employees and the customer base, and recognizes that dedicated, quality employees are a valued asset. Pope has retained over 95% of all employees wishing to continue employment at the facilities Pope Golf manages. Pope is committed to interviewing all employees currently employed at the golf course.*

**Q: How will the City ensure that the golf course stays in good shape?**

*A: Specific course maintenance standards negotiated and agreed upon becomes part of the management contract. Pope Golf will provide management and maintenance programs to ensure that these standards are exceeded. It is in the City's and Pope Golf's mutual best interest to provide top quality playing conditions to increase rounds and revenue. The aforementioned efficiencies typically allow Pope Golf to increase expenditures on the golf course.*

**Q: How can the City provide for much needed capital investment to enhance and protect the course?**

*A: Pope Golf is committed to comprehensive capital expenditure programs to protect assets, and make continued improvements to increase revenues, customer satisfaction, and the asset value. During contract negotiations, an agreed upon percentage of revenues will be set aside to fund capital improvements.*

**Q: What is Pope Golf's position on junior golf and community programs?**

*A: Pope Golf will develop and support programs for juniors, families, women, seniors and individuals with special needs, which will increase playing opportunities to build a foundation for the future of the game.*

City Council Finance committee reviewed the management terms on July 24, 2012, and recommended this item to the full City Council. The Recreation Advisory Board reviewed the management recommendation and terms of the agreement at its meeting on August 13, 2012.

The proposed timeline is as follows, if Council approves the management agreement at this meeting: (1) the City will meet with golf course employees tomorrow and share with them Pope Golf's benefits and their operating; (2) on September 17 Pope will conduct on-site interviews with staff, working with our Human Resources Department; (3) on September 24 Pope

Golf will make job offers to employees; (4) on September 25 City Council to approve lease agreement; and (5) on October 1 Pope Golf will be ready to start operations.

This action complies with the City Council Strategic Operating Plan of Fiscal Responsibility in that it supports a stronger, more prosperous community by making smart investments that accomplish lasting, tangible returns. It leverages an external partnership to enhance the City's financial commitment to master plan implementation, infrastructure maintenance, capital improvements and public facilities. This action also complies with the Parks, Recreation, Cultural Arts and Greenway Master Plan in that it maximizes the level of service available to the community by using partnerships.

Pros:

- Eliminate the general fund subsidy for golf course operations.
- Elimination of financial risk for the City.
- Provide a reliable funding stream to support maintenance and operation of the Municipal Golf Course.
- Sets the standards of operation to assure quality maintenance practices and meet community expectations.

Con:

- None

Through the RFP process, staff concluded a public-private partnership offers the best opportunity for the City to maximize financial performance at the golf course while improving the asset and continuing to offer an affordable public recreational amenity. Staff further concluded a private company was in the best position to maximize financial performance by:

- Increasing the number of rounds played;
- Cutting overhead costs, particularly related to the costs of benefits;
- Purchasing materials and supplies in volume;
- Improving golf-course management techniques;
- Improving course conditions;
- Actively marketing programs and cooperative arrangements with golf associations;
- Reaching out to local high schools, youth groups, and community groups;
- Reinvesting revenues in capital improvements; and
- Increasing productivity by applying industry best practices and efficiency.

While the City could independently pursue some of these strategies, it is limited in some key areas including staffing costs and the economies of scale achieved by management companies that operate multiple facilities.

Over the last six (6) years, staff has worked to identify creative ways to reduce operating expenses at the golf course. As a result, the operating budget was reduced by almost $200,000 by eliminating personnel, supplies and materials; and by re-negotiating lease payments for golf carts and equipment. These strategies have helped to limit the expense budget, but the downturn in the economy has affected the annual number of rounds played, which impacts revenue projections. The effect of not achieving the projected number of rounds per year is an increase in the general fund subsidy to cover the loss of projected revenue.

Under this partnership model, the operational risk is shifted away from the City and to the contractor. This includes the risk associated with rising expenses, as well as downturns in rounds played and revenues. The only expenses remaining with the City will be those associated with administering the contract, oversight and compliance, along with the long-term capital needs of the asset.

In the six (6) years of operating the Municipal Golf Course, the City has not invested in much needed capital projects. This is due to the ongoing subsidy of the operating losses each year. There have been two (2) capital projects completed during this time period, (1) netting along Swannanoa River Road to prevent golf balls from damaging vehicles, and (2) the irrigation system on the front nine. The fence along Swannanoa River Road was replaced via a project funded by PSNC Energy to relocate the fence away from an underground gas line.

The City and Pope Golf will develop a separate Memorandum of Understanding (MOU) for the following areas:

a. **Capital Improvement Agreement** – The Capital Improvement Agreement will include specific projects to be implemented over a seven (7)-year period. This will be developed by the management company and approved by the City no later than six (6) months after the contact is approved by both parties.

b. **Capital Funding Schedule-** The City and Pope Golf will agree on a seven (7)-year Capital Funding Schedule for the Capital Improvement Agreement no later than six (6) months after the contract is approved by both parties.

The City currently budgets the golf course annual operating expenditure at $924,554. If City Council approves this agreement, Pope Golf will assume this expenditure and provide the daily operations and maintenance of the facility. Operational standards will be defined with a stated mission statement, hours and days of operation, and an addendum that specifies agronomic condition standards and other operational expectations.

Part of the structure of this management agreement will be to lease the municipal golf course property to Pope Golf. As consideration for the lease agreement, Pope Golf will make an annual contract payment to the City. For the first three years of the contract, Pope will pay the City a flat fee of $72,000. After the initial three years, the flat fee will be calculated as 10% of the average gross revenues earned during the first three years of the contract (minus golf shop and food and beverage sales). Pope Golf will pay the City an additional 1% if annual gross revenues (minus golf shop and food and beverage sales) are $1,200,000 or less than $2,199,999. Pope Golf will pay the City an additional 2% if annual revenues (minus golf shop and food and beverage sales) are $2,200,000 or greater. Payments will be due quarterly. The lease term would be for a period of seven (7) years with an option to renew one (1) three year period. The request to authorize the lease will be brought to City Council at its regularly scheduled meeting on September 25, 2012.

If Council authorizes Pope Golf to operate the golf course under a management agreement, the City will implement a Reduction in Force in accordance with the City's Personnel Policy Section 35. The reduction in force will eliminate ten (10) full-time positions allocated to the Golf Course effective October 1, 2012. The City requests the authorization to offer a severance package to impacted employees who do not obtain employment in either another City position and/or a position with Pope Golf. The request is to provide a lump sum payment equivalent to eight (8) weeks of pay for those employees. In the unlikely event that none of the impacted employees obtain employment with either the City or Pope, the maximum amount that the City would pay out under this reduction in force agreement (including vacation and compensatory time payouts) would be approximately $92,000. This payment would come from the existing FY 2012-13 Golf Fund budget.

Staff recommends City Council (1) adopt a resolution authorizing the City Manager to enter into a seven (7)-year management agreement with Pope Golf, L.L.C to manage the operation of the Asheville Municipal Golf Course; (2) authorize staff to offer a severance package to impacted employees who do not obtain employment in either another City position and/or a position with Pope Golf. The request is to provide a lump sum payment equivalent to eight (8)

weeks of pay for those employees; and (3) authorize the lease to be brought before City Council at its September 25, 2012, meeting.

Mr. Alan Ditmore felt that golf is not in the preview of government and the City should not be involved in something that is obviously suitable for private enterprise.

The following individuals spoke in opposition to the public-private partnership of the Municipal Golf Course and in support of the City properly maintaining management the course with professional leadership:

Golfer at the Municipal Golf Course since 1969 and current President of the Men's Club
Golfer and former Golf Course employee at the Municipal Golf Course since 1945
(presented Council with a petition to reject the outsourcing of the Municipal Golf Course and noted they only met with a few people who played golf)

The following individuals spoke in support of the public-private partnership of the Municipal Golf Course, noting that the City has met with numerous groups on this issue:

Mr. Robert Green, member of the Muni Alliance Citizens Group
Ms. Brenda Dunlap, member of the Muni Alliance Citizens Group

Councilman Smith noted that the land which is golf course is located on is deed restricted to the purpose of a golf course only and it's the responsibility of the City to make sure that it's a good golf course.

In response to Councilman Smith, Director of Finance and Management Services Lauren Bradley said that Pope Golf will probably utilize more temporary seasonal labor positions; however, they have agreed to comply with the City's living wage policy for the employees that they would have as Pope Golf full-time and part-time employees.

In response to Councilman Hunt, Ms. Bradley said that the Capital Improvement Agreement would outline the responsibilities of both the City and Pope Golf. The City would maintain some responsibility for capital improvements and that responsibility would be for those that would not be related to the course of operating a business there, but those that were more related to the long-term life of the asset.

Councilmen Bothwell, Hunt and Pelly all agreed that at the beginning of the process they felt the City should manage the asset of the Golf Course in-house; however, they now believe that the Golf Course can be better managed by Pope Golf.

In response to Mayor Bellamy, Ms. Bradley explained the 7-year management agreement by saying that Pope Golf's proforma showed a better window of time to recoup their investment, opposed to a five-year period (with a 2-year extension) that the City originally proposed.

In response to Mayor Bellamy regarding the termination language, Ms. Bradley said there will be several performance clauses and addendums to the lease and among those will be very specific maintenance standards. Also there will be customer service standards and if those measures are not met it could be a reason for termination. She said Pope Golf will operate concessions and food service at the Golf Course and there will be expectations built in for what the City's expectations are for provision of those types of services. Pope Golf has agreed to purchase any inventory that we have on hand in the Pro Shop.

In response to Mayor Bellamy about the generous volunteer program we now have, Ms. Bradley said that the standard in the industry is to not have a volunteer program because data shows that you lose money on providing free golf vs. the value of the labor that you are getting in return.

When Mayor Bellamy asked about the Golf Course budget, Ms. Bradley said that we budgeted $924,000 in expenses, about $700,000 in revenue and about $140,000 in the General Fund operating subsidy. What we would be left with the $140,000 General Fund subsidy, plus the $70,000 lease payment. However, in Year One we will have the expense of the severance package for employees and thought Council might want to apply that General Fund subsidy toward any type of pay-out for that.

Mayor Bellamy felt it was clear by the number of people who signed the petition that we need to have at least one more meeting (before September 25) with the community to talk about the specifics of what will happen, specifically mentioning that the property is deed restricted for a golf course only. It's clear that some people feel disenfranchised in this process.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Manheimer moved for the adoption of Resolution No. 12-206. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 77**

**D. RESOLUTION NO. 12-207 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE AGREEMENT WITH THE GROVE ARCADE PUBLIC MARKET FOUNDATION INC. FOR A DOWNTOWN ENGAGEMENT SITE FOR THE RENAISSANCE COMPUTING INSTITUTE OF UNC-ASHEVILLE (RENCI)**

**ORDINANCE NO. 4114 - BUDGET AMENDMENT FOR THE LEASE AGREEMENT WITH GROVE ARCADE PUBLIC MARKET FOUNDATION INC. FOR ONE PAGE AVENUE, SUITE 116 IN THE GROVE ARCADE BUILDING**

Real Estate Manager Nikki Reid said that this is the consideration of a resolution authorizing the City Manager to execute a Lease Agreement between the Grove Arcade Public Market Foundation, Inc. and the City of Asheville for real property located at One Page Avenue, Suite 116, Asheville NC within the historic Grove Arcade building; and the associated budget amendment in the amount of $36,096 with funding provided by the Renaissance Computing Institute at UNC Asheville (RENCI).

Since June 2009, the City of Asheville has leased Suite 116 at the Grove Arcade from the Grove Arcade Public Market Foundation, Inc. This space, measuring approx. 2,209 square feet, is utilized by the Renaissance Computing Institute at UNC Asheville (RENCI) for a Downtown Engagement Site. At this time, the existing lease has expired and the City has the opportunity to re-establish the lease based on the following terms:

- Initial term of 2 years with the option to renew for an additional 2 year period
- Proposed monthly rental rate of $3,007.40, with no annual increase
- All maintenance and care of premises is the responsibility of the Grove Arcade
- All utilities are separately metered and are the sole responsibility of RENCI

RENCI will fully reimburse the lease cost to the City throughout the duration of the lease and will be responsible for any and all costs related to the occupancy and operation of the Downtown Engagement Site, including utilities. The budget amendment in the amount of $36,096 includes rental payments for year one of the proposed lease.

This action complies with the City Council Strategic Operating Plan by supporting an ongoing collaborative partnership between the City of Asheville and RENCI at UNC Asheville.

Pros:

- Optimum location for Downtown Engagement Site
- Supports RENCI at UNC Asheville partnership
- All rent payments are fully reimbursed by RENCI

Con:

- None

There is no financial impact to the City. RENCI will reimburse the City for the full cost of the lease.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute the lease agreement with the Grove Arcade Public Market Foundation, Inc. on behalf of the City of Asheville, and the associated budget amendment in the amount of $36,096 for year one of the lease.

When Mayor Bellamy asked for public comment, no one spoke.

Mayor Bellamy said that members of Council have been previously furnished with copies of the resolution and ordinance and they would not be read.

Councilman Smith moved for the adoption of Resolution No. 12-207. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 78**

Councilman Smith moved for the adoption of Ordinance No. 4114. This motion was seconded by Councilman Bothwell and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 451**

**E. RESOLUTION NO. 12-208 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SUBLEASE WITH THE STATE OF NORTH CAROLINA FOR A DOWNTOWN ENGAGEMENT SITE FOR THE RENAISSANCE COMPUTING INSTITUTE AT UNC-ASHEVILLE**

Real Estate Manager Nikki Reid said that this is the consideration of a resolution authorizing the City Manager to execute a Sublease Agreement between the City of Asheville and the State of North Carolina for real property located at One Page Avenue, Suite 116, Asheville NC within the historic Grove Arcade building for the Renaissance Computing Institute at UNC Asheville (RENCI).

On June 1, 2009, the City of Asheville entered into a lease with the Grove Arcade Public Market Foundation, Inc. for office space in Suite 116 at the Grove Arcade. As part of the partnership outlined in the Memorandum of Understanding between the City of Asheville and the UNC Asheville, this space is utilized by the Renaissance Computing Institute at UNC Asheville (RENCI) for a Downtown Engagement Site. On behalf of UNC Asheville - RENCI, the State of North Carolina entered into formal sublease with the City for the premises and covered all costs associated with the occupancy of the leased space.

At this time, the master lease between the Grove Arcade Public Market Foundation, Inc. and the City of Asheville has expired and the City seeks to re-establish the lease based on the following terms:

- Initial term of 2 years with the option to renew for an additional 2 year period
- Proposed monthly rental rate of $3,007.40, with no annual increase
- All maintenance and care of premises is the responsibility of the Grove Arcade
- All utilities are separately metered and are the sole responsibility of RENCI

The State of North Carolina has requested a formal sublease between the City and the State, under the same terms and conditions as set forth in the master lease. The State of NC will be responsible for costs related to the occupancy, including rental at a rate of $3,007.40 per month, utilities, and janitorial services.

This action complies with the City Council Strategic Operating Plan by supporting an ongoing collaborative partnership between the City of Asheville and the RENCI at UNC Asheville.

Pros:

- Optimum location for Downtown Engagement Site
- Supports RENCI at UNC Asheville partnership
- All rent payment, utilities and janitorial costs are fully paid by the State of NC - RENCI

Con:

- None.

There is no immediate financial impact to the City. The State of NC (RENCI) will continue to reimburse the City for the full cost of the rental.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute the sublease agreement with the State of North Carolina for Suite 116 at the Grove Arcade.

When Mayor Bellamy asked for public comment, no one spoke.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 12-208. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 79**

**F. ORDINANCE NO. 4115 - ORDINANCE REPEALING ORDINANCE NO. 1876 CREATING THE ASHEVILLE-BUNCOMBE FAIR HOUSING COMMISSION**

Planning & Development Director Judy Daniel said that this is the consideration of an ordinance to eliminate the Asheville Buncombe Fair Housing Commission.

When the Asheville Buncombe Community Relations Committee was certified by HUD to investigate federal fair housing complaints, an Asheville Buncombe Fair Housing Commission was established by joint ordinance of the City and Buncombe County. The sole purpose of this Commission was to act as the adjudicating body if complaints with merit could not be resolved voluntarily or through mediation. In 2011, HUD decertified the Asheville Buncombe Fair Housing Program as being substantially equivalent to the Federal Fair Housing Program, and the City agreed that fair housing investigations would be conducted by the North Carolina Human Relations Commission. The County agreed likewise. The local Commission therefore no longer has authority to hear fair housing cases.

This action supports the City's Strategic Operating Goal of *Affordable* by supporting citizen access to safe, sufficient and affordable housing by ensuring that all residents have access to fair housing services that are HUD certified.

This recommendation has been reviewed and is supported by the Housing and Community Development Committee.

Pros:

- This ordinance will eliminate any confusion regarding jurisdiction in fair housing cases.
- Fair Housing cases needing adjudication will be addressed by a HUD certified body.

Con:

- There has been some concern expressed about the loss of local fair housing investigation capacity. Staff continues to work with both the ABCRC and NCHRC to ensure proper attention to fair housing issues in our community.

No City funds are requested to support this program.

Staff recommends that Council approve the ordinance eliminating the Asheville Buncombe Fair Housing Commission.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Bothwell moved for the adoption of Ordinance No. 4115. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 453**

**G. RESOLUTION NO. 12-209 - RESOLUTION AUTHORIZING THE CITY MANAGER EXECUTE A CONTRACT WITH RAFTELIS FINANCIAL CONSULTANTS INC. FOR ADDITIONAL SERVICES – WATER UTILITIES MERGER/CONSOLIDATION ANALYSIS**

**ORDINANCE NO. 4116 - BUDGET AMENDMENT FOR RAFTELIS FINANCIAL CONSULTANTS INC. FOR ADDITIONAL SERVICES – WATER UTILITIES MERGER/CONSOLIDATION ANALYSIS**

Director of Water Resources Steve Shoaf said that based on the July 31st City Council work session, Raftelis Financial Consultants, Inc., has submitted a scope of work and cost estimate for additional services to assist the City of Asheville in performance of an analysis of the parameters and impacts of various merger/consolidation scenarios. The City Manager is authorized by council to enter into general service contracts between $30,000 and less than $90,000 without council approval. However, Staff recommends that the City Council give approval to the City Manager to enter into a contract with Raftelis to provide additional expertise to City staff during the internal impact analysis; and the consideration of a budget amendment in the amount of $67,200.00 from savings in capital projects that were completed under budget.

The City of Asheville previously engaged the services of Raftelis Financial Consultants to assist with the City's response to requirements of the legislative study report related to the merger / consolidation of the water system with MSD. Specifically, the City is interacting with MSD as MSD pursues a study of the impacts of merger / consolidation on MSD rate payers. The City of

Asheville staff, as due diligence, is now conducting an analysis of the impacts of various scenarios related to a potential merger/consolidation of the water system with one or more entities. This impact analysis includes a review of financial information, a review and fair market valuation of assets associated with the water system operation, and a review of governance options.

Raftelis has identified two separate scopes of work associated with the due diligence process:

- Task 1 is provision of Financial Analysis and Support. This includes meeting with City staff, updating the water rate model, providing guidance on asset valuation methods, reviewing the City analysis results, and presentations of results to the Council and other stakeholders.
- Task 2 is provision of Governance Analysis of Regional Approaches to Utilities. This includes meeting with City staff, research and analysis of successful North Carolina governance structures of regional utility organizations, development of governing body criteria associated with successful North Carolina regional utility organizations, and development of findings and recommendations with presentations of results to the Council and other stakeholders.

Cost estimates by Raftelis are $35,270.00 for *Task 1: Financial Analysis and Support* and $24,593.00 for *Task 2: Governance Analysis of Regional Approaches to Utilities* for a proposed total of $59,863.00. A 12% contingency will be added for a total budget amount of $67,200.00.

The Water Resources Department will develop a contract between the City and Raftelis Financial Consultants, Inc., to cover the proposed work and for the amounts estimated.

Pros:

- Raftelis has experience reviewing financial and governance models.
- Raftelis will provide guidance related to recognized methodologies for asset valuation.
- Raftelis will be able to provide benchmarking to recognized practices related to merger / consolidation of utility organizations.

Con:

- The services provided by Raftelis were not part of the approved Water Operating budget and require the use of capital project savings.

The Water Resources Department has not budgeted for this project. The $67,200.00 for this one-time expense will come from unexpended capital funds that have accumulated in the Water Capital Projects Fund as projects have been completed and come in under budget. In order to use these funds, a budget amendment is necessary.

| | |
|---|---|
| Current Amount Budgeted for RFC Contract | $ 0.00 |
| Budget Amendment Amount Needed | $67,200.00 |
| Total Amount | $67,200.00 |

The City Manager is authorized by council to enter into general service contracts between $30,000 and less than $90,000 without council approval. However, Staff recommends that the City Council give approval to the City Manager to enter into a contract with Raftelis to provide additional expertise to City staff during the internal impact analysis; and the consideration of a budget amendment in the amount of $67,200.00 from savings in capital projects that were completed under budget.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with copies of the resolution and ordinance and they would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 12-209. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 80**

Councilman Bothwell moved for the adoption of Ordinance No. 4116. This motion was seconded by Councilman Pelly and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 454**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Ms. Teddy Jordan, President of the Kenilworth Residents Association, Inc., said that they are concerned about the steep slopes, unstable soil conditions and limited sight distances in roadways and on old driveways south of and to the east of the Kenilworth Inn Apartments. She provided Council with a map of the requested area. They understand that a new application has been recently filed for the portion of the area but they have not seen the plans. Therefore, they request City Council immediately initiate rezoning on any property that is owned by Caledonia LLC zoned Institutional in this area that is not associated with a current pending project or an existing building and if any opportunity presents itself in this process to also include the Finalee property, we request that as well. It was the consensus of Council to place this request on an upcoming City Council agenda.

**Continuance of Closed Session**

It was the consensus of Council to go into closed session and then come back out into the formal meeting to continue the formal meeting until Thursday, August 30, 2012, at 4:00 p.m. in the Council Chamber for consideration of revisions to the language of the referendum on the sale or lease of the City's water system.

At 10:45 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Smith and carried unanimously.

**Continuance of Formal Meeting**

It was the consensus of Council to continue this formal meeting until Thursday, August 30, 2012, at 4:00 p.m. in the Council Chamber for consideration of revisions to the language of the referendum on the sale or lease of the City's water system.

Thursday – August 30, 2012 - 4:00 p.m.

Continuance of Regular Meeting of August 28, 2012

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and Deputy City Clerk Philip Kleisler

Absent: None

**Consideration of revisions to the language of the referendum on the sale or lease of the City's water system**

At 4:00 p.m., Councilman Pelly moved to go into closed session to consult with an attorney employed by the City about matters with respect to which the attorney-client privilege

between the City and its attorney must be preserved. The statutory authorization is contained in G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Davis and carried unanimously.

At 4:29 p.m., Councilman Davis moved to come out of closed session. This motion was seconded by Councilman Smith and carried unanimously.

After hearing from City Attorney Oast in closed session, there was no interest in changing the language of the referendum.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 4:32 p.m.

Magdalen Burleson
CITY CLERK

Jim M Bellamy
MAYOR

Tuesday – September 11, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer (excused from meeting at 5:45 p.m.); Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Mayor Bellamy asked for a moment of silence to remember those who lost their lives on September 11.

Councilman Hunt gave the invocation.

**I. PROCLAMATIONS:**

**A. PROCLAMATION PROCLAIMING SEPTEMBER 15-OCTOBER 15, 2012, AS "HISPANIC HERITAGE MONTH"**

Mayor Bellamy read the proclamation proclaiming September 15-October 15, 2012, as "Hispanic Heritage Month" in the City of Asheville. She presented the proclamation to Ms. Sarah Nunez who briefed City Council on some activities taking place during the month.

**B. PROCLAMATION PROCLAIMING SEPTEMBER 17-21, 2012, AS "MINORITY ENTERPRISE DEVELOPMENT WEEK"**

Mayor Bellamy read the proclamation proclaiming September 17-21, 2012, as "Minority Enterprise Development Week" in the City of Asheville. She presented the proclamation to Mr. James Lee who briefed City Council on some activities taking place during the week.

**C. PROCLAMATION PROCLAIMING SEPTEMBER 21, 2012, AS "DAY OF PEACE"**

Mayor Bellamy read the proclamation proclaiming September 21, 2012, as "Day of Peace" in the City of Asheville. She presented the proclamation to Ms. Rachael Bliss and others who briefed City Council on some activities taking place during the day.

**II. CONSENT AGENDA:**

At the request of City staff, (1) Consent Agenda Item "C" was removed from the Consent Agenda for consideration on October 23, 2012; and (2) Consent Agenda Item "F" was removed from the Consent Agenda for consideration on October 9, 2012.

At the request of Councilman Davis, Consent Agenda Item "B" was removed from the Consent Agenda for discussion and vote.

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 28, 2012**

**B. RESOLUTION TO FUND LOCAL ORGANIZATIONS WITH 2011 AND 2012 EMERGENCY SOLUTIONS GRANT FUNDS**

This item was pulled from the Consent Agenda for discussion and vote.

**C. RESOLUTION ENDORSING THE BUNCOMBE COUNTY GREENWAYS AND TRAILS MASTER PLAN**

This item was pulled from consideration and will be rescheduled on October 23, 2012.

**D. RESOLUTION NO. 12-212 - RESOLUTION AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO USE ELECTRONIC SIGNATURES IN ELECTRONIC COMMERCE WITH THIRD PARTIES AND TO ALLOW THE CHIEF FINANCIAL OFFICER TO USE ANY DEVICE SET FORTH IN N.C. GEN. STAT. SEC. 159-28 TO SIGN ANY CHECK, DRAFT, PRE-AUDIT STATEMENT OR PURCHASE ORDER**

Summary: The consideration of a resolution authorizing the City Manager, and/or his or her designees, to electronically sign City disbursements by check, draft, pre-audit statement, purchase order or any other means on behalf of the City and the finance officer or some other bonded officer or employee maintain the custody of the necessary devices to process such disbursements in accordance to N.C. Gen. Stat. 159-28.1.

The City of Asheville processes hundreds of disbursements in any given week. In an effort to streamline the process, the City has installed computer software that allows City disbursements to be approved electronically. Under North Carolina law, as delegated by City Council, the City Manager, and/or his or her designees, is authorized to sign disbursements on behalf of the City. In addition, North Carolina law requires the finance officer or some other bonded officer or employee to maintain custody of the necessary devices utilized for processing these electronically signed disbursements. In order to work within a paperless system, it is necessary for the City Manager, and/or his or her designees, to sign disbursements electronically.

N.C. Gen. Stat. 159-28.1 states that the governing board of a local government or public authority may provide by appropriate resolution or ordinance for the use of facsimile signature machines, signature stamps, or similar devices in signing checks and drafts and in signing the preaudit certificate on contracts or purchase orders.

Asheville City Council approved a resolution authorizing electronic signatures in 2009. However, although the title of the resolution includes checks and drafts, the concluding paragraph does not specifically include "disbursements by check, draft or any other means." The resolution corrects this exclusion and is intended to supersede the original resolution that was passed.

Regarding City Council's Strategic Operating Plan, this action complies with Affordable and Green in that the City will be reducing the amount of paper needed to process disbursements.

Pros:

- Reduce the amount of paper used by the City
- Reduce the amount of time approval forms travel through interoffice mail
- Increase turn around times for check order approvals
- Improve customer service

Con:

- None noted

No direct fiscal impact. Use of electronic signatures will improve efficiency of system processes.

City staff recommends City Council adopt a resolution authorizing the City Manager, and/or his or her designees, to electronically sign City disbursements by check, draft, pre-audit statement, purchase order or any other means on behalf of the City and the finance officer or some other bonded officer or employee maintain the custody of the necessary devices to process such disbursements in accordance to N.C. Gen. Stat. 159-28.1.

**RESOLUTION BOOK NO. 35 – PAGE 83**

**E. RESOLUTION NO. 12-213 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AGREEMENT WITH MOTOROLA INC. TO PROVIDE MAINTENANCE COVERAGE FOR THE CITY'S RADIO SYSTEM**

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement with Motorola, Inc. to provide maintenance coverage for the City's radio system.

Motorola, Inc. has provided maintenance services for the City's radio communications system since installation of the system in 1992. The service agreements are renewed annually. The maintenance cost per unit of equipment for the renewal period of August 1, 2012, through July 31, 2013, has remained the same as last year's cost. Funding for this contract was appropriated in the FY 12/13 budget process.

The renewal agreement reflects an annual charge of $147,163.92 and covers additional equipment purchased by the City to equip new vehicles and replace broken equipment.

This action complies with City Council's Strategic Operating Plan in that it ties back to Council's goal of partnerships to improve critical services / infrastructure. These partnerships also help the City recoup some of their investment in the system infrastructure through fees collected for use of the system.

Pros:

- The primary benefit of this contract is to keep the City's radio system reliable and operational for public safety officers.
- By keeping the radio system in optimal condition the City is also able to provide communication services to several outside agencies, thereby improving interagency communications.

Cons:

- None noted.

As noted above, the funding for this contract is included in the FY 2012-13 Information Technology Services adopted budget.

City staff recommends the adoption of the resolution for radio maintenance coverage for the term of August 1, 2012, through July 31, 2013.

**RESOLUTION BOOK NO. 35 – PAGE 84**

**F. BUDGET AMENDMENT TO AUTHORIZE THE USE OF N.C. STATE DRUG SEIZURE FUNDS**

This item was pulled from consideration and will be rescheduled on October 9, 2012.

**G. ORDINANCE NO. 4117 - BUDGET AMENDMENT TO AUTHORIZE THE USE OF FEDERAL DRUG SEIZURE FUNDS**

Summary: The consideration of a budget amendment, in the amount of $59,000 to authorize the use of Federal Drug Seizure Funds to purchase equipment and Community Policing training for the Asheville Police Department.

The federal drug seizure program is an equitable sharing program which divides the illegal proceeds from drug dealing between the federal government and local law enforcement agencies. It is designed to help off-set the considerable cost of drug enforcement, by allowing local law enforcement agencies to use seized monies for equipment, training, and improvements that might not necessarily be budgeted for by the agency. The illegal proceeds are divided with 20% going to the federal agency adopting the seizure and 80% going to the local law enforcement agency initiating the seizure. The City of Asheville Police Department has received $59,000 in federal drug seizure funding. This proposed budget amendment would authorize the use of this funding for departmental wide Community Policing training, Community Policing Essentials 8 hour training through Virginia Center for Policing Innovation (VCPI) and equipment purchases of X2 TASERs to enhance officer safety for the Asheville Police Department. These are items which are not covered by the APD operating budget.

This action complies with City Council's Strategic Operating Plan in the Focus Areas - Safe - Asheville will be one of the safest and most secure communities when compared to similar cities and Fiscal Responsibility – The City of Asheville will support a stronger, more prosperous community by making smart investments that accomplish lasting, tangible returns.

Pro:

- Federal seizure revenues to cover the cost of equipment and training related community policing activities without impacting the general fund

Con:

- None noted

The fiscal impact would be the increase of $59,000 for training and equipment. Accepting these funds is a significant financial benefit to the APD allowing us to better train and equip our employees. There is no impact to the General Fund budget.

City staff recommends City Council adopt the budget amendment in the amount of $59,000 to authorize the use of Federal Drug Seizure Funds to purchase equipment and training for the Asheville Police Department.

**ORDINANCE BOOK NO. 27 – PAGE 456**

**H. ORDINANCE NO. 4118 - BUDGET AMENDMENT TO AUTHORIZE THE USE OF FEDERAL HIGH INTENSITY DRUG TRAFFICKING AREA FUNDS**

Summary: The consideration of a budget amendment, in the amount of $15,000, to authorize the use of Federal High Intensity Drug Trafficking Area (HIDTA) Funds to provide overtime for members of the Asheville HIDTA for domestic highway enforcement.

The High Intensity Drug Trafficking Areas (HIDTA) program was authorized by the Anti-Drug Abuse Act of 1988 and is administered by the Office of National Drug Control Policy. The original designation of five HIDTA sites in 1990 has expanded into more than thirty areas around the country. The HIDTA's mission is to reduce drug trafficking in the most critical areas of the

country, thereby reducing the impact of illegal drugs in other areas. The Asheville HIDTA will serve as a key drug trafficking reduction effort, critically positioned between the Atlanta HIDTA and the Appalachia HIDTA. The Asheville HIDTA is comprised of members of the United States Drug Enforcement Administration (DEA), Asheville Police Department, Buncombe County Sheriffs Office, Henderson County Sheriffs Office and McDowell County Sheriffs Office. The Asheville HIDTA has receives an ongoing $150,000 annual funding after more than four years of competitive process for the HIDTA designation. The Asheville HIDTA is a component of the Asheville DEA Task Force. The City of Asheville serves as the fiscal agent for the Asheville HIDTA. The Asheville HIDTA has received authorization for an additional $15,000 in federal HIDTA funding. This proposed budget amendment would authorize the use of this funding to provide overtime for members of the Asheville HIDTA for domestic highway enforcement.

This action conforms to the City Council's Strategic Operating Plan under 1) Fiscal Responsibility in that we are using federal HIDTA monies to enhance the Asheville HIDTA's to provide overtime for members of the Asheville HIDTA for domestic highway enforcement, and 2) Safe City in that providing the various equipment and training allows the Asheville HIDTA to provide overtime for members of the Asheville HIDTA for domestic highway enforcement in our region.

Pro:

- Federal HIDTA monies to cover the cost of equipment, personnel and training related to reducing illegal drug trafficking in our region.

Con:

- None noted

There is no impact to the City's General Fund budget. As the project fiduciary the Asheville PD manages the grant which allows these funds to operate as a pass-through to the deputies working overtime related to domestic highway enforcement.

City staff recommends City Council adopt the budget amendment in the amount of $15,000, to authorize the use of Federal HIDTA funds to provide overtime for members of the Asheville HIDTA for domestic highway enforcement.

**ORDINANCE BOOK NO. 27 - PAGE 458**

**I. ORDINANCE NO. 4119 - BUDGET AMENDMENT FOR FIREFIGHTER RECOGNITION PROGRAMS**

Summary: The consideration of a budget amendment, in the amount of $15,803 to appropriate donated funds received from citizens, for procurement of supplies for the purpose of firefighter recognition.

The Asheville Fire Department has received donations from private citizens for the purpose of firefighter recognition. These donations were received throughout fiscal year 2011/2012. The department would like to use these funds to purchase supplies for the annual 9/11 Memorial and Recognition program, supplies for the Pipes and Drum Corp, equipment for the Fire Explorer program and Firefighter Combat Challenge Team, as well as to purchase holiday meals for on duty firefighters this fall and winter. The fire department's annual program allows employees to be recognized for professional accomplishments throughout the year. The meal purchases allow on duty firefighters to prepare a meal in their stations without securing these supplies on their own when many restaurants and stores are closed for the holiday.

This action complies with the City Council Strategic Operating Plan in that it helps to attract and retain quality employees and to ensure operational effectiveness by paying sound

wages and benefits. This action has been reviewed by the Asheville City Council Public Safety Committee with the Committee's recommendation to move to the full Council for consideration.

Pro:

- This action allows for recognition of firefighters without utilizing city tax funds. This action also provides for utilization of these funds as the donating citizens intended.

Con:

- None identified

These funds have been obtained through donations from private citizens for the purpose of firefighter recognition. No city tax funds will be utilized.

City staff recommends City Council approve the budget amendment to receive donated money from citizens.

**ORDINANCE BOOK NO. 27 – PAGE 460**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Pelly and carried unanimously.

**ITEM REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES**

**RESOLUTION NO. 12-211 - RESOLUTION TO FUND LOCAL ORGANIZATIONS WITH 2011 AND 2012 EMERGENCY SOLUTIONS GRANT FUNDS**

Summary: The consideration of a resolution to fund local organizations with 2011 and 2012 Emergency Solutions Grant funds.

In the process approved by Council at the July 24, 2012, Council meeting, the City submitted a timely application to the State of North Carolina Division of Aging and Adult Services (DAAS), Housing and Homeless Unit for Emergency Solutions Grant funding. Funding recommendations were made to the Housing and Community Development Committee by the Homeless Initiative Advisory Committee. These recommendations followed a process that included submittal of letters of intent from eligible agencies, review and preliminary selection by the ESG Subcommittee of the Advisory Committee, and endorsement of those recommendations by the Asheville Homeless Coalition and the Homeless Initiative Advisory Committee.

We have been informed that our application has been approved, with the following agency awards:

| | Emergency Response | Housing Stabilization | Total |
|---|---|---|---|
| **Organization** | | | |
| ABCCM (Steadfast House) | $ 12,445 | $ 23,112 | $ 35,557 |
| Helpmate | $ 15,000 | $ - | $ 15,000 |
| Homeward Bound | $ 10,000 | $ 80,360 | $ 90,360 |
| Salvation Army | $ 23,527 | | $ 23,527 |
| | | | |

| TOTAL REQUESTS | $ 60,972 | $ 103,472 | $ 164,444 |
|---|---|---|---|

We have been additionally awarded $4,914 for use in Emergency Services and/or Housing Stability as well as $50,000 for use in Housing Stability and/or HMIS. Staff will consult with the State about the eligible uses for these additional funds.

These awards are conditional on providing to the State additional information needed and/or assurances that must be provided. These conditions will include, but are not limited, to adequate documentation of required matching funds. These matching funds are provided by the individual agencies (and not the City).

The project directly supports the City's Strategic Operating Goal of *Affordable*: The funded projects support the City's goal for all citizens to have access to safe, sufficient and affordable housing, by addressing homelessness with an emphasis on Housing First.

Pro:

- ESG funding is a key funding resource for emergency shelter, and is now becoming an important resource for rapid rehousing of persons experiencing homelessness;

Con:

- None

Program funding is entirely from the US Department of Housing and Urban Development, through the State of North Carolina. Existing community development division staff will administer the program. No general funds are requested to support this program.

Staff recommends that Council approve the resolution authorizing the City to accept ESG funding, and to provide those funds to the agencies for the programs approved by the State Division of Aging and Adult Services (DAAS), Housing and Homeless Unit.

Two women thanked City Council for seriously considering the ABCCM discrimination complaint made to the US Dept. of Labor against women veterans in their job training program.

Councilman Davis, Chairman of the Housing & Community Development Committee, said this grant is very important to the community. The Committee feels there may be a stoppage in service if this is not moved forward. The Committee recognizes the concern against the ABCCM Steadfast House. He reiterated that these recommendations have been reviewed by the ESG Subcommittee of the Advisory Committee, and endorsement of those recommendations by the Asheville Homeless Coalition and the Homeless Initiative Advisory Committee. At this point, they feel it is still important to move this forward so we can take advantage of these funds.

Community Development Director Jeff Staudinger said that this is the first year the cities have been asked to take over these funds. Previously these funds have been granted directly to the individual agencies, but now the cities are responsible for taking on the responsibility to put the applications forward and help with administration. We are very concerned about a gap of services and we want to make sure as much as possible that persons who are experiencing homelessness can be served as quickly and immediately as possible.

Mayor Bellamy said after talking with the City Attorney's Office, she will invite representatives from ABCCM, a representative from the Dept. of Labor, a representative from Southern Poverty Law Center and a representative of the women veterans to a meeting regarding allegations in order for us to understand the issues brought forward and get those addressed locally, opposed through the Dept. of Labor. The City Attorney's Office is looking for a meeting date. In addition, the Housing & Community Development Committee will be looking at this issue as well.

Mr. Bothwell responded to Councilman Bothwell when he asked who did the apportionment of funding between the different agencies.

Councilman Davis moved for the adoption of Resolution No. 12-211. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 82**

**III. PRESENTATIONS & REPORTS:**

**A. WATER RESOURCES UPDATE**

Project Manager Phil Kleisler updated City Council on the process from August 28 – September 11 by stating (1) Phase I of the internal financial analysis is being completed and beginning Phase 2; (2) regarding communications, (a) internally there have been small and large staff meetings, and (b) externally there have been neighborhood association meetings along with the Project Webpage: www.ashevillenc.gov/projects; (3) regarding governance models, they are continuing to work with Raftelis Financial Consultants (which contract was approved on 8-28-12), and the progress report at the October 16 City Council worksession; (4) regarding asset value there was a conference call with Raftelis; and (5) the joint meeting with the legislators is still scheduled for September 18 at 1:00 p.m. in the U.S. Cellular Center Banquet Hall. As Representative Keever, Senator Nesbitt and Senator Apodaca have scheduling conflicts, they all would like to be kept updated and would be open to trying to find another suitable time and date for a meeting. There has been no response from Representative Moffitt

Mayor Bellamy noted that only Representatives Fisher and McGrady would be able to attend the September 18 meeting and wanted to confirm with Council that the joint meeting will still be held with only two representatives present. She would be willing to meet with Senator Apodaca at home if that would be something he would be interested in due to his recent medical condition. She again stressed that it's important that we hear from our legislators on this issue.

After a brief discussion of whether to offer another meeting date for the joint meeting, it ultimately was the consensus of Council to move forward with the September 18 meeting date with Representatives Fisher and McGrady and updating those that cannot attend.

Councilman Hunt said that he was unable to attend the meeting; however, he felt it was appropriate for Council to move forward with that meeting.

**IV. PUBLIC HEARINGS:**

**A. PUBLIC HEARING REGARDING THE SALE OF REAL PROPERTY LOCATED AT HAYWOOD STREET AND PAGE AVENUE TO MCKIBBON HOTEL GROUP INC. FOR ECONOMIC DEVELOPMENT PURPOSES**

**RESOLUTION NO. 12-214 - RESOLUTION APPROVING THE SALE OF REAL PROPERTY LOCATED AT HAYWOOD STREET AND PAGE AVENUE TO MCKIBBON HOTEL GROUP INC. FOR ECONOMIC DEVELOPMENT PURPOSES**

Due to a conflict of interest, Councilman Davis moved to recuse Vice-Mayor Manheimer from participating in this matter. This motion was seconded by Councilman Hunt and carried unanimously.

At 5:45 p.m., Councilman Hunt moved excuse Vice-Mayor Manheimer from the remainder of this meeting. This motion was seconded by Councilman Bothwell and carried unanimously. At this time, Vice-Mayor Manheimer left the room for the remainder of the meeting.

498

City Attorney Oast said that this is the consideration of a resolution approving the sale of real property located at Haywood Street and Page Avenue to McKibbon Hotel Group, Inc., for economic development purposes. This public hearing was advertised on August 31, 2012. He provided Council with the following staff report:

"A. **Background**. The Subject Property consists of approximately 3/4 of an acre located on the southern side of the intersection of Page Avenue and Haywood Street in downtown Asheville. The U.S. Cellular Center, Vanderbilt Apartments, and Pack Memorial Library are across Haywood Street to the east. Property owned by the Catholic Church, currently vacant, is located immediately across Page Avenue to the North, slightly beyond that, and across Haywood Street, as it curves to the west is St. Lawrence Basilica. The Battery Park Apartments are across Page Avenue to the west. Immediately adjacent to the South are building in various commercial and office uses. The Grove Arcade is located to the south and west. The property is traversed by Battery Park Alley, running north to south.

The City acquired this property in several transactions occurring during 2001 to 2004 in connection with a parking facility that was planned but not built. The property was to be used initially for staging for the parking deck construction. Upon completion of the parking deck, the property was to be developed for commercial or mixed use purposes. Some conceptual plans for this area were prepared with such uses in mind.

In 2007 – 2008, the City solicited proposals from developers for the development of the Subject Property. In February of 2008, the City selected the proposal submitted by McKibbon Hotel Group ("MHG") as the one it wished to proceed with. The proposal was revised at the request of the City and resubmitted in September of 2008. The timeline since then, including development of conceptual plans for the project was reviewed in detail in a report provided to City Council on August 14.

B. **Legal considerations.** The statute pursuant to which the City proposes to sell the Subject Property to MHG is N.C.G.S. 158-7.1, which authorizes the sale of property by private negotiation and sale for economic development purposes. In order to dispose of property pursuant to this provision, the City must first hold a public hearing with advertised public notice. By resolution adopted on August 28, the public hearing was set for September 11. Notice of this public hearing was published on August 31.

Another requirement of the statute is that the consideration for the property cannot be less than the fair market value, subject to the conditions placed on the property. An appraisal prepared by Francis Naeger dated March 9, 2012, establishes the value of the property at $2,526,000. This appraisal assumes that the existing parking garage (68 Haywood Street), a restaurant building (76 Haywood Street), and office building (33 Page Avenue) have been demolished and removed. The appraisal also assumed certain limitations as to the use of the property and the height of the building. MHG has offered $2,526,000 for the Subject Property, subject to a capped reimbursement from the City for the expense of the demolition and removal work that the appraisal assumes has been done.

Another requirement of the statute is that the conveyance of the property must be consistent with the economic development purposes of the statute, which specifically include commercial and business uses, or otherwise in the public interest. To this end, the City is required, before selling the property, to determine the "probable average hourly wage to be paid to workers as to business to be located on the property."

C. **Public hearing.** With the above statutory considerations in mind, the main purpose of the public hearing is to receive information regarding the economic aspects of the

proposed development, including consistency with the City's economic development goals and objectives, the number of jobs, anticipated wages for those jobs, tax impact, and business activity impact. While information regarding the design of the project is relevant to a certain extent, it is important to remember that the design of the project has not progressed beyond the conceptual stage yet, and detailed plans will not be prepared until MHG has a contract for the property. Like any other project in downtown, this project will undergo extensive design review as prescribed in the UDO and the Downtown Master Plan, adopted in 2010.

**D. Economic development/planning considerations.**

1. *Consistency with economic plans.* The development of a hotel on the Subject Property is consistent with the City's economic development plans and the economic development purposes of the statute.

   City's 2025 Plan states (p.71) that promotion of infill development ...is absolutely essential in addressing the tax equity, tax base enhancement, and Smart Growth development goals of the City.

   Goal VIII of the Economic Development Chapter of the City 2025 Plan (p. 203): Create an inventory of property suitable for development or redevelopment for targeted industrial and commercial uses and implement a program to encourage development or conversion to these uses.

   City Council in Nov 2006 agreed to make clearly known and that responders clearly understand that their opportunity to obtain City-owned property for development is dependent on their prior experience and success in meeting similar goals in other situations:

   - Potential to promote new or revitalized entertainment venues
   - Consistency with City Plans or policies, including Smart Growth and environmentally friendly/green building development practices
   - Place-making design that complements our unique downtown business and residential communities and takes constructive pubic input into consideration
   - Provision of strategically sited public parking
   - Ability to accommodate all modes of transportation
   - Potential for significant tax base enhancement

2. *Wages/tax impacts.* The number of persons expected to be employed at the hotel during normal operations is 36 full-time and 25 part-time. Of the full-time positions, six will be salaried management positions paying an average of $50,000 per year. The probable average hourly wage to be paid to hourly workers at the proposed hotel is $10.00 per hour. This does not include workers employed in other businesses that may locate on the property. In addition, during construction, there will be 400 jobs, paying at or above the average wage for jobs in the construction sector in the area. Upon completion of the project, the City would receive taxes based on the tax-assessed value. Although no value has been assessed yet, recently completed hotels in the City have ranged from $10 million to $16 million in assessed value, with ad valorem tax revenue ranging from $42,000 to $67,000 annually, based on current tax rates.

3. *Consistency with downtown master plan.* The project is a Level II project and must follow all development review procedures specified in the zoning ordinance, including review by the Downtown Commission and Planning & Zoning Commission, before approval.

The Downtown Master Plan indicates a need for new development downtown, stating (p. 19) that "...excellent compatible infill projects within the historic fabric must be a high priority," and that "there is a need for a new focus on larger, more complex projects targeted to sites in the traditional Downtown...". The Plan places this site in the "Traditional Downtown District." It states (p. 68) that in this area "thoughtfully designed new buildings are appropriate..." and that "continued investment in existing and new buildings is necessary for the District to continue to thrive." It further states that "Adding appropriate new development on Haywood can help existing properties - historic or not – gain value."

E. **Conditions/Development Agreement.** Assuming that Council approves the sale of the Subject Property to MHG, it may direct that certain conditions be placed on the property intended to ensure that the project meets the economic development purposes for which it is being sold. These could include use of the property for a hotel, as well as some broad design criteria (i.e., number of rooms, height/number of stories). The contract to be signed by the parties will require that MHG prepare and submit a development schedule, to include the process for performing due diligence work, getting zoning and building approvals, and obtaining financing. This will be followed by a development agreement, which will incorporate the zoning approvals, and contain more details about the operation of the hotel.

F. **Other Issues.** Other issues that have arisen include the following:

1. *Design Control*: The proposed project is a Level II project and is not a project for which a conditional use permit is required under the zoning ordinance, and the usual mechanisms for exercising design control are not available. No zoning change is necessary in order to develop the property for a hotel, and no special zoning allowances are being sought for which conditional zoning might be appropriate. Nevertheless, the City owns the property, and may exercise design control through restrictions or covenants in connection with the sale of the property.

   There are two main vehicles for doing this: (a) deed restrictions; and (b) contractual provisions. Deed restrictions should include conditions, such as the use of the property and broad dimensional restrictions, that are not likely to change, and may be necessary to ensure that the property is used for the purposes for which it is sold. The contract for the purchase and sale of the property covers such basic terms as price, description, and due diligence requirements. It will also specify a design preparation and review process - - following the UDO - - that will result in an approved final design for the project. The final design approval will be incorporated into a development agreement for the property. The property will then be conveyed for development in accordance with the agreement.

   With this sequence in mind, the proposal submitted by MHG in 2008, as revised in 2012, and as will be presented by MHG at the public hearing, may be incorporated by reference into the contract. Because the project must still undergo the detailed review and approval process specified in the UDO, however, these plans are necessarily conceptual, and are subject to adjustment and refinement through the review process. To the extent that such adjustments are a matter of concern to Council, Council may specify that any substantial deviation from the conceptual plan may subject the project to further review. "Substantial" would need to be defined.

2. *Financial Assurance*. It is difficult and prohibitively expensive to procure a guarantee of completion in a project of this size and nature. Commercially reasonable practices include (a) obtaining a list of similar completed projects (this was done in the RFP process); (b) a requirement for a commitment for financing from a recognized financial institution prior to closing; (c) evidence of satisfaction of financing conditions;

(d) a requirement that construction be started by a certain date and completed by a certain date; (e) regular construction progress reports; (f) a right to repurchase the property if the project stalls or is abandoned. It would be appropriate to include some combination of these provisions in the development agreement.

3. *Commencing/Completing Construction/Removal of Existing Buildings.* The contract will specify a time for obtaining completion of detailed design work and commencement of construction (12 months) and the time within which construction must be complete (24 months after commencement). If these deadlines are not met, the City would be able to invoke the right to repurchase. With these time constraints, the removal of the buildings would likely occur as the first step in the construction process, but could be one of the construction progress benchmarks in a development agreement.

4. *No Damage to Surrounding Buildings.* The Subject Property is near or adjacent to several historically significant and structurally sensitive buildings, notably St. Lawrence Basilica, the Grove Arcade, and the Battery Park Hotel, all of which are on the National Register of Historic Places. The development agreement could include requirements for seismic monitoring and consultation with a geotechnical engineer.

5. *Compatibility with Potential Public Space.* There is significant community interest in some public space being located on the land directly adjacent to the north of the Subject Property, between the Subject Property and St. Lawrence Basilica. This area includes Page Avenue and Haywood Street. Parks and piazzas are among the ideas that have been discussed. However, nothing has been planned yet, and the City does not own or otherwise control all of the property that would be needed for such a project. The conceptual designs presented by MHG are adaptable to a park or other public space in that area, and it is in MHG's interest to anticipate this in its design, without depending on it. Inclusion of the conceptual plans and approved plans in the contract and development agreement are indications that MHG's design will not preclude or limit the use of the adjacent property for a park or open space.

6. *Appraised Value.* Pursuant to the statute, N.C.G.S. 158-7.1, the Subject Property may not be sold for less than fair market value. The appraisal for the property was prepared by a State-certified, MAI appraiser, and is available for review.

It is recommended that Council hold the public hearing. At the end of the public hearing, or at any subsequent meeting, if Council approves of the conveyance of the property to MHG, Council may adopt a resolution directing the sale of the property upon such terms as it specifies, including conditions regarding the use of the property."

City Attorney Oast oriented Council to the .77 acre site using a picture and survey of the property.

Economic Development /Civic Center Director Sam Powers provided Council with a brief review of the timeline concentrating primarily on the RFQ/RFP process review. He also reviewed the RFQ/RFP criteria of land use(s), community, economic and timing of development. He outlined the developer pre-qualifications desired and the developers who met those qualifications.

City Attorney Oast then briefed Council on the law and legal requirements pursuant to which we are pursuing this transaction. The issue is whether to approve the sale of property at Haywood Street and Page Avenue to McKibbon Hotel Group. He said the applicable law is N.C. Gen. Stat. sec. 158-7.1 which allowed a city to convey property by private negotiation and using that process we can impose conditions. Some statutory requirements we must follow include (1) we must post notice of the public hearing and hold the public hearing; (2) we may not sell for less than fair market value; and (3) determine probable average hourly wage to be paid to the workers

at the business to be located on the property that you are planning to sell. We had an appraisal completed on March 9, 2012, that appraised the value of the property at $2,526,000. The interest being conveyed is a fee simply (by special warranty deed) which may be subject to conditions, such as the type of a hotel, and fairly broad dimensional criteria such as height. The consideration for the City to be paid is $2,536,000 at closing. There is no other consideration. We are required to make certain determinations regarding the probably average hourly wage. There will be 30 full-time hourly; 25 part-time hourly – with average wage of $10.00/hour. There will be 6 full-time salaried positions - $50,000/year (that is for the hotel only and does not include other businesses on the site).

City Attorney Oast then briefed Council on the contract: (1) the basic terms (location, price, interest to be conveyed (including conditions, noting the McKibbon proposal at this meeting will be incorporated); (2) process to closing (a) due diligence by McKibbon; and (b) permits/approvals (technical review, Downtown Commission, Planning & Zoning Commission, one additional community meeting which can be facilitated by the Asheville Design Center) – Level II project; (3) would not close until financing/construction commitments in place (City to review); and (4) one year to close.

Mr. Powers then discussed with Council the consistency of the project with the economic development goals of the City, as outlined in the staff report provided to Council.

In response to Councilman Hunt, City Attorney Oast said that the .77 acre tract being discussed is the McKibbon proposal presented at this meeting, which will be incorporated into the contract.

At 6:17 p.m., Mayor Bellamy opened the public hearing.

Mr. Wyatt Stevens, attorney representing the McKibbon Hotel Group, introduced Mr. John McKibbon, Chairman of the McKibbon Hotel Group, and Mr. Chad Robertson, Project Architect, and asked that after the public hearing that he be allowed 10 minutes for response. He provided Council with a copy of the PowerPoint presentation, along with several letters supporting the McKibbon Hotel Group proposal.

Mr. McKibbon, developer and operator of the proposed hotel, used a PowerPoint to explain a brief history of McKibbon, their local connections, their community involvement, and what McKibbon brings. He showed various projects of McKibbon, noting that hotels make great neighbors. He provided statistics on hotel occupancies and rate trends. He said that McKibbon Hotel Group has 3 hotels currently under construction (and 2 recently opened). All have received financing and they have raised equity for them. They are in a strong situation to build, even in this challenging economic environment. They are experienced in management and mixed-use, urban development. They have equity on hand and the ability to finance this project today. They would be ready to open in 2014. He provided the following economic impact estimate;

Purchase Price - $2,526,000 (demolition costs up to $224,000 to be reimbursed)

| | | |
|---|---|---|
| Hotel-Only Employees | Salaried Management | 6 |
| | Other Full-Time | 30 |
| | Part-Time | 25 |
| Restaurant/Retail Employees | | 50 |
| Annual Sales Tax | | $400,000 |
| Annual Hotel Tax | | $200,000 |
| Annual Property Tax | | $200,000 |
| GC Hard Construction Cost Only | | $19,000,000 |

| | |
|---|---|
| Total Development Cost | $25,000,000 |
| Appropriate Wages from Construction | $ 7,000,000 |
| Jobs from Construction | 400 |

Additional (1) impact on neighboring properties (sales, taxes, employment); (2) support for tourism industry; and (3) impact on US Cellular Center operations.

Mr. Robertson showed various conceptual renderings of the area, before and after the hotel. The proposed plan would construct a building that would house approximately 140 hotel rooms, a parking deck, and retail space along Haywood Street and Page Avenue and as part of this proposal a plaza space of approximately 5,000 square feet. One of the primary goals of the project is to increase pedestrian activity along Page and Haywood. The project could include a much larger plaza area and to be clear, this space cannot occur without a partnership between the City and the Basilica. McKibbon is ready and willing, and has participated in design meetings to discuss a plan that would enable this project to take place. He said the view corridors along Haywood Street have been a concern. He showed drawings of how their proposal is sensitive to Asheville's downtown, noting that the views of the Basilica remain obstructed as you look north towards Haywood Street. The proposed height of the building on Haywood Street is no more than 90 feet and well below adjacent buildings. On Page Avenue the building will be no more than 75 feet. From the face of the guest areas to the face of the Basilica will be at least 170 feet separation between the two faces. He also provided Council with a height comparison of major buildings in our traditional downtown core, demonstrating that their proposal would be very comfortable with its neighbors. He provided Council with conceptual renderings which reflect the architectural vision and their materials will reflect those of the neighbors and even if Page Avenue remains unchanged, their building will incorporate an outdoor plaza space. As the design is viewed from the steps of the Basilica the building will be scaled appropriately for the traditional downtown core and a catalyst for development of an area currently devoid of any activity.

Ms. Alice Cella, representing the Roman Catholic Parish of the Basilica of St. Lawrence, said that as Council considers placing a hotel or an open plaza in the .77 acres, she brought to their attention an important factor in the whole decision is the Basilica of St. Lawrence itself. It's not just a beautiful old church in downtown Asheville. It is an unparallel structure in the City, not only for its antiquity but for its classic artistic form. The irreplaceable brick work is a display of excellent craftsmanship no longer available and it is crowned by the largest unsupported elliptical dome in this continent. The building has been on the list of National Historic Sites for years and was recently elevated to National Historic Sites of Distinction. We expect within the near future to have the Basilica honored with the title "National Historic Landmark." The Basilica enjoys worldwide recognition. She outlined the world-wide fame of architect and designer of the Basilica Rafael Guastavino. Such a beautiful jewel as the Basilica in the heart of the City deserves an open environment to compliment it, rather than a building to over-power it. Another consideration is the shadow factor. She said the Basilica will stand in the shadow of that hotel. She felt there are many other suitable hotel locations in Asheville. The City has one opportunity here to establish a graceful welcoming space that will compliment the Basilica and the US Cellular Center. She said that the Catholic community and Basilica representatives bring experts to the table, like exporters in Guastavino architecture and engineering, the latest seismic monitoring to protect the Basilica, patrons of the arts to make this more than commercial project financially feasible, a first-class developer with sensitivity to Asheville's historic image, and a 147 year history of partnering with the City and the community (mentioning several partnership). She said Council has a choice between a landmark plaza or another hotel project. This is a once in a lifetime decision and no developer has what the Basilica represents for this community. She felt what seems to be ignored is the history the Basilica has brought to this community and the services they deliver to this community for the past 147 years. That will continue for centuries to come, when all the developers have long gone. Having the Kessler Development Group deliver the plans on the St. Lawrence Plaza without interference is simply the right thing to do.

Mr. Matt Mores, real estate consultant to the Basilica, said that he met with two Council members earlier who both felt the RFP had expired. He said that the City's income would be the same where the City goes with the McKibbon proposal or the Basilica proposal. The difference would be that one group delivers a known developer partner the Basilica can trust will deliver the plan they envision and that the majority of citizens want with proven confidence he will protect the history of the area and Basilica. They know this plan will guarantee a large open plaza with line of sites to surrounding buildings and enhancement forever the area. He said a world class plaza delivered on this property could attract developers all over the world to come to Asheville and have a much larger impact for money coming into our City. That will definitely not happen with just another hotel. He suggested Council review the Plazas of the World study and study the commerce impact that plazas have on a city. Over the next 7 months instead of the City looking for reasons to work with the 147 year Basilica partner and historical landmark, the people surrounding the RFQ spent all their time discrediting their plans and his company with Council, prompting Council to question who would develop the site for the Basilica and build this plaza. Then when they announced in June one of the most qualified developers that has come to this City in over 40 years, Richard Kessler, there was a full court press to further discredit his company and move the RFQ agenda forward quickly, along with rushing to open the Aloft Hotel before it was fully completed. Richard Kessler then received an interference letter from John McKibbon forcing Richard to respond. The City is now asking the Basilica to compromise themselves to approve a hotel product that we are all against on this site and to choose a less qualified developer over the Basilica partner Kessler, who is the most qualified today for this plaza and will have the Basilica's best interest from day one, and not continually evolve only because of public pressure. This RFQ has changed from 2007 to 2012 because of the pressure the Basilica to request excellence for the site. More hotel rooms have been built in this City in the past three years than in the past 25 years. There are 3-4 other hotels that will naturally come into the market in the next few years, with the potential for over 700 rooms added to the economy in just 3-4 years. The Basilica should be allowed some private non-interference period to allow Kessler to step forward and deliver his architectural drawings and designs for the St. Lawrence Plaza. He asked Council to erase their minds and start as if this was the first time the plaza development from the Basilica was being proposed. He provided Council with a copy of a letter dated August 31, 2012, from Mr. Richard Kessler.

The following individuals spoke in support of the McKibbon proposal:

Ms. Kim MacQueen, residential/retail property owner on Haywood Street
Mr. David Madden, Co-Chair of the Rafael Guastavino Museum Project
Mr. Mike Burke, Chairman of the Civic Center Commission
An instructor in the Hospitality Education Department at A-B Technical Community College
Mr. Pat Whalen
Ms. Suzanne Hudson, representative of the Caddick Foundation
Ms. Liz Barr, resident of Asheville

The following individuals spoke in opposition of the McKibbon proposal and in support of the Basilica proposal:

Mr. Mack Cox
Mr. Derek Allen, attorney representing Hotel Indigo, Four Points by Sheraton and the Renaissance Hotel
Mr. Lyons
Ms. Donna Bollinger, volunteer gardener at the Basilica
Mr. Scott Hollowell, not a City resident
Ms. Anne Fitzgerald Smith
Ms. Alisha McNabb, resident of Asheville
Property Manager at the Basilica
Ms. Ellen Lyle, resident of Asheville

Mr. Jack Thompson, Executive Director of the Preservation Society of Asheville & Buncombe County, asked that Council empower the Downtown Commission process by ensuring that design recommendations for this development made by the Commission, regardless of the developer, be mandated as a directive of the development agreement. They strongly recommend utilization of the Asheville Design Center as a consultant to the design process. Serious consideration of a downtown local historic district is far overdue. This process calls for the most stringent monitoring of the seismic effects of any construction that occurs.

Mr. Tom Gallaher, Secretary and Board Member of the Asheville Design Center, said that they met with the City, the Basilica and McKibbon and proposed that the Asheville Design Center act as a referee to the various interests. The three meetings held yielded a great deal of success. He then read the 6 points of agreement that all three bodies agreed upon: (1) a plaza must frame and enhance the Basilica while uniting it with adjacent historic structures, such as the Grove Arcade and other sites in downtown's National Register of Historic District; (2) site use will include the plaza, retail along Haywood and Page, the proposed hotel and parking; (3) site control allows transactions between and among the City, the Basilica and McKibbon; (4) design of all elements must respect an honor the Basilica as well as other notable uses and buildings nearby; (5) massing of the hotel must help contain the site and unify all surrounding elements; and (6) master plan and UDO regulations apply as do suitable variances. He said the Asheville Design Center does not specifically endorse a park, a hotel or the Basilica proposal. They seek to work with all the parties.

Ms. Elaine Lite favored a community green space and park or a plan for a combined living and retail green space that will be far less massing in design and scale than the McKibbon Plan.

Mr. Joe Cauble, downtown resident, spoke in support of a park on the .77 acre tract.

Mr. William Robertson, downtown resident, felt Council should reject both proposals and take their time to build something worthy on that property that will last forever.

Rev. Lisa Landis supported going through another RFP process.

Mr. Stevens said the attorney that represented other hotels downtown argued that the RFP process was stale or fatally flawed, but it is not. City Attorney Oast and Mr. Powers both explained why it took so long to get to this point. It was not anything that McKibbon did or failed to do. Everyone loves the Basilica and it is a special religious place. Nothing that McKibbon is trying to do with this proposal will change that. Nothing in this proposal will affect the view of the Basilica at any angle and nothing from the 90 foot high building is going to cast such a massive shadow 170 feet away. The Basilica's plan is to pay $1 Million upfront and then pay $1 when they get a development agreement, that they don't even have yet with Mr. Kessler. How do we know that Mr. Kessler can secure the financing and build the plan that they propose for him to build. We don't know that. He said that his office did not send any threatening letter to Mr. Kessler and he was not aware of any threatening letter sent to Mr. Kessler. He was welcome to be here and articulated his position. The plan that McKibbon proposes will compliment the Basilica because Mr. McKibbon has worked with folks from the Basilica and listened to them and proposed a plan that calls for a plaza, when that was not originally intended. McKibbon would love to build a full 18,000 square foot plaza and that could still be done, but it will involve cooperation by the Basilica. To deny this process and open up the RFQ/RFQ process back up would be wrong. He encouraged Council not to do that. Mr. McKibbon has earned the right to build this project and he has the integrity to deliver a high quality project that will be good for the City and the Basilica and we will all be proud of for decades to come.

In response to Ms. Bollinger, Mayor Bellamy said that the McKibbon Hotel Group did not donate any money to the City of Asheville. If received, the donation would have been accepted by City Council via a budget amendment.

At 7:50 p.m., Mayor Bellamy closed the public hearing and announced a short recess.

Councilman Hunt said that he will make a motion to approve the sale to McKibbon and would be open to conditions by Council to assure the performance of McKibbon. He believed we have followed through and met the goals of the RFP process started several years ago. He believed the project as presented by McKibbon will also fulfill a number of community goals. He felt that the evolution of the design and the adaption of the McKibbon to community needs around the Basilica is good and felt the Basilica will be honored by the project. He believed the project will increase downtown vibrancy in that area of downtown. His greatest concern about the environmental integrity of our region has to do with sprawl development and fragmentation of the rural landscape. In development is a very important step. He feels this project will meet the goals of the 2025 Plan. He emphasized that the component of this project is the plaza between the hotel and the Basilica is a separate project and he will work to see that happen. He believed that due to the integrity of the McKibbon Hotel Group and that we have well-developed plans he felt we can execute a project in a controlled intentional way for a good outcome. He felt that as divisive and contentious as the discussions sometimes have been, the engagement by advocates of the Basilica have helped improve this design. Partnering with the Asheville Design Center was also important to that. Council has been well aware that if they felt that the McKibbon proposal was not going to meet their goals they could have stepped aside. It was pointed out that hopes and dreams were expressed by the Basilica about a great development that might be able to occur given a chance for fund-raising and developing partnerships. Over the past 16 years in his professional career in grants, it is very difficult to get that from a dream to reality. The City has had significant projects get started that were not able to ultimately take root. Addressing a public park on that property, City Council is committed to developing public parks in places where there is a high priority and we have a limited budget to do that. To those that are concerned if another hotel is needed, he said there a lot of different ways to look at occupancy rates and economic impact. He felt the trend for hotel demand in downtown is plenty strong to support this project. He appreciated Mr. McKibbon's transparency and pragmatism involving his design to be something of real quality. He appealed to Mr. McKibbon to follow through with promises made.

Councilman Hunt then moved to adopt Resolution No. 12-214 approving the sale of property located at Haywood Street and Page Avenue in downtown Asheville to McKibbon Hotel Group for economic development purposes. This motion was seconded by Councilman Smith.

Councilman Smith said that the original intent of the city-owned land sale process when this first came forward was to figure out how to make sure there is affordable housing in the City. It is very difficult to get affordable housing built in downtown. He does feel that this is an opportunity for the City to return to the original intent of this process and say that the funds from this land sale can go to support the Affordable Housing Trust Fund and to support more other affordable housing efforts in coming years. The public purpose served by the economic development land sale would be not only for tourism development downtown but also for the future development of a plaza in cooperation between the Basilica, McKibbon, the City and others. He would like to see the proceeds from the .77 acre go to affordable housing. That site is now dead space and the City will not support urban blight in its downtown core. This process has been going on for a decade and we now have a developer who is willing to work within the downtown design guidelines and go above and beyond that with a development agreement with the City. We have the opportunity to enliven that area of downtown. He was pleased to hear from the man who is doing the Rafael Guastavino speak about the possibility of some sort of homage within the building itself. He expected McKibbon's best work and that they work toward paying their employees living wages.

In response to Councilman Bothwell, City Manager Jackson said that this property was purchased with Parking Funds. Council has the ability to evaluate the condition of the Parking Fund and if it's meeting its obligations, Council then has the ability to reprogram funds as Council has in the past for transit and other purposes.

Councilman Bothwell opposed the motion in that he felt the RFP has expired in terms of the original contract. Immediate implementation was part of the contract. To have the reputation that Asheville is good to do business with means not only do we honor our side, we insist people who sign contracts with the City honor their side. He felt the overall impact of the development has been very poorly thought out. We now have a much better Planning Department than we did 10 years ago and the advantage of the Asheville Design Center. He felt we need to re-think the intersection in front of the US Cellular Center first and then decide what property we really have to sell. A number of different proposals have come forward over the years. He felt the people of Asheville seem overwhelming against the development of a hotel on this site. Many favor a park but Council is resistant to ask our residents if they would be willing to pay another ¼ cent on their taxes in order to fund a park. He felt Council should listen to the people. He felt the selling price is too low for a premier undeveloped parcel in the City. The appraisal is deeply flawed in that the comparables used are not appropriate. He suggested waiting a couple of years until the real estate market has rebounded.

Councilman Pelly said that having participated in this process for almost nine months, he believed the McKibbon proposal is the right path for the City at this time.

In response to Councilman Davis, City Attorney Oast said that if Council has any conditions they would like to insert, now is the time to bring those up. There are some things we don't and can't know until the project gets further into the process, e.g., things that will come out of the technical and design reviews that are conditions on any project. The conceptual plans seen by Council at this meeting are incorporated into the contract. He said conditions regarding the height and setback are already incorporated into the resolution. We will, through the contracting process do what we can to ensure that our advisors take a look at the financial commitments that McKibbon receives and the construction contracts.

Councilman Davis asked if there is opportunity to mention concerns in general about the protection of the Basilica, the distance from the Basilica, the site lines, traffic management plan, height of the buildings, etc. and come back with a more defined document. City Attorney Oast said we have a pretty straightforward contract as to which there are still some details to work out. These are the kinds of details we will know more about as the project goes through the approval process. He would be happy to brief Council on those at any time.

Councilman Smith offered the following friendly amendments to the motion: (1) the height of the structure not be higher than 90 feet on the Haywood Street elevation and 75 feet on the Page Avenue elevation; (2) the hotel tower must be set back at least 170 feet from the front or southern face of St. Lawrence Basilica; (3) traffic management plan; (4) the structure will accommodate a future plaza and that the City cannot in any way prohibit the development of this future plaza; and (5) guarantees that this development will not injure the Basilica.

Councilman Smith also hoped that the demolition costs do not go as high as $225,000 so the City will be able to recover more of that money.

In response to Councilman Smith regarding his request to ensure that the Basilica is not at any time shadowed by the structure, Mr. Robertson said he did a cursory review of what the shadows would be on the site based on the heights of the buildings now and the distance from the building to the face of the Basilica (based on the UDO guidelines – September 21 – March 21) and the Basilica would never be in the shadows from 10 a.m. to 2 p.m. City Attorney Oast felt that the shadow constraint is incorporated into McKibbon's design.

Councilman Bothwell said that from September 21 – March 21 is not the lowest part of the sun. He questioned if the hotel will shade the Basilica at Christmas, at which time the sun is much lower. Mr. Robertson said that he did not input December 25 into the software model because the UDO regulations were from September 21 – March 21.

When Councilman Hunt asked Mr. McKibbon if he was prepared to commit to a development that does not shadow the Basilica at any time of the year, Mr. McKibbon said he did not have an answer for that. He said they will do the study and staff can make a decision. He said they can't lower the building or it doesn't work economically.

In response to Councilman Smith, Ms. Jill Hamburg, geotechnical engineer, said that this team is committed to making the best design to limit vibrations from leaving the site. It is the intent of the design to use shallow foundations or non-vibration inducing construction techniques to limit vibrations from moving from the site. That is part of the design plan. As far as monitoring the vibrations, typically vibrations are monitored in a radius from the vibration-inducing activity. You can design construction solutions on a specified distance from the vibration-inducing activity. Also the design team is also considering the buildings that are about 10 feet directly adjacent to the new structure. Their design will also take into consideration any implements that would happen to those buildings as well. In summary, they will try to limit the vibrations and monitor the vibrations as they are produced at the edge of their site.

Councilman Smith hoped that the discussions can resume between the Basilica and McKibbon representatives with the Asheville Design Center so we can ensure the structural integrity of the Basilica and be able to move towards the future plaza.

Councilman Hunt noted that attached to the resolution is a conditions page which includes the height and distance conditions Councilman Smith mentioned. He accepted Councilman Smith's amendment to no shadow requirement.

Councilman Hunt amended his motion to require that the McKibbon Hotel Group entertain public input in at least one session, that includes the Asheville Design Center collaboratively and that McKibbon, in good faith, will entertain reasonable suggestions to improve the design of the hotel based on public input and that the City won't unreasonably withhold our agreement should there be reasonable design suggestions that seem viable. Councilman Smith accepted this amendment.

Regarding the amendment regarding seismic monitoring, Councilman Hunt suggested the condition be that McKibbon shall retain a qualified geotechnical engineer and that during construction McKibbon Hotel Group follow the directions of that engineer and use best practices to ensure no seismic damage to the surrounding properties. Councilman Smith accepted this amendment.

Regarding McKibbon's participation in an evolution of a plaza, Councilman Hunt suggested a condition that the McKibbon Hotel Group not only simply allow for a plaza to be built, but ensure that their design in their development and construction techniques actually facilitate in a positive way to ensure that a plaza can be built. Councilman Smith accepted this amendment.

Councilman Hunt accepted Councilman Smith's condition regarding a traffic management plan.

Councilman Hunt amended his motion to also include the following two conditions: (1) staff have another MAI appraisal by a different appraisal firm than the first one and based on the results of the second appraisal that the purchase price be set at the higher of the two appraisals; and (2) the design that the McKibbon Hotel Group would implement is the current drawings presented at this meeting, exclusive of the inclusion of the plaza. Councilman Smith accepted both of these two additional conditions.

Councilman Davis asked if, after the hotel is built, the streets will be able to handle the stormwater once it comes off the hotel site. Public Works Director Cathy Ball responded that most part of the area is impervious now and there will have to be some stipulation for how the roof drains go on the new building. That will be looked at during the plan review process. They will be required to not redirect the water into a street that it didn't go before.

Councilman Davis said that due to some construction at the US Cellular Center there will be some street realignment in front the US Cellular Center. He hoped that we can dovetail that discussion with McKibbon.

Councilman Davis reiterated that we identified underutilized property back in 2005 and we added this property to find a high and better use for it. He will trust McKibbon will be using quality materials, and that the fenestration and design of the building will be something the City of Asheville will be proud of.

Councilman Bothwell said that City Council has the authority to make downtown design review mandatory compliance, not optional. City Attorney Oast said that mandatory compliance is not what is provided for in the Code now. Since this is City-owned property, it is something that Council can do, but he felt Council should be cautious about doing it. The City has worked for a long time to get the processes in place to ensure that projects would turn out of the way Council wanted them to. During Downtown Commission meetings he has rarely seen a project that was reviewed by the Downtown Commission that did not come out better and get not get buy-in from the developer. Several are good suggestions that don't cost anything. Again, City Council can require mandatory compliance, but he felt the ordinances in this process allow you to put faith in the review processes City Council has already established. We also have some very detailed guidelines, including shadow studies in the UDO. Council spent a long time working on those and incorporating them into the ordinances.

When Councilman Hunt asked Mr. McKibbon if he would commit to mandatory compliance of the downtown design review, Mr. McKibbon said that he hoped Council has seen his projects before and what others have said about his projects. He said they do what they say they will do. If this is a condition, he would want to make sure that their due diligence period is extended until they can decide if this is too erroneous and if it is that they can drop the project.

Councilman Hunt was under the impression that the development agreement would be drafted after the downtown design process and it seemed to him that we have a sales contract now that will refer to the development agreement. He noted that the development agreement is subject to negotiation and approval by this Council. Relative to the mandatory compliance with the downtown design review, he suggested that we give general policy direction to staff that Council wants to see that reflected in the development agreement when it is drafted. He would be willing to see a negotiation of the development agreement ultimately handle that. It is a real goal of Councils to expect to see that compliance. Also, based on their shadow study that if there is one or two days that we defer that to the development agreement.

City Attorney Oast said that the way the process is structured, the development agreement will not come back to City Council for final approval. It will incorporate all the various approvals from the Downtown Commission, the Planning & Zoning Commission and the Technical Review Committee.

Councilman Hunt would be more comfortable if Council has the opportunity to approve the development agreement. City Attorney Oast said that we have a commitment to a particular kind of conceptual design and a commitment to follow Council's ordinances and processes in getting the project approved. Those approvals would then be incorporated into a development agreement that would bind the developer to build in accordance with the approvals and they would become contractual matters. The concern that he had about bringing the development

agreement back to Council is that it might not get approved. The developer would be a year in the process and then there is no basis to move forward. We do have built into the contract the ability to review all construction contracts and all financial commitments in order to verify to the extent that we can that the project will get done. And we have the ordinances to rely on to ensure that it will get done in the way that the project is presented to you tonight – they become contractual matters. If Council wants to see the development agreement once it's done, they can.

When Councilman Hunt asked the McKibbon Hotel Group if City Council approving the development would be reasonable to them, Mr. Wyatt Stevens, attorney representing McKibbon Hotel Group, said it sounds reasonable on its face and if they would be dealing with the same Council and it was 2 weeks from now, it would be no problem. However, if this comes back before a different Council it's open up for another entire public hearing and that is not something any developer wants to agree with. They would certainly prefer that the development agreement not have to come back before Council for that kind of approval. He believed that the process has been set up so that's not necessary. He felt Council's concerns can be addressed by the Downtown Commission and City staff to make sure the development is done correctly, taking the politics out of it.

Councilman Hunt said that he hoped to achieve as much compliance with the downtown design review guidelines and not subject the development agreement to another Council vote.

Mayor Bellamy said that if this was privately owned property this would have gone through with some conditions but basically without any problems. She recalled reviewing privately owned projects where we would go over stormwater, sustainability, fencing, trees, how many public meetings were held, what were the neighbors concerns, what the traffic count was, what the ingress and egress to the property is, light spill-over, etc. and that was the developer's own land. From her prospective, part of the problem with this project is this is public land. This process has eroded public trust and once public trust is eroded, it is very difficult to get back. She felt these items should have been covered in a staff report. This is the only time Council has to review the project. This project has been going on for years and there has been no Council update. In her opinion, it wasn't until the letter from the Basilica pushed it to this point. She did not believe that a park is the best use for the land. We cannot afford it, noting the years it has taken for the Reed Creek Greenway, our commitment to Overlook Park and the Wesley Grant Sr. Southside Center. We haven't really dealt with the reality that the downtown residents have complained about some the issues in this part of downtown dealing with homelessness, vagrancy, graffiti, etc. The reasons why we don't have benches in that area is shop owners have complained about people sleeping on sidewalks impeding the ability for people to walk. A park is not the best place for that area. She agrees that it's important that we get this right. She didn't believe we have got this right. We continue to go forward without the public being a key part. People say that the Downtown Master Plan was guiding this. If that was the case we should have set a plan in place that it was transparent that this is what is happening now and the community could speak. We would have told them what we are going to build on this property, how it will move forward, that the City was still in talks with McKibbon, and their deadline. That didn't happen. She felt we should have had a good timeline with an open process. For us to say the current drawings are what we are approving, is saying that we won't take into account any public comment out of the meeting with the Asheville Design Center. This is the only time City Council will see this project. Going forward, and hearing the comments, it looks as though this will pass, but she felt we did not do this right. She believes there are opportunities that we missed and staff did not let people know. She hoped for an update on the other projects that are City-owned. Contrary to what has been said that this money has to go directly to affordable housing, the way our current formula is for the Housing Trust Fund, 30-40% of that money goes to transit. She cannot support the motion.

Councilman Davis said that this is consistent with the Downtown Master Plan, which Council adopted. We all have apprehensions about this and are putting a lot of faith in the people

who serve on our advisory boards. He did not want to see mandatory compliance, especially at this late in the game.

The amended motion made by Councilman Hunt and seconded by Councilman Smith carried on a 4-2 vote, with Mayor Bellamy and Councilman Bothwell voting "no" and Vice-Mayor Manheimer being recused. Said adopted amended motion reads: Adoption of Resolution No. 12-214, approving the sale of property located at Haywood Street and Page Avenue in downtown Asheville to McKibbon Hotel Group for economic development purposes, with the three conditions currently listed in the resolution and the following conditions: (1) traffic management plan; (2) McKibbon Hotel Group entertain public input in at least one session, that includes the Asheville Design Center collaboratively and that McKibbon, in good faith, will entertain reasonable suggestions to improve the design of the hotel based on public input and that the City won't unreasonably withhold our agreement should there be reasonable design suggestions that seem viable; (3) McKibbon shall retain a qualified geotechnical engineer and that during construction McKibbon Hotel Group follow the directions of that engineer and use best practices to ensure no seismic damage to the surrounding properties; (4) McKibbon Hotel Group not only simply allow for a plaza to be built, but ensure that their design in their development and construction techniques actually facilitate in a positive way to ensure that a plaza can be built. Councilman Smith accepted this amendment; (5) staff have another MAI appraisal by a different appraisal firm than the first one and based on the results of the second appraisal that the purchase price be set at the higher of the two appraisals; and (6) the design that the McKibbon Hotel Group would implement is the current drawings presented at this meeting, exclusive of the inclusion of the plaza.

**RESOLUTION BOOK NO. 35– PAGE 85**

At 9:23 p.m., Mayor Bellamy announced a short recess.

**V. UNFINISHED BUSINESS:**

**VI. NEW BUSINESS:**

**A. BOARDS & COMMISSION**

Regarding a vacancy on the Americans with Disabilities Compliance Committee left by Ms. Teresa Foster-Moorefield, it was the recommendation of the Boards & Commissions Committee, and the consensus of Council, not to fill the vacancy due to the "inactive" status of the Committee.

**RESOLUTION NO. 12-215 - RESOLUTION APPOINTING MEMBERS TO THE HUB COMMUNITY ECONOMIC DEVELOPMENT ALLIANCE**

Councilman Davis, member on the Boards & Commissions Committee, said that this is the consideration of appointing members to the HUB Community Economic Development Alliance.

The terms of Cheryl McMurray and Scott Dedman, members of the Alliance expired on August 22, 2012.

The following individuals have applied for a vacancy: Antonio Hinton, Kelly Erin-Spinney, Grant Millin, Sarah Nunez, Kimberly McCall and C. Jerome Jones.

It was the consensus of the Boards & Commissions Committee to appoint Sarah Nunez (who the Alliance recommended) and C. Jerome Jones.

Councilman Pelly moved to appoint Sarah Nunez and C. Jerome Jones to each serve a three-year term respectively, terms to expire August 22, 2015, or until their successors have been appointed. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 91**

**RESOLUTION NO. 12-216 - RESOLUTION APPOINTING AN ALTERNATE TO THE NOISE ORDINANCE APPEALS BOARD**

Councilman Davis, member on the Boards & Commissions Committee, said that this is the consideration of appointing an alternate to the Noise Ordinance Appeals Board.

The following individuals applied for the vacancy: James Reato, Jessica Byrd and Elizabeth Franks.

It was the recommendation of the Boards & Commissions Committee to appoint Elizabeth Franks.

Councilman Pelly moved to appoint Elizabeth Franks as the alternate to the Noise Ordinance Appeals Board to serve a three-year term, term to expire July 1, 2015, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 92**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Mayor Bellamy said that the Interim Business Improvement District (BID) Board has requested that the continuation of the public hearing on the BID scheduled for September 25, 2012, be continued to October 9, 2012, due to Vice-Mayor Manheimer's anticipated absence at the September 25 meeting. It was the consensus of Council to direct City Clerk Burleson to note on the September 25 agenda that Council expects to continue the public hearing until October 9, 2012.

Rev. Lisa Landis alleged (1) that Flag Code prohibits fringing on the US Flag hanging in the Council Chamber; and (2) that in May 24, 2011, minutes there is no mention that City Council granted District Attorney Ron Moore's special treatment to hire Blueline to perform the Asheville Police Department evidence room audit. Mayor Bellamy said that Mr. Moore did not ask the City to hire Blueline and will ask City Manager Jackson to respond to the flag allegation and City Clerk Burleson to research the Council minutes regarding Mr. Moore's comments on the contract, with both responses sent to City Council and Rev. Landis.

In response to Ms. Judy Strong, City Manager Jackson said that he would e-mail Ms. Strong information regarding the traffic study on Charlotte Street.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 9:36 p.m.

Magdalen Burleson — Jan Bellamy

Tuesday – September 18, 2012 - 1:00 p.m.
US Cellular Center – Banquet Hall

Special Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson (Absent: Councilman Marc W. Hunt)

Present: Representative Susan C. Fisher and Representative Chuck McGrady (Absent: Senator Tom Apodaca; Senator Martin L. Nesbitt Jr.; Representative Patsy Keever; and Representative Tim D. Moffitt)

Mayor Bellamy called the meeting to order at 1:00 p.m. in the Banquet Room of the US Cellular Center and invited the public to view the renovations of the US Cellular Center. She thanked Representatives Fisher and McGrady for attending. She said that the purpose of this meeting will be to hear our legislator's expectations of good faith negotiations arising out of the Legislative Study Committee recommendations.

Water Resources Director Steve Shoaf gave a brief informational update on the progress relating to the recommendations of the Legislative Study Committee ("Committee") as follows:

**A. Background.** The Legislative Research Commission is the general purpose study group in the Legislative Branch of North Carolina State Government. In September 2011, the Commission received authorization to appoint subcommittees to study various matters. Among these committees was the Metropolitan Sewerage/Water System Committee, which was tasked to study "whether requiring large cities that have a municipal water system and that are located entirely within a Metropolitan Sewerage District to convey that water system to the district will improve the efficiency of providing public services".

During the winter and early spring of 2012, the Metropolitan Sewerage/Water System Committee held four public hearings to consider issues regarding water and sewer services in Buncombe and Henderson Counties. At their April 19, 2012 meeting, the Committee adopted a final report and recommendations.

**B. Recommendations and Related Actions.** Since the finalization and submission of the Committee report, the City of Asheville has undertaken several actions pursuant to the Report's recommendations. The Report's recommendations and related actions are listed below. In addition to this brief report, staff will present on this topic in further detail.

**Recommendation 1**

The Committee recommends the Metropolitan Sewerage District Act be amended to: (1) Reflect population shifts in single-county districts; (2) Modify representation in multicounty districts; and (3) Allow metropolitan sewerage districts to exercise the same authority as metropolitan water districts.

*Recommendation 1 Actions:*

- House Bill 1009, MSD Amendments, became law on August 03, 2012.

**Recommendation 2**

After careful consideration of the information presented, the Committee recommends merging the Public Utility Water System with the Metropolitan Sewerage District of Buncombe County. The benefits of combining the two utilities are undeniable. The benefits include, among numerous others, the following: (1) Each utility essentially serves the same residential, commercial and industrial customers; (2)

2

Wastewater volumetric charges are directly linked to domestic water metered consumption; (3) Treatment of raw potable water and wastewater requires similar expertise, and similar interaction with Federal and State Authorities; (4) Economies of scale can be achieved in the areas of administration, planning and engineering; and (5) Single location for water and wastewater availability and planning.

The Committee recommends that the 2013 Session of the North Carolina General Assembly consolidate the Public Utility Water System with the Metropolitan Sewerage District of Buncombe County. Should the interested governments craft their own solution for consolidation, which achieves all the objectives of the Committee, before the 2013 North Carolina General Assembly convenes, due consideration would be given to the local plan. Action will not be taken if the parties are engaged in good-faith negotiations on this matter.

*Recommendation 2 Actions:*

Since the finalization and submission of the Committee report, the City of Asheville has undertaken several actions pursuant to the Report's recommendations.

- The City has extended the time for fulfilling the condition on the 137 acre property on Brevard Road conveyed to Henderson County pursuant to the 1995 Water Agreement, such that the reversion of the property will not occur until 2014.
- The City Manager has met with the Henderson County Manager to initiate discussions regarding continuation and expansion of water service in Henderson County.
- The City has been working with MSD and on its own to gather and analyze information on the two systems and on other public utility systems within the respective service areas of each, and to review and analyze various models for consolidation or merged operation of a regional system.
- The City has established various work groups to ensure these negotiations continue in an effective manner. These workgroups include:
    i. Oversight Committee: executive-level meetings to oversee and coordinate the progress of workgroups.
    ii. Financial Analysis: to study the financial impact to the City of Asheville under various merger scenarios.
    iii. Internal and External Communications: to ensure transparency and public availability of information throughout the study process.
    iv. Asset Value/Fair Compensation and Governance Models: contracting with Raftelis Financial Consultants to review methods of valuing applicable City assets and governance options for a merger.
    v. MSD Merger Study Relations: to track progress of the merger study
- The City has sought guidance from state legislators on how best to fulfill the expectations of the Study Committee.
- The City has extended an invitation to local governments in and around Buncombe County regarding participating in the review process for a regional water system.

**Recommendation 3**

The Committee recognizes the efforts of the Conservation Trust for North Carolina in protecting the drinking water in and around Asheville. It recommends that the Conservation Trust for North Carolina continue to work with the City Asheville as the parties consider clarifying the 1996 Asheville Watershed Conservation Easement

*Recommendation 3 Actions:*

- City staff have undertaken a review of the 1996 conservation easement that is currently in place with respect to the North Fork and Bee Tree Watershed property, and have met with a representative of the Southern Appalachian Highlands Conservancy to identify ways in which the easement may be clarified and amended in the interests of all parties.

- The City has engaged outside counsel to review the conservation easement to address policy and legal issues related to implementation of the easement.

Vice-Mayor Manheimer said that she and Councilman Pelly serve on the Metropolitan Sewerage District so they hear MSD's progress. The MSD Board has appointed Mr. Al Root (Mayor of Weaverville) as the City/MSD liaison for purposes of engaging in the negotiations, noting that Mr. Root is also Chair of the MSD Planning Board that oversees MSD's study. She has met with Mr. Root to talk about their expectations and plans to meet with him again in the near future.

Representative Fisher said that Representative McGrady is a member of the Legislative Study Committee and may speak out of turn if she gave any information based on what their work is.

Representative McGrady said that the Legislative Study Committee has ended. It has finalized its report and won't meet again until January of 2013. Two of the three recommendations have been taken care of - Recommendations 1 and 3. The heart of the Committee's Report is Recommendation 2 and understands there continues to be a difference of opinion as to whether there should be a combination of our water and sewer infrastructure and governance. The Committee came to the conclusion that it did. When we heard from a wide range of officials from cities, towns and counties that they were not excited about the combination but they consistently asked that if the Committee was going make that recommendation to not impose it but to give them an opportunity first to talk amongst themselves to see if they can work this out. The Committee took that request from local governments and said they wouldn't do anything this year. It sounds like the City of Asheville, MSD and other local entities are proceeding in those discussions. He was glad the studies are occurring because if one of them concludes that it would be a wildly expensive undertaking, then the next General Assembly can take that into account and look at the issue again, taking into account what the logic is, the economic impact, the environmental impact, and a host of other issues. He was particularly interested in the ongoing discussions with other local government entities, since a lot of the public discussion is focused on the water system run by the City of Asheville, but there are other water systems in the larger area. We have a consolidated sewer system but it a multi-county entity. He said some of that discussion will wait until the ongoing studies have been completed. The bottom line is that if there isn't a massive change in personnel on the General Assembly or something that turns up in these studies that suggests that the conclusion of the Committee was wrong, his expectation would be that a bill would be introduced to accomplish what was recommended by the Committee.

Representative Fisher understood that the only part of the study that is going on between MSD and the other area water systems, the only area that this will affect is Asheville. She understood that if the studies don't result in a City/MSD merger, then the legislature would introduce a bill that would dictate a merger. Representative McGrady said that there will likely be a bill if there were no solutions put forward by local governments. The Committee anticipates a bill that would combine water and sewer.

Representative Fisher's concern is that the City and MSD are concerned that they are exhibiting these good faith negotiations and it almost sounds like it doesn't matter how much good faith there is around all of these activities, there will probably still be a bill introduced, depending on the make-up of the legislature, that would merge the systems. Representative McGrady said he thought there will be a bill introduced (if only a placeholder), but didn't anticipate being the legislator that introduces it to effect what the Committee set forth. The fact is that the water system run by the City of Asheville is the predominant water system and that is why it's natural that the City of Asheville and MSD are negotiating. He expected that other municipalities that are connected to the City of Asheville are using that same water should be part of whatever discussions are going forward.

Mayor Bellamy said that the City has reached out to the other municipalities to talk about the consolidation, but she didn't think the other municipalities realize that this is inclusive of all the systems. Some officials do not want to participate in these discussions. She said the City and MSD are doing its due diligence to see what this will look like on our budgets, our systems and our operations but she is concerned that the system will be consolidated regardless of the input of all the players at the table and regardless of the impact to our ratepayers, taxpayers and citizens of Asheville.

Representative McGrady said that if the other municipalities determine they don't want to be a part of discussions they are taking a risk because the Committee is recommending some sort of combined water and sewer. It is not absolutely clear in the report, and he didn't think there was any intention to be clear in the report, exactly what the parameters of that water/sewer system might be. Certainly the MSD model has worked on the sewer side. He reiterated that unless there is a significant change in personnel of the General Assembly (because the incoming General Assembly is not bound by the report issued by the last General Assembly) or some horrible impediment that wasn't anticipated, the Committee will introduce a bill.

Mayor Bellamy said that Asheville needs to try to continue to reach out and be more inclusive of our process. We will continue to do an analysis on the impact on the City, its citizens and rate payers.

Representative McGrady said that if the City can strike a deal with the adjoining local government entities and MSD that makes sense and is consistent with the report issued by the Committee, he assumed that any legislation that would be introduced would be consistent with an agreement that the City might reach.

When Mayor Bellamy noted that on the November ballot we are asking our citizens of whether we should lease or sale our water system, she asked for Representative McGrady's thoughts. Representative McGrady personally questioned the wisdom of the whole referendum. He said these are difficult issues with a lot of history and asking what seems to be a very simple question. No matter what answer you get to that question, he was not sure it gets to the fundamental recommendation being made by the Legislative Study Committee.

Councilman Pelly noted that when MSD was created there were failing sewer systems, raw sewage flowing into the French Broad River and a pressing need for a combination of the sewer systems. He asked Representative McGrady how that carried over to the City's water system. Representative McGrady responded that the report speaks to the fact that the recent management of the Asheville water system is generally very positive, but it wasn't long ago we were in a very different place. Perhaps this is a lull that seems to occur in 10-20 years where maybe we can affect a regional consolidation system at a point in time when there is nothing driving it. He did not take issue with the City's management of the water system in the last several years. In fact, he commended the City on the management of the water system. He was on the Asheville-Buncombe Water Authority when it was dissolved and he understood why the City did what they did at that point in time.

Mayor Bellamy said that the things Asheville is being penalized for, in her mind, are the things that have happened in the past. To her, the present and the immediate future dictates that is over and we are running the water system in an effective and efficient manner. We have made investments in the system, stopped leakages, have a long-term capital improvement plan, are transparency, have website updates, living within the Sullivan Acts, etc. She couldn't understand why Asheville is still being penalized for things that happened in the past. Our water system is recognized by the state as a leader ranking ISO 14000 and yet the law is taking our system away.

Councilman Davis said that after attending the Committee meetings, and in all due respect, he felt the report by the Committee was a disingenuous process. He felt that part of the reason we don't have the other municipalities at the table is that they are scared and want to stay as far away from this process as they can. When the legislature takes our water system from us, it will add an incredible layer of cost. We are fixing the system with a regular schedule of rate increase and felt that part of this was brought about we started talking about equities in water bills and today we don't have the huge water users. He felt the solution everyone is hunting is in front of us.

Representative Fisher understood Representative McGrady say that he would hope that whatever comes out of the study, if there is good faith, will be included in whatever bill is introduced. She offered that no matter what happens, she will watch the bill as it moves forward to see that it incorporates the good faith pieces of the study when all of this work is done.

Representative McGrady said the Committee report is what it is. He understands the City Council positions put forward, but the fact is the recommendation has been made and you've now begun to go through a process. He didn't know what the nature of a regional water/sewer authority might be. He felt the City needed to come forward with a proposal consistent with the results of the study that make sense. Personally, his way of operating is being as transparent as he can be. When we were dealing with the Airport issue, he went out of his way to make sure there was no financial impact on the City, which would have been a very easy thing to overlook. The bottom line is that we do need to do what is right for our citizens, noting there is more than just the citizens of the City of Asheville. He hoped the various local governments and MSD can be engaged in discussion that moves the ball forward. If while studying the issue you come across some massive impediment that wasn't anticipated by the Committee, next year is a new year. All the bills introduced this year are gone. This is just a Study Committee report and there are many reports issued by the General Assembly that don't get executed, but there are also a lot of them that are a multi-year process.

Councilman Bothwell said that Representative McGrady presents the information reasonably, but from our side of it, it seems we are told what the outcome of these discussions will be, which makes actual negotiations pretty hard. He noted that this has already imposed extra expense on the taxpayers of Asheville and the ratepayers of MSD in terms of their studies. The state has not talked about compensating us for the costs already incurred.

When Councilman Bothwell asked how many other systems across the state will be consolidated if moves bill forward, Representative McGrady said he was not aware of any other water and sewer consolidation that is being studied by the General Assembly at this time.

Councilman Smith said that the City has been asked to make these good faith efforts in response to a mechanism that we didn't necessary perceive as being in good faith in and of itself. It is a challenge for us. He verified (1) if facts emerge that there are prohibitive costs to a merger that the entire matter may be reconsidered; (2) the new General Assembly will not be bound by the last General Assembly; and (3) there aren't currently other municipal water systems that are under threat. He said that one of the reasons we have had a hard time operating with the sense that this was a fair process was that the original bill filed and the findings of the Study Committee were the same. It certainly seemed to be pre-determined.

When Councilman Smith asked if Representative McGrady could talk about the 2007 Superior Court ruling that explicitly discusses Asheville's ownership of the water system, he replied he was not prepared to talk about that at this time.

Representative McGrady said that the original Legislative Committee charge was actually larger than the City of Asheville and when the Committee was initially put together, the thought was we aren't just looking at the City of Asheville, but a broader set of issues. Because the City of Asheville's issues were so complex the Committee only looked at the City of Asheville. The discussion about how we manage our water is going to be the cutting edge issue for the state over the next 50 years, so he would expect the types of questions being asked here, with respect to this system, may well occur in other systems.

Councilman Smith asked Representative McGrady to further explain his statement that if the composition of the General Assembly is changed that he would not be the one to introduce the bill. Representative McGrady said he has not sat down with Senator Apodaca as they tend to work together because they have overlapping districts. He didn't introduce the bill that was originally introduced and he didn't anticipate introducing the bill that might accomplish what the Committee set forward. He hasn't seen any bill and was not aware of any bill that has been drawn up. His impression is that everything is currently on hold, allowing for the process to proceed, get past the next set of elections, and sometime early next year a legislator might seek to put together a bill. If a bill gets put together, and he is not the guy that anticipates doing that, if it's one that is acceptable to him, he might well co-sponsor it. He does not anticipate being the leader of the charge as he has other agenda items that are a little higher.

Mayor Bellamy said one of the reasons why she wanted to talk with our legislators in public is because this is a public process. It is a bill that has been adopted, but not signed into law. She wished other legislators could have attended. She felt it was important for the citizens to hear why our legislators felt like House Bill 1009 was moving forward and that it would impact not only the City of Asheville but other municipalities in our community. All the data on this process can be found on the City's website. She again thanked Representatives Fisher and McGrady for attending and hoped they would be willing to meet again as the process moves forward.

Representative McGrady appreciated the very public process as well. He explained why the other legislators were unable to attend this meeting. He wanted everyone to understand that he was speaking as only one member of the General Assembly.

Mayor Bellamy thanked Representative Fisher for her work on getting Session Law 2012-119 enacted which adjusted the boundaries of Woodfin and Asheville in the area of UNC-Asheville.

Representative Fisher appreciated Asheville's transparency and looked forward to hearing move as the process moves forward.

Mayor Bellamy adjourned the meeting at 2:05 p.m.

Magdalen Burleson
City Clerk

Mayor

Tuesday – September 25, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Vice-Mayor Esther E. Manheimer (Yom Kippur)

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Pelly gave the invocation.

**I. PROCLAMATIONS:**

**A. RECOGNITION OF THE ASHEVILLE TOURISTS WINNING THE 2012 SOUTH ATLANTIC LEAGUE CHAMPIONSHIP**

Mayor Bellamy was pleased to recognize Mr. Brian DeWine, President of the Asheville Tourists, Mr. Larry Hawkins, General Manager of the Asheville Tourists, and the entire Asheville Tourists team in winning the 2012 South Atlantic League Championship. Mr. Hawkins proudly presented their trophy, provided Council with their Championship T-shirts and thanked City Council for their support.

**B. PROCLAMATION PROCLAIMING OCTOBER, 2012, AS "FIRE PREVENTION MONTH"**

Mayor Bellamy read the proclamation proclaiming October, 2012, as "Fire Prevention Month" in the City of Asheville. She presented the proclamation to Fire Chief Scott Burnette, who briefed City Council on some activities taking place during the month.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 11, 2012; AND THE SPECIAL MEETING HELD ON SEPTEMBER 18, 2012**

**B. RESOLUTION NO. 12-217 - RESOLUTION AUTHORIZING THE MAYOR TO APPLY FOR AND, IF AWARDED, ENTER INTO A GRANT AGREEMENT WITH THE N.C. PARKS & RECREATION TRUST FUND FOR CONSTRUCTION OF THE DR. WESLEY GRANT SR. SOUTHSIDE CENTER**

Summary: The consideration of a resolution authorizing the Mayor to apply for and, if awarded, enter into a grant agreement with the North Carolina Parks and Recreation Trust Fund for construction of the Dr. Wesley Grant, Sr. Southside Center.

Funds are available through the North Carolina Department of Environment and Natural Resources, Division of Parks and Recreation in the North Carolina Parks and Recreation Trust Fund (PARTF) to assist with the development of parks, recreational facilities, and greenways. The City of Asheville wishes to submit a grant application not to exceed $500,000. If awarded,

8

grant funds will be used to reimburse the City of Asheville for future expenses related to construction at the Dr. Wesley Grant, Sr. Southside Center.

The grant application requires a dollar for dollar cash match not to exceed $500,000. The cash match is available through a combination of funds currently budgeted in existing approved capital projects.

The development of the Dr. Wesley Grant, Sr. Southside Center is one of the top capital project priorities for the city in the Parks, Recreation & Cultural Arts Department. The first part of the Cultural Phase was completed in October 2011 consisting of an auditorium, three classrooms, office, storage, spray ground mechanical room, restrooms and parking.

The next construction in the Cultural Phase includes the spray ground, playground and a section of the Town Branch Greenway. The PARTF grant application will support construction of these elements.

The construction concept plan for the Dr. Wesley Grant, Sr. Southside has been endorsed by the Recreation Advisory Board. A public input session regarding the project will be held with the community prior to submitting the grant.

This action complies with the City Council 2012-2013 Strategic Operating Plan in the area of Fiscal Responsibility in that it provides alternatives for enhancing the city's long-term financial commitment to master plan implementation, infrastructure maintenance, capital improvements, and public facilities. This action also complies with the Parks, Recreation, Greenways, and Cultural Arts Master Plan in that it increases department funding with alternative funding via grants and ensuring a high level of service in parks and facilities by addressing capital maintenance of existing parks and facilities to meet community standards.

Pro:

- If awarded, the grant will reimburse the City for future construction expenditures up to $500,000.

Con:

- The grant application process is competitive and a grant award is not guaranteed.

If awarded, the grant is for one-time facility construction cost at the Dr. Wesley Grant, Sr. Southside Center that will increase the budget not to exceed $500,000. This increase is funded by a grant from the State of North Carolina in the Department of Department of Environment and Natural Resources. As noted above, the grant application requires a dollar for dollar cash match not to exceed $500,000, which is already available through a combination of funds currently budgeted in existing capital projects. Thus, there is no impact to the City's General Fund budget.

City staff recommends City Council to adopt a resolution authorizing the Mayor to apply for and enter into an agreement for grant funds through the North Carolina Parks and Recreation Trust Fund not to exceed $500,000 for reimbursement of future construction costs for the Dr. Wesley Grant, Sr. Southside Center.

**RESOLUTION BOOK NO. 35 – PAGE 93**

**C. RESOLUTION NO. 12-218 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT BLUE RIDGE PRIDE**

**RESOLUTION NO. 12-219 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT SYMPHONY IN THE PARK**

Summary: The consideration of resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at Blue Ridge Pride on October 6, 2012, and Symphony in the Park on October 14, 2012.

- Blue Ridge Pride, Inc. has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at Blue Ridge Pride and allow for consumption at this event.

  Blue Ridge Pride will be held on Saturday, October 6, 2012 from 12:00 p.m. to 7:30 p.m. within the boundaries Pack Square Park's Roger McGuire Green, Reuter Terrace, City-County Parking Lot, and Spruce Street between College Street and Court Plaza as per the area limits referenced on the accompanying site map.

- The Asheville Symphony Society in conjunction with Arts2People has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at Symphony in the Park and allow for consumption at this event.

  Symphony in the Park will be held on Sunday, October 14, 2012 from 12:00 p.m. to 9:00 p.m. within the boundaries Pack Square Park's Roger McGuire Green, Reuter Terrace, City-County Parking Lot, and Spruce Street between College Street and Court Plaza as per the area limits referenced on the accompanying site map.

These actions have no direct connection with the City of Asheville Strategic Operating Plan.

Pro:

- Allows fundraising opportunities for Blue Ridge Pride, Inc. and Arts2People.

Con:

- Potential for public safety issues

There is no fiscal impact.

City staff recommends City Council adopt the resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at Blue Ridge Pride and Symphony in the Park.

**RESOLUTION NO. 12-218 - RESOLUTION BOOK NO. 35 – PAGE 94**
**RESOLUTION NO. 12-219 - RESOLUTION BOOK NO. 35 – PAGE 97**

**D. RESOLUTION NO. 12-220 - RESOLUTION SETTING A PUBLIC HEARING FOR OCTOBER 9, 2012, TO CONSIDER AN ECONOMIC DEVELOPMENT INCENTIVE AGREEMENT WITH PLASTICARD-LOCKTECH INTERNATIONAL**

Summary: The consideration of a resolution authorizing a public hearing to be held on October 9, 2012, to consider an economic development incentive grant for Plasticard-Locktech International (PLI).

Plasticard-Locktech International (PLI) was founded in 1988 in Asheville, NC. From that beginning, PLI has grown to become the world's largest hotel keycard manufacturer and a leading specialty printer of plastic and paper products.

The company is planning a $4.6 Million expansion on its South Asheville campus and has requested consideration for a performance based incentive grant under the City of Asheville

10

Economic Development policy. The company will create 42 new jobs within three years, with an average wage of $12.50 and offers comprehensive benefits to its employees. The City of Asheville is considering offering a performance-based grant totaling $67,000.

North Carolina state law requires a public hearing be held before an incentive grant can be officially awarded.

The economic development incentive grant for PLI supports the City Council's Strategic Operating Plan as it addresses multiple focus areas. Under the Job Growth and Community Development focus area, the project supports the Goal of creating more collaborative and effective working partnerships between the COA, the business community, and other key organizations to effectively manage the city's regulatory environment while accomplishing economic development goals by meeting the objective to support diversified job growth and small business development. It supports the goal of supporting a strong local economy by continuing to implement sustainable growth and development policies by promoting sustainable, high density infill development that makes efficient use of existing resources.

Pros:

- Performance driven grant that is distributed after job and investment is achieved;
- Supports job creation and capital investment in existing industry in Asheville;
- Supports development of an identified economic cluster in the City; and,
- Supports regional and state cooperation in the project.

Con:

- Grant is formulated based on use of 75% of value of property tax revenue for a 5 year period.

The project has an overall positive fiscal impact on tax revenues received by the city. Initially (during the grant period), the City will receive approximately 25% of the new incremental property tax revenues from the project. After 5 years, the City will henceforth receive 100% capture of new city taxes.

City staff recommends Council approve a resolution authorizing a public hearing to be held on October 9, 2012, on an economic development incentive grant agreement to support the expansion of PLI.

**RESOLUTION BOOK NO 35 – PAGE 100**

**E. RESOLUTION NO. 12-221 - RESOLUTION AUTHORIZING THE MAYOR TO MODIFY AN AGREEMENT WITH THE WNC REGIONAL AIR QUALITY AGENCY REGARDING COLLECTION OF PERMIT FEES**

**ORDINANCE NO. 4120 - ORDINANCE AMENDING THE FEES & CHARGES MANUAL INCORPORATING THE ASSOCIATED FEES**

Summary: The consideration of (1) a resolution amending the Interlocal Agreement with WNC Regional Air Quality Agency (WNCRAQ) to authorize the City of Asheville to collect permit fees on behalf of WNCRAQ; and (2) an ordinance amending the City's Fees and Charges Manual to incorporate the associated fees.

The City's Development Service Center (DSC), was created to streamline the customer service experience by bringing together regulatory activities from across numerous City and partner agencies to lead and manage plan review, permitting and inspection services.

An integral part of the one-stop permitting process has been cooperation with WNCRAQ. The DSC has been accepting applications for permits requiring WNCRAQ approval for several years. WNCRAQ has assessed a fee associated with their applications and has requested that the City collect such fees. Collection of such fees is consistent with DSC's one-stop permitting process. The City will remit the fees to WNCRAQ on a monthly base retaining up to 3% as an administrative fee.

This action supports the City of Asheville Strategic Operating Plan by leveraging internal and external partnerships and creating collaborative and effective working partnerships.

Pros:

- The City permitting process will include WNCRAQ application and fees in a one-stop permitting location.
- Customers may pay for all permit fees with one credit transaction or with one check rather than making separate payments or trips.

Con:

- Some customers may not recognize the additional fee is not associated with City of Asheville permits.

The fees associated with WNCRAQ permitting will generate between $90 - $150 in administrative fees per year.

City staff recommends City Council adopt (1) the resolution authorizing amendment to the interlocal agreement creating the WNCRAQ to collect the associated permit fees; and (2) the ordinance amending the City's Fees & Charges Manual to budget ordinance amendment to create an administrative fee for collection of the permitting fees for WNCRAQ.

In response to Councilman Smith, City Manager Jackson said that the bills would be itemized to show that this fee is being collected for the WNC Regional Air Quality Agency for clean air.

**RESOLUTION BOOK NO. 35 – PAGE 101**
**ORDINANCE BOOK NO. 27 - PAGE 462**

**F. ORDINANCE NO. 4121 - BUDGET AMENDMENT FOR THE WNC NATURE CENTER**

Summary: The consideration of a budget amendment in the amount of $88,593 for a grant from the N.C. Dept. of Commerce for the WNC Nature Center.

Each year the State of North Carolina in the Department of Commerce allocates funds to 25 to 30 member museums, science centers and nature centers in North Carolina. The WNC Nature Center is a member of the collaborative. Funds will be used to make improvements to the facility and animal exhibits at the WNC Nature Center.

The grant is intended to support the first phase of the 20/20 vision master plan for the WNC Nature Center. The funding from this grant will go towards supporting a new visitor's front entrance which was identified as the highest priority in the plan.

This action complies with the City Council 2012-2013 Strategic Operating Plan in the area of Fiscal Responsibility in that it provides alternatives for enhancing the city's long-term financial commitment to master plan implementation, infrastructure maintenance, capital improvements, and public facilities. This action also complies with the Parks, Recreation, Cultural Arts & Greenways Master Plan in that it increases department funding with alternative funding via

grants and ensuring a high level of service in parks and facilities by addressing capital maintenance of existing parks and facilities to meet community standards.

Pros:
- Provides funds to support capital improvements at the Nature Center
- Provides funds to enhance special projects and services to Nature Center visitors
- Provides funds to assist in fulfilling standards and maintaining Nature Center accreditation with the Association of Zoos and Aquariums

Con:
- None

The project budget for one-time facility improvements at the Nature Center will increase by $88,593. This increase is funded by a grant from the State of North Carolina Department of Commerce. Thus, there is no impact to the City's General Fund budget.

Staff recommends City Council to approve the budget amendment authorizing the City Manager to accept funds from the North Carolina Department of Commerce and establish a budget of $88,593 for projects at the WNC Nature Center.

**ORDINANCE BOOK NO. 27 – PAGE 463**

**G. RESOLUTION NO. 12-222- RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH HENDERSON COUNTY TO LEASE THE CNG VAN**

**ORDINANCE NO. 4122 - BUDGET AMENDMENT TO PURCHASE A CNG VAN FOR HENDERSON COUNTY'S TRANSIT SYSTEM**

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into an agreement with Henderson County to lease the CNG van; and (2) a budget amendment, in the amount of $14,527, to increase the budget set to purchase a Compressed Natural Gas van for Henderson County's transit system, originally funded by the American Recovery and Reinvestment Act (ARRA) received by the City in March 5, 2009, Federal Register Volume 74, No. 42, page 9675.

As a result of the 2000 Census, the City of Asheville was reclassified from a non-urbanized area to an urbanized area with a population greater than 200,000 persons and now includes municipalities in Buncombe, Haywood, and Henderson counties. After the reclassification, Henderson County's transit system became part of the transit systems operating in the overall urbanized area. The Federal Transit Administration named the City of Asheville the designated recipient and as a result, the City of Asheville oversees all of the Federal funding administration. The City of Asheville and Henderson County have signed a sub-recipient agreement that specifies how the funds are disbursed. The City of Asheville is accountable to the Federal Transit Administration regarding the use of all Federal funds and owns all the capital items that Henderson County purchases with their share of the Federal funds.

The estimated total cost of the subject project is $95,368, $14,527 more than what was budgeted originally. Federal funds will provide $92,462, $80,841 are part of the ARRA apportionment and don't require a match; and $11,621 are covered with grant NC-90-X439; this grant requires a match of $2,906 provided by Henderson County. The City of Asheville performs all of the administrative tasks including the bidding process, requests for funding, review of documentation, and reporting. A State contract is in place and City staff will order the van as soon as the budget is amended.

This action complies with the current City Council 2012-13 Strategic Operating Plan within the fiscal responsibility focus area by operating the City of Asheville to the highest levels of fiscal responsibility.

Pros:

- The CNG van will produce savings in maintenance and fuel costs.
- The Federal Transit Administration (FTA) provides 96% of the total estimated project cost.
- Henderson County provides 4% of the total estimated project cost.
- There is **no** cost obligation for the City of Asheville other than administrative expenses.

Con:

- The City of Asheville is responsible for administrative expenses including staff time to oversee the project.

The total estimated project cost is $95,368, with 96% or $92,462 coming from Federal funds, 4% or $2,906 coming from Henderson County. There is no direct fiscal impact to the City of Asheville, however the City's cost of administering the project is not recovered.

City staff recommends that City Council approve a resolution authorizing the City Manager to enter into an agreement with Henderson County to lease one CNG van and to adopt the associated budget amendment.

**RESOLUTION BOOK NO. 25 – PAGE 102**
**ORDINANCE BOOK NO. 27 – PAGE 465**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Davis moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Bothwell and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. UPDATE ON THE 10-YEAR PLAN TO END HOMELESSNESS

Ms. Heather Dillashaw, Homeless Initiative Coordinator, briefly updated City Council on the 10-Year Plan to End Homelessness. The chronically homeless statistics looking backward: 2006 – 134; 2007 – 105; 2008 – 181; 2009 – 180; 2010 – 187; 2011 – 75; and 2012 – 80. The 2012 Point-In-Time count shows 523 total homeless, approximately 100 were veterans and 423 formerly homeless are in permanent supportive housing. The average rent in Asheville is 717 for a one-bedroom without utilities. The fair market rent for Fiscal Year 2012 is $617 for a one-bedroom including utilities. The Housing Authority has 461 one-bedroom units available, 877 on one-bedroom waiting list, and 119 annual turnover rate. She provided good news statistics for the Respite Beds Project, the SOAR Project, HUD-VASH, SAMHSA Agreement and ESG Funds Transition.

For Project Connect 2012, 200 were served, 49 City and Mission Hospital volunteers, 30+ providers and VA Stand Down.

Next steps include the Housing Crisis Response System (1) coordinated intake; (2) rapid re-housing; (3) jobs; (4) adequate medical and mental health care; and (5) housing for all.

Mayor Bellamy felt the beauty of what we are seeing today is because of the homeless network and the continuous looking at benchmark data and the cross-pollination of information sharing between the non-profits and for-profits.

Ms. Dillashaw responded to various questions/comments from Council.

On behalf of City Council, Mayor Bellamy welcomed Ms. Dillashaw in her new position with the City and looked forward to future updates.

**B. TREE COMMISSION UPDATE**

Mr. Bill Hascher, Chairman of the Tree Commission, briefly discussed the Asheville Tree Map; anti-tree topping and leaf collection; Bee City USA; planting lists; Alternative Compliance Subcommittee activity and Technical Review Committee seat; Tree Tenders Program and Blue Ridge Arborist Association; and appreciation of support for the City's Arborist Program.

Councilman Bothwell, current liaison to the Tree Commission, and Councilman Davis, former liaison to the Tree Commission, both expressed their appreciation for the dedication and work of the members.

On behalf of City Council, Mayor Bellamy thanked Mr. Hascher and the entire Tree Commission for their hard work on the Commission.

**C. ABC BOARD UPDATE**

ABC Board Chairman Jim Ellis briefly updated Council on their new staff; finances, and grants and education from outside agency funding.

General Manager Mark Combs then updated Council on their community alcohol education efforts (Clear Channel Radio Group, Prom Promise and discretionary funds); their updated website; and their focus on store appearance. Their goals and objectives will be focused on innovative alcohol education – "Drink Responsibly."

On behalf of City Council, Mayor Bellamy thanked Mr. Ellis and the entire ABC Board for their time and effort on the Board.

**D. WATER/SEWER MERGER UPDATE**

Project Manager Phil Kleisler updated City Council on the Water Resources process update from September 11-25, 2012. The internal financial analysis for Phase 2 is underway. At an MSD meeting today, it was noted by the consultants for MSD that a draft of the Phase I MSD study will be presented to the MSD Planning Committee in late October with the full and final draft being presented to the MSD Board on November 14. Internal communications consist of small and large staff meetings and legal communication. External communications consist of the project website and meetings with consultants representing MSD and the City of Hendersonville. There will be a progress report on the governance model on October 16 at 5:00 p.m. in the Council Chamber. Asset value is still ongoing with Raftelis. A joint meeting was held with our state legislators on September 18 in the US Cellular Center and a pending item is the invitation to area governments.

After Mr. Kleisler provided council with a request for information sheet, City Manager Jackson pointed out that these requests for information is exhaustive and time-consuming on both City and MSD staff. He said that because MSD has provided the City with 65% of the information we have requested, Raftelis is going to have to evaluate how far they can get in terms of their work on the financial side in time for the October 16 worksession.

After a brief discussion and because Representative McGrady felt that all area municipalities need to be participating in the good faith efforts, it was the consensus of Council to extend an invitation to all area municipalities that have water/sewer services to the October 16 worksession to hear firsthand what is happening and how they are part of this process. City staff can furnish them a copy of the legislation, the minutes of the September 18, 2012, meeting with the state legislators so they can see what Representative McGrady represented and some information about the City's consultant Raftelis. After that worksession, City Council can then invite them again to join in the good faith discussions between the City and MSD.

In response to Councilman Pelly, City Attorney Oast said there are several stand alone water systems in Buncombe County that are potentially covered including Woodfin, Black Mountain, Weaverville, Biltmore Forest, and possibly others. Councilman Davis felt that even water producers in the region like Hendersonville should be invited.

## IV. PUBLIC HEARINGS:

### A. CONTINUATION OF PUBLIC HEARING TO CONSIDER A MUNICIPAL SERVICE DISTRICT FOR DOWNTOWN ASHEVILLE (BUSINESS IMPROVEMENT DISTRICT)

At the request of the Interim Business Improvement District Board due to the absence of Vice-Mayor Manheimer, Councilman Davis moved to continue this public hearing until October 9, 2012. This motion was seconded by Councilman Smith and carried unanimously.

### B. PUBLIC HEARING TO AMEND THE 2012-13 ANNUAL ACTION PLAN TO DE-ALLOCATE $40,000 OF COMMUNITY DEVELOPMENT BLOCK GRANT FUNDING FOR THE ON-TRACK HOME-BASE PROGRAM AND ASSIGN THOSE FUNDS TO CONTINGENCY

### RESOLUTION NO. 12-223 - RESOLUTION AMENDING THE 2012-13 ANNUAL ACTION PLAN TO DE-ALLOCATE $40,000 OF COMMUNITY DEVELOPMENT BLOCK GRANT FUNDING FOR THE ON-TRACK HOME-BASE PROGRAM AND ASSIGN THOSE FUNDS TO CONTINGENCY

Community Development Director Jeff Staudinger said that this is the consideration of a resolution amending the 2012-2013 Consolidated Annual CDBG and HOME Action Plan regarding the OnTrack for Home Base Program. This public hearing was advertised on September 14 and 21, 2012.

OnTrack was awarded $40,000 in CDBG housing services funds to support staff and management costs for the HomeBase homelessness prevention program. In July, OnTrack informed the Community Development Division of its decision to discontinue the HomeBase program. On Track had originally "inherited" this program from another agency that discontinued operations. As On Track participated in the Homeless Initiative, and retooled what had originally been a renters' financial literacy assistance program to the Housing First model, it determined that other agencies were better suited to provide rapid rehousing and homelessness prevention assistance. This was a well-considered decision by that organization, as it examined the fit of this program with its mission and resources. OnTrack has assured the City and provided evidence that the program's existing clients have been given access to similar assistance available at other Asheville organizations. OnTrack continues to operate many other programs, including its CDBG funded Financial/Housing Education and Counseling Program. This decision does not affect that program, and CDBG funds remain allocated to its support.

As a result of this decision, On Track will not be granted $40,000 of CDBG allocated this year for that program. At this time, the Housing and Community Development Committee

16

recommends placing these funds into contingency, as it considers the future disposition of these funds.

This action meets the Council Strategic Goals of Affordable, Job Growth and Community Development, as these funds are returned to the CDBG pool for future allocation to projects meeting these goals and relevant objectives.

Pro:

- The proposed action will enable the City to allocate CDBG funds for most effective programs to meet the needs of low and moderate income persons.

Con:

- Program clients who have developed a working relationship with OnTrack for these services will need to have their needs met elsewhere.

Because no contract was executed for the use of these funds, all of the CDBG funds allocated will be returned to the CDBG fund for future allocation. No City general funds have been allocated to this program.

Staff recommends that the 2012-2013 Action Plan be amended to allocate the $40,000 of CDBG funds originally allocated to OnTrack's HomeBase program to Contingency, for reserve and future allocation to CDBG eligible activities.

Mayor Bellamy opened the public hearing at 6:21 p.m. when no one spoke, she closed it at 6:21 p.m.

Councilman Davis said the Housing & Community Development Committee felt it would be prudent to hold the funds in Contingency at this time.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 12-223. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 103**

**C. PUBLIC HEARING TO CONSIDER A SIGNAGE PLAN TO ALLOW FOR THE INSTALLATION OF IDENTIFICATION AND WAYFINDING SIGNAGE TO BE LOCATED ON A PORTION OF THE PROPERTY LOCATED AT 110 LYMAN STREET**

**ORDINANCE NO. 4123 - ORDINANCE APPROVING A SIGNAGE PLAN TO ALLOW FOR THE INSTALLATION OF IDENTIFICATION AND WAYFINDING SIGNAGE TO BE LOCATED ON A PORTION OF THE PROPERTY LOCATED AT 110 LYMAN STREET**

Assistant Planning & Development Director Shannon Tuch said that this is the consideration of an ordinance approving a signage plan to allow for an off-premise commercial subdivision sign located at 110 Lyman Street. This public hearing was advertised on September 14 and 21, 2012.

The applicant is negotiating the purchase of a small 6,700 square foot portion of a larger, commercial property located at the corner of Lyman St. and Depot St. that is a little over an acre in size (PIN 9648.06-5506). The small subdivided portion would be located at the corner and

have frontage on both streets, while the larger remnant parcel would have frontage on Lyman St. only where the existing access is currently located.

The parent parcel was created in 1985 from the Housing Authority's disposal of many smaller lots that had originally been part of the East Riverside Urban Renewal Area. The properties appear to have been purchased and recombined into a commercial subdivision with five separate commercial properties. These lots were subsequently sold and developed for light manufacturing and include the following properties:

| | | |
|---|---|---|
| 110 Lyman St. | 9648.06-5506 | (subject property) |
| 120 Lyman St. | 9648.06-9462 | |
| 122 Lyman St. | 9648.16-3565 | |
| 121 Lyman St. | 9648.06-9697 | |
| 123 Lyman St. | 9648.06-5757 | |

In addition to the individual properties' signage, commercial subdivisions are permitted a separate sign, typically free-standing, identifying the subdivision and sometimes the tenants as well. The sign must also be located on either one of the commercial lots with an easement, or on common open space for the development. Normally, there is also an accompanying legal vehicle such as a deed or an easement that provides all the parcels some limited rights to the sign. In 1988, an easement was created for a new commercial subdivision sign to be placed on the property at 110 Lyman St., with rights conveyed to the other four property owners. This sign is currently located near the corner, on the portion of the property that the applicant is seeking to subdivide and purchase.

Subdividing the corner from the rest of the property effectively removes this portion of the property from the commercial subdivision and conceptual development plans require the removal of the sign to make way for a new mixed-use building. In order to respect the original easement, the applicant is seeking to relocate the existing sign but has not been able to find a location suitable to all the parties who desire to maintain wayfinding visibility from the nearby 5-points intersection. As an alternative, the applicant is proposing to install a new sign on the wall of their proposed building that would creatively provide identification and directional cues for those searching for the businesses that are part of the Lyman Hollow subdivision.

Analysis: The subject property is 1.13 acres, from which a small .154 portion is proposed to be divided off. The subject property is also part of a larger commercial subdivision of five separate lots totaling 8.56 acres, all zoned Commercial Industrial (CI). The *Unified Development Ordinance* (UDO) currently allows commercial subdivisions to obtain individual sign allowances for each lot that includes up to two business signs at 125 square feet each. In addition to this individual signage, a separate subdivision sign is also permitted and can be up to 60 square feet and, if free-standing, up to eight feet tall with a maximum of two faces.

The applicant is seeking to redesign and relocate the existing sign to the wall of their proposed building. While this building and portion of the property would not be part of the commercial subdivision, it would provide the desired visibility for the remaining businesses that cannot be seen from the main road intersection. The new building is proposed to be a mixed-use or multi-tenant building and would also be permitted up to 125 square feet of attached signage and separate individual tenant signage. This proposal seeks to simply add the commercial subdivision sign to what would normally be allowed for the building. No other special considerations are being requested.

Staff Findings: The stated purpose of allowing the consideration of a separate signage plan is as follows:

*The purpose behind this section is to permit creativity in sign design and placement to address site issues and constraints associated with topography, pedestrian-orientation, way-finding and other conditions unique to the subject development.*

This request, while modest, more appropriately represents the value of the signage plan application process. Through the creative placement of a sign, the applicant is able to provide valuable wayfinding to neighboring properties that would otherwise not be visible from the main intersection. The character and design of the sign would be complementary to the building but would also be distinct enough to not be confused with the signage for building itself.

Pros:

- Provides clear directional signage to an existing commercial subdivision.
- Does not result in a net increase in signage.

Con:

- Sign would be located off-site and may confuse some visitors.

Staff recommends that the signage plan for the Lyman Hollow Commercial Subdivision be approved, subject to the following conditions: (1) All signs shall meet the zoning district dimensions, setbacks, the site distance triangle requirements and all applicable building code requirements; (2) Any changes to the signage included in this plan may require a new review by City Council; and (3) All signs shall comply with the proposed standards and no exceptions or variances are permitted.

Mayor Bellamy opened the public hearing at 6:29 p.m.

Ms. Hedy Fisher, petitioner, explained their request and asked for Council support.

Mayor Bellamy closed the public hearing at 6:32 p.m.

Mayor Bellamy asked Ms. Tuch to look at an old manufacturing warehouse near this property to see if any action needs to be taken if it is abandoned.

Councilman Smith asked Ms. Tuch verify that the small lot to the north of this property encompasses the school property and is zoned Institutional.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4123, to approve the signage plan for the Lyman Hollow commercial subdivision sign to be located at the development project located at the corner of 110 Lyman St. subject to the following conditions: (1) All signs shall meet the zoning district dimensions, setbacks, the site distance triangle requirements and all applicable building code requirements; (2) Any changes to the signage included in this plan may require a new review by City Council; and (3) All signs shall comply with the proposed standards and no exceptions or variances are permitted. This motion was seconded by Councilman Pelly and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 467**

**D. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO UPDATE OUTDOOR LIGHTING STANDARDS**

At the request of City staff, Councilman Bothwell moved to continue this public hearing until November 27, 2012. This motion was seconded by Councilman Pelly and carried unanimously.

**V. UNFINISHED BUSINESS:**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 12-224 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE AGREEMENT WITH POPE GOLF ASHEVILLE LLC FOR THE OPERATION AND MANAGEMENT OF THE ASHEVILLE MUNICIPAL GOLF COURSE**

Parks, Recreation & Cultural Arts Director Roderick Simmons said that this is the consideration of a resolution authorizing the City Manager to execute a Lease Agreement with Pope Golf, LLC (dba Pope Golf Asheville, LLC) for the purpose of operating and managing the Asheville Municipal Golf Course which is city-owned real property at 226 Fairway Drive, Asheville, NC.

On August 28, 2012 City Council at the formal meeting took the following actions: (1) City Council adopted a resolution authorizing the City Manager to enter into a seven (7)-year management agreement with Pope Golf, L.L.C to manage the operation of the Asheville Municipal Golf Course; (2) City Council authorized staff to offer a severance package to impacted employees who do not obtain employment in either another City position and/or a position with Pope Golf; and (3) City Council authorized the lease to be brought before City Council at its September 25, 2012, meeting.

The property at 226 Fairview Drive consists of approximately 121 acres and existing buildings and is located off of Swannanoa River Road across from the Recreation Park complex. The current uses of this property are: (1) The City of Asheville Parks, Recreation and Cultural Arts Department operates a Clubhouse/Pro-Shop, Maintenance Facility and 18-hole golf course for the general public use.

The proposed lease terms are as follows:

- Initial term of seven (7) years with the option to renew for one (1) additional three (3) year period, subject to the mutual consent of the parties.
- Tenant responsibilities: Installation of all improvements, subject to zoning standards. Must maintain cleanliness of property, improvements, clearing of debris.
- All utilities to be paid by the Tenant.
- Maintenance: All maintenance to be performed by Tenant.
- Mutual rights to terminate lease.
- Rental: As consideration for the lease, Pope Golf Asheville, LLC Inc. will pay to the City a flat fee of $72,000/year for the first three (3) years of the lease agreement. After the initial three years, the flat fee will be calculated as 10% of the average adjusted gross revenues (minus golf shop and food and beverage sales) earned during the first three years of the agreement. Pope Golf Asheville, LLC will pay the City an additional 1% if annual adjusted gross revenues are between $1,200,000 and $2,199,999. Pope Golf will pay the City an additional 2% if annual adjusted gross revenues are $2,200,000 or greater. Payments will be due quarterly.
- Standard provisions of all City leases (e.g. insurance, indemnity, etc.) will also apply.

The Notice of Intent to enter into a Lease Agreement with Pope Golf, LLC was published on September 14, 2012 in the Asheville Citizen-Times. Ten days have passed since the publication and authorization to execute the Lease Agreement is being requested

20.

On September 17, 2012, staff conducted a public meeting with citizens, community stakeholders and representatives of Pope Golf, Inc. in an effort for citizens to learn more about Pope Golf, Inc.

Pope Golf Inc. provided an overview of their company and information on their golf course operational philosophy. At the end of the presentation they took comments and allowed Citizens to ask questions about any concerns about the change in management of the Municipal Golf Course. There were approximately forty-five citizens and community stakeholders in attendance during the 2 hours meeting.

This action complies with the City Council Strategic Operating Plan of Fiscal Responsibility in that it supports a stronger, more prosperous community by making smart investments that accomplish lasting, tangible returns. It leverages an external partnership to enhance the City's financial commitment to master plan implementation, infrastructure maintenance, capital improvements and public facilities. This action also complies with the Parks, Recreation, Cultural Arts and Greenway Master Plan in that it maximizes the level of service available to the community by using partnerships.

Pros:

- Eliminate the general fund subsidy for golf course operations.
- Elimination of financial risk for the City.
- Provide a reliable funding stream to support maintenance and operation of the Municipal Golf Course.
- Sets the standards of operation to assure quality maintenance practices and meet community expectations.

Con:

- The City has no prior experience with private management of the course.

As consideration for the lease agreement, Pope Golf, LLC Inc. will make an annual payment to the City as outlined above.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute the lease agreement with Pope Golf Asheville, LLC. on behalf of the City of Asheville.

When Mayor Bellamy asked for public comments, none were received.

Mr. Simmons confirmed for Mayor Bellamy that the current tournaments that have a 10+ year history will continue to operate at the golf course; that all City staff at the Golf Course have been interviewed to potentially become Pope Golf employees; and that all covenants and restrictions are in place for this land to remain a Golf Course. Mr. Simmons pointed out that the Golf Course is still a City asset.

In response to Mayor Bellamy, Mr. Simmons reiterated that on September 17, 2012, staff conducted a public meeting with citizens, community stakeholders and representatives of Pope Golf, Inc. in an effort for citizens to learn more about Pope Golf, Inc. Councilman Pelly said that there were about 40 people in attendance and the meeting was very positive.

Councilman Smith pointed out that Pope Golf will pay the City a flat fee of $72,000 a year for the first three years of the lease agreement. After the initial three years the flat fee will be calculated as 10% of the average adjusted gross revenues. He said this is an agreement the City is entering with the knowledge that the City will be able to see some money returned for other purposes out of this initiative.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hunt moved for the adoption of Resolution No. 12-224. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 104**

**B. RESOLUTION NO. 12-225 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO AN INTERLOCAL AGREEMENT WITH BUNCOMBE COUNTY TO CONSTRUCT MULTIPLE WATER LINES WITHIN A ONE MILE RADIUS OF THE FORMER CTS FACILITY ON MILLS GAP ROAD**

Water Resources Director Steve Shoaf said that this is the consideration of a resolution authorizing the Mayor to enter into an interlocal agreement with Buncombe County to extend water lines to approximately 129 locations currently supplied with well water in the area of the former CTS Facility on Mills Gap Road.

For several years, Buncombe County has worked with residents living in the area of the former CTS Facility on Mills Gap Road. The well water of those residents may be impacted by ground water contaminates, including trichloroethylene, found near the former CTS Facility. The water filtration devices provided to the residents may not provide sufficient public health protection from possible well water contamination.

Pursuant to the Federal Safe Drinking Water Act Amendments of 1996 and the North Carolina Water Infrastructure Act of 2005, Buncombe County is seeking a 3+ million dollar loan to finance the extension and construction of City water lines to the approximately 129 locations currently supplied with well water. As part of the application for such loan, an interlocal agreement with the City is required to be submitted.

The interlocal agreement requires the County to pay back the loan, design and construct the water system, and pay all fees and costs except as set forth herein. The City is responsible for all inspections at no cost to the County, accepting the lines and waiving all plan review, development, and account set up fees for new customers connecting to the system at the time of completion of the project. When the project is complete, the City will accept ownership of the new lines along with responsibility for operating and maintaining them.

This action complies with the City Council's Strategic Operating Plan in that it promotes making the Asheville community one of the safest communities for all citizens while relying on partnerships to enhance infrastructure and capital improvements.

Pros:

- Opportunity to partner with Buncombe County to resolve a public health concern in the community.
- Supports Buncombe County's efforts to leverage State resources to improve public infrastructure.
- Addition of 129 new customers onto the City of Asheville's water system at a minimal cost.

Con:

- None noted.

As a condition of the agreement, Buncombe County has requested that the City of Asheville waive all development, plan review and account set up fees associated with the project. The value of these fees is:

22

- Set up fees: $55 fee x 129 accounts = $7,095
- Plan review and technology fee = $468
- Develop review fees: $1,125 x 129 = $145,125
- Total fees waived: $152,670

The addition of 129 new water accounts will generate $33,901 annually in revenue. Therefore, the value of the fee waiver will be recovered in about 4.5 years.

Staff recommends that City Council approve the resolution as presented.

Mayor Bellamy was excited to offer 129 new customers and families the opportunity to tap onto our system so they can have safe drinking water. This has been in the works for many years and was proud that Buncombe County has taken the leadership.

On behalf of the 129 families, Mr. Tate McQueen thanked City Council for their support through this process. He said that this has been a long-time coming but there is still a lot of work to be done. He said this is a part of several steps as they still have air quality issues, the school bus issue with air quality and contamination that Dr. Jeff Wilcox from UNC-Asheville has said there can be upwards of hundreds, if not thousands, of barrels that were dumped on location. Providing this relief, the City has gone a long way to demonstrate that at the end of the day it's about cooperation. He said this is an excellent example of good governance.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 12-225. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 105**

**C. RESOLUTION NO. 12-226 – RESOLUTION DIRECTING INITIATION OF ZONING MAP AMENDMENT FOR PROPERTY LOCATED ON CALEDONIA ROAD AND FINALEE STREET**

A staff report on the summary of previous petitions and applicable Code provisions was provided to City Council.

Councilman Pelly said that he will be making a motion to request a re-examination of a current designed zoning that is assigned to three Kenilworth properties on Caledonia Road, totaling approximately 9 acres. This follows a request from the Kenilworth Residents Association (KRA) received by City Council at their August 28, 2012, meeting. He said that Section 7-7-2 of the City Code allows for the Asheville City Council to initiate a zoning map amendment. The reason the KRA has requested this map amendment is because they remain concerned about steep slopes, unstable slope conditions, limited site distances and narrow road surfaces in and around the three properties in question. The surrounding residential neighborhood is largely single family and zoned RS-8. Additionally, there is a project application for a 50-unit housing development on adjoining property which is scheduled to come before the Planning & Zoning Commission in October which, if approved, will mean further significant growth in the immediate area. His motion will not include the land associated with the 50-unit proposed development. Taken together, these facts make the case to re-examine the current zoning designation on the 3 parcels in question. The goal of his proposed motion is not an immediate rezoning of this property, but instead to direct the Planning & Zoning Commission and Planning staff to study the situation and make an appropriate recommendation to City Council.

Mr. Mike Stevenson, Mr. Briggs Sherwood and Ms. Mary Evers, board members of KRA, urged Council to support Councilman Pelly's proposed motion for various reasons, including, but

not limited to the incompatible uses, steep slope with unsafe soil conditions, and traffic and safety concerns. He said that over 900 residents in this area.

Councilman Pelly moved to adopt the following resolution directing the initiation of a zoning map amendment for property located on Caledonia Road and Finalee Street: "Whereas, the Asheville City Council is authorized, pursuant to N.C.G.S. 160A-381, 160A-384 and Sec. 7-7-2 of the Asheville City Code to initiate amendments to the official zoning map of the City of Asheville; and Whereas, the City Council has determined that it is in the public interest to consider the rezoning of property located on Finalee Street and Caledonia Road in the City of Asheville. Now, therefore, be it resolved by the City Council of the City of Asheville that (1) The City Manager be, and is hereby directed to cause a zoning study to be performed on the property identified on Exhibit A, and to formulate an appropriate recommendation for consideration in the manner prescribed by ordinance; and (2) The City Manager, or his designee, be and is hereby authorized to execute any documents necessary to give effect to this resolution. City Attorney Oast provided the Council with a copy of the affected property identified as Exhibit A.

Mr. Alan Ditmore explained why he was opposed to single family construction.

Councilman Hunt clarified the motion that it does not specifically direct this to RS-8 for all properties, but simply opens a review and consideration and study that might lead us to a rezoning away from Institution to something different.

Councilman Hunt was concerned of an outcome that would have lots of disbursed buildings that would be disruptive to the landscape and a lot of opportunity for erosion and landslides. He hoped as staff reviews this for ways the property might be rezoned that his concerns would be taken into account. He did not think Institutional is appropriate for those properties.

Councilman Bothwell said that at the Planning & Economic Development Committee meeting they nudged toward extending steep slope protection at the bottom of the hills everywhere. He felt we need to protect our mountains.

Councilman Davis agreed that the land is not appropriately zoned as Institutional; however, when we start initiating zoning without the owner of the property being involved, it's not a good step. He felt we are setting a dangerous precedence to start zoning other people's properties without their involvement in it. He felt it sends the wrong message. He acknowledged a letter received from Mr. Howington's attorney who expressed some willingness to meet with the KRA. He felt that getting City Council involved at this point makes it more difficult to get to a good place.

Mayor Bellamy said this has been a concern for years and they have not reached a good point, citing the extensive legal fees for all parties. She will support the review, but would not support an RS-8 zoning. She hoped Mr. Howington and the KRA will meet and look comprehensively at this transitional property going into the neighborhood and future development. City staff will not only look at this, but will talk to the neighborhood and property owner. She did not want to start a precedent but dialogue needs to happen to move forward to a better place.

Councilman Pelly said that reality check is that if the Planning & Zoning Commission recommends any kind of rezoning the property owner will be able to file a protest petition. A valid protest petition will require 6 out of 7 Council members support the rezoning. It's incumbent upon the community to work in good faith to craft a proposal that meets the needs of all the parties involved.

Councilman Bothwell recalled when there was a vote on this and was disturbed that Mr. Howington hired Vice-Mayor Manheimer's law firm in order to force her to recuse herself.

City Attorney Oast reminded Council that this vote is only to give staff direction. It does not bind Council with respect to any future votes and any past votes on this project should not be considered at this time.

Councilman Pelly moved for the adoption of Resolution No. 12-225. This motion was seconded by Councilman Bothwell and carried on a 5-1 vote, with Councilman Davis voting "no".

**RESOLUTION BOOK NO. 35 – PAGE 106**

**D. RESOLUTION NO. 12-227 - RESOLUTION APPOINTING A MEMBER TO THE CIVIC CENTER COMMISSION**

Councilman Smith, member of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Civic Center Commission.

The term of George Keller expired on June 30, 2012.

The following individuals have applied for a vacancy: Deanna Reeder, Grant Millin, Angela Rutledge, Chris Bubenik, Antonio Hinton, Arthur Ollendorff, Elizabeth Franks and Suzanne Rice

On August 14, 2012, City Council instructed the City Clerk to arrange interviews for Chris Bubenik, Antonio Hinton and Arthur Ollendorff.

After Council spoke highly of the candidates, Mr. Bubenik received 4 votes, Mr. Ollendorff received 1 vote, and Mr. Hinton received 1 vote. Therefore, Chris Bubenik was appointed as a member to the Civic Center Commission, to serve a three-year term, term to expire June 30, 2015, or until his successor has been appointed.

When Mayor Bellamy suggested changing the name of the Civic Center Commission to the US Cellular Center Commission, it was the consensus of Council to have the Civic Center Commission review this item on their agenda (pointing out pros and cons) and forward their recommendation to the Boards & Commissions Committee for their recommendation to the full Council.

**RESOLUTION BOOK NO. 35 – PAGE 108**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Ms. Patricia Dockery asked why the noise ordinance was not on the agenda as it was discussed at the September 24, 2012, Public Safety Committee. After hearing from Assistant City Manager Jeff Richardson (staff liaison to the Public Safety Committee), about the need for staff to flesh out several issues that arose from that Committee meeting, it was the consensus of Council to place the noise ordinance on the November 13, 2012, agenda.

Mayor Bellamy announced the following board/commission vacancies: Community Action Opportunities; Homeless Initiative Advisory Committee; and the Transit Commission. She also noted that there will be vacancies on the ABC Board in November. She encouraged those interested to contact City Clerk Maggie Burleson for an application form.

**Closed Session**

At 7:20 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consider the qualifications, competence, performance, character, fitness, conditions of appointment, or initial employment of an individual prospective public officer or employee. The

statutory authorization is contained in G.S. 143-318.11 (a) (3); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11 (a) (6); and (2) To prevent the disclosure of information that is privileged or confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The laws that make the information privileged or confidential are N.C. Gen. Stat. sec. 143-318.10 (e) and N.C. Gen. Stat. sec. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. sec. 143-318.11 (a) (1). This motion was seconded by Councilman Smith and carried unanimously.

At 8:02 pm., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Davis and carried unanimously.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 8:02 p.m.

Magdalen Burleson
CITY CLERK

Mayor Bellamy
MAYOR

Tuesday – October 2, 2012 - 3:00 p.m.
Hall Fletcher Elementary School

Joint Meeting – City Council & Asheville City Board of Education

Present: Vice-Mayor Esther E. Manheimer, Presiding; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Present: Chairman Gene Bell, Board Member Alfred Whitesides Jr.; Board Member Peggy Dalman; Board Member Jacquelyn Hallum; Board Member Precious Folston; Superintendent Allen Johnson

Chairman Bell and Vice-Mayor Manheimer called the meeting to order at 3:00 p.m. and welcomed all officials for attending.

Superintendent Johnson reviewed a PowerPoint presentation on the Asheville City Schools Strategic Plan 2012-2015.

Mr. Kelvin Cyrus, Assistant Superintendent reviewed with Council a PowerPoint presentation on the graduation rate/achievement gap.

Ms. Cynthia Grady reviewed a PowerPoint on the upcoming capital projects at Asheville Middle School and Isaac Dickson Elementary School.

City Manager Jackson briefly reviewed City Council's Strategic Operating Plan and noted the number of partnerships that City of Asheville and the Asheville City School System are considering, or currently are engaged in that specifically address the goals City Council has outlined in its Strategic Operating Plan, specifically in the operating plan areas of Safe; Job Growth and Community Development; Multimodal Transportation; and Fiscal Responsibility.

Discussion occurred between the School Board members and City Council on what City Council can do to help reduce the achievement gap. Coming out of that discussion was the need to address the disadvantaged people in our community and get them back into the workforce. Some suggestions were holding a City Council meeting in a public housing development; rallying community support (churches, banks, non-profits, businesses, Chamber of Commerce, Mission Hospital, Buncombe County, City of Asheville, service providers) to hire our youth; think of solutions to break up the generational public housing occupants; apply for choice neighborhood initiatives; more funding for larger CAYLA, MAHEC, I Have A Dream (and the like) programs; work with employers who are willing to hire public housing employees to think of innovative ways to transport those employees to and from work; operate buses on Sundays and week nights; and encourage our youth to attend A-B Technical Community College for training to apply for new economic development jobs in our area.

There was a brief discussion after Mr. Cyrus responded to Vice-Mayor Manheimer when she asked for the definition of grade level achievement. The importance of pre-school education and parent involvement was stressed.

Councilman Hunt, liaison to the School Board, said that public education is a very high priority in our community. He suggested representatives of several organizations (City, County, Chamber and School Board) meet to try to address some of the concerns outlined.

Vice-Mayor Manheimer provided a timeline of the process of appointment of the School Board members whose terms will be expiring on April 1, 2013. Those consist of Chairman Bell (who has served 2 full terms), Board Member Al Whitesides (who has served 2 full terms) and Ms. Dalman (who has served 1 full term). Ms. Dalman was advised that even though she may request to be reappointed, she

would need to follow the same application process as those who will be applying. It was the consensus of all those present encourage highly qualified individuals to apply for the School Board seats.

On behalf of City Council, Vice-Mayor Manheimer thanked the School Board members for their services.

Chairman Bell and Vice-Mayor Manheimer adjourned the meeting at 5:07 p.m.

Magdalen Burnson
City Clerk

Mayor

28

Tuesday – October 9, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; Assistant City Attorney Martha McGlohon; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Mayor Bellamy gave the invocation.

**I. PROCLAMATIONS:**

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 25, 2012, AND THE SPECIAL MEETING HELD ON OCTOBER 2, 2012**

**B. ORDINANCE NO. 4124 - FIRST READING OF AN ORDINANCE AMENDING TO THE FRANCHISE AGREEMENT WITH THE EDUCATION RESEARCH CONSORTIUM**

Summary: The consideration of an ordinance amending the City of Asheville's franchise agreement with the Education Research Consortium.

Pursuant to City Ordinance No. 3056, which provides for the granting of franchises to install telecommunications facilities within the City of Asheville's right-of-ways, the City and ERC entered into a telecommunications franchise in June of 2004.

In October of 2009, based on changes in state law, the City's cable television franchise was terminated. This cable television franchise allowed for the provisioning of a public purpose fiber optic network known as the "institutional network," which served public safety stations and other city premises. Because it was financially infeasible to continue to use the cable television fiber optic network, City staff discontinued use and built a lower-fidelity wireless network to provision fire stations. Because certain locations continue to experience difficulty with the lower-fidelity network, city staff continued to work to replace the fiber optic network. In 2011, the City of Asheville also analyzed the capital cost of building its own fiber optic network via staff and a third party, with highest estimates at $4,902,890.

ERC received grant funding in 2012 for the purposes of building fiber optic in the region, as well as anchor institutions like fire and police stations. Moreover, the City of Asheville and the ERC continue to partner to connect other premises such as the Armory.

To govern these new builds, and to provide a value exchange that is satisfactory both to city staff and ERC staff, an amendment to the ERC franchise agreement is proposed. The

amendment allows the City to waive the collection of franchise fees from ERC in exchange for access to its broadband network.

This action will provide greater capacity and redundancy for public safety stations as well as other city facilities.

This action complies with the City Council Strategic Operating Plan goal to "Leverage internal and external partnerships for pursuing capital improvements and infrastructure projects," as well as "Safe: Asheville will be one of the safest and most secure communities when compared to similar cities."

Pros:

- Increased primary data networking capacity to fire stations, police stations, and other city facilities.
- Leverages external partnership to pursue infrastructure project.
- Cost effective method for utilizing fiber optic network.

Con:

- None.

The franchise amendment allow the City of Asheville to exchange the collection of franchise fees for use of a portion of the ERC broadband network. The value of the waived franchise fees is equal to or less than the value of accessing the broadband network. The arrangement also allows the City to avoid the cost of installing its own fiber infrastructure at an estimated cost of more than $4.9 million.

City staff recommends City Council approve the amendment to the ERC franchise agreement. The statute authorizing the granting of franchises requires that franchises be amended by ordinance, and that any ordinance granting or amending a franchise be passed at two regular meetings. Accordingly, this same item will appear on Council's agenda for the October 23 meeting.

**ORDINANCE BOOK NO. 28 – PAGE 1**

**C. RESOLUTION NO. 12-228 - RESOLUTION APPROVING THE N.C. DEPT. OF CULTURAL RESOURCE'S UPDATED MUNICIPAL RECORDS RETENTION AND DISPOSITION SCHEDULE ISSUED SEPTEMBER 10, 2012**

Summary: The consideration of a resolution approving the N.C. Dept. of Cultural Resource's updated Municipal Records Retention and Disposition schedule issued September 10, 2012.

N.C. Gen. Stat. sec. 121-5 mandates that records defined under Chapter 132 may be disposed of only in accordance with an official records retention schedule. The N.C. Dept. of Cultural Resources, Division of Archives and History, has updated the 2009 Municipal Records Retention and Disposition Schedule.

This updated Schedule provides that records listed may be destroyed after the specified retention periods without further approval from the City or the N.C. Dept. of Cultural Resources provided, the governing body has authorized the records listed for destruction to be destroyed through its blanket approval of the Retention and Disposition Schedule.

Pros:

- Will allow records listed to be destroyed after specified retention period
- Will free up storage space

30

Con:

- None noted.

City staff recommends City Council adopt the resolution approving the N.C. Dept. of Cultural Resource's updated Municipal Records Retention and Disposition schedule issued September 10, 2012.

**RESOLUTION BOOK NO. 35 – PAGE 109**

**D. ORDINANCE NO. 4125 - BUDGET AMENDMENT TO AUTHORIZE THE USE OF N.C. STATE DRUG SEIZURE FUNDS**

Summary: The consideration of a budget amendment, in the amount of $44,900, to authorize the use of North Carolina State Drug Seizure Funds to fund the purchase of Emergency Response Team (ERT) 13 ballistic vests and to adjust the supply account line for previous expenditure overage.

The North Carolina State drug seizure program is an equitable sharing program which divides the illegal proceeds from drug dealing between the North Carolina State government and local law enforcement agencies. It is designed to help off-set the considerable cost of drug enforcement, by allowing local law enforcement agencies to use seized monies for equipment, training, and improvements that might not necessarily be budgeted for by the agency. The illegal proceeds are divided with 25% going to the North Carolina Department of Revenue and 75% going to the local law enforcement agency initiating the seizure.

The City of Asheville Police Department has received $44,900 in North Carolina State drug seizure funding. This amendment will authorize the use of that funding to fund the purchase of Emergency Response Team (ERT) tactical ballistic vests.

This action complies with City Council's Strategic Operating Plan in the Focus Areas - Safe - Asheville will be one of the safest and most secure communities when compared to similar cities and Fiscal Responsibility – The City of Asheville will support a stronger, more prosperous community by making smart investments that accomplish lasting, tangible returns.

Pros:

- North Carolina State drug seizure revenues used to fund 13 ballistic vests for ERT
- Making adjustments for the supplies account line previous expenditure overage

Con:

- None noted

Accepting and allocating these State Forfeiture Funds is a financial benefit to the APD allowing us to better equip our employees. There is no impact to the General Fund budget.

City staff recommends City Council adopt a budget amendment in the amount of $44,900 authorizing the use of North Carolina State Drug Seizure Funds to fund the purchase of Emergency Response Team (ERT) ballistic vests.

**ORDINANCE BOOK NO. 27 – PAGE 471**

**E. RESOLUTION NO. 12-229 - RESOLUTION ADOPTING CHANGES TO THE CITY OF ASHEVILLE'S FINANCIAL POLICY TO INCLUDE AN AUDIT PROCUREMENT POLICY**

Summary: The consideration of a resolution adopting changes to the City of Asheville's Financial Policy to include an Audit Procurement Policy.

**Best Practices**

The Government Finance Officer's Association (GFOA) has made the following recommendations, among others, regarding the selection of auditing services:

- Governmental entities should enter into multiyear agreements of at least five years in duration when obtaining the services of independent auditors. Such multiyear agreements can take a variety of different forms (e.g., a series of single-year contracts) and allow for greater continuity and help minimize the potential for disruption in connection with the independent audit. Multiyear agreements can also help to reduce audit costs by allowing auditors to recover certain "startup" costs over several years, rather than over a single year.

- Governmental entities should undertake a full-scale competitive process for the selection of independent auditors at the end of the term of each audit contract, consistent with applicable legal requirements. Ideally, auditor independence would be enhanced by a policy requiring that the independent auditor be replaced at the end of the audit contract, as is often the case in the private sector. Unfortunately, the frequent lack of competition among audit firms fully qualified to perform public-sector audits could make a policy of mandatory auditor rotation counterproductive. In such cases, it is recommended that a governmental entity actively seek the participation of all qualified firms, including the current auditors, assuming that the past performance of the current auditors has proven satisfactory.

**History**

The City of Asheville has utilized Dixon Hughes Goodman LLP (Dixon Hughes) for auditing services for the last seven fiscal years under single-year contracts. The City retained the services of Martin Starnes & Associates for the FY 2004-2005 fiscal year audit and utilized Crisp Hughes Evans for several years prior to FY 2005. Crisp Hughes Evans merged with a Dixon Hughes predecessor firm in 2004.

The City's long term relationship with Dixon Hughes is likely related to several factors, including the fact that it is the largest CPA firm in the southeast with a local office in Asheville. During the last four years, Dixon Hughes worked with Asheville as the City transitioned to a more complex financial system through the implementation of the enterprise resource planning (ERP) software Munis. At the same time, the City's Finance Department experienced staff turn over in key positions, and continuity in the independent auditor's role has been essential to timely completion of the audit. As a result, Dixon Hughes has extensive experience auditing the City's financial systems, accounts and records, including valuable insight and understanding of the financial system's processes and controls.

In 2011, City Council expressed an interest in pursuing a competitive process for the selection of independent auditors. Staff was prepared to launch a Request for Proposals (RFP) but requested that the City delay the RFP process for an additional year to permit a relatively new team in the Finance Department the optimal opportunity to complete the audit by October 31, 2012, a deadline that was adopted by City Council as part of the City's Financial Policy.

City Council approved staff's recommendation, and the services of Dixon Hughes were retained for a single, final year to conduct the audit of the city's accounts for the fiscal year ending June 30, 2012. Staff recommended that the City issue an RFP in the November/December 2012 timeframe for audit services for FY 2013.

**City of Asheville Financial Policy**

Staff believes an RFP for audit services would generate sufficient competition among firms due to the size, scope and duration of the engagement. Given GFOA's recommended best practices, staff recommends City Council adopt the following statement as part of the City's Financial Policy:

> **Audit Procurement Policy:** When obtaining the services of independent auditors, the City of Asheville shall enter into multiyear agreements of at least five years in duration through a series of single-year contracts as consistent with North Carolina State law. The City shall undertake a full-scale competitive process for the selection of independent auditors at the end of the term of each audit contract, consistent with applicable legal requirements. It is the City of Asheville's policy that the independent auditor be replaced at the end of the five-year engagement to enhance auditor independence unless lack of competition among audit firms fully qualified to perform public-sector audits make mandatory rotation counterproductive. The principal factor in the selection of an independent auditor is the auditor's ability to perform a quality audit. In no case should price be allowed to serve as the sole criterion for the selection of an independent auditor.

If adopted, the City's current audit service firm could not compete in the RFP process for FY13 since it has been working with the City for a period greater than five years. The policy, as drafted, would prevent consecutive contract awards, unless the City determines rotation would be counterproductive.

**Timeline**

- RFP development and release: November 2012
- Staff evaluation of responses: December 2012
- Finance Committee review: January 2013
- Contract award: February 2013

The City Council Finance Committee unanimously approved this policy at its September 25, 2012, meeting.

Adoption of this policy support the City's strategic goal to operate to the highest levels of fiscal responsibility.

Transitioning to a new audit firm will require additional time to get the auditors familiar with Asheville's financial systems, processes and controls. As illustration, according to a survey of the public accounting firms and Fortune 1000 public companies (United States General Accounting Office 2003), auditors' initial year audit costs increase by more than 20 percent over subsequent year costs to acquire the necessary knowledge of the client. In addition, their marketing costs also increase by more than 1 percent. Additionally, the survey found that clients will incur additional auditor selection costs and auditor support costs of at least 17 percent of initial-year audit fees.

For FY 2012, the City of Asheville executed an audit contract with Dixon Hughes for $109,000. Staff would estimate that the first year of an engagement with a new firm would range from $110,000-$145,000.

Staff recommends approval of resolution to adopt an Audit Procurement Policy in the City of Asheville's Financial Policy. Staff also recommends that Council direct staff to execute an RFP for audit services according to the timeline presented for the FY13 audit.

**RESOLUTION BOOK NO. 35 – PAGE 110**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Hunt and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. BUNCOMBE COUNTY TAX COLLECTOR

Buncombe County Tax Collector Gary Roberts briefly provided Council information on collections, the new motor vehicle law and the next reappraisal. He provided Council with a chart of the history of the collection rates for the City of Asheville from 2008 – 99.13% through 2012 – 99.31%. The state average for municipalities with population of 50,000 and greater is 98.25%.

Mr. Roberts responded to various questions/comments from Council related mostly to the next reappraisal.

On behalf of City Council, Mayor Bellamy thanked Mr. Roberts for providing Council an update on the activities of his office.

### B. BOARD OF ADJUSTMENT UPDATE

Mr. David Brown, Chairman of the Board of Adjustment, briefly updated the Council on the mission of the Board of Adjustment, their membership and their goals.

On behalf of City Council, Mayor Bellamy thanked Mr. Brown and the entire Board of Adjustment for their hard work to help reduce possible litigation.

At the suggestion of Mayor Bellamy, it was the consensus of Council to have the Planning & Economic Development Committee review the sign ordinance (exclusive of the digital signs which have recently been reviewed).

### C. CITIZENS-POLICE ADVISORY COMMITTEE UPDATE

Mr. Charlie Hume, Chairman of the Citizens-Police Advisory Committee, briefly updated Council on the Citizens-Police Advisory Committee. He outlined their mission, membership, goals, accomplishments and their initiative of "Taking It To The Streets."

On behalf of City Council, Mayor Bellamy thanked Mr. Hume for his leadership and the entire Citizens-Police Advisory Committee for their hard work.

### D. WATER RESOURCES UPDATE

Project Manager Phil Kleisler updated City Council on the Water Resources process update from September 25 – October 9, 2012. He said that the internal financial analysis/governance models meeting has been moved from October 16, 2012, to October 30 in the U.S. Cellular Center Arena Meeting Room. We have invited 16 entities to this meeting. He mentioned the MSD study key dates; and regarding the asset value, appraiser interviews to determine the feasibility of an asset review. He then provided Council with the information sharing between the City and MSD.

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING TO CONSIDER AN ECONOMIC DEVELOPMENT INCENTIVE AGREEMENT WITH PLASTICARD LOCKTECH INTERNATIONAL

### RESOLUTION NO. 12-230 - RESOLUTION APPROVING AN ECONOMIC DEVELOPMENT INCENTIVE GRANT FOR PLASTICARD-LOCKTECH INTERNATIONAL EXPANSION

### ORDINANCE NO. 4126 - BUDGET AMENDMENT FOR PLASTICARD-LOCKTECH INTERNATIONAL EXPANSION

Economic Development/Civic Center Director Sam Powers said that this is the consideration of a resolution approving a $67,000 economic development incentive grant for Plasticard-Locktech International (PLI) and the corresponding budget amendment in the amount of $13,400 from property tax revenue for the estimated first year's installment of this five-year economic development incentive grant. This public hearing was advertised on September 28, 2012.

Plasticard-Locktech International (PLI) was founded in 1988 in Asheville, NC. From that beginning, PLI has grown to become the world's largest hotel keycard manufacturer and a leading specialty printer of plastic and paper products. The company is planning a $4,600,000 expansion on its South Asheville campus and has requested consideration for a performance based incentive grant under the City of Asheville Economic Development policy. The company will create 42 new jobs within three years, with an average wage of $12.50/hour and offers comprehensive benefits to its employees. The City of Asheville is considering offering a performance-based grant totaling $67,000.

The purpose of this investment is to allow PLI to expand its operations, and is projected to result in the creation of a substantial number of jobs that pay at or above the median average wage for Buncombe County.

PLI has requested consideration of a performance-based incentive grant under the City of Asheville Economic Development Incentive policy. The City proposes to offer PLI a performance-based grant not to exceed $67,000. The performance-based grant will be paid in increments over a five (5) year period. Payments begin after the investment is made, taxes are paid and verified, and the company requests payment. The amount of the annual payment will take into consideration the estimated annual ad valorem property tax revenue attributable to the capital improvements, and each annual payment is projected to equal 75% of said estimated revenue. Any amounts paid to PLI pursuant to the Agreement are subject to adjustment or recapture if the terms and conditions of the Agreement as to investment and job creation are not fulfilled.

The City will fund the payments from the general fund. The purpose of the proposed cash grant is to encourage PLI to proceed with its proposed expansion in the City of Asheville. The company conducted an extensive site search in several states and this grant meets the requirements of the "But For" test. Staff believes that the project will further the economic interests of the area served by the City in several ways, including, but not limited to: (a) creating a number of jobs having a wage at or above the median average wage for Buncombe County; (b) enhancing the City's tax base and the City's tax revenues; and (c) encouraging the retention and expansion of a major industrial operation in an existing facility.

The economic development incentive grant ties into City Council's Strategic Operating Plan as it addresses multiple focus areas of the Plan.

Pros:

- Performance driven grant that is distributed after job and investment is achieved;
- Supports job creation and capital investment in manufacturing in Asheville;
- Supports retention and expansion of existing industry in the City;
- Supports development of an identified economic cluster in the city; and,
- Supports regional and state cooperation in the project.

Con:

- Grant is formulated based on use of approximately 75% of the value of new incremental tax revenue for a five year period.

The project has a positive fiscal impact on tax revenues received by the City. Initially (during the grant period), the City will receive approximately 25% of the new incremental tax revenues from the project. After five years, the City will henceforth capture 100% of the new taxes.

City staff recommends Council approve the resolution authorizing an economic development incentive grant for Plasticard-Locktech International not to exceed $67,000 and also the corresponding budget amendment in the amount of $13,400 from property tax revenue for the estimated first year's installment of this economic development incentive grant.

Mayor Bellamy opened the public hearing at 5:50 p.m.

Rev. Christopher Chiaronmonte was opposed to City Council approving this grant since they are the world's largest hotel keycard manufacturer and they made a lot of profit.

Mr. Alan Ditmore saw no particular reason to focus an economic incentive grant to just one business.

Mr. Peter Krause, representing PLI, said that the expansion will invest over $4 million to expand the physical existing location and in the process they will be creating 46 new jobs. They have also recently acquired a 44,000 square foot additional building in the Sweeten Creek Industrial Park and that, in combination with the physical expansion, hopes recognize the commitment they have to the Asheville area. With that additional building, they are now anticipating adding 80 new jobs to the area. He hoped for City Council support.

Mayor Bellamy closed the public hearing at 5:58 p.m.

Mayor Bellamy spoke in support of their expansion in our community. They are paying salaries above minimum wage and was pleased to hear about their expansion.

Councilman Smith said that there is discussion about how we can better support smaller local industry.

Councilman Bothwell was pleased to see that PLI is doing well, but could not support this action. He felt if a business is committed to the community, they should not be asking for a grant from the City.

Mayor Bellamy said that members of Council have previously received copies of the resolution and budget amendment and they would not be read.

Councilman Davis moved for the adoption of Resolution No. 12-230. This motion was seconded by Councilman Smith and carried on a 6-1 vote, with Councilman Bothwell voting "no."

36

**RESOLUTION BOOK NO. 35– PAGE 111**

Councilman Hunt moved for the adoption of Ordinance No. 4126. This motion was seconded by Councilman Pelly and carried on a 6-1 vote with Councilman Bothwell voting "no."

**ORDINANCE BOOK NO. 27 - PAGE 473**

**B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE BILTMORE PARK TOWN CENTER SIGNAGE PLAN FOR OFFICE TENANT SIGNAGE AND RETAIL TENANT IDENTIFICATION SIGNS**

**ORDINANCE NO. 4127 - ORDINANCE AMENDING THE BILTMORE PARK TOWN CENTER SIGNAGE PLAN FOR OFFICE TENANT SIGNAGE**

Assistant Planning & Development Director Shannon Tuch said that this is the consideration of an ordinance amending the Biltmore Park Town Center signage plan. This public hearing was advertised on September 28 and October 5, 2012.

In July 2007, City Council approved a signage plan for the Biltmore Park Town Square (BPTS) urban village project. Comprehensive signage plans are allowed by ordinance to enable larger development sites to develop a custom plan for signage that addresses unique needs and contexts in a comprehensive and harmonious manner.

The signage plan option for BPTS plan was the City's first and most comprehensive. But as individual buildings have opened for business and more and more housing units and commercial/office space has become available, the signage needs at BPTS are becoming better understood, leading for proposals to modify the approved signage plan. In June 2009 an amendment was approved. A second amendment is now being requested affecting retail and office tenants. The BPTS development is nearly complete and almost fully leased and Biltmore Farms is requesting the amendment to the approved signage plan to allow for additional signage to assist in identification and leasing of their remaining office and commercial space.

A summary of both the original proposal and the subsequent amendment are offered below. More detailed information may be found in the complete reports which are included as an attachment to this report.

Original 2007 Signage Plan Request

- Project Identity (monument, wall mounted, gateway, rooftop)
- Tenant Identity (major tenant, minor tenant, wall or window mounted)
- Traffic Control (customized & enhanced traffic and street signs)
- Directional (vehicular, pedestrian, parking, valet)
- Residential & Office Identity
- Service

The most notable elements of the original request were, in part, the volume of signs proposed that comprised a very comprehensive and thoroughly assembled application. In addition, the amount and number of tenant identity signs including eight (8) "Major Tenant" identification signs (that can be as large as 200 s.f. each). This allowance is significantly more than what is normally permitted for the Urban Village or other more urban zoning designations and is more than what is allowed for most single tenant signs in other commercial districts (where they are typically limited to125 s.f.).

That proposal also included a request for a rooftop project sign and tenant identification signage on the back walls of the parking deck and movie theater adjacent to, and visible from, I-

26. Those last two requests were not approved as part of the original package; however, a 350 s.f. wall mounted project identity sign was approved to be located on the back side of the parking structure instead of the rooftop sign.

2009 Signage Plan Amendment

- A new 650 s.f. temporary banner advertising BPTS with the simple text message of "Apartments, Condos, Retail shops, Office Space". This banner remained up for over 1 year.
- Larger Project/Site Identity Sign – the 350 s.f. BPTS site identity sign on the back of the parking deck was replaced with a new 510 s.f. sign.
- Larger Monument sign – replaced two smaller 60 s.f. monument signs with a single new larger 188 s.f. sign that is 15 ½ feet tall, located at the entrance to the Park/Square.

All three of these requests were supported and approved.

2012 Signage Plan Amendment – current proposal

There are two separate amendments being proposed. The first amendment is related to the amount and size of signage for major office tenants; the second amendment revives the original request for tenant identification signage on the backside of the parking deck and movie theater, visible from I-26.

1) Office Signage

The current plan limits the amount of office signage to one, 125 square foot attached sign per building, with only two signs total for the entire development. The proposal is to allow up to three signs per building, each at 125 s.f., with no more than two signs per façade. The four office buildings included are 1 & 2 Town Square, and Buildings 2B & 7C.

*Considerations:* The limit on the number of signs per development was based on an estimate for the number of major office tenants. It is now apparent that there is a better market for major office tenants than had previously been recognized and the total number of signs should be increased appropriately. Additionally, these mixed use buildings are quite large and range in size from 60,000 square feet up to 75,000 square feet with the office space occupying approximately 75% of these buildings and the height and mass of the buildings can aesthetically support several larger signs. Lastly, the signs also help identify the location of these major office tenants for employees and especially visitors to the center.

2) Retail Tenant ID Signage

The original submittal in 2007 included a request for retail tenant identity signage on the back of the parking structure and movie theater visible from Interstate 26. This request was not supported by City Council in 2007; however, the applicant has supplied new information for the Council's consideration. The current request, identical to the 2007 request, is to allow up to four tenant identification signs on both the parking structure and the movie theater for a total of eight tenant identification signs. The letters for the sign text would be 4' tall and the signs would be internally illuminated. No maximum length for these signs is proposed.

*Considerations*: As a frame of reference, the letters on the BPTS sign are 7 ½ feet tall; the letters for the Hilton are 4 feet tall; and the letters for the Regal Cinema are 3 feet tall. Because the limiting factor for the sign is the size of the letter, the overall size of each tenant sign cannot be determined and will be based on the size of the letters, the number of letters in the name, and the space between each letter. This could result in signage that has an overall square footage greater than many of our standard tenant identification signs and when added together cumulatively, would be larger than most interstate billboards.

Analysis: Staff feels that the unique context and nature of this large urban project does warrant special consideration. There are no significant concerns for the office tenant signage which is located internally to the site, does not overwhelm the architecture with signage, and provides important identification and wayfinding. The request for the tenant identification signage is of concern given staff understanding of the purpose and intent of the Urban Village zoning and associated development standards. The stated purpose of the Urban Village Zoning is to create a mixed-use development that is economically strong but which is also pedestrian-oriented with innovative, high quality site design and architecture which contributes to, or enhances, Asheville's placemaking character. Accordingly, the approved signage plan was designed to primarily highlight and identify the Town Square as a "place", with very limited advertising for individual tenants (thus far limited to the hotel and the theater which have frontage along the interstate). If off-site visibility is to now be provided for retail tenants, the purpose of the signage would change from being identification to advertising. Supporting this request also has the potential for establishing a precedent that could open the door for similar requests.

Despite these concerns, the applicant's statement of need for this change presents important information regarding the evolving economics of the current market and this development type. Considering a sustainable economic model for a large mixed-use town center is very important; and therefore the larger part of the staff concern is centered on the magnitude of the request. We believe the request is somewhat excessive (both in size and number of signs requested) and perhaps more than what is necessary to afford relief.

Additionally, the proposed signs are very large and the requested locations appear visually awkward and not well integrated into the design of the very large Town Square identity sign, or other attached signage on the movie theater. Sign structures such are these are structurally very significant and, if approved, it would be reasonable to expect these (or similar signs for other retail tenants) to remain in place for a very long period of time and the opportunity to creatively address needs through a harmonious design will most likely have passed. For reference, the stated purpose of the signage plan is:

> *. . . . to permit creativity in sign design and placement to address site issues and constraints associated with topography, pedestrian-orientation, way-finding and other conditions unique to the subject development.*

This proposal does not appear to uphold the stated purpose of the sign plan in that it does not provide a creative solution that addresses pedestrian-orientation or wayfinding. The underlying purpose of the signage is to provide recognition and advertising for the retail tenants located in the town square development for those driving on Interstate 26.

This proposal most closely supports the goal of *sustainability* through improved identity and advertisement opportunities that would support the economic viability of the overall project.

Pros:

- Addresses a specific economic need for a very large private investment
- Provides enhanced retail tenant identification from interstate to the motoring public
- Provides improved identification and wayfinding of key office tenants to visitors

Cons:

- Proposed number of tenant identification signs may be in excess of what is needed to achieve the purpose of store recognition
- Size of tenant identification sign appears out of scale with structures and other signs
- Signs are long-lasting and reduces opportunity for more creative solutions in the future
- May establish a concerning precedent

No direct fiscal impact to the City. There is the potential that improved or increased signage will contribute to the sale and leasing of available space along with improved identity, providing a positive fiscal impact through new property and sales tax.

Staff recommends: (1) Approval of the office tenant signs, and (2) Denial of the tenant identification signs, as proposed.

Should Council members have interest in supporting a revised plan for tenant identification signs along the interstate, staff would recommend that the applicant be provided feedback on recommended changes and return with a revised sign concept at a later date.

Mayor Bellamy opened the public hearing at 6:15 p.m.

Mr. Paul Szurek, CEO of Biltmore Farms, said that this amendment is about identification, not advertising. For the office tenant ID signs, (1) the signs on each façade would contribute to the urban grain and aesthetic appeal of the Biltmore Park Town Center; (2) help customers and visitors find these major destinations and minimize traffic confusion and congestion; and (3) these office ID signs will help promote economic development in Asheville. The goal of the major tenant interstate-facing identity signs is to ensure that passersby on Interstate 26 are aware of the quality retail nature of the Biltmore Park Town Square. He explained the very important reasons for this amendment, those being sustainability, the retail tenant needs, fairness and the City's tax base.

Mayor Bellamy closed the public hearing at 6:22 p.m.

In response to Councilman Hunt, Ms. Tuch said there are existing billboards in the vicinity along I-26 in both directions and an option would be for them to advertise the entire center.

Councilman Bothwell moved to approve the Office tenant signs, 125 square feet each, no more than three per building and no more than two per façade. Office tenant signs shall be limited to only those buildings supporting the office uses and buildings shall be a minimum of 60,000 s.f. in overall size and contain a minimum of three stories. This motion was seconded by Councilman Pelly and carried unanimously.

**ORDINANCE BOOK NO. 27 – PAGE 475**

In response to Councilman Smith, Mr. Szurek said that the retail space is approximately 75% occupied. The more visible components – office and apartments – are both more than 97% leased. If Council approved the retail tenant ID signage, he believed we would get the retail space to 92-95% occupied.

Ms. Tuch responded to Mayor Bellamy regarding multi-tenant signage. She noted there is a free standing multi-tenant sign as you enter Biltmore Park Town Square close to Long Shoals Road.

Councilman Davis said that the City has partnered with Biltmore Park from the start of this project and would like to see this succeed. He understood that every customer that comes in to visit a large business is a potential customer for each of the local and regional retailers. However, he wondered if Mr. Szurek would be willing to have a 5-year amortization period of the signs and if during those five years the retail occupancy rises, that the signs would sunset.

Mr. Szurek felt they would not be able to attract retailers if the signage goes away after they hit a target occupancy rate. He said the consumer needs to associate the availability of certain products and services with an actual physical location. He felt that if we make an urban village model work and support the parking decks, they need to have that identification signage

as long as we have an urban village at that location. He provided Council with some pictures of what the retail ID signage might look like on the buildings facing the interstate.

Councilman Hunt felt we have too much signage overall in the City now and would like to see tighter control. He was very appreciative of Biltmore Park's commitment to the urban village concept. He wondered if the developer and staff could find a balanced approach with some adjustment to the 510 sq ft sign to allow for the retail id signage.

Councilman Smith moved to direct City staff to work with the developer to show an accurate representation of the exterior retail ID signage for the Biltmore Park Town Square which could support the success of the retail occupancy and bring that back to City Council for review. This motion was seconded by Councilman Davis.

When Mayor Bellamy questioned if this would need to come back to Council for approval if the developer and staff come to an agreeable plan, Assistant City Attorney McGlohon said that since this would be a variance, Council cannot delegate that approval to City staff.

Mr. Szurek said that the existing Regal and Hilton signs are consistent with the City's standards and that would be the quality of the retail tenant ID signage.

Councilman Hunt asked for a friendly amendment to the motion to allow the amendment be more substantive in terms of size of lettering related to the existing signage; however, after a brief discussion, he withdrew the amendment.

Planning & Development Director Judy Daniel clarified that Council's intent is that City staff work with the developer for a modification to their sign package that is more aesthetically representative of what Council intended with this project and yet supports their retail, including the ability to work on options for modifications as to how the signage is presented, size, coloring, etc.

The motion made by Councilman Smith and seconded by Councilman Davis carried on a 6-1 vote, with Councilman Bothwell voting "no".

When Mayor Bellamy asked when this matter would be back before Council, Mr. Szurek said they should be ready in approximately one month.

**Closed Session**

At 6:53 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The location of the property is 80-91 Riverside Drive. The statutory authorization is contained in G.S. 143-318.11 (a) (5); (2) To consider the qualifications, competence, performance, character, fitness, conditions of appointment, or initial employment of an individual prospective public officer or employee. The statutory authorization is contained in G.S. 143-318.11 (a) (3); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11 (a) (6); and (3) To prevent the disclosure of information that is privileged or confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The laws that make the information privileged or confidential are N.C. Gen. Stat. sec. 143-318.10 (e). The statutory authorization is contained in N.C. Gen. Stat. sec. 143-318.11 (a) (1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:26 p.m., Councilman Smith moved to recess the closed session to return to the formal meeting, noting that the closed session would continue at the end of the formal meeting. This motion was seconded by Councilman Bothwell and carried unanimously.

**C. CONTINUANCE OF PUBLIC HEARING TO CONSIDER A MUNICIPAL SERVICE DISTRICT FOR DOWNTOWN ASHEVILLE**

**RESOLUTION NO. 12-231 - RESOLUTION CREATING A DOWNTOWN MUNICIPAL SERVICE DISTRICT, ALSO KNOWN AS A BUSINESS IMPROVEMENT DISTRICT, IN DOWNTOWN ASHEVILLE**

Project Manager for the Asheville Downtown Master Plan Sasha Vrtunski said that this is the consideration of a resolution creating a downtown Municipal Service District, also known as a Business Improvement District (BID), in downtown Asheville. This public hearing was opened on June 12, 2012, continued to September 25, 2012, and then continued to October 9, 2012.

She provided Council with the following staff report:

"The Interim Board for the Downtown Asheville Business Improvement District is bringing forward a proposal for a district after spending over two years working on the proposal as recommended in the Downtown Master Plan, and more recently, preparing responses to the issues outlined by City Council on June 12.

The Downtown Master Plan recommended that Asheville explore a business improvement district to help manage and coordinate the public realm in downtown. A Subcommittee to explore a Downtown Management entity began meeting in December, 2009 several months after Council adoption of the Master Plan. A large forum was held June 2, 2011 and a series of smaller meetings were held during the fall of that year. As firm ideas for a proposal began to take shape, an "Interim Board" was formed in January 2012 to continue moving the idea forward. After further work and honing ideas, another series of meetings were held in Spring, 2012 to discuss with interested stakeholders the draft of a proposal that would be presented to City Council. That proposal was for a District that would provide "clean", "safe", "advocacy", and coordination services.

On June 12, City Council held a public hearing on the proposal for a business improvement district. The proposal at that time was for a 7 cent rate (per $100 value), with boundaries to be the same as the Central Business District (CBD). The proposal was for "Clean and Safe" services to be provided by a sub-contractor, and coordination and advocacy services to be performed by the District staff. After hearing substantial public input, City Council members raised issues and questions they felt needed to be answered before they could reach a decision. The public hearing was continued to September 25, 2012. On September 25, 2012, the public hearing was then continued to October 9, 2012.

Following the June 12 public hearing, staff worked with the Interim Board to develop a 90 day Action Plan. In their review of the Council questions and concerns, the Interim Board split into three subcommittees: Budget; Bylaws; and Board structure. On July 17 a public forum was held to get input on the specific issues that Council had raised: Ambassadors (general assistance/safety personnel), general BID Services, Board Composition, and the Board Selection Process.

A list of public meetings held:

| Date | Event | Location |
|---|---|---|
| June 2, 2011 | Public Forum/ Panel Discussion | U.S. Cellular Center |
| October 27, 2011 | Presentation and discussion | Olive or Twist |

42

| | | |
|---|---|---|
| November 1, 2011 | Presentation and discussion | NC Stage Co. |
| November 9, 2011 | Presentation and discussion | Lexington Ave. Brewery |
| November 10, 2011 | Presentation and discussion | City Bakery |
| November 14, 2011 | Presentation and discussion | 60 N. Market |
| November 29, 2011 | Presentation and discussion | Grove Arcade |
| January 2012 | Interim Board Formed | |
| March 15, 2012 | Presentation and discussion | Pack Place Board Room |
| March 20, 2012 | Presentation and discussion | Pack Place Board Room |
| March 21, 2012 | Presentation and discussion | Lord Auditorium, Pack Library |
| March 22, 2012 | Presentation and discussion | Grove Arcade |
| June 12, 2012 | City Council Public Hearing | City Hall |
| July 17, 2012 | Public Forum | U.S. Cellular Center |

The Interim Board took that feedback, did additional research, and formulated a revised proposal outlined in their report to City Council. The following address these items:

*Boundaries:* A question was raised about the boundaries of the proposed District at the June 12 public hearing. Specifically, Council mentioned the area east of Charlotte Street, as this area currently is predominantly a more suburban form of building without retail feel or potential as found in the rest of the CBD. The Interim Board now proposes to pull the district back to the west side of Charlotte Street. The Interim Board also spent time in June and July looking at another version of a smaller core district, but the majority of the board felt strongly that the larger district was more viable and services could help propel the other areas in revitalization.

*Budget:* City Council expressed a desire to have more detail concerning the budget for the BID. In response, the Interim Board has provided more budget detail in the report. On Page 11 of the Report, the year 1 budget totals $537,825 and the year 2 budget, with safety ambassadors included, totals $705,894. The Interim Board "believes the objectives of the proposed BID can be met with a tax rate increase between 5 and 7 cents per $100, depending on local government participation."

*Services and Ambassador Program:* There were many concerns raised at the June 12 public hearing about the safety ambassador section of the improvement district proposal. Two of the potential service providers were made aware of these concerns and responded that they work successfully in communities similar to Asheville (Boulder, Berkeley) where there were also initial concerns. In addition, the Interim Board asked these contractors for estimates for their services without the safety ambassador aspect of the program. As the concern in Asheville is substantial and this service is a substantial expense, the Interim Board decided to delay proposing implementation of a safety ambassador program until it can be more closely examined by an Advisory Committee made up of a larger constituency. The Interim Board is providing information on two scenarios: one with safety ambassador services in year 2 & 3, and one with clean and green services only for years 1-3. The decision would be made by the new, permanent board on which of these scenarios to recommend, although ultimately City Council agreement would be needed on the services to be provided.

*Board Composition:* City Council expressed concerns about the Board composition as proposed in June. Comments included ideas about opening it up, and possibly including a social service agency or homeless agency representative on the Board. The Interim Board looked closely at the Board composition issue and decided to add at-large seats and to make previously non-voting seats, voting seats. This proposed composition is similar to other larger cities' boards, and builds on what was proposed in June 2012 by having slotted seats for different types of property and business owners and residents.

The Interim Board decided that the Advisory Committees were the best way to address Council's remaining concerns. These committees will give input to the Board from all types of stakeholders, including homeless advocates, social service agencies, and citizens who have a passion about downtown, but may not necessarily own a business or property downtown.

*Board Selection:* The Interim Board considered several methods for selecting the Board: election through a balloting process; Board election process, and Council appointment process. The Interim Board felt strongly that the best process would be a Board election process. This is similar to many mid-size and larger cities. It is viewed that the slotted seats (major property owner, small property owner, retail store, etc) are the mechanism to give the Board the necessary diversity while maintaining a majority of property owners.

The Interim Board is, however, asking that City Council approve the slate for the first board. There are a few members of the Interim Board interested in continuing, but a number of them are concluding their service. The Interim Board recommends that a nominating committee be formed, including non-Interim Board members and a City Council member. This committee would accept nominations from qualified downtown stakeholders and bring a slate to City Council for approval.

*Bylaws:* City Council was interested in having a draft set of bylaws put forward. Several attorneys on the Interim Board used some other cities as models, and have drafted a set of bylaws, included in the Appendix. The bylaws reflect the decisions made regarding board composition and selection process outlined above.

*City Oversight:* In June, 2012, there were some Council concerns expressed in regards to City Council oversight of the BID. The Business Improvement District would be different than other boards in that the City Council will have annual approval of the budget and will set the tax rate. Because tax monies are being used, there would be a contract between the City and the BID that clearly outlines the services to be provided, and the duties and responsibilities of the Board and District. This contract could be approved annually along with the budget. In some cities this is done automatically to keep the contract in force – but both parties review the contract to ensure compliance. The Interim Board has proposed a yearly independent audit and an quarterly report to City Council or to one of the Council committees.

These topics and how they have been modified are summarized below:

| **Topic** | **Original Proposal** | **Revised Proposal** |
|---|---|---|
| Boundaries | Entire CBD | CBD west of Charlotte Street |
| Budget | $ 750,000 - $800,000 | $537,825, year 1; $705,894 with safety if added in year 2.<br>-reductions primarily via cuts to overhead cost estimates |
| Ambassador Service | Starting year 1 | Starting year 2 or 4 |
| Board Composition | Seats for Major Stakeholders, some non-voting seats | At large seats added; all seats vote. Advisory committees to advise Board |
| Board Selection | Board –Elected Membership | First Board approved by City Council, then Board elected via nominations for stakeholder seats. |
| Bylaws | Not written | Bylaws proposed reflecting proposals for Board composition and selection process |
| | | |

| | | |
|---|---|---|
| City Oversight | Contract between BID and City Council renewed annually; yearly independent audit and quarterly report to City Council. | Same. City Council Board member (or appointee) now a voting seat. |

As proposed, the BID service objectives would require a tax rate increase within the district in a range between 5 and 7 cents per hundred. The revenue plan as proposed would also require city general fund allocations per year between $46,063 and $64,488. Likewise, county participation is expected in the range of $118,932 and $166,505.

The Interim Board asks "that City Council approve the district immediately so we (Interim Board) can begin the work on a final bid and contract." A resolution establishing the district boundaries and services is attached. In addition to establishing the district as proposed, the resolution communicates Council's intent to levy an additional tax on property within the district, in an amount to be determined and included in the City's annual budget, beginning in Fiscal Year 2013-14."

Mayor Bellamy said that this public hearing was opened on June 12, 2012, and continued until this date. She then continued the public hearing at 7:34 p.m.

Mr. Peter Alberice, Co-Chair of the Interim Board (downtown resident and property owner), then reviewed a PowerPoint presentation while providing Council with a detailed overview of the Interim Board's work and their proposal. Since the June 12, 2012, City Council meeting, the Interim Board worked on another public meeting; boundaries; services/ ambassadors; budget based on RFIs; by-laws; board composition and representation; board selection process; advisory committees; and city oversight and agreements. He asked for Council's support to approve the resolution allowing the formation of the BID Tax District. City Council will still retain authority to approve the Board of Directors, approve the by-laws, approve the Tax Assessment Rate, and approve the annual budget. There will also be a 3-year sunset clause. If Council does approve the BID formation, the next phase will include (1) approve a permanent Board no later than December 15, 2012; (2) direct the Board to work with City staff on an RFQ for services to be released in winter, 2013; (3) direct the Board to submit a proposed budget and services plan no later than May 2, 2013; (4) Board members and staff will draft a contract outlining the relationship, duties and responsibilities of the City and the BID; and (5) City Council has review and approval of the BID budget and tax rate, which would be set during the 2013-14 budget process. He asked for Council's support and affirmative vote for the downtown BID.

The following individuals spoke in support of the downtown BID for several reasons, some being, but are not limited to: BID's exist in over 1,000 cities nationwide and we can learn from these cities; we have leaders in our community that can lead this non-profit board to make some creative changes; a BID will help create smaller businesses to grow; the BID will improve services downtown; the City can't meet some of the burden on infrastructure from visitors and residents; the BID Report has been worked on for 3 years; there are many, many benefits of a downtown BID; the BID Report is the result of thousands of hours of work by dedicated citizen volunteers who love downtown; the money for the BID will be for the entire downtown; the permanent board can work with non-profits and governmental agencies to see if they would be willing to help participate with a payment in lieu of taxes to assist with this effort; streets and sidewalks are not offensive to tourists and these are basic City services; we can't attract more businesses to a decaying downtown; and BID is the best way to protect the health and welfare of downtown:

Ms. Franzi Charen, Director of the Asheville Grown Business Alliance and member of the Interim Board

Ms. Rebecca Hecht, representing two small downtown businesses

Ms. Kim MacQueen, Co-Chair of the Interim Board (resident and property owner downtown)
Ms. Pam Weinkler, Secretary of DARN (resident and property owner downtown)
Mr. Larry Holt, property owner and downtown resident
Mr. John McKibbon, owner of Aloft Hotel
Mr. Adrian Vassallo, President of the Asheville Downtown Association
Ms. Susan Griffin, member of the Interim Board
Ms. Sally Cannon, downtown resident and former business owner
Mr. David Nutter, resident of Montford Area and former Director of the Denver, Colorado, BID at the time of it's formation and initial expansion

The following individuals spoke in opposition of the downtown BID for several reasons, some being, but are not limited to: BID Board does not represent small business owners; small businesses have struggled downtown during the recession and don't need additional taxes; it's not fair to place a 7-cent tax on small businesses in this economy; the BID report has changed so many times, small businesses have not had the opportunity to review it again and should be allowed to have input; don't let the BID hire a private security firm; it's not fair that one resident inside the BID district has to pay a fee and one resident in the block outside the BID district does not; suggestion to charge a small amount to everyone in the City to generate enough money to take care of the BID budget; no one is against making downtown a beautiful safer city, but issue is how it's to be funded; property values for residential units are much higher than commercial units; most small businesses and residents already take care of their property by removing snow, removing graffiti, keeping the lots clean, etc.; Asheville is unique by not being able to charge differential rates for water and our daytime population is twice that of our taxpaying population so our residents are already paying more; the large number of medical and non-profit agencies don't pay taxes so you have a small number of people in downtown paying more than their fair share of taxes already; the BID report shows that the average BID rate in the state is 15% so as time goes on there is the possibility of the 7-cent tax being increased; downtown residents should not be taxed as this is a "business" improvement district; adding this tax on small businesses downtown will make them raise their prices which will be a disaster to the homeless; is there no longer any City or County participation; small businesses are already taxed to the hilt; 58% of the people owning the property value will have to pay this tax because 42% are tax exempt and non-profit organizations that will not participate; what is the return on investment since property values are already starting to rise; opposed to putting taxpayer money in the hands of private individuals; has not seen a survey of the 300 small businesses downtown to ask if they want this tax; how is the success of the BID going to be measured; property owners will have to pass the tax increase down to their tenants; suggest a referendum so residents can vote for or against the BID; and suggestion that the money be given to Asheville Greenworks as they have done a wonderful job downtown:

Mr. Chris Peterson, downtown small business owner
Rev. Christopher Chiaronmonte
Mr. Ray Connaway, downtown resident
Mr. Colgate Darden, downtown resident
Ms. Leslee Kulba
Mr. James Challen, downtown resident
"Rage", homeless person
Mr. Alan Ditmore
Mr. Tom Flora, business and property owner downtown
Ms. Renee Owen
Ms. Christina Jiles, homeless person
Mr. Hunt Mallet, downtown business property owner and resident
Mr. Andrew Craig, small business and property owner downtown
Mr. Russell Thomas, co-owner of the Flat Iron Building
Mr. Bill McElvy, downtown business and building owner and representative of Patton Wall Condominium Association

46

At 8:39 p.m., Mayor Bellamy closed the public hearing.

Mayor Bellamy said that members of Council have previously received a copy of the resolution and it would not be read.

On behalf of City Council, Mayor Bellamy thanked the Interim Board for their work on this project over the last three years. We know that the work was a labor of love and without you we would not have a lot of the things downtown, including the cleanliness of Pritchard Park, Downtown After Five, Oktoberfest, etc. And, she also thanked Project Manager Sasha Vrtunski for her leadership as well.

Councilman Bothwell felt that whether one favors the BID or not, this is a bad time to implement a new downtown tax. The County will be doing a revaluation and we don't know how that will affect the City. We have also been dealing with the struggles outlined in the City Manager's White Paper a few years ago. Restrictions on water rates and restrictions on growth of the City are causing serious revenue problems for the City. If the City has to raise taxes for the major city-wide projects, downtown residents and property owners will be very upset. Other reasons we should reject the BID is that Asheville is not dangerous or dirty. Crime statistics show that Asheville is safer than other cities our size in the state. A street sweeper would be nice, but that is a huge capital investment that the BID does not address. The BID proponents not only want to raise taxes on their downtown neighbors, they want to get money from general revenues from the City and County and the Fire Districts across the County. And, it is wrong to give tax money to an unelected board, as seen by the Pack Square Conservancy and the Grove Arcade Public Market Foundation.

Vice-Mayor Manheimer made it clear of what Council is considering – the results of a grassroots effort (a body of downtown folks who wanted to propose a BID and brought the proposal before Council). At this meeting, City Council is being asked to adopt a resolution that designates the geographic boundary of a BID, designates the potential services a BID could provide, roughly states how the permanent board would be made up, and states the intention that this BID be funded through, among other things, a property tax. The resolution doesn't ask for the tax to be implemented at this time. The resolution is to implement the shell of something that will later have to be funded. The proposal is a 7-cent property tax increase on the City property taxes. An example would be if you have a $500,000 property that would be $350 a year.

Vice-Mayor Manheimer moved to adopt the resolution creating a downtown Municipal Service District, also known as a Business Improvement District, in downtown Asheville, with the following amendments: (1) addition of two services that could be provided: recycling and sidewalk repair over and above what is already provided downtown; (2) if the resolution passes, it would authorize the City to enter into contract negotiations with the entity that is formed (Asheville Downtown Incorporated) and the contract would have to include the list of services to be provided and also in that process you would have to figure out the exact cost of those services; (3) because the resolution states "that a permanent board of directors for the municipal service district be appointed not later than December 15, 2012," it doesn't state how the initial permanent board of directors would come into being and therefore, she suggested we create a nominating committee of two Council members and three Interim Board members and the five of those appoint two additional people to bring a recommended slate of initial permanent board members to City Council (prior to December 15, 2012); and (4) If the resolution is adopted and a contract were to be negotiated, she would include in her motion that in order for that contract to be amended in the future that City Council would have to vote on that and that the by-laws of the entity (Asheville Downtown Incorporated) be attached to the contract and that if the by-laws are amended that would also have to be approved by City Council. The by-laws will include the board make-up within its text.

Assistant City Attorney McGlohon said that the only issue she sees, as it pertains to the resolution, is that the law says that "the resolution defining a service district shall take effect at the beginning of a fiscal year, commencing after its passage." She did not think it would have an impact on the ability of the permanent board to be appointed not later than December 15, 2012.

Vice-Mayor Manheimer said that what is included in the resolution is that Council is not funding the district yet and it's not the intention to consider the funding until our normal fiscal cycle, which would put it in place effective July 1, 2013.

The motion made by Vice-Mayor Manheimer was seconded by Councilman Pelly.

Councilman Hunt asked for a friendly amendment that would specify that City Council would appoint no less than 1/3 of the permanent board members after the initial Board members terms have expired. Vice-Mayor Manheimer accepted the friendly amendment in that the permanent board make-up after the initial board will be included in the by-laws which can be further vetted through the City Council Boards & Commissions Committee. Councilman Pelly also accepted the friendly amendment.

Mayor Bellamy could not support establishing a BID at this time. If it is going to be considered, it should be considered with the budget process. Council's Strategic Operating Plan over the last 4 years doesn't address all of the needs brought forward. We have made major investments in our top priorities, i.e. Eagle-Market Streets Redevelopment, riverfront redevelopment, sustainability efforts, transit system, etc. We have not put in a comprehensive look at our Downtown Master Plan. We have not put in the resources to see it fully implemented. She believed that when it comes to streets and sidewalks, City staff will do a great job opposed to contracting with another group. She challenged the City Manager's Office to work on a budget to address these issues. Staff pulls together resources for City Council top priority items. She felt that we have done the downtown a disservice by not having it as a true priority. Thinking holistically, we don't know what is going to happen to our water system (how it will impact our budget), we don't know the bottom line of the RADTIP, we don't know how the County's revaluation will impact our taxes, etc. In addition, she could not support an independent board. The City has paid off two parking decks in downtown Asheville and paid off the debt service on Pack Place in downtown Asheville. That alone should help us find some revenue to help with downtown services. Downtown is a major driver of our property tax for the entire City. We need to give some of that money back for clean, green and safe. She was given a list of places to call regarding their BIDS and talked to the mayors of those cities. She said most of the BIDs were created to help spur redevelopment – ours is clean, green and safe. The other major issue they have used the BID for is for safety and enhanced services. If the Ambassador program is off the table, then the only reason for the BID is clean and green. She believed we should challenge our staff to look at our priorities and make the downtown a priority for a cleaner, greener and safer above the services we currently provide. She felt those services are a basic City service and it's our responsibility.

Councilman Smith agreed that we have some big challenges over the next year's budget, including salaries, affordable housing, transportation efforts, infrastructure needs, the riverfront redevelopment, downtown, and not knowing the budget projections. He was not sold on the need for the ambassador program, but neglecting downtown is not an option. When an area generates 75% of the sale tax for the County then we have to do what it takes to make sure that we are valuing it. As to return on investments, he will look forward to seeing what those measurements would be. He would look to see if it would increase sales tax revenues, graffiti reduced, and recycling and trash pick-up improved. He felt Council should legitimize the BID board for them to move forward and do more preparatory work in order for this Council to make wise budget decisions next year. He asked for a menu of options for an array of possible revenues. Until we see what we are working with, he was not comfortable with committing to any tax increase.

Councilman Pelly said it is never easy to consider a proposal to increase taxes, especially for a select group. Regarding putting public dollars in private hands, the amendment was that at least 1/3 of the permanent board members would be approved by City Council. And, City Council will be approving the tax rate for the BID. It's important to note that there is a 3 year sunset clause that if this is not working, the BID will go away unless it's renewed. He too was interested in how do we measure success with the BID. He would look for the BID Board to provide a matrix at the end of each year to see how that is happening. He said the clean, green downtown will benefit not only businesses, but residents. If the resolution passes we will be creating the skeleton for the BID and the tax rate will be determined at a later date. For those who are opposed to the BID, and if it passes, he encouraged their participation to help define the way the BID moves forward.

Councilman Davis said that 28 years ago he invested in downtown. City Council did authorize the Downtown Master Plan and the BID is a part of the Master Plan. We owe it to the people who worked hard to get this to this point, he would be willing to make that commitment for three years.

The amended motion made by Vice-Mayor Manheimer and seconded by Councilman Pelly carried on a 5-2 vote, with Mayor Bellamy and Councilman Bothwell voting "no."

Vice-Mayor Manheimer moved to appoint Councilman Davis and Councilman Hunt to the nominating committee for appointments to the initial Board. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 25 – PAGE 112**

**V. UNFINISHED BUSINESS:**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 12-232 - RESOLUTION APPOINTING MEMBERS TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Homeless Initiative Advisory Committee.

The terms of Richard Letterman and Celeste Collins expire on November 1, 2012. In addition, Chris Sullivan has resigned, thus leaving an unexpired term until November 1, 2014.

The following individuals have applied for a vacancy: Debbie Metcalf, Timothy Sadler, Charles Rosenblum, John Spears, Charles Barber, Shana Roberts and Cynthia J. Sellers.

It was the consensus of the Boards & Commissions Committee, at the suggestion of the Homeless Initiative Advisory Committee, to reappoint Mr. Letterman and Ms. Collins and appoint Mr. Charles Rosenblum.

Councilman Bothwell moved to reappoint Richard Letterman and Celeste Collins to each serve an additional three-year term, terms to expire November 1, 2015, or until their successors have been appointed. This motion was seconded by Councilman Davis and carried unanimously.

Because Mayor Bellamy felt there should be more diversity on this Committee, it was the consensus of Council to arrange interviews for Charles Barber and Charles Rosenblum. If the City Clerk could not reach Mr. Barber for an interview, it was then the consensus of Council to re-advertise for the vacancy.

**RESOLUTION BOOK NO. 35 – PAGE 115**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Rev. Christopher Chiaronmonte spoke about the homeless issue in Asheville.

In response to Ms. Shirley Dozier, who asked that the City to close on the property (Tract 3) that the City sold to them in 1997, Mayor Bellamy said that the City Attorney's Office would investigate and respond to her request.

Mayor Bellamy thanked City Manager Jackson for the City's assistance when Vice-President Biden spoke in Asheville, during the Democratic National Convention held in Charlotte, and their upcoming assistance with Governor Romney's visit to Asheville.

**Closed Session**

At 9:25 p.m., (end of the formal meeting), it was the consensus of Council to go back into closed session.

At 9:31 pm., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Hunt and carried unanimously.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 9:31 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

50

Tuesday – October 23, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Vice-Mayor Manheimer gave the invocation.

**I. PROCLAMATIONS:**

**A. PROCLAMATION PROCLAIMING OCTOBER 24, 2012, AS "FOOD DAY"**

Councilman Smith read the proclamation proclaiming October 24, 2012, as "Food Day" in the City of Asheville and briefed Council on some activities taking place during the day.

Mayor Bellamy thanked Councilman Smith, the Asheville-Buncombe Food Policy Council, and the other various community partners for their participation and leadership for locally grown food.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 9, 2012**

**B. RESOLUTION NO. 12-233 - RESOLUTION ENDORSING THE BUNCOMBE COUNTY GREENWAYS AND TRAILS MASTER PLAN**

Summary: Buncombe County has recently completed a Greenways and Trails Master Plan Update. Buncombe County Parks, Greenways and Recreation Services worked with a representative of the City of Asheville throughout the planning process. The planners conducting the study received a considerable amount of input from interested citizens of the City of Asheville through an online survey and public meetings. The plan proposes several corridors within the city limits of Asheville that will connect the city neighboring towns and points of interest. A countywide system of connected trails and greenways will provide recreational opportunities; increase health benefits by the provision of access to more physical activity opportunities; increase traffic safety with bike and pedestrian infrastructure; and increase economic prosperity for the City of Asheville through increased jobs, increased housing values and increased tourism and local spending by travelers of a greenway. City Council is of the opinion that it is in the best interests of the citizens and residents of the City to support this plan that proposes countywide greenways with connected trails. That the City Council hereby expresses its endorsement of the Buncombe County Greenways and Trails Master Plan.

**RESOLUTION BOOK NO. 35 – PAGE 116**

**C. ORDINANCE NO. 4124 - SECOND AND FINAL READING OF AN ORDINANCE AMENDING TO THE FRANCHISE AGREEMENT WITH THE EDUCATION RESEARCH CONSORTIUM**

**ORDINANCE BOOK NO. 28 – PAGE 1**

**D. RESOLUTION NO. 12-234 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH BROWN AND CALDWELL FOR THE WATER RESOURCES ASSET MANAGEMENT PLAN UPDATE**

Summary: The consideration of a resolution authorizing the City Manager to execute a change order with Brown and Caldwell in the amount of $69,969 to increase the professional services contract for the Water Resources Asset Management Plan Update from $99,880 to $169,849.

On September 27, 2011, City Council awarded a professional services contract to Brown and Caldwell for the Water Resources Asset Management Plan Update. Since completion of the $40 million revenue bond projects and numerous other capital improvement projects, an update to the RPM and Asset Management Plan was needed to update the asset inventory, R&R schedule, and capital project plan. A change order is needed to incorporate data from Munis and the SCADA Historian in order to access water consumption, water production and water revenue data to develop the priority Asset Information Management System (AIMS) dashboard reports. When the City transitioned from H.T.E. to Munis, the links to the data were broken and Brown and Caldwell needs to reestablish those links in order to access the data needed for the Asset Management Plan Update.

The total additional fee for this change order is $69,969, which will bring the total contract amount to $169,849.

This project is part of City Council's strategic plan to maintain city infrastructure and to operate the City of Asheville to the highest levels of fiscal responsibility.

Pro:

- Approval of the change order will allow Brown and Caldwell to incorporate Munis and SCADA Historian data into the AIMS, thereby creating easier access to customer, work order, and financial information.

Con:

- None.

The amount needed for this change order is currently available in the Water Resources Operations Fund.

City staff recommends City Council approval of the resolution authorizing the City Manager to execute a change order with Brown and Caldwell in the amount of $69,969 to increase the professional services contract for the Water Resources Asset Management Plan Update from $99,880 to $169,849.

**RESOLUTION NO. 35 – PAGE 117**

**E. ORDINANCE NO. 4128 - BUDGET AMENDMENT TO PURCHASE TWO BUSES FROM THE CITY OF GASTONIA**

52

Summary: The consideration of a budget amendment in the amount of $44,074 from Transit Capital Reserves to purchase two 2004 35-foot Gillig buses from the City of Gastonia.

The City of Gastonia Transit Division no longer needs the subject buses, and they removed them from service on July 5, 2011. They were replaced with buses funded by ARRA funds. The City of Asheville has the opportunity to purchase both buses at a cost of $9,537 each (the buses originally cost $286,098 each) or a total of $19,074.

Once the buses are received, they will need some minor work before placing them into service. The work includes painting/striping on the outside, camera review equipment, radio system, and storage considerations. The estimated cost for this work for both buses is $25,000. Therefore, the total cost to purchase the two buses and prepare them service will be $44,074.

The current bus fleet includes 30-foot buses and there could be some challenges with larger buses on some of the routes due to narrow street widths and vertical grades. This purchase would give staff the opportunity to thoroughly test a larger bus on the various routes and it would provide good information and guidance to staff for future decisions regarding the size of the bus fleet. It is becoming more and more difficult to purchase smaller buses because many transit systems are using larger buses.

This action complies with the current City Council's Strategic Operating Plan in the fiscal responsibility focus area by operating the City of Asheville to the highest levels of fiscal responsibility.

This item has been reviewed and endorsed by the Transit Commission at a called meeting on October 10, 2012.

Pros:

- The acquisition of 35-foot buses will allow staff to test a bigger bus to serve the ART system without incurring the cost of buying new ones including identifying federal and state funding sources and following a procurement process.
- The buses will be placed in areas with high ridership and will provide a more comfortable customer experience.

Con:

- The purchase of the buses was not contemplated in the FY 2012-13 budget, therefore funding will have to be taken from Transit Capital Reserves.

There is currently $57,000 available in Transit Capital Reserves that has accumulated from projects that came in under budget. Staff is recommending that Council appropriate $44,074 from the reserves to cover the cost of the purchase and outfitting of the two buses. After this appropriation, there will be approximately $13,000 available for future allocation.

Staff recommends that City Council approve a budget amendment in the amount of $44,074 from Transit Capital Reserves to purchase two 2004 35-foot Gillig buses from the City of Gastonia.

**ORDINANCE BOOK NO. 28 – PAGE 6**

**F. ORDINANCE NO. 4129 - BUDGET AMENDMENT FOR THE ACQUISITION OF REAL PROPERTY AS NEEDED**

Summary: The consideration of a budget amendment in the amount of $825,000 from Parking Services Fund reserves for the acquisition of real property as needed.

This budget amendment establishes a budget within the Parking Services Fund for the purchase of real property as needed for parking services for the City of Asheville. Real estate acquisition during a period of favorable market conditions will benefit the City by maximizing the value of the purchase price paid.

For budgeting purposes, a total estimated project budget has been set at $825,000 to include cost of acquisition, survey, and legal fees.

This action complies with the City Council Strategic Operating Plan by demonstrating fiscal responsibility through maximizing the value of real property assets.

Pro:

- Current real estate market has allowed for opportunities to purchase real property at favorable purchase prices

Con:

- Requires an appropriation from the Parking Services fund balance

Funds will be appropriated from the Parking Services Fund's reserves. Based on current estimates, the Parking Services Fund has $1.16 million in reserves. The City's financial policy requires the fund to maintain 8% of its operating budget in reserves, or about $182,000. This budget amendment will reduce reserves to approximately $335,000, or 14.8% of the operating budget.

City staff requests City Council adopt a budget amendment of $825,000 for the acquisition real property related to parking.

**ORDINANCE BOOK NO. 28 – PAGE 8**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Davis and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. ASHEVILLE SISTER CITIES UPDATE

Mr. Russ Martin, Vice-President of Asheville Sister Cities, was pleased to update City Council on the activities of Asheville Sister Cities.

Ms. Karon Korp, Chair of the Valladolid Committee of Asheville Sister Cities, stated that Asheville has 6 Sister Cities – Vladikavkaz, Russia; San Cristobal de las Casas, Mexico; Sumur, France; Karpenisi, Greece; Valladolid, Mexico; and Osogbo, Nigeria. She then updated City Council on their recent projects and activities. The programs, projects and partnerships of Asheville Sister Cities have a direct economic impact on western North Carolina. Through the dedication of this vibrant volunteer organization, Asheville reaches around the world, and brings it home, making a difference in so many lives. Their mission is to promote peace, understanding, cooperation and sustainable partnerships through formalized agreements between international cities and the City of Asheville, North Carolina. She thanked City Council for their support and provided them with a packet of information regarding Asheville Sister Cities.

Ms. Valeria Watson-Doost was pleased to talk about their project in Osogbo, Nigeria, and presented Mayor Bellamy with a flag, plaque and a painting from one of their local artists from the Osogbo Sister Cities Association. She also presented the Mayor with a certificate from the President of Valladolid, Mexico.

On behalf of City Council, Mayor Bellamy thanked the Board of Directors Asheville Sister Cities Inc. for the relationships they have built across the globe on behalf of Asheville.

**B. CIVIC CENTER COMMISSION UPDATE**

Economic Development/Civic Center Director Sam Powers was pleased to introduce Mr. Chris Corl as the new General Manager of the U.S. Cellular Center.

Mr. Corl said that he was excited to be in Asheville and looked forward to working with City Council. On behalf of City Council, Mayor Bellamy welcomed Mr. Corl and his family to Asheville.

Civic Center Commission Chairman Mike Burke introduced the new General Manager Chris Corl. He then updated City Council on (1) how their activities align with City Council's Strategic Operating Plan, (2) the renovations to date; and (3) the Phase II renovations including renovating and relocating the Box Office' renovating the main lobby; new exterior entrance to ExploreAsheville.com Arena; additional storage; renovating Concourse and Arena Floor restrooms; renovating Thomas Wolfe Auditorium lower lobby; and upper seating bowl industrial cleaning. He explained how they offer diversity from the 2011 events; and their partners. He briefly outlined the significant future opportunities.

On behalf of City Council, Mayor Bellamy thanked Mr. Burke for his leadership and the entire Civic Center Commission for their hard work on this Commission.

**C. CIVIL SERVICE BOARD UPDATE**

Civil Service Board Chairman Larry Harris updated City Council on the activities and mission of the Civil Service Board. He was happy to report that in the past year no grievances have been heard by the Board.

On behalf of City Council, Mayor Bellamy thanked Mr. Harris for his leadership and the entire Civil Service Board on their hard work on this Board.

**D. WATER RESOURCES UPDATE**

Project Manager Phil Kleisler updated City Council on the Water Resources process update from October 9 - 23, 2012. The October 30, 2012, water/sewer analysis meeting has been cancelled and will be rescheduled due to the various studies from the City, MSD and the City of Hendersonville will not be completed by October 30. Staff and Raftelis continue to work on the financial analysis and governance models. Regarding the MSD Study, on November 1 the draft report will be presented to the MSD Planning Committee and on November 14, the final report will be provided to the MSD Board. He then provided Council with the information sharing between the City and MSD.

**IV. PUBLIC HEARING:**

**A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED ON 671 SAND HILL ROAD FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT TO INSTITUTIONAL DISTRICT TO ALLOW THE CONVERSION OF AN EXISTING CHURCH INTO A PRIVATE SCHOOL, AND A REQUEST FOR MODIFICATIONS TO THE LANDSCAPE STANDARDS**

**ORDINANCE NO. 4130 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED ON 671 SAND HILL ROAD FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT TO INSTITUTIONAL DISTRICT TO ALLOW THE CONVERSION OF AN EXISTING CHURCH INTO A PRIVATE SCHOOL, AND A REQUEST FOR MODIFICATIONS TO THE LANDSCAPE STANDARDS**

Urban Planner Alan Glines said that this is the consideration of an ordinance to conditionally zone the New Classical Academy located at 671 Sand Hill Road from RM-6 Residential Multi-Family Low Density District to Institutional District to allow the conversion of an existing church into a private school, and a request for modifications to the landscape standards. This public hearing was advertised on October 12 and 19, 2012.

Mr. Glines said that this proposal is to establish a private school within an existing church structure. The conditional zoning application is needed in this case for two reasons; First, although schools are allowed under the existing RM-6 residential zoning (as a USSR), the minimum lot size is 2 acres (the actual lot size is 1.91 acres) and variances are not allowed for USSR's. The second reason is that the project is requesting a modification for a property line landscape buffer along the east side of the parcel and the conditional zoning process allows City Council to modify certain requirements with the approval of a proposed site plan. The New Classical Academy is operating in Weaverville at this time and is proposing to relocate to this site for their 40 students in grades K-8. The site currently has a church building totaling about 3,400 square feet on two levels. The building will be modified to meet building code standards for school uses while maintaining some capacity for operation of the church. It is not proposed to be expanded. Playground space on site will also meet state safety standards and requirements.

The site is a 1.91 acre parcel that slopes up gently from Sand Hill Road. The existing driveway is shared with a residential community of 46 homes behind the lot. The location along Sand Hill Road is good for a school use from an access standpoint and the site provides ample room to provide for parking needs and outdoor play space.

The school currently has an enrollment of 40 students and would like to eventually grow to a maximum of 60 students. The existing facilities are expected to be able to accommodate this future increase because the existing parking area is ample and could be expanded if necessary. The traffic demands from future growth could also be managed using the existing driveway. If the school should grow beyond 60 students, then a traffic management plan will be required to be submitted for analysis by appropriate City staff.

As was noted before the project is seeking approval for a modification from normally required property line buffer plantings along the east side of the property. This is requested because there is insufficient space along the edge of the existing driveway and the property line to buffer the residences on that side. Staff supports this request because it is an existing driveway that serves several uses. The school use is generally compatible with residential uses and the existing residential uses already have some landscape material planted along the property edge that provides screening.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.** The proposed school activity is not expected to endanger public health or safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.** This site that slopes up gently from Sand Hill Road. The existing building will be renovated to accommodate the school use.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.** A school is compatible with the character of the neighborhood and is not expected to injure the value of neighboring properties.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.** The existing church building and the school will operate within this structure. While the building is larger than some of the homes in the community, it is in-scale with the general development pattern of the neighborhood.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.** The project is an adaptive use of an existing building and meets city adopted goals of sustainability and higher density development where infrastructure is in place to support the development.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.** Sand Hill Road is a collector street in the west area of Asheville and can handle the traffic volumes. All of the utility and safety related infrastructure is sufficiently present in or serves this area.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.** The proposal has been reviewed for traffic safety concerns which can be safely handled by Sand Hill Road.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable because it meets City adopted goals for adaptive reuse of existing properties where infrastructure is in place to support the proposed activities.

This conditional zoning request was recommended for approval by a 7-0 vote at the Planning and Zoning Commission. There were no members of the public present at the meeting to speak about this proposal.

Pros:

- An existing building will be more fully utilized
- The property is positioned for convenient access to transportation systems
- The proposed use is compatible in a neighborhood setting

Con:

- The existing site configuration limits the ability to fully comply with standard landscape buffers for a portion of the site

Staff recommends that the application be approved with the conditions outlined in the staff report and the Technical Review Committee report because the use is appropriate to that site and to the neighborhood in which it is located.

Mayor Bellamy opened the public hearing at 5:47 p.m. and when no one spoke, she closed the public hearing at 5:47 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Manheimer found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4130 , to conditionally zone the New Classical Academy located at 671 Sand Hill Road from RM-6 Residential Multi-Family Low Density District to Institutional District to allow the conversion of an existing church into a private school, and approval of the buffer line modifications noted on the plan, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to the issuance of any site development permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10, of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with the ordinance will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) Any changes to the existing building size or orientation be reviewed for compatibility with the approved plans; and (5) Should the school grow beyond 60 students the school administrator will submit a traffic management plan for analysis by the appropriate City departments. This motion was seconded by Councilman Bothwell and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 10**

**V. UNFINISHED BUSINESS:**

**VI. NEW BUSINESS:**

**A. ORDINANCE NO. 4131 - FIRST READING OF AN ORDINANCE GRANTING A FRANCHISE AGREEMENT FOR THE OPERATION OF A PEDAL BICYCLE TAXI SERVICE WITHIN THE CITY OF ASHEVILLE**

Director of Transportation Ken Putnam said that this is the consideration of an ordinance granting a franchise agreement for the operation of a pedal bicycle taxi service within the City of Asheville.

City staff has been working with a citizen that is interested in starting a pedal bicycle taxi service within the City of Asheville under the business name of Asheville Bike Taxi, LLC. The service would be allowed in the Central Business District, the River Arts District, and the Historic Montford District. In addition, it would be allowed to use SR 3548 (Clingman Avenue) from Clingman Avenue Extension to Hilliard Avenue in order to gain access to the River Arts District. The North Carolina Department of Transportation has confirmed that the subject service can use state-maintained streets except for fully-controlled access streets like the interstate system.

The service is prohibited from operating on public streets that have a speed limit of 35 mph or higher. The one exception is the section of Clingman Avenue that provides access to the River Arts District. This section of street has a bicycle climbing lane and the pedal bicycle taxis are required to use it.

The hours of operation are limited to between 9:00 am and 3:00 am Monday through Friday and between 7:00 am and 3:00 am Saturday and Sunday. The City reserves the right to change the hours of operation at its sole discretion provided that we give a 30-day notice.

City Council approved a similar franchise agreement during March 2008; however, the business model was not successful.

This action complies with the City Council's Strategic Operating Plan in the Job Growth and Community Development Area by supporting diversified job growth and business development.

This item has been reviewed by the Council's Public Safety Committee and it received the Committee's endorsement on September 24, 2012. The Public Safety Committee recommended removing the limitation of five pedicab vehicles.

Pros:

- Supports diversified job growth and business development.
- Provides alternative transportation choices in the downtown area.

Cons:

- No direct fiscal impact to the City.
- Could impact vehicular traffic flow.

There is no known fiscal impact for the subject franchise agreement.

Staff recommends that City Council approve an ordinance granting a franchise agreement to Asheville Bike Taxi, LLC for the operation of a pedal bicycle taxi service within the City of Asheville.

Mr. Fred English felt Asheville didn't need this type of service.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved for the adoption of Ordinance No. 4131. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 13**

**B. RESOLUTION NO. 12-235 - RESOLUTION APPROVING THE EARLY RELEASE OF HOUSING TRUST FUND LOAN FUNDS TO MOUNTAIN HOUSING OPPORTUNITIES FOR THE EAGLE-MARKET PLACE PROJECT**

**ORDINANCE NO. 4132 - BUDGET AMENDMENT TO APPROPRIATE FUNDING FOR THE LOAN DISBURSEMENT**

Community Development Analyst Randy Stallings said that this is the consideration of a resolution approving the early release of Housing Trust Fund (HTF) loan funds to Mountain Housing Opportunities (MHO) for the Eagle Market Place project; subject to approval of exceptions to current policy and Housing and Community Development Committee conditions of approval; and a budget amendment in the amount of $300,000 from Housing Trust Fund reserves to appropriate funding for the loan disbursement.

The Housing and Community Development Committee has reviewed a request from Mountain Housing Opportunities to proceed to Housing Trust Fund loan closing on the Eagle Market Place project. Several exceptions to current program guidelines by City Council are required to facilitate this request. City Council approved a HTF loan of $300,000 to the project in March 2011. Funds have been held in reserve since that time awaiting approval of state tax credits. The tax credit award was received on August 23rd. In addition to the Housing Trust Fund loan, the project was also awarded $462,600 in HOME funds and $1 million in a future funding commitment.

Exception number 1: MHO is requesting that all funds be made available to reimburse predevelopment expenses that have been incurred to date. These soft costs include option fees, building permits, architectural design, engineering, surveying, environmental reports, market studies and legal fees. Current policy requires that all HTF funds be used for hard construction costs and/or land acquisition only.

Exception number 2: Current policy requires that all funds be drawn down proportionately with other funding sources and funds are to be disbursed at closing only for land acquisition. MHO is requesting that all funds be made immediately available at loan closing.

Exception number 3: Current policy requires a third party appraisal and verification of senior loan terms prior to our subordination to another lender. These documents have not yet been provided. Staff analysis has been based solely on the tax assessed value and proposed loan terms provided by the developer. A proposed term letter has been provided by a local lender; however, the developer will remain in communication with other local lenders to obtain the most favorable terms. The developer has agreed that the final determination of value and verification of senior loan terms can be provided prior to closing.

Risk Analysis: The developer has provided a copy of the market analysis prepared in March 2012. Once the project is fully completed, an estimated 1.4% capture rate and anticipated vacancy rate below 1% provide a very favorable outlook for project success. The highest risk on this transaction, as with all new construction, is at the front end of the deal when the existing collateral is likely insufficient to support the outstanding debt. This is especially true in the early stages of development. The risk to the City will decrease substantially over time as the construction progresses and the property value increases.

The determination of value in this request is critical to the decision to release funds. The project consists of five (5) parcels that will be deeded to Eagle Market Place, LLC at closing and aggregated under one Property Identification Number for development. Four (4) of these parcels have been donated by Eagle Market Street Development Corporation. The remaining parcel (42 S. Market St) is under contract. The current tax assessed value for all five (5) parcels (exclusive of buildings slated for demolition) is $1,962,710. The estimated appraised value as indicated by the developer is in the range of $2.3 to $2.5 million; however, staff has not yet been provided a third party appraisal.

The developer has suggested a bank loan of $1,070,000 with the City and County releasing $300,000 each from their HTF loan commitments. The Combined Loan to Value ratio based solely upon the current tax assessed value would be 85% at the proposed loan amount. An "as is" appraised value of $2.3 million would result in a Combined Loan to Value ratio of 72.6%. A ratio below 75% is considered the industry standard. Staff feels this amount of risk is tolerable but still significant given the undeveloped status of the collateral. It is anticipated that a current appraisal will exceed the tax assessed value of the property; however, true market demand cannot be fully ascertained given the unique nature of the site. The recent completion of the A-Loft hotel provides at least some benefit as a comparable project, and Staff would note that the prime location of the property should be attractive to investors in the event the project were unable to secure the necessary financing for beginning construction.

Additional Requirements: At their October 11th meeting, the Housing and Community Development Committee recommended that the following terms and conditions should be met prior to loan closing as a condition of approval:

1. Funds to be released for reimbursement of "soft costs" in the amount of $300,000. MHO to provide copies of paid invoices and/or copies of canceled checks for all predevelopment services provided prior to closing.

60

2. Funds to be released at closing for purposes other than land acquisition. The City must be provided a minimum of ten (10) business days to process check request.
3. MHO to draw all funds immediately rather than on a proportional basis with other funding sources.
4. Closing subject to receipt of firm Commitment Letter from a local lending institution at a loan amount of no more than $1.3 million.
5. Closing subject to receipt of satisfactory property appraisal(s) for all five (5) parcels comprising the project development area. Combined Loan to Value (CLTV) is not to exceed 80%.
6. Seller to pay delinquent taxes in the amount of $14,454.39 at closing from sale proceeds.
7. MHO to provide a Draw Schedule reflecting timing and amount of anticipated disbursements from all funding sources prior to closing.
8. MHO to provide copies of Uniform Relocation Act (URA) disclosures provided to current tenants.
9. Closing is conditional on the satisfaction of additional requirements that may appear in the firm Commitment Letter from a local lending institution.
10. Closing Agent to provide Preliminary Title Commitment reflecting aggregation of all five (5) development parcels under one Property Identification Number (PIN).
11. City of Asheville to close in second lien position.
12. Loan to close at the following terms: $300,000 at 2% annual interest-only payments, 20 year term.

The project directly supports the City's Strategic Operating Goals: (1) *Affordable*: The project proposal is supportive of the City's goal of providing safe and decent affordable housing units to the citizens of Asheville; and (2) *Sustainable*: The proposed project provides new housing units located near transit lines, higher urban development densities, and encourage higher standards of energy efficiency. The project also addresses the priorities of the Consolidated Strategic Housing & Community Development Plan by increasing the housing stock, providing affordable rental units, building high quality energy-efficient housing, and coordinating development with transportation and jobs.

Pros:

- The developer has successfully completed projects of similar size and scope, and has demonstrated sufficient organizational capacity to complete the project.
- Enables the developer to complete the land assembly necessary to begin construction.
- The City of Asheville is heavily invested in the success of this project.
- Allows the developer to keep debt service lower throughout the construction period.

Cons:

- Requires numerous exceptions to existing policies and guidelines.
- Significant risk to the City throughout the construction period.
- Other lenders are not sharing proportionately in that risk.
- Staff is unable to adequately evaluate the collateral without a current appraisal report.
- Taxes on the subject property are currently delinquent.
- Approval would create a precedent that may affect future requests of a similar nature.

As noted above, the loan was approved in a prior fiscal year. In order to disburse the funds in the current fiscal year, a budget amendment in the amount of $300,000 is needed to appropriate the funds from the Housing Trust Fund reserves. There will be no fiscal impact at the present time; however, approval of higher risk loan activities does increase the potential for future loan losses in the event of default.

The Housing and Community Development Committee recommends approval of the request subject to the stated terms and conditions.

Ms. Kathryn Mitchell, representing the Riverfront Development Group, a North Carolina non-profit at 2 South Pack Square, said that she sent an e-mail to City Council outlining their

objections to these actions. Among other objections, their main objection is that state and federal laws prohibit and limit the transfer of substantially all of the assets of a non-profit corporation to a for-profit business corporation, which the Eagle-Market Place Corporation is a standard business corporation and not a non-profit. The same requirement is made of the Internal Revenue Service. That requirement is that if substantially all the assets of a non-profit are to be disposed of, they must be disposed of to another non-profit entity, estate or an entity that will further its exempt purposes.

Ms. Stephanie Swepson-Twitty, President and CEO for Eagle-Market Streets Development Corporation, said that it is not all of Eagle Market Streets properties that are being brought into this project. Additionally, they have researched that this is not a reasonable objection and that these properties are being given for a charitable and low to moderate income benefit.

Mr. Scott Dedman, Executive Director of Mountain Housing Opportunities, said that it is customary and ordinary for a tax credit development to be operated by a limited liability company, which the non-profits are managing members of. Property is not granted to a limited liability company, it is sold to the limited liability company. The investors put their cash in, in return for federal housing tax credits. That is the system of housing tax credits that was created by the Reagan Administration many years ago. It is customary and ordinary to be done this way.

City Attorney Oast said that to the extent that the objection is based on the conveyance or transfer of the property to an entity that is non-profit entity, as Mr. Dedman explained, in order for an entity to take advantage of tax credits, it has to be a for-profit entity. The way those are formed is for the non-profit entity to become the managing partner of an LLC, such that the non-profit continues control of the operations. It is not an unusual thing to do and a structure that exists in several instances downtown, e.g., The Grove Arcade. The objection raised causes him no legal concern. There are some risks to the request that is being made and those have been outlined by staff.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 12-235, subject to the terms and conditions stated above. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 118**

Councilman Smith moved for the adoption of Ordinance No. 4132. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 28– PAGE 119**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Ms. Elaine Poovey, representing residents in the Bear Creek Road community, requested traffic calming (speed bumps) on Bear Creek Road. At the approximate cost of $6-7,000 for 3 speed bumps, the community is willing to pay $2,000. After hearing that the Public Safety Committee will be discussing speed in neighborhoods at their November meeting and that Council will be looking at transportation pieces during the next budget cycle, Mayor Bellamy asked City Manager for an update on the Bear Creek Road residents request. Councilman Pelly also felt that if the City has a traffic calming policy, then they should make a commitment to implement it.

Rev. Christopher Chiaronmonte spoke to Council about goodness vs. bias.

Mr. Fred English, Haw Creek resident, spoke to Council about the topless rally.

Mr. Teddy Jordan, representing the Kenilworth Neighborhood Association, spoke about some of their successes in their neighborhood. She asked Council to schedule a community meeting in their neighborhood.

Ms. Shirley Dozier, resident on Montford Avenue, said that the papers she presented at the October 9 meeting have been given to the Legal Department for resolution; however, she said they have not contacted her and that the Legal Department could be a part of the problem. She recommended that City Council meet with her on the site so she can explain her problem to them.

Mayor Bellamy announced the board/commission vacancies for the month of November.

Councilman Smith welcomed Moogfest to the City this weekend and encouraged visitors to not only check out the acts, but eat at the local restaurants and drink our local beer.

Councilman Hunt said that he and Councilman Davis are members on the Nominating Committee for the Business Improvement District (BID) Board. He encouraged interested citizens to apply for one of the several seats on the BID Board. The deadline for application is November 16 and they can be found on the City's website, or through the City Clerk's Office.

Mayor Bellamy invited the community to the October 30, 2012, City Council Community meeting at the Shiloh Recreation Center at 6:30 p.m.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 6:24 p.m.

CITY CLERK

MAYOR

Tuesday – October 30, 2012 – 6:30 p.m.
Shiloh Recreation Center

Community Meeting – South Asheville

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

Mayor Bellamy opened the meeting, welcomed the audience and introduced City Council members.

Assistant City Manager Jeff Richardson provided the audience with a brief overview of the City Council Strategic Goals.

Ms. Sophie Dixon, representing the Shiloh Community Association, was pleased to share the highlights of the Association including their re-organization, activities and partnerships. They appreciated the support of the City and were happy to do their part to make this a better Asheville.

Mayor Bellamy then opened up the meeting for questions. Questions/comments responded to by City staff and City Council consisted of (and those which could not be immediately responded to would be followed-up by City staff to the appropriate individual): appreciation for work on Overlook Road; hoped for continued efforts for improved traffic safety on Hendersonville Road; need for sidewalks along Hendersonville Road; request for bus benches along Hendersonville Road; request for resurfacing streets in Oak Forest; request for resurfacing streets in Shiloh community; the following requests in the Shiloh Community Center: a request for replacement of gym flooring, bleachers in gym, lighting in gym, replace bars in front of Center with windows, repair air conditioning, allow bathrooms open in the morning, resurfacing tennis courts, and replace lighting at ballfield; need for better planning for climate change, eco-crisis, and denser core area; need for bus service to new MAHEC building on Hendersonville Road; regarding Biltmore Park Town Center signage plan, request to have Council consider the brightness of the signs and allow signs for the Center itself and not specific tenants; support recent changes to leaf collection; need for City support composting leaves; need for portion of Rock Hill Road that lies in the City (from an annexation) to have sewer service and not septic tanks; and request for City support by funding their summer youth program.

Mayor Bellamy and Council members expressed their appreciation for the community involvement.

At 7:55 p.m., Mayor Bellamy adjourned the meeting.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – November 13, 2012 – 3:30 p.m.
Room 623 – City Hall

Joint Worksession with City Council and the Asheville Area Riverfront Redevelopment Commission

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Present: Chairman Ricky Silver, Councilman Jan Davis, Pattiy Torno, Joseph Ferikes, Cindy Weeks, Pam Turner, Daniel Hitchcock, Karl Koon, George Morosani, and Terry Meek

Mayor Bellamy and Chairman Silver both called the meeting to order of their respective bodies.

Mayor Bellamy remarked on the public-private partnerships specifically mentioning how the Depot Street is a prime example in the Riverfront Area.

Director of Finance & Management Services Lauren Bradley used a PowerPoint to describe Asheville's sustainable economic & community development initiative, outlining (1) the challenge of lagging growth, inadequate resources and inadequate investment; (2) opportunities for farsighted investments in land use and real estate assets, multi-modal and utility infrastructure, and downtown vitality and neighborhood revitalization; (3) goal of financial sustainability, community prosperity and environmental stewardship; (4) the approach of aligning partners around three goals (a) vibrant mixed-use neighborhoods; (b) downtown vitality; and (c) robust job growth; and (5) strategy for neighborhood vibrancy – river redevelopment - RADTIP. Revenues from possible sources include City/County sales tax, sale and lease proceeds; retired economic development incentives; General Fund and Enterprise Fund contributions; Synthetic Tax Increment Financing partnerships, and grants and entitlements, e.g., N.C. Dept. of Transportation, Housing & Urban Development, Environmental Protection Agency, Community Development Block Grant Funds, Housing Trust Fund, etc.

Transportation Planner Dan Baechtold provided those present with the River Arts District Transportation Improvement Project (RADTIP) update. He said an overview is that it is (1) a 2.2 mile section of the Wilma Dykeman Riverway; (2) improvements to two City of Asheville streets – Lyman Street and a portion of Riverside Drive; (3) road improvements, bike lanes, sidewalks, street trees, curb and gutter, on-street parking, and greenways; and (4) preliminary cost estimate of $25 Million. The current status is that (1) they are wrapping up a two-year process; (2) extensive public involvement and stakeholder input; (3) draft environmental document is complete; (4) preferred alternative has been selected; (5) preliminary designs are complete; and (6) final public workshop of this phase is scheduled for December 6. We are now at the end of a phase with the next phase to begin with acquiring the right-of-way for the project and develop partnerships.

Discussion was held between City Council and the Riverfront Redevelopment Commission. Chairman Silver asked for City Council to adopt a resolution in support of the RADTIP. Mayor Bellamy felt it is important to move forward and meet with local, state and federal agencies outlining RADTIP, its benefits and solicitation of funds to help support this vital project. Commission members felt there should be some certainty that RADTIP will occur so they can go out and solicit funds from various sources, including possibly a synthetic Tax Increment Financing District. Mr. Baechtold said that the federal environment document is good for three years; however, as long as they show forward progress it can be extended.

Next steps include (1) City Council adoption of a resolution in support of the RADTIP; (2) staff contact the Buncombe County Board of Commissioners to ask for their support of the RADTIP; (3) staff prepare a financial plan; (4) identification of funding sources; and (5) City staff to appear at the Riverfront Redevelopment Commission meeting to discuss improvements to operations at the Development Services Center.

At 4:45 p.m., Mayor Bellamy and Chairman Silver adjourned their respective bodies.

Tuesday – November 13, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Councilman Gordon D. Smith

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Bothwell gave the invocation.

**I. PROCLAMATIONS:**

**A. RECOGNITION OF WARREN WILSON PRESIDENT DR. STEVEN L. SOLNICK**

Mayor Bellamy was pleased to recognize and welcome Warren Wilson President Dr. Steven L. Solnick to the City of Asheville.

**B. PROCLAMATION PROCLAIMING NOVEMBER 2012 AS "ADOPTION AWARENESS MONTH"**

Mayor Bellamy read the proclamation proclaiming November, 2012, as "Adoption Awareness Month" in the City of Asheville. She presented the proclamation to Ms. Tara Foster, Social Work Supervisor in Children's Services, who briefed City Council on some activities taking place during the month

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 23, 2012; AND THE COMMUNITY MEETING HELD ON OCTOBER 30, 2012**

**B. RESOLUTION NO. 12-236 - RESOLUTION SETTING A PUBLIC HEARING ON NOVEMBER 27, 2012, TO CONSIDER THE VOLUNTARY ANNEXATION OF PROPERTY LOCATED IN THE FALCON RIDGE AT HAW CREEK SUBDIVISION**

Summary: The consideration of a resolution fixing the date of a public hearing on November 27, 2012, for the voluntary annexation of property located in the Falcon Ridge at Haw Creek Subdivision.

66

The following property owners (with property identification number shown) have petitioned the City of Asheville for the annexation of twenty-one lots or portions of lots located in the Falcon Ridge at Haw Creek Subdivision.

| PIN Number | Address | Property Owner |
|---|---|---|
| | | |
| Portion of 9659.62-2222 | Common Area – No Address | Falcon Ridge at Haw Creek, LLC |
| 9659.53-8826 | 91 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-0863 | 85 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-1689 | 79 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-3527 | 71 Boulder Creek Way | Ridge View Homes, LLC |
| 9659.63-4456 | 63 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-5380 | 57 Boulder Creek Way | George Ryan Trust & Martha E. Ryan Trust |
| Portion of 9659.63-6014 | 51 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| Portion of 9659.62-3969 | 44 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| Portion of 9659.63-1047 | 125 Boulder Creek Way | Rebecca G. Mulzer |
| Portion of 9659.53-9062 | 123 Boulder Creek Way | Angela M. Erwin |
| Portion of 9659.53-8036 | 119 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.53-9275 | 120 Boulder Creek Way | George Ryan & Jean M. Ryan |
| 9659.53-9366 | Infrastructure – No Address | Falcon Ridge at Haw Creek, LLC |
| 9659.53-9607 | 92 Boulder Creek Way | John Allen & Patricia J. Allen |
| 9659.63-0548 | 82 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.53-9543 | 135 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-0486 | 133 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-1388 | 131 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-1292 | 127 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-3168 | 56 Boulder Creek Way | Emily S. Joyce Revocable Trust & Emily S. Joyce Trust |

The property to be annexed contains a total of 22.93 acres. The property is contiguous to the primary corporate limits of the City of Asheville. The area is subject to the standards for annexation of contiguous areas contained in NCGS 160A-31.

Pursuant to NCGS 160A-31, such petitions must be investigated by the City Clerk for sufficiency in accordance with state law. This investigation has been completed and the Certificate of Sufficiency accompanies this petition request.

The next step in this process is for the Asheville City Council to fix the date for the public hearing on this matter. Should the City Council decide to proceed with this request, the effective date for the annexation would be November 27, 2012.

Pros:

- Provides for the orderly growth of the City and the tax base through the acceptance of appropriate areas into the corporate limits where owners desire annexation.
- Complies with the 2025 Plan in that it supports the strategy of promoting voluntary annexation of developing areas.
- Allows for service provisions for a new subdivision of which a part is already in the City enhancing the area with an urban level of service.

Con:

- Marginal costs for patrol.

At the City's current tax rate, the property, valued at $1,527,700.00, would generate approximately $ 6,416 annually. There are no financial impact or debt service payments required to a rural fire department as the area is currently serviced by the City of Asheville Fire Department under the Haw Creek Fire District agreement. The Fire Department has been receiving the .09/100 tax for servicing this area. This will no longer be paid by the property owners, thus the City will see a reduction in this revenue of $1,375. Therefore, the net financial gain for the City is $5,041.

City staff recommends that City Council adopt the resolution setting the date of November 27, 2012, for a public hearing on the annexation petition.

**RESOLUTION BOOK NO. 35 – PAGE 120**

**C. SECOND READING OF ORDINANCE NO. 4131 - ORDINANCE GRANTING A FRANCHISE AGREEMENT FOR THE OPERATION OF A PEDAL BICYCLE TAXI SERVICE WITHIN THE CITY OF ASHEVILLE**

**ORDINANCE BOOK NO. 28 – PAGE 13**

**D. RESOLUTION NO. 12-237 - RESOLUTION AUTHORIZING THE CITY MANAGER SIGN A MUNICIPAL AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION APPROVING A PROJECT FOR MAKING IMPROVEMENTS ON I-40 FROM MILEMARKER 50 TO MILEMARKER 55**

Summary: The consideration of a resolution authorizing the City Manager to sign a municipal agreement with the N.C. Dept. of Transportation (NCDOT) approving a project for making improvements on I-40 from milemarker 50 to milemarker 55 in Asheville.

The NCDOT plans to make improvements on I-40 from milemarker 50 to milemarker 55 in Asheville. The project, which is identified as I-5607, has a letting date of September 17, 2013. As a part of the agreement, the City agrees to effect the necessary adjustment of any utilities under franchise without cost to the NCDOT and to provide for the adjustment of any municipally-owned utilities without cost to the NCDOT, except that the NCDOT will reimburse the City in accordance with the NCDOT's Municipally-Owned Utility Policy. These requirements are standard requirements in all of NCDOT's Municipal Agreements and may or may not be applicable for a specific project. Since the City of Asheville does not have any utilities under franchise or any municipally-owned facilities within the specified section of I-40, this specific requirement is not applicable.

The NCDOT has confirmed that the subject municipal agreement does not require a financial commitment.

This action complies with the City Council 2012-13 Strategic Operating Plan by partnering with the North Carolina Department of Transportation (NCDOT) to make improvements to the existing street infra-structure.

Pros:

- A section of interstate highway will be improved.
- The NCDOT is funding and constructing the project.

Con:

- There are no identifiable cons.

There is no cost to the City.

Staff recommends that City Council approve a resolution authorizing the City Manager to sign a municipal agreement with the NCDOT formally approving Project I-5607.

**RESOLUTION BOOK NO. 35 – PAGE 121**

**E. RESOLUTION NO. 12-238 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A CHANGE ORDER WITH HERSEY METERS CO. LLC (d/b/a MULLER SYSTEMS) FOR THE AUTOMATED METER READING PROJECT**

**ORDINANCE NO. 4133 - BUDGET AMENDMENT FOR THE AUTOMATED METER READING PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to execute a change order with Hersey Meters Company, LLC (DBA Mueller Systems) in the amount of $600,000.00 to increase the general services contract for the Water Resources Automated Meter Reading (AMR) Project from $4,234,859.86 to $4,834,859.86; and a budget amendment in the amount of $600,000.00 from savings in other capital projects that were completed under budget.

On February 9, 2010, City Council authorized the City Manager to execute a general services contract with Hersey Meters to install approximately 52,000 AMR devices throughout the entire water system for a total project cost of $4,234,859.86.

Since beginning the project in 2010, two things have occurred to primarily account for this change order: (1) the water system has expanded to include approximately 53,000 water meters, which has increased the amount of meters to be replaced, the amount of AMR devices to be installed, and labor costs for installation; and (2) in August 2012, the Purchasing Department rebid the purchase of water meters, which increased the cost of every size meter by an average of 13%.

With this change order, Hersey Meters remains the lowest responsible bidder. The project is still expected to be completed by June 2013.

This project is part of City Council's strategic plans to improve city infrastructure.

Pro:

- Approval will allow the City to complete the AMR project.

Con:

- An additional $600,000.00 is needed to complete the project.

The $600,000.00 needed for this change order will be transferred from the General Projects capital project that accumulates remaining funds from Water Resources' completed, inactive capital projects. In order to use these funds, a budget amendment is necessary.

| | |
|---|---|
| Current Amount of Hersey Meters Contract | $ 4,234,859.86 |
| Amount Needed for Change Order | $ 600,000.00 |
| Total Amount for Hersey Meters Contract | $ 4,834,859.86 |

The amount remaining in General Projects will be reallocated to other capital projects as the need arises. Staff will seek Council approval on any future reallocation of these funds.

City staff recommends City Council approval of the resolution authorizing the City Manager to execute a change order with Hersey Meters Company, LLC (DBA Mueller Systems); and a budget amendment in the amount of $600,000.00 from savings in other capital projects that were completed under budget.

**RESOLUTION BOOK NO. 35 – PAGE 122**
**ORDINANCE BOOK NO. 28 – PAGE 21**

**F. ORDINANCE NO. 4134 - ORDINANCE AMENDING ORDINANCE NO. 4057 (REGULATING CAMPING ON CITY PROPERTY) TO CLARIFY "EMERGENCY"**

Summary: The consideration of an amendment clarifying ordinance regulating camping on City property.

On February 14, 2012, City Council adopted Ordinance No. 4057, which prohibits camping on City property without a permit. Sec. 12-51(b) of that ordinance provides that it "shall not be enforced when facilities are unavailable to provide emergency shelter to the public."

In some emergency situations, such as floods or fires, or major snow events involving power outages, it becomes necessary for governmental facilities, such as recreation centers, to be open to provide temporary housing to persons who are displaced by the event. The intent of this exception was to ensure that such uses would not conflict with the ordinance. However, the situations to which this exception applies are not further defined or described, and clarification has been requested.

With this in mind, the proposed amendment clarifies that the exception applies in situations where an emergency has been declared by an appropriate agency or official, and only to such facilities as that agency or official designates.

The proposed amendment supports the strategic operating plan goal of promoting public safety.

Pro:

- Clarifies application of recently adopted ordinance.

Con:

- None noted.

Adoption of the ordinance is recommended.

**ORDINANCE BOOK NO. 28 – PAGE 23**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Davis moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. PRESENTATION OF THE EXTERNAL AUDIT OF THE FISCAL YEAR 2012 COMPREHENSIVE ANNUAL FINANCIAL REPORT

**ORDINANCE NO. 4135 - BUDGET AMENDMENT FOR ONE-TIME EMPLOYEE BONUS IN GENERAL FUND**

Mr. Brian Broom, Director of Dixon Hughes, PLLC, summarily reviewed with Council the annual audit. He said that the following is the audit and financial statement summary: "Our report for the 2012 audit expresses an unqualified opinion on the fair presentation of the basic financial statements in all material respects, in conformity with accounting principles generally accepted in the United States of America. Our report can be found on Page 1 of the Comprehensive Annual Financial Report (CAFR). Our reports on compliance and internal control, in accordance with Government Auditing Standards, OMB Circular A-133, and the State Single Audit Implementation Act, disclosed no material weaknesses in internal controls and no instances of non-compliance in the administration of federal and state awards programs. Our compliance reports and a summary of the results can be found in the Compliance Section of the CAFR. Also, we noted some areas for improvement in the City's accounting function that they have communicated to management in a separate letter dated October 31, 2012." The audit was completed and submitted by the October 31 deadline.

Mayor Bellamy noted that the City ended their year with the fund balance back to 15.9%.

Ms. Judy Strong felt that the $650,000 should not be used for employee bonuses and should be used for appropriate expenditures in the next budget cycle.

Council members explained that City employees have gone without a raise for 3 years; that the one-time allocation is not added to the employees base pay; that this strategy was talked about months ago when the budget was adopted; that the allocation is made for all City employees; and that the City is taking a broader look at employee pay and the pay scale in order to make an educated decision about pay going forward.

The following is a staff report from Director of Finance & Management Services Lauren Bradley to Council: "The consideration of a motion to accept the FY 2012 Comprehensive Annual Financial Report (CAFR) and consideration of a budget amendment for a $650 one-time employee bonus requiring a total appropriation from General Fund unassigned fund balance in the amount of $650,000.

Brian Broom, CPA, director with Dixon Hughes Goodman LLP, will be present at City Council's November 13, 2012 meeting to deliver the City's Comprehensive Annual Financial Report (CAFR). Mr. Broom and I will provide City Council with a review of the audit and will be available to answer any questions from Council. Following the presentation, staff is requesting that City Council accept the FY 2012 CAFR and consider a General Fund budget amendment for a one-time employee bonus.

Staff will defer to Mr. Broom regarding his firm's findings. In addition, this staff report is intended to provide key highlights regarding the audit from staff's perspective. The City's financial statements, internal control, stewardship, accountability and program compliance with federal and state awards receive high marks.

The independent audit firm is required to conduct an analysis of the City's compliance with various federal and state laws, regulations, contracts and grant agreements. Dixon Hughes reviewed the City's accounting and administrative controls over a wide range of financial transactions such as cash, investments, revenues, receivables, expenditures, payroll, property, debt and grant programs.

Dixon Hughes found no deficiencies in internal control over financial reporting that they would consider material weaknesses and no instances of material noncompliance in connection with applicable statutes and regulations regarding expenditures of major federal and state financial assistance programs. This is the first time since 2009 that the City has received a "no deficiencies" report. This favorable report is due to the significant efforts of City staff and finance department employees in developing and maintaining strong internal financial controls.

***The independent external auditor gives the City a "clean" opinion on financial statements.***

Dixon Hughes has provided the City with an unqualified, or "clean," opinion that the financial statements are fairly presented in conformity with generally accepted accounting principles. This opinion is the highest form of opinion that the external auditors can express on the presentation of the City's financial statements.

***Audit submitted to Local Government Commission on schedule.***

As of October 30, 2012, the City had fully completed the audit process and was ready to submit its Comprehensive Annual Financial Report (CAFR) to the Local Government Commission (LGC) in compliance with its published October 31 deadline for submission, as well as City Council's direction to meet the deadline. As illustrated by the table below, completion and delivery of the CAFR by October 31 with presentation to be made at the November 13 City Council meeting is a significant improvement in timeline since 2006. Thanks go to the Finance Committee for its leadership throughout the audit process and to staff and Dixon Hughes for working diligently during the last several months to meet the schedule.

***General Fund revenues exceed expenditures.***

Due to a continued soft economy and uncertainty surrounding revenue projections, City staff implemented various savings strategies throughout FY 2012 to ensure the best possible General Fund operating results at year end. While revenues came in slightly above budget, expenditures came in under budget by $3,454,000.

During the year, $1,635,000 was appropriated from different categories of General Fund balance for FY 2011 encumbrances, demolition of an unsafe private property, and a Housing Trust Fund loan. For the year, including transfers out of $4,654,000, revenues exceeded expenditures by $2,152,000, resulting in a positive net increase in fund balance. Items that contributed to the net increase in fund balance include an improvement in sales tax collections ($818,000 positive variance which contributed to a net favorable impact of $363,000 in overall revenue performance), Housing Trust Fund appropriations that were made but not loaned during the fiscal year ($718,000 positive variance) and savings in contracted services ($771,000 positive variance).

The table below shows General Fund revenues, expenditures and changes in fund balance for FY 2012.

General Fund Revenues, Expenditures and Changes in Fund Balance (,000)

| | Original Budget | Final Budget | Actual Amounts | Variance with Final Budget- Postive (Negative) |
|---|---|---|---|---|
| Revenues | $ 87,696 | $ 86,865 | $ 87,228 | $ 363 |
| Expenditures | 82,408 | 84,809 | 81,355 | 3,454 |
| Revenues over (under) expenditures | $ 5,288 | $ 2,056 | $ 5,873 | $ 3,817 |
| Net other financing sources (uses) | (5,288) | (3,691) | (3,721) | (30) |
| Appropriated fund balance | - | 1,635 | - | (1,635) |
| Net change in fund balance | $ - | $ - | $ 2,152 | $ 2,152 |
| Summary of items contributing to net fund balance increase: | | | | |
| Other Taxes | | $ 15,669 | $ 16,487 | 818 |
| Housing Trust | | 798 | 80 | 718 |
| Contracted Services | | 4,439 | 3,668 | 771 |

***General Fund unassigned fund balance has improved and exceeds the 15% policy threshold.***

Unassigned fund balance improved by $906,000 year over year, up from $12,720,000 in FY 2011 to $13,626,000 at the end of FY 2012. For FY 2012, this amount represents 15.9% of expenditures and transfers to other funds. The improvement in unassigned fund balance can be attributed to several factors. One of those factors was an improvement in sales tax collections with a net positive impact of $363,000 in overall revenues. A variety of operating expenditures also came in under budget, including contracted services, utilities, and compensation.

Housing Trust Fund appropriations that were made but not loaned during the fiscal year ($718,000 positive variance) had a positive impact on the "assigned" portion of General Fund fund balance.

City Council has established a threshold of 15% of expenditures and routine transfers as the minimum amount necessary to support the General Fund's working capital levels ("unassigned" fund balance). The FY 2012 fund balance exceeds this threshold by $764,000. The table below reflects the components of fund balance that appear in the CAFR.

City Council previously directed staff to consider opportunities for one-time employee compensation if General Fund performance in FY 11-12 resulted in unassigned fund balance in excess of the 15% target. As a result, staff is recommending a $650 one-time bonus for permanent full- and part-time city employees. This payment does not add to the salary base for employees. The budget amendment for this appropriation is included with this staff report. Total cost for the bonus in the General Fund is $650,000, which leaves $114,000 available in unassigned fund balance for unplanned expenses or future reserve goals. The cost of the bonus in the City's enterprise funds will be funded out of the current year operating budget and does not require a budget amendment.

General Fund Balance

| | ,000 | |
|---|---|---|
| | 2012 | 2011 |
| Total fund balance | $ 21,788 | $ 19,636 |
| Less: | | |
| Unspendable fund balance | (448) | (466) |
| Restricted fund balance | (6,663) | (5,995) |
| Assigned fund balance | (1,051) | (455) |
| Fund balance available for appropriation | $ 13,626 | $ 12,720 |
| Total expenditures and routine transfers | $ 85,747 | $ 86,580 |
| Available fund balance as a percentage of expenditures and transfers to other funds | 15.9% | 14.7% |
| Available fund balance in excess (deficit) of 15% policy target | $ 764 | $ (267) |

***Financial performance as predicted or better than budget in nearly all proprietary funds.***

Despite a soft economy, financial results in most of the City's business-type activities experienced positive net income before one-time transfers out for FY 2012. The one exception to note is the Civic Center Fund, where revenues came in under budget due to the cancellation of a few major events and less event bookings due to renovations occurring in the arena. Staff is adjusting the current year Civic Center budget based on FY 2012 actuals to improve financial results. Within the Internal Service Fund, it is worth noting that the revenues exceeded expenditures by $1,067,394, indicating favorable risk management and health care claims performance during the year. She provided council with a table which summarized operating activity in these funds.

74

***Fund balance levels in some proprietary funds may allow for enhanced capital investment in FY 2013-2014.***

City Council has adopted fund balance targets for all funds as part of its Financial Policy. At the end of FY 2012, three enterprise funds exceeded the established fund balance targets. It is staff's recommendation that City Council consider appropriating a portion of these funds for identified capital needs in the FY 2013-2014 budget cycle. In addition, staff is developing revised financial models, including five-year capital improvements programs, for the Water and Stormwater Funds. These models will reflect actual revenue and expenditure trends from previous years and be used to make recommendations on future utility rates and capital improvements. The Golf Fund's fund balance deficit is currently offset by the General Fund's restricted portion of its fund balance. With the approval of a long-term lease agreement for the Municipal Golf Course in the current year, staff expects to merge the activities of the Golf Fund with the General Fund in FY 12-13, and the Golf Fund will no longer be reported as a separate fund in the FY 13-14 audit. She provided council with a table that illustrated year over year changes in fund balance for the enterprise funds as well as a comparison to the adopted fund balance targets.

We are pleased to present the audit and look forward to continuing to improve the City's financial reporting and planning efforts. We would also like to express our appreciation to the numerous city employees who contributed to successful financial management in FY 2012, and to those employees, especially in the Finance Department, who worked on the audit process.

The City Council Finance Committee received monthly reports on the audit process since summer 2012.

This action supports the City of Asheville's strategic goal to operate the City to the highest levels of fiscal responsibility.

Pros:

- City received a "clean" opinion on financial statements and no findings on *internal control, stewardship, accountability and program compliance with federal and state awards.*
- Timeliness of audit completion achieved.
- General Fund financial performance was better than budget.
- General Fund undesignated fund balance exceeds City Council's 15% policy.
- Financial performance in nearly all funds as predicted or better than budget.
- Fund balance levels in some enterprise funds may allow for additional capital investment.

Con:

- None noted.

Staff recommends that City Council accept the Comprehensive Annual Financial Report and approve a budget amendment for a $650 one-time employee bonus requiring a total appropriation from General Fund unassigned fund balance in the amount of $650,000. The cost of the one-time bonus in the City's enterprise funds will be funded out of the current year operating budget."

It was the consensus of Council to accept the Comprehensive Annual Financial Report.

Mayor Bellamy said that members of Council have been previously provided with a copy of the ordinance and it would not be read.

Councilman Pelly moved for the adoption of Ordinance No. 4135. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 24**

**B. COMMUNITY ACTION COMMITTEE UPDATE**

Mayor Bellamy said that due to an illness of the presenter, this update will be rescheduled.

**C. ASHEVILLE-BUNCOMBE COMMUNITY RELATIONS COUNCIL UPDATE**

Dr. Larry McCallum, Chairman of the Asheville-Buncombe Community Relations Council, and Ms. Sarah Nunez, Executive Director, briefed Council on their activities of the past year and goals for the upcoming year.

On behalf of City Council, Mayor Bellamy thanked Dr. McCallum and Ms. Nunez for their leadership and the entire Committee for their dedication.

**D. WATER RESOURCES UPDATE**

Project Manager Phil Kleisler updated City Council on the Water Resources general process update from October 9 - 23, 2012. He said the MSD Planning Committee will be hearing a presentation on November 14 of their draft merger study. The final report will be presented to the MSD Board on December 12. The Phase 2 study, which will look at the potential merger impact to the Town of Biltmore Forest, Town of Montreat and the Town of Weaverville, will be presented to their board in 2013. He said staff is reviewing the report and will provide Council with an analysis and background information relating to that report in the near future. He said that a manufacturing rate class is being developed along with alternative rate structures for consumption and capital fees that will be coming to Council in the near future. He then provided Council with the information sharing between the City and MSD.

It was the consensus of Council to hold a worksession to hear the staff analysis of the MSD/Arcadis merger study, the Raftelis report on governance models, and the City's financial analysis on December 11, 2012, prior to the formal meeting.

## IV. PUBLIC HEARINGS:

**A. PUBLIC HEARING TO CONSIDER A SIGNAGE PLAN FOR UNC-ASHEVILLE**

At the applicant's request, Councilman Hunt moved to continue this matter until January 22, 2013. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

## V. UNFINISHED BUSINESS:

**A. CONSIDERATION OF AN ORDINANCE AMENDING THE BILTMORE PARK TOWN CENTER SIGNAGE PLAN FOR RETAIL TENANT IDENTIFICATION SIGNAGE**

At the applicant's request, Councilman Bothwell moved to continue this matter until December 11, 2012. This motion was seconded by Councilman Davis and carried unanimously.

**B. ORDINANCE NO. 4136 - ORDINANCE AMENDING CHAPTER 10 OF THE CODE OF ORDINANCES PERTAINING TO NOISE REGULATION**

Assistant City Attorney Kelly Whitlock said that that this is the consideration of amendments to Chapter 10 of the City's Code of Ordinance relating to the noise ordinance.

On August 20, 2011, during a town hall meeting held at UNC-Asheville, a citizen proposed revisions to the City's noise ordinance to strengthen the ability to measure volume of sound generated in residential neighborhoods. City Council expressed a willingness to examine the current noise ordinance and the issue was referred to the Public Safety Committee for review.

On March 26, 2012, after reviewing the current noise ordinance and resident feedback provided to City staff, the Public Safety Committee gave the following direction with respect to proposed ordinance revisions: 1) keep the reasonable person standard 2) explore the use of zones with respect to reasonable noise levels 3) define day and night 4) remove the notary requirement on complaints 5) dismiss citations/appeals if complainants/appellants don't attend the noise ordinance appeal hearing and 6) move forward with short-term actions such as education and outreach.

Based on the Public Safety Committee's recommendations above, City staff kept the reasonable person standard in the ordinance and made the following proposed changes:

1) Addition of yelling, shouting, parties and the sounding of a security alarm for more than 20 minutes after the owner/responsible party has been notified by law enforcement personnel to the list of enumerated activities that shall not be engaged in so as to cause a noise disturbance on neighboring premises.

2) Addition of the following factors to consider in determining whether a noise constitutes a noise disturbance: whether the noise occurred during daytime or nighttime hours; proximity to residential areas; whether the noise is recurrent, intermittent or constant; the volume and intensity; whether the noise has been enhanced in volume or range by any type of mechanical means; and the nature and zoning of the area.

3) Definition of residential areas to include any area in the City zoned the following: RS-2, RS-4, RS-8, RM-6, RM-8, and RM-16.

4) Definition of daytime hours as 7 a.m. to 11 p.m. and nighttime hours as 11:00 p.m. to 7:00 a.m.

5) Addition in the Procedures/Appeals section that the failure of the appellant or at least two complainants who filed the complaint to attend the noise ordinance appeal hearing results in dismissal of the appeal or complaint.

6) Revision of refuse collection hours exemption to clarify hours of operation. (Commercial refuse collection haulers are currently exempted from the noise ordinance if they are operating during daylight hours. Commercial refuse collection haulers are not prohibited *per se* from collecting during nighttime hours; however, if they produce a noise disturbance on occupied neighboring premises or public area, they are in violation of the ordinance (using the reasonable person standard). Current it is daylight hours, but staff proposes from 6 a.m. – 9 p.m.

On June 25, 2012, the Public Safety Committee reviewed the proposed revisions and directed staff to initiate a public campaign in order to gather input on the proposed revisions.

On August 6, 2012, City staff launched a 5–week campaign regarding the proposed revisions which consisted of the following: 1) creation of a Project Page on the City's website outlining the process and providing access to applicable documents; 2) creation of an online survey; 3) gathering of public input at a community meeting which was held on August 27, 2012; and 4) gathering of public comments by phone, email, mail and social media.

A total of 1045 individuals participated in the survey. Responses suggest most people are:

- Moderately familiar with the City of Asheville noise ordinance.
- Believe it is at least moderately important to revise the ordinance.
- At least moderately in favor of defining day as 7 a.m. to 11 p.m. with 309 respondents offering alternative hours for the definition.
- Strongly favor including "yelling and shouting" in the list of activities that could cause a noise disturbance.
- At least moderately favor including "parties" in the list of activities that could cause a noise disturbance.
- Strongly favor including "the sounding of any security alarm for more than 20 minutes following notification by law enforcement personnel" in the list of activities that could cause a noise disturbance.
- At least moderately willing to work toward a solution with a trained mediator before filing a complaint.
- Comfortable with the current fines for violations.

Additional comments were also gathered on the survey, at the community meeting, through phone calls, email, mail, and social media which consisted of the following:

| Subject | Mentions | Staff Comments |
|---|---|---|
| Muffler-related noise | 96 | Currently addressed in Sec. 10-84(6) Education Opportunity |
| Dogs | 50 | Currently addressed in Sec. 10-84(3) Education Opportunity |
| Bullhorns/Megaphones | 30 | Currently addressed in Sec. 10-84 (15) Over half of the mentions related to Bele Chere. There is currently an exemption surrounding noise emanating from city-sponsored events. Sec. 10-85(3) Education opportunity |
| Loud music in cars | 17 | Currently addressed in Sec. 10-84(1) Education opportunity |
| Decibels | 16 | 6 people felt they should be used for specific disturbances such as mufflers. 4 specifically mentioned they do not support the use of decibels. |
| Outside speakers | 7 | Currently covered in UDO. Planning Department anticipate presenting revisions to the Planning & Zoning Commission in December and City Council in January. |

These findings were presented to the Public Safety Committee on September 24, 2012. The Public Safety Committee voted to send the proposed revisions to City Council.

Based on a recommendation from the Public Safety Committee, the Asheville Police Department contacted seven NC law enforcement agencies in reference to the standard method of enforcement of the noise ordinance in their jurisdictions. Those cities consisted of the following: Charlotte, Greenville, Fayetteville, Hickory, High Point, Raleigh, and Winston-Salem.

Each of the seven municipalities has a noise ordinance that contains the "reasonable person" standard as a standard of enforcement. Several factors (time of day; proximity to residential structures; whether the noise is recurrent, intermittent, or constant; volume and

intensity; or amplified by electronic or mechanical means, etc) are taken into consideration as to whether the noise violates the "reasonable person" standard. Five of the seven ordinances also include the use of a decibel meter as a means to measure the sound level and enforce the noise ordinances.

The enforcement standard for 80% of the agencies surveyed that had decibel meters available for use was to utilize the "reasonable person" standard first when responding to a noise complaint. The sound level meters are used in situations where the person or business would not voluntarily comply with the ordinance or there is a complaint involving a permitted outdoor event. Only one of the five agencies (Charlotte/Mecklenburg) that use decibel sound level meters issued a directive that a sound level meter shall be utilized when a citation is issued for a noise violation (approx. 38 citations issued in 2011).

In the City of Asheville, a search of APD's CAD calls yielded the following information regarding noise complaints:

| Year | 2011 | 2012 (as of Nov. 1) |
|---|---|---|
| | | |
| Calls for Service | 2,489 | 2,359 |
| Verbal warnings | 526 | 517 |
| Citations | 40 | 34 |
| Arrests (on other charges) | 22 | 11 |
| Compliance/referral | 455 | 422 |
| Appeals to Noise Ordinance Appeal Board – police issued citations | 6- Violation upheld: 6 | 7 – Violation upheld: 5<br>Violation overturned: 2 |
| Appeals to Noise Ordinance Appeals Board - complaints | 5- Violation found: 2<br>Violation found but penalty delayed for parties to resolve issue: 3 | 1- Hearing continued for parties to resolve issue |

Pros:

- Takes into consideration the type of zone and time of day in determining whether a noise constitutes a "noise disturbance"
- Increases the number of factors officers can utilize when determining whether a noise constitutes a "noise disturbance"
- Provides community clearer understanding of what constitutes a noise disturbance
- Instrument (i.e. decibel meter) is not required to enforce ordinance
- Defined hours of approved operation for commercial refuse collection vehicles removes ambiguity of when daytime and nighttime begins.

Con:

- Determination of whether a noise constitutes a "noise disturbance " relies on officer discretion

This action complies with City Council's Strategic Operating Plan in the Job Growth and Community Development goal - Goal I: Collaborative and effective working partnerships between the City of Asheville, the business community, and other key organizations to effectively manage the City's regulatory environment while accomplishing economic development goals.

If Council keeps the "reasonable person standard", negligible fiscal impact is expected.

If Council adopts the "decibel level standard", an A-weighted sound level meter certified to meet ANSI standards for each district would be required. The price per meter ranges from $2,000 to $5,000. Cost of training officers would also be required (approx 1-8 hours). The current

average salary for an APD officer is $20.6367 per hour and the average salary for an APD sergeant is $25.6461 per hour. Total capital outlay cost would not exceed $15,000. This cost would be absorbed within the Asheville Police Department budget.

If Council approves the proposed changes, adoption of the ordinance is recommended.

Mr. John Ander Green, Asheville resident, felt that the reasonable person standard is too subjective for the police officers and rather than talk about creating exceptions you should create sub-statuses (what kind of noise is it and who is the dispute between). By putting things in that type of classification on the scene, then on appeal the question is easier to sort through.

Mr. Larry Holt, representing DARN, asked Council to (1) include the Central Business District in the definition of residential areas, and (2) refuse collection hours be from 7:00 a.m. – 11:00 p.m.

Ms. Patricia Dockery, west Asheville resident, urged council to send this noise ordinance back to the Public Safety Committee. She supported a decibel level standard and argued that a sound level meter would cost from $29-150 for a hand-held type for police cars. She said that she was taught how to use one in a very short period of time. She said the survey did not include a question about decibel levels.

Mr. David Rogers, north Asheville resident, supported adoption of the noise ordinance but suggested the daylight hours be from 7:00 a.m. to 10:00 p.m.

Ms. Grace Curry, resident on Edgemont Road, asked Council to include lawn equipment to the definitions in the noise ordinance.

Councilman Bothwell, Chair of the Public Safety Committee, said that using the decibel level standard is also subjective because they are usually taken at the property line and it is difficult for the officer to make that determination. He did support lawn equipment being included in the ordinance. Regarding including the Central Business District, it is a commercial district. He thought that including the Central Business District in the ordinance may be a separate discussion.

In response to Vice-Mayor Manheimer, Ms. Whitlock said that cities do not base their daylight/nighttime house by season, but some deviate them on weekdays vs. weekends. There was no consideration give to that.

Councilman Davis noted that even though these are significant changes, the ordinance can be revisited.

Councilman Hunt felt it was important to let the public know that the noise ordinance does not have to come directly from inside the residential district but it can come from a non-residential area as well.

In response to Councilman Pelly regarding the refuse collection pick-up time, Councilman Bothwell said that many trucks leave as early at 4 a.m. and we are restricting them now to 6 a.m. In addition, they need to access the dumpsters prior to morning traffic and parking.

At Mayor Bellamy's suggestion, it was the consensus of Council to report back to Council in one year on the impact of the ordinance changes.

Vice-Mayor Manheimer liked the idea of revisiting the ordinance in one year, especially focusing on the definition of daytime/nighttime hours, due to our topography.

When Mayor Bellamy asked for public comments, none were received.

80

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved for the adoption of Ordinance No. 4136. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 26**

**VI. NEW BUSINESS:**

**A. MOTION DIRECTING THE CITY MANAGER OR HIS DESIGNEE TO EXTEND EXISTING AGREEMENTS FOR SPONSORSHIP OF FIVE ANCHOR EVENTS IN FY 13-14 INCLUDING ASHEVILLE DRUM CIRCLE, ASHEVILLE HOLIDAY PARADE, DOWNTOWN AFTER 5, GOOMBAY, AND SHINDIG ON THE GREEN**

City Manager Jackson said that this is the consideration of a motion to direct the City Manager or his designee to extend agreements for the sponsorship of five anchor events in FY 13-14.

The City of Asheville charges everyone a fee to permit and have priority use of parks, permitted amenities, or public facilities. These fees cover extra operational expenses associated with events and guarantee space for the permittee. At the same time, some events produced by non-profit agencies or other sister organizations - such as concerts, art shows, cultural celebrations, theater performances, health fairs, sports events, and others – can also directly further the City's core programs. Consequently, reducing or waiving permit fees and considering in-kind support from city operational departments (i.e., Public Works, Asheville Police Department, Asheville Fire Department) can be an opportunity to leverage the City's ability to provide these programs while reaching a wider and more diverse audience, thus serving a public purpose. As a result, in recognition of the value these events bring the city of Asheville and the broader community, the city has historically offered support to events that meet certain criteria.

In March 2010, City Council authorized staff to enter into three-year agreements with various organizations to sponsor five anchor events (Asheville Drum Circle, Asheville Holiday Parade, Downtown After 5, Goombay, and Shindig on the Green) in the form of full permit fee waivers and in-kind labor support (police, sanitation, etc.) valued at $102,211. A summary of that support is provided below.

| | Permit Fee Waivers | Labor Support | Total Support |
|---|---|---|---|
| Asheville Drum Circle | $3,875 | $0 | $3,875 |
| Asheville Holiday Parade | $1,562 | $39,462 | $41,024 |
| Downtown After 5 | $2,143 | $14,780 | $16,923 |
| Goombay Festival | $2,942 | $26,869 | $29,811 |
| Shindig on the Green | $7,414 | $3,164 | $10,578 |

The organizations may use less of the allocated amount but City Council directed staff to cap city support at that dollar amount for the life of the agreements.

In addition, City Council approved a non-profit level for permit fees, which amounted to a 75% reduction in event permit fees, for events that were produced by a registered 501c non-profit verified through documentation; open to the general public; and remained responsible for general liability insurance and other related event costs including police coverage, barricades, parking meter closures, etc.

Staff executed those agreements with FY 2012 as the concluding year. Non-profit fee reductions have been implemented with the Fees and Charges ordinance each year during the budget process. In the last year alone, 163 special events have taken advantage of the non-profit fee discount.

Pros:

- Strategic partnerships allow the city to leverage programming and events to reach a wider and more diverse audience.
- Continuation for one year allows staff the opportunity to evaluate the City's overall event programming strategy in the context of other strategic goals.

Cons:

- Anchor events incur costs to the City for personnel, typically in the form of overtime.
- A 75% reduction in permit fees for non-profit organizations results in lost revenue for the city; however, the city does not budget for this revenue since it tends to fluctuate from year to year.

Partnership agreements and fee discounts result in lost revenue, and labor support results in increased personnel expenses (summarized in table above). In-kind labor costs for anchor events have been included in the City's budget during the agreement period. If these agreements are extended for FY13-14, associated expense and revenue impacts will be included in the City's budget.

City staff is in the process of evaluating its overall event programming strategy in the context of economic and community development, fiscal responsibility and cultural arts goals. This review will include events produced internally by the City (Bele Chere, Fourth of July Celebration) as well as sponsored events and programming needs in key areas like Pack Square Park. This process is expected to take 9-12 months. Until that review and associated recommendations are complete, staff recommends extending the existing agreements with the current anchor event organizations using the same terms for an additional year, FY13-14. City staff will bring forward the non-profit fee discount with the FY13-14 fees and charges recommendations.

Therefore, staff recommends that City Council pass a motion to direct the City Manager or his designee to extend existing agreements for the sponsorship of five anchor events in FY 13-14 to include Asheville Drum Circle, Asheville Holiday Parade, Downtown After 5, Goombay, and Shindig on the Green.

When Mayor Bellamy asked for public comments, none were received.

Vice-Mayor Manheimer moved to direct the City Manager or his designee to extend agreements for the sponsorship of five anchor events in FY 13-14. This motion was seconded by Councilman Bothwell and carried unanimously.

**B. RESOLUTION NO. 12-239 - RESOLUTION REQUESTING HUD WAIVER OF CONFLICT REGARDING EAGLE-MARKET PLACE PROPERTY ACQUISITION**

City Attorney Bob Oast said that this is the consideration of a resolution requesting the U.S. Department of Housing and Urban Development Department to grant an exception to the Conflict of Interest regulations (24 CFR 570.611 and 24 CFR Part 92.356) governing the Federal Community Development Block Grant (CDBG) and HOME Investment Partnerships Programs (HOME), in regard to the "Eagle Market Place" Development project.

82

Upon written request, exceptions to the HOME and CDBG Conflict of Interest provisions applying to employees, officials, consultants, agents, etc. of local governments receiving CDBG and HOME funds may be granted on a case-by-case basis.

HUD may grant exceptions only after the local government has:

- Disclosed the full nature of the conflict and submitted proof that the disclosure has been made public, and
- Provided a legal opinion stating that there would be no violation of state or local law if it granted the exception.

The area at the southwest corner of Eagle and Market Streets in the South Pack Square area has been proposed for redevelopment in connection with a project known as Eagle Market Place. Eagle Market Place is a mixed use development that is planned as 62 apartments, approximately 7,000 SF of commercial space, and approximately 6,000 SF of community space, that will retain and incorporate historic structures and long-established pedestrian streetscape with contemporary design and new residential and commercial uses. It will consist of new construction and renovation/restoration in the historic Eagle Market Street area, which will include the Del Cardo, the Collette and the Ritz buildings. This area was the hub of African American residences and businesses up through the 1940s-50s.

The property at 42-44 South Market Street, which includes the Ritz building (herein "Ritz property"), was acquired in a foreclosure proceeding in 2000 by Gene Ellison and Howard McGlohon as joint tenants. Martha McGlohon, an Assistant Attorney with the City of Asheville, was married to Howard McGlohon. She was not one of the grantees in the deed, but acquired her interest when Howard McGlohon passed away unexpectedly in 2010. She will receive a portion of the proceeds from the sale of the property.

The exception request will be based on the following factors:

- Ms. McGlohon received her interest in the Ritz property by operation of law, and did not actively participate in the acquisition or previous uses of the property;
- Ms. McGlohon has not participated in the marketing of the Ritz property;
- Ms. McGlohon has withdrawn from her functions, responsibilities and decision making participation as a public official with respect to the proposed project; and
- Undue hardship will result to the community when weighted against the public interest served by avoiding the prohibited conflict

The City has committed $300,000 of HOME Investment partnership funds and anticipates investing Community Development Block Grant Section 108 funds to the project. These funds cannot be invested in this project without HUD granting an exception to the Conflict of Interest regulations.

City staff recommends City Council adopt the resolution authorizing the City Manager and City Attorney to submit a request to the U.S. Department of Housing and Urban Development to grant an exception based on the identified factors.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 12-239. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 123**

**C. RESOLUTION NO. 12-240 - RESOLUTION APPOINTING MEMBERS TO THE ALCOHOLIC BEVERAGE CONTROL BOARD**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Alcoholic Beverage Control Board.

The terms of DeRothea Williams and Ken Kaplan expire on November 13, 2012.

The following individuals have applied for the vacancies: Mark W. Cates, Guadalupe Chavarria II, Randall C. Hall, Jody Kuhne, Fred Cooke, Charles Larrick, Melissa L. English, Sarita Mangum, Edward Hay, David Hall, Robin Cape and Max Haner.

Boards & Commissions Committee recommended the appointment of Edward Hay and Robin Cape.

Councilman Bothwell moved to appoint Edward Hay and Robin Cape as members of the Alcoholic Beverage Control Board to each serve a three-year term respectively, terms to expire November 13, 2015, or until their successors have been appointed. This motion was seconded by Councilman Davis and carried unanimously.

Mayor Bellamy asked that for the next vacancy we try look for racial diversity on the ABC Board.

**RESOLUTION BOOK NO. 35 – PAGE 124**

**D. RESOLUTION NO. 12-241 - RESOLUTION APPOINTING A MEMBER TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Homeless Initiative Advisory Committee.

Chris Sullivan has resigned, thus leaving an unexpired term until November 1, 2014.

The following individuals have applied for a vacancy: Charles Rosenblum, John Spears, Charles Barber, Shana Roberts, Cynthia J. Sellers and David Hall.

It was the consensus of the Boards & Commissions Committee, at the suggestion of the Homeless Initiative Advisory Committee, to appoint Mr. Charles Rosenblum.

Councilman Bothwell moved to appoint Charles Rosenblum to serve the unexpired term of Mr. Sullivan, term to expire November 1, 2014, or until his successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 125**

**E. RESOLUTION NO. 12-242 - RESOLUTION APPOINTING A MEMBER TO THE PUBLIC ART & CULTURAL COMMISSION**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Public Art & Cultural Commission.

Mark Koven has resigned, thus leaving an unexpired term until June 30, 2014.

The following individuals have applied for a vacancy: Davyne Dial, John Spears, Grant Millin, Itiyopia Ewart, Laura Corte, Andrew Montrie, Angela Rutledge, Bruce Waller, Melinda

Tennison, Guillermo Carballo Rodriguez, Charley Akers, Amy Huntsman Wayne C. Wheeler, Jared Gold, Bryan Andrews, Victor Palomino and Kara Warren.

It was the consensus of the Boards & Commissions Committee, at the suggestion of the Public Art & Cultural Commission, to appoint Guillermo Carballo Rodriguez

Councilman Bothwell moved to appoint Guillermo Carballo Rodriguez to serve the unexpired term of Mr. Koven, term to expire June 30, 2014, or until his successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 126**

**F. RESOLUTION NO. 12-243 - RESOLUTION APPOINTING A MEMBER TO THE RECREATION BOARD**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Recreation Board.

Lonnie Gilliam has resigned, thus leaving an unexpired term until June 30, 2014.

The following individuals have applied for a vacancy: Robert Pierce, Mike Lovoy, Guillermo Carballo Rodriguez and Jordan Veale.

It was the consensus of the Boards & Commissions Committee, at the suggestion of the Recreation Board, to appoint Jordan Veale.

Councilman Davis moved to appoint Jordan Veale to serve the unexpired term of Mr. Gilliam, term to expire June 30, 2014, or until his successor has been appointed. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 127**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Mr. John Spitzberg, President of the Asheville Homeless Network, explained that Code Purple is the Asheville-Buncombe Homeless Coalition's procedure for providing emergency overflow shelter to people experiencing homelessness in the event of severe weather conditions. He asked that Council investigate why our Homeless Initiative Coordinator said that Code Purple is left to the individual shelters to decide how and when to implement the procedure. After a brief discussion, at the request of Council, City Manager Jackson said that he would be happy to report to the Public Safety Committee on November 26 on the Code Purple policy and the role/responsibilities of the City, individual shelters, and others in the setting of and application of the standards for activation.

Ms. Shirley Dozier, Montford Avenue resident, (1) raised questions regarding William Randolph School (which would have to be answered by the School Board); and (2) requested a response from City Attorney Oast regarding the sale of Tract 3 of the Head of Montford. City Attorney Oast apologized for not responding quicker to Ms. Dozier, but he said would have a response to her soon.

Mayor Bellamy thanked all the veterans who have served our country.

**Lawsuit**

The City was served with a Complaint on October 29, 2012, which is generally described as follows: Pack Place Performing Arts, d/b/a Diana Wortham Theatre; Pack Place Education,

Arts & Science Center; and the City of Asheville. The nature of the complaint is for compensatory damages as a result of defendants' negligence. This matter will be handled by an attorney outside of the City Attorney's Office.

**Closed Session**

At 6:53 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: Robert D. Gaddy, Jr., v. W.M. Yelton, Doug Sheehan, Nicholas Ryan Mitchell, Ervin Hunter, and Jimmy Stover. The statutory authorization is contained in G.S. 143-318.11(a)(3); (2) To discuss matters relating to the location or expansion of industries or other businesses in the area served by the City Council, including agreement on a tentative list of economic development incentives that may be offered in negotiations, provided that any action authorizing the payment of economic development incentives will occur in open session. The statutory authority is contained in G.S. 143-318.11(a)(4); and (3) To prevent the disclosure of information that is privileged or confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The laws that make the information privileged or confidential are N.C. Gen. Stat. sec. 143-318.10 (e). The statutory authorization is contained in N.C. Gen. Stat. sec. 143-318.11 (a) (1). This motion was seconded by Councilman Bothwell and carried unanimously.

At 7:36 p.m., Councilman Davis moved to come out of closed session. This motion was seconded by Councilman Hunt and carried unanimously.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 7:36 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

86

Tuesday – November 27, 2012 – 3:30 p.m.
First Floor North Conference Room – City Hall

Worksession

Present: Vice-Mayor Esther E. Manheimer, Presiding; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Terry M. Bellamy (illness)

**Legislative Issues**

City Attorney Oast provided Council information from last year as a guide. We still remain interested in the Airport and water issues. The Legislature convenes on January 30 for business purposes. There are two issues on the Chamber's state legislative agenda that the City will be interested in - Job Creation, I-26 and wireless infrastructure. Mayor Bellamy felt it was important to work on our relationships with our legislators - not only by City Council, but also our legislative representation.

Throughout discussion, the following items were brought up for legislative discussion (with the Airport and water issues still of major importance): (1) support initiatives in the wireless technology; (2) enabling legislation (a) to change the distribution of the occupancy tax rate; and (b) the City and the TDA determine that rate; (3) completion of the I-26 Connector Project; (4) ask state to fund the bus routes to Weaverville and Black Mountain; (5) partnership to have bus route that would serve MAHEC and Mission Hospitals; (6) do not burden cities with funding responsibilities for bridges and County roads; (7) increase bus service to Airport; (8) River Arts District; (9) PACE program to help homeowners make energy efficiency in their homes; (10) concern of forced consolidation of school districts; (11) assistance in mental health area that will help alleviate pressure on our first responders; and (12) support tax incentives tools for job creation.

Councilman Bothwell said that the Retreat Committee will be meeting again to firm up a December 7 morning meeting (regarding legislative relationships) and the other morning meeting will be held in March (regarding finances). As soon as those dates are firmed up, Council will be notified. Our legislative representation will be invited.

Council asked City Attorney Oat to update Council on Senate Bill 305 that would have amended the charter of the Town of Carrboro to allow them to adopt ordinances prohibiting housing discrimination on the basis of sexual orientation, gender identification and gender expression.

At the suggestion of Mr. Dennis Wicker, Councilman Pelly moved to appoint Vice-Mayor Manheimer as the City Council liaison to our legislative representatives. This motion was seconded by Councilman Hunt and carried unanimously.

At 4:21 p.m., Vice-Mayor Manheimer adjourned the worksession.

Tuesday – November 27, 2012 - 5:00 p.m.

Regular Meeting

Present: Vice-Mayor Esther E. Manheimer, Presiding; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Terry M. Bellamy (illness)

**PLEDGE OF ALLEGIANCE**

Vice-Mayor Manheimer led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Davis gave the invocation.

**I. PROCLAMATIONS:**

**A. PROCLAMATION PROCLAIMING DECEMBER 1, 2012, AS "WORLD AIDS DAY"**

Councilman Smith read the proclamation proclaiming December 1, 2012, as "World AIDS Day" in the City of Asheville. He presented the proclamation to Ms. Pam Siekman, WNCAP Board President and WNCAP World AIDS Day Chairperson, who briefed City Council on some activities taking place during the day.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 13, 2012**

**B. RESOLUTION NO. 12-244 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS FROM THE U.S. DEPT. OF JUSTICE FOR THE 2012 EDWARD BYRNE MEMORIAL JUSTICE ASSISTANCE GRANT**

**ORDINANCE NO. 4137 - BUDGET AMENDMENT FOR THE 2012 EDWARD BYRNE MEMORIAL JUSTICE ASSISTANCE GRANT**

Summary: The consideration of (1) a resolution authorizing the City to accept funds awarded through the 2012 Byrne Justice Assistance Grant – Local Solicitation; and (2) the accompanying budget amendment, in the amount of $56,927.

The Asheville Police Department received Council authorization to apply for the Byrne JAG – Local Solicitation on May 22, 2012 via resolution 12-117. This is a predetermined amount of funds based on the Part 1 Uniform Crime Reporting Crimes. The Asheville Police Department and Buncombe County Sheriff's Department will be allocated $56,927 based on the award matrix, with Asheville receiving $41,582 and Buncombe County receiving $15,345. The distribution of funds has been approved through a signed MOU.

APD plans to purchase in-car video systems to place in patrol cars. These recordings would generally serve as evidence to be utilized in court for the prosecution of criminal cases.

However, these recordings could also be used to aid in resolving allegations of wrongdoing by officers. This would allow for an even greater level of protection of officers and citizens. The digital cameras provide high quality and high resolution video/audio recording of events in and around the patrol car. Recordings such as this help protect the interests of citizens as well as the interests of police officers. Recordings captured with these cameras could potentially aid in mitigating potential civil liability for the City of Asheville by illustrating in detail the actual events that transpired. The secure evidentiary storage and wireless upload capabilities of the system create a user friendly system that is extremely secure and versatile.

The Buncombe County Sheriff's Department plans to purchase a throwbot robotic mobile surveillance system, digital imagery equipment, and TASER X2s. The size and methods of deployment are more versatile than traditional robots and will enhance officer safety by transmitting images back to a display for viewing. This digital imagery equipment enhances the ability to capture non-testimonial identification imagery and will provide for positive identifications quicker. TASER X2s will allow deputies to deal with one or multiple persons at a time with less lethal force – thus enhancing officer and community safety.

There will be an expense of $41,582 by the APD for the in-car video system. The Buncombe County Sheriff's Department will expend $15,345 for the purchase of a throwbot portable surveillance robot, digital imagery equipment and TASERs. This accounts for the total allocation of $56,927 for this Grant.

This is a 100% non-matching grant that will enable the APD to greatly enhance documentation of patrol related activities such as vehicle stops, pursuits, etc. The video evidence will prove to be very valuable in court for both civil and criminal offenses. Additionally, such evidence will be valuable to for internal investigations into officer actions and encounters. This will enhance accountability for officer actions and increase officer and public safety.

This action complies with City Council's Strategic Operating Plan in the Focus Area - Safe - Asheville will be one of the safest and most secure communities when compared to similar cities.

Pros:

- Increasing In-Car video will allow for better documentation of police related incidents.
- Increases officer and citizen accountability through recorded interactions.

Con:

- None.

There is no fiscal impact at this time for City Council to approve the resolution accepting this grant award. There will be maintenance and replacement costs for the equipment that will need to be included in future fiscal year budgets.

City staff recommends City Council adopt (1) the resolution authorizing the City Manager to accept grant funds through US Office of Justice Programs; and (2) the associated budget amendment, in the amount of $56,927.

**RESOLUTION BOOK NO. 35 – PAGE 128**
**ORDINANCE BOOK NO. 28 - PAGE 28**

**C. RESOLUTION NO. 12-245 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS FROM THE U.S. DEPT. OF JUSTICE FOR THE 2012 BALLISTIC VEST PARTNERSHIP GRANT**

**ORDINANCE NO. 4138 - BUDGET AMENDMENT FOR THE 2012 BALLISTIC VEST PARTNERSHIP GRANT**

Summary: The consideration of (1) a resolution authorizing the City Manager to accept funds through the Bulletproof Vest Partnership Program in the amount of $7,735 to cover the 50% matching cost of bulletproof vests for officers; and (2) the accompanying budget amendment, in the amount of $7,735.

The City of Asheville Police Department currently participates in the US Department of Justice BVP program. The funds allocated through this program are designed to offset departmental cost associated with purchasing bulletproof vests. The City of Asheville has been awarded $7,735. This request will enable the purchase (50% funding) of 26 bulletproof vests over the next 2 years.

This action complies with City Council's Strategic Operating Plan in the Focus Areas - Safe - Asheville will be one of the safest and most secure communities when compared to similar cities and Fiscal Responsibility – The City of Asheville will support a stronger, more prosperous community by making smart investments that accomplish lasting, tangible returns.

Pros:

- Reduction in cost to the City of Asheville for the purchase of bulletproof vests
- Increase in officer safety by providing crucial safety equipment

Con:

- None

There is a 50% match required by the City of Asheville in the amount of $7,735 to accept the awarded funds of $7,735. Matching funds $7,735 will come from existing FY13 funds allocated in Patrol – Supplies – Safety Equipment. It should be noted that the overall fiscal impact to the City of Asheville is reduced by this amount due to the fact that the APD would have to purchase these vests at full replacement costs if we do not accept this award.

City staff recommends City Council adopt (1) the resolution authorizing the City Manager to accept funds through US Department of Justice in the amount of $7,735; (2) the accompanying budget amendment.

**RESOLUTION BOOK NO. 35 – PAGE 129**
**ORDINANCE BOOK NO. 28 – PAGE 30**

**D. RESOLUTION NO. 12-246 - RESOLUTION SUPPORTING THE VOLUNTEER INCOME TAX ASSISTANCE PROGRAM**

Summary: (1) The City Council of the City of Asheville hereby expresses their support for the establishment of a community-based coalition for the Volunteer Income Tax Assistance [VITA] program; (2) That the City of Asheville provide adequate space to conduct VITA activities during the normal income tax filing season of January through April; (3) That the City of Asheville allow city and county employees willing to volunteer for VITA activities flexibility to do so, as long as the volunteer activities do not disrupt normal working activities; and (4) That the City of Asheville provide nominal funding to provide for VITA activity supplies and travel for volunteers to and from city and county VITA sites.

**RESOLUTION BOOK NO. 25 - PAGE 130**

**E. ORDINANCE NO. 4139 - BUDGET AMENDMENT FOR FISCAL YEAR 2012-13 SENIOR CENTER GENERAL PURPOSE FUNDING FOR THE SENIOR OPPORTUNITY CENTER AND HARVEST HOUSE**

Summary: The consideration of budget amendments in the amount of $3,917 for Senior Opportunity Center and $3,917 for Harvest House for an appropriation from the State of North Carolina, Department of Health and Human Services, Division on Aging and the Land of Sky Regional Council/Area Agency on Aging through the Senior Center General Purpose Funding.

Funds will be used at the Senior Opportunity Center to 1) replace cabinets and countertops in restrooms, 2) paint center ceiling, and 3) purchase program and facility equipment. The allocation requires a 25% local match which will be provided via in-kind services of staff time to manage the project.

Funds will be used at Harvest House to 1) replace lighting in the craft rooms, 2) upgrade exit signage, and 3) purchase program and facility equipment. This allocation also requires a 25% local match which will be provided via in-kind services of staff time to manage the project.

This action complies with the City Council Strategic Goal of fiscal responsibility in that it provides an alternative for enhancing the city's infrastructure maintenance. This action also complies with the Parks, Recreation, Cultural Arts & Greenways Master Plan in that it will increase the level of service for indoor facilities to bring older facilities up to date before building new facilities, increase department funding with alternative funding via grants, and enhance the department's means to respond to identified programming priorities.

Pros:

- Facility improvements will address existing maintenance projects and improve accessibility.
- Equipment purchases will enhance the customer experience and expand programming opportunities provided

Con:

- None

The allocation will increase the City's General Fund budget by $7,834 in special project accounts designated for the Senior Opportunity Center and Harvest House. The 25% local match will be provided through in-kind services of staff time to manage the projects.

Staff recommends City Council to approve the budget amendment authorizing the City Manager to establish a budget in the amount of 1) $3,917 for Senior Opportunity Center, and 2) $3,917 for Harvest House for facility improvements and equipment.

**ORDINANCE BOOK NO. 28 - PAGE 32**

**F. RESOLUTION NO. 12 - 247 - RESOLUTION AUTHORIZING THE CITY MANAGER SIGN AMENDMENT NO. 3 FOR THE KIMLEY-HORN CONTRACT FOR 51 BILTMORE AVENUE**

Summary: The consideration of a resolution authorizing the City Manager to execute an amended contract with Kimley-Horn and Associates, Inc. in the amount of $71,000 to cover additional construction inspection/management services for the parking garage at 51 Biltmore Avenue.

The City of Asheville contracted with Kimley-Horn and Associates, Inc., in the amount of $42,000 to evaluate the feasibility of constructing a parking garage at 51 Biltmore Avenue in July 2008. In October 2008, the City amended the contract to include design review, value engineering and construction inspection/management of the project. The approved amendment was in the amount of $215,000 for a total contract amount of $257,000. In November 2011, City Council approved a second amendment to the contract in the about of $175,000 because of the lag in the design period and the start of construction. During this period of time, Kimley Horn

provided services necessary to secure the financing of the project. Additionally, we requested that Kimley-Horn provide weekly site inspections as opposed to monthly inspections as stated in the original contract. We also asked them to provide additional oversight as needed to sign off on each pay application request. The total amount of the contract including this increase would be $503,000.

Staff is requesting a third amendment to the Kimley-Horn contract for the following reasons:

- The project took an additional three months to complete during which time Kimley-Horn provided weekly inspections to finish the project. Delays were attributed to complications in completing the punch list items that needed to be completed prior to obtaining the temporary and final certificate of occupancy. The City will receive some discounted change order as a result of this delay. We do not know the amount of this change but do not expect it to cover the full cost of this amendment. However, the overall project is still within budget including this amendment.
- The only major unresolved issue on the garage is the concrete finish. Kimley-Horn has worked more hours than anticipated to resolve this issue.

This project complies with the City's Parking Action Plan. Additionally, the action complies with Job Growth and Community Development by supporting a dynamic and robust local economy with balanced and sustainable growth.

Pros:

- Quality control over the project during this period was critical to making sure all the punch list items are complete.
- Reduces liability in releasing the retainage on the project.
- Documented maintenance plan provides for the extended life of the parking facility.

Con:

- Additional cost of $71,000.

There is sufficient budget remaining in the Biltmore Avenue Garage capital project for this contract amendment.

Staff recommends that City Council authorize the City Manager to execute an amended contract with Kimley-Horn and Associates, Inc. in the amount of $71,000 to provide additional construction inspection/management services for the parking garage at 51 Biltmore Avenue.

In response to Councilman Bothwell, Public Works Director Cathy Ball said that this is still within the budgeted amount for this project.

**RESOLUTION BOOK NO. 35 – PAGE 132**

**G. RESOLUTION NO. 12-248 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH B ALLEN CONSTRUCTION INC. FOR CONSTRUCTION IMPROVEMENTS TO THE RED WOLF EXHIBIT, SPIDER KINGDOM PLAYGROUND AND TRAIL EXTENSION AT THE WNC NATURE CENTER**

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with B Allen Construction, Inc. to construct improvements to the red wolf exhibit, Spider Kingdom Playground and trail extension at the WNC Nature Center for an amount not to exceed $299,000.

In February 2009, City Council approved the Parks, Recreation Cultural Arts and Greenways Master Plan which recommends the development of a master site plan for future development of the WNC Nature Center. In 2011, the city completed the 2020 Vision Master Site Plan that directs future improvements at the WNC Nature Center.

The 2020 Vision Master Site Plan prioritizes the importance of enhancing the red wolf viewing experience, establishing a themed playground and extending a trail to make the red wolf exhibit more accessible as well enable future exhibit areas. The architectural and engineering construction documents for this area were completed earlier in 2012.

Staff followed the municipal process to conduct the request for proposals to seek qualified, professional firms to perform the construction. Staff received three proposals, and interviewed all three finalists. After thorough review and evaluation, staff recommended B Allen Construction, Inc., located at 340 Wiggins Road, Candler, North Carolina, as the lowest, responsive and responsible bidder to perform the construction work for the project.

This action complies with the City Council Strategic Operating Plan in that it contributes to the Fiscal Responsibility Goal to explore alternatives for enhancing the city's long-term financial commitment t master plan implementation, infrastructure maintenance, capital improvements and public facilities. This action also complies with the Parks, Recreation, Cultural Arts & Greenways Master Plan in that it ensures a continued high level of service in parks, and improves a special facility.

Pros:

- The project adheres to the Nature Center 2020 Vision Master Site Plan
- The project will enhance the visitor experience, education and observation of the red wolves
- The improvements will create a new interpretative, play area for children
- Handicap accessible routes will be enhanced and increased for the public
- The improvement will set the stage for future, themed exhibit areas and site improvements
- The project is fully-funded with non-General Fund sources

Con:

- Once complete, the project will require additional maintenance resources

The project is fully funded with non-General Fund sources. The $299,000 to support the construction contract for improvements to the red wolf exhibit, Spider Kingdom Playground and trail extension is funded by a $104,450 grant from the U.S. Department of Interior, a $168,856 donation from the Friends of the Nature Center, and a $25,694 grant from the North Carolina Department Commerce.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a contract with B Allen Construction, Inc. to construct the red wolf exhibit improvements, Spider Kingdom Playground and trail extension at the WNC Nature Center for an amount not to exceed $299,000.

**RESOLUTION BOOK NO. 35 – PAGE 133**

**H. RESOLUTION NO. 12-249 - RESOLUTION AUTHORIZING AN EXEMPTION TO BID THE PURCHASE OF SUPPLIES AND MATERIALS FOR THE AUTOMATED METER READING (AMR) PROJECT AND APPROVING THE PURCHASE OF THE AMR SPARE PARTS FROM HERSEY METERS COMPANY BASED ON STANDARDIZATION NEEDS**

Summary: The consideration of a resolution (1) authorizing an exemption to bid the purchase of supplies and materials for the Automated Meter Reading (AMR) Project; and (2) approving the purchase of the AMR spare parts from Hersey Meters Company based on standardization needs.

Currently, Water Resources is under contract with Hersey Meters for the Automated Meter Reading (AMR) Project. As part of the project, spare parts are sometimes needed to make repairs to the AMR devices. The spare parts can only be purchased from Hersey Meters since they have the trademark on the AMR device and its parts.

Water Resources is recommending that the purchase of supplies and materials needed for the AMR Project be through Hersey Meters since standardization or compatibility is the overriding consideration per G.S. 143-129 (e) (6) (iii).

This project is part of City Council's strategic plan to maintain city infrastructure and to operate the City of Asheville to the highest levels of fiscal responsibility.

Pros:
- Approval will allow the City to purchase repair and replacement parts needed for the AMR Project.
- Maintaining this equipment in operational condition will prolong the life of the equipment and enhance the value of the City's initial investment.

Con:
- None.

The purchase of supplies and materials relating to the AMR Project is currently built into the CIP budget. The amount needed for spare parts is currently $35,900.20. Once the AMR project is complete, future purchases will be funded from the Water Operating budget.

City staff recommends City Council approval of the resolution: (1) authorizing an exemption to bid the purchase of supplies and materials for the Automated Meter Reading (AMR) Project; and (2) approving the purchase of the AMR spare parts from Hersey Meters Company based on standardization needs.

**RESOLUTION BOOK NO. 35 - PAGE 134**

**I. RESOLUTION NO. 12-250 - RESOLUTION AUTHORIZING EXECUTION OF EASEMENT TO PROGRESS ENERGY CORP. FOR ELECTRIC POWER SERVICE TO CITY BUILDING**

Summary: The consideration of a resolution authorizing the Mayor to execute an easement for a transformer pad and service line for the City Building.

Progress Energy is replacing an updating its facilities servicing the City Building. Currently, the service in the City Building is provided through three transformers located in the basement of the building. Access to the transformers is only through the building. These transformers are obsolete, and their location inside the City Building presents safety and service access issues.

The new location will be on the side of the employee parking lot on Marjorie Street, across the street from the entrance ramp to the garage. The connection to City Hall will be via underground cable running under Marjorie Street and the garage ramp.

This Project will modernize existing facilities, reduce the number of transformers from three to one, and increase the capacity for the future needs of the City Building. The easement will not hinder the use of Marjorie Street.

Pros:
- Replaces obsolete equipment;
- Increases capacity for service to City Building; and
- Improves safety and access

Con:
- New transformer will be above ground (but not in a particularly sensitive area).

Adoption of the resolution is recommended.

**RESOLUTION BOOK NO. 35 - PAGE 135**

**J. RESOLUTION NO. 12-251 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT WITH NELSON, MULLINS, RILEY & SCARBOROUGH, LLP, FOR GOVERNMENTAL RELATIONS WORK**

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement for legislative representation for services with Nelson, Mullins, Riley & Scarborough.

In 2011, the North Carolina General Assembly established a committee to study the possible consolidation of water systems and sewer systems in North Carolina. The committee's work focused on the Metropolitan Sewerage District of Buncombe County (MSD) and the City of Asheville's water system. The committee made several recommendations, including a recommendation that legislation be introduced in the 2013 General Assembly to consolidate the City's water system with MSD if the interested governments are unable to work out their own solution for consolidation. In 2012, legislation was introduced and enacted to enable a Metropolitan Sewerage District to perform the functions of a water authority, and to provide for the expansion of the governing board of MSD. Session Law 2012-203. The City is advised that legislation is likely to be introduced in the 2013 General Assembly to effectuate the consolidation.

The City has a substantial interest in any legislation that affects, or may affect its water system, and needs assistance advocating position in the legislature. The law firm of Nelson, Mullins, Riley & Scarborough, with an office in Raleigh, provides legislative representation and advocacy services. Dennis Wicker of that firm has submitted a proposal to assist the City in the legislature, including:

- Providing strategic counsel to the City regarding enactment of legislation affecting the water system.
- Monitoring and reporting on legislative activities related to the water system. Drafting proposed amendments to legislation, or proposed alternative bills regarding the water system.

The cost of providing this service is $60,000, plus costs, payable monthly at a rate of $5,000 per month.

This is consistent with Council's goal of maintaining control of the Water System, as expressed in Resolution No. 12-36, adopted February 14, 2012.

Pros:

- Strengthens the City's presence in the seat of State government at an important time.
- The firm has substantial experience in legislative matters at the State and Federal level, and is a full-service law firm.

Con:

- None noted.

The fiscal impact is $60,000 per year ($35,000 from FY 2012-13 budget). This cost will be absorbed within the existing FY 2012-13 Water Resources Fund budget.

Adoption of the resolution is recommended.

**RESOLUTION BOOK NO. 35 - PAGE 136**

**K. RESOLUTION NO. 12-254 - RESOLUTION DESIGNATING THE USE OF ADDITIONAL EMERGENCY SOLUTIONS GRANT FUNDING FOR THE ASHEVILLE-BUNCOMBE CONTINUUM OF CARE**

Summary: This is the consideration of a resolution to designate the use of additional Emergency Solutions Grant funding for the Asheville-Buncombe Continuum of Care.

As reported to and approved by Council, the State awarded the Asheville-Buncombe Continuum of Care $219,358 in Emergency Solution Grant Funds. The City, as lead agency and fiscal agent, had submitted an application for $164,444, to fund the following projects:

| | Emergency Response | Housing Stabilization | Total |
|---|---|---|---|
| **Organization** | | | |
| ABCCM (Steadfast House) | $ 12,445 | $ 23,112 | $ 35,557 |
| Helpmate | $ 15,000 | $ - | $ 15,000 |
| Homeward Bound | $ 10,000 | $ 80,360 | $ 90,360 |
| Salvation Army | $ 23,527 | | $ 23,527 |
| | | | |
| TOTAL REQUESTS | $ 60,972 | $ 103,472 | $ 164,444 |

We were additionally awarded $4,914 for use in Emergency Services and/or Housing Stability and $50,000 for use in Housing Stabilization and/or HMIS. The Homeless Initiative Advisory Committee's ESG Subcommittee reviewed the eligible uses for these funds, in the context of the overall funding for homelessness in the community, and the needs of community partners. It was clear to the subcommittee that the Homeless Information Management System (HMIS) will be a key element in continuing availability of funding for our community. Ensuring the integrity of managing local data into this system and keeping the system affordable to all agencies engaged in serving persons experiencing homelessness emerged as the top priority for the use of the $50,000 additionally granted for Housing Stabilization or HMIS. This includes managing the increased cost of the system to its users. The cost of the system to Asheville users will increase from $350/user to $63,000 for a total community fee in July of 2013, due to the changes in how the State has subsidized the cost of that system. The subcommittee recommended that the funds available for emergency services be made available to the Salvation Army, whose funding had been cut most significantly from last year's ESG program. The subcommittee's recommendations were endorsed by the full Homeless Initiative Advisory Committee.

This recommendation directly supports the Council Strategic objective to eliminate chronic homelessness in accord with the adopted Ten Year Plan.

Pros:

- The proposed use of funds will ensure the integrity of data used to assess the needs of persons experiencing homelessness in Asheville;
- The continued use of HMIS will be kept affordable to the network of agencies providing homeless services;
- Funding for the Salvation Army will help ensure the provision of emergency services by that agency.

Con:

- Funds are not recommended for use in direct services other than those provided by the Salvation Army. Funding for direct services, although increased this year through the use of a variety of funding resources, remains inadequate to meet the need.

The recommendation proposes the use of federal funds, passed through the State of North Carolina, to increase the City and County's ability to assess and respond to the needs for housing for persons experiencing homelessness, and additionally will assist in maintaining the affordability of the statewide information management system for local participating agencies. No City general funds are affected by this proposal.

The Housing and Community Development Committee recommends the following use of these additional funds:

| | Emergency Response | Housing Stabilization/HMIS | Total |
|---|---|---|---|
| **Organization** | | | |
| Salvation Army | $ 4,914 | | $ 28,441 (including original award of $23,527) |
| City of Asheville | $ | $ 15,000 | $ 15,000 |
| City of Asheville | $ | $ 35,000 | $ 35,000 |

The City of Asheville would use $15,000 to assist in funding a part-time temporary position to work with the Homeless Initiative Coordinator in collecting, reporting and improving HMIS data in our community. The $35,000 would be paid directly to the Carolina Homeless Information Network to offset HMIS user fees for the entire community of Asheville Buncombe Continuum of Care providers utilizing the system.

**RESOLUTION BOOK NO. 35 – PAGE 140**

Vice-Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Hunt moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Davis and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. ASHEVILLE-BUNCOMBE CRIME-STOPPERS UPDATE

Mr. David Herbert, Chairman of the Asheville-Buncombe Crime-Stoppers, introduced his members in the audience and briefed Council on their activities of the past year and goals for the upcoming year.

Lt. Randy Sorrells, Crime-Stoppers Coordinator, provided Council with various statistics of the Crime-Stoppers Program.

On behalf of City Council, Vice-Mayor Manheimer thanked Mr. Herbert for his leadership and the entire Board for their dedication.

**B. ASHEVILLE DOWNTOWN COMMISSION UPDATE**

Mr. Bruce Hazzard, Chairman of the Asheville Downtown Commission, briefed Council on their activities of the past year and goals for the upcoming year.

On behalf of City Council, Vice-Mayor Manheimer thanked Mr. Hazzard for his leadership and the entire Commission for their dedication.

**C. TRANSPORTATION ADVISORY COMMITTEE/REGIONAL TRANSPORTATION PLANNING UPDATE**

Director of Transportation Ken Putnam said that the purpose of this report is to update City Council on the Long Range Transportation Plan (LRTP) and to seek an endorsement from City Council for the French Broad River Metropolitan Planning Organization (FBRMPO) to collect local travel survey data that would be used in the development of a completely new travel demand model instead of simply updating the existing model.

The Long Range Transportation Plan (LRTP) is a Federally-required long-term planning document that examines current and future transportation system needs. The French Broad River Metropolitan Planning Organization (FBRMPO) updates their LRTP every five years and it includes highways, public transportation, railways, bicycle, and pedestrian facilities. It also considers connections to aviation. The document is a fiscally constrained plan that is used by the FBRMPO to set priorities for transportation improvements in our area.

A travel demand model is the key tool used to develop the transportation alternatives for the LRTP. It is also used by the North Carolina Department of Transportation (NCDOT) to develop traffic projections for Transportation Improvement Program (TIP) projects and ultimately for project design. The model uses mathematical equations to estimate the travel patterns in an area. In order to develop the equations, information is needed about how people make decisions when they are traveling in an area. The best way to get this information is to have household surveys performed in the model area. In addition, population and employment data (typically referred to as socio economic data) is collected for the present year and estimated for future years based on how the FBRMPO expects the region to grow. The socio economic data is a direct link to how many "trips" or how much traffic there will be in the area.

Generally speaking a travel demand model is updated each time an LRTP is developed. Some updates are more extensive than others depending on the available data, how the area has grown, and the expected uses of the model. Most MPOs are using the new census blocks and data from the 2010 Census as an opportunity to perform major upgrades to their specific models. Then minor updates (mostly socio-economic data) would follow for the next few future updates. A good model might be useful for 15 to 20 years with only minor updates to the socio-economic data but little changes to the actual structure of the model. Travel patterns in an urban area can be very complicated.

It is not uncommon for areas to "borrow" data from other similar areas for developing models. However, local survey data would allow for the best understanding of the mix of users, travel demand, travel characteristics (for example, mode choice), and time of day profiles unique to the Asheville area. It would allow the transportation needs and recommendations to be better evaluated. Our seasonal population and retirees in the area might have different travel behavior and travel characteristics compared to other areas.

The travel demand model is used to determine where congestion is currently a problem and where congestion is expected to become an issue in the next 25 to 30 years. Depending on the level of detail in the model, it might be used to test various highway, transit and land-use scenarios so a MPO could have more confidence in the transportation decisions it is making. An improved model could help the local area answer the questions of the best combinations of future land use and transportation improvements. The model could assist in the evaluation of a project's impact to the overall transportation system.

Data from the travel demand model is also used in the NCDOT project prioritization process to rank projects. The model is used to demonstrate the impact of a specific project to the region and the more positive impact a project demonstrates, the better it shows up in the prioritization process from the NCDOT input. The model is used to validate the need for projects, especially key projects like improving I-26. If the model is based on local travel behavior it will better represent impacts of specific projects, whether a widening or new location or new connection facility. It is necessary to prove the transportation need for the project in order for it to be considered for inclusion into the State Transportation Improvement Program (TIP). Information from the model is essential for showing what the transportation demand on the system is with the project and without the project. Once a need is demonstrated, it is easier to get funding.

Many of the Long Range Transportation Plan (LRTP) stakeholders are not satisfied with the existing travel demand model because it used "borrowed" data. Also, the FBRMPO has expressed the desire to have a model that would better test transit and land use scenarios. The Transportation Advisory Committee (TAC) appointed a sub-committee during November 2010 to address this specific issue. Typically, the MPO pays for the model update from their fund balance plus a 20% local match. The NCDOT has agreed to fully fund a new travel demand model if the FBRMPO uses its fund balance and the individual members provide the local match to collect the local data. The estimated cost for the local travel survey is $360,000 and the local match equals $72,000. Asheville's share of the local match is about $15,000. Although this need was not budgeted during the normal budgeting process, staff is confident that it can be absorbed in the Transportation Department's current operating budget.

In summary, a travel demand model is recognized as the best method for a MPO to evaluate highway and transit options and to get the data needed to prove the validity of a project so that it could be considered for the State Transportation Improvement Program (TIP) and then ultimately funded.

Based on this information, staff would like City Council to endorse and encourage the FBRMPO to collect local travel survey data that would be used in the development of a completely new travel demand model. The new travel demand model would then be used to help develop the next LRTP update (FY 2014-15).

Mr. Putnam responded to various questions from Councilman Bothwell.

Councilman Hunt moved to endorse and encourage the FBRMPO to collect local travel survey data that would be used in the development of a completely new travel demand model. This motion was seconded by Councilman Smith and carried unanimously.

## D. WATER RESOURCES UPDATE

Project Manager Phil Kleisler updated City Council on the Water Resources process update from November 13 - 27, 2012. He then provided Council with the information sharing between the City and MSD.

Vice-Mayor Manheimer said that the MSD Planning Committee will be meeting this Friday to continue discussion on the water/sewer merger.

## E. QUARTERLY REPORTS

### Committee Chair Reports

Vice-Mayor Manheimer, Chairman of the Planning & Economic Development Committee, provided Council with a brief update on some major accomplishments during this quarter.

Councilman Bothwell, Chairman of the Public Safety Committee, provided Council with a brief update on some major accomplishments during this quarter.

### Financial Report

Budget Manager Tony McDowell provided Council with the following financial information which reflects the City's overall financial position for the fiscal year through September, 2012.

***Amendments.*** The General Fund budget presented in this first quarter report reflects the adopted budget of $89,922,437; along with five budget amendments approved by Council during the first quarter that totaled $566,527. A summary of the five amendments is presented below. None of the amendments involved an appropriation from fund balance. The $63,000 for the firing range mitigation project was appropriated from unexpended capital funds that were being held in reserve.

| | |
|---|---|
| Adopted Budget | 89,922,437 |
| Budget Amendments: | |
| NC Arts Council Grassroots Arts Grant | 50,431 |
| Linamar Economic Development Incentive | 200,000 |
| Firing Range Mitigation Project | 63,000 |
| Public Housing Police Unit Partnership | 217,000 |
| RENCI Grove Arcade Lease | 36,096 |
| 9/30/2012 Budget | $90,488,964 |

***Revenues.*** Through September 30, 2012, the City has collected $13,953,147 in General Fund revenue, which represents approximately 15.4% of the total General Fund revenue budget. Property tax revenue came in slightly under budget in FY 2011-12, and staff is projecting that trend of slower than anticipated growth to continue in FY 2012-13. Sales tax revenue is up 2.9% compared to the same period last fiscal year. The budget contemplated 5.0% growth in sales taxes, so year-end projections currently show a slight shortfall in this revenue. Staff is also projecting that state utility tax revenue will fall short of budget. On a positive note, revenue from electronic gaming operations has exceeded budget estimates to date. In total, *FY 2012-13 General Fund revenue is currently projected to come in $227,000 or 0.25% in under budget.*

***Expenditures.*** General Fund expenditures through September 30, 2012 total $18,083,399 or 20.0% of the budget, which is typical for this point in the fiscal year. Personnel expenses, the largest component of the General Fund budget, are running at the budget through the first quarter. Expenditures for fuel and fleet maintenance were running slightly over budget through the first quarter. Staff will continue to closely monitor these expenses throughout the

fiscal year. *Based on expenditure patterns in the previous fiscal year and the trends noted above, staff is projecting that expenditures will finish the year approximately $550,000 under budget, which will more than offset the expected revenue shortfall.*

***Fund Balance.*** The City ended FY 2011-12 with available fund balance of $13.63 million, which equated to 15.9% of FY 2011-12 expenditures. At the November 13th meeting, Council approved the use of $650,000 in fund balance for one-time employee salary bonuses. *Factoring in this fund balance usage along with current revenue and revenue projections for FY 2012-13, staff estimates that available fund balance at June 30, 2013 will be $13.3 million or 15.0% of estimated expenditures.*

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO UPDATE OUTDOOR LIGHTING STANDARDS

At the request of City staff, Councilman Hunt moved to continue this public hearing until December 11, 2012. This motion was seconded by Councilman Bothwell and carried unanimously.

### B. PUBLIC HEARING TO CONSIDER THE VOLUNTARY ANNEXATION OF PROPERTY LOCATED IN THE FALCON RIDGE AT HAW CREEK SUBDIVISION

**ORDINANCE NO. 4140 - ORDINANCE EXTENDING THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE PROPERTY LOCATED IN THE FALCON RIDGE AT HAW CREEK SUBDIVISION**

Urban Planner Julia Fields said that this is the consideration of an ordinance to extend the corporate limits of the City of Asheville to include property in the Falcon Ridge at Haw Creek Subdivision. This public hearing was advertised on November 16, 2012.

The following property owners (with property identification number shown) have petitioned the City of Asheville for the annexation of twenty-one lots or portions of lots located in the Falcon Ridge at Haw Creek Subdivision.

| PIN Number | Address | Property Owner |
|---|---|---|
| | | |
| Portion of 9659.62-2222 | Common Area – No Address | Falcon Ridge at Haw Creek, LLC |
| 9659.53-8826 | 91 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-0863 | 85 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-1689 | 79 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-3527 | 71 Boulder Creek Way | Ridge View Homes, LLC |
| 9659.63-4456 | 63 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-5380 | 57 Boulder Creek Way | George Ryan Trust & Martha E. Ryan Trust |
| Portion of 9659.63-6014 | 51 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| Portion of 9659.62-3969 | 44 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| Portion of 9659.63-1047 | 125 Boulder Creek Way | Rebecca G. Mulzer |
| Portion of 9659.53-9062 | 123 Boulder Creek Way | Angela M. Erwin |
| Portion of 9659.53-8036 | 119 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.53-9275 | 120 Boulder Creek Way | George Ryan & Jean M. Ryan |
| 9659.53-9366 | Infrastructure – No Address | Falcon Ridge at Haw Creek, LLC |
| 9659.53-9607 | 92 Boulder Creek Way | John Allen & Patricia J. Allen |

| | | |
|---|---|---|
| 9659.63-0548 | 82 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.53-9543 | 135 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-0486 | 133 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-1388 | 131 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-1292 | 127 Boulder Creek Way | Falcon Ridge at Haw Creek, LLC |
| 9659.63-3168 | 56 Boulder Creek Way | Emily S. Joyce Revocable Trust & Emily S. Joyce Trust |

The property to be annexed contains a total of 22.93 acres. One lot contains a home that is under construction and two lots contain water system infrastructure that has been inspected and approved by the City of Asheville. The property is contiguous to the primary corporate limits of the City of Asheville, is described in the ordinance, and qualifies for annexation by petition as set forth in NCGS 160A-31.

Pursuant to N. C. Gen. Stat. sec. 160A-31, a public hearing must be held prior to adopting any ordinance for voluntary annexation. If City Council decides to proceed with this request, the effective date for the annexation would be November 27, 2012.

Pros:

- Provides for the orderly growth of the City and the tax base through the acceptance of appropriate areas into the corporate limits where owners desire annexation.
- Complies with the 2025 Plan in that it supports the strategy of promoting voluntary annexation of developing areas.
- Allows for service provisions for a new subdivision (of which a part is already in the City) enhancing the area with an urban level of service.

Con:

- Marginal costs for patrol.

At the City's current tax rate, the property, valued at $1,527,700.00, would generate approximately $ 6,416 annually. There are no financial impact or debt service payments required to a rural fire department as the area is currently serviced by the City of Asheville Fire Department under the Haw Creek Fire District agreement. The Fire Department has been receiving the .09/100 tax for servicing this area. This will no longer be paid by the property owners, thus the City will see a reduction in this revenue of $1,375. Therefore, the net financial gain for the City is $5,041.

City staff recommends City Council adopt the ordinance annexing the property within the Falcon Ridge at Haw Creek Subdivision that is not currently within the corporate limits.

City Attorney Oast noted that a Certificate of Sufficiency has been prepared by the City Clerk that will be incorporated into the record, and asked that the resolution be amended to include the following clause: " and that said petition was not submitted pursuant to subdivision (b) (1) or (j) of N.C. Gen. Stat. sec. 160A-31."

Vice-Mayor Manheimer opened the public hearing at 6:00 p.m.

Mr. Mike Anderson, engineer on the project representing the property owners, commended the developer for working with the neighborhood.

Vice-Mayor Manheimer closed the public hearing at 6:03 p.m.

Councilman Pelly said that the developer has been working closely with the community understanding how the development will have an impact on the neighborhood. The developer

has offered space for a community garden in addition to agreeing to install speed humps on Cisco Road.

Vice-Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved for the adoption of Ordinance No. 4140, as amended by City Attorney Oast. This motion was seconded by Councilman Pelly and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 34**

**RESOLUTION NO. 12-252 - RESOLUTION ACCEPTING BOULDER CREEK WAY IN THE FALCON RIDGE SUBDIVISION AS CITY MAINTAINED STREETS**

Assistant Director of Public Works David Foster said that this is the consideration of a resolution to accept Boulder Creek Way as a City maintained street.

Code of Ordinances sec. 7-15-1(f)(4) requires that streets dedicated for public use be accepted by resolution of the City Council. The Falcon Ridge Subdivision annexation is being considered for approval by City Council on November 27, 2012, with an effective date of November 27, 2012.

Boulder Creek Way from Cisco Road to its dead-end is a privately-maintained street that has an average width of 20 feet with 24 inch curb and gutter, a length of .66 miles, and a right-of-way width that varies from 40 to 65 feet. A five foot back of curb sidewalk also exists along the entire length of the street.

The subject street was inspected by all applicable City departments and the general street conditions were determined to be satisfactory and any maintenance issues will be handled as part of the City's routine maintenance funding.

Following City Council's approval of this resolution, the subject street will be added to the official Powell Bill listing of City maintained streets.

This action complies with the City Council 2011-12 Strategic Operating Plan by accepting street infrastructure to help support the health growth of the City.

Pros:

- The City will receive Powell Bill funding from the N.C. Dept. of Transportation to help maintain the street.
- The streets will provide access and connectivity into a newly established residential neighborhood.

Cons:

- There are identified repairs the developer is completing to bring the road in full compliance with the Asheville Standards and Specifications.
- Powell Bill funds will not cover 100% of the total maintenance costs to maintain the street.

Other than the future maintenance obligations, there are no additional fiscal impacts to the City of Asheville.

Staff recommends that the Asheville City Council adopt a resolution accepting Boulder Creek Way as a City maintained street.

Vice-Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Pelly moved for the adoption of Resolution No. 12-252. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35– PAGE 137**

**C. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF WELLINGTON ESTATES LOCATED ON 42 AIRPORT ROAD FROM HIGHWAY BUSINESS DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING WITH AN EXTENSION OF THE MANUFACTURED HOUSING COMMUNITY OVERLAY DISTRICT TO ALLOW THE EXPANSION OF AN EXISTING MANUFACTURED HOME PARK, INCLUDING MODIFICATION REQUESTS TO LOT SIZE, LOT WIDTH, SETBACKS, STREET STANDARDS, SIDEWALKS, STREET LIGHTS, AND OPEN SPACE**

**ORDINANCE NO. 4141 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY WELLINGTON ESTATES LOCATED ON 42 AIRPORT ROAD FROM HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT WITH AN EXTENSION OF THE MANUFACTURED HOUSING COMMUNITY OVERLAY DISTRICT TO ALLOW THE EXPANSION OF AN EXISTING MANUFACTURED HOME PARK**

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone Wellington Estates, located on 42 Airport Road, from Highway Business District to RM-16 Residential Multi-Family High Density District/Conditional Zoning with an extension of the Manufactured Housing Community Overlay District to allow the expansion of an existing manufactured home park, along with a modification request to lot size, lot width, setbacks, street standards, sidewalks, streetlights and open space. This public hearing was advertised on November 16 and 23, 2012.

The site consists of a 13.65 portion of a 61 acre parcel located at 42 Airport Road. The entire parcel is currently split zoned with the subject area zoned HB while the portion adjacent to the west is RM-16. Lots are zoned Commercial Industrial to the south and north as well as Industrial to the north.

This parcel was part of a larger area annexed into the City effective March 31, 2009. At the time of annexation and initial zoning, the parcel was partially developed with a manufactured home community similar to the existing conditions as shown on submitted plans. At the request of the owner, the lot was split zoned with RM-16 and the Manufactured Home Community Overlay on the western two-thirds with Highway Business designated on the section closest to Airport Road with the intent for commercial development on this front end, rather than a continuation of the residential use.

All 13.65 acres included in the petition have previously been used as a manufactured housing community and there are 29 manufactured homes existing on the rear 5.9 acres of the subject area. The applicant is proposing to create 49 new home sites on the front portion (7.75 acres) of the subject area, for a total of 78 residences. This results in just under the allowed maximum residential density for the overlay.

Wellington Drive, Barclay Drive, White Rock Drive and Avalon Drive are existing privately-maintained roads and all three provide connections to the rear of the site and existing manufactured housing community. Two parking spaces are provided at the driveway for each

unit and 10 visitor spaces are required to serve the community. Additionally, a four-foot wide sidewalk is required around and within the development (*see modification section for sidewalk*).

Street trees are required for this expansion as well as ten percent of the project area (1.365 acres) required to be set aside for open space (*see modification section for open space*).

The application is requesting the following standards to be modified, based on existing conditions and constraints and a desire to re-establish the previous development pattern for the site.

1. **Lot width** – 50' of width is required for all lots; *12 lots have less than 50' of width*
2. **Lot size** – a minimum of 5,000 square feet is required; *24 lots have less than 5,000 SF*
3. **Front setback** – a 20' front setback is required; *44 lots have less than 20' front setback*
4. **Property line setback** – units are required to be at least 35' from property lines; *25 lots border the property line*
5. **Street and ROW width** – a 30' ROW and 20' of pavement is required; Avalon, Barclay and White Rock Drives have less than the required standard and no designated ROWs; *no ROW intended and narrow roadways are existing*
6. **Sidewalks** – both internal and along Airport Road; *sidewalk will be added along Airport Road but none is proposed internally since the rest of the community does not have sidewalks and there are narrow streets with no ROWs*
7. **Streetlights** – streetlights are required; *less than the required number of streetlights are provided in this existing roadway network*
8. **Open space** – 10 percent of the project area (1.37 acres) is required to be designated as open space; *insufficient open space is proposed within the project area, the UDO provides for a fee-in-lieu option in this situation.*

This proposal was approved with conditions by the TRC on October 1, 2012. The Planning & Zoning Commission discussed this application at their meeting on November 7, 2012, and recommended approval with a unanimous vote (7-0). No opposition or communication has been received as of the writing of this report.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   Due to the previous use of this site as a manufactured housing community and the existing infrastructure (roads, water, sewer, driveways and concrete pads) the proposed re-establishment is compatible with the features and similar adjacent use.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**

The re-establishment of a manufactured housing community on the subject area is a continuation of the adjacent, existing use and is not expected to injure the value of adjoining or abutting properties. This use has been in place on the adjacent site for decades.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
As a continuation of the existing adjoining manufactured housing community, the proposed use and development is an extension of the character, density, coverage and scale of the neighborhood. However, there are new standards in place for manufactured housing communities since the original establishment of this location, not all of which are in compliance. This does not necessarily create an inharmonious situation.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
The proposed re-establishment of the manufactured home community generally conforms to goals of the City as detailed in the compliance sections of this report. Specifically, the development provides lower-cost residential options and supports and enhances multimodal transportation usage.

Requested modifications to the internal sidewalk and open space are contrary to stated goals of the Manufactured Housing Community Overlay District (Section 7-9-5) promoting the "health, safety and welfare of area residents through the provision of standards for infrastructure and open space." However, existing infrastructure creates site constraints and challenges to compliance.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
This site is located on Airport Road, less than a mile from Hendersonville Road, which places the project in an easily accessible location by car and Asheville transit (S3). The project has been reviewed by the Technical Review Committee and this previously developed site has existing infrastructure in place.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
The City Traffic Engineer has stated that the existing traffic conditions have stabilized and will not be substantially changed by this project.

Pro:

- Provides lower-cost residential options in an area with existing infrastructure.

Con:

- Due to the existing infrastructure layout (utilities, roads), compliance with current standards cannot be met in many instances, resulting in a number of modification requests that are contrary to the goals of the Manufactured Housing Community Overlay District – most notably internal sidewalks and open space.

Staff recommends approval of the rezoning, the extension of the overlay and the site plan, re-establishing the manufactured housing community on this portion of the parent parcel. Staff notes that the layout of this community was put in place prior to the current standards, justifying the difficulty with compliance and the need for the multiple modifications. Staff recommends the applicant pay a fee-in-lieu for deficient open space.

Vice-Mayor Manheimer opened the public hearing at 6:11 p.m.

Mr. Chris Day, engineer for the developer, said that this manufactured housing community has been in existence for the past 40 years. He clarified that actually they will have 41 grandfathered units, which increases the total number of units in the 13.6 acres to 90. Mr. Morosani, the developer, will be building a street in front of their property on Airport Road. He will also be adding street trees in the community, and a new 6-inch water line to a new fire hydrant. Regarding open space, had this been a new development they would have included the open space requirements; however, since this is an existing community, they are requesting that the open space requirement be waived and that they not be required to pay the fee in lieu of payment either.

Mr. Morosani said that he will be adding another 49 units of affordable housing that is very well needed in the south area. He asked Council to consider waiving the fee in lieu of payment for the open space, which will be approximately $50,000.

Vice-Mayor Manheimer closed the public hearing at 6:16 p.m.

In response to Councilman Pelly, Mr. Morosani said that school buses do run through the community and they also have garbage collection.

There was a brief discussion about the need for sidewalks on Airport Road. Because there is a vacant parcel next to Wellington Estates, it was noted that when the outparcel is developed sidewalks along the frontage on Airport Road will also be required.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4141, to approve of the conditional zoning request from Highway Business District to RM-16 Residential Multi-Family High Density District/Conditional Zoning with an extension of the Manufactured Housing Community Overlay district for the project identified as Wellington Estates located at 42 Airport Road including approval of the proposed Site Plan and Extension of the Manufactured Housing Community Overlay, and approval of the modification requests to lot size, lot width, setbacks, street standards, sidewalks, streetlights and open space, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to the issuance of any site development permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10, of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with the ordinance will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards; (6) Easement for a bus shelter is required and must be received and recorded prior to final zoning approval; and (7) Fee in lieu for open space must be received prior to final zoning approval. This motion was seconded by Councilman Hunt.

Councilman Davis spoke in support of the conditional zoning but was unsure about supporting staff's recommendation for a fee in lieu of payment for open space due to the amount of mature trees and number of affordable housing units.

In response to Vice-Mayor Manheimer regarding the use of fee in lieu of funds, City Attorney Oast said that the Code states that "Funds collected in this manner shall be maintained

in a separate account and shall be used to purchase or to enhance recreational use of property necessary to implement features of the greenway master plan or the Parks and Recreation Master Plan of the City of Asheville provided such features are reasonably proximate to the site(s) from which the funds are collected."

Councilman Smith pointed out that south Asheville has not received funding for parks and this would be an excellent opportunity to get a little closer for those amenities in that area.

Councilman Bothwell moved to amend the original motion subject to all conditions except to delete condition 7 (fee in lieu for open space must be received prior to final zoning approval). This motion was seconded by Councilman Davis.

City Attorney Oast asked Council for time to investigate whether waiving the fee in lieu of for open space will require an ordinance amendment. If Council wishes, they can approve the conditional zoning and continue the item on the open space fee waiver until their next meeting.

Councilman Bothwell withdrew his motion to amend the original motion (deletion of condition 7).

Councilman Bothwell then moved to amend the original motion subject to all conditions except for the condition on the open space fee waiver which Council will make a decision at their next meeting. This motion was seconded by Councilman Hunt.

Councilman Smith said that we have a policy in place about open space or a fee in lieu of payment. He felt if we change that policy we may be setting a precedent.

Councilman Bothwell felt this is different than a new development as it is going back to a previous use.

The amended motion made by Councilman Bothwell and seconded by Councilman Hunt carried unanimously.

**ORDINANCE BOOK NO. 28 - PAGE 36**

**V. UNFINISHED BUSINESS:**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 12-253 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH STEWART ENGINEERING INC. TO DEVELOP ARCHITECTURAL AND ENGINEERING CONSTRUCTION DOCUMENTS FOR THE BEAUCATCHER GREENWAY**

Director of Parks, Recreation & Cultural Arts Roderick Simmons said that this is the consideration of a resolution authorizing the City Manager to enter into a contract with Stewart Engineering, Inc. to develop architectural and engineering construction documents for the Beaucatcher Greenway for an amount not to exceed $310,000.

In February 2009, City Council approved the Beaucatcher Greenway identified as a priority greenway in the Parks, Recreation Cultural Arts, and Greenways Master Plan. In that same year, City Council adopted the Asheville Downtown Master Plan that supports the development of vista parks to provide permanent public views of the downtown via the Beaucatcher Greenway.

In September 2009, City Council accepted a grant from the North Carolina Parks and Recreation Trust Fund to support acquisition of the Beaucatcher Overlook property to facilitate

the development of the Beaucatcher Greenway. The grant stipulates greenway development must be complete within a five-year period of the grant award date.

In November 2009, City Council directed staff to proceed with a land exchange with the owners of Festiva to enhance and extend the Beaucatcher Greenway.

Funds in the amount of $1,300,000 to support Beaucatcher Greenway construction drawings and construction were approved in the FY 2011-2012 capital improvement budget.

Staff followed the municipal process to conduct the request for qualifications to seek qualified, professional firms to develop construction documents. Staff received 14 applications, and interviewed four finalists. After thorough review and evaluation, staff recommended Stewart Engineering, Inc., located at 421 Fayetteville Street, Raleigh, North Carolina as the most qualified to perform the architectural and engineering services for the Beaucatcher Greenway.

This action complies with the City Council Strategic Operating Plan in that it contributes to the Multimodal Transportation Goal to integrate and implement a multi-modal transportation plan including sidewalks, bike paths, signal preemption, transit, greenways, streets, rivers and access to the river, and other system improvements resulting in funding priority list. This action also complies with the Parks, Recreation, Cultural Arts and Greenway Master Plan in that it increases the urban network of parks and greenways in the downtown Asheville area.

Pros:

- Expand the ability to provide recreation resources to a number of residences and neighborhoods that can be linked to this corridor
- Provide a unique experience and views with its Appalachian forest setting that overlooks the downtown and distant mountains.
- Implement the original vision of the 1922 Asheville City Plan for a landmark linear park on Beaucatcher Mountain that would benefit the entire community
- Provide a recreational corridor that will unite the Beaucatcher and White Fawn Reservoir Parks that will be developed in the future.

Con:

- Once complete, the project will require additional maintenance resources.

The $310,000 to support the contract is budgeted in the capital improvement budget in the Multi-Modal Investment for greenway development.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a contract with Stewart Engineering, Inc. to develop the architectural and engineering construction documents for the Beaucatcher Greenway for an amount not to exceed $310,000.

In response to Councilman Hunt, Mr. Simmons said that the City should be able to do the entire project for no more than the $1.3 Million already set aside, but that he will also be seeking grant funds.

When Councilman Hunt asked if we anticipated the greenway being routed through Ardmion Park Drive, City Attorney Oast said that the greenway does utilize Ardmion Park Drive. He said they have concluded that it is a dedicated and unopened right-of-way available for this use.

Vice-Mayor Manheimer disclosed that a member of her law firm does represent the Ardmion Park Drive Homeowners Association; however, it is the opinion of City Attorney Oast that it does not present a conflict of interest for her voting on this particular issue.

When Vice-Mayor Manheimer asked for public comments, none were received.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hunt moved for the adoption of Resolution No. 12-253. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 139**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Rev. Christopher Chiaronmonte addressed City Council.

**Closed Session**

At 6:50 p.m., Councilman Pelly moved to go into closed session for the following reason: (1) To consider the qualifications, competence, performance, character, fitness, conditions of appointment, or initial employment of an individual prospective public officer or employee. The statutory authorization is contained in G.S. 143-318.11 (a) (3); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11 (a) (6). This motion was seconded by Councilman Bothwell and carried unanimously.

At 7:25 p.m., Councilman Hunt moved to come out of closed session. This motion was seconded by Councilman Bothwell and carried unanimously.

**VIII. ADJOURNMENT:**

Vice-Mayor Manheimer adjourned the meeting at 7:25 p.m.

Magdalen Bulleson
CITY CLERK

MAYOR

110

Tuesday – December 11, 2012 – 3:30 p.m.
First Floor North Conference Room – City Hall

Worksession

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**Financial Impact Analysis of Water and Sewer Merger Study & Utility Governance Study**

Director of Finance and Management Services Lauren Bradley provided Council with a PowerPoint that covered the financial impact analysis, water financial/valuation assistance, and governance models. Asheville conducted an analysis (1) to provide data and analysis to city Council in response to the charge in the Legislative Committee's report; (2) to evaluate the economic impact of various merger scenarios to all stakeholders - city taxpayers, water ratepayers and sewer rate payers; and (3) to compliment the body of research and analysis conducted by MSD.

She briefly summarized the executive summary presented below which uses the financial analysis included in the Metropolitan Sewerage District of Buncombe County's report entitled "Impact Study on MSD Rate Payers of Proposed Consolidation/Merger," including the projected staffing levels and associated financial impacts of a consolidated utility. In addition, the City of Asheville assumed in its calculations:

- If the sewer utility were consolidated under the City of Asheville, the City would add staffing and other costs to fully replace and provide services that are currently provided by MSD's central service structure. Most of the central service costs for operation of the wastewater utility would be added to the City of Asheville's General Fund and then allocated across the entire organization according to the methodology currently utilized in its Cost Allocation Plan (CAP), resulting in a cost of central services for the sewer utility of $1,901,033.
- A high level cost allocation analysis was conducted in each scenario that involved water and sewer utilities consolidating under the City of Asheville. In each scenario, it was assumed that central service costs will be allocated to the sewer utility in the same percentages that they are allocated to the water utility in the City's current CAP.
- A high level cost allocation analysis was conducted in each scenario that involved water and sewer utilities consolidating under MSD. In each scenario, it was assumed that central service costs would be allocated to the water and sewer utility based on the each utility's respective share of customer accounts.
- An inflationary rate of 3 percent was assumed for salaries, fringe benefits and operating costs.
- Evaluation of cost impacts associated with compensation for utility assets was beyond the scope of this analysis. However, it should be noted that fair compensation for utility assets under either merger scenario would have an economic impact on the owners of those assets. Compensation for fair value of utility assets can come in many forms and over time but is necessary to ensure ownership interest is not diluted in a merger scenario. In addition, payment of compensation for the fair value of either utility system at the future expense of higher water and/or sewer rates should be carefully considered and avoided.

- Fixed costs associated with central services currently paid for by the water utility are quantified as an operating loss to City taxpayers when the utility is consolidated under MSD since those costs cannot be recovered by another non-General Fund source. That amount, in the current year, is estimated to be $1,813,698. Likewise, elimination of the water utility's capital contribution to community infrastructure ("Sullivan Act" allocation) is quantified as a financial loss to City taxpayers under MSD consolidation. That amount, in FY 2014, is estimated to be $1,341,262.
- Dollars presented have not been adjusted for net present value."

She then summarized the options and the findings below, using charts to explain the various options:

Option 1. Consolidation under MSD - Finding: A consolidated utility under MSD does not produce economic benefits to all stakeholders. This model could produce savings for sewer ratepayers while resulting in cost increases for city taxpayers and water ratepayers. Under this scenario, the economic benefit of owning the water utility is transferred from the city taxpayer and to the sewer ratepayer, unless fair compensation is included in such a transfer. Based on the water utility's 2013 budget, the cost to produce a gallon of water sold $.0069. Under this scenario, the potential average annual cost savings to the water ratepayer per gallon sold is $.000048, which would bring the cost per gallon sold to $.00685 - an impact that is less than 1/10th of a quarter of a penny. Said another way, for every 1,000 gallons of water sold, the water system would see a savings of 5 cents. This level of savings would have no impact on future water rates.

Option 2. Consolidation under the City of Asheville - Finding: A consolidated utility under the City of Asheville produces economic benefits to all stakeholders. Under this scenario, the economic benefit of owning the water utility is maintained, to some degree, by the city taxpayer and not transferred to another stakeholder group. At the same time, economies of scale would produce savings within the sewer utility. The cost savings to the water utility, while positive, would likely have an immaterial impact on water rates.

Option 3. Status Quo - Finding: No stakeholders are at risk of economic loss under the status quo scenario. Both utilities are financially stable with solid financial results and strong credit ratings. Both systems have ample capacity to accommodate future demand, and both utilities utilize multi-year financial forecasts to plan and manager capital improvements and utility rates. Water and wastewater rates are projected to remain at affordable levels during the next ten years while funding necessary capital improvements.

Option 4. Functional Consolidation - Finding: All stakeholders could benefit economically from considering functional consolidation in centralized management and administrative functions. The financial analysis of consolidation under MSD and the City shows that the greatest opportunity for cost savings is presented by sharing central service functions, which could be accomplished through an interlocal agreement. Government units can issue debt to finance improvements of utility systems under an interlocal agreement. The efficiencies associated with functional consolidation would be enhanced by avoiding the significant upfront costs of operational consolidation that would be required for new facilities, IT infrastructure and software, transaction costs and other start-up expenses.

There was discussion surrounding the different options outlined by Ms. Bradley.

Mayor Bellamy said we received information that Cane Creek Sewer District has been added and information from a 2009 study which indicates that they have quite a bit of need for improvements. The original Study Commission mandated all the water and sewer systems within Buncombe County be looked at. She felt we needed to see a detailed analysis of what the true impact would be if we added Montreat, Black Mountain, Woodfin, Weaverville, etc. She felt we might consolidate purchases or partner on wholesale infrastructure or something to that effect to

get them to a better scenario. In addition with the recently added Cane Creek Sewer District, she felt we need to see their true needs and how does that cost all of us if we consolidate. We should ask MSD what the model would look like for them to consolidate only with Cane Creek Sewer District (and leave water out). She supported asking our MSD representatives to ask the MSD Board to look at those analyses because water and sewer won't see the same cost savings because they are two different functions.

Mr. Doug Bean, with Raftelis Financial Consultants (RFC), Asheville's water rate consultant, provided Council with a PowerPoint giving a brief overview of the financial assistance; valuation assistance; and governance and regional approaches.

Regarding financial assistance, they were asked to (1) review MSD's "Impact Study on MSD Rate Payers of Proposed Consolidation/Merger"; (2) Review Asheville staff's "Financial Impact Analysis: Water and Sewer Merger Study"; and (3) Assist in updating Asheville's rate model. Regarding the financial review, (1) The financial information used in the rate model is accurate; (2) The indirect cost allocation appears reasonable and is consistent with other similar utilities; and (3) RFC concurs with the information provided in the city's study, the "City of Asheville-Financial Impact Analysis".

Their valuation assistance consisted of (1) Market Approach (a) Based on comparable sales of similar utilities; (b) Can be used for public or private transactions; and (c) Transactions exist for sales of public utilities in NC and across the country; (2) Income Approach (a) Based on the premise that a utility is worth the present value of its future earnings; (b) Current Asheville utility cash flows are positive; and (c) Utility is valued into perpetuity, which cannot be negative or utility will not be able to continue to operate; and (3) Asset/Cost Approach (a) Based on the cost of the existing assets; and (b) Three Methods (i) Replacement Cost, (ii) Reproduction Cost New Less Depreciation "Preferred method for Asset/Cost Approach"; and (iii) Original Cost Less Depreciation (Net Book Value).

He used a chart explaining the reproduction cost new less depreciation.

Their utility governance analysis consisted of (1) identify benefits and regional drives of regional cooperation; (2) research; (3) case studies; and (4) experience. He then reviewed the governance and regional approaches (1) North Carolina utilities; (2) regional cooperative models; (3) regional drivers; (4) legal structures; (5) governance models; (6) case studies; and (7) findings & conclusions.

Key findings are (1) regionalization (a) Most utilities participate in some form of regional collaboration; (b) Primary drivers are financial and capacity; and (c) There are many different regionalization models; and (2) governance (a) No discernible difference in utility performance based on governance structure in North Carolina; (b) The distinction between "accountability vs. business" model is not pronounced in North Carolina; and (c) City Council/County Commission is the most common governance structure.

Two conclusions made are (1) Regional utilities could benefit from additional water system collaborations and additional wastewater collaborations; and (2) Shared services/functional consolidation could achieve timely savings while avoiding the expense and time of changing a governance structure.

Each Council member asked various questions and stated comments that supported Asheville keeping its water system. A major topic of discussion was how the implications of this will be statewide because this is an amendment to general law, not just a local act.

At Mayor Bellamy's suggestion, it was the consensus of Council to send a letter to MSD, through our City representatives, and have them look at (1) an MSD/Cane Creek Sewer District consolidation; (2) a consolidation with the other water districts in Buncombe County per the

Legislative Study Committee, because the only thing that has been looked at was the City of Asheville water system; and (3) the numbers we found in our evaluation to make Asheville whole opposed to the number they put forward, The City of Asheville's water system has an $18 Million healthy Fund Balance which she thought would be wrong to be used to pay for other sewer system improvements.

Mayor Bellamy said that when we send our information to the legislators, we need to inform them of the cost it took to produce all this information and how we did not take this initiative lightly.

Mayor Bellamy acknowledged Representative Susan Fisher in the audience and thanked her for her willingness to hear all sides of the issue.

At 4:42 p.m., Mayor Bellamy adjourned the worksession.

Tuesday – December 11, 2012 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Hunt gave the invocation.

**I. PROCLAMATIONS:**

**A. RESOLUTION NO. 12-255 - RESOLUTION IN MEMORY OF FORMER CITY MANAGER JAMES L. WESTBROOK JR.**

Mayor Bellamy read the resolution in memory of former City Manager James L. Westbrook Jr.

Councilman Davis moved for the adoption of Resolution No. 12-255. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 141**

**B. RECOGNITION OF DR. WESLEY GRANT SR. SOUTHSIDE CENTER RECEIVING THE PLATINUM LEED CERTIFICATION**

Mayor Bellamy was pleased to note that the Dr. Wesley Grant Sr. Southside Center received the City's first Platinum LEED certification. Ms. Jane Mathews spoke about the importance of LEED certification and introduced some of the design and construction team in attendance. Mayor Bellamy thanked Ms. Mathews for her leadership on this project.

At Mayor Bellamy's request, it was the consensus of Council to install a plaque on the Dr. Wesley Grant Sr. Southside Center to include the seated Council and the architect for the project.

**C. EMPLOYEE RECOGNITIONS**

City Manager Jackson recognized (1) Senior Firefighter Jay Bettencourt as Firefighter of the Year for the State of North Carolina; (2) Fire Chief Scott Burnett, Battalion Chief Chris Budzinski and member of Command Staff for the re-affirmation of the Fire Department's accredited agency status from the Center for Performance Excellence; (3) APD Sgt. Louis Tomasetti for receiving the NC Gang Investigator of the Year Award; (4) Superintendent of Water Maintenance Ivan Thomas as 2012 Distribution System Operator of the Year; and (5) Scott Brazil, Tommy Carver, Don Fender, Bobby Roberts, Frank Stroupe, Brandon Yates, Lee Morrison, and Bryan Abbajay for receiving the Road Scholar Certification through North Carolina State's Institute for Transportation Research and Education.

Mayor Bellamy thanked the employees on what they do on behalf of the City of Asheville and City Council. She was proud of City staff and looked forward to highlighting more accomplishments.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 27, 2012**

**B. RESOLUTION NO. 12-256 - RESOLUTION ADOPTING THE 2013 CITY COUNCIL MEETING SCHEDULE**

**RESOLUTION BOOK NO. 35 - PAGE 142**

**C. APPROVAL OF THE 2013 SCHOOL BOARD APPOINTMENT PROCESS**

**D. RESOLUTION NO. 12-257 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH STEPPE CONSTRUCTION INC. FOR THE PROJECT KNOWN AS 2005 AND 2010 ANNEXATION AREA SEWER SYSTEM IMPROVEMENTS**

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $116,521 plus a contingency of 20% ($23,000) with Steppe Construction Inc. for the project known as 2005 & 2010 Annexation Area Sewer System Improvements, City of Asheville Project # SC-05-06-001 & SC-10-11-001.

City Council had approved the Annexation Services Plans for the Airport Road section of the 2005 Annexation area on June 28, 2005, and on May 25, 2010 for the 2010 Airport Road Annexation, respectively. Both of them require that an 8 inch sewer line be installed to bring the service to substantially the same level as other parts of the City. One section of sewer line from the 2005 Annexation is not included in this contract due to the lack of the required easement. We will continue to seek that easement in the future, but did not want to delay the construction of the other sections. The funds for that work will be retained in the 2005 budget for use when the easement is obtained. The project was advertised and on October 30, 2012, bids were opened with Steppe Construction Inc., of Mill Spring, NC, being the lowest responsible bidder with a bid of $116,521: This was well below the Engineer's Estimate of $166,805 and below the $200,000 construction budget set aside for the project. A 20% contingency ($23,000) has been added to allow payment for any unforeseen costs that typically arise during construction. The work produced from contract would help to fulfill the City's obligation as outlined in the 2005 and 2010 Annexation Services Plans for the Airport Road area.

This action complies with the City Council Strategic Operating Plan in that it will enhance the infrastructure within our municipal limits, and fulfill the City's obligation outlined in the 2005 and 2010 annexation of the Airport Road area.

Pros:

- Will allow for the construction of approximately 1,025 linear feet of new sanitary sewer within the Asheville City limits.
- Will fulfill the City's obligation of the 2005 and 2010 annexation of the Airport Road area.
- Will receive funds from MSD's Revenue Sharing program.
- Once turned over to MSD, the City will not be responsible for future maintenance of the sanitary sewer system.

Cons:

- The project will cost the City approximately $116,521.
- Project management and contract administration will consume staff time.

This project will cost approximately $116,521. The budget for this project is already included in the City's adopted Capital Improvement Program. Once the sewer system improvements are completed, MSD's Revenue Sharing Program should provide the City with 50% of all collected fees from the use of this sewer system for the next ten years.

City staff recommends City Council adopt the resolution awarding the contract to Steppe Construction Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $116,521 plus a contingency of 20% ($23,000) with Steppe Construction Inc. for the project known as 2005 and 2010 Annexation Area Sewer System Improvements, City of Asheville Project # SC-05-06-001 and SC-10-11-001.

**RESOLUTION BOOK NO. 35 - PAGE 143**

**E. ORDINANCE NO. 4142 - BUDGET AMENDMENT TO ACCEPT ENERGY EFFICIENCY REBATE FUNDS FROM PROGRESS ENERGY FOR THE FLEET LIGHTING RETROFIT**

Summary: The consideration a budget amendment, in the amount of $21,801, from Progress Energy, to appropriate energy efficiency rebate funds.

The proposed budget amendment is to appropriate energy efficient rebate funds that have been received by the City but not included as part of the adopted General Fund budget. Once accepted these rebate monies will be used to fund operating costs in the City's green and sustainability program.

This action supports Council strategic goals by continuing to identify strategies and costs for maintaining the city's annual energy reduction goal of 4%.

Pro:

- Accepting this rebate check will allow the city to continue investing in improving energy efficiency in public infrastructure.

Con:

- None can be identified.

The $21,801 will be used as revenue to further fund energy efficiency programming.

City staff recommends City Council adopt the budget amendment in the amount of $21,801 to appropriate energy efficiency rebate funds that have been received by the City from Progress Energy.

**F. ORDINANCE NO. 4143 - TECHNICAL BUDGET AMENDMENT TO FUND THE CITY'S ANNUAL CONTRIBUTION TO THE N.C. STATE TREASURER'S OPEB FUND**

Summary: The consideration of a technical budget amendment in the amount of $200,000 from General Insurance Service Fund Reserves to fund the City's annual contribution to the North Carolina State Treasurer's Other Post Employment Benefit (OPEB) Fund.

On December 13, 2011, City Council approved a resolution authorizing the City's participation in the State Treasurer's investment trust for local government OPEB funds and related Trust Agreement beginning with an initial contribution of $3,025,866, which was made during FY 2011-12. For the year ended June 30, 2012, the actuarially determined Net OPEB Obligation totaled $1,849,254. This amount relates to both current and future post-employment retiree health care costs, reduced by actual expenses paid by the City. The prior year's Net OPEB Obligation totaled $3,025,865, which the City subsequently funded in full with reserves held for this purpose. A one-time deposit established an OPEB trust, which is invested through the State Treasurer. While the City is unable to fully fund the current year's Net OPEB Obligation, Council may recall that staff outlined a plan on December 13, 2011, to incrementally increase the City's annual budget allocation in FY 2013 and beyond to meet this annual required contribution.

In order to make that contribution, Council must approve a budget amendment to provide authorization for the appropriation of the cash and the subsequent payment to the North Carolina State Treasurer's OPEB Fund. The contribution is being funded through an appropriation from unassigned internal service fund reserves.

This action complies with City Council's strategic goal to manage the City to the highest level of fiscal responsibility.

Pro:

- Provides budget authorization for the City's annual contribution to the State Treasurer's investment trust for local government OPEB funds and related Trust Agreement.

Con:

- While this payment moves the City closer to meeting its annual required contribution, the City will have to plan for and budget a recurring contribution from the General Fund and other funds in the future.

After funding the initial OPEB liability, as of June 30, 2012, the General Internal Services Fund had $1,393,802 in unrestricted net assets. This additional appropriation of $200,000 will reduce unrestricted net assets to $1,193,802. Staff recommends that this amount remain in the Internal Services Fund to serve as reserves for the City's self-insurance programs.

City staff recommends City Council approve the technical budget amendment in the amount of $200,000 from General Insurance Service Fund Reserves to fund the City's annual contribution to the North Carolina State Treasurer's OPEB Fund.

When Ms. Judy Strong urged the City not to participate in the OPEB Fund but to instead use 401-K for retirements, Director of Finance & Management Services Lauren Bradley said that the OPEB benefits represent health care benefits that have been promised to employees after they retire. The City did discontinue this benefit for new hires. We are legally required to continue to fund that benefit. She also noted that the City does have a 401-K program for retirement.

ORDINANCE BOOK NO. 28 - PAGE 41

**G. ORDINANCE NO. 4144 - BUDGET AMENDMENT TO PURCHASE AND INSTALL A BUS SHELTER AS PART OF CONDITIONAL ZONING OF CHAMBER OF COMMERCE/LENOIR RHYNE UNIVERSITY PROPERTY ON MONTFORD AVENUE**

Summary: The consideration of a budget amendment, in the amount of $16,200, from outside contributions, to purchase and install a bus shelter and concrete pad as part of the conditional zoning of the Chamber of Commerce/Lenoir Rhyne University property.

The Chamber of Commerce and Lenoir Rhyne University are required under a stipulation of the conditional zoning of the property located at 36 Montford Avenue to install a bus shelter at or near the location of the current bus stop. This action was reviewed and approved by City Council on February 28, 2012.

Due to high cost estimates, City staff determined that the City would partner with the Chamber of Commerce and Lenoir Rhyne University via an agreement whereby the Transportation Department would purchase and install the bus shelter and concrete pad as an acceptable method of fulfilling the condition of approval. The property owner will grant the City an appropriate easement to perform all the work and to maintain the shelter in the future.

The total turnkey project cost is $16,200, which will be funded with contributions from the Chamber of Commerce and Lenoir Rhyne University. Due to the impending winter weather, the work will not begin until spring 2013. The project should be completed by the end of the current fiscal year.

This action complies with the City Council 2012-13 Strategic Operating Plan within the fiscal responsibility focus area by leveraging external partnerships for pursuing capital improvements and infrastructure projects.

Pros:

- The City will purchase and install a needed bus shelter and associated concrete pads using funds provided through a conditional zoning process.
- The Chamber of Commerce and Lenoir Rhyne University have provided funds in the amount of $16,200.

Con:

- The City will incur minimal administrative costs.

The total turnkey project cost is $16,200. The minimal administrative costs will be absorbed in the current Transportation Department operating budget.

Staff recommends that City Council adopt a budget amendment in the amount of $16,200 from outside contributions to purchase and install a bus shelter and concrete pad as part of the conditional zoning of the Chamber of Commerce/Lenoir Rhyne University property.

ORDINANCE BOOK NO. 28 - PAGE 43

**H. ORDINANCE NO. 4145 - TECHNICAL BUDGET AMENDMENT TO APPROPRIATE FROM RESERVED FUND BALANCE THE REQUIRED BUDGET AUTHORIZATION FOR PRIOR YEAR CONTRACTS, PURCHASE ORDERS AND OTHER CARRY-OVER APPROPRIATIONS THAT HAVE ROLLED FORWARD TO FISCAL YEAR 2012-13**

Summary: The consideration of a technical budget amendment in each of the City's annual operating funds to appropriate from reserved fund balance the required budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to Fiscal Year 2012-13.

As part of its ongoing operations, the City enters into various contracts and purchase order agreements throughout the fiscal year. When these contracts and purchase orders are entered into, budget funds are encumbered for the full amount of the expected purchase. Often these contract and purchase orders are not fully completed and paid in one fiscal year. North Carolina General Statutes provide authorization for local governments to reserve the unexpended portion of these prior year commitments and roll those budgets forward to the new fiscal year.

As a part of the Fiscal Year (FY) 2011-12 annual audit, staff identified prior year commitments and carry-over appropriations to roll forward to FY 2012-13, and these dollar amounts were deducted from the unassigned fund balance amounts that were reported in the Comprehensive Annual Financial Report. The technical budget amendment will provide authorization to officially appropriate these amounts in the FY 2012-13 budget for each of the City's annual operating funds.

This action complies with City Council's strategic goal to manage the City to the highest level of fiscal responsibility.

Pro:

- Provides budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to FY 2012-13.

Con:

- None.

As noted above this budget amendment simply provides budget authorization for prior year commitments which have already been reserved in the City's FY 2011-12 financial statements. There is no impact on available fund balance in the City's operating funds.

City staff recommends City Council approve the technical budget amendment in each of the City's annual operating funds to appropriate from reserved fund balance the required budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to FY 2012-13.

**ORDINANCE BOOK NO. 28 - PAGE 45**

**I. ORDINANCE NO. 4146 - BUDGET AMENDMENT FOR PHASE III OF RENOVATIONS FOR THE U.S. CELLULAR CENTER**

Summary: The consideration of a budget amendment, in the amount of $1,889,518, to accept funding from various sources to establish a Capital Budget for Phase III of the renovations for the U.S. Cellular Center to meet requirements for the Southern Conference Basketball Tournament and other major events.

The City and its partners have been actively engaged in renovations to the U.S. Cellular Center. This partnership has resulted in continued funding for additional construction. In July 2012, the Buncombe County Tourism Development Authority awarded the City $1.375 Million in Product Development Grant Funds for renovations to the ExploreAsheville.com arena. The City has one remaining payment of $150,000 from the original $2 Million grant awarded in 2010. Buncombe County Commissioners partnered with the City by approving $1,200,000 for the project, of which $73,460 is allocated for the pending renovation phase. The Civic Center Enterprise Fund Capital Improvement Program (CIP) program will provide $130,000 for this

portion of the project. The Asheville ABC Board's Education Fund will provide $25,000 for funding for equipment for ABC educational programming. The U.S. Cellular naming rights agreement will provide $72,118 towards the pending project. There are also some cost savings from previous renovation projects that will be used in the pending project.

Source of Funds:

| | |
|---|---|
| TDA Grant #1 | 150,000 |
| TDA Grant #2 | 1,375,000 |
| Buncombe County | 73,460 |
| CIP | 130,000 |
| ABC | 25,000 |
| US Cellular Naming Rights | 72,118 |
| Savings From Roof | 53,940 |
| Savings from General Project | 10,000 |
| TOTAL | 1,889,518 |

The action supports current and prior Strategic Operating Plan Goals: Fiscal Responsibility, by leveraging internal and external partnerships for pursuing capital improvement projects and infrastructure projects; Green and Sustainable, by taking the City's sustainability program to the next level, which will include plumbing improvements, and energy efficient lighting; and the Job Growth and Community Development Focus Area, by creating more collaborative and effective working partnerships between the City of Asheville, the business community, and other key organizations to effectively manage the City's regulatory environment while accomplishing economic development goals.

The action also complies with the Civic Center Commission's Strategic Plan, as well as recommendations of the 2006 Civic Center Task Force. The action supports the Downtown Master Plan, which calls for a near-term action step to maintain and upgrade the existing Civic Center and Thomas Wolfe Auditorium to serve for at least the next five to ten years.

Pros:

- Action meets the requirements to facilitate the Southern Conference, and the resulting economic impact.
- Action will support improved visitor experience and increased revenue capabilities for the US Cellular Center by increased efficiency for Lobby, more efficient Box Office, and increased opportunities for promoter use of the renovated facility.
- Action leverages significant partnership funding to allow for greater levels of renovation.

Con:

None noted.

Funding already approved by the TDA and Buncombe County, along with Civic Center capital funds as outlined in the five-year Capital Improvement Program totals approximately $1.889 million as noted above. The total cost of Phase III renovations, including the design contract, will likely be between $2.1 and $2.5 million. A portion of the design costs for Phase III have already been budgeted and charged to the Phase II project budget. Staff will move those previously budgeted expenses and offsetting revenue from the Phase II project budget to the Phase III project budget. The construction period will run into the FY 2013-14 budget year, and currently staff anticipates approximately $700,000 in additional construction funding will be available for the project as of July 2013. In addition, staff and US Cellular Center Commission members continue to explore additional revenue sources.

City staff recommends City Council adopt a budget amendment in the amount of $1,889,518, to accept funding from various sources to establish a Capital Budget for Phase III of the renovations for the U.S. Cellular Center to meet requirements for the Southern Conference Basketball Tournament and other major events.

**ORDINANCE BOOK NO. 28 - PAGE 47**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Manheimer moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Davis and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. ECONOMIC DEVELOPMENT COALITION UPDATE

Mayor Bellamy announced that this update will be rescheduled.

### B. DEVELOPMENT SERVICE DEPARTMENT UPDATE

Development Service Department Director Robert Griffin provided Council with information detailing how his Department is is committed to developing a culture of timeliness, accuracy, and consistency in processing, reviewing, and inspecting all projects, improving the customer experience, meeting code and ordinance requirements, and recognizing the economic benefit all applications bring to Asheville.

He then provided information on a change to the front of the City Hall Building. We anticipate this being done around March, 2013.

When Mayor Bellamy suggested that the handicapped access ramp be located on the other side of the front of City Hall, City Manager Jackson said that they will research it and report back to Council.

### C. WATER RESOURCES UPDATE

**RESOLUTION NO. 12-259 - RESOLUTION REAFFIRMING ASHEVILLE'S RETENTION OF ITS WATER SYSTEM**

Project Manager Phil Kleisler updated City Council on the Water Resources process update from November 27 - December 11, 2012. He reviewed with Council the proposal that the MSD Planning Committee received, briefly reviewed the City Council worksession held earlier in the day, reviewed some upcoming meetings, and presented City Council with a proposed resolution reaffirming Asheville's retention of its water system. He then provided Council with the information sharing between the City and MSD.

Councilman Smith moved for the adoption of Resolution No. 12-262, noting that (1) Council remains unanimously opposed to legislation that forces the transfer of the City of Asheville's municipal water system to another entity; (2) Council is committed to leading an effort to achieve cost savings for all stakeholders through shared services of regional utility providers; (3) Council remains convinced that local solution arrived at by an open, collaborative process is preferable to a legislative directed disposition of municipal assets; and (4) The forced taking of the local government infrastructure sets a dangerous precedent in the state of North Carolina, a

precedent that will have a chilling effect on any local government investing in needed infrastructure in the future, thereby endangering business opportunities and economic stability in the state and resulting in job losses for our citizens in Western North Carolina and across the state. This motion was seconded by Councilman Bothwell.

Mr. Barry Summers felt disappointed that the people who want to take our water system will not respect this resolution as seen by their continuing to draft the bill.

Councilman Bothwell noted that both the City's financial analysis of proposals on the table and the analysis by Raftelis demonstrated that if we proceed with the merger proposed by the State legislators that the City ratepayers are subsidizing sewer customers both in Buncombe County and in Henderson County. There are ways we can work with MSD to save money for both entities, but it is not through consolidation. The State is not just taking our water system, they are penalizing the ratepayers.

Mayor Bellamy stressed that this is a general law that can happen to any community in North Carolina.

The motion made by Councilman Smith and seconded by Councilman Bothwell carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 145**

**IV. PUBLIC HEARINGS:**

**A. PUBLIC HEARING TO CONSIDER THE ISSUANCE OF A CONDITIONAL USE PERMIT FOR THE PROJECT IDENTIFIED AS ASHEVILLE-BUNCOMBE TECHNICAL COMMUNITY COLLEGE ALLIED HEALTH & WORKFORCE DEVELOPMENT FACILITY LOCATED AT 240 VICTORIA ROAD TO DEVELOP AN APPROXIMATELY 185,421 SQUARE FOOT EDUCATION FACILITY**

**ORDINANCE NO. 4147 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR THE PROJECT IDENTIFIED AS ASHEVILLE-BUNCOMBE TECHNICAL COMMUNITY COLLEGE ALLIED HEALTH & WORKFORCE DEVELOPMENT FACILITY LOCATED AT 240 VICTORIA ROAD TO DEVELOP AN APPROXIMATELY 185,421 SQUARE FOOT EDUCATION FACILITY**

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process. This process is the issuance of a conditional use permit, which is a quasi-judicial site specific act. At this public hearing, all the testimony needs to be sworn.

All Council members disclosed that they have visited the site and would consider this issue with an open mind on all the matters before them without pre-judgment and that they will make their decision based solely on what is before Council at the hearing. Mayor Bellamy also noted that she received a copy of the minutes of the neighborhood meeting but would base her decision solely on what is before Council.

City Attorney Oast said that as documentary evidence is submitted, he would be noting the entry of that evidence into the record.

City Attorney Oast said that the Authorized Practice Committee of the North Carolina State Bar has issued an advisory opinion that appearing in a representative capacity for a party before a local governmental body in a quasi-judicial proceeding is the practice of law, especially with respect to such aspects of the hearing as examining or cross-examining witnesses, or advocating for legal conclusions or results. This does not prevent persons, including land use professionals, from presenting information or expressing opinions within their knowledge or area of expertise.

After hearing no questions about the procedure, Mayor Bellamy opened the public hearing at 5:59 p.m.

Urban Planner Julia Fields entered into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

Ms. Fields said that this is the consideration of the issuance of a conditional use permit for Asheville-Buncombe Technical Community College Allied Health & Workforce Development Facility located on 240 Victoria Road to develop an approximately 185,421 square foot education facility (Aerial Map - City Exhibit 4).

Ms. Fields said that the applicant, Asheville-Buncombe Technical Community College (AB Tech), is requesting conditional use approval of site plans to construct a new Allied Health and Workforce Development Facility (184,208 square feet) on their campus. As the proposed new facility has a gross floor area of more than 100,000 square feet, this project is being reviewed under the Level III review process (conditional use permit).

The project site, 13.13 acres, is located on PIN 9648.33-4217 and a portion of PIN 9648.33-7732. The small portion of the latter parcel is included so that all parking for the project will be on the same parcel and so that retaining walls will not cross property lines (building code requirement). The portion will be combined with the larger parcel to form one parcel prior to final project approval. The project site currently bears addresses of 240, 101, and 103 Victoria Road. It is the former site of the Saint Genevieve of the Pines School and has been owned and utilized as part of the AB Tech campus for a number of years. The property is zoned Institutional (Site Plan - City Exhibit 5).

AB Tech proposes to demolish all but one (Ivy Building – auditorium/chapel) of the existing structures located on the site to allow for the construction of a building to serve as the new Allied Health and Workforce Facility for the college. The 154,530 square feet of the structure that will be completed at this time will serve as a mixed use facility housing classrooms, laboratories, offices, the campus day care center, and an 832 seat auditorium. [A portion (9,584 square feet) of the fourth floor of the structure and the entire fifth floor (20,094 square feet) of the structure will not be finished at this time (Front Elevation - City Exhibit 6) These areas will be built as a shell with only the framework, corridors to stair towers, stairs, elevators and rough ins of toilet rooms constructed at this time. When the remainder of the building is completed, additional parking or a modification will be required]. The building will be seventy-one feet in height; five stories with a small lower level on a portion of the western side of the structure (location of the child care facility). The building is being designed to be LEED certified.

Approximately 11.9 acres of the site will be graded in preparation for the construction of the facility and accompanying parking. Approximately 10.1 acres will be impervious at completion. The phasing of the project has been designed to allow the existing child care center (which is in a building slated for demolition) to continue to operate until a temporary certificate of occupancy is issued for the new building. At that time the remaining site work will be completed.

Access to the site is (and will remain) via Victoria Road where the two existing access points/drives will be improved. A traffic impact study has been completed and the

recommendations of the study and the City's Traffic Engineer have been adopted in the proposed plans. Five hundred and fifty-eight parking spaces are provided on site; the minimum required by the City is 546. Pedestrian access to Victoria will be afforded in the center of the site with minimal conflicts between pedestrian and vehicular traffic. Sidewalks will be provided along Victoria. A bus shelter will also be provided on Victoria. (Site Plan - City Exhibit 5)

Landscaping required for this project includes building impact landscaping, street trees, street buffer, Type A and B buffers, and vehicular use area landscaping. Fifteen percent of the site is required to be set aside for open space. The plans indicate more than the required amount of open space.

This project was reviewed and approved with conditions by the Technical Review Committee on October 1, 2012. Many of the comments made in the TRC report have been or are being addressed by the development team working closely with City staff.

A meeting with residents of the Livingston Heights community was scheduled for December 5, 2012, to review the project with them. Mr. David Nash, Chief Operations Officer for the Asheville Housing Authority will present their summary of the meeting.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
The project will meet all requirements of the North Carolina Building Code and the City of Asheville and will be reviewed in detail by the North Carolina Department of Insurance and the City of Asheville's Technical Review Committee to ensure compliance with safety requirements.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
As most of the site is already developed with buildings and parking facilities and the site is in an area heavily developed with institutional uses, there are few significant natural features on the site or in the area to be protected. The site is in a very prominent setting elevation-wise which has been taken into consideration in the design. Most of the pine trees that line Victoria Road will be lost due to the development; however, the planting plans propose that a number of pines will be newly planted in respect for the history of the site.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
The parcels in the area surrounding the site are largely occupied by other institutional uses and the site itself has been used for years for educational purposes. Where the project site abuts multi-family or single –family properties, landscape buffering will be provided. The new Allied Health and Workforce Development Facility is expected to be a complimentary use and should not injure the value of adjoining or abutting properties.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
The Allied Health and Workforce Development Facility is proposed to be five stories in height. While this is larger than the educational buildings currently located on the site it is

in keeping with other institutional buildings in the vicinity. Significant vegetation will be provided on the site and open space exceeds that required by the City. The development is compatible with the scale, bulk, coverage and character of the other institutional uses in the area.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
This project supports the comprehensive plan stated goal of "the City working with Asheville-Buncombe Technical Community College to address the needs of the college as it expands". Additionally, the project is proposed to be LEED certified which aligns with greenbuilding and smart growth focuses found in both the comprehensive plan and the City Council's Strategic Operating Plan.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
The proposed project is located on a roadway that serves major institutional uses at present and is served by the S4 transit route. The project has been reviewed by the Technical Review Committee who found that existing infrastructure appears to be adequate and the preliminary review has not revealed any problems for future service to the development.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
The development plans for this project along with the accompanying traffic impact analysis have been reviewed by the City's Traffic Engineer. Several suggested revisions to the originally submitted plans have been made to improve both vehicular and pedestrian traffic.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

The project was reviewed by the Planning and Zoning Commission on November 7, 2012, who unanimously (6-0; Chairman Cannady recused) recommended approval of this application to the Asheville City Council. No one spoke on this matter except members of the development team.

Pros:

- The proposal satisfies an important City goal found in the comprehensive plan of advancing and maintaining the City's role as Western North Carolina's regional education center.
- The applicant will be seeking LEED certification, meeting key "green building" goals of the City.
- The project will provide a much needed state of the art facility for the Asheville-Buncombe Technical Community College on property currently underutilized by the college.
- The historic chapel/auditorium located on the site will be preserved.

Con:

- The building is significantly larger than the existing buildings on the site which may be seen as a negative by some adjoining residents.

Staff recommends approval of the Level III development proposal for the Allied Health and Workforce Development Facility for AB Tech and issuance of a conditional use permit for this facility.

The project was reviewed by the Planning and Zoning Commission on November 7, 2012, who unanimously (6-0; Chairman Cannady recused) recommended approval of this application to the Asheville City Council.

Mr. Scott Donald, architect representing the owner, explained the different floors of the five story facility. As the building rises to the 4th and 5th floors, it will have smaller footprints. Using schematic drawings, he showed the building prospective (Applicant Exhibit 1). He said that they have paid close attention to the massing of the roof and terracing, which will be potential for green roofs. Showing a view from the Wall Street Parking Deck (Applicant Exhibit 2), Mr. Donald said that the elevation they are starting out is 2204 and Mission Hospitals ground floor is approximately 2196. Showing a view from McDowell Street toward the new building (Applicant Exhibit 3) he explained how the building is a much needed project for AB Tech. They showed a picture of what the building impact will look like from the backyard of Livingston Street Apartments (Site Plan - City Exhibit 3; Applicant Exhibit 4). In that rendering, it showed landscape buffers and the site line views, noting that this is a winter view with only a thin line of single row trees that separates the two properties now. There will be several layers of buffering to help mask the building from them. They will also be paying close attention to light pollution and keep the lighting on their property.

Mr. David Nash, Chief Operations Officer for the Housing Authority, briefly outlined the comments made at the neighborhood meeting with the developers. Even though the building is very attractive, based on its scale and location it will be quite prominent above the neighborhood. They do support the development but requested the following: (1) the existing storm water runoff needs to be fully resolved to stop the erosion problems and they are confident that the project engineers will take into account both the current inadequacy of that storm water control system and the increased storm water that will come from this new development; (2) AB Tech consult with residents on Erskine Street about constructing an intentional pedestrian link between this new campus and Erskine Street (at this time he was not sure if the residents would like a bike path or some other formal access); (3) AB Tech include a job training component in the construction of this new facility for participants in the Green Opportunities training programs and other qualified residents of the neighborhood; and (4) AB Tech provide preferential access for our residents who are students at AB Tech to the child care center that will be located in the new building.

Mr. DeWayne Barton, representing Green Opportunities, spoke about how important it is when there is a development like this in the community to include the community. It is good for community members to see them work on their neighborhood. He hoped they can work this out so it benefits everyone.

After rebuttal, Mayor Bellamy closed the public hearing at 6:18 p.m.

When Mayor Bellamy asked about the plan to address the storm water concerns, Mr. Donald said they are looking at the existing infrastructure that goes beyond the site and onto Victoria Road. They have agreed with the neighborhood that the existing basin will be brought up to standards and they will also follow all the City's regulations regarding storm water control.

When Mayor Bellamy asked if a condition needed to be placed on the permit to make sure all storm water issues are addressed, City Attorney Oast said that some, if not all, of the issues will be addressed with this plan. He noted that the TRC recommendations will be included as part of the ordinance.

Mayor Bellamy felt the required buffer between the back of the new building and the Livingston Street Apartments is inadequate and needs to be widened with perhaps evergreens. Mr. Donald said that they can exceed the landscaping standards and agreed to widen the buffer.

Mayor Bellamy asked that the developer continue to talk to the neighborhood (1) about the transition of the existing informal path between the new building and Erskine Street; (2) opportunities for local participation not only in constructions jobs but educational opportunities; and (3) light spilling into the neighborhood. Mr. Donald said that they have agreed to have quarterly meetings with the neighborhood over this three-year project and regarding local participation, they already are using local labor and materials.

Councilman Hunt was concerned that there might be too limited an inclusion of bicycle facilities. The 5% rule for bike racks, which seems to equate to 28 total, seems tiny compared to the potential demand given the populations served. The City had Mission Hospitals include bike lanes on the nearby Mission campus with their recent changes, and this seems like a chance to include more infrastructure as well to connect the areas. After a brief discussion about the width of the road and whether it can be striped for bike lanes, Councilman Hunt asked that City staff and the developer make their best effort to distinguish bike lanes, with possibly share arrows.

In response to Councilman Hunt, City Traffic Engineer Jeff Moore said that there are no plans to reconfigure Victoria Road. He said that this project is well thought out to handle the traffic.

There was a brief discussion, initiative by Councilman Smith, regarding a bus shelter on both sides of the road; however, Transportation Director Ken Putnam used a transit map (City Exhibit 7) to show that through this stretch the bus only goes in one direction.

In response to Mr. Pelly, Mr. Joe Bace, AB Tech Facilities Director, said that they update their Master Plan every five years.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4147, granting a conditional use permit adopted the proposed plan for the Asheville-Buncombe Technical Community College Allied Health & Workforce Development Facility located on 240 Victoria Road to develop an approximately 185,421 square foot education facility, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10 of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with this ordinance, will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards; and (6) The landscape buffer between the building and Livingston Street apartments be widened. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 28 - PAGE 49**

**B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE APPROVED CONDITIONAL USE PERMIT FOR THOMS ESTATE SUBDIVISION LOCATED OFF OF FRENCH WILLOW DRIVE AND BOUNDED BY WILD CHERRY ROAD, BEAVERDAM ROAD AND ELK MOUNTAIN SCENIC HIGHWAY, TO ALLOW CHANGES TO COMMON AREA AMENITIES, SECONDARY FIRE DEPARTMENT ACCESS AND A VARIETY OF ARCHITECTURAL DESIGNS FOR SINGLE FAMILY RESIDENCES**

Due to notice requirements, this public hearing will need to be pulled and rescheduled.

C. **PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO UPDATE OUTDOOR LIGHTING STANDARDS**

**ORDINANCE NO. 4148 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO UPDATE OUTDOOR LIGHTING STANDARDS**

Assistant Planning & Development Director Shannon Tuch said that this was the consideration of an ordinance to amend the Unified Development Ordinance to update the existing standards regulating outdoor lighting. This public hearing was advertised on September 14 and 21, 2012. On September 25, 2012, the public hearing was continued to November 27, 2012. On November 27, the public hearing was continued to this date.

The City of Asheville has had standards regulating outdoor lighting since 1998. More recently in 2008, there was a comprehensive update to those standards and as part of this update, the standards were moved from the *Standards and Specifications Manual* to the UDO where it would be easier for the public to find and reference the necessary standard. This also allowed the various technical departments to share in the review and enforcement of these standards where, at present, outdoor lighting is reviewed by the Department of Public Works (street lights), Building Safety (building lights) and Planning and Development (site lighting).

In 2011, the Department of Public Works in support of the sustainability master plan, announced a multi-year plan to phase in new LED street lights. In order to support this change, a wording amendment would be required to ensure that all new privately installed street lights would match the city's new LED street lighting standards. Since an amendment was required, staff took the opportunity to review all the current standards and see if there were other areas where updates, either for energy efficiency or for other reasons, were warranted and this effort was supported by the Sustainability Advisory Committee on Energy and the Environment (SACEE). A small work group composed primarily of staff from the three technical departments responsible for administering the standards, along with various outside stakeholders that included a neighborhood representative, Progress Energy staff, and the manufacturing industry representatives communicated through meetings and e-mails in order to develop accurate and efficient standards. With a couple exceptions (noted below), the changes are not generally considered substantive and are primarily clarifications and re-organization designed to clarify and expand options for developers and to improve the review process. The primary changes are summarized as follows:

1. **Reorganization of content**. Because the ordinance is reviewed and administered by three separate technical disciplines within the City, re-organizing the content of the ordinance helped clarify who was responsible for which standard. It also helped establish general standards applicable to all lighting, versus those standards that were specific to each discipline.

2. Eliminate standards and language no longer needed as a result of the most recent update to the **NC State Energy Code**.

3. **New definitions** section (b) for:
   - LED Bug rating system
   - Low luminosity lighting – 1,000 lumens or less
   - Low level decorative lighting – 60 lumens or less
   - Very low luminosity lighting – 15 lumens or less
   - Low voltage lighting
   - Other basic terms: Lamp, fully shielded, Seasonal lighting, etc.

Establishing new definitions allowed additional exemptions to be proposed.

4. All new **floodlights** are now banned in the CoA as noted in the definitions and *Prohibitions* section (f). There was some deliberation at the workgroup and SACEE meeting on whether to prohibit any additional floodlights or to go a step further and prohibit and amortize flood lights (similar to unshielded dusk-to-dawn lights). The recommendation to prohibit and amortize leased utility lights are reflected in the draft ordinance with Progress Energy's support. This would not extend to privately owned flood lights which would be grandfathered.

5. There is now an exception in section (i)(4) for **wall mounted fixtures** that use low luminosity lighting (1,000 lumens or less), provided a translucent lens is used that covers the light source. This provides greater a greater range of fixture options.

6. Some more offensive building lighting are now prohibited in section (f)(8). This includes:
   - **Building accent luminous tubes** (LED, neon, fluorescent or other similar technology) in are now required to be shielded, and the exception for trademark structure is now removed.
   - Lighting of an **angled building surface** (i.e., roof pitch) is now prohibited.
   - **Illuminated wall panels**, which had always been prohibited under the sign code, are now also identified as prohibited in the lighting ordinance.

7. Clarify that all lighting, as a general rule, shall be full cutoff and aimed downward, Section (g)(1). Individual exceptions are provided for elsewhere.

8. New **LED standards** were incorporated in section (g)(8).
   - 4,300 Kelvin degree maximum CCT (correlated color temperature) rating to minimize glare.
   - Maximum lumens will be 6,000 in residential districts and 15,000 in commercial districts.
   - Street light BUG ratings shall be no higher than (1-1-1) in residential districts and (3-3-3) in commercial districts.
   - Area light BUG ratings shall be no higher than (3-0-1) for standard area lights and no higher than (3-1-1) for decorative area lights.
   - Building lights are restricted to a rating of (0-0-0)

9. **Lighting of alleys** in section (h)(4)(a)(v) must now use full cutoff design, unless otherwise excepted.

10. **Street lighting** in section (h)(5) sets **lumens** to match LED standards: no greater than 6,000 in residential neighborhoods and no greater than 15,000 in commercial districts. Exceptions are included at intersections where higher light levels are needed. The City standard light must be used.

11. **Street lighting in historic districts** [Section (i)(4)(f)(ii)] may no longer use "non-cutoff" fixtures, but cutoff and semi-cutoff fixtures are still allowed when the historic guidelines require it.

12. An exception for **cutoff post-mounted decorative lights** is removed. Recommended by SACEE, a previous exception to the full cutoff requirement allows a cutoff light no taller than 18-feet and no greater than 9500 lumens to be used.

13. There is now an exception in section (i)(4) for **wall mounted fixtures** that use low luminosity lighting (1,000 lumens or less), provided a translucent lens is used that covers the light source. This provides greater a greater range of fixture options.

14. In an effort to follow the intent of limiting light escape from **daylighted** features, a requirement for glazing (typically used already) and a prohibition to uplight the skylight well were added. It was also clarified that these standards are intended for commercial applications so one and two-family dwellings have been exempted.

This amendment was shared and discussed at the regular Council of Independent Business Owners (CIBO) meeting held on July 13, 2012, where several questions regarding the extent of the changes to the standards were answered. No requests for changes were made.

This amendment was reviewed by SACEE at their May 16, 2012 and again at their November 28, 2012, meeting where the draft changes were supported and recommended to the Planning & Zoning Commission for consideration.

The ordinance was reviewed by the Planning & Zoning Commission at different stages of its development and was finally reviewed and approved at their September 5, 2012, meeting where there was moderate discussion and debate regarding the options for LED area lights. Ultimately, the Commission voted to approve the amendment unanimously (6-0) with the stricter BUG rating standard. Additionally, some members of the Commission also expressed interest and support for strengthening the standard for non LED post-top decorative lights and wanted to encourage consideration of a full cut-off requirement to match Buncombe County's requirement. Support for this was not unanimous and no formal motion was made.

Although the draft ordinance was supported by the Commission, staff decided to hold off on moving the draft to Council when additional opportunities for improvement were identified by city staff in the Building Safety Department. Additional time was taken to review the suggestions and incorporate additional edits. The latest set of changes may not have legally required re-review by the Commission but to ensure that the Commission would be fully aware of all the changes it was decided that the latest draft would return to the Planning & Zoning Commission for a second review at their December 5, 2012, meeting. The most substantial change was to incorporate the recommendation from SACEE to eliminate the cutoff option for non-LED post-top decorative fixtures. At the Planning & Zoning Commission's December 5, 2012, meeting they adopted the draft ordinance unanimously.

This proposal primarily supports the City Council Strategic Operating Plan goal for "Green & Sustainable" and "Safe" with its promotion of energy efficient light fixtures and other standards that better control uplighting, glare, night blindness, and shadows.

Pros:

- Clarifies standards and options for developers and property owners.
- Provides new flexibility and low impact options for owners and designers – reduces the number of existing non-conformities.
- Encourages the use of energy efficient fixtures.
- Limits or discourages unsafe glare.

Cons:

- Will require the removal and/or replacement of utility leased flood lights non-conforming over time when complaints are received.
- Will render some existing lighting designs non-conforming, although it is thought to a small number of isolated cases.

No direct fiscal impact on the ordinance amendment itself. The switch to LED streetlights will have a long-term fiscal benefit to the City through reduced energy costs.

Recommend approval of the proposed wording amendment and find that it is consistent with City adopted plans and goals.

Mayor Bellamy opened the public hearing at 7:38 p.m.

Mr. Dane Barrager, representing the Sustainable Advisory Committee on Energy & the Environment, supported the ordinance because it encourages LED and other more efficient forms of lighting, reduces light pollution, and it conforms with the County's ordinance.

Mayor Bellamy closed the public hearing at 7:40 p.m.

When Councilman Bothwell asked what the standard proof is for trademark lighting, Ms. Tuch said that staff asks for documentation.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4148, This motion was seconded by Councilman Hunt and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 54**

**V. UNFINISHED BUSINESS:**

**A. CONTINUATION OF CONSIDERATION OF OPEN SPACE REQUIREMENTS FOR WELLINGTON ESTATES CONDITIONAL ZONING**

City Attorney Oast said that at the City Council meeting on November 27, Council held a public hearing on the request for conditional zoning for 42 Airport Road, also known as the Wellington Estates Mobile Home Park. The owner/applicant had ceased the mobile home use of the front portion of the property near Airport Road (13.65 acres), and it had been rezoned to Highway Business (HB) at the owner's request. The owner now seeks to reestablish the mobile home use, and is pursuing a conditional zoning to RM16, with a manufactured home overlay, in order to approximate the previous density.

Because it is considered a new development, the City's development standards would ordinarily apply. This includes the requirement that open space be provided, in accordance with 7-11-4 of the City Code. The open space must be publicly accessible, or available to the residents of the development, but may include such things as wetlands, flood plains, steep slope property, and land which is otherwise not suitable for development. The amount required is 500 sq. ft. per unit, not to exceed 10 percent of the development acreage. In this case, that amount is 1.365 acres. The code contains a "fee in lieu of" provision, which allows for a fee equal to the value of the land (computed on a *pro rata* formula) to be paid into a fund for use by the City for recreation/open space in the area near the development. Because the Wellington Estates site was already developed, the owner would have found it difficult to reconfigure it to provide the required open space, so City staff recommended payment of a fee in lieu.

At the Council meeting, some members of Council inquired whether the fee could be waived. The reasoning was that the property was being developed with a form of affordable housing, it is not as dense as the code would allow, and there are a significant number of mature trees on site that the applicant does not propose to remove. Stated another way, the question is not whether the fee in lieu of could be waived, but whether the new/re-established development would be required to comply with the open space ordinance, of which the fee in lieu alternative is a part.

Under the conditional zoning ordinance, City Code Sec. 7-7-8, the same standards and requirements for the corresponding general use district (in this case, RM16) apply within a conditional zoning district, unless modified by the Planning Director (up to a specified threshold) or by the City Council (beyond that threshold). This encompasses a modification that would make compliance with certain code requirements unnecessary. Thus, it appears in this case that Council may modify the open space ordinance as it applies to this property so that compliance with the ordinance is not required, thereby dispensing with the need for the fee in lieu.

If Council decides to modify the requirement in this case, the reasons for doing so should be stated. To the extent that the modification is based on the applicant's representations that existing trees on site will be preserved, it is recommended that a condition be attached to the modification. Such a condition could be the preparation of a tree preservation plan that incorporates some of the requirements from the City's ordinance.

Councilman Davis didn't run the risk of setting a precedent; however, this is reusing affordable property that has mature trees. We should be encouraging this type of adaptive reuse.

Councilman Davis moved to (1) condition the modification that the preparation of a tree preservation plan that incorporates some of the requirements from the City's ordinance; and (2) modify the open space ordinance as it applies to this property so that compliance with the ordinance is not required, thereby dispensing with the need for the fee in lieu, for the stated reasons: (a) the property was being developed with a form of affordable housing, it is not as dense as the code would allow; and (b) there are a significant number of mature trees on site that the applicant does not propose to remove. This motion was seconded by Councilman Bothwell and failed on a 3-4 vote, with Mayor Bellamy, Councilman Bothwell and Councilman Davis voting "yes" and Vice-Mayor Manheimer, Councilman Hunt, Councilman Pelly and Councilman Smith voting "no".

Mayor Bellamy felt we are penalizing someone for bringing back affordable housing and the preservation of mature trees.

Planning & Development Director Judy Daniel confirmed that the developer needs to pay a fee in lieu for deficient open space.

From the audience, Mr. Morosani said that he would leave the mature trees and pay the $50,000 fee in lieu.

At 7:00 p.m., Mayor Bellamy announced a 20-minute recess.

**B. CONSIDERATION OF AN ORDINANCE AMENDING THE BILTMORE PARK TOWN CENTER SIGNAGE PLAN FOR RETAIL TENANT IDENTIFICATION SIGNAGE**

At the petitioner's request, Councilman Hunt moved to continue this matter until February 12, 2012. This motion was seconded by Councilman Bothwell and carried unanimously.

**C. CONFIRMATION OF PERMANENT BOARD OF DIRECTORS FOR THE MUNICIPAL SERVICE DISTRICT FOR DOWNTOWN**

Councilman Hunt said that the BID nominating committee has completed its application review process and is recommending a slate of initial permanent board members for City Council consideration.

At the October 9, 2012, formal meeting, City Council adopted a resolution creating a downtown Municipal Service District, also known as a Business Improvement District, in downtown Asheville. The resolution states "that a permanent board of directors for the BID be

132

appointed no later than December 15, 2012." The resolution does not state how the initial permanent board of directors would come into being and therefore, Council suggested creation of a nominating committee of two City Council members and three interim Board members and the five of those appoint two additional people to bring a recommended slate of initial permanent board members to the City Council.

In addition to Jan Davis and Marc Hunt, the nominating committee consisted of Kim MacQueen, George Saenger, Lou Bissette, and Adrian Vassallo. The application process was advertised and a total of 29 applications from well-qualified candidates were received by the nominating committee through November 16, to ensure consideration. The committee was pleased with applicant response, which made the recommendation process extremely competitive and difficult to narrow down. The application and selection process emphasized diverse representation of the downtown business district to include: major real estate property owner within the BID area (property above $10 million tax value), small/medium real estate property owner within the BID area (property under $10 million tax value), resident living within the BID area, office tenant operating within the BID area, and owner or operator of a retail business or restaurant within the BID area.

The recommended slate of initial permanent board members are:

- John Monroe, Southern Development of NC
- John McKibbon, Aloft Hotel
- David Brown, D.L.B Properties
- Rick Jackson, McGuire, Wood & Bissette
- Jim Samsel, Samsel Architects
- Karen Tessier, Market Connections
- Susan Griffin, downtown resident
- Kim MacQueen, downtown resident
- Mary Robinson, Roberts & Stevens, P.A.
- Ruth Summers, Grove Arcade Foundation
- Michel Baudoin, Bouchon & Creperie Bouchon
- Franzie Charen, Hip Replacements, Asheville Grown Business Alliance
- Stephanie Swepson-Twitty, Eagle Market Street Development Corporation
- Dwight Butner, Vincenzos Restaurant

In addition to the recommended slate of board members, the Asheville City Council shall appoint one board member as an ex-officio voting member of the board, as shall the Buncombe County Commissioners and Asheville Downtown Association. Once these appointments are made, this will bring the total board number to 17.

City Council's resolution to create a BID did not include funding for the current fiscal year. Consideration for funding and options for dedicated revenue streams will be discussed during the upcoming FY 13-14 budget process. City Council is authorized to enter into contract with the entity that is formed (Asheville Downtown Inc.) and would consider the list of proposed services to be provided and projected budget necessary to provide those services prior to July 1, 2013.

This action complies with City Council's Strategic Operating Plan in the goal of Fiscal Responsibility - The City of Asheville will support a stronger more prosperous community by making smart investments that accomplish lasting, tangible returns; Goal 2: Explore alternatives for enhancing the city's long-term financial commitment to master plan implementation, infrastructure maintenance, capital improvements, and public facilities; Objective 4: Seek efficiencies in master plan implementation by identifying plan interdependencies, funding sources and key partnerships.

Per Council's October 9 direction, the nominating committee submits this slate of candidates for favorable consideration for the initial permanent BID board.

Councilman Hunt moved to confirm the recommended slate of initial permanent Board of Director members for the municipal service district for downtown. This motion was seconded by Councilman Davis.

Councilman Smith felt that this type of entity needs to be sensitive to the needs of the homeless downtown. Because of that, he offered a friendly amendment to add two more seats for homelessness system experts. These people would be those that work with downtown homeless populations and who understand the services that are available as well as the conditions that lead people to come into homelessness in the first place. He suggested that the two additional members be drawn from the existing members on the Homeless Initiative Advisory Committee (HIAC). He suggested a schedule that applicants apply by January 8 and those appointments be made on January 22.

Councilman Hunt and Councilman Davis accepted the friendly amendment.

When Councilman Hunt asked if it would be acceptable for the Nominating Committee meet once those applicants are advanced so they can work with them, Councilman Smith thought that was a good idea. Councilman Smith said that the HIAC doesn't meet again until January 14, and it may not be timely to ask them to do the nomination, but as liaison to the HIAC he would be happy to reach out to Chairman David Nash and the membership to solicit names of those who might be interested to be involved.

Councilman Hunt felt that since this will be forming over months, he felt it might be better not to rush the process due to the holidays and wait until February 15. Councilman Smith said that he was trying to get the two new members seated before the first permanent BID Board meeting.

Mayor Bellamy agreed for two service providers on the Board, but didn't see the need for us to appoint from the existing HIAC membership because there is very little racial diversity on the HIAC. She personally supported Michael Woods from the Western Carolina Rescue Ministries.

In response to Councilman Bothwell, Councilman Hunt said the outreach for applicants was strong.

When Councilman Bothwell noted there is no faith organizations represented and the fact that there are several churches in the downtown area, Councilman Davis noted that the Board can't represent every group in Asheville and with a board this large he anticipated vacancies at which time a member from that group could be appointed. Councilman Hunt also noted that Council will have the authority to appoint 1/3 members of the replacement board members and the details of which seats those will be will be worked out in the by-laws.

Ms. Kim MacQueen, member of the Nominating Committee, the Interim BID Board and the initial BID Committee, said that their original program was a clean, green and safe, however, since October the program was geared more toward clean and green oriented with the thought that the safety part be delayed for at least 2-3 years. After talking to BID boards across the state, they operate very strongly with small break-out committees. She sees this board operating with very active working break-out committees. She asked that a single slot be made available for a homelessness system expert, similar to the Downtown Association seat, and then allow as many people as want to work on specific issues to work on the break-out committees.

Mr. Timothy Sadler felt that Rev. Amy Cantrell, Co-Founder of Be Loved Community, would be an excellent asset to the BID Board.

The amended motion made by Councilman Hunt and seconded by Councilman Davis to confirm the recommended slate of initial permanent Board of Director members for the municipal service district for downtown, with the addition of two seats for homelessness system experts carried unanimously.

Councilman Hunt moved to appoint Councilman Davis as the City Council ex-officio voting member of the municipal service district for downtown. This motion was seconded by Councilman Pelly and carried unanimously.

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 12-258 - RESOLUTION SUPPORTING THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT (RADTIP)**

Transportation Planner Dan Baechtold said that this is the consideration of a resolution of support for the road, sidewalk, parking and greenway improvements of the River Arts District Transportation Improvement Project.

The City of Asheville has been engaged in a two-year process to study a portion of the Wilma Dykeman Riverway Plan that has come to be known as the RADTIP (River Arts District Transportation Improvement Project). The RADTIP will construct roadway improvements, sidewalks, bike lanes and greenways along Lyman Street and part of Riverside Drive. The project implements a portion of the Wilma Dykeman Riverway Plan.

This process, which included extensive input from stakeholders and the public, has identified a preferred alignment and preliminary design for the RADTIP. This alignment was presented to the City Council at a joint work session with the Asheville Area Riverfront Redevelopment Commission on November 13, 2012. The design and the results of the study were also presented to the public at an open house on December 6, 2012.

At the November 13th work session, City Council asked staff to re-introduce this item at a regularly scheduled council meeting for formal action. This resolution indicates support by the City of Asheville for the RADTIP project and the preferred alignment.

The project includes upgrades to the roadway, including straightening the sharp curve on Lyman Street, and the addition of stormwater infrastructure, bicycle lanes, sidewalks, on-street parking, greenway multi-use trails, street trees and other amenities.

This project supports the City of Asheville's Strategic Operating Plan under the goals of Multi-Modal Transportation and Job Growth and Community Development. In addition the project supports implementation of numerous master plans including the Wilma Dykeman Riverway Plan, Sustainable Economic Development Plan, Greenway Master Plan, and the 2025 City Development Plan.

Pros:

- The project has received widespread public support.
- All of the options and impacts of the road alignment have been thoroughly studied.
- This project supports key strategic goals of the city.

Con:

- Implementation of the RADTIP will require additional funding and a multi-year investment.

This action does not have an immediate fiscal impact. The resolution does not commit the city to any future expenditures, but it does express support for a multi-million dollar, multi-year capital investment.

City staff recommends that City Council adopt a resolution in support of the River Arts District Transportation Improvement Project.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 12-258. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 144**

**B. ORDINANCE NO. 4149 - FIRST READING OF ORDINANCE GRANTING A FRANCHISE AGREEMENT FOR THE OPERATION OF A TROLLEY BIKE TOUR SERVICE (PUB CYCLE) WITHIN THE CITY OF ASHEVILLE**

Director of Transportation Ken Putnam said that this is the consideration of an ordinance granting a franchise agreement for the operation of a trolley bike tour service (pub cycle) within the City of Asheville.

City staff has been working with a citizen that is interested in starting a trolley bike tour service (pub cycle) within the City of Asheville under the business name of Peech Development, Inc., dba Amazing Pubcycle. Initially, the service would only be allowed in the Central Business District (CBD) and only on city-maintained streets and approved state-maintained streets that have a posted speed limit less than 35 mph. It is the responsibility of the citizen to confirm with the N.C. Dept. of Transportation (NCDOT) that the vehicle can be operated along state-maintained streets within the CBD.

By definition, a trolley bike or party bike, pedibus, cycle pub, beer bike is a multi-passenger human powered vehicle. It is sometimes mistaken for a larger scale pedi-cab, but it is not since it is powered by the passengers while the steering and braking is controlled by a driver who does not provide pedaling power. The vehicle that will be used for this specific business is a pedal-assisted motorized electric vehicle that is licensed with the North Carolina Division of Motor Vehicles as a slow moving vehicle. The vehicle travels at about 6 to 8 mph and has the ability to travel at 25 mph.

The business model includes several themed tours for customers to choose including, but not limited to, a morning spin class, a progressive dinner tour, a brewer-man tour, corporate events, singles mixers, and various fundraisers. The tours would follow specific routes that have been pre-approved by the Transportation Department. Initially, the hours of operation would be between 1:00 pm and 3:00 am Monday through Friday and no restrictions on Saturday, Sunday, and City Holidays. The City reserves the right to change the hours of operation at its sole discretion with a 30-day notice.

The citizen has worked closely with several City departments including the Planning Department, the Transportation Department, the Legal Department, the Asheville Police Department, and the Economic Development Department and at this time, all concerns have been addressed. The citizen is very committed for the business model to be successful and he intends to work closely with staff to make any necessary tweaks during the first year of operation.

The Downtown Commission gave general support for the concept of a trolley bike tour service at their meeting on November 9, 2012. They suggested that the citizen contact the Chamber of Commerce as to the feasibility of using the Chamber as its beginning and ending points since ample off-street parking is available.

136

This action complies with the City Council's Strategic Operating Plan in the Job Growth and Community Development Area by supporting diversified job growth and business development.

This item has been reviewed by the Council's Public Safety Committee and it received the Committee's endorsement on November 26, 2012. The Public Safety Committee agreed with staff to limit the number of franchise agreements to one for the first year so that the possible impacts to existing traffic flow can be analyzed by the Asheville Police Department and the Transportation Department.

Pros:

- Supports diversified job growth and business development.
- Enhances the visitor experience to downtown Asheville.
- No direct fiscal impact to the City.

Cons:

- Could impact vehicular traffic flow.

There is no known fiscal impact for the subject franchise agreement.

Staff recommends that City Council approve an ordinance granting a franchise agreement to Asheville Bike Taxi, LLC for the operation of a trolley bike tour service (pub cycle) within the City of Asheville.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved for the adoption of Ordinance No. 4149 on its first reading. This motion was seconded by Councilman Bothwell and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 72**

**C. RESOLUTION APPROVING REDUCTION OF A COMMUNITY DEVELOPMENT BLOCK GRANT LOAN PAYOFF FOR 64 PINE GROVE AVENUE**

Community Development Analyst Randy Stallings said that this is the consideration of a resolution to settle a Community Development Block Grant rehab loan on 64 Pine Grove Avenue for less than the amount owed.

The City provided a $12,000 amortized and a $27,669.81 deferred CDBG rehabilitation loan to Mary J. Foster in February 2006. Upon the death of Ms. Foster in December 2011, a balance of $8,667.09 remained on the amortized loan. The deferred portion of the loan becomes due and payable only upon sale of the property or a transfer in ownership. The outstanding balance owed to the City at the present time is $36,336.90. Additionally, HomeTrust Bank holds two senior notes totaling $22,810. Total outstanding liens on the property are $59,147.

Ms. Foster's son is the Administrator of the Estate and desires to keep the home in the family by selling same to his niece for $60,000. The 2006 tax assessed value is $95,900. An August 2012 appraisal reflects an "as is" value of $89,000. The appraiser noted that the exterior paint is peeling and Mr. Foster has stated that roof repairs are needed.

The Estate submitted a written offer to settle the account for $15,000, which HCD Committee rejected with a counter offer of $27,252.68. The $27,252.68 counter-offer represents 75% of the outstanding principal balance owed to the City. This amount, if approved by City Council and accepted by the borrower, would represent a satisfaction of both the amortized and deferred portions of the note.

This action meets the Council's Strategic Goals of Affordable, Job Growth and Community Development, as funds received from rehab loan payments are returned to the CDBG pool for future allocation to projects meeting these goals and relevant objectives.

Pros:

- The proposed action will enable the City to immediately recover $27,252.68 for reinvestment in CDBG eligible activities.
- Approval would allow the estate to sell the property free of liens and encumbrances.

Cons:

- Forgiveness of debt could create a precedent for future requests of a similar nature.
- Home is being sold in a non-arms-length transaction substantially below market value.
- No assurance can be provided that the home will not be sold for a significant profit once the City lien has been released.
- Requires the City to forgive $9,084.22 in loan principal, representing a loss of taxpayer funds.

Approval of this request and payment of the approved settlement amount by the estate would return $27,252.68 to the City for reallocation to CDBG eligible activities. If this request is declined or not accepted, the repayment to the City will remain due and payable under the original loan terms.

The Housing and Community Development Committee recommends a reduction of the outstanding balance on the loan from $36,336.90 to $27,252.68 as payment in full, subject to receipt of payment by the City by January 21, 2013, or any approved extension thereof as set forth in the resolution.

Councilman Pelly was concerned about setting a precedent in reducing the loan especially since there is no demonstrated financial hardship and there is significant equity above and beyond what is owed on the house. He would have to vote against this action.

Councilman Hunt was also troubled with setting a precedent because it does seem that there is capacity to fully repay the loan. Therefore, he moved to recover all of the balance and that we do so by requiring $20,000 immediately and finance the residual balance due on both loans combined over 10 years at whatever the prevailing Affordable Housing Trust Fund interest rates that we normally charge.

In response to Vice-Mayor Manheimer, Community Development Director Jeff Staudinger said that there is no policy relative to forgiveness of old CDBG loans. Generally speaking the practice has been that those loans are repaid in full. We have deferred many of those loan packages and since he has worked for the City, none have been forgiven.

In response to Vice-Mayor Manheimer, Mr. Staudinger said that affordability for the household was determined at the time the loan was made. If the household could afford a monthly payment, a monthly payment was agreed to, but the amount necessary to do the necessary repairs if a portion could not be afforded by the household) wasn't seen as an impediment to doing the work and that portion was deferred until the sale or transfer of the property. For this loan, a portion of the loan was a performing loan and a portion of the loan was deferred.

Mr. Staudinger said that there may be a way to do Councilman Hunt's proposal but it cannot be done with CDBG funds less there is an income qualified person living in the house. The family has not provided evidence that an income qualified person would continue to live in the house. In that case, since CDBG funds must always show benefit to low and moderate income persons, that portion of the loan cannot be further deferred with CDBG funds. One option could be that we could look at local funds replacing some of those CDBG funds. This has not been discussed at the Housing & Community Development Committee.

In response to Vice-Mayor Manheimer, Mr. Staudinger said that the death of Ms. Foster triggers repayment due and the need to make arrangements for that deferred portion. We don't press that to happen, but often times this results in a transfer of the property. When the property is transferred and the closing happens in advance and we learn that is happening, then we have to take the action to recover the CDBG funds.

In response to Vice-Mayor Manheimer, Mr. Staudinger said this is a mortgage on the property. A portion of the mortgage was performing and a portion of that was deferred payment of principle and interest.

Councilman Davis was concerned that this was a housing rehab loan in 2006 and in looking at the house now, he wondered what type repairs were made since the roof and gutters need to be replaced, the house needs to be repainted, etc. Mr. Staudinger replied that the rehab records were found for this property so we have full documentation of the rehab. There was significant rehabilitation work for the property, which included replacement of all appliances and rebuilding of the kitchen, replacement of the bathroom, roof replacement (which at that time may have been a partial roof replacement), etc.

After further discussion, at Mayor Bellamy's suggestion, it was the consensus of Council to refer this back to the Housing & Community Development Committee to rethink this process not only for this issue but if we get the PACE Program using sustainability funds.

Councilman Hunt withdrew his motion.

Vice-Mayor Manheimer felt it would be helpful to have some policy going forward for future review of these type issues.

**D. RESOLUTION NO. 12-260 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN AMENDMENT TO A CONSERVATION EASEMENT TO THE CONSERVATION TRUST FOR NORTH CAROLINA APPLICABLE TO THE NORTH FORK AND BEE TREE RESERVOIR WATERSHEDS**

City Attorney Oast said that this is the consideration of a resolution authorizing amendment of the Conservation Easement applicable to the North Fork and Bee Tree reservoir watersheds.

The North Fork and Bee Tree Reservoir Watersheds are subject to a conservation easement held by the Conservation Trust for North Carolina (herein "CTNC"). This easement was entered into in 1996, and was one of the first in North Carolina. One of the recommendations of the 2011-12 Legislative Research Committee studying the water system was for the City to work with CTNC to clarify the easement to aid in the protection of the drinking water used by the water system.

Individuals experienced in the field of conservation easements, including attorneys and conservationists, have reviewed the 1996 easement and have identified several ways in which the North Fork/Bee Tree Watershed easement might be revised to make it more consistent with current recommended practices. With this in mind, we have been working with Greg Gregory of the Asheville law firm of Marshall, Roth & Gregory to revise the easement. Mr. Gregory has

experience working with conservation organizations and conservation easements, and has ready access to other experts in the field.

He has met with Mr. Gregory on several occasions, and discussed several areas in the easement that should be considered for review and possible revision. They also reviewed information supplied by other conservation organizations, including the Southern Appalachian Land Conservancy and the Conservation Trust for North Carolina, as well as the easement for the Waynesville watershed, which is more recent than the North Fork/Bee Tree Watershed easement. Bearing in mind that the primary purpose of the watershed is to be a source of raw water for the water system, there is considerable overlap between that purpose and the purposes of land conservation. However, there are some areas where clarification is advisable.

1. Forest Management. The watershed was logged in the early part of the 1900's (before the City acquired it), but is now thickly forested. While one purpose of a conservation easement is to keep land in a natural or undisturbed state, some management of the forest within the watershed is needed to ensure that the watershed fulfills its primary purpose of providing drinking water. A forestry management plan was prepared in 2004, but has not been implemented. Forestry management goes much beyond harvest-oriented logging to include such issues as road and trail maintenance and construction, stream health, fire control and emergency access, and control of invasive plants and insects. Active maintenance in these areas can be critical to maintaining forest health for drinking water purposes.

The revised easement provides for the development of a detailed forest stewardship and property management plan, including wildlife and plant inventories, habitat protection, invasive species control, and stream buffers. Commercial logging of any kind is prohibited; to the extent that selective harvesting of trees is needed to maintain the watershed, prior notification and a plan are required.

2. Recreation/Other Uses. The current easement allows the use of the watershed property for recreation purposes not inconsistent with the watershed use. The City has previously allowed a segment of the mountains to sea trail to cross the upper end of the watershed property. Other uses, such as the filming of "The Hunger Games" movie, have occurred there. The range of permitted uses – other than water production and related uses - - has been more clearly defined. In essence, there is no commercial use of the property permitted, and no recreational use, except with permission of the Grantee. While this is a broad prohibition, the easement contained language that would allow for "other uses" that do not impair the conservation values, such as educational or research activities; or "any use for which a large, undeveloped tract of property is necessary or desirable."

3. Water Production. The revised easement affirmatively allows for use of the property for drinking water production. He showed a map which clearly identified the areas where the production facilities are located, and provided that such facilities may be enlarged, replaced, and maintained to ensure continued production of drinking water. The areas on which these facilities are located are excluded from the easement. Expansion of facilities on to the easement area is permitted if necessary for water production.

4. Enforcement. The revised easement contains more detailed provision regarding the Grantee's rights as to enforcement. Specifically, the revised easement allows access to Grantee to ensure compliance with the terms of the easement regarding water production activities, and other activities by the City. The easement also contains provisions, typical of many such arrangements, for notice of violation of the easement terms, and an opportunity to cure.

5. Surveys/Plats. As noted above, the easement provides for preparation of forest stewardship and property management plans. The responsibility for performing this work rests with the Grantor and Grantee jointly, with no allocation of responsibility for performing or paying for it. We have been advised that CTNC has obtained a commitment for funding for the initial plans, and the easement now reflects that. Subsequent updates (every 10 years) will be the City's responsibility, subject to annual budgetary allocation. Additional grant funding may be available for this in the future.

Similarly, the watershed property and its internal areas (impoundment area, water production facilities) have not been surveyed. A survey is the most precise way of identifying property boundaries, and the areas within the property. As with the forestry and property management plans, this survey work is important to fulfilling purposes of the easement, but it is recognized that the cost of completing it is substantial. Grant funding may also be available for some or all of this work. The City and CTNC could agree, via joint memorandum or letter, to cooperate in seeking funding for and facilitating the survey work.

While a survey does not yet exist, a written description does, and this is sufficient for purposes of the easement. A map has been prepared from the written description supplemented with GIS information, showing the boundaries and the location of the impoundment areas and water production facilities. The easement makes reference to this map. As survey work is completed, the easement can be amended to refer to it.

6. Binding Effect/Eminent Domain. The revised easement runs within the land, and would continue to be binding on the successors and assigns of the parties. An easement has value as an interest in land. If the property were taken for use by a governmental agency and the easement terminated, the holder of the easement is entitled to compensation for the value of the interest or partial interest taken.

7. Finalization/Recordation. This is an amendment to an existing easement, not the original grant of the easement. The statutes applicable to the granting of easements by cities provide for several ways to accomplish the grant. One method consistent with the original authorization in 1996 is to authorize the execution of the amendment, direct the clerk to publish a notice of the City's intent, and to finalize the transaction ten days after the advertisement has run. Using this method, the transaction could be completed by year's end.

This action is consistent with the recommendations of the legislative research commission, and consistent with the City's desire to maintain and improve the water system, as expressed in Resolution No. 12-36, adopted in February 2012.

Pros:

- Fulfills legislative request
- Strengthens protections for watershed
- Clarifies some ambiguities in current document
- Recognizes and preserves primary purpose of drinking water production

Cons:

- Limits flexibility with regard to other consistent uses of property
- Unknown cost of 10 year updates to plans.

Adoption of the resolution has no immediate financial impact. The cost of future surveys and plan updates would be included in the Water Resources Fund budget.

Adoption of the resolution is recommended.

Mr. Gregory explained what a conservation easement is and reviewed in detail the outlined above by City Attorney Oast.

Councilman Hunt said that years ago our leaders and citizens clearly had a vision that acquiring pristine forested watershed to ensure the quality of drinking water was very important, and in 1996 the conservation easement was adopted. Since 1996 the skill and thoroughness of understanding how conservation easements work and skill of attorneys at drafting them effectively has come a long way. We have many conservation easements on nearby watersheds, e.g., Woodfin, Waynesville, Sylva, Andrews, Bryson City, etc. All those easements are significant improvements and provide more thorough and certain protection for these conservation values. He felt that CTNC is an excellent reliable partner to adopt to the changing environment. This is a step to make sure that the original easement matches our practices in protecting the watershed.

Councilman Hunt moved for the adoption of Resolution No. 12-260, subject to minor editing changes. This motion was seconded by Councilman Bothwell.

Mr. Gregory said that this amended easement is subject to minor editing changes, noting that even there is no commercial recreation is allowed, the City would be able to request certain uses that are not served in the laundry list and, as long as the request does not impair the conservation values the property, the approval of that use would not be unreasonably denied or withheld by the CTNC. The CTNC would be able to impose conditions on that and that clause or term would only last so long as the City is still the owner of the property.

Mayor Bellamy asked several pertinent questions and received responses as follows:

1. Looking at other conservation easements, does the CTNC compensate the entity?
   Mr. Gregory said there can be easements of purchase or a bargain sale, but that is not the approach with this one, noting the easement already exists and we are only amending and restating it. No dollars have been exchanged.

2. The easement states that there is some buy-in effect and if we are to break the easement we have to compensate CTNC. What is the basis of that compensation?
   Mr. Gregory said that the CTNC is a 501 (c) (3) non-profit and they have certain duties they have to comply with in terms of holding these easements. From 1996 they already have a present compensable property right in this property that if there were any kind of condemnation that award is split between the property owner and the easement holder.

3. Concern that if the water system is taken from us by the State gives us a check through MSD, according to this easement, we have to split it with CTNC.
   Mr. Gregory said that is by operation of the law. Even if that clause were not in there, it would be split between the two entities because part of the property right with what an appraiser could attach a dollar value to that is already owned by the CTNC. The reason why that clause is in there is to clarify and state the existing state of facts.

   Vice-Mayor Manheimer said that if the system is somehow transferred to MSD and it includes this property, it would still be subject to an easement. The City may lose title entirely to the property, but it would still be subject to the conservation easement.

Mr. Gregory said that there may be some compensation due to the property owner at that point, but if the conservation easement is not interfered with, none of that compensation would go to the CTNC.

The legislators have a broad range of options. They could take the property subject to the easement or eliminate the easement.

4. What is the term of the conservation easement? We are saying that whatever happens to the watershed, City Council doesn't have any final say-so over it or how its run. We do have a responsibility to pay for and implement the forest management plan and update it every 10 years. We also have to prepare forest stewardship and property management plans, that are not even approved by City Council. We also don't know how much those will cost but we still need to implement it. We are binding future councils and are giving up ultimate authority over the watersheds.

   Mr. Gregory said that this easement is in perpetuity, forever. The grant has already been made in 1996 and that was perpetual as well. The language of the document is that broad enough to include potential funding or cost sharing to see if grant monies are available.

   City Attorney Oast said that we are relinquishing a greater degree of discretion than we had under the previous conservation easement. This is the product of the work done and shared with the Planning & Economic Development Committee. This is a policy decision for City Council. While it is true we are relinquishing some additional discretion with this amended easement, there was already a lot we couldn't do with the property.

5. This easement calls for disputes to go straight to court. She asked for some language to say that if after 30 days the dispute has not been taken care of, that we go to mediation opposed directly to court.

6. It's clear that the Grantor has access to the grounds for improving the water quality, but the Grantee has unlimited access. It should also be limited for the Grantee as well.

7. Regarding termination, it reads that the Grantee shall be entitled to a percentage of the gross sale proceeds or condemnation award. That language should be clarified because it's not clear that if the City receives some money from the property being taken from us; it still reads as if CTNC gets a portion of that money even if the easement continues to go with the land.

8. If the CTNC cannot fulfill its obligations, why doesn't it come back to City Council for reconsideration instead of being assigned to Southern Appalachian Highland Conservancy listed, which is a Tennessee corporation? And, shouldn't there be a provision in the easement to let the Grantor know of the assignment?

   City Attorney Oast said the Southern Appalachian Highland Conservancy does have a strong presence here in Asheville. We thought it was important to have a back-up holder of the same stature as CTNC.

   Mr. Gregory said that the original easement has a back-up holder named the Nature Conservancy and part of the effort was to take it from a national organization as a back-up holder to someone local. The assignability of this document is the assigned by the holder already. He said said that a notice provision can certainly be added to the easement.

9. Mayor Bellamy asked if language could be included in the easement that specifically states that the Grantor retains the right to determine the ultimate use and distribution of the drinking water produced by the protected property.

Vice-Mayor Manheimer felt that Article III spells out quite clearly that the property is to be used for water supply.

Mr. Gregory said that the language in the first paragraph of Article III can be clarified to make it explicit that the Grantor undertake those uses.

Throughout Council discussion, Mr. Gregory and City Attorney Oast continued to respond to various questions/comments from other members of Council.

Councilman Davis felt this amended conservation easement goes beyond of what he anticipated. We have been good stewards of this property for many years.

Councilman Hunt said that there is a generous donor that often supports land conservation in different parts of the state and the CTNC has approached that donor and has received a tentative indication that he will fund those plan costs.

Councilman Bothwell understood these changes are making the conservation easement less brittle, because it doesn't say "yes" or "no" but at the same time it gives us better protection.

In response to Councilman Pelly, City Attorney Oast said that even though the State can terminate or condemn the easement that does not mean they wouldn't have to pay the holder of the easement the value of the rights that were taken.

In response to Councilman Davis, Water Resources Director Steve Shoaf said that his interest is protecting the water quality. He felt that the amended easement meets their needs in terms of water production. He agreed that we have done a good job in protecting this area and they have been interpreting the conservation easement to the strictest sense. The area that concerned him is able to be addressed under the amended conservation easement - the health of the forest in that we have a risk of forest fires due to dead fall and litter build-up, we need to be keeping track of that so that we don't have a catastrophic event on the watershed that would disrupt water quality. This amended easement will address that and we will be keeping a closer eye on the condition of the watershed. We have a written management plan but basically our approach is hands off. No one goes in and we have a staff of two that monitors and a hired security guard that helps monitor.

Councilman Smith will support this amended easement because he feels it is being standardized and modernizing. It was requested by the Legislative Study Committee to clarify the easement and was pleased that we may have someone to fund the plans.

Vice-Mayor Manheimer said there was strong community support for this conservation easement. We are ready for a long-term commitment in terms of the use of the property and the protection of it going forward and the point is to bind future councils. We are helping them make the future decision to always protect the property for this stated purpose.

Mr. Steve Schulte, Asheville resident, questioned what the legal relationship is between the protected property, the CTNC trust that holds that protected property, and the actual water (liquid). He asked for clarification on what the other uses would be allowed regarding recreation and if any of those uses involve the liquid water. He felt there are two issues (1) who distributes the water; and (2) who owns the water, who controls it and what rights do we really have to it. The right for us to use and distribute water does not exist in that document and the easement should be amended to include that language.

Mr. Bob Gale, Ecologist and Public Lands Director for the Western North Carolina Alliance, spoke in support of the amended conservation easement.

Mr. Hugh Erwin, Conservation Planner with the Wilderness Society, supported the amendments to the conservation easements.

City Attorney Oast said that the purpose of the conservation easement is to preserve the pristineness of the watershed and the forest resources within it. He then responded to the questions raised by Mr. Schulte.

Mayor Bellamy said that if we don't use the property anymore for water, the Grantee gets to set forth the rights of what will happen. Mr. Gregory said there are other consistent uses, like protecting and managing the forest and habitat, but he didn't think the easement contemplates that it would not be used for water. That is the number one use that is trying to be protected.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

The motion made by Councilman Hunt and seconded by Councilman Bothwell, subject to minor editing changes discussed, carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 147**

**E. RESOLUTION NO. 12-261 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR A GRANT THROUGH THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY FUND**

Assistant City Manager Jeff Richardson said that this is the consideration of a resolution authorizing the City Manger to apply for grant funding from the Tourism Product Development Fund (TPDF) during the 2013 funding cycle for the (1) Phase I of the "River to Ridge" initiative, a multi-modal approach to connecting visitors from the River Arts District to Overlook Park in downtown Asheville through a phased series of projects and (2) Phase III renovations at U.S. Cellular Center.

The Buncombe County Tourism Development Authority's Tourism Product Development Fund (TPDF) was created by the State Legislature in 2001. This makes funding possible for tourism projects that will increase the number of overnight stays by visitors in Buncombe County lodging properties. Project requirements must (1) increase lodging nights; (2) be shovel ready; and (3) matching funds.

The City has previously received TPDF funding for the Wayfinding Partnership and two phases of upgrades to the U.S. Cellular Center, including the ExploreAsheville.com Arena. Additionally, the WNC Soccer Foundation received $400,000 of funding for the City's John B. Lewis Soccer complex in 2002, 2004, and 2009. A history of all projects that have received TPDF funding is available on the website.

A "Frequently Asked Questions" information sheet that outlines the criteria and funding process for the TPDF is available on the website. This document answers many of the questions about the guidelines and eligibility for funding of projects.

In an effort to leverage resources and build on priorities in the City's strategic operating plan, develop partnerships with the Tourism Development Authority, and meet core funding criteria of the TPDF, staff has identified two projects for this year's funding cycle. Given that the TPDF does not fund design work, all preliminary work will be completed by the City.

The current year project requests will be for (1) U.S. Cellular Center renovations Phase III (a) TDA request is $850,000; (b) mezzanine level renovations to Explore Asheville.com Arena, club level amenities/additional meeting rooms; and (c) City match - $505,000; and (2) Phase I: River to Ridge Initiative: Overlook Park Development (a) TDA request is $1 Million; (b) overlooks, picnic areas, lighting, benches, signage, park entrance improvements, trash bins; and (c) City match - $1 Million.

This action supports the City's strategic priorities to invest in infrastructure and facilities while leveraging diverse sources of revenue to implement goals included in the City's master plans.

Pros:

- Allows the City to apply for revenue sources - outside of property taxes – to address infrastructure and other high priority projects.
- Like the U.S. Cellular Center project, the River to Ridge initiative is a multi-year, multi-phase project that would provide an opportunity to apply for funds in future TPDF cycles.

Cons:

- Projects must be "shovel ready" and include matching dollars; therefore, the City must program funds in the five-year CIP for land acquisition, design and other preliminary work to make projects eligible for future grant cycles. Funding is not guaranteed, and so the City would either have to delay projects or program contingency funding for construction if grant funds were not awarded.

Funding awarded during the 2013 cycle would allow the City to accelerate the Greenway Master Plan, the Wilma Dykeman Riverway Plan, the Bicycle and Pedestrian Plan and complete Phase III renovations to the U.S Cellular Center. Cost estimates for additional project components are being developed at this time and will be available by the time applications are due in January. CIP funding has been budgeted for components of both recommended projects. If grant funding was awarded for these projects, the projects could either be extended or CIP funds could be directed to other projects.

Future year considerations for 2014, 2015 and 2016 will be (1) Phase II: River to Ridge Initiative: Town Branch Connection; (2) Phase III: River to Ridge: Depot Street Connector and Clingman Forest Greenway; and (3) Nature Center Visitors Enhancement Project.

City staff recommends City Council approve the resolution as proposed.
